FUNDING

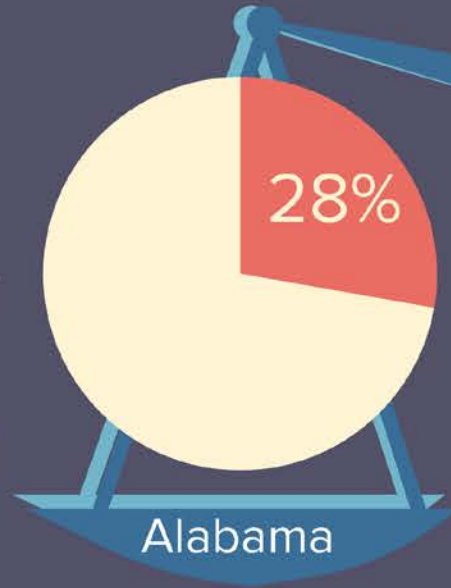

Arkansas public school employees already contribute the **largest** portion of their health insurance.

As healthcare costs **skyrocket**, a broken funding mechanism means the state is contributing a smaller share each year.

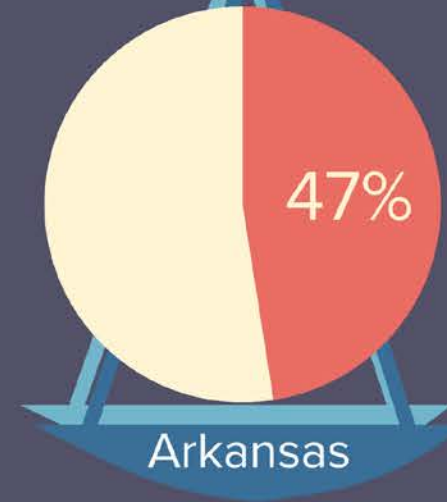

OUT OF BALANCE

Educators in **AL** only pay **28%** of their health insurance costs.

Alabama

Educators in **AR** pay a whopping **47%** of their health insurance costs.

Arkansas

ARKANSAS EDUCATORS

have risked their *HEALTH* to show
up for our students.

DESERVE decent health insurance.
