

1 INTERIM RESOLUTION 2015-002

2  
3 REQUESTING THE ARKANSAS LEGISLATIVE COUNCIL DESIGNATE THE MONTH  
4 OF MAY 2015 AS "CYSTIC FIBROSIS AWARENESS MONTH" IN ARKANSAS.  
5

6 WHEREAS, cystic fibrosis, commonly referred to as "CF", is a genetic  
7 disease affecting approximately thirty thousand (30,000) children and adults  
8 in the United States and nearly seventy thousand (70,000) children and adults  
9 worldwide, more than two hundred fifty (250) of whom live in this state; and  
10

11 WHEREAS, cystic fibrosis is caused by a defective gene that causes the  
12 body to produce an abnormally thick, sticky mucus that clogs the lungs, and  
13 these secretions produce life-threatening lung infections and obstruct the  
14 pancreas, preventing digestive enzymes from reaching the intestines to help  
15 break down and absorb food; and  
16

17 WHEREAS, more than ten million (10,000,000) Americans are symptomless  
18 carriers of the defective cystic fibrosis gene, and cystic fibrosis occurs in  
19 approximately one (1) of every three thousand five hundred (3,500) live births  
20 in the United States; and  
21

22 WHEREAS, the median age of survival for a person with cystic fibrosis is  
23 forty-one and one-tenth (41.1) years; and  
24

25 WHEREAS, with advances in the treatment of cystic fibrosis, the number  
26 of adults with cystic fibrosis has steadily grown, and approximately one  
27 thousand (1,000) new cases of cystic fibrosis are diagnosed each year; and  
28

29 WHEREAS, nearly fifty percent (50%) of the cystic fibrosis population is  
30 eighteen (18) years of age and older, and people with cystic fibrosis have a  
31 variety of symptoms attributed to the more than one thousand eight hundred  
32 (1,800) mutations of the cystic fibrosis gene; and  
33

34 WHEREAS, infant blood screening to detect genetic defects is the most  
35 reliable and least costly method to identify persons likely to have cystic  
36 fibrosis; and

34  
35  
36

WHEREAS, early diagnosis of cystic fibrosis permits early treatment and enhances quality of life and longevity, and the treatment of cystic fibrosis depends on the stage of the disease and the organs involved; and

WHEREAS, clearing mucus from the lungs is an important part of the daily cystic fibrosis treatment regimen, and other types of treatments include inhaled antibiotics and pancreatic enzymes, among others; and

WHEREAS, there are two (2) world-class treatment centers in this state that specialize in the diagnosis of cystic fibrosis and the care of persons with cystic fibrosis; and

WHEREAS, a critical component of treating patients with cystic fibrosis includes access to innovative treatments which can play a crucial role in the lives of patients with cystic fibrosis; and

WHEREAS, improving the length and quality of life for people with cystic fibrosis starts with awareness,

NOW THEREFORE,  
BE IT RESOLVED BY THE ARKANSAS LEGISLATIVE COUNCIL OF THE NINETIETH GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

THAT the month of May 2015 is designated as "Cystic Fibrosis Awareness Month" in Arkansas.

Respectfully submitted,

Representative Greg Leding  
District 86
