House Bill 1146

(As Engrossed March 3, 2011)
Actuarial Cost Study prepared for
Joint Committee on Public Retirement and Social Security Programs
of the Arkansas 88th General Assembly

Provisions of the Bill

House Bill 1146 affects the Arkansas Public Employees Retirement System ("APERS").

Current law credits most elected officials with 2 years of credited service for each year worked. This is usually referred to as "2 for 1" service credit. Current law limits this type of credit to 10 years for those elected after July 1, 1999 or those participating in the contributory plan. House Bill 1146 does not change the "2 for 1" service credit, but it requires the employer to pay 8.25% of payroll in addition to the regular contribution rate. This would only be effective for those beginning to serve in elected office for the first time on or after July 1, 2011.

Fiscal Impact

Based on the current members of the system with elected service, House Bill 1146 would ultimately increase contributions to the system by \$2,500,000. This would happen over several years as new elected officials become members. Using the current members with elected service, we estimate that about \$1,000,000 new payroll would be subject to the surcharge per year, so that the increase in contributions would be about \$82,500 each year the first several years of implementation.

Other Information

The surcharge was determined through discussions with the sponsors based on current members of the contributory portion of APERS that have elective service. The amount was calculated based on the additional normal cost and change in accrued liability for this group with and without the current elective service credit.

Related Legislation

House Bill 1019 also deals with "2 for 1" service credit. That bill would eliminate the additional service credit for future elected officials. If either House Bill 1019 or House Bill 1146 passes, the other bill would not be necessary.

Sincerely,

Jody Carreiro, A.S.A, M.A.A.A.
