(viii) Whether the adoptive parent or parents were aware of the identity the father; and

(ix) Any other factor that in the opinion of the court is material to the general issue or otherwise provided by law.

(b) The General Assembly finds that:

(1) Public school student transportation is currently funded on a per-student basis as part of the foundation funding formula, under which each Arkansas school district receives the same amount of per-student funding for student transportation;

(2) The actual costs of providing student transportation vary widely among Arkansas school districts, and consequently the state student transportation funding for some districts is well below actual transportation costs while for other school districts it is well above actual transportation costs;

(3) There is no persuasive reason to provide each Arkansas school district the same amount of per-student funding for student transportation without regard to a district's actual student transportation costs;

(4) As discussed in the Odden and Picus 2006 report, "Recalibrating the Arkansas School Funding Structure", student transportation costs were included in the foundation funding formula until a separate standards-based funding formula could be developed;

(5) A standards-based student transportation funding formula based on route miles that would accurately and fairly fund the student transportation costs

of Arkansas school districts has been developed:

(6) The Bureau of Legislative Research presented a standards-based student transportation funding formula to the House Committee on Education and the Senate Committee on Education for the 2008, 2010, 2012, and 2014 adequacy studies; and

(7) The student transportation funding formula presented by the bureau would be ninety-eight percent (98%) accurate in funding school districts' actual student transportation costs.

(c) Beginning with the 2015-2016 school year, the Department of Education shall provide to a school district annual state funding for student transportation based on the school district's student transportation costs as determined by a standards-based formula in which student transportation cost is a function of a school district's historical route miles.

(d) Except as provided under subsection (e) of this section, all student transportation funding provided under this subchapter shall be distributed as provided under this section.

(e) To provide a smooth transition to accurate student transportation funding, the department shall distribute student transportation funding to a school district under this section in an amount that is:

(1) For the 2015-2016 school year, not less than seventy-five percent (75%) of the amount of funding within the per-student foundation funding amount for the 2014-2015 school year that represents the calculation for student transportation;

(2) For the 2016-2017 school year, not less than fifty percent (50%) of the amount of funding within the per-student foundation funding amount for the 2014-2015 school year that represents the calculation for student transportation;
and

(3) For the 2017-2018 school year, not less than twenty-five percent (25%) of the amount of funding within the per-student foundation funding amount for the 2014-2015 school year that represents the calculation for student transportation.

(f) The State Board of Education shall promulgate rules to implement this section.

SECTION 7. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that funding for public schools is the obligation of the state; that ensuring adequate funding is provided is the duty of the General Assembly; and that this act is immediately necessary to ensure that funding is provided for the 2015-2016 and 2016-2017 school years so that school

districts can budget accordingly. Therefore, an emergency is declared to exist, and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:

- (1) The date of its approval by the Governor;
- (2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or
- (3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto.”

"SECTION 1. Arkansas Code Title 22 is amended to add an additional chapter to read as follows:

CHAPTER 10

PARTNERSHIP FOR PUBLIC FACILITIES AND INFRASTRUCTURE ACT

Subchapter 1 — General Provisions

22-10-101. Title.

This chapter shall be known and may be cited as the "Partnership for Public Facilities and Infrastructure Act".

22-10-102. Legislative findings.

The General Assembly finds that:

(1) There is a public need for the timely acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, operation, implementation, and installation of public infrastructure and government facilities within the state that serve a public purpose;

(2) The public need for government facilities and public infrastructure may not be satisfied by existing methods of procurement and the funding methods available to state and local government jurisdictions within the state;

(3) There are inadequate resources to develop public infrastructure and government facilities for the benefit of citizens of the state, and there is demonstrated evidence that public-private partnerships can promote the timely and cost-efficient development of public infrastructure and governmental facilities, provide alternative and innovative funding sources to governmental entities, and allow governmental entities to leverage and supplement the developmental cost of the public infrastructure or governmental facility, through private funding and participation by the private sector in governmental incentive and tax programs that are not otherwise available to governmental entities; and

(4) The necessity exists for authorizing the formation of public-private partnerships that may result in the ability to develop public infrastructure and governmental facility private projects in a more timely and cost-efficient manner, thereby resulting in increased benefits to the public safety and welfare of the

citizens of the state and substantial cost benefits to the governmental entities and the public.

(C) If the sentencing court finds sufficient evidence warranting a forfeiture of discharge credits, the department shall make the necessary forfeiture of earned discharge credit appropriate for the type of misconduct asserted in the objection.

(D)(i) If the sentencing court does not find sufficient evidence exists that warrants forfeiture of discharge credits, the department shall discharge the person immediately if the date upon which the completion of the sentence occurred has passed.

(ii) If the date for completion of the sentence has not occurred, the person shall return to the status held at the point the objection was filed.

(c) If the prosecuting attorney or the board does not file an objection, upon the filing of a petition in the sentencing court by the parolee or probationer stating that no objections have been filed, the court may discharge the person immediately if the date upon which the completion of the sentence has passed.

~~(6)~~(d) An appeal may not be taken by either party from the sentencing court's findings or the department's decision for early discharge.

SECTION 2. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that the Department of Community Correction has changed the system for discharging probationers and the department discontinued the former system at the beginning of the year; that the new system is automated and is ready for implementation; and that this act is immediately necessary because in order for a seamless implementation the department would like to begin the new system at the same time the changes in this act become effective. "SECTION 1. Arkansas Code Title 23, Chapter 18, is amended to add an additional subchapter to read as follows:

Subchapter 11 — Arkansas Distributed Generation Act of 2015
23-18-1101. Title.

This subchapter shall be known and may be cited as the "Arkansas Distributed Generation Act of 2015".

23-18-1102. Findings — Purpose.

(a) The General Assembly finds that it is in the public interest to:

(1) Promote and encourage the development and use of this state's renewable energy resources;

(2) Foster investment in emerging renewable energy technologies using the renewable energy resources found within this state; and

(3) Require electric utilities to include renewable energy resources as an integral part of their energy portfolios.

(b) The purpose of this subchapter is to:

(1) Ensure that each electric utility includes renewable energy resources as an integral part of its energy resource plan; and

(2) Enable the increased use of renewable energy resources.

23-18-1103. Definitions.

As used in this subchapter:

(1) "Distributed generation contract" means a contract, including rules and procedures, approved by the Arkansas Public Service Commission, that governs the purchase of electric energy and capacity from a renewable electric generation facility;

(2) "Electric utility" means a public utility as defined in § 23-1-101 or a municipal utility that is engaged in the business of supplying electricity to an end user in this state;

(3) "Renewable electric generation facility" means a facility for the generation of electric energy that:

(A) Is owned or leased and is operated by one (1) or more persons or corporations;

(B) Is located in this state;

(C) Is connected to an electric utility grid;

(D) Is fueled by a renewable energy resource; and

(E) Has an effective alternating current capacity of not more than twenty megawatts (20 MW) nameplate value;

(4) "Renewable energy generation credit" means the monetary, statutory, or regulatory value per kilowatt-hour of the added value and environmental benefits; and

(5) "Renewable energy resource" means a solar, wind, water, or geothermal resource, including without limitation biomass, agricultural waste, and landfill waste that is converted into electrical energy and is located in the state.

23-18-1104. Distributed generation contracts — Requirements.

(a) Each electric utility shall:

(1) Consider distributed generation contracts as part of any resource plan developed under § 23-18-106; and

(2) Include distributed generation contracts in its resource plans consistent with the requirements of this subchapter.

(b)(1)(A) The Arkansas Public Service Commission shall direct each electric utility in its jurisdiction to develop and maintain a standardized distributed generation contract for the purchase of electric capacity and energy from renewable electric generation facilities in the state.

(B) The commission may approve a nonstandard contract between an electric utility and a renewable electric generation facility that meets the requirements of this subchapter.

(2) A distributed generation contract required under subdivision (b)(1)(A) of this section shall:

(A) Contain terms and conditions that:

(i) Enable the interconnection and use of renewable energy resources;

(ii) Protect the integrity and reliability of each electric utility's system; and

(iii) Protect the health, safety, and welfare of the public;

(B) Incorporate the terms and other conditions determined by the commission for renewable electric generation facilities that consider and may be differentiated by:

(i) The renewable energy generation technology being used;

(ii) The location and generation capacity of the renewable electric generation facility; and

(iii) The electric utility's ability to schedule and control the delivery of electric energy from the renewable energy generated by a renewable electric generation facility; and

(C) Not include an indemnity and liability provision applicable to the state, an entity of the state, a local government, an entity of a local government, or a federal agency.

(c) The price for the electric energy and capacity purchased from a renewable electric generating facility under a distributed generation contract shall consider and may be differentiated by:

(1) The renewable energy generation technology being used;

(2) The quantifiable benefits associated with the renewable electric generating facility, including without limitation benefits to the electric utility's capacity, reliability, distribution system, or transmission system;

(3) The location and generation capacity of the renewable electric generation facility;

(4) The electric utility's ability to schedule and control the delivery of the electric energy from the renewable energy generated by a renewable electric generation facility;

(5) The applicable electric utility's avoided cost;

(6) The value of a renewable energy generation credit; and

(7) The term of the distributed generation contract.

(d) After providing notice and a hearing, the commission may approve a distributed generation contract developed under this section if the commission determines that:

(1) The distributed generation contract satisfies the requirements of this subchapter;

(2) The cost of the distributed generation contract is reasonable and prudent;

(3) The distributed generation contract is required by the public convenience and necessity;

(4) The distributed generation contract enables the electric utility to supplement or replace its existing generation resources; and

(5) Approval of the distributed generation contract is in the public interest.

23-18-1105. Net-metering facilities.

(a) A net-metering facility installed or interconnected under the Arkansas Renewable Energy Development Act of 2001, § 23-18-601 et seq., qualifies as a renewable electric generation facility under this subchapter.

(b) A net-metering customer may elect to convert a net-metering facility to a renewable electric generation facility and may apply for a distributed generation contract under this subchapter.

23-18-1106. Renewable energy generation credits.

A renewable energy generation credit shall:

(1) Be conveyed to the electric utility under the distributed generation contract; and

(2) Qualify in helping an electric utility to meet applicable standards established by the state or federal government.

23-18-1107. Interconnection.

(a) A distributed generation contract shall specify the terms of interconnection and shall include specific provisions to:

(1) Enable the interconnection and use of renewable energy resources;

(2) Protect the integrity and reliability of each electric utility's system;
and

(3) Protect the health, safety, and welfare of the public.

(b) All costs of interconnection, including an addition or modification to an electric utility's system that is made beyond the point at which a renewable electric generation facility interconnects with an electric utility's system for the sole purpose of receiving electricity from a renewable electric generation facility, are the exclusive responsibility of the renewable electric generation facility.

(c) The cost of interconnection shall include without limitation any quantifiable additional cost associated with the renewable electric generation facility's use of the electric utility's distribution system and transmission system, and any effect on reliability.

(d) A necessary metering upgrade for a renewable electric generation facility that has executed a distributed generation contract under this subchapter is the exclusive responsibility of the renewable electric generation facility.

23-18-1108. Cost recovery.

The Arkansas Public Service Commission shall allow an electric utility to recover the reasonable and prudent costs associated with a distributed generation contract approved by the commission under § 23-18-1104.

23-18-1109. Rules.

The Arkansas Public Service Commission shall adopt rules necessary to implement and administer this subchapter.

SECTION 2. DO NOT CODIFY. Within ninety (90) days after the effective date of this act, each electric utility shall file its standard distributed generation contract required under § 23-18-1104 with the Arkansas Public Service Commission for approval by the commission."

(2) The power purchase agreement will provide savings for retail customers as compared to other generation and power supply options over the term of the power purchase agreement;

(3) The power purchase agreement is required by public convenience and necessity;

(4) The power purchase agreement is necessary to supplement or replace the utility's existing generation sources; and

(5) Approval of the power purchase agreement is in the public interest.

(2) In determining the additional sum allowed under subdivision (e)(1) of this section, the commission may consider:

(A) The risks of the power purchase agreement;

(B) A commensurate return on the power purchase agreement as would be allowed for an equivalent investment in a power plant;

(C)(i) An equitable sharing of any savings between the utility and the retail customers of the utility.

(3) If the commission authorizes an additional sum under this subsection, the utility shall recover the additional sum over the entire term of the power purchase agreement in the same manner as it recovers the cost of the power purchase agreement as long as electricity, generation capacity, or ancillary products are being delivered in accordance with the terms of the power purchase agreement."

AND

Page 2, delete line 9, and substitute the following:

16-123-403. Legislative findings.

The General Assembly finds that:

(1) The Arkansas Constitution recognizes the free exercise of religion;

(2) Laws neutral toward religion have the same potential to burden religious exercise as laws purposely intended to interfere with religious exercise;

(3) Governments should not substantially burden the free exercise of religion without compelling justification;

(4) In Employment Division v. Smith, 494 U.S. 872 (1990), the United States Supreme Court virtually eliminated the requirement that the government justify burdens on religious exercise imposed by laws neutral toward religion;

(5) In response, Congress passed the Religious Freedom Restoration Act of 1993, 42 U.S.C., § 2000bb, to restore the compelling interest test set forth in

the federal cases of Wisconsin v. Yoder, 406 U.S. 205 (1972), and Sherbert v. Verner, 374 U.S. 398 (1963);

(6) The compelling interest test is a workable test for striking sensible balances between religious liberty and competing government interests;

(7) In City of Boerne v. Flores, 521 U.S. 507 (1997), the United States Supreme Court held that the protections of religious exercise afforded by the Religious Freedom Restoration Act of 1993, 42 U.S.C. § 2000bb, only applied to religious exercise burdened by federal law or agencies and provided no protection from burdens on religious exercise from state or local law or governments;

(8) To provide the same level of protection from burdens on religious exercise from state or local governments, a state must enact an equivalent to the Religious Freedom Restoration Act of 1993, 42 U.S.C. § 2000bb, that was passed by Congress; and

(9) Since the 1997 Supreme Court decision in City of Boerne v. Flores, many states have enacted statutes similar to the Religious Freedom Restoration Act of 1993, 42 U.S.C. § 2000bb, including: Alabama, Arizona, Connecticut, Florida, Idaho, Illinois, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, and Virginia.

(a) The General Assembly finds that:

(1) It is the duty of the state to provide a general, suitable, and efficient system of free public schools to the children of the state under Arkansas Constitution Article 14, § 1;

(2) The General Assembly is obligated to ensure that an adequate and equitable system of education is provided;

(3) Student transportation may be a necessary component for providing a student with an equitable opportunity for an adequate education to the extent that a student would not otherwise be able to realize this opportunity but for transportation being provided by the state;

(4) Analyzing the portion of student transportation funding is required for adequacy purposes and is a highly complex, fact-intensive study that requires the analysis of many factors such as student characteristics, bus routes, route miles, and a variety of other factors;

(5)(A) In "A Report on Legislative Hearings for the 2014 Interim Study on Education Adequacy", the House Committee on Education and the Senate Committee on Education found that transportation funding should continue to be funded at the same levels for the 2016 and 2017 fiscal years.

(B) The House Committee on Education and the Senate Committee on Education also recommended the creation of a separate supplemental transportation funding program for school districts with high

transportation costs to be distributed using a transportation funding model developed by the Bureau of Legislative Research;

(6) The transportation funding model developed by the Bureau of Legislative Research would result in one hundred (100) of two hundred thirty-six (236) school districts not receiving any supplemental transportation funds;

(7) The Bureau of Legislative Research dedicated extensive time and effort toward the development of the transportation funding model and the General Assembly is extremely grateful for those efforts;

(8) The transportation funding model developed by the Bureau of Legislative Research may be the best evidence-based method for the distribution of supplemental transportation funding; and

(9) The General Assembly requires additional time to study the transportation funding model developed by the Bureau of Legislative Research before implementing the findings and recommendations of the House Committee on Education and the Senate Committee on Education.

(b) The House Committee on Education and the Senate Committee on Education, in conjunction with the Bureau of Legislative Research, shall conduct a review of the transportation funding model developed by the Bureau of Legislative Research and make recommendations to the Ninetieth General Assembly for consideration during the 2016 fiscal session."

ARKANSAS SENATE

AMENDMENT NO. 1 TO HOUSE BILL NO. 1663

Amend **HOUSE BILL NO. 1663** as originally introduced:

Page 1, line 10, delete "TO"

AND

Page 1, line 11, delete "ESTABLISH ENHANCED TRANSPORTATION FUNDING;"

AND

Page 1, line 18 delete "TO ESTABLISH ENHANCED

AND

Page 1, line 19, delete "TRANSPORTATION FUNDING;"

AND

Delete section 6 of the bill in its entirety and substitute the following:

"SECTION 6. DO NOT CODIFY. TEMPORARY LANGUAGE.

(a) The General Assembly finds that:

(1) It is the duty of the state to provide a general, suitable, and efficient system of free public schools to the children of the state under Arkansas Constitution Article 14, § 1;

(2) The General Assembly is obligated to ensure that an adequate and equitable system of education is provided;

(3) Student transportation may be a necessary component for providing a student with an equitable opportunity for an adequate education to the extent that a student would not otherwise be able to realize this opportunity but for transportation being provided by the state;

(4) Analyzing the portion of student transportation funding is required for adequacy purposes and is a highly complex, fact-intensive study that requires the analysis of many factors such as student characteristics, bus routes, route miles, and a variety of other factors;

(5)(A) In "A Report on Legislative Hearings for the 2014 Interim Study on Education Adequacy", the House Committee on Education and the Senate Committee on Education found that transportation funding should continue to be funded at the same levels for the 2016 and 2017 fiscal years.

(B) The House Committee on Education and the Senate Committee on Education also recommended the creation of a separate supplemental transportation funding program for school districts with high

transportation costs to be distributed using a transportation funding model developed by the Bureau of Legislative Research;

(6) The transportation funding model developed by the Bureau of Legislative Research would result in one hundred (100) of two hundred thirty-six (236) school districts not receiving any supplemental transportation funds;

(7) The Bureau of Legislative Research dedicated extensive time and effort toward the development of the transportation funding model and the General Assembly is extremely grateful for those efforts;

(8) The transportation funding model developed by the Bureau of Legislative Research may be the best evidence-based method for the distribution of supplemental transportation funding; and

(9) The General Assembly requires additional time to study the transportation funding model developed by the Bureau of Legislative Research before implementing the findings and recommendations of the House Committee on Education and the Senate Committee on Education.

(b) The House Committee on Education and the Senate Committee on Education, in conjunction with the Bureau of Legislative Research, shall conduct a review of the transportation funding model developed by the Bureau of Legislative Research and make recommendations to the Ninetieth General Assembly for consideration during the 2016 fiscal session."

Amend **HOUSE BILL NO. 1371** as engrossed,
H3/27/15 (version: 03/27/2015 9:58:24 AM):

Delete everything after the enacting clause and substitute the following:

"SECTION 1. Arkansas Code § 16-93-705 is amended to read as follows:

16-93-705. Revocation — Procedures and hearings generally.

(a)(1)(A)(i) At any time during a parolee's release on parole, the Parole Board may issue a warrant for the arrest of the parolee for violation of any conditions of parole or may issue a notice to appear to answer a charge of a violation.

(ii) The Department of Community Correction shall provide the information necessary for the ~~Parole Board~~ board to issue a warrant under subdivision (a)(1)(A)(i) of this section.

(B)(i) The ~~Parole Board~~ board shall issue a warrant for the arrest of a parolee if the board determines that the parolee has been charged with a felony involving violence, as defined under § 5-4-501(d)(2), or a felony requiring registration under the Sex Offender Registration Act of 1997, § 12-12-901 et seq.

(ii) The Department of Community Correction shall provide the information necessary for the ~~Parole Board~~ board to issue a warrant under subdivision (a)(1)(B)(i) of this section.

(iii) A parolee arrested on a warrant issued under subdivision (a)(1)(B)(i) of this section shall be detained pending a mandatory parole revocation hearing.

(2) The warrant or notice shall be served personally upon the ~~individual~~ parolee.

(3) The warrant shall authorize all officers named in the warrant to place the parolee in custody at any suitable detention facility pending a hearing.

(4) Any parole officer may arrest a parolee without a warrant or may deputize any officer with power of arrest to ~~do so~~ arrest the parolee without a warrant by giving him or her a written statement setting forth that the parolee, in the judgment of the parole officer, violated conditions of his or her parole.

(5) The written statement delivered with the parolee by the arresting officer to the official in charge of the detention facility to which the parolee is brought shall be sufficient warrant for detaining him or her pending disposition.

(6) If the board or its designee finds, by a preponderance of the evidence, that the parolee has inexcusably failed to comply with a condition of his or her parole, the parole may be revoked at any time prior to the expiration of the period of parole.

(7) A parolee for whose return a warrant has been issued by the board shall be deemed a fugitive from justice if it is found that the warrant cannot be served.

(8) The board shall determine whether the time from the issuance of the warrant to the date of arrest, or any part of it, shall be counted as time served under the sentence.

(b)(1) A parolee arrested for violation of parole shall be entitled to a preliminary hearing to determine whether there is reasonable cause to believe that he or she has violated a condition of parole.

(2) The preliminary hearing shall be scheduled within seven (7) days after arrest and conducted within fourteen (14) days after arrest, excluding a weekend, holiday, or delay caused by an act of nature, by the parole revocation judge for the board ~~as soon as practical after arrest~~ and reasonably near the place of the alleged violation or arrest.

(3) The parolee shall be given prior notice of the date, time, and location of the preliminary hearing, the purpose of the preliminary hearing, and the conditions of parole he or she is alleged to have violated.

(4) Except as provided in subsection (d) of this section, the parolee shall have the right to hear and controvert evidence against him or her, to offer evidence in his or her own behalf, and to be represented by counsel.

(5) If the parole revocation judge finds that there is reasonable cause to believe that the parolee has violated a condition of parole, the parole revocation judge may order the parolee returned to the ~~custody~~ nearest facility of the Department of Correction or Department of Community Correction where the parolee shall be placed in custody for a parole revocation hearing before the board.

(6) If the parole revocation judge finds that there is reasonable cause to believe that the parolee has violated a condition of parole, the parole revocation judge may return the ~~offender~~ parolee to parole supervision rather than to the custody of the Department of Correction and may impose additional supervision conditions in response to the violating conduct.

(7) If the parole revocation judge does not find reasonable cause, he or she shall order the parolee released from custody, but that action shall not bar the board from holding a parole revocation hearing on the alleged violation of parole or from ordering the parolee to appear before ~~it~~ the board.

(8) The parole revocation judge shall prepare and furnish to the board and the parolee a summary of the parole revocation hearing, including the substance of the evidence and testimony considered along with the ruling or determination within twenty-one (21) days from the date of the preliminary hearing, excluding a weekend, holiday, or delay caused by an act of nature.

(c)(1)(A) Unless a parole revocation hearing is knowingly and intelligently waived by the parolee, a parole shall not be revoked except after a parole revocation hearing, which shall be conducted by the board or its designee within a reasonable period of time after the parolee's arrest.

(B) If a waiver is granted under subdivision (c)(1)(A) of this section, the parolee may subsequently appeal the waiver to the board.

(2) The parolee shall be given prior notice of the date, time, and location of the parole revocation hearing, the purpose of the parole revocation hearing, and the conditions of parole he or she is alleged to have violated.

(3) Except as provided in subsection (d) of this section, the parolee shall have the right to hear and controvert evidence against him or her, to offer evidence in his or her own defense, and to be represented by counsel.

(4) If parole is revoked, the board or its designee shall prepare and furnish to the parolee a written statement of evidence relied on and the reasons for revoking parole.

(d) At a preliminary hearing under subsection (b) of this section or a parole revocation hearing under subsection (c) of this section:

(1) The parolee shall have the right to confront and cross-examine adverse witnesses unless the parole revocation judge or the board or its designee specifically finds good cause for not allowing confrontation; and

(2) The parolee may introduce any relevant evidence of the alleged violation, including letters, affidavits, and other documentary evidence, regardless of its admissibility under the rules governing the admission of evidence.

(e) A preliminary hearing under subsection (b) of this section shall not be required if:

(1) The parolee waives a preliminary hearing; or

(2) Unless a parole revocation hearing is knowingly and intelligently waived by the parolee under subsection (c) of this section, the parole revocation hearing under subsection (c) of this section is held ~~promptly~~ within fourteen (14) calendar days after the arrest and reasonably near the place where the alleged violation occurred or where the parolee was arrested.

(f) A preliminary hearing under subsection (b) of this section and a parole revocation hearing under subsection (c) of this section shall not be necessary if the

parole revocation is based on the parolee's conviction, guilty plea, or plea of nolo contendere to a felony offense for which he or she is sentenced to the Department of Correction or to any other state or federal ~~penal~~ correctional institution.

(g) The county sheriff or keeper of the county jail may permit the parolee to be held in the county jail while awaiting the parole revocation hearing under this section and ruling of the board or its designee."
