1 INTERIM STUDY PROPOSAL 2009-032
2 State of Arkansas *As Engrossed: H3/19/09*
3 87th General Assembly **A Bill**
4 Regular Session, 2009 HOUSE BILL 1790
5
6 By: Representative T. Rogers
7

8 Filed with: Interim Joint Committee on Energy
9 pursuant to A.C.A. §10-3-217.
10

11 **For An Act To Be Entitled**

12 *AN ACT TO DEVELOP THE BIODIESEL INDUSTRY IN
13 ARKANSAS BY ESTABLISHING THE PERCENTAGE OF
14 BIODIESEL FUEL TO BE MIXED WITH DIESEL FUEL FOR
15 RETAIL SALE IN ARKANSAS; AND FOR OTHER PURPOSES.*

16 **Subtitle**

17 *TO DEVELOP THE BIODIESEL INDUSTRY IN
18 ARKANSAS BY ESTABLISHING THE PERCENTAGE
19 OF BIODIESEL FUEL TO BE MIXED WITH
20 DIESEL FUEL FOR RETAIL SALE IN ARKANSAS.*

22
23
24 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

25
26 *SECTION 1. Arkansas Code Title 15, Chapter 13, is amended to add an
27 additional subchapter to read as follows:*

28 *15-13-401. Definitions.*

29 *As used in this subchapter: “biodiesel fuel” means a renewable,*
30 *biodegradable, monoalkyl ester combustible liquid fuel derived from*
31 *agricultural plant oils or animal fats that meets American Society for*
32 *Testing and Materials Specification Standard D6751-08 for Biodiesel Fuel*
33 *(B100) Blend Stock for Middle Distillate Fuels.*

34
35 *15-13-402. Biodiesel fuel standard.*

36 *(a) (1) By January 1, 2010, and unless otherwise provided in this*

1 subchapter, diesel fuel sold at a public retail sales facility within this
2 state shall contain at least five percent (5%) biodiesel fuel by volume.

3 (2) The biodiesel fuel standard under subsection (a)(1) of this
4 section shall remain in effect unless the Secretary of the Arkansas
5 Agriculture Department informs the Director of the Department of Finance and
6 Administration that there is a need to temporarily reduce the standard under
7 an exception provided under § 15-13-404.

8 (b) In addition to the standard under subsection (a)(1) of this
9 section, biodiesel fuel produced for sale in this state is required to meet
10 the specifications set forth in American Society for Testing and Materials
11 Specification Standard D6751-08 for Biodiesel Fuel (B100) Blend Stock for
12 Middle Distillate Fuels, as it existed on January 1, 2009.

13 (c) The Arkansas Bureau of Standards shall ensure that biodiesel fuel
14 produced for sale in this state satisfies the requirements under:

15 (1) Subsections (a) and (b) of this section; and
16 (2) The specifications that petroleum fuel is required to meet
17 under the American Society for Testing and Materials Specification Standards,
18 as they existed on January 1, 2009.

19
20 15-13-403. Duties of the Secretary of the Arkansas Agriculture
21 Department.

22 (a) To assure orderly implementation of the biodiesel fuel standard,
23 the Secretary of Agriculture shall:

24 (1)(A) At least each calendar quarter verify the in-state
25 biodiesel fuel production capacity at each facility to assess whether there
26 is sufficient production capacity to satisfy consumer needs under the
27 biodiesel fuel standard.

28 (B) The secretary may require an Arkansas biodiesel fuel
29 producer to submit regular reports about the producer's production capacity
30 at each facility owned or operated by the biodiesel producer on a form
31 developed by the secretary.

32 (2)(A) By January 1, 2010, and periodically thereafter,
33 determine the:

34 (i) Wholesale price of No. 2 diesel fuel at various
35 pipeline and refinery terminals in the region; and

36 (ii) Price of biodiesel fuel after credits and

1 incentives are subtracted from the price at biodiesel fuel plants in the
2 region.

3 (b) The secretary may adjust the biodiesel fuel standard in accordance
4 with the exception procedure under § 15-4-404.

5

6 15-13-404. Exception to biodiesel fuel standard.

7 (a)(1) The Secretary of the Arkansas Agriculture Department may grant
8 an exception to the biodiesel fuel standard if:

9 (A) The in-state production capacity of biodiesel fuel
10 falls to a level that makes compliance with the biodiesel fuel standard
11 unreasonable;

12 (B) A competitive economic hardship exists; or
13 (C) The in-state price for biodiesel fuel rises to a level
14 that makes compliance with the biodiesel fuel standard economically
15 unfeasible; or

16 (2)(A) For good cause shown under subdivision (a)(1) of this
17 section, the secretary may order a reduction of the fuel standard to a level
18 of two percent (2%) biodiesel fuel content by volume for a period of thirty
19 (30) days.

20 (B) During the thirty-day period, the secretary shall
21 request a progress report from the state's biodiesel fuel producers.

22 (C) If good cause continues to exist or subsequent
23 circumstances present another basis for a good cause extension, the secretary
24 may either:

25 (i) Extend the reduction under subdivision (2)(A) of
26 this section for another thirty-day period; or

27 (ii) Waive the requirement for any biodiesel fuel
28 content for a thirty-day period.

29 (3) The secretary shall not grant an exception from the
30 biodiesel fuel standard under subdivision (a)(1) or (2) of this section for
31 an aggregate time that exceeds ninety (90) days.

32 (b)(1) An Arkansas fuel retailer may initiate a proceeding for an
33 exception from the biodiesel fuel standard proceeding by filing a petition
34 with the secretary that includes without limitation documentation to
35 demonstrate that:

36 (A) Compliance with the biodiesel fuel standard creates or

1 will create an unreasonable hardship on him or her; and

2 (B) The fuel retailer has made reasonable attempts to
3 mitigate or resolve the hardship.

4 (2) The secretary may grant an exception if there is sufficient
5 evidence that the fuel retailer is experiencing or will experience an
6 unreasonable hardship because of an inability to obtain an adequate amount of
7 biodiesel fuel due to production, quality, or price issues that are specific
8 to the fuel retailer's business circumstances.

9 (3)(A) If the secretary grants an exception to the fuel
10 retailer, the exception shall not exceed one hundred eighty (180) days.

11 (B) However, subdivision (b)(3)(A) of this section does
12 not preclude the secretary from considering a subsequent petition from the
13 same fuel retailer for an exception from the biodiesel fuel standard.

15 15-13-405. Duty of refinery or terminal.

16 (a) At the time diesel fuel is sold or transferred from a refinery or
17 terminal that is located in this state, the refinery or terminal shall
18 provide a bill of lading or shipping manifest to the person receiving the
19 diesel fuel.

20 (b) For a biodiesel-blended fuel, the bill of lading or shipping
21 manifest shall disclose the biodiesel fuel content by stating the:

22 (1) Percentage of biodiesel fuel to the petroleum diesel based-
23 stock;

24 (2) Number of gallons of biodiesel fuel compared to the number
25 of gallons of the petroleum diesel fuel based-stock; or

26 (3) An American Society for Testing and Materials "Bxx"
27 designation in which "xx" denotes the volume percentage of biodiesel fuel
28 included in the blended product.

30 15-13-406. Report to governor.

31 (a) By January 30 of each year, the Secretary of the Arkansas
32 Agriculture Department shall provide the Governor with a report about the
33 implementation of this subchapter.

34 (b) The report shall include without limitation information about the:

35 (1) Price and supply of biodiesel fuel in the state; and

36 (2) Impact of the biodiesel fuel standard on the development of:

1 (A) Biodiesel fuel production capacity in the state; and
2 (B) Use of feedstock grown or raised in the state for
3 biodiesel fuel production.

5 15-13-407. Rules

6 The Arkansas Agriculture Department shall promulgate rules to implement
7 and administer this subchapter.”

9 SECTION 2. Arkansas Code § 4-108-205, concerning the authority of the
10 State Petroleum Products Division of the Arkansas Bureau of Standards of the
11 State Plant Board, is amended to add an additional subsection to read as
12 follows:

13 (c) The board is also authorized to:

14 (1) Monitor compliance with the biodiesel fuel standard under §
15 15-13-402; and

16 (2) Examine biodiesel fuel produced in this state or imported to
17 assure its compliance with applicable materials standards, including American
18 Society for Testing and Materials Specification Standard D6751-08.

20 SECTION 3. Arkansas Code § 19-6-809(c), concerning the use of funds
21 under the Arkansas Alternative Fuels Development Fund, is amended to read as
22 follows:

23 (c) The fund shall be used by the Arkansas Agriculture Department to
24 provide grants and incentives to support renewable fuels producers, renewable
25 fuels feedstock processors, alternative fuels producers, feedstock
26 processors, and alternative fuels distributors in Arkansas as provided under
27 the Arkansas Alternative Fuels Development Act, § 15-13-101 et seq., or as
28 otherwise provided by law.

30 /s/ T. Rogers
