

ARTS + TECHNOLOGY BOOT CAMP REPORT

EXECUTIVE SUMMARY

From its people, land, waterways, and open skies, Arkansas is a state endowed with an abundance of natural gifts, talents, and possibilities in all seventy-five counties.

With an unwavering belief that neither geography, luck, legacy, nor lack of investment should determine quality of life for any Arkansan, a bipartisan group of legislators came together to explore how our deeply held belief can be turned into reality. We were clear we would take on the work of debunking the myth of "There's just nothing there." But how? Answer: Through the creative economy.

In the summer of 2018 a few legislators worked with Arkansans for the Arts to understand what it means to build a diversified, place-based, creative economy throughout our state. Arkansans for the Arts brought the research and the data to the conversation. They informed, inspired, and guided us as we set out on a path that could potentially change the quality of life for individuals, neighborhoods, communities, small towns, and regions of Arkansas: the quest being to challenge Arkansans to reimagine what can be done right where they are, whether rural or urban. We view the data in this report as a tool to meaningfully curb the brain drain in Arkansas and subsequently incentivize Arkansans to remain in our state. Additionally, the committee foresees this data empowering us to attract non-natives to Arkansas as well.

That same year (2018), a Democrat and a Republican legislator worked together to recruit charter members to form the Legislative Arts Caucus, with an equal number of Democrats and Republicans representing the eight art districts, which cover every part of the state. Through the work of the Caucus, Arkansans for the Arts, and bipartisan support of cosponsors, Act 577 of 2021 created the Legislative Arts & Technology Boot Camp to hold meetings around the state to explore what's already happening, what can be better, what can be, and what it will take. In partnership with Arkansans for the Arts, without whom we could not have done this work, we submit this report with the following recommendations:

LEGISLATIVE COMMITTEE RECOMMENDATIONS

Note: Arkansans for the Arts acted as a consultative subcommittee of the Legislative Boot Camps. For each of the focus groups and other creative content groups with whom Arkansans for the Arts engaged, there are specific recommendations noted in their Subcommittee's report. The following eight are specifically from the Legislative Boot Camp Committee.

- 1. Improve and expand access to high-speed broadband throughout the state.
- 2. Encourage regional collaboration among all appropriate governmental entities.
- 3. Appoint two members with industry-related knowledge of the creative economy to the Arkansas Economic Development Commission.
- 4. Establish a Creative Economy Subcommittee of the Agriculture, Forestry & Economic Development Committee.
- 5. Extend the work of the Boot Camps to more fully explore parts of Arkansas the committee was not able to visit because of time constraints and the impact of COVID-19.
- 6. In collaboration with Arkansans for the Arts, create, update, and maintain a dynamic database that contains an inventory of Arkansas's art and cultural assets for each of the Arkansas Arts Council's eight (8) art districts to be funded by the legislature.
- 7. Fund Arkansans for the Arts to continue working with the Legislative Arts Caucus and the Boot Camps.
- 8. Recommit to maintaining a bipartisan Legislative Arts Caucus.

CHALLENGES

- Because of the unprecedented amount of time the House and Senate members met in assembly, it was impossible to meet as often as needed and in as many regions of the state as originally desired.
- 2. Failure to include a formal process for compensating Arkansas for the Arts as paid consultants.
- 3. Conflicting schedules that caused more than anticipated lack of attendance by some members of the committee.

ACKNOWLEDGEMENTS

The members of the Legislative Arts + Technology Boot Camp are deeply indebted to the entire staff of Arkansans for the Arts for their tireless work on the individual Boot Camps, research and the final report. Without the help of this organization, the work of this committee would not have been possible. Though uncompensated, their contributions are incalculable.

We extend special thanks to Dr. Lenore Shoults, Sandy Martin, Garbo Hearne, and Erin Holliday—all with Arkansans for the Arts— for their unwavering dedication to advancing the creative economy through art and technology throughout the state of Arkansas.

Arkansans for the Arts' Art + Technology Boot Camp Subcommittee respectfully submits this summary report to the

LEGISLATIVE ARTS & TECHNOLOGY BOOT CAMP COMMITTEE

August 31, 2022

The Arkansans for the Arts' Art + Technology Boot Camp Sub-Committee included Dr. Lenore Shoults (Chair of the Sub-Committee), Sandy Martin, Garbo Hearne, and Erin Holliday, with board support from MaryRoss Taylor, Bill Moss, Dr. Brookshield Laurent (Health & Wellness Boot Camp), Talicia Richardson and Mary Zunick (Community Development Boot Camp), Jean Lacefield (Diversity, Equity, and Inclusion Boot Camp), and Dr. Gayle Seymour (Students for the Arts). Student interns: Avery Rudolph, Brynn Ward, Haley Frost, Jathan Neider. Special thanks to Catherine Shoults

INTRODUCTION

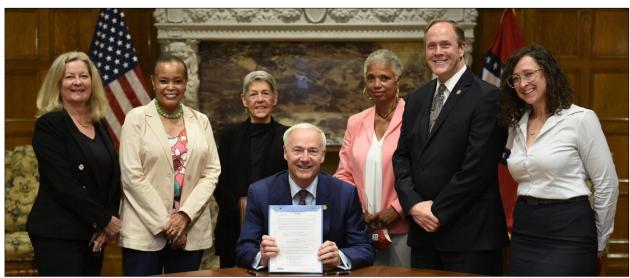

This document covers the methodology used to gather statewide input from art and technology entities and individuals. The goal of Act 577 was to research and recommend how to grow Arkansas' creative economy. Goals included:

Identifying existing art and technology assets; Exploring support for existing assets; Seeking diversity, equity, and inclusivity; Identifying bridges and gaps;

Recommendations for growing the creative economy with art and technology.

Upon passage of Act 577, Arkansans for the Arts undertook a statewide survey to ascertain arts and technology entities currently working in their respective fields. Respondents were next invited to attend focus groups convened via Zoom. This feedback guided invitations to experts who presented to legislators at in-person and Zoom Boot Camp convenings. Note that many were contacted and the voices that were heard were from those who responded.

Nine Boot Camps were convened with the opening session at the state Capitol on September 20, 2021. Additional Boot Camps were held in Pine Bluff on November 2, 2021, Northwest Arkansas on December 16, 2021, Hot Springs on March 29, 2022, Texarkana on May 4, 2022, via Zoom on May 13, 2022 from Jonesboro (Health & Wellness), via Zoom on May 25, 2022 (Community Development), via Zoom on June 2, 2022 (Diversity, Equity, and Inclusion), and June 9, 2022 at the Capitol.

Dr. Lenore Shoults, Senator Joyce Elliott, Sandy Martin, Governor Asa Hutchinson, Garbo Hearne, Representative Les Warren, Erin Holliday

METHODOLOGY

PROCESS

The process included a statewide survey of arts and technology assets, Focus Groups, and Boot Camp presentations. Throughout 2021, a statewide survey of arts and technology individuals and organizations was undertaken. All respondents were invited to attend Focus Groups which were convened via Zoom in the Summer of 2021 and organized, largely, according the eight Arts Districts. Boot Camps were held in-person and via Zoom in 2021-2022. The final step included a Creative Community Review from June 10–June 30, 2022, wherein the Boot Camp Preliminary Summary Draft was sent to all previous respondents requesting their input.

SURVEY

Arkansans for the Arts (ARftA) sent a statewide survey to a database of 1000+ Arts, STEM, and STEAM entities and individuals. The survey instrument included the following questions:

- 1. What is your intersection with art and/or technology?
- 2. What are your future plans/dreams in your field?
- 3. What barriers exist?
- 4. Where is your biggest impact?

RESPONSE

The response included an approximately 16% response rate and all survey respondents were invited to attend Zoom focus groups. Approximately 40% of survey respondents attended the focus groups which were held, mostly, according to the eight Arkansas Arts Districts.

District 1: Baxter, Benton, Boone, Carroll, Madison, Marion, Newton, Searcy, Washington District 2: Cleburne, Fulton, Independence, Izard, Jackson, Sharp, Stone, Van Buren, White, Woodruff District 3: Clay, Craighead, Crittenden, Cross, Greene, Lawrence, Lee, Mississippi, Phillips, Poinsett, Randolph, St. Francis District 4: Crawford, Franklin, Logan, Polk, Scott, Sebastian District 5: Clark, Conway, Garland, Hot Spring, Johnson, Montgomery, Perry, Pike, Pope, Yell District 6: Faulkner, Lonoke, Monroe, Prairie, Pulaski, Saline District 7: Calhoun, Columbia, Dallas, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, Ouachita, Sevier, Union District 7: Calhoun, Columbia, Dallas, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, Ouachita, Sevier, Union District 7: Calhoun, Columbia, Dallas, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, Ouachita, Sevier, Union District 7: Calhoun, Columbia, Dallas, Hempstead, Howard, Lafayette, Little River, Miller, Nevada, Ouachita, Sevier, Union District 8: Arkansas, Ashley, Bradley, Chicot, Cleveland, Desha, Drew, Grant, Jefferson, Lincoln

SURVEY RESULTS

Survey results indicated that funding and broadband were major barriers.

Recommendations, from survey and focus group respondents included:

Survey Results

The need for Broadband access across the state.

Funding for Art and Technology.

Ongoing art and technology professional development and education at all levels from PreK through college.

Lifelong learning, specifically to include elders.

The importance of play, experimentation, and inquiry learning in the creative process.

Lifelong health and wellness for all.

Equal access and equity for all.

Talent retention and attraction through internships, apprenticeships, and fellowships.

The necessity for an ongoing art and technology communication network.

Tracey Boyles, Principal, Trice Elementary, Texarkana Arkansas School District

Chris Biscoe, Robotics Team, Texarkana Arkansas School District

CREATIVE COMMUNITY REVIEW RECOMMENDATIONS

Placing Diversity, Equity, Inclusion, and Access at the forefront of thinking, planning, and funding builds a stronger outcome while expanding opportunities for all Arkansans.

Education, Workforce Development, and Art + Tech Incentives are key to growing the Creative Economy. Art and Technology are exploding within Film, Health and Wellness, and Tourism and investment in these areas will reap tremendous future benefits.

I.	Education	
I.a.	Broadband access across the state.	
I.b.	Strengthen requirements for, and investment in, fine arts curriculum in Arkansas's K-12 schools. Fine Arts education teaches creativity, problem-solving, flexibility, and teamwork. Art in technology and technology in art education teaches fusion skills and a new "language" necessary for the workforce of the future.	
I.c.	Redesign Arts frameworks and standards to include technology (in the arts) and computer science frameworks to include the digital Arts.	
I.d.	EAST labs are a proven statewide model for delivering art and technology. Create an exploratory grant for Education Unleashed.	
I.e.	Institute grants that allow travel to other states for teacher professional development (preK-12) whereby upon return home attendees teach regional workshops on newly acquired skills.	
I.f.	Encourage collaboration across all education levels and institutions: K-12, CTE, 2-year and 4-year and communities.	
I.g.	Expand Maker-Spaces in cities and towns that do not have them to provide access to technologies like 3D printing, recording studios, writing labs, graphic design, digital photography, and other tools for creativity.	
II.	Workforce Development	
I.a.	Broadband access across the state.	
I.b.	Expand programs to train, empower and integrate visual, performing and literary artists into the small business community and statewide creative economy.	
I.c.	 Internships, apprenticeships, and fellowships: Support career advancement within Arkansas and help retain talent; Assist industry in talent attraction and retention; Enrich local community/economic development efforts with creative problem solving. 	
I.d.	Continue support of the highly successful Career Training Education (CTE) program of study.	
I.e.	The state of AR needs to conduct a study on the impact of art education and creative interaction in K-12 on the development of soft skills in support of workforce development. There are studies in urban communities and on the coasts that show that creative education is critical in developing skills for success in future employment. There are few to no studies in rural areas.	

I.f.	Consideration must be made to include the regional workforce development districts with an emphasis on underserved regions of the state. Priority should be given to state planning and development districts that are comparatively underdeveloped.		
III.	Art + Technology Incentives		
III.a.	Broadband access across the state.		
III.b.	Funding for art and technology collaboration.		
	o Mini grants		
	 Based in 8 Arts Districts 		
	 Collaboration across art and technology 		
	o Annual "show and share"		
III.c.	Continue and increase local public art programs (establishment of city arts		
	districts, investment in public art, support of local and regional arts nonprofits) as		
*** 1	a tool for economic development and opportunity.		
III.d.	Fund a statewide certified local arts district program as anticipated in Act 1030 of 2011.		
III.e.	Develop GIS Trails. Parks Heritage Tourism to provide matching funds* to		
	communities to develop their own GIS tourism and Augmented Reality maps		
	highlighting artistic/creative points of interest:		
	1. Art Trails		
	2. Old Churches		
	3. Old Post Office Murals		
	4. Quilt Trail 5. Music Trails		
	6. Mural Trail		
	7. BBQ, Culinary Trails		
	8. Film Festival Trails		
	9. Cultural Trail		
	10. Points of interest including but not limited to		
	*Re-create "1% for Arts + Technology" to fund matching grant program		
III.f.	Establish Art + Technology start-up grants for development of consumer products		
	(e.g. gaming, AR apps).		
IV.	Film, Music and Digital Media		
IV.a.	Add two (2) staff members to the Arkansas Film Commission Office.		
IV.b. Amend current incentive program to include a localized, geographically			
	incentive to expand statewide production and local hiring with emphasis on rural		
IV.	communities.		
IV.c.	Appropriate the workforce services funding necessary to implement a targeted		
IV.d.	film/music/digital production industry paid internship program.		
iv.u.	Institute a policy through 2- and 4-year universities and colleges that allows students to earn physical production credit hours that are transferable to all		
	Arkansas higher education institutions.		
IV.e.	Introduce legislation for a Music and Sound Design incentive rebate program.		
	Production for a read of all a design model of read of profitting		

IV.f.	Expand film, music, animation, gaming, and digital production programs through 2- and 4-year colleges and/or establish more industry specific tech trade schools to create a workforce pipeline that is in high demand.	
IV.g.	Review Act 148 in 2023 to eliminate state funding penalty if student drops out due to securing employment with the field of study.	
IV.h.	Encourage more Career and Technical Education programs to include film, music, animation training in the Arts, Media and Entertainment (AME) Sector.	
V.	Tourism/Agritourism	
V.a.	Prioritize arts and culinary as a destination draw to promote the unique Arkansas culture throughout the state.	
V.b.	Expand tourism marketing for agritourism with an emphasis on local food source products and cottage industries.	
VI.	Health and Wellness for All	
VI.a.	Broadband access across the state.	
VI.b.	Funding for art and technology in health and wellness sector.	
VI.c.	The intersection of Health and Wellness and Art + Technology is a new frontier that will be of particular benefit for rural areas. o Inter-generational shared sites for elders and children. o Arts and Technology as a common meeting ground; o Arts as a methodology for dementia loss; o Arts and Technology as a methodology against isolation o Support provided to develop a team of assistants whose role is to visit schools, community centers and other facilities as an informational provider and curriculum advisor on how technology and the arts can be used in the facility's specific context.	
VI.d.	Development and enrichment of current talent and emerging creative workers is crucial but, the creative workforce needs support on a more basic level. Ensuring that the individuals in this sector are attended to as whole humans with needs that extend beyond those of professional development and education, to include things like health care, housing, and financial stability (to make the concept of starving artists a thing of the past) will better solidify the state as a sustainable home for artistic people.	
VII.	Department of Transportation	
VII.a.	Develop a pilot program through the Department of Transportation to include art for all public transportation and public transit stations featuring local artist (visual and digital).	

RECOMMENDATION FOR FUTURE RESEARCH

The Legislative Art and Technology Boot Camp accomplished a great deal in a short time while experiencing both the Covid Pandemic and an election year. The pandemic impacted when, where, and who could gather at a Boot Camp and the election cycle and legislative calendar impacted when Boot Camps could be scheduled.

Additional exploration of many sectors remains with these specifically noted:

Consumer products and cottage industries:

Reintroduce AEDC's supplementation of market booth costs at the wholesale gourmet food market at the Dallas Market Center.

Develop workforce initiatives that teach entrepreneurship.

Support Small Business Tech Centers.

Agriculture and agribusiness:

Research how to support craft beer, spirits, and wine trails.

Research how to support BBQ and specialty food trails.

Research how to support specialty meats and how to bring those products to market.

Research how to support Farmers Markets and Farm to Table.

Research support for fiber arts and fibers for high-end specialty markets: wool, cotton, and yarn, dye gardens

Connect with county extension offices and 4H Clubs

Game design, virtual reality, and augmented reality:

Research support for use in medical training.

Research support for hospital and operating room design.

Construction design; digital twin

Increase education across all grade levels.

Online gaming festival. Just announced, Oct 20-22, 2022, Rewired Festival from Walmart through UA. Looking for diversity and inclusion.

Fashion, costume, and garment industry:

Research 3D imaging for the garment industry and long-distance costuming.

Research avatar garments that also exist in reality.

Research LED lights, sensors, and bio-feedback in garments.

Research emerging technologies in outdoor gear.

Support NWA Fashion Week.

Timber industry:

Research laminated wood product design and building construction.

Construction industry:

- o Cabinet making and furniture design.
- o Aero industry and custom aircraft interiors.
- o Boat design and watercraft.

BOOT CAMP

The Legislative Art and Technology Boot Camp grew out of the Arkansas Legislative Arts Caucus with a goal of growing Arkansas' creative economy. Statewide convenings, or Boot Camps, were coordinated to learn about art and technology work already being done in local communities. Arkansans for the Arts conducted surveys and eight statewide focus groups to gather information about work in the field and then brought key experts into the Boot Camps.

The initial hope of visiting all eight Arts Districts was hampered by the pandemic and the legislative calendar. In-person sessions were held in Pine Bluff, Northwest Arkansas, Hot Springs, and Texarkana. Virtual sessions were topical and included Art and Technology in

Representative Les Warren, Representative Carol Dalby, and Senator Joyce Elliott.

Health and Wellness, Community
Development, and Diversity, Equity, and
Inclusion Two sessions were held at the
Capitol, but these did not include the
general public so regions that should still be
visited for input would be Little Rock,
Northeast Arkansas, Eastern Arkansas, Fort
Smith, and South Arkansas. Interest in the
Boot Camps was high, and many people
expressed a desire to present information in
their area of expertise and the creative
community would like to attend these
convenings.

Boot Camp presenters provided a great deal of information about potential growth in art and technology and the impact on the economy, quality of life, and health / wellbeing for all Arkansans. Excellent work is being done in art and technology, but the endeavors are generally isolated and there is no statewide comprehensive planning. No communication system exists and this stymies grant writing and collaboration. Silos hamper interdisciplinary work and lack of funding puts most entities on a subsistence diet.

Talent drain is an issue. It is difficult to gain traction on projects when key people leave—especially when they depart for other states. This happened repeatedly throughout the Boot Camp process both with key partners on this endeavor and observed across the state. The 2010-2020 census data tracks migration by county with Benton, Craighead, Faulkner, Saline, and Washington counties experiencing population growth and many other counties experiencing loss.

Investment in art and technology, especially in underserved areas, would reap economic, education, workforce, and quality of life benefits. Collaboration grants that emphasized art and technology and encouraged cross-silo and inter-regional cooperation would plant the seeds of tomorrow's creative economic growth. 65% of jobs in the future do not exist today and Arkansas needs to grow and retain creative thinkers to thrive in that new reality.

LITTLE ROCK BOOT CAMP

AGENDA Legislative Arts and Technology Boot Camp

Monday, September 20, 2021 9:30 AM Room A, MAC Little Rock, Arkansas

Sen. Joyce Elliott, Co-Chair Sen. Cecile Bledsoe Sen. Larry Teague Sen. Missy Irvin Sen. Keith Ingram Sen. Blake Johnson Sen. Breanne Davis Sen. James Sturch Sen. Ben Gilmore Rep. Notice: Silence your cell phones. Keep your personal conversations to a minimum. Observe restrictions designating areas as 'Members and Staff Only'.

Background of Arkansans for the Arts

Dr. Lenore Shoults, ARftA Art + Technology Boot Camp Sub-Committee Chair

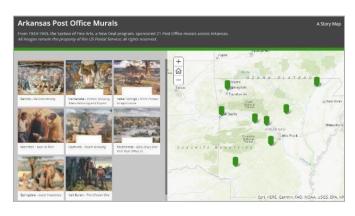

An overview of the Legislative Arts and Technology Boot Camp from Dr. Lenore Shoults included the main goal of growing the state's creative economy through art and technology, history of Arkansas' creative economy, background on the formation of the Legislative Arts Caucus, and establishment and signing of Act 577. A synopsis included how art and technology education and workforce development programs can grow entrepreneurship and attract/retain talent. Survey and Focus Group methodology was presented.

Two examples of art and technology implemented with Geographic Information System (GIS) were presented. Stephen O'Connell, Ph.D. Associate Professor and Chair of Geography at the University of Central Arkansas and honors student, Noah Walker, created a sample tour of Old Churches utilizing the photography of Sabine Schmidt.

A second tour, based on honors student Marie Desrochers thesis research of Old Post Office

Murals provided insight into what a statewide tour of these historic artworks would look like. So-called forward-facing GIS would be a phenomenal asset for tourism as it could combine disparate entities such as old churches that still exist throughout the state into self-driving tours. The GIS tours were also beautiful and easily interactive making them attractive for armchair travel planning.

The potential for GIS tours to promote tourism is tremendous. This is an area of potential business development as there is already a demand. The key is combining the GIS technology, the aesthetics of art, and often other disciplines such as history.

EAST Initiative offers GIS and already has a statewide education network in place. Their *Education Unleashed* initiative provides teacher professional development to non-EAST teachers further extending their reach. Exploring EAST as an art and technology conduit would support a successful system and could garner great results in education, workforce development and enhanced quality-of-place.

Overview of the Creative Economy Industries and Regional Creative Economy Data

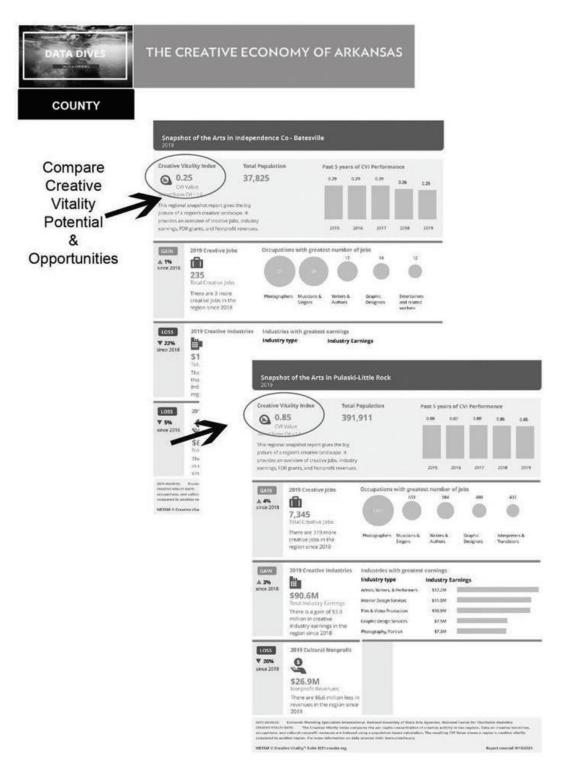

Sandy Martin, Arkansans for the Arts'

Creative Economy video by Sandy Martin, ProComm, Eureka Springs: <u>Art + Tech in Arkansas - YouTube</u>

Data Dives, prepared by Sandy Martin utilized the Creative Vitality Suite that is funded by CACHE (Creative Arkansas

Community Hub and Exchange) and Arkansans for the Arts. Arts District summaries and Data Reports for all 75 counties are included in the Appendices.

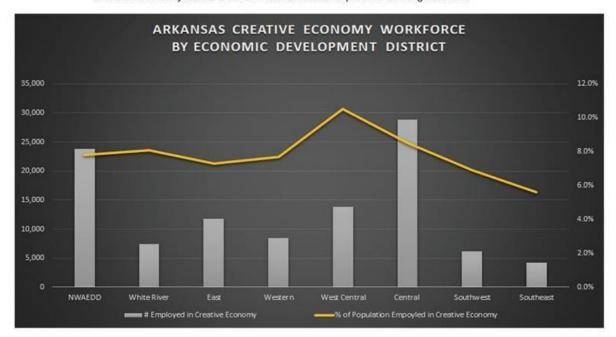

104,600 PEOPLE ARE EMPLOYED IN THE CREATIVE ECONOMY IN ARKANSAS.

The chart below represents the number and percentage of employees working in the creative economy sector in the 8 Economic Development Planning Districts.

THE CREATIVE ECONOMY IS STRONG IN EVERY DISTRICT IN ARKANSAS

Northwest: 4th behind education(21.4%) retail(16.6%) and manufacturing(14.7%)

White River: 3rd behind education(26.1%) and manufacturing(13.4%)
East: 3rd behind education(25.8%) and manufacturing(16%)

Western: 4th behind education(23.3%) manufacturing(18.6%) and retail(11.9%) West Central: 4th behind education(22.8%) manufacturing(13.8%) and retail(13.1%)

Central: 3rd behind education(26.8%) and retail(12.4%)

Southwest: 4th behind education(24.6%) manufacturing(19.6%) and retail(12.2%)
Southeast: 4th behind education(25.8%) manufacturing(16.7%) and retail(10.3%)

Source: Association of Arkansas Development Organizations 2019 Report (last modified 1/12/21) AADO: arkansaseconomicregions.org

Arkansans for the Arts divides the state into the same 8 arts districts. More information on the creative economy is available on our website:

ArkansansForTheArts.org

INDUSTRY & SECTORS

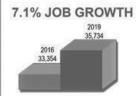

\$1.4Billion
Industry Sales in 2019

5% GROWTH Industry Earnings vs.2018. Up to \$480.9Million

3% GROWTH in Jobs since 2018 (13,628 jobs in 2019)

\$298.9Million Industry Sales (2019)

Music Industry

\$553.3Million Industry Sales (2019)

2% GROWTH in Jobs since 2018 (6,461 jobs in 2019)

Young & Growing Industry

45.5% under age 34

Occupations with the greatest number of jobs Musicians and Singers (2,979) Music Directors (821)

Producers (812) AV Techs (538)

Local Breweries

\$78Million

Brewery Industry Sales (2019)

6% GROWTH in Sales over 2018

Arkansas has a big craft brewery industry that is growing year over year. There's an interesting story about the history of Arkansas Beer as captured in the book and, an Arkansas Brewery Trail was launched last year. The figures above are breweries only. Arkansas also has a growing distillery industry.

Notice: Silence your cell phones. Keep your personal conversations to a minimum. Observe restrictions designating areas as 'Members and Staff Only'.

The Legislative Art + Technology Boot Camp was held in Arts District 8 (Pine Bluff) on November 2nd, 2021, at the University of Arkansas at Pine Bluff's Economic Research and Development Center (ERDC). The meeting location and tour that followed were selected to showcase the community development that has occurred in this "model block" of downtown Pine Bluff. The 600-800 block includes the ERDC, Arts & Science Center for Southeast Arkansas (ASC), and a new library. Situated between ERDC and ASC are two buildings that have been recently renovated thanks to a grant from Windgate Foundation and the efforts of ASC Executive Director, Dr. Rachel Miller. The conversion from storage space to ArtSpace and ArtWorks brings together artists, entrepreneurship, and tourism as the Visitor's Information Center and Pine Bluff Advertising & Promotion Commission are housed in the new space. The walking tour also included The Generator with its mission of entrepreneurship and technology education.

Presenters shared art and technology currently taught in Pine Bluff at the University of Arkansas at Pine Bluff, the Arts & Science Center for Southeast Arkansas, and The Generator. University of Central Arkansas faculty and Pine Bluff Advertising & Promotion Commission staff shared uses of art and technology in tourism.

Dr. Lenore Shoults, ARftA Art + Technology Boot Camp Sub-Committee Chair

An overview of the Legislative Arts and Technology Boot Camp with an emphasis on the importance of inter-disciplinary or cross-silo collaboration.

Proficiency in the arts will be particularly important to engineers and computer scientists in emerging industries, such as themed experiences, gaming, and simulation and training...Programmers and engineers are increasingly teamed up with artists to co-develop software, products, renderings and more. (Ali P. Gordon, Ph.D., associate professor in mechanical and aerospace engineering, University of Central Florida Comparing STEM vs. STEAM: Why the Arts Make a Difference | UCF Online)

Dr. Richard Bailey, Professor and Music Department Chair at the University of Arkansas at Pine Bluff gave a digital performance and described the music technology currently being taught at the university. Dr. Bailey also provided a glimpse into the future of the music industry and the importance of teaching both the art and the technology. Inter-disciplinary collaboration will be key to success in this emerging industry.

Dr. Stephen O'Connell, Ph.D. Associate Professor and Chair of Geography at the University of Central Arkansas gave the history of cartography, its origins in the arts, and the current and future potential of geographic history and Geographic Information System (GIS). This rapidly emerging field combines art and technology and the two project examples undertaken by Dr. O'Connell and students, Old Churches and Old Post Office Murals, involved art history, photography, geographic history, and GIS.

Sheri Storey, executive director of the Pine Bluff Advertising & Promotion Commission gave legislators a tour of the Visitor's Information Center housed in the new ArtSpace that is

part of the Arts & Science Center for Southeast Arkansas. Jimmy Cunningham, staff historian and interpreter showed attendees the exhibition outlining the rich cultural contributions of African Americans in Pine Bluff and the southeast Arkansas region.

A tour of the new ArtSpace and ArtWorks included demonstrations by Ashley Smith, ASC staff technology expert, who teaches LED and sensor circuit technology and coding to children as young as 7 years old. ASC's Executive Director, Dr. Rachel Miller guided a tour of the galleries, theatrical costume and scene shops, and Black Box Theater. The stunning studio apartments for resident artists, some of which include space for artists to work, were a highlight of the tour.

Mildred Franco, Executive Director of The Generator, *Entrepreneurship in Creative Economy Industries*. Franco provided a tour and presentation of the innovation hub that provides space, tools, and programs for economic growth through technology.

Sandy Martin presented *Data Dives*, and the Arts District 8 report is included in the Data Report section.

Arts & Science Center for Southeast Arkansas ARTSpace and ArtWorks on Main, Pine Bluff, AR

BENTONVILLE BOOT CAMP

AGENDA Legislative Arts and Technology Boot Camp

Thursday, December 16, 2021 10:00 AM

Peterson Auditorium, Shewmaker Center for Business Development, NWACC 900 SE Eagle Way, Bentonville, Arkansas

Rep. Les Warren, Co-Chair Sen. Joyce Elliott, Co-Chair Sen. Cecile Bledsoe Rep. Mike Holcomb Sen. Larry Teague Rep. Jack Fortner Sen. Missy Irvin Rep. Johnny Rye Sen. Keith Ingram Rep. Carol Dalby Sen. Blake Johnson Rep. Jamie Scott Sen. Breanne Davis Rep. Denise Garner Rep. Harlan Breaux Sen. James Sturch Sen. Ben Gilmore Rep. Stu Smith

- A. Call to Order
- B. Comments By Committee Co-Chairs
- C. Introduction to Legislative Arts and Technology Boot Camp
 Dr. Lenore Shoults, Chair, Arts and Technology Boot Camp, Arkansans for the Arts (AFTA)
- D. Creative Economy Data Report [EXHIBIT D]
 - Sandy Martin, Chair, AFTA
- E. Economic Impact of the Arts
 - Krista Cupp, Communications Director, Runway Group
- F. Hill Records: Creative Industry Modeling in Higher Education
 - Jake Herzog, Faculty, Music Department, University of Arkansas
- G. Integrating Rural Arkansas via Arts and Technology
 - Jesse Elliot, Director, Creative Ecosystems, Creative Arkansas Community Hub & Exchange (CACHE)
- H. Preparing Tomorrow's Creative Economy
 - Sonia Gutierrez, Non-Profit Branding and Training, 501c3 Design
- I. Breath of the Wild for the Natural State: Real-Time 3D, Education, and the Creative Economy
 - 1. Dr. David Frederick, Associate Professor, Classical Studies, University of Arkansas
 - 2. Greg Rogers, Co-Founder and Design Narrative Lead, Causeway Studios
- J. Northwest Arkansas Community College (NWACC) Art and Technology Programming and Integrated Design Lab
 - Dr. Evelyn Jorgenson, President, NWACC
- K. Other Business
- L. Adjournment

Note: All exhibits for this meeting are available by electronic means and are accessible on the General Assembly's website at www.arkleg.state.ar.us

Notice: Silence your cell phones. Keep your personal conversations to a minimum. Observe restrictions designating areas as 'Members and Staff Only'.

Northwest Arkansas Community College was the site of the December 16, 2021 Boot Camp because their Integrated Design Lab exemplifies the combination of fine arts and technology. This forward-thinking facility and program serves students of all ages and prepares for the workforce of tomorrow.

Lenore Shoults, Arkansans for the Arts Art + Technology Boot Camp Sub-Committee Chair. Working to grow the creative economy now will reap greater economic and quality-of-life in years to come: *One generation plants the tree and the next generation gets the shade.*

Krista Kupp, Communications Director for the Runway Group, *Economic Impact of the Arts*. Since Crystal Bridges Museum of American Art opened ten years ago, it has attracted 5.5 million visitors and had a \$135 million impact. Kupp presented information on OZ Art NWA and the use of art and technology in implementing a mural trail. She also discussed the partnership with Crystal Bridges Museum of American Art and The Momentary where art is placed throughout the community providing the opportunity for everyone to enjoy original art.

Jake Herzog, Ph.D., Assistant Professor of Guitar and Jazz Area Coordinator, University of Arkansas, *Hill Records: Creative Industry Modeling in Higher Education*. Herzog discussed the student-run recording company, Hill Records, and the hands-on learning that this gives students. He also illuminated how Hill Records benefits Arkansas musicians and future employers. Students build real-world experience toward future employment through: participation including promotion, marketing, and booking; building business, technical and analytical skills; applying tech and data to entertainment; and developing leadership and collaboration skills.

Jesse Elliott, Chief Strategy & Creative Officer, Creative Arkansas Community Hub & Exchange (CACHE) discussed the importance of growing the creative ecosystem and the resulting economic benefits and enhanced quality-of-place.

Sonia Guitierrez, self-described serial entrepreneur in the Arts and technology and Fayetteville City Council member discussed the importance of incorporating art and technology into all aspects of education and business.

David Charles Frederick, Associate Professor, University of Arkansas at Fayetteville, Former Director of the Tesseract Center, Digital Humanities + Game Design, World Languages, Literatures, and Cultures and Greg Rogers, Co-Founder and Creative Director, Causeway Studios. Frederick provided an eye-opening view to the future and the importance of preparing students for this \$178 Billion industry. As the single largest piece of the creative economy, game design incorporates many industries including computer science, architecture, drama, film, music, mathematics, graphic arts, interface design and animation. Game design also impacts numerous industries including artificial intelligence, engineering, architecture, health care, data science, education, film, visual arts, and retail.

Frederick stated that UA does not currently have a major in Game Design and recommends support and expansion of existing Game Design programs in higher ed including Southern Arkansas University, Arkansas Tech, and Arkansas State University in Jonesboro.

Dr. Evelyn Jorgenson, president of Northwest Arkansas Community College discussed the importance of art and technology in education and workforce preparation. The group next took a tour of the Integrated Design Lab which brings together fine arts, graphic arts, technology, maker space tools, and an innovation lab for cross-skill learning that is needed in business today.

Sandy Martin presented *Data Dives*, a report on the creative economy in Arts District 1.

A field trip to Rockhill Studios introduced attendees to this production hub in Fayetteville. The studio is a comprehensive resource center for film and video. Owner, Blake Elder, has directed, produced, written, edited, and shot numerous award winning films, promotional videos, and commercials.

FILM, MUSIC AND DIGITAL PRODUCTION RECOMMENDATIONS

The growing Film, Music and Digital Production industry offers a prime opportunity for creative economy revenue growth, workforce development and a ready-made vehicle to train and retain a talent pool of multi-skilled workers. Workers within this industry possess high demand skills that are transferable to other industries. The film industry also employs traditional cross-industry labor across a diversity of skill and trades (e.g., electricians, carpenters, logistics, make-up artists, hairdressers, catering, etc.)

In 2021, Arkansas produced sixteen (16) full-length feature films, among other smaller projects, with crews ranging from 60-400+. Mid-way through 2022, five (5) feature films have been produced in the state and four (4) others are scheduled for production. The current incentive package has been very beneficial in expanding this industry. The activity; however, has been primarily in two locations in the state – Northwest Arkansas and Central Arkansas. Workforce, talent and need exists in the other 70 counties and focusing on expansion throughout the state would be an economic stimulus.

In 2021, the Arkansas film industry generated \$1.9 Billion in sales and was directly responsible for over \$150 Million in wages. The industry drives economic growth through direct, indirect and induced revenue streams at a more rapid pace than any other industry. According to the Motion Picture Association, in 2021 Arkansas film production generated 5,860+ jobs for indirect and induced impact on local vendors and other businesses. (BEA's RIMS II economic model)

Due to the acceleration of production projects, the industry crew base and infrastructure has grown but demand is still high. There is a need to develop more crew base and infrastructure throughout the state with an emphasis on local and regional hires by the production

company. A recent project had a crew base of 36 and 33 of the workers were hired from within the local community...and these are well-paying jobs (\$25-65 per hour).

At one time, the state film office had a staff of eight (8). It is now a staff of one (1).

The Arkansas Film Office has been working with workforce services to develop a paid internship program. The funding to pay for the program exists but is not appropriated to be industry specific. Data supports the success of intern programs for recruiting and retaining top talent.

The current incentive package does not include a music and/or music design or production incentive. Arkansas has a rich history in music and the tourism industry relies heavily on music and sound events. There is tremendous potential for revenue and jobs that should be considered.

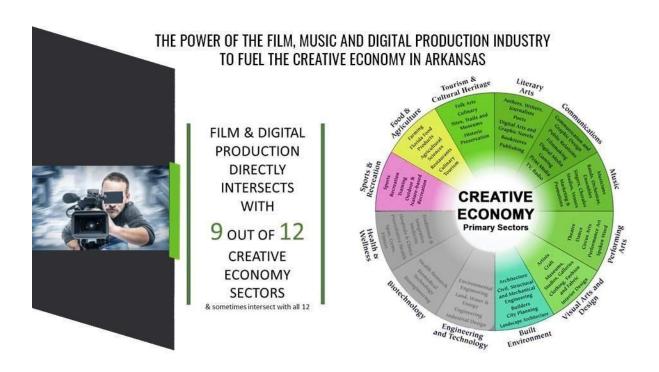

The need and demand for more skilled crew for film, music and digital production is increasing. Yet, only five (5) higher education schools provide any sort of film programs. UCA does a good job but cannot fill the need. ASU has trimmed their program. Traditionally, film schools are the sources for local hires and internships. Without more film programs throughout the state, Arkansas is missing a golden opportunity.

In addition, Act 148 of 2017, changed the methods for school funding. Under the Act, 2-year colleges are allocated state funds based on a Productivity Index. If a student gets a job within the industry while going to school, but does not complete the credentialling, the funding is reduced. If the goal of higher education is workforce readiness, the student and the school should not be penalized for achieving the skills necessary to get a job. Act 148 stipulates a review every three (3) years. This policy should be reviewed and modified by the legislature.

RECOMMENDATIONS:

- Add two (2) staff members to the Arkansas Film Commission Office;
- Amend current incentive program to include a localized, geographically targeted incentive to expand statewide production and local hiring with emphasis on rural communities;
- Appropriate the workforce services funding necessary to implement a targeted film/music/digital production industry paid internship program;
- Institute a policy through 2- and 4-year universities and colleges that allows students to earn physical production credit hours that are transferable to all Arkansas higher education institutions;
- Introduce legislation for a Music and Sound Design incentive rebate program;

- Expand film, music, animation, gaming and digital production programs through 2and 4-year colleges and/or establish more industry specific tech trade schools to create a workforce pipeline that is in high demand;
- Review Act 148 in 2023 to eliminate state funding penalty if student drops out due to securing employment with the field of study;
- Encourage more Career and Technical Education programs to include film, music, animation training in the Arts, Media and Entertainment (AME) Sector.

THE FILM INDUSTRY IS BIG BUSINESS FOR ARKANSAS

• \$1.9 Billion in Sales

- 5% Growth in Earnings
- Arkansas' motion picture and television industry is directly responsible for more than \$150 million in wages.

(Motion Picture Association of America Report, April 2021)

7.1% job growth since 2016

IMPACT

- Economic Development
- Job Creation
- Local
 business &
 tax revenues
- Tourism
- Workforce Development
- Direct, indirect and induced economic impact
- Community BUZZ

HOT SPRINGS BOOT CAMP

AGENDA Legislative Arts and Technology Boot Camp

Tuesday, March 29, 2022 10:00 AM National Park College, Student Commons Building, 101 College Drive Hot Springs, Arkansas

Sen. Joyce Elliott, Co-Chair	Rep. Les Warren, Co-Chair
Sen. Cecile Bledsoe	Rep. Mike Holcomb
Sen. Larry Teague	Rep. Jack Fortner
Sen. Missy Irvin	Rep. Johnny Rye
Sen, Keith Ingram	Rep. Carol Dalby
Sen. Blake Johnson	Rep. Jamie Scott
Sen. Breanne Davis	Rep. Denise Garner
Sen. James Sturch	Rep. Harlan Breaux
Sen. Ben Gilmore	Rep. Stu Smith

- A. Call to Order
- B. Comments by Committee Co-Chairs
- C. Welcome From National Parks College (NPC)
 - Dr. John Hogan, President
- D. How Arts and Technology Grow the Creative Economy
 - Dr. Lenore Shoults, Chair, Arts & Technology Boot Camp, Arkansans for the Arts (AFTA)
- E. Creative Economy Data Report [EXHIBIT E] -Sandy Martin, Chair, AFTA
- F. Presentation from Arkansas School for Mathematics, Sciences, and the Arts: Equity and Access
 - Corey Alderdice, Director
- G. Current Use and the Future of 3D Imaging
 - 1. Joel Rush, Director of Makerspace, NPC
 - 2. Michael Karr, Makerspace Coordinator, NPC
- H. Arkansas Arts Council: Art Education and Arts Entrepreneurship
 - Patrick Ralston, Director
- I. Arkansas STEM Coalition: Technology and Arts Intersections
 - Hannah Vogler, Executive Director
- J. Mid-America Science Museum: Informal Learning
 - Diane LaFollette, Executive Director
- K. Other Business
- L. Adjournment

Note: All exhibits for this meeting are available by electronic means and are accessible on the General Assembly's website at www.arkleg.state.ar.us

Notice: Silence your cell phones. Keep your personal conversations to a minimum. Observe restrictions designating areas as 'Members and Staff Only'.

National Park College hosted the March 29, 2022 Boot Camp and its proximity to Mid-America Science Museum allowed a field trip that showcased art and technology.

Lenore Shoults, Ph.D., discussed how planting the seeds of creativity can grow the creative economy. Decades ago, LED lights were just emerging on the market and the current explosion of products in this niche grew from those humble roots to today's full-blown extravaganzas. One example is the 2022 Super Bowl light show that was the culmination of drones, LED lights, music and advanced computer programming. Also discussed as an example of art and technology was the first-down technology used in sports broadcasting.

Corey Alderdice, Executive Director, of the Arkansas School for Math, Science, and the Arts discussed the ASMSA approach to equal access and how to close the opportunity gap for all students.

Joel Rush and Michael Karr presented the use of 3D imaging across industries and its use in the Arts notably the work of Hot Springs artist, Longhua Xu who created a model sculpture that was then scanned using 3D imaging, and the specifications sent abroad for bronze casting.

Patrick Ralston, the Executive Director of the Arkansas Arts Council (AAC), a Division of the Arkansas Department of Parks, Tourism, and Heritage, presented the history and impact of AAC.

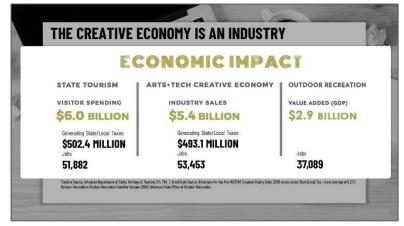

Hannah Vogler is the Executive Director of the Arkansas STEM Coalition and she established the vital connection between the Arts and technology and the need for a bridge between these disciplines across all education and economic sectors.

Diane LaFollette is the Executive Director of Mid-America Science Museum. Diane wrote the grant that originated the Arkansas Discovery Network which germinated art and technology in the participating museums across the state that were part of that project.

Sandy Martin presented Data Reports and Arts District 5, which includes Hot Springs, can

be found in Data Report section.

A field trip to Mid-America Science Museum shared the intersection of art and technology and attendees were treated to performances by the Hot Springs High School Dance Troupe, the Lakeside High School Choir, and they toured the Lakeside High School Mobile Broadcast Lab.

TEXARKANA BOOT CAMP

AGENDA Arkansas Legislative Arts and Technology Boot Camp

Wednesday, May 4, 2022 10:00 AM Texarkana School District 3435 Jefferson Ave, Texarkana, Arkansas

Sen. Joyce Elliott, Co-Chair Sen. Cecile Bledsoe Sen. Larry Teague Sen. Missy Irvin Sen. Keith Ingram Sen. Blake Johnson Sen. Breanne Davis Sen. James Sturch Sen. Ben Gilmore Rep. Les Warren, Co-Chair Rep. Mike Holcomb Rep. Jack Fortner Rep. Johnny Rye Rep. Carol Dalby Rep. Jamie Scott Rep. Denise Garner Rep. Harlan Breaux Rep. Stu Smith

- A. Call to Order
- B. Comments from Committee Co-Chairs
- C. Consideration of a Motion to Approve Previous Meeting Minutes [EXHIBITS E1-E4]
- D. Welcome from Texarkana School District (TASD)
 - Dr. Becki Kesler, Superintendent, TASD
- E. Creative Economy Overview
 - Dr. Lenore Shoults, Chair, Arts & Technology Boot Camp, Arkansans for the Arts (AFTA)
- F. Creative Economy Data Report [EXHIBIT F]
 - Sandy Martin, Chair, AFTA
- G. Robotics Discussion
 - 1. Julie Carver, Exploration Lab Robotics Team, Edward Trice Elementary School
 - 2. Tracey Boyles, Principal, TASD
 - 3. Chris Biscoe, Robotics Teacher, TASD
- H. Technology and the Arts
 - Remica Gray, Chair, Arkansas Arts Council
- I. Creative Economy Discussion
 - Sandy Martin, Chair, AFTA
- J. Other Business
- K. Adjournment

Note: All exhibits for this meeting are available by electronic means and are accessible on the General Assembly's website at www.arkleg.state.ar.us

Notice: Silence your cell phones. Keep your personal conversations to a minimum. Observe restrictions designating areas as 'Members and Staff Only'.

The Texarkana Boot Camp was held at the administration building of the Texarkana Arkansas School District. Dr. Becki Kessler is the superintendent and she addressed the foundation of the Arts as an approach to education. The elementary robotics program is housed in an arts focused school.

Tracey Boyles, Principal of Trice Elementary School in the Texarkana School District discussed the establishment of the robotics program and the cross-silo work between art and technology.

Julie Carver, Robotics Teacher, and students ages 7 through 13 presented projects that were taken to regional competitions.

Chris Biscoe, Robotics Teacher, discussed his winning Robotics Team that went on to compete in Houston. He emphasized how glad the team was to be in attendance but how some teams have been competing for years and international teams are so far ahead that "the robot from Japan walked off the truck by itself," meaning other states and countries have invested in and been teaching art and technology for a long time.

Remica Grey, Chair of the Arkansas Arts Council and longtime supporter of the Arts, addressed the use of technology during the pandemic. She shared the use of technology in Arts fundraising, the connection that technology provides for artists, and the role of technology in communication.

Legislators went on a tour of the Arts in Texarkana.

JONESBORO / HEALTH AND WELLNESS BOOT CAMP

AGENDA Arkansas Legislative Arts and Technology Boot Camp: Health & Wellness

Friday, May 13, 2022 9:00-10:00 a.m.

Via Zoom from the Arkansas State University, New York Institute of Technology College of Osteopathic Medicine

- A. Call to Order
- B. Comment from Senator Joyce Elliott
- C. Welcome, introductions, and facilitation from Dr. Brookeshield Laurent, Chair and Associate Professor Department of Clinical Medicine, New York Institute of Technology College of Osteopathic Medicine, Arkansas
- D. Panel:
 - a. Dr. Susan Whiteland, Associate Professor of Art Education, Arkansas State University
 - Dr. Temma Balducci, Professor of Art and Department Chair, Arkansas State University
 - c. Garry Holstein, Director, Bradbury Art Museum at Arkansas State University
- E. Community Based Arts/Wellness Program
 - a. Intergenerational social engagement
 - b. Creating Wellness/Innovation Hubs
- F. Arts for health communication and public health initiatives
 - a. Health cost savings for prevention and treatment of chronic illness
 - b. Creating community health opportunities
 - c. Restoring trust to facilitate healthy behaviors
 - d. Arts based Health Education
- G. Arts in Health Care Outreach
 - a. Arts in health care services
 - b. Development of interdisciplinary workforce for retention and recruitment

Dr. Brookshield Laurent is the Chair of the New York Institute of Technology College of Osteopathic Medicine at Arkansas State University. The program develops health professionals through the behavioral, social, and clinical skills required in modern medical practice. The curriculum incorporates factors from anatomical to societal that affect the nature of illness and patient outcomes. Dr. Laurent facilitated the conversation focusing on community-based arts and wellness programs, the use of the arts in health communication and public health, and arts in health care outreach. Research on the subject is outlined in the National Organization for Arts in Health, *Arts, health, and well-being in America*. San Diego, CA (accessed June 2, 2022, <u>ARTS and HEALTH NOAH-2017-White-Paper-Online-Edition (1).pdf</u>)

Dr. Susan Whiteland Associate Professor of Art Education, Arkansas State University addressed the positive impact of inter-generational forums. Generations United and the Eisner Foundation, (2019). *The Best of Both Worlds: A closer look at creating spaces that connect young and old.* (2017) The Eisner Foundation

Dr. Temma Balducci, Chair of the Department of Art + Design discussed the use of art and technology, the hope of bringing an art therapy program to Arkansas State University, and the latest departmental addition, gaming.

Garry Holstein is the director of the Bradbury Museum of Art on the ASU campus, and he described the arts-outreach kits developed for local hospitals. One use of the kit is for children in the hospital since an art activity can help ease traumatic situations, providing a hands-on activity and forum for expression.

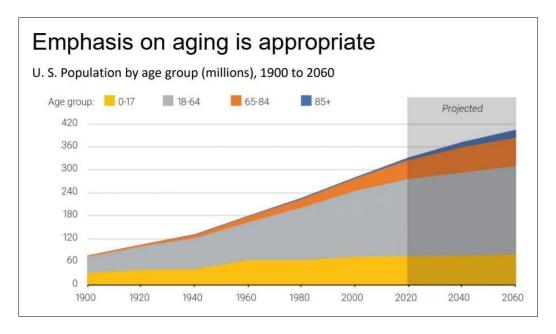

A university student shares iPad art with an assisted living resident.

The NeuroArts Blueprint: Advancing the Science of Arts, Health, and Wellbeing, is an initiative that breaks ground at the crossroads of science, the arts, and technology. The research comes from John Hopkins International Arts and Mind Lab and Aspen Institute's Center for Applied Neuro Aesthetics. The mission is to:

Cultivate an ecosystem for neuro arts: defined as transdisciplinary and extradisciplinary study of how the arts and aesthetic experiences measurably change the body, brain and behavior and how this knowledge is translated to advance health and well being.

- o Research indicates that arts and creative expression promote health with aging.
- o Making art can produce new neural pathways and stronger dendrites.
- o Making art or viewing art causes the brain to reshape, adapt, and restructure.
- Brain response to art can create positive emotions that trigger beneficial immune system cells.
- Creative abilities to not deteriorate with aging.

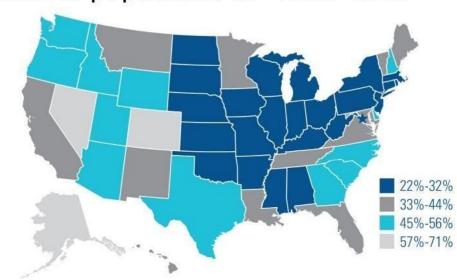

Art promotes opportunities for socialization:

- Loneliness and isolation that can lead to depression are counteracted through art engagement.
- o Intergenerational art experiences can provide social-emotional benefits for all ages.
- First documented in the 1970s, today's methodology often combines art and technology.

The US Census Bureau reports:

- o 54 million adults in the United States today are over 65. That is 16.5% of the population.
- The 2050 projection increases the number of adults over 65 to 85.7 million. That will be 20% of the U.S. population.

Increase in population 65+ 2009-2019

Source: U.S. Census Bureau, Population Estimates

In the current health and healthcare landscape, health disparities are widening and Covid 19 further widened that gap. Hospitals are stressed in both physical and human infrastructure even as more hospitals are in danger of closing. Health Care Systems are being tasked to address social determinants of health but these systems are not inherently prepared to address the social factors that affect patient care.

Art and technology present a unique opportunity for health and wellness, particularly in rural areas. Arts in healthcare, healthcare outreach, and health care education is increasingly being implemented for improved outcomes. Arts in health communication and public health initiatives assist in positive messaging.

Intergenerational sites with an emphasis on art and technology could address multiple challenges from elder isolation to childcare. Intergenerational art and technology programs can serve their communities:

- o Audio guides for museums, art blogs, digital music, and photography.
- o Digital storytelling, digital books, gaming, visual communication.
- o Job training, education, and toolkit development.

At Arkansas State University's Windgate Center for 3D Arts the Department of Art + Design has become a center for collaboration. The faculty includes game designers, sculptors, and fiber artists who can work with other units on campus to design everything from prosthetic limbs to apps that can monitor pollution from crop burning.

The Bradbury Art Museum, on the ASU campus, serves the community through outreach Arts programs that include:

- Serving as a cultural steward and champion of the role of the arts in a shared sense of place, creative learning, and community engagement.
- Acting as a resource for community partnerships.
- o Continuing the Inspired regional high school program that provides stipends for arts supplies and field trips as well as student scholarships and awards.
- Providing art kits for local hospital emergency rooms to help alleviate children's trauma.

Engagement between ASU's New York Institute of Technology's College of Osteopathic Medicine, the Department of Art, the Bradbury Museum and other disciplinary areas from engineering to computer science provides a model for addressing health and wellness issues in rural areas. Broadband access is necessary and it cannot be assumed that current planning will actually reach all citizens and certainly not at an affordable price for many in Northeast Arkansas. Funding an intergenerational pilot program that is based in art and technology would be a game changer for the region.

COMMUNITY DEVELOPMENT BOOT CAMP

AGENDA Arkansas Legislative Arts and Technology Boot Camp: Community Development

May 25, 2022 1:00-2:00 a.m. Via Zoom

- A. Call to Order
- B. Comment from Senator Joyce Elliott
- C. Introductions from Erin Holliday, Arkansans for the Arts
- D. Talicia Richardson is the Executive Director of 64.6 Downtown in Ft. Smith discussing creative placemaking and the impact that 64.6 has had on Ft. Smith's community and economy, how the organization began and where they are now.
- E. Mary Zunick, Cultural Affairs Manager for Visit Hot Springs presenting via video. Discussion includes the creative economy, the arts influence on quality of life and tourism, and the Art Moves project in Hot Springs.
- F. Dr. Lenore Shoults of Arkansans for the Arts speaking to the importance of the arts in documenting and celebrating local history and placemaking for our communities.
- G. Shelby Feigel, Director of the University of Central Arkansas Center for Community and Economic Development (CCED) and the Community Development Institute (CDI) addressing CDI, and defining community development, how it impacts economic development, and how the arts are integral to growing vibrant communities.

DIVERSITY, EQUITY, AND INCLUSION BOOT CAMP

AGENDA Arkansas Legislative Arts and Technology Boot Camp: Diversity, Equity, and Inclusion

June 2, 2022 10:00-11:00 a.m. Via Zoom

- A. Call to Order
- B. Comment from Senator Joyce Elliott
- C. Adrienne Collins, Facilitator. *Arkansas Money & Politics* Power Women of 2021, HR for Rock Region Metro, and owner of AC Production consulting firm. facilitator.
- D. Lauren Wilson, Assistant Director of the Multi-Cultural Center at University of Arkansas at Little Rock. Defining terms for a Diversity, Equity, and Inclusion conversation.
- E. Margie Reese: DEIA consultant for Mid America Arts Alliance with a 30+ year career in the Arts that spans the globe. Discussing the importance of Diversity, Equity, and Inclusion in the Arts.

The Boot Camp on Diversity, Equity, and Inclusion emanated from conversations with Dr. Amanda J. Ashley (Associate Professor, Urban Studies, School of Public Service, Boise State University), Dr. Carolyn G. Loh (Associate Professor, Urban Studies and Planning, Wayne State University), and Dr. Leslie Durham (Professor of Theatre Arts, Interim Dean of the College of Arts and Sciences, Boise State University) regarding how to consider diversity and equity in arts and cultural planning. This is the introduction, from their research:

Diversity, equity, and inclusion (DEI) are increasingly referenced ideas in planning practice. There is considerable debate and uncertainty about how to plan for and implement these concepts in a time of increased scrutiny and rapid cultural and political change (Watson, 2013). There is momentum around these ideas and expectations that institutions of all types, including arts and culture, will address structural inequality related to race, ethnicity, age, gender, sexual orientations, ableisms, and other forms of marginalization. DEI language increasingly appears in goals and values in newer comprehensive land use plans, but there is debate by practitioners about the depth of understanding of DEI concepts, the execution of these ideals, the motivation for including them, and the likelihood of their implementation at the local level (Loh and Kim, forthcoming). In this paper, we raise similar questions about how a particular planning subfield, arts and cultural planning, addresses DEI.

DIVERSITY is the presence of differences within a given setting. This generally refers to psychological, physical, and social differences that occur among any and all individuals.

EQUITY ensures everyone has access to the same treatment, opportunities, and advancement. Equity aims to identify and eliminate barriers that prevent the full participation of some groups.

INCLUSION refers to how people with different social identities feel as part of the larger group. Inclusion doesn't naturally result from diversity, and in reality, you can have a diverse team of talent but that doesn't mean that everyone feels a sense of belonging, or feels welcome or valued. Based on 15five.com/blog/diversity-equity-and-inclusion accessed July 27, 2022.

24	BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE S	TATE OF ARKANSAS:
25	25	
26	26 SECTION 1. DO NOT CODIFY. TEMPORARY LAN	GUAGE. Findings and intent.
27	(a) The General Assembly finds that:	
28	28 (1) Arkansas's creative economy c	onsists of many industries,
29	29 including:	
30	30 (A) Agriculture and agribus	iness;
31	31 <u>(B)</u> Tourism and recreation;	
32	(C) Health and wellness;	
33	(D) Technology;	
34	(E) Consumer products; and	
35	(F) Cottage industries; and	
36	(2) The Arkansas nonprofit arts a	nd culture sector is critical
36	(Z) The Arkansas nonprofit arts a	nd culture sector is critical

3/11/2021 10:10:11 AM RWO031

1	to Arkansas's cultural and economic success:
2	(A) Two billion nine hundred thousand dollars
3	(\$2,900,000,000) of the Arkansas's gross domestic product is generated by the
4	nonprofit arts and culture sector.
5	(B) Arkansas has thirty-three thousand seven hundred
6	twenty nine (33,729) jobs in the nonprofit arts sector.
7	(C) Thirty percent (30%) of all employees in the state of
8	Arkansas work in creative industries.
9	(3)(A) Arkansas abounds with culture and creativity. This
10	strengthens the economy, drives tourism and business, and improves economic
11	performance.
12	(B) The arts in Arkansas celebrate and bring visibility to
13	the richness and diversity of the culture, history, and potential of all
14	Arkansans.
15	(4)(A) The arts and creative experiences play a vital role in
16	supporting and improving quality of life across Arkansas.
17	(B) Ninety-one percent (91%) of Arkansans believe the arts
18	are necessary for a well-rounded K-12 education.
19	(C) Eighty-two percent (82%) of Arkansans believe the arts
20	are critical to local businesses and the economy.
21	(D) Seventy-two percent (72%) of Arkansans believe the
22	arts unify communities and seventy-three percent (73%) believe the arts help
23	them to better understand other cultures.
24	(E) The arts spur economic growth for communities during
25	recovery from disaster, trauma and pandemics.
26	(5) It is desirable to identify and bring together existing
27	groups, organizations, and other initiatives working on the intersection of
28	the arts and technology to:
29	(A) Identify state-wide programming gaps for digital arts
30	and technology;
31	(B) Bring together arts and technology public school
32	teachers to share ideas; and
33	(C) Stimulate new partnerships to help grow Arkansas's
34	creative economy.
35	(b) It is the intent of the General Assembly to create a Legislative
36	Arts and Technology Boot Camp that will hold one (1) or more boot camps to

2

3/11/2021 10:10:11 AM RWO031

1	share ideas that can help grow Arkansas's creative economy.
2	
3	SECTION 2. DO NOT CODIFY. TEMPORARY LANGUAGE. Legislative Arts and
4	Technology Boot Camp - Creation and duties.
5	(a) The Legislative Arts and Technology Boot Camp is created and
6	<pre>consists of the following:</pre>
7	(1) Eight (8) members appointed from the Senate membership by
8	the President Pro Tempore of the Senate;
9	(2) Eight (8) members appointed from the membership of the House
10	of Representatives by the Speaker of the House of Representatives;
11	(3) The Senate lead sponsor of this act or his or her designee,
12	who shall serve as a cochair of the boot camp; and
13	(4) The House lead sponsor of this act or his or her designee,
14	who shall serve as a cochair of the boot camp.
15	(b)(1) If a vacancy occurs on the boot camp, the vacancy shall be
16	filled by the same process as the original appointment.
17	(2) Members of the boot camp shall be paid per diem and mileage
18	$\underline{\text{as}}$ authorized by law for attendance at meetings of interim committees of the
19	General Assembly.
20	(c)(l) The cochairs of the boot camp shall call the first meeting of
21	the boot camp by October 1, 2021.
22	(2) Meetings of the boot camp shall be held at the call of the
23	cochairs.
24	(3) The boot camp shall establish rules and procedures for
25	conducting its business.
26	(4) The Bureau of Legislative Research shall provide staff for
27	the boot camp.
28	(d)(l) The appointments in subsection (a) of this section shall be
29	made no later than thirty (30) days after the effective date of this act.
30	(2) The boot camp expires August 31, 2022.
31	(e)(1) By August 31, 2022, the boot camp shall issue a final written
32	report, which shall include without limitation:
33	(A) An inventory of Arkansas's statewide arts and cultural
34	assets, to be organized by creative economy industry clusters;
35	(B) An assessment of:
36	(i) The amount of funding needed for Arkansans for

3

44

1	the Arts to create, update, and maintain a statewide database that contains	
2	an inventory of Arkansas's arts and cultural assets for each of the Arkansas	
3	Arts Council's eight (8) art districts; and	
4	(ii) The options for and practicability of obtaining	
5	that amount of funding; and	
6	(C) A plan for identifying and leveraging current and	
7	future assets and talents in the areas of arts and technology.	
8	(2) The report required under subdivision (e)(1) of this section	
9	shall be made available to the public and shall be delivered to:	
10	(A) The Governor;	
11	(B) The Legislative Council or, if the General Assembly is	
12	in session, the Joint Budget Committee;	
13	(C) The Arkansas Economic Development Commission;	
14	(D) The Arkansas Planning and Development Districts and	
15	(E) Any other relevant state agencies.	
16	(f) To develop the information needed for the report under subsection	
17	(e) of this section, the boot camp shall hold one (1) or more boot camps as	
18	described in Section 3 of this act.	
19		
20	SECTION 3. DO NOT CODIFY. TEMPORARY LANGUAGE. Arts and Technology Boot	
21	Camps - Purpose and composition.	
22	(a) The primary, though not exclusive, means by which the Legislative	
23	Arts and Technology Boot Camp shall obtain the information needed for the	
24	report required under Section 2 of this act is through assembling and	
25	conducting one (1) or more meetings to be known as an "Arts and Technology	
26	Boot Camp".	
27	(b) An Arts and Technology Boot Camp shall be composed of individuals	
28	invited by the Legislative Arts and Technology Boot Camp from any of the	
29	following:	
30	(1) The Department of Commerce;	
31	(2) The Department of Education;	
32	(3) The Department of Parks, Heritage, and Tourism;	
33	(4) Public school teachers who teach arts or technology;	
34	(5) People involved in conducting career and technical education	
35	programs;	
36	(6) People involved in Environmental and Spatial Technologies	

4

45

1	(EAST) Initiative labs; and
2	(7) Any other existing groups, organizations, or individuals
3	working on or interested in the intersection of arts and technology.
4	(c) An Arts and Technology Boot Camp shall:
5	(1) Identify statewide gaps in the funding, talent, or assets in
6	the areas of digital arts and technology programming;
7	(2) Discuss the business of the arts in the following creative
8	industries:
9	(A) Creative services;
10	(B) Design;
11	(C) Media;
12	(D) Publishing and printing;
13	(E) Visual arts;
14	(F) Audio, music, and sound arts;
15	(G) Cultural sites;
16	<pre>(H) Performing arts;</pre>
17	(I) Film or animation;
18	(J) Culinary arts;
19	(K) Product design and development;
20	(L) Fashion design;
21	(M) Crafts; and
22	(N) Literary arts; and
23	(3) Engage in any other discussions or provide any other
24	information relevant to the report to be issued by the boot camp under
25	Section 2 of this act.

ARTS DISTRICTS DATA REPORTS

The Data Reports that follow were prepared by Sandy Martin utilizing the Creative Vitality Suite from Westaf. The Creative Vitality Suite was funded by CACHE (Creative Arts Community Hub and Exchange) and Arkansans for the Arts and the Data Reports were funded by CACHE and the Pine Bluff Advertising & Promotion Commission. The data is based on 2020 reports from North American Industry Classification System (NAICS) codes, Standard Occupational Classification (SOC) codes, National Center for Charitable Statistics, National Assembly of State Arts Agencies, U.S. Bureau of Labor Statistics, the Bureau of Economic Analysis, and the U.S. Census Bureau.

The Data Reports compile the counties within each of Arkansas' Arts Districts. The full 75 county reports are in the Appendices of this document.
