* Not a mutually exclusive category; includes beds also included in other categories.

** Definition changed to explicitly include rented ventilators on 7/6/20.

*** Includes beds of all types (e.g., medical/surgical, ICU, psych, OB, ED, etc.). Label changed to explicitly specify staffed beds on 7/14/20.

All capacity data are directly from EMResource, which provides a self-reported snapshot of hospital resource availability by region and for the state. Reported bed capacity includes all types of hospitals in Arkansas (e.g., acute, CAH, LTCH, psychiatric, VA, etc.) and selected hospitals in Texarkana, TX serving Arkansas patients. These numbers are capacity figures reported as of the date above.
