Original:	8,885,502.22	The Division of Information Systems currently manages and maintains infrastructure that runs VMware software. The VMware Enterprise License Agreement will allow the division to expand this service offering as the base technology for the Data Center Modernization project. This will allow the other departments to utilize a self-service portal to manage and monitor their computer resource hosted within the Data Center Modernization environment. The VMware Enterprise License strengthens the Cyber Security posture by providing virtual firewalls, web application firewalls, and other Cyber Security protections at the individual virtual server level. This reduces the cyber-attack surface, and provides another layer of defense against cyber threats. The VMware Enterprise License will provide the Data Center Modernization project to become a broker of cloud services allowing on-premise workloads to move or utilize vendor provided cloud services. As well as improving the departments disaster recovery stance with the ability to move workloads between data centers or cloud vendor.
