

ARKANSAS GENERAL ASSEMBLY

Senator Linda Pondexter Chesterfield, Chairman

Representative Mike Patterson, Chairman

JOINT ADVANCED COMMUNICATIONS
AND INFORMATION TECHNOLOGY COMMITTEE

May 17, 2012

Mr. Co-Chairmen:

The Joint Committee on Advanced Communications and Information Technology met on April 26, 2012 and reviewed the request by the Department of Information Systems (DIS) to make rate adjustments for both Fiscal Year (FY) 2012 and FY 2013. DIS operates within the State of Arkansas to provide information technology services to state agencies and other approved governmental entities. The rate adjustments are estimated to result in a \$78,000 net decrease for DIS's customers in FY 2012 and a \$1,280,000 net increase for FY 2013.

In accordance with Arkansas Code Annotated §25-4-119 (b) (3) (B) (i), the Joint Committee on Advanced Communication and Information Technology favorably reviewed the request by the Department of Information Systems and report this action for review by the Arkansas Legislative Council.

Respectfully submitted,

Senator Linda Pondexter Chesterfield

Representative Mike Patterson
