

ARKANSAS  
Department of Environmental Quality

July 14, 2016

Sen. Bill Sample, Co-Chair  
Rep. David Branscum, Co-Chair  
Arkansas Legislative Council  
Room 315, State Capitol Building  
Little Rock, AR 72201

Dear Sen. Sample & Rep. Branscum:

As required in Act 77 of 2015, Section 38(a)-(e), the Arkansas Department of Environmental Quality presents the following information:

- (a) number and type of environmental permits currently authorized by the Department and Pollution Control and Ecology Commission in each environmental permit category,
- (b) total funds collected from permit fees for each permit category and the percent increase or decrease in permit fees annually,
- (c) description of each environmental permit application pending in each environmental permit category, the number of days each permit has been pending, and the reasons for delays in issuing permits for each permit that has been pending for more than 45 days,
- (d) number and type of enforcement actions initiated by the Department, the geographic location of each violation and the total fines and collections from Supplemental Environmental Projects, the percent increase or decrease in fines levied annually, and
- (e) description of all pending rulemaking activities and justifications thereof, including economic impact and environmental benefit analysis.

The information provided by each division covers the period April 1, 2016 through June 30, 2016. If you have any questions, please contact Julie Chapman at (501) 682-0959.

Sincerely,

  
Becky W. Keogh  
Director

Permits Pending Greater than 45 Days

Permit Number	Permittee	Facility	Days Pending	Reason Code	Additional Information
AR0000752		El Dorado Chemical Company	3466	9	This permit is currently on HOLD due to Mineral Issue.
AR0035386		FutureFuel Chemical Company	2947	8	This discharge permit remains on HOLD awaiting the issuance of a new land application permit. The previous discharge permit authorized land application of the wastewater sludge. The Department decided to remove land application conditions/authorization from the discharge permit and cover the land application operations under a separate land application permit. Both permits need to be issued at the same time to avoid a lapse in permit coverage. The land application permit and the discharge permit have completed the public notice period. Permittee submitted numerous comments on the land application permit which are currently being reviewed and responses are currently being drafted.
AR0001171		Great Lakes Chemical Corporation - Central Plant	2911	9	This permit is currently on HOLD due to Mineral Issue.
AR0022063		Springdale Water and Sewer Commission	2836	9	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000647	Lion Oil Company	El Dorado Refinery	2710	9	This permit is currently on HOLD due to Mineral Issue.
AR0050288	City of Fayetteville	West Side Wastewater Treatment Facility	2210	9	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0043397		City of Rogers	2193	9	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000582	Alcoa Inc.	Arkansas Remediation	1906	9	This permit was previously on HOLD awaiting EPA approval of EIP for Selenium. The EIP was approved, however this permit is currently still on HOLD due to Mineral Issue and proposed TMDL revision for minerals. Proposed TMDL revision and supporting calculations is still under technical review. The proposed TMDL revision involves revising the traditional static mass limit to a dynamic mass limit that is a function of upstream flow. This proposal is taking extended time to review because this is a new concept which involves a large and complicated spreadsheet that was created by the facility in support of their proposal. The Department requested an additional analysis demonstrating that proposed mineral limit would still comply with water quality standards when other dischargers within the TMDL are included. This analysis was submitted and is under technical review.
AR0022250		Pond	1799	9	ON HOLD due to Minerals and Mercury TMDLs
AR0049425	Associated Electric Cooperative, Inc.	Dell Power Plant	1741	8	PN closed on 6/27/2016
AR0002968	Domtar A.W. LLC	Ashdown Mill	1695	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0022373		West Fork Wastewater Treatment Plant	1602	9	This permit is currently on HOLD with no plans for issuance. This facility is in the process of routing the City's wastewater to the City of Fayetteville for treatment. Once this connection is completed, this permit will be terminated.
AR0034321		City of Harrison	1547	9	Previous Mineral HOLD Waiting for UAA workplan for Minerals

C

AR0048356	Tyson Poultry, Inc.	River Valley Animal Foods	1541	9	ON HOLD due to Minerals TMDL
AR0020273		City of Siloam Springs	1531	9	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0021792	City of Berryville	Berryville Wastewater Treatment Plant	1455	8	The Missouri Department of Natural Resources submitted comments on the draft permit during the 30-day comment period. Responses to those comments are currently being prepared by the engineer as part of the finalization process.
AR0000680		Corporation - South Plant	1393	9	This permit is currently on HOLD due to Mineral Issue.
AR0034371		City of Portland	1310	9	Mineral HOLD
AR0043508		City of Waldo	1289	9	Hg TMDL & WQMP Update Appeal
AR0049794	Halliburton Energy Services, Inc.	Magcobar Mine Site	1267	4	This permit was on HOLD due to a CAO and an EIP that is currently under construction. However, in March 2016, the permittee requested that we issue the permit with the mineral limits unchanged so that they could add a type of effluent to the mine pit. The draft permit has been written and is currently undergoing technical review by management and staff.
AR0050857		City of Garland WWTP	1217	9	Mineral HOLD; rec'd from EG
AR0036498	Benton Utilities	Wastewater Treatment Plant	1181	9	This permit is currently on HOLD due to an upcoming revision to a TMDL which contains a mineral limit for this facility.
AR0050989		City of Wilmot	1155	9	ON HOLD due to Minerals and Mercury TMDLs
AR0050997	City of Parkdale	Parkdale Wastewater Treatment Plant	1127	9	Mineral HOLD and Hg Mercury Previous permit# AR0037141 JD's permit assigned to EG September 24, 2014 and assigned to CW December 2, 2015
AR0022004		City of Huntsville	988	9	Reassigned. The permit is currently on HOLD by request of the permittee due to minerals.
AR0043192		City of Colt	986	8	PN closed on 6/25/2016
AR0046477		City of Star City	919	9	This permit is currently on HOLD due to a mercury issue. The permit has previously finished the comment period on its redraft.
AR0033707		City of Tillar	904	9	Mineral HOLD
AR0021695		City of Rison	887	9	Hold Minerals & Mercury
AR0042951		City of Ashdown	869	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0039659		City of Felsenthal	848	9	This permit has been placed on temporary HOLD until revisions are finalized for a Mercury TMDL. Public notice period has ended and permit is currently being finalized.
AR0021440		City of Smackover	847	9	This permit is currently on HOLD due to Mercury issues.

AR0043516M	Great Lakes Chemical Corporation	West Plant	824	8	<p>The permit is waiting to be signed final.</p> <p>Shortly after the application was first submitted, the Department requested additional information and clarification on a couple of items. Due to the length of time needed for the permittee to obtain the information, the Department recommended the application be withdrawn and re-submitted once all of the required information could be gathered. The permittee did not submit a request to withdraw the application and later submitted the requested information. Following that submittal, data was requested several times from the permittee. The permittee stated in an e-mail dated 11/14/2014 that they thought they were permitted to dispose of the boiler blowdown, cooling tower blowdown, and steam condensate in the Class V well since those waters were associated with bromine production. On 12/19/2014 the permittee stated that they would be installing a new sanitary sewer treatment plant for the sanitary wastewater but the plans had not yet been finalized. In an e-mail dated 12/30/2014, the permittee stated that the sanitary sewer WWTP would not have a surface discharge.</p> <p>The Department could not verify the permittee's claims that the cooling tower blowdown, boiler blowdown, and steam condensate could be disposed of in the Class V well. The permittee was asked for more specific information in an e-mail dated 2/25/2015. A response was received on 3/7/2015. This response was forwarded to EPA Region VI for their review. We received information from EPA on March 13th regarding the disposal of cooling tower blowdown, boiler blowdown, and steam condensate down the Class V well. It was determined that those wastes cannot be disposed of down that well. In a June 2015 letter, the Arkansas Oil and Gas Commission which regulates the Class V well stated that these waters are allowed to be disposed of in that well. The permit was updated accordingly and sent to public notice. Responses to the permittee's comments are being prepared.</p>
AR0048691		City of Texarkana-North WWTP	811	9	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.

Permits Pending Greater than 365 Days

Permit Number	Owner Name	Facility Name	Days Pending	Reason Code
AR0000752		El Dorado Chemical Company	3466	This permit is currently on HOLD due to Mineral Issue.
AR0035386		FutureFuel Chemical Company	2947	This discharge permit remains on HOLD awaiting the issuance of a new land application permit. The previous discharge permit authorized land application of the wastewater sludge. The Department decided to remove land application conditions/authorization from the discharge permit and cover the land application operations under a separate land application permit. Both permits need to be issued at the same time to avoid a lapse in permit coverage. The land application permit and the discharge permit have completed the public notice period. Permittee submitted numerous comments on the land application permit which are currently being reviewed and responses are currently being drafted.
AR0001171		Great Lakes Chemical Corporation - Central Plant	2911	This permit is currently on HOLD due to Mineral Issue.
AR0022063		Springdale Water and Sewer Commission	2836	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000647	Lion Oil Company	El Dorado Refinery	2710	This permit is currently on HOLD due to Mineral Issue.
AR0050288	City of Fayetteville	West Side Wastewater Treatment Facility	2210	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0043397		City of Rogers	2193	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0000582	Alcoa Inc.	Arkansas Remediation	1906	This permit was previously on HOLD awaiting EPA approval of EIP for Selenium. The EIP was approved, however this permit is currently still on HOLD due to Mineral Issue and proposed TMDL revision for minerals. Proposed TMDL revision and supporting calculations is still under technical review. The proposed TMDL revision involves revising the traditional static mass limit to a dynamic mass limit that is a function of upstream flow. This proposal is taking extended time to review because this is a new concept which involves a large and complicated spreadsheet that was created by the facility in support of their proposal. The Department requested an additional analysis demonstrating that proposed mineral limit would still comply with water quality standards when other dischargers within the TMDL are included. This analysis was submitted and is under technical review.
AR0022250		City of Dermott - South Pond	1799	ON HOLD due to Minerals and Mercury TMDLs
AR0049425	Associated Electric Cooperative, Inc.	Dell Power Plant	1741	PN closed on 6/27/2016
AR0002968	Domtar A.W. LLC	Ashdown Mill	1695	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0022373		West Fork Wastewater Treatment Plant	1602	This permit is currently on HOLD with no plans for issuance. This facility is in the process of routing the City's wastewater to the City of Fayetteville for treatment. Once this connection is completed, this permit will be terminated.
AR0034321		City of Harrison	1547	Previous Mineral HOLD Waiting for UAA workplan for Minerals
AR0048356	Tyson Poultry, Inc.	River Valley Animal Foods	1541	ON HOLD due to Minerals TMDL
AR0020273		City of Siloam Springs	1531	This permit is currently on HOLD. The EPA has currently placed a hold on the approval of this permit pending the outcome of a Total Phosphorus model being ran for Illinois River watershed.
AR0021792	City of Berryville	Berryville Wastewater Treatment Plant	1455	The Missouri Department of Natural Resources submitted comments on the draft permit during the 30-day comment period. Responses to those comments are currently being prepared by the engineer as part of the finalization process.
AR0000680		Great Lakes Chemical Corporation - South Plant	1393	This permit is currently on HOLD due to Mineral Issue.
AR0034371		City of Portland	1310	Mineral HOLD
AR0043508		City of Waldo	1289	Hg TMDL & WQMP Update Appeal
AR0049794	Halliburton Energy Services, Inc.	Magcobar Mine Site	1267	This permit was on HOLD due to a CAO and an EIP that is currently under construction. However, in March 2016, the permittee requested that we issue the permit with the mineral limits unchanged so that they could add a type of effluent to the mine pit. The draft permit has been written and is currently undergoing technical review by management and staff.
AR0050857		City of Garland WWTP	1217	Mineral HOLD; rec'd from EG
AR0036498	Benton Utilities	Wastewater Treatment Plant	1181	This permit is currently on HOLD due to an upcoming revision to a TMDL which contains a mineral limit for this facility.
AR0050989		City of Wilmot	1155	ON HOLD due to Minerals and Mercury TMDLs
AR0050997	City of Parkdale	Parkdale Wastewater Treatment Plant	1127	Mineral HOLD and Hg Mercury Previous permit# AR0037141 JD's permit assigned to EG September 24, 2014 and assigned to CW December 2, 2015
AR0022004		City of Huntsville	988	Reassigned. The permit is currently on HOLD by request of the permittee due to minerals.
AR0043192		City of Colt	986	PN closed on 6/25/2016
AR0046477		City of Star City	919	This permit is currently on HOLD due to a mercury issue. The permit has previously finished the comment period on its redraft.
AR0033707		City of Tillar	904	Mineral HOLD

AR0021695		City of Rison	887	Hold Minerals & Mercury
AR0042951		City of Ashdown	869	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0039659		City of Felsenthal	848	This permit has been placed on temporary HOLD until revisions are finalized for a Mercury TMDL. Public notice period has ended and permit is currently being finalized.
AR0021440		City of Smackover	847	This permit is currently on HOLD due to Mercury issues.
				The permit is waiting to be signed final.
				Shortly after the application was first submitted, the Department requested additional information and clarification on a couple of items. Due to the length of time needed for the permittee to obtain the information, the Department recommended the application be withdrawn and re-submitted once all of the required information could be gathered. The permittee did not submit a request to withdraw the application and later submitted the requested information. Following that submittal, data was requested several times from the permittee. The permittee stated in an e-mail dated 11/14/2014 that they thought they were permitted to dispose of the boiler blowdown, cooling tower blowdown, and steam condensate in the Class V well since those waters were associated with bromine production. On 12/19/2014 the permittee stated that they would be installing a new sanitary sewer treatment plant for the sanitary wastewater but the plans had not yet been finalized. In an e-mail dated 12/30/2014, the permittee stated that the sanitary sewer WWTP would not have a surface discharge.
				The Department could not verify the permittee's claims that the cooling tower blowdown, boiler blowdown, and steam condensate could be disposed of in the Class V well. The permittee was asked for more specific information in an e-mail dated 2/25/2015. A response was received on 3/7/2015. This response was forwarded to EPA Region VI for their review. We received information from EPA on March 13th regarding the disposal of cooling tower blowdown, boiler blowdown, and steam condensate down the Class V well. It was determined that those wastes cannot be disposed of down that well. In a June 2015 letter, the Arkansas Oil and Gas Commission which regulates the Class V well stated that these waters are allowed to be disposed of in that well. The permit was updated accordingly and sent to public notice. Responses to the permittee's comments are being prepared.
AR0043516M	Great Lakes Chemical Corporation	West Plant	824	
AR0048691		City of Texarkana-North WWTP	811	This permit is currently on HOLD. Due to upcoming water quality standard changes for minerals, this permit is on HOLD until further notice.
AR0022179		City of Junction City	791	This permit is currently on HOLD for mineral issues.

AR0052493	Spring Creek Materials, Inc.	Salem Redi-Mix, LLC	453	The State Construction Permit will be Placed in "inactive status" and a 3-year Schedule of Compliance for the State Construction Permit application, construction and completion of construction has been included in the discharge permit. Reassigned from EG to JT December 2, 2015.
				ON HOLD for minerals
				Currently waiting on the submittal of proof of publication / payment by the applicant.

AR0037800		Clean Harbors El Dorado, LLC	450	facility has had enforcement issues which were required to be addressed in the permit.
AR0021768	City Corporation	Russellville Water and Sewer System	447	The permittee submitted comments on the draft permit during the 30-day comment period. Responses to those comments were prepared by the engineer and the permit has been routed for final review and approval.
AR0052523	Arkansas Electric Cooperative Corporation	Fulton Generating Station	435	Reassigned to Loretta Reiber. I believe the discharge was to be covered by the facility's stormwater IGP.
AR0041602		Suburbia Sewer Improvement District #1	433	On hold for Mercury and Minerals.
AR0022101	Beebe Water & Sewer Commission	Beebe Wastewater Treatment Facility	425	The permittee took a long time getting Health Department approval for land application of effluent.
AR0001210	Georgia-Pacific Crossett LLC	Crossett Paper Operations	411	technical review by management and staff. The review of this application was delayed slightly by the submittal of an application to modify the permit prior to issuance of the renewal permit. The modification application took priority over the renewal since the modified permit must be issued before October 31, 2015. Issuance of the renewal will also be delayed by a public hearing which has already been requested and granted. The date for the hearing will be included in the notice of the draft permitting decision. The permit is undergoing a second technical review by management and staff due to the controversial nature of the permit.
AR0047813		Oak Manor Water & Wastewater Public Facility Board	405	On hold for Minerals.
AR0021393	City of Cherry Valley	City of Cherry Valley	400	On hold for finalization of L'Angeuille TMDL for FCB
AR0034291	Hot Springs Village POA	Mill Creek WWTP	400	This permit is currently on HOLD due to mercury and mineral issues
AR0039284	Hot Springs Village POA	Cedar Creek WWTP	400	This permit is currently on HOLD due to mercury and mineral issues
AR0049140	Entergy Arkansas, Inc. - Union Power Station	Union Power Station	399	Reassigned from EG to JT December 2, 2015. Additional information from the facility was requested, but not received until 4/14/16. The permit is currently at the EPA.
AR0020125		City of Perryville	398	ON HOLD for Hg (not eligible for exclusion). Transferred from CV to BA
AR0021822		City of Monticello - West Plant	392	This permit was previously on HOLD due to Mercury TMDL. This permit is currently being drafted to address the TMDL requirements.
AR0050474		Coreslab Structures (ARK), Inc.	391	Ammonia & Nitrates TMDL meeting 8/27/2015 to take more samples to see if nitrates are present; permittee emailed PE 9/15/2015 stating nitrates were detected; emailed again 10/7/15 stating they are working on their options; emailed 11/2/15 stating GBMc hired to modify TMDL. No information received regarding this as of 4/4/2016. Some correspondence stating information on its way.
AR0035653		City of Norphlet	386	This permit is currently on HOLD due to Mercury issues.
AR0051811	El Dorado Public Schools	Old Union School	380	This permit is currently being prepared for final review and approval by engineer or management.

**DATE:** July 5, 2016

**TO:** LEGISLATIVE COUNCIL

**FROM:** BECKY W. KEOGH, DIRECTOR

ARKANSAS DEPARTMENT OF ENVIRONMENTAL QUALITY

**RE:** SECTION 38 (a) – (e) of ACT 77 OF THE 2015 REGULAR  
SESSION OF THE ARKANSAS GENERAL ASSEMBLY

---

As provided by Section 38 (a) – (e) of Act 2012 of the 2013 Regular Session, the Arkansas Department of Environmental Quality (“Department”) presents the number and type of administrative enforcement actions initiated by the Department and the geographic location of each violation. This information is contained in the attached copies of the Public Notice for the period of April 1, 2016 through June 30, 2016. Pursuant to A.C.A. § 8-4-103(d)(1) the Department is required to Public Notice any administrative enforcement order and the notice must include the type of enforcement action, the geographic location of the violation, and the amount of penalty assessed. (See Attachment) The total number of administrative enforcement actions initiated during this time period is 34.

There were no Civil Complaints filed for the reporting period of April 1, 2016 through June 30, 2016.

The Department presents the total amount of fines and collections from Supplemental Environmental Projects verified by the Department for the period of April 1, 2016 through June 30, 2016:

Civil Penalties Collected      \$135,112.98

Supplemental  
Environmental Projects  
Verified

\$1,456.00

**CONSENT ADMINISTRATIVE ORDERS**

Clean Harbors El Dorado, LLC, Union County, Hazardous Waste Management Division, Penalty \$12,500.00, \$4,400.00 to Supplemental Environmental Project, \$8,100.00 to ADEQ, LIS No. 16-017

Cooper Tire & Rubber Company, Miller County, Air Division, Penalty \$4,500.00, LIS No. 16-018

Plum Point Energy Associates, LLC, Mississippi County, Air Division, Penalty \$4,400.00, LIS No. 16-019

Riceland Foods, Inc., Desha County, Air Division, Penalty \$600.00, LIS No. 16-020

Saint-Gobain Ceramics & Plastics, Inc., Saline County, Air Division, Penalty \$4,800.00, LIS No. 16-022

**AMENDMENT NO. 001 TO CONSENT ADMINISTRATIVE ORDER LIS14-063-001**

Arkansas Electric Cooperative Corporation, Ouachita County, Water Division, Penalty Unchanged

Dated this 10th day of April 2016  
Becky W. Keogh, Director  
Arkansas Department of Environmental Quality

**CONSENT ADMINISTRATIVE ORDERS**

Euramax International, Inc., Phillips County, Air Division, Penalty \$10,125.00, LIS No. 16-023

Dated this 25th day of April 2016  
Becky W. Keogh, Director  
Arkansas Department of Environmental Quality

### **CONSENT ADMINISTRATIVE ORDERS**

Chicot County, Office of Water Quality, \$1,000.00 Penalty, LIS No. 16-029

City of Blytheville-South, Mississippi County, Office of Water Quality, \$2,400.00 Penalty, LIS No. 16-031

City of Blytheville-West, Mississippi County, Office of Water Quality, \$3,200.00 Penalty, LIS No. 16-030

City of Joiner, Mississippi County, Office of Water Quality, \$1,000.00 Penalty, LIS No. 16-028

Covington Enterprises, Inc. – Lowell Quarry, Washington County, Office of Air Quality, \$2,400.00 Penalty, LIS No. 16-027

Gerdau Macsteel, Inc., Sebastian County, Office of Water Quality, \$35,500.00 Penalty, LIS No. 15-056

Natural Gas Pipeline Company of America, LLC –Station 306, Hot Spring County, Office of Air Quality, \$1,800.00 Penalty, LIS No. 16-034

Porocel Industries, LLC, Pulaski County, Office of Air Quality, \$2,000.00 Penalty, LIS No. 16-033

Southland Improvement District, Phillips County, Office of Water Quality, \$1,425.00 Penalty, LIS No. 16-036

Tim Casper, Individual dba Grove Mobile Home Park, Crittenden County, Office of Water Quality, \$2,500.00 Penalty, LIS No. 15-128

Weyerhaeuser NR Company, Howard County, Office of Water Quality, \$13,500.00 Penalty, LIS No. 16-032

### **NOTICE OF DEFAULT AND BOND FORFEITURE**

David Spence Contracting, LLC, Lonoke County, Office of Land Resources, No Penalty, LIS No. 16-024

David Spence Contracting, LLC, Lonoke County, Office of Land Resources, No Penalty, LIS No. 16-025

Dated this 10th day of May 2016  
Becky W. Keogh, Director  
Arkansas Department of Environmental Quality

### **CONSENT ADMINISTRATIVE ORDERS**

City of Hughes, St. Francis County, Office of Water Quality, \$1,600.00 Penalty, LIS No. 16-039

City of Judsonia, White County, Office of Water Quality, \$3,700.00 Penalty, LIS No. 16-035

Crider Aircraft Painting, Inc., dba Goodner-Crider Aircraft Painting, Inc., Polk County, Office of Land Resources, \$8,875.00 Penalty, LIS No. 16-042

Fayetteville Gathering Company – Oliver Compression Station, White County, Office of Air Quality, \$1,800.00 Penalty, LIS No. 16-037

Hattieville Rock, LLC, Conway County, Office of Air Quality, \$5,025.00 Penalty, LIS No. 16-038

The Fadel Corporation dba Ingram Superstop, Crittenden County, Office of Air Quality, \$1,600.00 Penalty, LIS No. 16-041

Dated this 25th day of May 2016  
Becky W. Keogh, Director  
Arkansas Department of Environmental Quality

### **CONSENT ADMINISTRATIVE ORDERS**

EZ Mart Stores, Inc., Little River County, Office of Land Resources, \$1,300.00 Penalty, LIS No. 16-046

Georgia-Pacific Crossett LLC – Crossett Paper Operations, Ashley County, Office of Air Quality, \$3,000.00 Penalty, LIS No. 16-045

Halliburton Energy Services, Inc., Hot Spring County, Office of Water Quality, No Penalty, LIS No. 16-043

Jason Southerland and Stacey Southerland, Individually and d/b/a PP Hog Heaven, Little River County, Office of Water Quality, No Penalty, LIS No. 10-134

Tenneco Automotive Operating Company, Inc. d/b/a Monroe Auto Equipment, Greene County, Office of Air Quality, \$1,200.00 Penalty, LIS No. 16-044

West Fraser, Inc., Russellville Mill, Pope County, Office of Water Quality, \$3,400.00 Penalty, LIS No. 16-047

Dated this 10th day of June 2016  
Becky W. Keogh, Director  
Arkansas Department of Environmental Quality

**CONSENT ADMINISTRATIVE ORDERS**

Muhammad Zameer, Individually and Tristate Contracting of Brinkley, LLC, dba TCL Tires Unlimited, Woodruff County, Office of Land Resources, \$25,550.00 Penalty, LIS No. 16-049

**FIRST AMENDMENT TO CONSENT ADMINISTRATIVE ORDER LIS NO. 15-148**

SCS Environmental Group, LLC and Shawn Stewart-Pool, Individually, Crittenden County, Office of Land Resources, Penalty Unchanged

Dated this 25th day of June 2016

Becky W. Keogh, Director

Arkansas Department of Environmental Quality

ARKANSAS POLLUTION CONTROL AND ECOLOGY COMMISSION

QUARTERLY REPORT TO ARKANSAS LEGISLATIVE COUNCIL

ON RULEMAKING ACTIVITIES

e

Months In Quarter: April, May, and June 2016

**1. Regulation Number and Name:** Regulation No. 2, Third-Party Rulemaking, River Valley Regional Water District; Docket No. 06-003-R.

**a. Amendment Proposed By:** River Valley Regional Water District ("RVRWD").

**b. Description:** RVRWD filed its request to initiate rulemaking on January 13, 2006. These amendments concern Regulation No. 2. Proposed changes involve amending Regulation No. 2 to include amending Section 2.304 to establish a procedure by which regional water districts and other public water authorities would be able to request approval from the Pollution Control & Ecology Commission to use a water body designated as extra-ordinary resource waters as a source of drinking water supply.

The Commission initiated the rulemaking process on January 27, 2006, and no final decision has been made.

**c. Justification:** These amendments establish a procedure by which regional water distribution districts and other public water authorities would be able to request approval from the Arkansas Pollution Control & Ecology Commission to use Extraordinary Resource Waters as a source of drinking water supply.

**d. Economic Impact:** RVRWD states that there will be no cost to the agency. The amendments will have no financial impact on small business.

**e. Environmental Benefit Analysis:** No environmental benefit analysis is required for this regulation.

**2. Regulation Number and Name:** Regulation No. 2, Lion Oil Company Third-Party Rulemaking; Docket No. 13-001-R.

**a. Amendment Proposed By:** Lion Oil Company.

**b. Description:** Lion Oil Company ("Lion Oil") filed its request to initiate rulemaking on January 11, 2013. Lion Oil proposes to change the Typical Gulf Coastal Fishery use designation for Loutre Creek; change the selenium water quality criterion for Loutre Creek; change the chloride, sulfate and total dissolved solids ("TDS") criteria for Loutre Creek; change the sulfate and TDS criteria for the next downstream segment of Bayou de Loutre; and change the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State line.

The Commission is waiting on a request by Lion Oil to initiate rulemaking.

**c. Justification:** These regulatory changes are critically important to Lion Oil. Reasonably available control technology does not exist that would allow Lion Oil to consistently meet these limits. The proposed rule will revise the dissolved minerals and selenium water quality criteria in Loutre Creek and change the fishery use designation for Loutre Creek to a new sub-category of fishery referred to as a Limited Gulf Coastal Fishery. The proposed rule will also revise the chloride, sulfate, and the TDS criteria for one downstream segment in Bayou de Loutre; the sulfate and TDS criteria for the next downstream segment in Bayou de Loutre; and the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State line.

**d. Economic Impact:** No entities would suffer negative economic impact as a result of the proposed rule.

**e. Environmental Benefit Analysis:** The proposed rule will revise the chloride, sulfate, TDS, and selenium water quality criteria in Loutre Creek, and change the fishery use designation for Loutre Creek to a new subcategory of fishery referred to as a Limited Gulf Coastal Fishery reflecting the long term historical in-stream concentrations and uses. The proposed rule will also revise the chloride, sulfate, and TDS criteria for one downstream segment in Bayou de Loutre; the sulfate and TDS

criteria for the next downstream segment in Bayou de Loutre; and the sulfate criteria for the remaining downstream segments of Bayou de Loutre to the Louisiana State Line. These changes will not adversely impact the environment.

**3. Regulation Number and Name:** Regulation No. 2, Tyson Foods Third-Party Rulemaking; Docket No. 13-005-R.

**a. Amendment Proposed By:** Tyson Foods Inc. - Waldron Plant

**b. Description:** Tyson Foods filed its request to initiate rulemaking on April 9, 2013. Tyson proposes to revise Regulation 2 by modifying the state water quality standards for chloride, sulfates, and total dissolved solids.

The Commission adopted the minute order initiating the rulemaking process on May 23, 2013, and no final decision has been made.

**c. Justification:** There is no current economically feasible treatment technology for the removal of the minerals. Reverse osmosis treatment technology is not cost effective and generates a concentrated waste stream that is environmentally difficult to dispose of. That technology is not required to meet the designated uses and would produce no significant environmental protection.

**d. Economic Impact:** This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

**e. Environmental Benefit Analysis:** No Environmental Benefit Analysis is required.

**4. Regulation Number and Name:** Regulation No. 2, City of Huntsville Third-Party Rulemaking; Docket No. 13-006-R.

**a. Amendment Proposed By:** City of Huntsville

**b. Description:** City of Huntsville filed its request to initiate rulemaking on June 12, 2013. City of Huntsville proposes to revise the chloride, sulfate, total dissolved solids water quality criteria in Town Branch from the point of

discharge of the City of Huntsville wastewater treatment plant downstream to the confluence with Holman Creek; in the Holman Creek from the confluence with Town Branch downstream to the confluence with War Eagle Creek; in War Eagle Creek from the confluence with Holman Creek; and remove the designated but not existing Domestic Water Supply use from Town Branch and Holman Creek.

The Commission adopted the minute order initiating the rulemaking process on July 26, 2013, and no final decision has been made.

**c. Justification:** The economic effects of the proposed rule are significant and beneficial for Huntsville. Huntsville has investigated technologies and alternatives to comply with the current minerals criteria, which is summarized in the Report. Reasonable available control technology does not exist that would allow Huntsville to discharge in a manner that would maintain the existing minerals criteria. Approval of the proposed rule modifying the criteria to reflect long term historical site specific conditions is the only reasonable approach so that the permit limits can be adjusted

**d. Economic Impact:** This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

**e. Environmental Benefit Analysis:** No Environmental Benefit Analysis is required.

**5. Regulation Number and Name:** Regulation No. 2, Third-Party Rulemaking, City of Fayetteville Paul R. Noland Wastewater Treatment Plant; Docket No. 13-010-R.

**a. Amendment Proposed By:** City of Fayetteville Paul R. Noland Wastewater Treatment Plant ("City of Fayetteville").

**b. Description:** City of Fayetteville filed its request to initiate rulemaking on October 11, 2013. These amendments concern Regulation No. 2. Proposed changes involve amending Arkansas Water Quality Standards for minerals for the White River from the discharge of the Noland Wastewater Treatment Plant to immediately downstream of the confluence of Richland Creek.

The Commission initiated the rulemaking process on October 25, 2013, and no final decision has been made.

**c. Justification:** Fayetteville is not seeking a change from historical water quality conditions in the White River; rather Fayetteville seeks a site-specific modification which allows the Noland Wastewater Treatment Plant to be compliant with its NPDES Permit while making certain that its effluent does not limit the attainment of any of the designated uses of the stream segments.

**d. Economic Impact:** City of Fayetteville states that there will be no cost to the agency. The amendments will have no financial impact on small business.

**e. Environmental Benefit Analysis:** No environmental benefit analysis is required for this regulation.

**6. Regulation Number and Name:** Regulation No. 2, City of Harrison and City of Yellville Third-Party Rulemaking; Docket No. 15-002-R.

**a. Amendment Proposed By:** City of Harrison and City of Yellville.

**b. Description:** City of Harrison and City of Yellville filed its request to initiate rulemaking on August 5, 2015. The City of Harrison and the City of Yellville are requesting site specific modifications of the minerals water quality criteria for a portion of Crooked Creek in Boone and Marion Counties. Harrison seeks modification of the chloride, sulfate and total dissolved solids criteria for Crooked Creek from the outfall of Harrison's Wastewater Treatment Plant to ADEQ Monitoring Station WH10193. Yellville seeks a modification of total dissolved solids criteria from ADEQ Monitoring Station WH10193 to the mouth of Crooked Creek.

The Commission adopted the minute order initiating the rulemaking process on August 28, 2015.

**c. Justification:** There are currently no known technologically and economically feasible treatments capable of reducing the total dissolved solids concentration to levels that meet the current water quality criteria.

**d. Economic Impact:** This rulemaking has no impact to the environment in Arkansas that would not have otherwise occurred.

**e. Environmental Benefit Analysis:** No Environmental Benefit Analysis is required.

**7. Regulation Number and Name:** Regulation No. 19, Regulations of the Arkansas Plan of Implementations for Air Pollution Control, Docket No. 16-001-R.

**a. Amendment Proposed By:** Arkansas Department of Environmental Quality.

**b. Description:** ADEQ filed its request to initiate rulemaking on April 15, 2016. The substantive proposed changes to the Regulation 19 are necessary to comply with federal requirements, which include the U.S. Environmental Protection Agency's (EPA) finding that the current provisions are substantially inadequate to meet federal Clean Air Act (CAA) requirements and to address EPA's State Implementation Plan (SIP) call with respect to applying to excess emissions during periods of startup, shutdown and malfunction provisions published in the Federal Register (80 FR 33840, June 12, 2015). The proposed changes also include the repeal of Chapter 14, Clean Air Interstate Rule (CAIR) Nitrogen Oxide (NOx) Ozone Season Trading Program General Provisions because it is no longer in effect, and EPA replaced it with the Cross-State Air Pollution Rule (CSAPR) which took effect on January 1, 2015. Other substantive proposed changes include the addition of a definition of "Direct PM2.5 Emissions" and also the addition of t-Butyl Acetate to the list of compounds determined to have negligible photochemical reactivity in the definition of "Volatile organic compounds."

The Commission adopted the amendments on April 29, 2016.

**c. Justification:** The proposed changes will help ensure Arkansas has the authority to implement air pollution control programs and to issue air permits. Amendments to Regulation 19 will be submitted to the EPA for inclusion into Arkansas's SIP.

**d. Economic Impact:** This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

**e. Environmental Benefit Analysis:** No Environmental Benefit Analysis is required.

**8. Regulation Number and Name:** Regulation No. 27, Licensing of Operators of Solid Waste Management Facilities and Illegal Dumps Control Officers; Docket No. 16-002-R.

**a. Amendment Proposed By:** Arkansas Department of Environmental Quality.

**b. Description:** ADEQ filed its request to initiate rulemaking on April 15, 2016. The substantive proposed changes to the Regulation include addition of provisions to allow the ADEQ Director to grant or withdraw waivers of requirements for solid waste management facility licensing as well as other minor changes involving correction of a typographical error and changes in the regulation's style and format.

The Commission initiated the rulemaking process on April 29, 2016, and no final decision has been made.

**c. Justification:** The proposed changes will help ensure that the ADEQ Director is able to grant or withdraw waivers of requirements for solid waste management facility licensing.

**d. Economic Impact:** This rulemaking adopts a federal requirement and there will be no impact to the environment in Arkansas that would not have otherwise occurred.

**e. Environmental Benefit Analysis:** No Environmental Benefit Analysis is required.
