# Quarterly Report to the Legislature

Advice and Recommendations to State Agencies

Period Ending June 2010

### **REPORT OVERVIEW**

### BACKGROUND

Act 751 of 2007 requires the Director of the Department of Information Systems to submit a report on a quarterly basis to the legislature regarding requests from state agencies, boards and commissions for advice regarding information technology planning, implementation, installation, rates or fees, utilization of products, services, and integration or upgrades to be added to existing technology plans.

This report is to also include corresponding recommendations made by the Department of Information Systems to the requesting state agencies, boards, and commissions.

The report is to be submitted to the Arkansas Legislative Council between regular sessions of the General Assembly, the Joint Budget Committee during a session of the General Assembly, and the Joint Committee on Advanced Communications and Information Technology regarding the status of the agency's information technology responsibilities in state government.

### **REPORT REQUIRMENTS**

One of the requirements of this report is to inform the legislature on how any recommendation fits into the information technology plan of the agency, board, or commission.

This report is to include:

- \* The name of the state agency, board, or commission requesting the advice
- \* The name and scope of the project for which advice is being sought
- \* The type of advice sought
- \* An explanation of all recommendations provided by the Department of Information Systems
- \* How the recommendation fits into the information technology plan of the agency, board, or commission
- \* Other information as may be useful for policy making decisions by the Legislative Council, or Joint Committee on Advanced Communications and Information Technology.

### **REPORT DESCRIPTION**

The following information is included in this report in order to meet the requirements of the acts listed above and to provide the legislature with information useful to their decision-making process and oversight of information technology in state government.

- \* Information regarding any advice or recommendations made by DIS to state agencies, boards and commissions for the previous quarter.
- \* Information regarding service providing by DIS to its customers. This information is provided through reports of the system used to track contacts to the DIS Customer Call Center, referred to as HEAT tickets. This information would include services provided to state agencies, boards and commissions not identified as advice or recommendations, as well as services provided to customers not identified as state agencies, boards or commissions.
- \* Information concerning key projects undertaken by DIS on behalf on individual customers, groups of customers, or the state as a whole.
- \* Information on the products and services provided by DIS to its customers
- \* Information regarding emerging issues and activities

### **AGENCY INFORMATION**

The Department of Information Systems (DIS) operates as a cost recovery agency, serving the needs of state government and the educational community. DIS does not receive direct state general revenue funding, but charges its customers for products and services.

The primary services provided by DIS are in the area of telecommunications, information systems development and support, system hosting services, project management, and network development and support the for the state's wired and wireless network infrastructure.

DIS is organized as 10 primary divisions: Administrative, Communications, Enterprise Operations, Enterprise Systems Management, Enterprise Services, Enterprise Network Services, Customer Relationship Management, Project and Enterprise Program Management, Fiscal, and Human Resources.

DIS currently provides services to a base of 490 customers, including state agencies, boards and commissions, colleges and universities, public schools, cities and counties, and other customers.
