Purpose:

Provide funding and support to Children’s Advocacy Centers of Arkansas (CACA) for the development and expansion of the Children’s Advocacy Program. In accordance with Arkansas Code Annotated § 12-8-501, the State has a responsibility to provide competent and thorough child maltreatment investigations which are sensitive to the needs of children and families.

This will provide funding for the CACA to serve child victims and their families, as well as expand services in unreached areas within the state. Many of the gap areas in the state include rural parts with low-income communities and families that could not provide resources to hurting children. The Children’s Advocacy Centers of Arkansas program prevents further victimization by ensuring that child abuse investigations are comprehensive, and intervention and healing services meet the needs of children.
