(8)	10/13/2011	Arkansas Department of Health/Epidemiology Branch	Epidemiology and Laboratory Capacity (ELC) for Infectious Diseases: Program Components – This application for funding from the Arkansas Department of Health (ADH) contains proposals for 11 of the possible 19 program areas listed in the guidance document for Funding Opportunity: CDC-RFA-CK12-1201 entitled, Epidemiology and Laboratory Capacity (ELC) for Infectious Diseases: Program Components. The program areas for which proposals were developed include: Health Information Systems Capacity; Foodborne Diseases (five program components); Arboviral Diseases; Influenza; Rabies; Tickborne Diseases; and Waterborne Diseases. Collectively, the activities proposed for these areas will result in more rapid identification of case clusters and disease outbreaks; more complete ascertainment of cases through improved laboratory reporting; and improved field investigations of disease outbreaks. With these improvements in timeliness and analytic content, the enhanced investigation processes should reduce the final size of the outbreaks by facilitating rapid and correctly targeted public health responses.	Statewide	U.S. Department of Health and Human Services/ Centers for Disease Control and Prevention	Federal Applicant State Other Total	\$2,150,812.00 <hr/> \$2,150,812.00
