**Project Description:**

This project is for additional student housing for SAU. This is needed because the average growth in on-campus living is exceeding an additional 150 students a year. This project includes renovating an existing single story metal building used as an event center into a housing unit, construction of a new single story facility using a similar design to the existing structure and for economy other housing projects on campus. These new student housing facilities will house approximately 80 student each in the living/learning community model. Student housing must be completed for the fall 2017 semester.
