				Approve	Disapprove	
1. Department of Health / AR Prevention and Management of Diabetes and Heart Disease and Stroke.	With DP18-1815 funding, the ADH Chronic Disease Prevention and Control Branch in collaboration with key partners will build on the accomplishments and outcomes of the 1305 grant using a multi-pronged approach to improve diabetes and cardiovascular disease outcomes among Arkansans. Diabetes management and type 2 diabetes prevention strategies include: increased participation in ADA-recognized/ AADE-accredited DSMES programs in underserved areas (A.1); DSMES coverage policy among employers (A.2); identification of people with prediabetes and referral to DPPs (A.4); collaboration with payers to expand DPP as a covered benefit for ADH employees (A.5); and DPP enrollment strategies (A.6). Cardiovascular disease prevention and management strategies include: increased adoption and use of electronic health records (EHR) and health information technology (HIT) to improve provider and patient health outcomes for undiagnosed and diagnosed hypertension (B.1); adoption of evidence-based quality measurement at the provider level (B.2); engagement of non-physician team members in hypertension and cholesterol management in clinical settings (B.3); and self-measured blood pressure monitoring (SMBP) with clinical support for hypertensive adults (B.6). A.3 and B.4 are mutually reinforcing strategies in the same settings for the engagement of pharmacists to provide medication therapy management (MTM) for people with diabetes, and adoption of MTM between pharmacists and physicians to manage hypertension, high blood cholesterol, and increase lifestyle modification. A.7 and B.5 are mutually reinforcing strategies for the development of a statewide infrastructure to promote long-term sustainability/reimbursement for Community Health Workers (CHWs) to work with patients for access to DSMES/DPP, and for the management of hypertension and high blood cholesterol. This is a cooperative agreement with new funding for five years.	\$1,692,853	1	X		N/A
