Eligibility category 49 ~~contains~~ [covers](#) children under age 19 who are eligible for Medicaid services as authorized by Section 134 of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and amended by the Omnibus Budget Reduction Act. Children in category 49 receive the full range of Medicaid services. However, there are cost sharing requirements. Families will be charged a sliding scale monthly premium based on the income of the custodial parents. Custodial parents with incomes above 150 percent of the federal poverty level (FPL) and in excess of \$25,000 annually will be subject to a sliding scale monthly premium. The monthly premium, described in the following chart, can only be assessed if the family income is in excess of ~~150~~ [one-hundred and fifty](#) percent [\(150%\)](#) of the federal poverty level.

The premiums listed ~~above~~ [in the TEFRA Cost Share Schedule below](#) represent family responsibility. They will not increase if a family has more than one TEFRA-eligible child. ~~There are no co-payments~~ [are not](#) charged for services to TEFRA children, and a family's total annual out-of-pocket cost sharing cannot exceed five ~~(5)~~ percent [\(5%\)](#) of the family's gross income.

**Working-Disabled Workers with Disabilities****12-1-191-1-23**

The Working-Disabled Workers with Disabilities (WD) category is an employment initiative designed to enable people with disabilities to gain employment without losing medical benefits. Individuals who are ages sixteen (16) through sixty-four (64), with a disability as defined by Supplemental Security Income (SSI) criteria and who meet the income and resource criteria may be eligible in this category.

Co-payments are required for the following services:

There are two levels of cost sharing in this aid category, depending on the individual's income:

A. Regular Medicaid cost sharing.

Beneficiaries with gross income below 100% of the Federal Poverty Level (FPL) are responsible for the regular Medicaid cost sharing (pharmacy, inpatient hospital and prescription services for eyeglasses). They are designated in the system as "WD RegCo."

B. New cost sharing requirements.

Beneficiaries with gross income equal to or greater than 100% FPL have cost sharing for more services and are designated in the system as "WD NewCo".

The cost sharing amounts for the "WD NewCo" eligibles are listed in the chart below:

\* **Exception:** Cost sharing for nursing facility services is in the form of “patient liability” which generally requires that patients contribute most of their monthly income toward their nursing facility care. Therefore, WD beneficiaries-clients (Aid Category 10) and Transitional Medicaid clients (Aid Category 25) who temporarily enter a nursing home and continue to meet WD or TM eligibility criteria will be exempt from the co-payments listed above.

\*\* **Exception:** This service is NOT covered for individuals within the Occupational, Physical and Speech Language Therapy Program for individuals ages 21 and older.

**NOTE:** — **Providers must consult the appropriate provider manual to determine coverage and benefits.**

#### **124.240 Transitional Medicaid Adult**

**1-1-23**

The Transitional Medicaid program extends Medicaid coverage to families up to 185% of FPL that, due to earned income, lost eligibility for the Parents/Caretaker-Relative (PCR) Aid Category. The Transitional Medicaid program provides up to twelve (12) months of extended coverage after losing PCR eligibility.

Pertinent co-payment amounts for clients covered by Adult Transitional Medicaid are the same as those listed in Section 124.230.

#### **124.250 Arkansas Health and Opportunity for Me (ARHOME)**

**1-1-23**

The ARHOME program operates as a demonstration waiver under Section 1115 of the Social Security Act. It provides premium assistance to allow clients eligible under Section 1902(a)(10)(A)(i)(VIII) of the Social Security Act to enroll in qualified health plans. The ARHOME aid category covers adults ages 19-64 who earn up to 138% of the federal poverty level and are not eligible for Medicare. Under ARHOME, clients receive services either through a qualified health plan (QHP) or through three other benefit plans delivered through fee for service. Cost sharing applies only to ARHOME clients who are enrolled in a QHP or who are awaiting enrollment in a QHP (IABP benefit plan). ARHOME clients in a benefit plan based on their status as medically frail (FRAIL) or alternative benefit plan (ABP) will not be subject to any cost sharing.

ARHOME QHP Cost Share amounts for clients enrolled in a QHP are as follows:

**133.000 — Cost Sharing****9-15-09**

The forms of cost sharing in the Medicaid Program are coinsurance, co-payment, deductibles and premiums. Each are detailed in the following Sections 133.100 through 133.500.

**133.100 — Inpatient Hospital Coinsurance Charge for Medicaid Beneficiaries Without Medicare****6-1-08**

For inpatient admissions, the Medicaid coinsurance charge per admission for non-exempt Medicaid beneficiaries aged 18 and older is 10% of the hospital's interim Medicaid per diem, applied on the first Medicaid covered day. (See Section 124.230 for Working Disabled cost-sharing requirements.)

**Example:**

A Medicaid beneficiary is an inpatient for 4 days in a hospital whose Arkansas Medicaid interim per diem is \$500.00. When the hospital files a claim for 4 days, Medicaid will pay \$1950.00; the beneficiary will pay \$50.00 (10% Medicaid coinsurance rate).

1. Four (4 days) times \$500.00 (the hospital per diem) = \$2000.00 (hospital allowed amount).
2. Ten percent (10% Medicaid coinsurance rate) of \$500.00 = \$50.00 coinsurance.
3. Two thousand dollars (\$2000.00 hospital allowed amount) minus \$50.00 (coinsurance) = \$1950.00 (Medicaid payment).

**133.300 Inpatient Hospital Coinsurance Charge to Medicare-Medicaid Dually Eligible Beneficiaries**

9-15-09

The coinsurance charge per admission for Medicaid beneficiaries, who are also Medicare Part A beneficiaries, is 10% of the hospital's Arkansas Medicaid per diem amount, applied on the first Medicare covered day only.

**Example:**

A Medicare beneficiary, also eligible for Medicaid, is an inpatient for 4 days in a hospital whose Arkansas Medicaid per diem amount is \$500.00.

1. This is the patient's first hospitalization for the Medicare benefit year; so the patient has not met their Medicare Part A deductible.
2. Medicare pays the hospital its allowed Part A charges, less the current (federal fiscal year) Medicare deductible, and forwards the payment information to Medicaid.
3. Ten percent (10% Medicaid coinsurance rate) of \$500.00 (the Arkansas Medicaid hospital per diem) = \$50.00 (Medicaid coinsurance). Medicaid coinsurance is due for the first day only of each admission covered by Medicare Part A.
4. Medicaid's payment is the current (federal fiscal year) Medicare Part A deductible minus \$50.00 Medicaid coinsurance.

If, on a subsequent admission, Medicare Part A assesses coinsurance, Medicaid will deduct from the Medicaid payment an amount equal to 10% of the hospital's Medicaid per diem for one day. The patient will be responsible for the amount deducted from the Medicaid payment.

**133.400 Co-payment on Prescription Drugs**

6-1-08

Arkansas Medicaid has a beneficiary co-payment requirement in the Pharmacy Program. The payment is applied per prescription. Non-exempt beneficiaries aged 18 and older are responsible for paying the provider a co-payment amount based on the following table: (See Section 124.230 for Working Disabled cost-sharing requirements. See the ARKids First B provider manual for ARKids First B cost-sharing requirements.)

Medicaid Maximum Amount	Beneficiary Co-pay
\$10.00 or less	\$0.50
\$10.01 to \$25.00	\$1.00
\$25.01 to \$50.00	\$2.00
\$50.01 or more	\$3.00

~~133.500 Co-Payment of Eyeglasses for Beneficiaries Aged 21 and Older~~~~6-1-08~~

~~Arkansas Medicaid has a beneficiary co-payment requirement in the Visual Care Program. Medicaid beneficiaries 21 years of age and older must pay a \$2.00 co-payment for Visual Care prescription services. Nursing home residents are exempt from the co-pay requirement.~~

## 134.000 Exclusions from Cost Sharing Policy

9-15-09 1-1-23

~~As required by 42 C.F.R. § 447.53(b), t~~The following services-populations are excluded from the beneficiary-client cost sharing requirement:

- A. ~~Services provided to i~~Individuals under twenty-one (21-18) years of age, except:
  - 1. ~~Services for~~ ARKids First-B beneficiaries-clients (see the ARKids First-B manual for cost share and more information about this program).
  - 2. ~~Services for individuals under age 18 in the Working Disabled category.~~
- B. ~~Services provided to p~~Pregnant women.
- C. Individuals who are American Indian or Native Alaskan~~Emergency services – services provided in a hospital, clinic, office or other facility that is equipped to furnish the required care after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in:~~
  - 1. ~~Placing the patient's health in serious jeopardy,~~
  - 2. ~~Serious impairment to bodily functions, or~~
  - 3. ~~Serious dysfunction of any bodily organ or part.~~
- D. ~~Services provided to i~~Individuals who are inpatients in a long-term care facility (nursing facility (NF) and intermediate care for individuals with intellectual disabilities (ICF/IID) facility) when, as a condition for receiving the institutional services, the individual is required to spend all but a minimal amount (for personal needs) of his or her income for medical care costs.

The fact that a beneficiary-client is a resident of a nursing facility does not on its own exclude the Medicaid services provided to the beneficiary-client from the cost sharing requirement. Unless a Medicaid beneficiary-client has been found eligible for long term care assistance through the Arkansas Medicaid Program, and Medicaid is making a vendor payment to the nursing facility (NF or ICF/IID) for the beneficiary-client, the beneficiary-client is not exempt from the cost sharing requirement.

- E. Individuals who are enrolled in a Provider-led Arkansas Shared Savings Entity (PASSE).
- F. Individuals receiving hospice care.
- G. Individuals who are at or below 20% of the federal poverty level.

The following services are excluded from the client cost sharing requirement:

- A. Emergency services - services provided in a hospital, clinic, office or other facility that is equipped to furnish the required care after the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity that the absence of immediate medical attention could reasonably be expected to result in:
  - 1. Placing the patient's health in serious jeopardy,
  - 2. Serious impairment to bodily functions, or

3. Serious dysfunction of any bodily organ or part.B. Pregnancy-related servicesC. Preventive servicesD. Services for provider-preventable conditionsE. Family planning services and supplies.

The provider must maintain sufficient documentation in the beneficiary's-client's medical record to substantiate any exemption from the beneficiary-client cost sharing requirement.

**135.000 Collection of Coinsurance/Co-payment****6-1-081-1-  
23**

The method of collecting the coinsurance/co-payment amount from the beneficiary-client is the provider's responsibility. In cases of claim adjustments, the responsibility of refunding or collecting additional cost sharing (coinsurance or co-payment) from the beneficiary-client remains the provider's responsibility.

The provider may not deny services to a Medicaid beneficiary-client because of the individual's inability to pay the coinsurance or co-payment. However, the individual's inability to pay does not eliminate his or her liability for the coinsurance or co-payment charge.

The beneficiary's-client's inability to pay the coinsurance or co-payment does not alter the Medicaid reimbursement for the claim. Unless the beneficiary-client or the service is exempt from cost sharing requirements as listed in Section 134.000, Medicaid reimbursement is made in accordance with the current reimbursement methodology and when applicable cost sharing amounts are deducted from the maximum allowable fee before payment.

Hospitals are required to comply with certain federal rules before assessing non-emergency copays. Hospitals are expected to comply with emergency room screening requirements, help locate alternate providers when screening determines the patient's need to be non-emergent, and inform clients of treatment options that have a lesser co-pay before the hospital and the state can charge the non-emergency use of the emergency room co-pay.

Hospitals must develop written policies and tracking mechanisms to identify how they comply with the requirement and produce data on member choice and expenditures. Policies and data must be available upon request of DHS and its designees.

The Medicaid cost-sharing amount for clients who use hospital emergency department services for non-emergency reasons can be found in the ARHOME QHP Cost Share Schedule for clients enrolled in a QHP or the Adult Medicaid Cost Share Schedule. (See Sections 124.230 and 124.250)

This cost-sharing amount will only apply to Medicaid clients who are subject to a copay. There will not be any cost-sharing required from clients who need emergency services or treatment.

The first step in the process will be for hospital emergency departments to conduct an appropriate medical screening to determine whether the client needs emergency services.

If the screening determines that emergency services are needed, hospitals should tell the client what the cost-sharing amount will be for the emergency services provided in the emergency department (\$0.00). Hospitals should then provide needed emergency services per their established protocols.

If the screening determines that emergency services are not needed, hospitals may provide non-emergency services in the emergency department. Before providing non-emergency services and imposing client cost sharing for such services, however, the hospital must:

- Tell the client what the cost-sharing amount will be for the non-emergency services provided in the emergency department.
- Give the client the option of paying for and receiving services in the emergency department, or
- Give the client the name and location of an alternate non-emergency services provider that can provide the needed services in a timely manner and at a lower cost than the hospital emergency department, and
- Refer the client to the alternate provider, who will then coordinate scheduling for treatment.

Eligibility Groups Included in the Alternative Benefit Plan Population:

	Eligibility Group:	Enrollment is mandatory or voluntary?	
+	Adult Group	Mandatory	X

Enrollment is available for all individuals in these eligibility group(s).

Yes

### Geographic Area

The Alternative Benefit Plan population will include individuals from the entire state/territory.

Yes

Any other information the state/territory wishes to provide about the population (optional)

Arkansas will provide access to the Alternative Benefit Plan (ABP) through **two** three mechanisms: premium assistance to support coverage from Qualified Health Plans (QHPs) offered in the individual market, premium assistance to support cost-effective employer-sponsored insurance (ESI) through an employer participating in the Arkansas Works program and through fee-for-service Medicaid.

Arkansas has received approval under 1115 of the Social Security Act to implement the Arkansas Works **Health and Opportunity for Me (ARHOME)** program. Under the **ARHOME** Arkansas Works demonstration, the State will provide premium assistance for beneficiaries eligible under the new adult group established under Section 1902(a)(10)(A)(i)(VIII) of the Social Security Act, to support the purchase of coverage from Qualified Health Plans offered in the individual market through the Marketplace; additionally, individuals ages 21 and over with access to cost-effective ESI through an employer who has elected to participate in the Arkansas Works ESI program will be required to enroll in ESI. Arkansas expected approximately 200,000 beneficiaries to be enrolled in coverage offered through the Marketplace through this demonstration program.

Arkansas will also offer all of the benefits described in this ABP State Plan Amendment through the fee-for-service delivery system. Individuals who are eligible for coverage under Arkansas Works will receive the ABP through fee-for-service prior to the effective date of their QHP coverage. Exempt populations will have the option to receive the ABP that is the approved Arkansas state plan or the ABP that is described in these SPA pages. Exempt individuals choosing to receive the ABP that is described in these SPA pages will receive those benefits through the fee-for-service delivery system, except for those individuals age 21 or over who have access to cost-effective ESI. **The State will offer two types of fee for service ABP plans: an ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan and an ABP that covers the Essential Health Benefits provided by QHPs (EHB-equivalent ABP).**

**Individuals who are eligible for coverage under ARHOME will receive the EHB-equivalent ABP through fee-for-service temporarily prior to the effective date of their QHP coverage. Exempt populations will have the option of receiving the ABP that offers approved Arkansas state plan benefits or the EHB-equivalent ABP.**

## Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A)(i)(VIII) of the Act

ABP2a

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

No

These assurances must be made by the state/territory if the Adult eligibility group is included in the ABP Population.

- ☒ The state/territory shall enroll all participants in the "Individuals at or below 133% FPL Age 19 through 64" (section 1902(a)(10)(A)(i)(VIII)) eligibility group in the Alternative Benefit Plan specified in this state plan amendment, except as follows: A beneficiary in the eligibility group at section 1902(a)(10)(A)(i)(VIII) who is determined to meet one of the exemption criteria at 45 CFR 440.315 will receive a choice of a benefit package that is either an Alternative Benefit Plan that includes Essential Health Benefits and is subject to all 1937 requirements or an Alternative Benefit Plan that is the state/territory's approved Medicaid state plan not subject to 1937 requirements. The state/territory's approved Medicaid state plan includes all approved state plan programs based on any state plan authority, and approved 1915(c) waivers, if the state has amended them to include the eligibility group at section 1902(a)(10)(A)(i)(VIII).
- ☒ The state/territory must have a process in place to identify individuals that meet the exemption criteria and the state/territory must comply with requirements related to providing the option of enrollment in an Alternative Benefit Plan defined using section 1937 requirements, or an Alternative Benefit Plan defined as the state/territory's approved Medicaid state plan that is not subject to section 1937 requirements.
- ☒ Once an individual is identified, the state/territory assures it will effectively inform the individual of the following:
  - a) Enrollment in the specified Alternative Benefit Plan is voluntary;
  - b) The individual may disenroll from the Alternative Benefit Plan defined subject to section 1937 requirements at any time and instead receive an Alternative Benefit Plan defined as the approved state/territory Medicaid state plan that is not subject to section 1937 requirements; and
  - c) What the process is for transferring to the state plan-based Alternative Benefit Plan.
- ☒ The state/territory assures it will inform the individual of:

Provide a copy of the letter, email text or other communication text that will be used to inform individuals about their options for enrollment.

An attachment is submitted.

When did/will the state/territory inform the individuals?

The State will provide a notice informing individuals of their eligibility under the Section 1902(a)(10)(A)(i)(VIII) eligibility group once they have been determined eligible **by** through the Federally Facilitated Marketplace (FFM) or via the State's E **eligibility and Enrollment Framework (EEF) system**. Additional notices will provide greater detail explaining the process for selecting a Qualified Health Plan (QHP), the process for accessing services until the QHP or ESI enrollment **coverage** is effective, ESI enrollment, the process for accessing supplemental services, the grievance and appeals process, and outlining the exemption process from the Arkansas Works Alternative Benefit Plan. **and accessing other ABP delivery mechanisms for those eligible.**

Please describe the state/territory's process for allowing individuals in the Section 1902(a)(10)(A)(i)(VIII) eligibility group who meet exemption criteria to disenroll from the Alternative Benefit Plan defined using section 1937 requirements and enroll in the Alternative Benefit Plan defined as the state/territory's approved Medicaid state plan.

During the **eligibility** application process, if a member **who** answers "yes" to the following questions **will be considered medically frail or eligible for Medicaid through another Aid Category**: "Do you have a **disability? Or are you blind? Do you live in a medical facility or nursing home? What type of facility is this? Do you have** a physical, mental, or emotional health condition that causes limitations in activities (like bathing, dressing, daily chores, etc) **?" or live in a medical facility or nursing home?"**, the individual will be enrolled in the ABP that is the state plan and will be provided with a Choice Counseling notice. The Choice Counseling notice will outline the differences between traditional fee-for service state plan (the ABP that is the state plan) or the fee-for-service ABP (the ABP that is aligned with the EHB benchmark plan) and informing them of their right to choose between the two. The notice will also include a toll-free-number that individuals will call to finalize their selection. If an affirmative selection is not made, the individual will remain in the traditional fee-for-service state plan (the ABP that is the state plan). Arkansas Medicaid will provide individuals who are exempt from the ABP with a Choice Counseling notice that informs them that they may choose between the ABP that is the Arkansas state plan or the ABP that is the FFS equivalent of the QHP offering. If an affirmative selection is not made, the individual will remain in the ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan.**

**Medically frail clients with a serious mental illness or a substance use disorder who assess as a Tier 2 or Tier 3 on the independent assessment will be enrolled in the Provider-led Arkansas Shared Savings Entity (PASSE) program.**

That eligibility notice will include, among other things, information about an individual's ability to identify as medically frail at a later time. The notice will define a medically frail individual as a person who has a physical or behavioral health condition that limits what he or she is able to do (like bathing, dressing, daily chores, etc.), a person who lives in a medical facility or nursing home, a person who has a serious mental illness, a person who has a long-term problem with drugs or alcohol, a person with intellectual or developmental disabilities, or a person with some other serious health condition. The document will inform all enrollees that they may identify as medically frail **screen for medically frailty** at any time and can discuss coverage options with their doctor, contact Member Services or or visit the Medicaid website for additional information. ## Enrollment Assurances - Mandatory Participants

ABP2c

These assurances must be made by the state/territory if enrollment is mandatory for any of the target populations or sub-populations.

When mandatorily enrolling eligibility groups in an Alternative Benefit Plan (Benchmark or Benchmark-Equivalent Plan) that could have exempt individuals, prior to enrollment:

- ☒ The state/territory assures it will appropriately identify any individuals in the eligibility groups that are exempt from mandatory enrollment in an Alternative Benefit Plan or individuals who meet the exemption criteria and are given a choice of Alternative Benefit Plan coverage defined using section 1937 requirements or Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan, not subject to section 1937 requirements.

How will the state/territory identify these individuals? (Check all that apply)

- ☒ Review of eligibility criteria (e.g., age, disorder/diagnosis/condition)

Describe:

The state will review to ensure the person is newly eligible under section 1902(a)(10)(A)(i)(VIII) and is not in any of the following eligibility categories **at the time of application**: children, **adults eligible for the Parent/Caretaker Relative aid category** parents below 17% FPL; blind or disabled; terminally ill hospice patients; pregnant women, **individuals living in an institution who are required to contribute all but a minimum amount of their income toward the cost of their care, individuals eligible for medical assistance for long-term care services describe in Section 1917(c)(1)(C) of the Social Security Act,**

**individuals infected with tuberculosis, individuals covered by Medicaid only for the treatment of an emergency medical condition, individuals determined Medicaid eligible as medically needy or eligible because of a reduction of countable income based on costs incurred for medical care, or, foster children, or former foster children.**

i.

Self-identification

Describe:

Individuals will be identified as medically frail through one of two mechanisms: (1) the individual responds "yes" to the following question on the single streamlined **integrated application for assistance**: "**Do you have a disability? Or are you blind? Do you live in a medical facility nursing home? What type of facility is this?**" "Do you have a physical, mental, or emotional health condition that causes limitations in activities (like bathing, dressing, daily chores, etc) or live in a medical facility or nursing home?" or (2) **at any time after the application process, the individual requests to be rescreened for medically frail status. The Division of Medical Services will also monitor rescreening requests to ensure policies and processes for medically frail identification continue to identify appropriate beneficiaries.** notifies the Division of Medical Services that they are medically frail. The Division of Medical Services will also monitor appeals to identify individuals who may be medically frail and the Division of Medical Services will reach out to such individuals to remind them of their right to self-identify as medically frail.

Describe:

The medical frailty screening process is a part of the single-streamlined **integrated** application **for assistance**, completed at the time of initial eligibility determination. Individuals will be provided with the opportunity to self-identify as medically frail. **Those who self-identify as medically frail will have the option of receiving either the ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan or the EHB-equivalent ABP.** Upon a determination that they screen exempt, the individual will be transferred from the alternative benefit plan and will have the option of receiving either the ABP operated through fee-for-service or the ABP that is the Medicaid State plan (which in Arkansas is the standard Medicaid benefit package).

DHS will rely on carriers **and providers** to assist DHS in identifying individuals with emerging medical needs that lead to a need for transition to the Medicaid program during the plan year.

An Arkansas Works **ARHOME** enrollee can notify Division of Medical Services **DHS** at any time to **be rescreened for medical status.**

## Selection of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package

ABP3

Select one of the following:

- ☐ The state/territory is amending one existing benefit package for the population defined in Section 1.
- ☒ The state/territory is creating a single new benefit package for the population defined in Section 1.

Name of benefit package:

## Selection of the Section 1937 Coverage Option

The state/territory selects as its Section 1937 Coverage option the following type of Benchmark Benefit Package or Benchmark-Equivalent Benefit Package under this Alternative Benefit Plan (check one):

- ☒ Benchmark Benefit Package.
- ☐ Benchmark-Equivalent Benefit Package.

The state/territory will provide the following Benchmark Benefit Package (check one that applies):

- ☐ The Standard Blue Cross/Blue Shield Preferred Provider Option offered through the Federal Employee Health Benefit Program (FEHBP).
- ☐ State employee coverage that is offered and generally available to state employees (State Employee Coverage):
- ☐ A commercial HMO with the largest insured commercial, non-Medicaid enrollment in the state/territory (Commercial HMO):
- ☒ Secretary-Approved Coverage.
  - ☐ The state/territory offers benefits based on the approved state plan.
  - ☒ The state/territory offers an array of benefits from the section 1937 coverage option and/or base benchmark plan benefit packages, or the approved state plan, or from a combination of these benefit packages.

Please briefly identify the benefits, the source of benefits and any limitations:

Arkansas's base benchmark plan is composed of benefits offered through the HMO Partners inc Open Access POS 13262AR001 . For individuals receiving the ABP through a **Qualified Health Plan (QHP)**, Arkansas Works **ARHOME**, the State will provide through its fee-for-service Alternative Benefit Program supplemental services that are required for the ABP but not covered by **QHPs** qualified health plans—namely, non-emergency transportation and Early Periodic Screening Diagnosis and Treatment (EPSDT) services. For beneficiaries up to **under** age 21 receiving the ABP through a **QHP**, Qualified Health Plans (QHPs) Medicaid will provide supplemental coverage for EPSDT services that are not covered by the QHP. Beneficiaries will access these additional services through fee-for-service **Medicaid** ABP, and beneficiaries will receive notices informing them of how to access the supplemental benefits. Since the QHPs must cover all Essential Health Benefits (EHB), we anticipate that Arkansas will provide supplemental coverage for a small number of EPSDT benefits, such as pediatric vision and dental services.

Arkansas Works **QHP** enrollees will have access to at least one QHP in each service area that contracts with at least one FQHC and/or RHC.

If family planning services are accessed at a facility that the QHP considers to be an out-of-network provider, the State's fee-for-service **delivery system** will cover those services.

Arkansas Medicaid will provide coverage through the Medicaid fee-for-service delivery system in three ways. Individuals who are medically frail will be allowed to choose between FFS Medicaid delivered either through exempt from the an ABP that provides the full Medicaid benefits offered under the approved Arkansas state plan or through the EHB- equivalent ABP. Arkansas Medicaid will also provide temporary coverage through an EHB-equivalent ABP for individuals while they await enrollment in a qualified health plan (QHP). with a notice that informs individuals that they may choose between the ABP that is operated through fee-for-service or the ABP that is the Medicaid State plan (which in Arkansas is the standard Medicaid benefit package).

Arkansas Works beneficiaries will be required to enroll with a mandatory primary care case management (PCCM) provider. The notice will give the recipient contact information to the Arkansas Medicaid Beneficiary Service Center, managed by Arkansas Foundation for Medical Care (AFMC) for help in choosing between the ABP that is the Arkansas State Plan or the ABP that is the FFS equivalent to the QHP offering. The notice also states AFMC will assist the beneficiary in locating a Medicaid provider in their area.

All ARHOME beneficiaries who are medically frail will be required to enroll with a mandatory primary care case management (PCCM) provider. The Choice Counseling notice that medically frail beneficiaries receive will include contact information for the Arkansas Medicaid Beneficiary Service Center to assist in locating a Medicaid primary care provider in their area.

Individuals receiving the EHB-equivalent ABP while awaiting QHP enrollment will not be required to enroll with a Medicaid PCCM provider. Arkansas regulations require QHPs to follow the requirements of the Arkansas Patient Centered Medical Home (PCMH) model or develop their own PCMH standards.

## Cost Sharing Requirements

G1

1916  
1916A  
42 CFR 447.50 through 447.57 (excluding 447.55)

The state charges cost sharing (deductibles, co-insurance or co-payments) to individuals covered under Medicaid.

Yes

- ☒ The state assures that it administers cost sharing in accordance with sections 1916 and 1916A of the Social Security Act and 42 CFR 447.50 through 447.57.

### General Provisions

- ☒ The cost sharing amounts established by the state for services are always less than the amount the agency pays for the service.
- ☐ No provider may deny services to an eligible individual on account of the individual's inability to pay cost sharing, except as elected by the state in accordance with 42 CFR 447.52(e)(1).
- ☐ The process used by the state to inform providers whether cost sharing for a specific item or service may be imposed on a beneficiary and whether the provider may require the beneficiary to pay the cost sharing charge, as a condition for receiving the item or service, is (check all that apply):
- ☒ The state includes an indicator in the Medicaid Management Information System (MMIS)
  - ☐ The state includes an indicator in the Eligibility and Enrollment System
  - ☒ The state includes an indicator in the Eligibility Verification System
  - ☐ The state includes an indicator on the Medicaid card, which the beneficiary presents to the provider
  - ☐ Other process
- ☐ Contracts with managed care organizations (MCOs) provide that any cost-sharing charges the MCO imposes on Medicaid enrollees are in accordance with the cost sharing specified in the state plan and the requirements set forth in 42 CFR 447.50 through 447.57.

### Cost Sharing for Non-Emergency Services Provided in a Hospital Emergency Department

The state imposes cost sharing for non-emergency services provided in a hospital emergency department.

Yes

- ☒ The state ensures that before providing non-emergency services and imposing cost sharing for such services, that the hospitals providing care:
- ☐ Conduct an appropriate medical screening under 42 CFR 489.24, subpart G to determine that the individual does not need emergency services;
  - ☐ Inform the individual of the amount of his or her cost sharing obligation for non-emergency services provided in the emergency department;
  - ☐ Provide the individual with the name and location of an available and accessible alternative non-emergency services provider;

# PROPOSED

# Medicaid Premiums and Cost Sharing

- ☐ Determine that the alternative provider can provide services to the individual in a timely manner with the imposition of a lesser cost sharing amount or no cost sharing if the individual is otherwise exempt from cost sharing; and
- ☐ Provide a referral to coordinate scheduling for treatment by the alternative provider.
- ☒ The state assures that it has a process in place to identify hospital emergency department services as non-emergency for purposes of imposing cost sharing. This process does not limit a hospital's obligations for screening and stabilizing treatment of an emergency medical condition under section 1867 of the Act; or modify any obligations under either state or federal standards relating to the application of a prudent-layperson standard for payment or coverage of emergency medical services by any managed care organization.

The process for identifying emergency department services as non-emergency for purposes of imposing cost sharing is:

The state relies on monographs developed by its designated utilization management contractor to assess whether a hospital's triage protocols are sufficiently effective to ensure the correct level of treatment is determined. Because emergency department services are part of the overall retrospective review process, if non-emergency services are billed at the higher emergency level incorrectly, the entire service would be recouped and the emergency department could bill Medicaid for the non-emergency level and be paid the amount minus the cost share. They would not be allowed to charge the beneficiary for the cost share because the hospital is responsible for the error in claims processing.

## Cost Sharing for Drugs

The state charges cost sharing for drugs.

Yes

The state has established differential cost sharing for preferred and non-preferred drugs.

Yes

- ☐ The state identifies which drugs are considered to be non-preferred.
- ☒ The state assures that it has a timely process in place to limit cost sharing to the amount imposed for a preferred drug in the case of a non-preferred drug within a therapeutically equivalent or similar class of drugs, if the individual's prescribing provider determines that a preferred drug for treatment of the same condition either will be less effective for the individual, will have adverse effects for the individual, or both. In such cases, reimbursement to the pharmacy is based on the appropriate cost sharing amount.

## Beneficiary and Public Notice Requirements

- ☒ Consistent with 42 CFR 447.57, the state makes available a public schedule describing current cost sharing requirements in a manner that ensures that affected applicants, beneficiaries and providers are likely to have access to the notice. Prior to submitting a SPA which establishes or substantially modifies existing cost sharing amounts or policies, the state provides the public with advance notice of the SPA, specifying the amount of cost sharing and who is subject to the charges, and provides reasonable opportunity for stakeholder comment. Documentation demonstrating that the notice requirements have been met are submitted with the SPA. The state also provides opportunity for additional public notice if cost sharing is substantially modified during the SPA approval process.

## Other Relevant Information

Cost sharing requirements are published in the provider manuals and a hyperlink is used to send the provider to the coinciding table housing the amount of the cost share, which is also published on the Arkansas Medicaid Website. Division of Provider Services and Quality Assurance (DPSQA) maintains the Choices in Living Resource Center, where Arkansas citizens can call for assistance, including telephone information and brochures for the Workers with Disabilities program. Yes

☒ Describe the mechanism by which the state tracks each family's incurred premiums and cost sharing (check all that apply):

☒ As claims are submitted for dates of services within the family's current monthly or quarterly cap period, the state applies the incurred cost sharing for that service to the family's aggregate limit. Once the family reaches the aggregate limit, based on incurred cost sharing and any applicable premiums, the state notifies the family and providers that the family has reached their aggregate limit for the current monthly or quarterly cap period, and are no longer subject to premiums or cost sharing.

☐ Managed care organization(s) track each family's incurred cost sharing, as follows:

☐ Other process:

☒ Describe how the state informs beneficiaries and providers of the beneficiaries' aggregate family limit and notifies beneficiaries and providers when a beneficiary has incurred premiums and cost sharing up to the aggregate family limit and individual family members are no longer subject to premiums or cost sharing for the remainder of the family's current monthly or quarterly cap period:

The DHS eligibility system identifies and sends notice to beneficiaries of the initial aggregate family limit when applicable. The MMIS system sends beneficiary letters regarding incurred cost sharing and when the family limit has been met. The provider is notified via the eligibility verification system and upon explanation of benefits when limit has been met.

The state has a documented appeals process for families that believe they have incurred premiums or cost sharing over the aggregate limit for the current monthly or quarterly cap period.

Yes

Describe the appeals process used:

The state uses its standard Medicaid fair hearing process.

☒ Describe the process used to reimburse beneficiaries and/or providers if the family is identified as paying over the aggregate limit for the month/quarter:

# PROPOSED

## Medicaid Premiums and Cost Sharing

- ☒ Describe the process for beneficiaries to request a reassessment of their family aggregate limit if they have a change in circumstances or if they are being terminated for failure to pay a premium:

Beneficiaries may notify their local eligibility office of changes in circumstances adversely affecting their family aggregate limit.

The state imposes additional aggregate limits, consistent with 42 CFR 447.56(f)(5).

~~D. The procedure for implementing and enforcing the exclusions from cost sharing contained in 42 CFR 447.53(b) are described below: (Continued)~~

~~Public Transportation~~

~~For recipients who are excluded from the copayment policy for reasons other than age of residence, the provider must check the "NO" block in Field 9 on the EMS-3 claim form to avoid the copayment amount from being deducted from the total paid claim amount.~~

~~Prescribed Drugs~~

~~When prescribing pharmaceuticals to Medicaid recipients who are excluded from the prescribed drug copayment policy due to the services provided to pregnant women, emergency services or HMO enrollees, the dentist or physician must write "Excluded From Copay" on the face of the prescription. The provider must maintain sufficient documentation in the recipient's medical record which substantiates the exclusion from cost sharing.~~

~~For recipients excluded from the copayment policy due to pregnancy, emergency services or HMO enrollee, pharmacy providers must enter "4" in Field 17 of the pharmacy claim form. If "4" is not entered and the recipient is not identified in the system as meeting one of the exclusion groups, the copayment policy will be applied prior to payment to the provider.~~

~~Individuals under age 18 or individuals receiving hospice care or institutionalized individuals are also excluded from cost sharing. Individuals under age 18 and the institutionalized individuals are readily identifiable through the current MMIS. No additional information is necessary from the provider in order to exclude these individuals from the cost sharing policy. A separate code has been assigned for providers to use in billing to identify services provided to recipients receiving hospice care.~~
