#### 240.100 Reimbursement

3<mark>-1-19</mark>10-1-242

Reimbursement is based on the lesser of the billed amount or the Title XIX (Medicaid) maximum allowable for each procedure.

Reimbursement is contingent upon eligibility of both the beneficiary and provider at the time the service is provided and upon accurate completeness of the claim filed for the service. The provider is responsible for verifying that the beneficiary is eligible for Arkansas Medicaid prior to rendering services.

## A. Outpatient Services

## Fifteen-Minute Units, unless otherwise stated

Adult Behavioral Health Services for Community Independence must be billed on a per unit basis as indicated in the service definition, as reflected in a daily total, per beneficiary, per service.

Time spent providing services for a single beneficiary may be accumulated during a single, 24-hour calendar day. Providers may accumulatively bill for a <u>single date of service</u>, <u>per beneficiary</u>, <u>per Adult Behavioral Health Services for Community Independence service</u>. Providers are not allowed to accumulatively bill for spanning dates of service.

All billing must reflect a daily total, per Adult Behavioral Health Services for Community Independence service, based on the established procedure codes. No rounding is allowed.

The sum of the days' time, in minutes, per service will determine how many units are allowed to be billed. That number must not be exceeded. The total of minutes per service must be compared to the following grid, which determines the number of units allowed.

| 15 Minute Units   | Timeframe     |
|-------------------|---------------|
| One (1) unit =    | 8-24 minutes  |
| Two (2) units =   | 25-39 minutes |
| Three (3) units = | 40-49 minutes |
| Four (4) units =  | 50-60 minutes |

| 60 minute Units   | Timeframe       |
|-------------------|-----------------|
| One (1) unit =    | 50-60 minutes   |
| Two (2) units =   | 110-120 minutes |
| Three (3) units = | 170-180 minutes |
| Four (4) units =  | 230-240 minutes |
| Five (5) units =  | 290-300 minutes |
| Six (6) units =   | 350-360 minutes |
| Seven (7) units=  | 410-420 minutes |
| Eight (8) units=  | 470-480 minutes |

| 30 Minute Units | Timeframe     |
|-----------------|---------------|
| One (1) unit =  | 25-49 minutes |
| Two (2) units = | 50-60 minutes |

In a single claim transaction, a provider may bill only for service time accumulated within a single day for a single beneficiary. There is no "carryover" of time from one day to another or from one beneficiary to another.

<u>Documentation in the beneficiary's record must reflect exactly how the number of units is</u> determined.

No more than four (4) units may be billed for a single hour per beneficiary or provider of the service.

NOTE: For services provided by a Qualified Behavioral Health Provider (QBHP), the accumulated time for the Adult Behavioral Health Services for Community Independence program service, per date of service, is one total, regardless of the number of QBHPs seeing the beneficiary on that day. For example, two (2) QBHPs see the same beneficiary on the same date of service and provides Adult Life Skills Development (HCPCS Code H2017, U3, U4). The first QBHP spends a total of 10 minutes with the beneficiary. Later in the day, another QBHP provides Adult Life Skills Development (HCPCS Code H2017, U3, U4) to the same beneficiary and spends a total of 15 minutes. A total of 25 minutes of Behavioral Assistance (CPT Code 2019) was provided, which equals (two) 2 allowable units of service. Only one QBHP may be shown on the claim as the performing provider.

253.001 Partial Hospitalization

| CPT®/HCPCS PROCEDURE CODE  | PROCEDURE CODE DES  | CRIPTION   |
|--|---|--|
| View or print the procedure codes for ABHSCI services. H0035, U4   | Mental health partial hospitalization treatment, less than 24 hours   |  |
| SERVICE DESCRIPTION  | MINIMUM DOCUMENTAT  | ON REQUIREMENTS  |
| Partial Hospitalization is an intensive nonresidential, therapeutic treatment program. It can be used as an alternative to and/or a step-down service from inpatient residential treatment or to stabilize a deteriorating condition and avert hospitalization. The program provides clinical treatment services in a stable environment on a level equal to an inpatient program, but on a less than 24-hour basis. The environment at this level of treatment is highly structured and should maintain a staff-to-patient ratio of 1:5 to ensure necessary therapeutic services and professional monitoring, control, and protection. This service shall include at a minimum intake, individual therapy, group therapy, and psychoeducation. Partial Hospitalization shall be at a minimum (5) five hours per day, of which 90 minutes must be a documented service provided by a Mental Health Professional. If a beneficiary receives other services during the week but also receives Partial Hospitalization, the beneficiary must receive, at a minimum, 20 documented hours of services on no less than (4) four days in that week. | <ul> <li>Start and stop times of actual program participation by beneficiary</li> <li>Place of service</li> <li>Diagnosis and pertinent interval history</li> <li>Brief mental status and observations</li> <li>Rationale for and treatment used that must coincide with the master treatment plan</li> <li>Beneficiary's response to the treatment must include current progress or lack of progress toward symptom reduction and attainment of goals</li> <li>Rationale for continued Partial Hospitalization Services, including necessary changes to diagnosis, master treatment plan or medication(s) and plans to transition to less restrictive services</li> <li>All services provided must be clearly documented in the medical record</li> <li>Staff signature/credentials</li> </ul> |  |
| NOTES  | UNIT  | BENEFIT LIMITS   |
| Partial hospitalization may include drug testing, medical care other than detoxification and other appropriate services depending on the needs of the individual. | Peer Support is a consumer centered service provided by individuals (ages 18 and older) who self-identify as someone who has received or is receiving behavioral health services and thus is able to provide expertise not replicated by professional training. Peer providers are trained and certified peer specialists who self-identify as being in recovery from behavioral health issues. Peer support is a service to work with beneficiaries to provide education, hope, healing, advocacy, self-responsibility, a meaningful role in life, and empowerment to reach fullest potential. Specialists will assist with navigation of multiple systems (housing, supportive employment, supplemental benefits, building/rebuilding natural supports, etc.) which impact beneficiaries' functional ability. Services are provided on an individual or group basis, and in either the beneficiary's home or community environment. | <ul> <li>all persons involved</li> <li>Start and stop times of Place of Service (Wholocation and rationals included)</li> <li>Client diagnosis necesion because the Comment how treatment objectives from the Comment of th</li></ul> | en 99 is used, specific e for location must be essitating service ment used address goals he master treatment plan om contact and how it atment plan objectives received/given on the nt ed for the master must be documented to the supervising MHP |

|--|---|--|
| View or print the procedure codes for ABHSCI services. 90885, U4   | 90885:-Treatment Plan   |  |
| SERVICE DESCRIPTION  | MINIMUM DOCUMENTATION REQUIREMENTS  |  |
| Treatment Plan is a plan developed in cooperation with the beneficiary (or parent or guardian if under 18) to deliver specific mental health services to restore, improve, or stabilize the beneficiary's mental health condition. The Plan must be based on individualized service needs as identified in the completed Mental Health Diagnosis, independent assessment, and independent care plan. The Plan must include goals for the medically necessary treatment of identified problems, symptoms and mental health conditions. The Plan must identify individuals or treatment teams responsible for treatment, specific treatment modalities prescribed for the beneficiary, and time limitations for services. The plan must be congruent with the age and abilities of the beneficiary, client-centered and strength-based; with emphasis on needs as identified by the beneficiary and demonstrate cultural competence. | <ul> <li>Date of Service (date plan is developed)</li> <li>Start and stop times for development of plan</li> <li>Place of service</li> <li>Diagnosis</li> <li>Beneficiary's strengths and needs</li> <li>Treatment goal(s) developed in cooperation with and as stated by beneficiary that are related specifically to the beneficiary's strengths and needs</li> <li>Measurable objectives</li> <li>Treatment modalities — The specific services that will be used to meet the measurable objectives</li> <li>Projected schedule for service delivery, including amount, scope, and duration</li> <li>Credentials of staff who will be providing the services</li> <li>Discharge criteria</li> <li>Signature/credentials of staff drafting the document and primary staff who will be delivering or supervising the delivery of the specific services/ date of signature(s)</li> <li>Beneficiary's signature (or signature of parent, guardian, or custodian of beneficiaries under the age of 18)/ date of signature</li> <li>Physician's signature indicating medical necessity/date of signature</li> </ul> |  |
| NOTES  | UNIT BENEFIT LIMITS   |  |

| This service may be billed when the beneficiary is determined to be eligible for services. Revisions to the Treatment Plan for Adult Behavioral Health Services for Community Independence must occur at least annually, in conjunction with the results from the Independent Assessment. Reimbursement for Treatment Plan revisions more frequently than once per year is not allowed unless there is a documented clinical change in circumstance of the beneficiary or if a beneficiary is re-assessed by the Independent Assessment vendor which results in a change of Tier. It is the responsibility of the primary mental health professional to insure that all individuals working with the client have a clear understanding and work toward the goals and objectives stated on the treatment plan. | DAILY MAXIMUM OF UNITS THAT MAY BE BILLED: 2 YEARLY MAXIMUM OF UNITS THAT MAY BE BILLED (extension of benefits can be requested): 4 |

| SERVICE DESCRIPTION   | MINIMUM DOCUMENTATION REQUIREMENTS  |
| Therapeutic Communities are highly structured   | Date of Service   |
| residential environments or continuums of care in which the primary goals are the treatment of behavioral health needs and the fostering of | Names and relationship to the beneficiary of all persons involved                                 |
| personal growth leading to personal   | Place of Service  |
| accountability. Services address the broad range of needs identified by the person served.  | Document how interventions used address   |

Therapeutic Communities employs community-imposed consequences and earned privileges as part of the recovery and growth process. In addition to daily seminars, group counseling, and individual activities, the persons served are assigned responsibilities within the therapeutic community setting. Participants and staff members act as facilitators, emphasizing personal responsibility for one's own life and self-improvement. The service emphasizes the integration of an individual within his or her community, and progress is measured within the context of that community's expectation.

#### 222.300 Dental Services Benefit

<del>1-15<u>10-1</u> 22</del>2

Dental services benefits for ARKids First-B beneficiaries are one periodic dental exam, bite-wing x-rays, and prophylaxis/fluoride treatments every six (6) months plus one (1) day. Scalings are covered once per State Fiscal Year (SFY). Orthodontia services are also covered for ARKids First-B beneficiaries.

The <u>procedure codes listed in Section 262.150</u> may be billed for the periodic dental exams, interperiodic dental exams and prophylaxis/fluoride, and orthodontia services for ARKids First–B beneficiaries.

Refer to Section II of the Medicaid Dental Provider Manual for a complete listing of covered dental and orthodontia services. Procedures for dental treatment services that are not listed as a payable service in the Medicaid Dental Provider Manual may be requested on individual treatment plans for prior authorization review. These individually requested procedures and dental and orthodontia treatment services are subject to determination of medical necessity, review and approval by the Division of Medical Services dental consultants.

## 222.710 Introduction

4<del>-1-09</del>10-1-

The ARKids First-B Program supports preventive medicine for beneficiaries by reimbursing primary care physicians (PCPs) who provide medical preventive health screens and qualified screening providers to whom PCPs refer beneficiaries. ARKids First-B outreach efforts vigorously promote the program's emphasis on preventive medical health care. Beneficiary cost sharing does not apply to covered preventive medical health screens, including those for newborns.

The supplemental eligibility response request to an ARKids First-B beneficiary's identification card will indicate to the provider the date of the beneficiary's last preventive health screen (procedure codes 99381 through 99385; and/or 99391 through 99395).

View or print the procedure codes for ARKids First-B procedures and services.

This information should be reviewed and verified, along with the beneficiary's eligibility, prior to performing a service. This information will assist the beneficiary's PCP or preventive health screen provider in determining the beneficiary's eligibility for the service and ensuring that preventive health screens are performed in a timely manner in compliance with the periodicity chart for ARKids First-B beneficiaries.

Newborn screens do not require PCP referral.

Certified nurse-midwives may provide newborn screens ONLY.

Nurse practitioners, in addition to newborn preventive health screens, are authorized to provide other preventive health screens with a PCP referral. Refer to Section 262.130 for preventive health screens procedure codes.

#### 222.750 Health Education

<del>2-1-20</del>10-1-221

Health education is a required component of screening services and includes anticipatory guidance. The developmental assessment, comprehensive, physical examination, and the visual, hearing or dental screening provide the initial opportunity for providing health education. Health education and counseling to parents (or guardians) and children are required. Health education and counseling are designed to assist in understanding what to expect in terms of the child's development and to provide information about the benefits of healthy lifestyles and practices, as well as accident and disease prevention. See Section 262.130 for procedure codes.

Health education can include but isn't limited to tobacco cessation counseling services to the parent/legal guardian of the child.

A. Counseling Visits (two (2) per SFY).

View or print the procedure codes for ARKids First-B procedures and services.

| Current<br>Procedure<br>Code | Current<br>Modifier | Arkansas Medicaid Description  |
|------------------------------|---------------------|--|
| 99406*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intermediate, 15 minutes)   |
| 99406*                       | CG                  | ** (Smoking and tobacco use cessation counseling visit, intermediate, 15-minutes provided to parents of children birth through twenty (20) years of age) |
| 99407*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intensive, 30-minutes)  |
| <del>99407*</del>            | CG                  | ** (Smoking and tobacco use cessation counseling visit, intensive, 30 minutes provided to parents of children birth through twenty (20) years of age)    |

<sup>\*</sup> Exempt from PCP referral requirements.

- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.
- B. Referral of patient to an intensive tobacco cessation referral program.
- C. These counseling sessions can be billed in addition to an office visit or EPSDT.

D. If the beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counseling sessions limit described in section C above.

- E. Tobacco cessation sessions do NOT require a PCP referral.
- F. The provider must complete the counseling checklist and place in the patient records for audit. View or Print the Arkansas Be Well Referral Form.

Refer to Section 257.000 and Section 292.900 of the Primary Care Physician manual for more information.

#### 222.800 Schedule for Preventive Health Screens

<del>1-1-20<u>10-1-</u></del> 224

The ARKids First – B periodic screening schedule follows the guidelines for the EPSDT screening schedule and is updated in accordance with the recommendations of the American Academy of Pediatrics.

From birth to 15 months of age, children may receive six (6) periodic screens in addition to the newborn screen performed in the hospital.

Children age 15 months to 24 months of age may receive two (2) periodic screens. Children age 24 months to 30 months may receive one (1) periodic screen, and children 30 months to 3 years old may receive one (1) periodic screen.

When a child has turned 3 years old, the following schedule will apply. There must be at least 365 days between each screen listed below for children age 3 years through 18 years.

| Age     |          |          |          |
|---------|----------|----------|----------|
| 3 years | 7 years  | 11 years | 15 years |
| 4 years | 8 years  | 12 years | 16 years |
| 5 years | 9 years  | 13 years | 17 years |
| 6 years | 10 years | 14 years | 18 years |

Medical screens for children are required to be performed by the beneficiary's PCP or receive a PCP referral to an authorized Medicaid screening provider. Routine newborn care, vision screens, dental screens and immunizations for childhood diseases do not require PCP referral. See Section 262.130 for procedure codes.

### 224.000 Cost Sharing

10-1-15221

Co-payment or coinsurance applies to all ARKids First-B services, with the exception of immunizations, preventive health screenings, family planning, prenatal care, eyeglasses, medical supplies and audiological services (only Tympanometry, CPT procedure code 92567, when the diagnosis is within the ICD range (View ICD codes.)).

# View or print the procedure codes for ARKids First-B procedures and services.

Co-payments or coinsurances range from up to \$5.00 per prescription to 10% of the first day's hospital Medicaid per diem.

ARKids First-B families have an annual cumulative cost sharing maximum of 5% of their annual gross family income. The annual period is July 1 through June 30 SFY (state fiscal year). The

ARKids First-B beneficiary's annual cumulative cost sharing maximum will be recalculated and the cumulative cost sharing counter reset to zero on July 1 each year.

The cost sharing provision will require providers to check and be alert to certain details about the ARKids First-B beneficiary's cost sharing obligation for this process to work smoothly. The following is a list of guidelines for providers:

- 1. On the day service is delivered to the ARKids First-B beneficiary, the provider must access the eligibility verification system to determine if the ARKids First-B beneficiary has current ARKids First-B coverage and whether or not the ARKids First-B beneficiary has met the family's cumulative cost sharing maximum.
- The provider must check the remittance advice received with the claim submitted on the ARKids First-B beneficiary, which will contain an explanation stating that the ARKids First-B beneficiary has met their cost sharing cap.
- 3. It is strongly urged that providers submit their claims as quickly as possible to the Arkansas Medicaid fiscal agent for payment so that the amount of the ARKids First-B beneficiary's co-payment can be posted to their cost share file and the amount added to the accrual.

## 240.200 Prior Authorization (PA) Process for Interperiodic Preventive Dental 4-1-0910-1-Screens

Prior authorization for procedure code **D0140**, Interperiodic Dental Screening Exam, must be requested on the ADA claim form or online with a brief narrative through the Prior Authorization Manipulation (PAM) software. **View or print the Department of Human Services Medicaid Dental Unit Address.** Refer to your Arkansas Medicaid Dental Services Provider Manual for detailed information on obtaining prior authorizations.

# View or print the procedure codes for ARKids First-B procedures and services.

Refer to Section 222.300 of this manual for coverage and Section 262.150 billing information.

## 262.110 Medical Supplies Procedure Codes

<del>3-15-13</del>10-1-221

The following medical supplies procedure codes may be billed by Medicaid-enrolled Home Health and Prosthetics providers for ARKids First-B beneficiaries.

## View or print the procedure codes for ARKids First-B procedures and services.

| Procedure<br>Code | Required<br>Modifier(s) | Description  |
|-------------------|-------------------------|--|
| A4206             | NU                      | Syringe with needle, sterile < or = to1cc  |
| A4207             | NU                      | Syringe with needle, sterile 2 cc, each  |
| A4209             | NU                      | Syringe with needle, sterile 5 cc or greater, each                                 |
| A4216             | NU                      | Sterile water/saline, 10 ml  |
| A4217             | NU                      | Sterile water/saline, 500 ml   |
| A4221*            | NU                      | Supplies for maintenance of drug infusion catheter per week                        |
| A4222*            | NU                      | Supplies for external drug infusion pump per cassette or bag                       |
| A4253             | NU                      | Blood glucose test or reagent strips for home blood glucose monitor, per 50 strips |
| A4253             | NU, U1                  | Billed for Pregnant Women services only  |
| A4256             | NU                      | Normal, low and high calibrator solution/chips                                     |

NOTES: Codes denoted with an asterisk \* (A4231, A4232, E0186, E0187, E0198, E0760, E0920, and E1391) must be prior authorized. Form DMS-679A must be used for the request for prior authorization. View or print form DMS-679A and instructions for completion.

\*\* Code <u>E1224</u> must be prior authorized through the Division of Medical Services, Utilization Review. Form DMS-679 must be used for the request for prior authorization. <u>View or print</u> form <u>DMS-679</u> and instructions for completion.

Codes denoted with ^ symbol are approved for special circumstance "Initial" billing (See Section 242.111 of the Prosthetics Medicaid Provider Manual for details regarding "initial" billing). These codes must be billed WITHOUT A MODIFIER to indicate the "Initial" bill circumstance applies – EXCEPTION – if a modifier KH is specifically indicated, that modifier must be used.

# 262.130 Preventive Health Screening Procedure Codes

<del>10-1-22<u>1</u>15</del>

There are two (2) types of full medical preventive health screening procedure codes to be used when billing for this service for ARKids First-B beneficiaries; Newborn and Child Preventive Health Screening:

1. ARKids First-B Preventive Health Screening: Newborn

The initial ARKids First-B preventive health screen for newborns is similar to Routine Newborn Care in the Arkansas Medicaid Physician and Child Health Services (EPSDT) Programs.

For routine newborn care following a vaginal delivery or C-section, procedure code 99460, 99461 or 99463, with the required modifier UA and a primary detail diagnosis (View ICD codes.) must be used one time to cover all newborn care visits by the attending provider. Payment of these codes is considered a global rate and subsequent visits may not be billed in addition to code 99460, 99461 or 99463. These codes include the physical exam of the baby and the conference(s) with the newborn's parent(s), and are considered to be the Initial Health Screening.

For newborn illness care, e.g., neonatal jaundice, following a vaginal delivery or C-section, use procedure codes range 99221 through 99223. Do not bill codes 99460, 99461 or 99463 (routine newborn care) in addition to the newborn illness care codes.

# 2. ARKids First-B Preventive Health Screening: Children

Preventive health screenings in the ARKids First-B Program are similar to EPSDT screens in the Arkansas Medicaid Child Health Services (EPSDT) Program in content and application. Billing, however, differs from Child Health Services (EPSDT). All services, including the preventive health medical screenings, are billed in the CMS-1500 claim format for both electronic and paper claims.

All preventive health screenings after the newborn screen are to be billed using the preventive health screening procedure codes 99381 99385 or 99391 99395.

Providers may bill ARKids First-B for a sick child visit in addition to a preventive health screen procedure code (99381-99385 or 99391-99395) for the same date of service if the screening schedule indicates a periodic screen is due to be performed.

# View or print the procedure codes for ARKids First-B procedures and services.

| Procedure<br>Code  | Required<br>Modifier | Description  |
|--------------------|----------------------|--|
| 99460 <sup>4</sup> | <del>UA</del>        | Initial hospital/birthing center care, normal newborn (global).  |
| 994614             | <del>UA</del>        | Initial care normal newborn other than hospital/birthing center (global).                                |
| 99463 <sup>4</sup> | UA                   | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global). |
| 992214             |                      | Initial Newborn Care For Illness Care (e.g. neonatal jaundice)   |
| 992234             |                      |  |
| 99381-<br>99385    |                      | Comprehensive Preventive Medicine Health Evaluation/Screen (New Patient)                                 |
| 99391-<br>99395    |                      | Comprehensive Preventive Medicine Health Evaluation/Screen (Established Patient)                         |
| 36415 <sup>2</sup> |                      | Collection of venous blood by venipuncture   |
| 83655              |                      | Lead   |

<sup>&</sup>lt;sup>1</sup> Exempt from PCP referral requirements

Immunizations and laboratory tests procedure codes are to be billed separately from comprehensive preventative health screens.

<sup>&</sup>lt;sup>2</sup> Covered when specimen is referred to an independent lab

<sup>&</sup>lt;sup>3</sup> Arkansas Medicaid description of the service

Billing for ARKids First-B services, including preventive health medical screenings and ARKids First-B SCHIP vaccine injection administration fees, are to be billed in the CMS-1500 claim format ONLY; for both electronic and paper claims.

262.150 Billing Procedure Codes for Periodic Dental Screens and Services 8-1-1510-1and Orthodontia Services 221

## View or print the procedure codes for ARKids First-B procedures and services.

A. Initial/Periodic Preventive Dental Screens

Periodicity schedule once each six months plus one day – must be billed with procedure code-D0120.

B. Interperiodic Preventive Dental Screens

ARKids First-B beneficiaries may receive interperiodic preventive dental screening, if required by medical necessity. There are no limits on these services; however, prior authorization must be obtained in order to receive reimbursement. Refer to Section 240.200 of this manual for dental prior authorization information.

Procedure code <del>D0140</del> must be billed for an interperiodic preventive dental screen. **This** service requires prior authorization (see Section 240.200).

The procedure codes listed in the table below must be billed for prophylaxis/fluoride.

| Procedure<br>Code | Description  |
|-------------------|--|
| D1110             | Prophylaxis – adult (ages 10-18)                                   |
| D1120             | Prophylaxis child (ages 0-9)                                       |
| D1208             | Topical application of fluoride (including prophylaxis) - all ages |
| D1206             | Topical application of fluoride varnish (ages 0-20)                |

Refer to Section 222.300 for further details regarding dental services for ARKids First–B beneficiaries.

| D8999                     | Unspecified orthodontic procedure, by report |

Refer to Section II of the Medicaid Dental Provider Manual for service definitions, information regarding reimbursement, prior authorization and other information pertaining to orthodontic treatment.

## **262.400** Billing Procedures for Preventive Health Screens

<del>9-1-14<u>10-1-</u> 221</del>

ARKids First-B reimburses providers for preventive health screenings performed at the intervals recommended by the American Academy of Pediatrics.

References in this section indicate that ARKids First-B preventive health screenings are similar to Arkansas Medicaid Child Health Services (EPSDT) screens in content and application.

# View or print the procedure codes for ARKids First-B procedures and services.

However, please note this important distinction:

Claims for ARKids First-B preventive health screenings electronically or by paper must be billed in the CMS-1500 claim format.

NOTE: Certified nurse-midwives are restricted to performing the preventive health screen, Newborn, only, and must bill either code 99460, 99461 or 99463, with the required UA modifier, for initial newborn screen or codes 99221 or 99223 for newborn illness care.

A Certified nurse-midwife may NOT bill procedure codes 99381-99385 or 99391-99395-for child preventive health screens.

# 262.410 Primary Care Physician Referral Requirements for Preventive Health Screens

<del>2-1-10</del>10-1-224

All preventive health screens **99381-99385** or **99391-99395** for ARKids First-B beneficiaries must be provided by the primary care physician (PCP) of the beneficiary or by PCP referral to a qualified practitioner.

## View or print the procedure codes for ARKids First-B procedures and services.

Newborn preventive health screens are exempt from the PCP referral requirement.

Immunizations for childhood diseases are exempt from the PCP referral requirement.

# 262.420 Limitation on Laboratory Procedures Performed During a Preventive Health Screen

3-15-13<u>10-</u> 1-22<u>1</u>

ARKids First-B preventive health screens will not include laboratory procedures unless the screen is performed by the beneficiary's PCP, is conducted pursuant to a referral from the PCP or is included in the exceptions listed below.

View or print the procedure codes for ARKids First-B procedures and services.

Exceptions

ARKids First-B Section II

The following tests are exempt from the above limitations and may continue to be billed in conjunction with a preventive health screen performed in accordance with existing Medicaid policy only if they are performed within seven (7) calendar days following the screen:

| 81000 | <del>81001</del> | <del>81002</del> | <del>83020</del> | <del>83655</del> |  |
|-------|------------------|------------------|------------------|------------------|--|
| 85013 | <del>85014</del> | <del>85018</del> | <del>86580</del> | <del>95199</del> |  |

Claims for laboratory tests, other than those specified above, performed in conjunction with a preventive health screen will be denied unless the screen is performed by the PCP or pursuant to a referral from the PCP.

#### 262.430 Vaccines for ARKids First-B Beneficiaries

8-1-15<u>10-1-</u> 221

ARKids First-B beneficiaries are not eligible for the Vaccines for Children (VFC) Program; however, vaccines can be obtained to administer to ARKids First-B beneficiaries who are under the age of 19 by contacting the Arkansas Department of Health and indicating the need to order ARKids-B SCHIP vaccines. View or print the Department of Health contact information.

Only a vaccine injection administration fee is reimbursed. When filing claims for administering vaccines for ARKids First-B beneficiaries, providers must use the CPT procedure code for the vaccine administered and the required modifier **SL** <u>only</u> for either electronic or paper claims. Providers must bill claims for ARKids First-B beneficiaries using the CMS-1500 claim format.

The following list contains the SCHIP vaccines available to ARKids-First-B beneficiaries through the Arkansas Department of Health.

### 262.431 Billing of Multi-Use and Single-Use Vials

<del>11-1-15</del><u>10-</u> <u>1-22</u>4

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges <u>96365 through 96379</u>.

#### View or print the procedure codes for ARKids First-B procedures and services.

B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description, the provider

ARKids First-B Section II

shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.

- 1. **Single-Use Vials:** If the provider must discard the remainder of a **single-use vial** or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
- 2. **Multi-Use Vials:** Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
- 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
- 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

# **TOC** not required

#### 242.100 Procedure Codes

<del>7-1-07</del>10-1-224

The procedure codes for billing chiropractic services are below. <u>View or print the procedure codes for Chiropractic services</u>.

| <u>98940</u> <u>98941</u> <u>98942</u> <u>76499*</u> |
|--|
|--|

<sup>\*</sup>Procedure code **76499** is to be used when filing claims for chiropractic x-ray. This benefit is limited to two (2) per state fiscal year. This service counts against the \$500 per beneficiary per state fiscal year laboratory and X-ray benefit limit.

# 242.310 Completion of the CMS-1500 Claim Form

<del>5-1-18</del>10-1-

| Fiel | d Name and Number  | Instructions for Completion   |
|------|--|---|
| 1.   | (type of coverage)   | Not required.   |
| 1a.  | INSURED'S I.D. NUMBER (For Program in Item 1)                | Beneficiary's or participant's 10-digit Medicaid or ARKids First-A or ARKids First-B identification number.   |
| 2.   | PATIENT'S NAME (Last<br>Name, First Name, Middle<br>Initial) | Beneficiary's or participant's last name and first name.  |
| 3.   | PATIENT'S BIRTH DATE   | Beneficiary's or participant's date of birth as given on<br>the individual's Medicaid or ARKids First-A or ARKids<br>First-B identification card. Format: MM/DD/YY. |
|      | SEX  | Check M for male or F for female.   |
| 4.   | INSURED'S NAME (Last<br>Name, First Name, Middle<br>Initial) | Required if insurance affects this claim. Insured's last name, first name, and middle initial.  |
| 5.   | PATIENT'S ADDRESS (No., Street)                              | Optional. Beneficiary's or participant's complete mailing address (street address or post office box).  |
| 1    | CITY   | Name of the city in which the beneficiary or participant resides.   |
|      | STATE  | Two-letter postal code for the state in which the beneficiary or participant resides.   |
|      | ZIP CODE   | Five-digit zip code; nine digits for post office box.   |
|      | TELEPHONE (Include Area Code)                                | The beneficiary's or participant's telephone number or the number of a reliable message/contact/ emergency telephone.   |
| 6.   | PATIENT RELATIONSHIP TO INSURED                              | If insurance affects this claim, check the box indicating the patient's relationship to the insured.  |
| 7.   | INSURED'S ADDRESS (No., Street)                              | Required if insured's address is different from the patient's address.  |
|      | CITY   |   |
|      | STATE  |   |

| _ | Field Name and Number |                                  | me and Number   | Instructions for Completion  |

**TOC** not required

#### 213.710 Fetal Non-Stress Test

<del>10-13-03<u>10-</u></del> 1-224

The fetal non-stress test is limited to two (2) medically necessary fetal non-stress test procedures per pregnancy. Providers must follow the benefit extension procedures in Section 214.000 to request that Medicaid authorize payment of a third or subsequent claim after two (2) claims have been paid in a nine-month period. The procedure code for a fetal non-stress test is **59025** in the link below.

#### View or print the procedure codes for Certified Nurse Midwife (CNM) services.

Post procedural visits are covered within the 10-day period following a fetal non-stress test.

#### 272.412 Pudendal Nerve Block

<del>10-13-03<u>10-</u> 1-221</del>

CPT code 64430 may be billed when administering a pudendal nerve block.

View or print the procedure codes for Certified Nurse Midwife (CNM) services.

# 272.430 Family Planning Services for Beneficiaries

10-1-15221

See Sections 215.200 through 215.260 for family planning coverage information.

Laboratory procedure codes covered for family planning are listed in <u>Section 272.431</u> of this manual.

For other billable family planning services, see Sections 272.440-272.533.

### 272.431 Family Planning Services Laboratory Procedure Codes

10-1-15221

Family planning services are covered for beneficiaries in full coverage aid categories and Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. For eligible beneficiaries, these codes are payable when used for purposes other than family planning. Claims require modifier FP when the service diagnosis indicates family planning.

The following procedure code table explains family planning laboratory procedure codes.

# 272.440 Billable Family Planning Services for Beneficiaries

<del>5-1-17</del><u>10-1-</u> 2<del>1</del>2

A. Family planning services are covered for beneficiaries in full coverage aid categories and Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. All procedure codes in these tables require a primary diagnosis code of family planning in each claim detail. Laboratory procedure codes covered for family

planning are listed in <u>Section 272.431</u>. Other billable family planning services are also listed in <u>Section 272.533</u>.

B. The following procedure code table explains the family planning visit services payable to certified nurse-midwives.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Procedure Code | Modifier(s)           | Description                    |
|----------------|-----------------------|--------------------------------|
| 99401          | <del>FP, UA, SB</del> | Family Planning Periodic visit |
| 99402          | <del>FP, SB</del>     | Family Planning Basic visit    |

 The following procedure table explains family planning codes payable to certified nursemidwives.

# 272.451 Specimen Collection

<del>7-1-05</del>10-1-

The policy in regard to collection, handling and/or conveyance of specimens is:

- A. Reimbursement will not be made for specimen handling fees.
- B. A specimen collection fee may be allowed only in circumstances including: (1) drawing a blood sample through venipuncture (e.g., inserting into a vein a needle with syringe or vacutainer to draw the specimen) or (2) collecting a urine sample by catheterization.
- C. Specimen collection is not reimbursable when the provider collecting the specimen also performs laboratory tests on the specimen.

The following procedure codes may be used when billing for specimen collection:

View or print the procedure codes for Certified Nurse Midwife (CNM) services.

### 272.452 Tobacco Cessation Counseling Services

<del>2-1-20</del><u>10-1-</u> <u>224</u>

A. Tobacco cessation counseling and products are covered services to eligible Medicaid beneficiaries. Tobacco cessation products either prescribed or initiated through statewide pharmacist protocol are available without prior authorization (PA) to eligible Medicaid beneficiaries. Additional information can be found on the <a href="DHS Contracted PharmacyVendor website">DHS Contracted PharmacyVendor website</a> or in the <a href="Prescription Drug Program Prior Authorization Criteria">Prior Authorization Criteria</a>.

<sup>\*\*</sup> See Section 272.533 H for additional billing information.

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.

View or print the procedure codes for Certified Nurse Midwife (CNM) services.

| Current<br>Procedure<br>Code | Current<br>Modifier | Arkansas Medicaid Description  |
|------------------------------|---------------------|--|
| 99406*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intermediate, 15-minutes)   |
| 99406*                       | CG                  | ** (Smoking and tobacco use cessation counseling visit, intermediate, 15-minutes provided to parents of children birth through twenty (20) years of age) |
| 99407*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intensive, 30-minutes)  |
| <del>99407*</del>            | CG                  | * (Smoking and tobacco use cessation counseling visit, intensive, 30-minutes provided to parents of children birth through twenty (20) years of age)     |

<sup>\*</sup> Exempt from PCP referral requirements.

- \*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the covered service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.
- B. Two (2) Counseling visits per state fiscal year.
- C. Health education can include but is not limited to tobacco cessation counseling services to the parent/legal guardian of the child.
- D. Can be billed in addition to an office visit or EPSDT.
- E. Sessions do not require a PCP referral.
- F. If the beneficiary is under the age of eighteen (18) and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counselling sessions limit described in section C above.

The provider must complete the counseling checklist and place in the patient records for audit. A copy of the checklist is available at <u>View or Print Be Well Arkansas Referral Form</u>

#### 272.470 Newborn Care 10-1-15224

All newborn services must be billed under the newborn's own Medicaid identification number midwife can refer interested individuals to the Department of Human Services through the The parent(s) of the newborn will be responsible for applying for and meeting eligibility requirements for a newborn to be certified eligible. The hospital/physician/certified nurse-midwife can refer interested individuals to the Department of Human Services through the Hospital/Physician/Certified Nurse-Midwife Referral Program. If the newborn is not certified as Medicaid eligible, the parent(s) will be responsible for the charges incurred by the newborn.

View or print the procedure codes for Certified Nurse Midwife (CNM) services.

For routine newborn care following a vaginal delivery or C-section, procedure code 99460, 99461 or 99463 should be used one time to cover all newborn care visits. Payment of these codes is considered a global rate and subsequent visits may not be billed in addition to 99460, 99461 and 99463. These codes include the physical exam of the baby and the conference(s) with the newborn's parent(s), and are considered to be the initial Child Health Services (EPSDT) screen. Routine newborn care is exempt from the PCP requirement.

Note the descriptions, modifiers, and required diagnosis range. The newborn care procedure codes require a modifier and a primary detail diagnosis of V30.00-V37.21 for all providers. Refer to the appropriate manual(s) for additional information about newborn screenings.

For illness care (e.g., neonatal jaundice), use procedure codes 99221 through 99223. Do **not** bill 99460, 99461 or 99463 in addition to these codes.

For newborn resuscitation, use procedure code 99465.

99460, 99461, and 99463 mMay be billed on the CMS-1500 claim form or on the electronic claim transaction format. These codes may also be filed on the CMS-1500; paper or electronically for ARKids A beneficiaries. For ARKids B-beneficiaries, newborn screening codes must be billed electronically or on the paper CMS-1500 claim form. For information, call the Provider Assistance Center. View or print the Provider Assistance Center contact information.

For ARKids A (EPSDT) – Requires a CMS-1500 claim form; may be billed electronically or on paper.

| Procedure<br>Code | Modifier | Description   |
|-------------------|----------|---|
| 99460             | UA       | Initial hospital/birthing center care, normal newborn (global)  |
| 99461             | UA       | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463             | UA       | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

For ARKids First B – Requires a CMS-1500 claim form; may be billed electronically or on paper.

| Procedure<br>Code | Modifier      | <b>Description</b>  |
|-------------------|---------------|---|
| 99460             | <del>UA</del> | Initial hospital/birthing center care, normal newborn (global)  |
| 99461             | <del>UA</del> | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463             | <del>UA</del> | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

See Sections 241.000 – 243.310 of the EPSDT manual for specific EPSDT billing instructions.

272.491 Method 1 – "Global" or "All-Inclusive" Rate

1<del>0-1-15</del>212

A. One charge for total obstetrical care is billed. The single charge would include the following:

- 1. Antepartum care, which includes:
  - a. initial and subsequent history
  - b. physical examinations
  - c. recording of weight
  - d. blood pressure
  - e. fetal heart tones
  - f. routine chemical urinalyses
  - g. maternity counseling
  - h. office visit charge when diagnosis is pregnancy related
- 2. Admission to the hospital. All admissions and subsequent hospital visits for the treatment of false labor.
- 3. Delivery vaginal delivery (with or without episiotomy, with or without forceps or breech delivery) and resuscitation of newborn infant when necessary.
- 4. Postpartum care, which includes hospital and office visits following vaginal delivery.
- B. The global method must be used when the following conditions exist:
  - At least two months of antepartum care were provided culminating in delivery.
  - 2. The patient was continuously Medicaid eligible for at least two months before delivery.

If either condition is not met, the claim will be denied. The denial will state either "monthly billing required" or "beneficiary ineligible for service dates."

C. When billing for global care, procedure code 59400 or 59610 must be used.

#### View or print the procedure codes for Certified Nurse Midwife (CNM) services.

The provider should indicate in the date of service field of the claim form:

- 1. The first date of antepartum care after Medicaid eligibility has been established
- 2. The date of delivery
- 3. If these two dates are not entered and are not at least two months apart, payment will be denied. The filing deadline will be calculated based on the date of delivery.
- D. No benefits are counted against the beneficiary's annual office visit benefit limit if the global method is used.
- E. The global method of billing should be used when one or more certified nurse-midwives in a group sees the patient for one or more prenatal visits. The certified nurse-midwife who delivers the baby should be listed as the attending provider on the claim for global obstetric care.

### 272.492 Method 2 – "Itemized Billing"

<del>7-1-06</del>10-1-224

Itemized billing must be used when the following conditions exist:

- A. Less than two months of antepartum care was provided.
- B. The patient was NOT Medicaid eligible for at least the last two months of the pregnancy.
- C. If Method 2 is used to bill OB services, care should be taken to ensure that the services are billed within the 12-month filing deadline.

#### View or print the procedure codes for Certified Nurse Midwife (CNM) services.

D. If only the delivery is performed and neither antepartum nor postpartum services are rendered, procedure code 59409 should be billed for vaginal delivery. Procedure codes 59400 and 59410 may not be billed in addition to procedure code 59409. These procedures will be reviewed on a post-payment basis to ensure that they are not billed in addition to antepartum or postpartum care.

- E. Providers may bill laboratory and X-ray services separately using the appropriate CPT procedure codes if this is the certified nurse-midwife's standard office practice.
  - 1. When lab tests and/or x-rays are pregnancy related, the referring certified nurse-midwife must be sure to code appropriately when these services are sent to the lab or x-ray facility. The diagnostic facilities are completely dependent on the referring certified nurse-midwife for diagnosis information necessary for reimbursement.
  - 2. The obstetrical laboratory profile procedure code 80055 consists of four components: complete blood count, VDRL, Rubella and blood typing with RH. If the ASO titer (procedure code 86060) is performed, the test should be billed separately using the individual code.
  - 3. As with any laboratory procedure, if the specimen is sent to an outside laboratory, only a collection fee may be billed. The laboratory may then bill Medicaid for the laboratory procedure. Refer to Section 272.450 of this manual.

NOTE: Payment will not be made for emergency room certified nurse-midwife charges for an OB patient admitted directly from the emergency room into the hospital for delivery.

# 272.493 Obstetrical Care Without Delivery

7-1-06<u>10-1-</u>

Certified nurse-midwives must use procedure code <del>59425</del> with modifier **UA** to bill for one to three visits for antepartum care without delivery.

Procedure code <del>59425</del> with no modifier must be used by providers to bill four to six visits for antepartum care without delivery. Procedure code <del>59426</del> with no modifier is to be used for 7 or more visits without delivery.

### View or print the procedure codes for Certified Nurse Midwife (CNM) services.

This enables certified nurse-midwives rendering care to the patient during the pregnancy, but not delivering the baby, to receive reimbursement for their services provided. Coverage for this service will include routine sugar and protein analysis. One unit equals one visit. Units of service billed with this procedure code will not be counted against the patient's office visit benefit limit.

Providers must enter the "from" and "through" dates of service on the claim and the number of units being billed. One visit equals one unit of service. Providers must submit the claim within 12 months of the first date of service.

**For example:** An OB patient is seen by the certified nurse-midwife on 1-10-05, 2-10-05, 3-10-05, 4-10-05, 5-10-05 and 6-10-05. The patient then moves and begins seeing another provider prior to the delivery. The certified nurse-midwife may submit a claim with dates of service shown as 1-10-05 through 6-10-05 and 6 units of service entered in the appropriate field. This claim must be received by the Arkansas Medicaid fiscal agent prior to 12 months from 1-10-05 to fall within the 12-month filing deadline. The certified nurse-midwife must have on file the patient's medical record that reflects each date of service being billed.

# 272.494 Fetal Non-Stress Test, Fetal Echography (Ultrasound) and External 10-1-15221 Fetal Monitoring

#### View or print the procedure codes for Certified Nurse Midwife (CNM) services.

- A. The fetal non-stress test, procedure code **59025**, has a benefit limitation of two (2) per pregnancy. Prior authorization is not required.
- B. CPT procedure code 59050 is applicable only to internal fetal monitoring during labor by a consultant. Procedure code 59050 with modifier U1, for external fetal monitoring, is payable to the certified nurse-midwife when performed in a certified nurse-midwife's office or clinic. Certified nurse-midwives may bill no more than one unit per day of external fetal monitoring, not to exceed two (2) per pregnancy.
- C. Benefit limits apply to fetal echography (ultrasound), procedure codes 76815, 76816, 76818 and 76819.
- D. Fetal echography is limited to two (2) per pregnancy. If it is necessary to exceed these limits, the certified nurse-midwife must request an extension of benefits. See Section 214.000 for benefit extension procedures.

### 272.495 Risk Management Services for Pregnancy

10-1-15221

A certified nurse-midwife may provide the risk management services listed below if he or she employs the professional staff indicated in the service descriptions below. If a certified nurse-midwife does not choose to provide the risk management services but believes the patient would benefit from them, he or she may refer the patient to a clinic that offers risk management services for pregnancy. Each of the risk management services described in parts A through E has a limited number of units of service that may be furnished. Coverage of these risk management services is limited to a maximum of 32 cumulative units.

# View or print the procedure codes for Certified Nurse Midwife (CNM) services.

### A. Risk Assessment

A medical, nutritional and psychosocial assessment by the certified nurse-midwife or registered nurse to designate patients as high or low risk.

- 1. Medical assessment using the Hollister Maternal/Newborn Record System or equivalent form to include:
  - Medical history
  - Menstrual history
  - Pregnancy history
- Nutritional assessment to include:
  - a. 24-hour diet recall
  - b. Screening for anemia
  - c. Weight history
- 3. Psychosocial assessment to include criteria for an identification of psychosocial problems that may adversely affect the patient's health status.

Maximum: 2 units per pregnancy

| Procedure Code | Modifier(s) | Description                                     |
|----------------|-------------|---|
| 99402          | SB, U1, UA  | Preventative medicine counseling and/or risk    |
|                |             | factor reduction intervention(s) provided to an |

| Procedure Code | Modifier(s) | Description                          |  |
|----------------|-------------|--------------------------------------|--|
|                |             | individual; approximately 30 minutes |  |

# B. Case Management Services

Services by a certified nurse-midwife, licensed social worker or registered nurse that will assist pregnant women eligible under Medicaid in gaining access to needed medical, social, educational and other services. (Examples: locating a source of services, making an appointment for services, arranging transportation, arranging hospital admission, locating a physician to perform delivery following-up to verify that the patient kept appointment, rescheduling appointment).

Maximum: 1 unit per month. A minimum of two contacts per month must be provided. A case management service contact may be with the patient, other professionals, family and/or other caregivers.

| Procedure Code   | Modifier(s)           | Description   |
|------------------|-----------------------|---|
| Low Risk: 99402  | <del>SB, U4, UA</del> | Preventative medicine counseling and/or risk factor reduction intervention(s) provided to an individual; approximately 30 minutes |
| High Risk: 99402 | SB, U5, UA            | Preventative medicine counseling and/or risk factor reduction intervention(s) provided to an individual; approximately 30 minutes |

# C. Perinatal Education

Educational classes provided by a health professional (Certified Nurse-Midwife, Public Health Nurse, Nutritionist or Health Educator) to include:

- 1. Pregnancy
- 2. Labor and delivery
- 3. Reproductive health
- 4. Postpartum care
- 5. Nutrition in pregnancy

Maximum: 6 classes (units) per pregnancy

| Procedure Code | Modifier(s) | Description   |
|----------------|-------------|---|
| 99402          | SB, UA      | Preventative medicine counseling and/or risk factor reduction intervention(s) provided to an individual; approximately 30 minutes |

### D. Nutrition Consultation - Individual

Services provided for high-risk pregnant women by a registered dietitian or a nutritionist eligible for registration by the Commission on Dietetic Registration to include at least one of the following:

- 1. An evaluation to determine health risks due to nutritional factors with development of a nutritional care plan or
- 2. Nutritional care plan follow-up and reassessment, as indicated.

Maximum: 9 units per pregnancy

| Procedure Code | Modifier(s) | Description  |
|----------------|-------------|--|
| 99402          | SB, U2, UA  | Preventative medicine counseling and/or risk factor reduction intervention(s) provided to an individual (separate procedure); approximately 30 minutes |

#### E. Social Work Consultation

Services provided for high-risk pregnant women by a licensed social worker to include at least one of the following:

- 1. An evaluation to determine health risks due to psychosocial factors with development of a social work care plan or
- 2. Social work plan follow-up, appropriate intervention and referrals.

Maximum: 6 units per pregnancy

| Procedure Code | Modifier(s) | Description   |
|----------------|-------------|---|
| 99402          | SB, U3, UA  | Office or other outpatient consultations, new or established; patient confirmatory consultations, new or established. |

#### F. Early Discharge Home Visit

If a certified nurse-midwife chooses to discharge a low-risk mother and newborn from the hospital early (less than 24 hours after delivery), the certified nurse-midwife may provide a home visit to the mother and baby within 72 hours of the hospital discharge or the certified nurse-midwife may request an early discharge home visit from any clinic that provides perinatal services. Visits will be made by certified nurse-midwife order (includes hospital discharge order).

A certified nurse-midwife may order a home visit for the mother and/or infant discharged later than 24 hours if there is specific medical reason for home follow-up.

Procedure codes: CPT procedure codes <del>99341, 99342, 99343, 99347, 99348 and 99349</del> as applicable.

272.502 Non-Emergency Services

<del>7-1-06</del>10-1-224

Procedure code <del>T1015</del> (modifier **U3**) should be billed for a non-emergency certified nurse-midwife visit.

View or print the procedure codes for Certified Nurse Midwife (CNM) services.

272.533 Injections, Therapeutic and/or Diagnostic Agents

<del>11-1-17</del><u>10-</u> 1-224

A. Providers billing the Arkansas Medicaid Program for covered injections should bill the appropriate CPT or HCPCS procedure code for the specific injection administered. The procedure codes and their descriptions may be found in the Current Procedure Terminology (CPT) and in the Healthcare Common Procedural Coding System Level II (HCPCS) coding books.

**Injection administration code**, **T1502** is payable for beneficiaries of all ages. **T1502** mMay be used for billing the administration of subcutaneous and/or intramuscular injections only. This procedure code cannot be billed when the medication is administered "ORALLY." No fee is billable for drugs administered orally.

T1502 cCannot be billed separately for Influenza Virus vaccines or Vaccines for Children (VFC) vaccines.

T1502 cCannot be billed to administer any medication given for family planning purposes. No other fee is billable when the provider decides not to supply family planning injectable medications.

T1502 cCannot be billed when the drug administered is not FDA approved.

See the table below when billing T1502:

| Procedure<br>Code | Modifier | Eligibility Category |
|-------------------|----------|----------------------|
| <del>T1502</del>  | EP       | ARKids-A (Ages 0-20) |
| <del>T1502</del>  | SL       | ARKids-B             |
| <del>T1502</del>  |          | Ages 19 and above    |

Most of the covered drugs can be billed electronically. However, any covered drug marked with an asterisk (\*) must be billed on paper with the name of the drug and dosage listed in the "Procedures, Services, or Supplies" column, Field 24D, of the CMS-1500 claim form. View a CMS-1500 sample form. If requested, additional documentation may be required to justify medical necessity. Reimbursement for manually priced drugs is based on a percentage of the average wholesale price.

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs. See Section 272.531 for further information.

Administration of therapeutic agents is payable only if provided in a physician's office, place of service code "11." These procedures are not payable to the certified nurse-midwife if performed in any other setting. Therapeutic injections should only be provided by certified nurse-midwives experienced in the provision of these medications and who have the facilities to treat patients who may experience adverse reactions. The capability to treat infusion reactions with appropriate life support techniques should be immediately available. Only one administration fee is allowed per date of service unless "multiple sites" are indicated in the "Procedures, Services, or Supplies" field in the CMS-1500 claim form. Reimbursement for supplies is included in the administration fee. An administration fee is not allowed when drugs are given orally.

Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379 and 96401 through 96549 for therapeutic and chemotherapy administration procedure codes.

- B. For consideration of payable unlisted CPT/HCPCS drug procedure codes:
  - 1. The provider must submit a paper claim that includes a description of the drug being represented by the unlisted procedure code on the claim form.
  - 2. Documentation that further describes the drug provided must be attached and must include justification for medical necessity.
  - 3. All other billing requirements must be met in order for payment to be approved.

#### C. Immunizations

Physicians may bill for immunization procedures on the CMS-1500 claim form. <u>View a CMS-1500 sample form.</u>

Coverage criteria for all immunizations and vaccines are listed in Part F of this section.

Influenza virus vaccine through the Vaccines for Children (VFC) program is determined by the age of the beneficiary and which vaccine is used.

The administration fee for all vaccines is included in the reimbursement fee for the vaccine CPT procedure code.

### D. Vaccines for Children (VFC)

The Vaccines for Children (VFC) Program was established to generate awareness and access for childhood immunizations. Arkansas Medicaid established new procedure codes for billing the administration of VFC immunizations for children under the age of 19 years of age. To enroll in the VFC Program, contact the Arkansas Department of Health. Providers may also obtain the vaccines to administer from the Arkansas Division of Health. View or print Arkansas Department of Health contact information.

Medicaid policy regarding immunizations for adults remains unchanged by the VFC Program.

Vaccines available through the VFC Program are covered for Medicaid-eligible children. Administration fee only is reimbursed. When filing claims for administering VFC vaccines, providers must use the CPT procedure code for the vaccine administered. Electronic and paper claims require modifiers **EP** and **TJ**. ARKids First-B beneficiaries are not eligible for the VFC Program; however vaccines can be obtained to administer to ARKids First-B beneficiaries who are under the age of 19 by contacting the Arkansas Department of Health and indicating the need to order ARKids First-B SCHIP vaccines. View or print the Department of Health contact information.

When vaccines are administered to beneficiaries of ARKids First-B services, only modifier **SL** must be used for billing. Any additional billing and coverage protocols are listed under the specific procedure code in the tables in this section of this manual. See Part F of this section.

# E. Billing of Multi-Use and Single-Use Vials

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

- Multiple units may be billed when applicable. Take-home drugs are not covered.
   Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.
- When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - a. Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - b. **Multi-Use Vials** are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.

c. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.

d. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

# See Section 272.531 for additional information regarding National Drug Code (NDC) billing.

# F. Tables of Payable Procedure Codes

The tables of payable procedure codes are designed with eight columns of information.

- 1. The **first** column of the list contains the CPT or HCPCS procedure codes.
- 2. The **second** column indicates any modifiers that must be used in conjunction with the procedure code when billed, either electronically or on paper.
- 3. The **third** column indicates that the coverage of the procedure code is restricted based on the beneficiary's age in number of years(y) or months (m).
- 4. The **fourth** column indicates specific ICD primary diagnosis restrictions.
- 5. The <u>fifth</u> column contains information about the "diagnosis list" for which a procedure code may be used. See the page header for the diagnosis list 003 detail.
- 6. The <u>sixth</u> column indicates whether a procedure is subject to medical review before payment.
- 7. The **seventh** column indicates a procedure code requires a prior authorization before the service is provided. (See Section 240.000 for prior authorization.)

# G. Process for Obtaining a Prior Authorization (PA) Number from Arkansas Foundation for Medical Care (AFMC)

In collaboration with AFMC, DMS is changing the process for acquiring prior approval for drug procedure codes from a prior approval letter to a PA number. Instead of attaching a prior approval letter to a paper claim, providers will now list the PA number on the claim. This will mean that effective for claims submitted on and after August 26, 2016, drug procedure codes requiring PA should be billed with the PA number listed on the claim form. These drugs may be billed electronically or on a paper claim. Additionally, these procedure codes requiring a PA will no longer require manual review during the processing of the claim.

As part of the transition, AFMC will send a letter to all providers who have approval letters spanning timeframes within the last 365 days at the time of the effective date of this policy. The letter will contain a PA number and the total remaining number of the approved units that can be billed. Any providers who have questions regarding PA numbers and/or the transition process outlined above can contact AFMC at the following:

Toll Free: 1-877-350-2362, ext. 8741 or (501) 212-8741

A PA must be requested before treatment is initiated for any drug, therapeutic agent or treatment that indicates a PA is required in a provider manual or an official Division of Medical Services correspondence.

The PA requests should be completed using the approved AFMC PA request form and must be submitted by mail, fax or https://afmc.org.reviewpoint/ (View or print PA form.)

A decision letter will be returned to the provider by fax or *e-mail* within five (5) business days.

If approved, the Prior Authorization number must be appended to all applicable claims, within the scope of the approval and may be billed electronically or on a paper claim with additional documentation when necessary.

Denials will be subject to reconsideration if received by AFMC with additional documentation within fifteen (15) business days of date of denial letter.

A reconsideration decision will be returned within five (5) business days of receipt of the reconsideration request.

### H. Contact Information for Obtaining Prior Authorization

When obtaining a Prior Authorization from the Arkansas Foundation for Medical Care, please send your request to the following:

| In-state and out-of-state toll free for inpatient reviews, Prior Authorizations for surgical procedures and assistant surgeons only | 1-800-426-2234   |
|---|--|
| General telephone contact, local or   | (479) 649-8501   |
| long distance – Fort Smith  | 1-877-650-2362   |
| Fax for CHMS only   | (479) 649-0776   |
| Fax for Molecular Pathology only  | (479) 649-9413   |
| Fax – General   | (479) 649-0799   |
| Fax – Physician Drug Reviews Only (PDR)   | (501) 212-8663   |

#### 212.000 Summary of Coverage

<del>-1-09<u>10-1</u> 22</del>4

The Dental Program covers an array of common dental procedures for individuals of all ages. However, there are specific limitations for coverage for individuals age 21 and over.

Effective for dates of service on and after July 1, 2009, dental procedures will be covered for Medicaid eligible beneficiaries age 21 and over. However, there is a benefit limit for covered services of \$500.00 per state fiscal year (July 1 through June 30) for beneficiaries age 21 and over. Extractions and complete and partial dentures are excluded from the \$500.00 benefit limit for adults.

Medicaid dental procedure codes are listed in <u>Section 262.100</u> for beneficiaries under age 21. Procedure codes for individuals age 21 and over are listed in <u>Section 262.200</u>. Each section lists the procedure codes covered, prior authorization requirements and the necessity of submitting X-rays with the treatment plan. <u>Section 262.200</u> also lists the procedure codes that are benefit limited.

# 214.100 Tobacco Cessation Products and Counseling Services

<del>2-1-20</del>10-1-221

Tobacco cessation products either prescribed or initiated through statewide pharmacist protocol are available without prior authorization (PA) to eligible Medicaid beneficiaries. Additional information can be found on the <a href="DHS Contracted Pharmacy Vendor website">DHS Contracted Pharmacy Vendor website</a> or in the <a href="Prescription Drug Program Prior Authorization Criteria">Prescription Drug Program Prior Authorization Criteria</a>.

Counseling services and benefits are defined below:

- A. Prescribers must review the Public Health Service (PHS) guideline-based checklist with the patient.
- B. The prescriber must retain the counseling checklist and file in the patient records for auditing. View or print the checklist.
- C. Counseling procedures do not count against the twelve (12) visits per state fiscal year (SFY), but they are limited to no more than two (2) 15-minute units and two (2) 30-minute units for a maximum allowable of four (4) units per SFY.
- D. For beneficiaries age twenty-one (21) and over, counseling procedures will count against the \$500 adult dental benefit limit. If the beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under that minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counseling sessions limit described in section C above.
- E. Beneficiaries who are pregnant are allowed up to four (4) 93-day courses of treatment per calendar year.

#### NOTE: The course of treatment is defined as three consecutive months.

- F. If the beneficiary is in need of intensive tobacco cessation services, the provider may refer the beneficiary to an intensive tobacco cessation program: View or print the Arkansas Be Well Referral Form.
- G. Additional prescription benefits will be allowed per month for tobacco cessation products and will not be counted against the monthly prescription benefit limit. Tobacco cessation products are not subject to co-pay.

H. D1320—Tobacco counseling for the control and prevention of oral disease must be billed when the provider counsels and refers the beneficiary to an intensive tobacco cessation program.

I. D9920—Behavior management by report must be billed when tobacco counseling for the control and prevention of oral disease has been provided to the beneficiary.

View or print the Dental services procedure codes for covered beneficiaries.

<u>For dental services provided by dental managed care providers, please see the respective provider's manual.</u>

J. Refer to Section 262.100 and 262.200 for procedure codes and billing instructions.

## 215.000 Child Health Services (EPSDT) Dental Screening

<del>5-1-14</del><u>10-1-</u> 224

The Child Health Services (EPSDT) periodic and interperiodic dental screening exams consist of an inspection of the oral cavity by a licensed dentist. The purpose of the dental screening exams is to check for obvious dental abnormalities and to assure access to needed dental care. Regular screening exams should be performed in accordance with the recommendations of the Child Health Services (EPSDT) periodicity schedule.

The Child Health Services (EPSDT) periodic dental screening exam is limited to two screening exams every six (6) months plus one (1) day for individuals under age 21. These benefits may be extended if documentation is provided that verifies medical necessity. See <u>Section 262.100</u> to view the procedure code for periodic dental screening exams.

Individuals under age 21 enrolled in the EPSDT Program may receive an interperiodic dental screening exam twice per SFY. Extension of benefits is available in cases of medical necessity. <u>View or print form ADA-J430</u>. See <u>Section 262.100</u> for the interperiodic dental screening exam procedure code.

NOTE: ARKids First-B beneficiaries may also receive an interperiodic dental screening exam twice per SFY. There is no extension of benefits for ARKids First-B beneficiaries.

Extension of benefits requests, in addition to a narrative and any supporting documentation, should be submitted to the Division of Medical Services Dental Care Unit – ATTN Dental Extension of Benefits.

View or print the Division of Medical Services Dental Care Unit contact information.

Infant oral health care examinations must be based on the recommendations of the American Academy of Pediatric Dentistry. Essential elements of an infant oral health care visit are a thorough medical and dental history, oral examination, parental counseling, preventive health education and determination of appropriate periodic re-evaluation. See Section 201.500 for information regarding the dentist's role in the EPSDT Program.

#### 216.200 Bitewing Radiographs

8<del>-1-13</del>10-1-224

Bitewing radiographs are covered for beneficiaries of all ages. There are different limitations of coverage for beneficiaries under age 21 and for those beneficiaries age 21 and older.

The EPSDT periodic screening exam may include only two bitewings and is allowed every six (6) months plus one (1) day for beneficiaries under age 21. See <u>Section 262.100</u> for the appropriate procedure code.

Two bitewing films are allowed once per state fiscal year (July 1 through June 30) for beneficiaries age 21 and over. See <u>Section 262.200</u> for appropriate procedure codes.

216.300 Intraoral Film 4-1-0510-1-

When submitting a claim for an intraoral single film, indicate the middle tooth number. Procedure code D0220 must be used for the first film and procedure code D0230 for each additional single film.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

Medicaid will only cover the complete series or the submitted group of individual X-rays. X-rays are to be mounted, marked R and L, labeled with the dentist's provider number and the beneficiary identification number and stapled to the back of the claim form, as noted in Section 216.000.

# 217.100 Dental Prophylaxis and Fluoride Treatment

<del>8-1-14</del><u>10-1-</u> <u>221</u>

Dental prophylaxis and a fluoride treatment are preventive treatments covered by Medicaid. Prophylaxis, in addition to application of topical fluoride and/or fluoride varnish, is covered every six (6) months plus one (1) day for beneficiaries under age 21. Arkansas Medicaid covers fluoride varnish application, ADA code D1206, performed by physicians who have completed the online training program approved by the Arkansas Department of Health, Office of Oral Health. Eligible physicians may delegate the application to a nurse or other licensed healthcare professional under his or her supervision that has also completed the online training. Physicians and nurse practitioners must complete training on dental caries risk and have an approved fluoride varnish certification from the Arkansas Department of Health, Office of Oral Health. Each provider must maintain documentation to establish his or her successful completion of the training and submit a copy of the certificate to Provider Enrollment. The course that meets the requirements outlined by the ACT can be accessed at <a href="http://ar.train.org">http://ar.train.org</a>. If further treatment is needed due to severe periodontal problems, the provider must request prior authorization with a brief narrative.

Prophylaxis and fluoride treatments are each covered once per state fiscal year (July 1 through June 30) for beneficiaries age 21 and over. Topical fluoride treatment or fluoride varnish is covered every six (6) months plus one (1) day for beneficiaries under age 21.

A new specialty code, FC-Fluoride Certification will be tied to provider types 01, 03, 58 and 69. These providers must send proof of their fluoride varnish certification to Provider Enrollment before the specialty code will be added to their file in the MMIS. After the specialty code, FC-Fluoride Certification, is added to the provider's file, the provider will be able to bill for procedure code-D1206, Topical Application of Fluoride Varnish.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

Medicaid does not reimburse for nitrous oxide for examinations, fluorides, oral prophylaxis and sealants unless other procedures are performed at the same time.

A provider may generally perform the following procedures without prior authorization:

- A. Periodic EPSDT screening exam (for beneficiaries under age 21).
- B. Prophylaxis, topical fluoride and/or fluoride varnish.
- Periapical X-rays, amalgam-composite restorations (except four or more surfaces).

D. Pulpotomies for deciduous teeth. (Pulpotomies are not a covered service for beneficiaries age 21 and over.)

E. Chrome crowns on deciduous teeth.

See Sections <u>262.100</u> and <u>262.200</u> for applicable codes.

#### 218.000 Space Maintainers

<del>7-1-09<u>10-1-</u></del> 22<del>1</del>

Space maintainers are covered for beneficiaries under age 21 and require prior authorization. X-rays must be submitted with the request for prior authorization. When submitting a treatment plan or claim for space maintainers, identify the missing tooth in the tooth column on the ADA claim form and submit the X-ray to show the tooth for which the space is maintained. See <a href="Section 262.100">Section 262.100</a> for applicable procedure codes.

Space maintainers are not covered for beneficiaries age 21 and over.

# 219.100 Amalgam Restorations

<del>7-1-09</del>10-1-

Amalgam restorations are to be used on all teeth distal to the cuspids for beneficiaries of all ages. When submitting a claim for amalgam restorations, the tooth (teeth) and all surfaces to be restored must be indicated on the same line with appropriate code and provider fee. Amalgam restorations do not require prior authorization. If a provider chooses to do posterior composites, reimbursement will be given at the amalgam reimbursement rate. See Sections <a href="262.100">262.100</a> and <a href="262.200">262.200</a> for applicable procedure codes.

#### 219.200 Composite Resin Restorations

8-1-13<u>10-1-</u> 221

Composite-resin restorations may be performed for anterior teeth for beneficiaries of all ages. Four or more surface composite-resin restorations require prior authorization. When submitting a claim for composite restorations, the tooth number(s) and all surfaces to be restored must be indicated on the same line with appropriate code and provider fee. **If a provider chooses to do posterior composites, reimbursement will be given at the amalgam reimbursement rate**. See Sections 262.100 and 262.200 for applicable procedure codes.

Only one amalgam or composite restoration per surface is allowed every 2 years.

# 220.000 Crowns - Single Restorations Only

<del>7-1-09</del>10-1-

Crowns are covered for individuals of all ages.

- A. <u>Chrome (Stainless Steel) Crowns</u> The Medicaid Program will cover chrome (stainless steel) crowns on deciduous posterior teeth only as an alternative to two or three surface alloys. Medicaid will cover chrome crowns on permanent posterior teeth only for loss of cuspal function. Stainless steel crowns on deciduous teeth do not require prior authorization. Prior authorization is required for crowns on all permanent teeth.
- B. <u>Anterior Crowns</u> Prefabricated stainless steel or prefabricated resin crowns may be approved for anterior teeth for beneficiaries under age 14. Prior authorization is required, and X-rays must be submitted to substantiate need.
- C. <u>Cast Crowns</u> Medicaid does not cover cast crowns for posterior teeth.
- D. <u>Porcelain-to-Metal Crowns</u> Porcelain-to-metal crowns may be approved only in unusual cases for anterior incisors and cuspids for beneficiaries under age 21. These cases must be submitted for prior authorization (PA) with complete treatment plans for all teeth and

complete series X-rays or panoramic film with bitewings. Photographs are helpful, but are not required.

E. <u>Post and Core in Addition to Crown</u> - Medicaid does not cover core buildups or post and core buildups. This includes an amalgam filling with a stainless steel crown. An exception to this rule may be anterior fractures due to recent trauma in cases that do not involve other extractions, missing teeth or rampant caries in the same arch.

Fillings are not allowed on tooth numbers with crowns within one year of the crown.

See Sections 262.100 and 262.200 for applicable procedure codes.

#### 221.000 Endodontia

7-18-11<u>10-</u> 1-221

Pulpotomy for deciduous teeth may be performed without prior authorization for beneficiaries under age 21. **Pulpotomies are not covered for individuals age 21 and over.** 

Current indications require carious exposure of the pulp. Payment for pulp caps is included in the fee for restorations and is not payable separately.

### Endodontic therapy is not covered for individuals age 21 and over.

To be reimbursed, the completed endo-fill should conform to current standards, that is, complete obturation of all canals to within 1mm to 2mm of radiographic apex.

The fee for endodontic therapy does not include restoration to close a root canal access, but does include films for measurement control and post-op.

Medicaid does not cover endodontic retreatment, apexification, retrograde fillings or root amputation. See Section 262.100 for applicable procedure codes.

#### 222.000 Periodontal Procedures

<del>7-1-09</del>10-1-224

Periodontal treatment is available for beneficiaries of all ages. When periodontal treatment is requested, a brief narrative of the patient's condition, photograph(s) and X-rays are required. Each quadrant to be treated must be indicated on separate lines when requesting prior authorization or payment. Prior authorization will require a report, a periochart, and a complete series of radiographs that reflects evidence of bone loss, numerous 4-5 mm pockets and obvious calculus. See Sections 262.100 and 262.200 for applicable procedure codes.

# 223.000 Removable Prosthetic Services (Full and Partial Dentures, Including Repairs

7-1-12<u>10-1-</u> 221

#### A. Benefits

Full and acrylic partial dentures are covered for beneficiaries of all ages. Full dentures or acrylic partial dentures may be approved for use instead of fixed bridges.

Beneficiaries age 21 and over are allowed only one complete maxillary denture and one complete mandibular denture per lifetime.

Beneficiaries age 21 and over are allowed only one upper and one lower partial per lifetime.

Repairs of dentures and partials are covered but are benefit-limited for beneficiaries age 21 and over. See Sections <u>262.100</u> and <u>262.200</u> for applicable procedure codes.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

#### B. Prior Authorization Requirements

Prior authorization is required for dentures (full or partial) for beneficiaries under the age of 21.

Prior authorization is required for partial dentures for beneficiaries age 21 and over.

Prior authorization is not required for full dentures for beneficiaries age 21 and over.

For dentures that require prior authorization, a complete series of X-rays and a complete treatment plan, including tooth numbers to be replaced by partial dentures, must be submitted with prior authorization requests. See Sections <a href="262.100">262.100</a> and <a href="262.200">262.200</a> for further information regarding prior authorization for dentures.

Prior authorization is required for repairs of dentures and partials for eligible beneficiaries of all ages. A history and date of original insertion must be submitted with the prior authorization request. See Sections <u>262.100</u> and <u>262.200</u> for applicable procedure codes.

#### Required Process for Submitting Adult Dentures and Partials to Dental Lab

For eligible Medicaid beneficiaries age 21 and over, all dentures, whether full or partial, must be manufactured by the Medicaid-contracted dental lab. View or print contact information for Medicaid Dental Contractor.

When Medicaid issues a prior authorization for partial dentures for a beneficiary age 21 and over, the Dental Lab Request Form with the prior authorization number is returned to the dental provider's office. When the dental provider receives the prior authorization, the authorization will be for a maximum of six (6) (three upper and three lower) limited oral evaluations/problem-focused visits (D0140) along with authorization for the diagnostic casts (D0470). The dental provider must then send the Medicaid-contracted dental lab the completed Dental Lab Request Form with the prior authorization number and models to make the adult partial dentures. If the dental lab does not receive the Dental Lab Request Form, the lab will make the partial dentures and bill directly to the dental provider's account, and there will be no payment by Medicaid. View or print contact information for Medicaid Dental Contractor.

Though prior authorization is not required for full dentures for beneficiaries age 21 and over, the dental provider must send the Dental Lab Request Form and models directly to the Medicaid-contracted dental lab. The Dental Lab Request Form must clearly indicate that the beneficiary is a Medicaid beneficiary and the dentures are being requested pursuant to the Medicaid benefit plan. If the dental lab does not receive the request form, the lab will make the full dentures and bill directly to the dental provider's account, and there will be no payment by Medicaid. The dental provider will be reimbursed for a maximum of six (6) (three upper and three lower) limited oral evaluations/problem-focused (D0140) visits and two (2) (one upper and one lower) diagnostic casts (D0470). View or print contact information for Medicaid Dental Contractor.

#### D. Patient Consent

Dental offices that render a patient edentulous must also fabricate dentures for the patient. If the patient has indicated that he or she is willing to pay out of pocket to have the dentures fabricated by the dental office and not through the contracted Medicaid Dental Lab, then the dental office must secure the patient's written consent on a form to be designed by the dental office and maintained in the patient's record. Beneficiaries who purchase dentures outside of the Medicaid dental program remain eligible for the Medicaid once-in-a-lifetime denture benefit.

225.100 Simple Extraction

<del>7-1-09</del>10-1-224

Simple extractions may be performed without prior approval. Simple extractions of 3rd molars do not require prior authorization.

When a simple extraction evolves into a surgical extraction, providers must write a brief explanation of the circumstances if the problem is not indicated on the X-ray. Normally, surgical extractions imply sectioning, suturing and bone removal or any combination of these procedures. Providers must submit the claim, with the X-ray, for authorization and payment to the Division of Medical Services Dental Care Unit. View or print the Division of Medical Services Dental Care Unit contact information. See Sections 262.100 and 262.200 for applicable procedure codes.

#### 225,200 **Surgical Extractions**

9-1-1310-1-

Surgical extractions for beneficiaries of all ages require prior authorization and X-rays to substantiate need. The dental consultant may require a second opinion when reviewing treatment plans for extractions.

Surgical extractions performed on an emergency basis (See Section 234.000) for relief of pain may be reimbursed subject to the approval of a Medicaid dental consultant. In these cases, the claim with X-ray and a brief explanation should be submitted to the Division of Medical Services Dental Care Unit. View or print the Division of Medical Services Dental Care Unit contact information.

For beneficiaries under the age of 21, the fee for surgical extraction includes local anesthesia and routine post-operative care. See Sections 262.100 and 262.200 for applicable procedure codes. Anesthesia is not a covered service for beneficiaries 21 and over.

#### 225.300 **Traumatic Accident**

7-1-0910-1-224

In cases of traumatic accident and when time is of prime importance, the dental provider may perform the necessary procedure(s) immediately. The procedure code chart found in Sections 262.100 and 262.200 identifies the procedures that may be billed "By Report" and those which must be prior authorized before reimbursement may be made. The chart also indicates the procedures that require submission of X-rays. Pre- and post-operative X-rays, if requested, must be made available to the Division of Medical Services.

#### 225.500 **Deep Sedation and General Anesthesia**

8-1-1310-1-

Providers administering general anesthesia services must possess the appropriate permit as required by Arkansas law. Services performed in the dental office must be documented in the patient's record to include specific information on intubation, pharmacologic agents and amounts used, monitoring of vital signs and total anesthesia time. Prior authorization is required for deep sedation and general anesthesia procedures. General anesthesia and intravenous sedation will not be reimbursed for periods of time in excess of two (2) hours. D9220 and D9248 aAre not allowed on the same day.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

These codes are subject to post payment review; therefore, providers should be prepared to justify utilization of these procedures and the amount of time patients were kept under deep sedation and general anesthesia.

227.000 **Professional Visits** 7-1-0910-1-

Professional visits are payable if prior authorized. Because it is not always possible to plan these calls, the provider should submit a claim with a concise explanation of the circumstances. These visits are subject to review by the dental consultant.

When a treatment is necessary and no procedure code is applicable, a written explanation of the treatment and the usual and customary fee charged to a private patient must be submitted to the Medicaid Program. The dental consultant will stipulate an exact fee to be paid if the treatment is authorized. See Sections 262.100 and 262.200 for applicable procedure codes.

262.100 ADA Procedure Codes Payable to Beneficiaries Under Age 21

8-1-14<u>10-1-</u>

The following ADA procedure codes are covered by the Arkansas Medicaid Program. These codes are payable for beneficiaries under the age of 21.

View or print the Dental services procedure codes for covered beneficiaries.

<u>For dental services provided by dental managed care providers, please see the respective provider's manual.</u>

NOTE: Only physicians who have completed the training on dental caries and have an approved fluoride varnish certification on file with Provider Enrollment can bill for the fluoride varnish treatment. Eligible physicians may delegate the application to a nurse or other licensed healthcare professional under his or her supervision that has also completed the online training. Providers must check the Supplemental Eligibility Screen to verify that topical fluoride treatment or fluoride varnish was not applied by another Medicaid dental provider.

Beside each code is a reference chart that indicates whether X-rays are required and when prior authorization (PA) is required for the covered procedure code. If a concise report is required, this information is included in the PA column.

- \* Revenue code
- \*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the covered service.
- \*\* Prior authorization is required for panoramic X-rays performed on children under six years of age (See Section 216.100).

## 262.200 ADA Procedure Codes Payable to Medically Eligible Beneficiaries Age 21 and Older

8-1-13<u>10-1-</u> 224

The following list shows the procedure code, procedure code description, whether or not prior authorization is required, whether an X-ray should be submitted with a treatment plan and if there is a benefit limit on a procedure.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

The column titled **Benefit Limit** indicates the benefit limit, if any, and how the limit is to be applied. When the column indicates "**Yes**, **\$500.00**", then that item, when used in combination with other items listed, cannot exceed the \$500.00 Medicaid maximum allowable reimbursement limit for the state fiscal year (July 1 through June 30). **Other limitations** are also shown in the column (i.e.: **1 per lifetime**). If "**No**" is shown, the item is not benefit limited.

NOTE: The use of the symbol, &, along with text in parentheses, indicates the Arkansas Medicaid description of the product.

262.400 Billing Instructions – ADA Claim Form - Paper Claims Only

3-1-21<u>10-1</u>

22

Dental providers must complete the ADA claim form when:

- A. Billing for services when using the ADA procedure codes
- B. Requesting prior authorization
- C. Approving prior authorization
- D. Requesting prior authorization for all orthodontic services

For prior authorizations, the provider should send the ADA claim form to the Arkansas Division of Medical Services Dental Care Unit. <u>View or print the Division of Medical Services Dental</u> <u>Care Unit contact information.</u>

Claims submitted on paper will be paid only once a month. The only claims exempt from this process are those that require attachments or manual pricing.

The same ADA claim form on which the treatment plan was submitted to obtain prior authorization must be used to submit the claim for payment. If this is done, the header information and the "Request for Payment for Services Provided" portions of the form are to be completed.

The provider should carefully read and adhere to the following instructions so that claims can be processed efficiently. Accuracy, completeness and clarity are important. Claims cannot be processed if applicable information is not supplied or is illegible. Claims should be typed whenever possible. Handwritten claims must be completed neatly and accurately.

If this form is being used to request Prior Authorization, it should be forwarded to the Division of Medical Services Medical Assistance Attention Dental Services. <u>View or print the Division of Medical Services Dental Unit contact information.</u>

Completed claim forms should be forwarded to the Claims Department. View or print the Claims Department contact information.

To bill for dental or orthodontic services, the ADA claim form must be completed. The following numbered items correspond to the numbered fields on the claim form. <u>View or print form ADA-J430.</u>

NOTE: A provider rendering services without verifying eligibility for each date of service does so at the risk of not being reimbursed for the services.

#### **COMPLETION OF FORM**

| Field Number and Name   | Instructions for Completion   |  |  |  |  |
|---|---|--|--|--|--|
| HEADER INFORMATION  |   |  |  |  |  |
| 1. Type of Transaction  | Check one of the following:  Statement of Actual Services EPSDT/Title XIX Request for Predetermination/Preauthorization   |  |  |  |  |
| Predetermination/     Preauthorization Number   | If the procedure(s) being billed requires prior authorization and authorization is granted by the Medicaid Dental Program, enter the 10-digit PA control number assigned by the Medicaid Program. |  |  |  |  |
| INSURANCE COMPANY/DENTAL  | BENEFIT PLAN INFORMATION  |  |  |  |  |
| 3. Company/Plan Name,<br>Address, City, State, Zip Code                                       | Enter the carrier's name and address.   |  |  |  |  |
| OTHER COVERAGE  |   |  |  |  |  |
| 4. Dental? Medical?   | Check the applicable box and complete items 5-11. If none, leave blank. (If both, complete 5-11 for dental only.)   |  |  |  |  |
| 5. Name of Policyholder/Subscriber in #4.   | Enter Policyholder/Subscriber's name. Format: Last name, first name.  |  |  |  |  |

|      |   | 11–Office<br>12–Home<br>21–Inpatient Hospital<br>22–Outpatient Hospital<br>31–Skilled Nursing Facility<br>32–Nursing Facility  |  |  |  |
|      |   | The full list is available online at <a href="http://www.cms.gov/PhysicianFeeSched/Downloads/Website">http://www.cms.gov/PhysicianFeeSched/Downloads/Website</a> POS database.pdf.   |  |  |  |
| 39.  | Enclosures (Y or N)   | If there are enclosures such as radiographs, oral images or models, enter Y for Yes. If there are no enclosures, enter N for No.   |  |  |  |

| Field Number and Name  | Instructions for Completion  |
|--|--|
| 40. Is Treatment for Orthodontics?                           | Check No or Yes. If No, skip items 41 and 42. If Yes, complete items 41 and 42.  |
| 41. Date Appliance Placed                                    | Enter date appliance placed. Format: MM/DD/CCYY.   |
| 42. Months of Treatment Remaining                            | Enter months of orthodontic treatment remaining.   |
| 43. Replacement of Prosthesis                                | Check No or Yes. If Yes, complete item 44.   |
| 44. Date of Prior Placement                                  | Enter the date of prior placement of the prosthesis. Format: MM/DD/CCYY.   |
| 45. Treatment Resulting from                                 | Check one of the following, if applicable: Occupational illness/injury Auto accident Other accident  |
|  | If item 45 is applicable, complete item 46. If item 45 is "Auto accident," also complete item 47.  |
| 46. Date of accident   | Enter date of accident. Format: MM/DD/CCYY.  |
| 47. Auto Accident State                                      | Enter two-letter abbreviation for state in which auto accident occurred.   |
| BILLING DENTIST OR DENTAL Exploriting claim on behalf of the | NTITY (Leave blank if dentist or dental entity is not patient or insured/subscriber.)  |
| 48. Name, Address, City, State,<br>Zip Code                  | Enter the name and address of the billing dentist or dental entity.  |
| 49. NPI  | Required.  |
| 50. License Number   | Optional.  |
| 51. SSN or TIN   | Optional.  |
| 52. Phone Number   | Enter the 10-digit telephone number of the billing dentist or dental entity, beginning with area code.   |
| 52a. Additional Provider ID                                  | Enter the Dentist or Oral Surgeon's 9-digit Arkansas Medicaid billing provider number. The provider number should end with "08" for an individual Dentist number or "31" for a Dental group. The provider number should end in "79" for an individual Oral Surgeon number or "80" for an Oral Surgeon group.   |
| TREATING DENTIST AND TREAT                                   | MENT LOCATION INFORMATION  |
| 53. Certification  | The provider or designated authorized individual must sign and date the claim form certifying that the services were personally rendered by the provider or under the provider's direction. "Provider's signature" is defined as the provider's actual signature, a rubber stamp of the provider's signature, an automated signature, a typewritten signature or the signature of an individual authorized by the provider rendering the service. The name of a clinic or group is not acceptable. |
| 54. NPI  | Required.  |
| 55. License Number   | Optional.  |

| Field Number and Name              | Instructions for Completion   |
|------------------------------------|---|
| 56. Address, City, State, Zip Code | Enter the complete address of the treating dentist.   |
| 56a. Provider Specialty Code       | Indicates the type of dental professional who delivered the treatment. The general code listed as "Dentist" may be used instead of any of the other codes. For a complete list of codes, see the Provider Specialty table in the instructions accompanying the ADA-J430 claim form. View or print form ADA-J430.                        |
| 57. Phone Number                   | Enter the 10-digit telephone number of the treating dentist, beginning with area code.  |
| 58. Additional Provider ID         | If the billing provider number in Field 52a is a group or clinic ending in "31" for Dentists or "80" for Oral Surgeons, the individual provider number must be entered for the provider rendering the service. The provider number should end with "08" for an individual Dentist number or "79" for an individual Oral Surgeon number. |

## 262.500 Special Billing Procedures for ADA Claim Form

<del>7-1-09<u>10-1-</u> 221</del>

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

- A. Each procedure must be shown on a separate line, such as:
  - 1. Extractions
  - 2. Upper partials
  - 3. Lower partials
  - 4. Upper denture relines
  - 5. Lower denture relines
- B. When a complete intraoral series is made for beneficiaries under age 21, the dentist must use procedure code <del>D0210</del>-rather than indicating each intraoral film on a separate line.
- C. When submitting a claim for an intraoral single film, indicate the middle tooth number. Procedure code D0220-must be used for the first film and procedure code D0230-for each additional single film. Medicaid will only cover the complete series or the submitted group of individual X-rays. X-rays are to be mounted, marked R and L, labeled with the dentist's provider number and the beneficiary identification number and stapled to the back of the claim form.
- D. Post-operative X-rays must accompany all claims with root canals for beneficiaries under age 21. The claim and X-rays should be sent to the Arkansas Division of Medical Services Dental Care Unit. View or print the Division of Medical Services Dental Care Unit contact information.
- E. Prophylaxis and fluoride must be indicated on the same line of the form using code D1201. If prophylaxis and fluoride are submitted as separate procedures, they will be combined on the claim before processing them for payment.

F. Indicate the tooth number when submitting claims for code D0220 and D0230, intraoral single film. When a complete series is made for beneficiaries under age 21, providers must use code D0210 rather than indicating each tooth on a separate line.

- G. Upper and lower full dentures must be billed on a separate line, using the appropriate code for upper or lower dentures.
- H. The ADA claim form on which the treatment plan was submitted to obtain prior authorization may be used to submit the claim for payment. If this is done, only the Request for Payment portion of the form is to be completed. If not, a new form may be used with the prior authorization control number indicated in Field 9 of the claim form. If a new form is used, the patient and provider data and the request for payment sections must be completed.
- I. Use procedure code D1110 for prophylaxis-adult, ages 10 through 99, and procedure code D1120 for prophylaxis-child, ages 0 through 9.

#### 263.100 CPT Procedure Codes

<del>12-9-11</del><u>10-</u> <u>1-221</u>

The provider should carefully read and adhere to the following instructions so that claims may be processed efficiently. Accuracy, completeness and clarity are important. Claims cannot be processed if applicable information is not supplied or is illegible. Claims should be typed whenever possible. Handwritten claims must be completed neatly and accurately.

- A. If these procedures are the result of a Child Health Services (EPSDT) screen/referral, enter "E" in Field 24H.
- B. These procedures are restricted to the following places of service: inpatient hospital, outpatient hospital, doctor's office, patient's home, nursing home and skilled nursing facility.
- C. Radiology procedures are payable only in the dentist's office. The place of service (POS) codes may be found in Section 262.300 of this manual. <a href="https://example.com/thesample.com/">These services require a PCP referral.</a>

The claim form CMS-1500 must be used by dentists billing the Medicaid Program for these medical procedures. Each service must be billed on a separate form. See Section 263.300 for complete billing instructions.

- A. When billing for extractions (procedure code 41899), a listing of teeth extracted by date, tooth number and ADA code number must be attached.
- B. Beneficiaries in the Child Health Services (EPSDT) Program are not benefit limited.

View or print the Dental services procedure codes for covered beneficiaries.

|      | b. (blank)                            | Enter the 9-digit Arkansas Medicaid provider ID number of the billing provider.   |  |  |

## 263.400 Special Billing Procedure for the CMS-1500 Claim Form

<del>7-1-07</del><u>10-1-</u> <u>221</u>

CPT-4 procedure codes must be billed on the CMS-1500 claim form by dentists enrolled in the Medicaid Program when the procedure is provided to an eligible Medicaid beneficiary and is medically necessary. <u>View a CMS-1500 sample form.</u> These procedure codes and their descriptions are located in the *American Medical Association Current Procedural Terminology (CPT)*. Refer to Section III for information on how to purchase a copy of this publication.

NOTE: Procedure code 99238 (Hospital Discharge Day Management) is payable for medical services. Procedure code 99238 may not be billed by providers in conjunction with an initial or subsequent hospital care code (procedure codes 99221 through 99233). Initial hospital care codes and subsequent hospital care codes may not be billed on the day of discharge.

NOTE: Covered CPT-4 procedure codes listed in this section are covered by Medicaid for eligible beneficiaries of all ages. The Arkansas Medicaid ADA Procedure Codes are covered only for eligible beneficiaries under the age of 21 years participating in the Child Health Services (EPSDT) Program.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

#### **263.410** Multiple Quadrants Billing Instructions

<del>7-1-07</del>10-1-221

When billing for multiple applications of any of the following procedures on the same date of service in varying quadrants of a patient's mouth, indicate the number of quadrants (1, 2, 3, 4) in Field 24G:

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

| D1120 41872 4187 |
|------------------|
|------------------|

263.420 Anesthesia Services 7-1-07<u>10-1-</u>

Anesthesia services are billed using the CMS-1500 claim format.

A. The Arkansas Medicaid Program covers the anesthesia procedure codes (code range 00100 through 01999) listed in the Current Procedural Terminology (CPT-4) code book.

- B. Providers must bill anesthesia time.
- C. Providers must use anesthesia modifiers P1 through P5 as listed in the CPT manual.
- D. Providers may bill electronically unless paper attachments are required.
- E. When providers bill on paper, any applicable modifier(s) are also required.

The procedure code and the time involved must be entered in Field 24D. The number of units (each 15 minutes, or portion thereof, of anesthesia equals 1 time unit) must be entered in Field 24G.

The procedure code listed under the "Qualifying Circumstances" in the Anesthesia Guidelines in the CPT requires medical care services. When surgical field avoidance is a qualifying factor of the anesthesia service, the provider must bill, in addition to the basic anesthesia procedure code, modifier 22, and must bill "1" unit of service.

Procedure code 00170 may be billed by oral surgeons for anesthesia for inpatient or outpatient dental surgery using place of service code 24, 21, 22, or 11, as appropriate. The code does not require prior approval for anesthesia claims.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

#### 263.421 Anesthesia Procedure Codes

<del>7-1-07</del>10-1-224

Oral surgeons must use the following anesthesia procedure codes when billing on paper.

View or print the Dental services procedure codes for covered beneficiaries.

For dental services provided by dental managed care providers, please see the respective provider's manual.

| 00100 | 00102 | 00103            | 00140 | 00160            | <del>00162</del> | 00164 | 00170 |
|-------|-------|------------------|-------|------------------|------------------|-------|-------|
| 00172 | 00174 | <del>00176</del> | 00190 | <del>00192</del> | 00300            |       |       |

### **TOC** not required

#### 214.300 Foster Care Intake Physical Examination in the EPSDT Program

10-1-08224

Arkansas Medicaid beneficiaries entering the Arkansas foster care system are required to receive an intake physical examination within the first seventy two (72) hours. If the EPSDT provider who performs the screening is not the beneficiary's PCP, the intake physical examination should be billed with procedure codes 99381-99385 and modifiers EP and H9.

<u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

Billing with these procedure codes and modifiers will allow the claim to be submitted for payment without a referral from the beneficiary's PCP and will alert the system not to count the screen toward the beneficiary's yearly EPSDT periodic complete medical screening limits.

If the EPSDT provider who performs the screen <u>is</u> the beneficiary's PCP, the intake physical exam should be billed with procedure codes <del>99391-99395</del> and modifiers **EP** and **H9**. Billing with these procedure codes and modifiers will allow the claim to be submitted for payment and will not count toward the beneficiary's yearly EPSDT periodic complete medical screening limits.

Procedure codes 99381-99385 and 99391-99395, in conjunction with the EP and H9 modifiers, are to be used only for the required intake physical examination for Medicaid beneficiaries in the Arkansas foster care system.

## 215.100 Schedule for Child Health Services (EPSDT) Medical/Periodicity Screening

<del>1-1-20</del>10-1-221

The periodic EPSDT screening schedule has been changed in accordance with the most recent recommendations of the American Academy of Pediatrics.

From birth to 15 months of age, children may receive six (6) periodic screens in addition to the newborn screen performed in the hospital.

Children age 15 months to 24 months of age may receive two (2) periodic screens. Children age 24 months to 30 months may receive one (1) periodic screen, and children 30 months to 3 years old may receive one (1) periodic screen.

When a child has turned 3 years old, the following schedule will apply. There must be at least 365 days between each screen listed below for children age 3 years through 20 years.

## Age

| 3 years | 8 years  | 13 years | 18 years |
|---------|----------|----------|----------|
| 4 years | 9 years  | 14 years | 19 years |
| 5 years | 10 years | 15 years | 20 years |
| 6 years | 11 years | 16 years |          |
| 7 years | 12 years | 17 years |          |

Most medical and hearing screens for children require a PCP referral before the screens may occur. Routine newborn care, vision screens, dental screens and immunizations for childhood diseases do not require PCP referral. See <u>Section 242.100</u> for procedure codes.

A health and developmental history should be obtained from the parent or other responsible adult who is familiar with the child's health history. The child's height and weight should also be recorded and compared with the ranges considered normal for children of that age. See <a href="Section 242.100">Section 242.100</a> for procedure codes.

#### 215.220 Unclothed Physical Examination

10-13-03<sub>-</sub> 224

An unclothed physical examination should be performed to note obvious physical defects including orthopedic, genital, skin, and other observable deviations. If there is evidence that the child has been physically abused, this should be reported to the authorities according to state law requirements. See <u>Section 242.100</u> for procedure codes.

#### 215.230 Developmental Assessment

10-13-03<sub>-</sub> 224

A developmental assessment should be obtained by history and observation of the child or by one of the developmental tests. This portion of the screening could include assessment of eyehand coordination, gross motor function (walking, hopping, climbing), fine motor skills (use of finger dexterity and hand usage), speech development, daily living personal skills such as dressing, feeding and grooming oneself, behavioral development and proofs of mind with body integration. See <a href="Section 242.100">Section 242.100</a> for procedure codes.

#### 215.240 Visual Evaluation

<del>1-15-11<u>10-</u> 1-21</del>2

A visual evaluation is required for all children receiving Child Health Services (EPSDT) screening. The age-specific procedures (Section 216.000) may be helpful to determine the necessary procedures according to the child's age. This screening does not require Titmus machine or other ophthalmological testing. Subjective testing may be provided as part of a vision screening. See <a href="Section 242.100">Section 242.100</a> for procedure codes.

#### 215.250 Hearing Evaluation

10-13-03<sub>-</sub> 224

A hearing evaluation is required for all children receiving a Child Health Services (EPSDT) screening. The age-specific procedures (Section 217.000) may be helpful to determine the necessary procedures according to the child's age. This screening does not require machine audiology testing. Subjective testing may be provided as part of a hearing screening. See <a href="Section 242.100">Section 242.100</a> for procedure codes.

#### 215.260 Oral Assessment

10-13-03-

An oral assessment is considered part of the full Child Health Services (EPSDT) screening. A referral to a dentist for an oral screen is offered beginning at childbirth. See <u>Section 242.100</u> for procedure codes.

## 215.270 Laboratory Procedures (CPT Codes)

<del>3-1-14</del><u>10-1-</u> 224

Laboratory procedures should be performed as appropriate for the child's age and population group. See Sections 215.310 through 215.340 for age and testing recommendations. See Section 219.000 for specific blood lead testing and <a href="Section 242.150">Section 242.150</a> for CPT codes.

215.280 Nutritional Assessment

<del>10-13-03-</del>

Physical and laboratory determinations carried out in the screening process will usually yield information useful in assessing nutritional status. A child having any detectable nutritional deficiencies should be treated or referred to the proper resource for counseling. This component of the medical screen is included in the full Child Health Services (EPSDT) screening. See <a href="Section 242.100">Section 242.100</a> for procedure codes.

#### 215.290 Health Education

<del>2-1-20</del>10-1-221

Health education is a required component of screening services and includes anticipatory guidance. The developmental assessment, comprehensive physical examination, visual, hearing or dental screening provides the initial opportunity for providing health education. Health education and counseling to parents (or guardians) and children are required. Health education and counseling are designed to assist in understanding what to expect in terms of the child's development and to provide information about the benefits of healthy lifestyles and practices, as well as accident and disease prevention. See Section 242.100 for procedure codes.

Health education can include but isn't limited to tobacco cessation counseling services to the parent/legal guardian of the child.

## A. Counseling Visits:

View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.

| Current<br>Procedure<br>Code | Gurrent<br>Modifier | Arkansas Medicaid Description  |
|------------------------------|---------------------|--|
| 99406*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intermediate, 15 minutes)   |
| <del>99406*</del>            | <del>CG</del>       | ** (Smoking and tobacco use cessation counseling visit, intermediate, 15 minutes provided to parents of children birth through twenty (20) years of age) |
| 99407*                       | SE                  | *(Smoking and tobacco use cessation counseling visit; intensive, 30-minutes)   |
| 99407*                       | <del>CG</del>       | ** (Smoking and tobacco use cessation counseling visit, intensive, 30-minutes provided to parents of children birth through twenty (20) years of age)    |

<sup>\*</sup> Exempt from PCP referral requirements.

- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.
- B. Referral of patient to an intensive tobacco cessation referral program.
- C. Can be billed in addition to an office visit or EPSDT.
- D. If the beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counseling sessions limit described in section C above.
- E. These counseling sessions do NOT require a PCP referral.

F. The provider must complete the counseling checklist and place in the patient records for audit. View or Print the Arkansas Be Well Referral Form.

Refer to Section 257.000 and Section 292.900 of the Physician's manual for more information.

#### 216.000 Vision Screen

4<del>-1-09</del>10-1-224

An EPSDT periodic complete medical screen includes both hearing and vision screens. Providers must not bill an EPSDT periodic vision or hearing screen on the same day, or within seven (7) days of an EPSDT periodic complete medical screen by the same or different providers. The above combinations represent a duplication of services.

The provider must administer an age-appropriate vision assessment. See <u>Section 242.100</u> for procedure codes.

Vision services are subject to their own periodicity schedule; however, when the periodicity schedule coincides with the schedule for periodic complete medical screen-, vision screens must be included as part of the required minimum periodic complete medical screening services. Vision screens are exempt from the PCP referral requirement.

See Sections 215.310 through 215.340 for the age-specific vision screening periodicity schedule.

At a minimum, vision services include diagnosis and treatment for defects in vision, including eyeglasses.

### 218.000 Dental Screening Services

10-13-03<sub>-</sub> 224

Although an oral assessment may be part of a medical screen, it does not substitute for examination through direct referral to a dentist. A direct dental referral is required for every child once per state fiscal year (July 1 through June 30). See **Section 242.100** for procedure codes.

A Child Health Services (EPSDT) interperiodic dental screen may be completed as often as medically necessary, but must be prior authorized in order for the claim to be paid. Refer to Section 220.000 for an explanation of the prior authorization process.

Dental screens are exempt from the primary care provider (PCP) referral requirement.

#### **Dental Services**

At a minimum, dental services include relief of pain and infections, restoration of teeth and maintenance of dental health. Dental services may not be limited to emergency services. The periodicity schedule for other EPSDT services may not govern the schedule for dental services.

A child should receive his or her first dental screen examination within 6 months after eruption of the first primary tooth but no later than 12 months of age.

#### 220.000 PRIOR AUTHORIZATION

<del>1-15-11</del><u>10-</u> 1-2<del>1</del>2

Prior authorization is required for the interperiodic dental screen and must be requested on the ADA claim form. Refer to the Dental Provider Manual for details regarding the prior authorization process. See <u>Section 242.100</u> for procedure codes.

#### 242.100 Procedure Codes

<del>2-1-20</del>10-1-22<del>1</del>

The table below contains procedure codes, the associated modifiers to be used with the individual code, and a description of each EPSDT service.

# <u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

| Procedure<br>Code             | Modifier 1    | Modifier 2    | Description   |

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.

Other coding information found in the chart:

- <sup>1</sup> Exempt from PCP referral requirements
- <sup>2</sup> Covered when specimen is referred to an independent lab

Electronic and paper claims require use of modifiers. When filing paper claims for a Child Health Services (EPSDT) screening service, the applicable modifier must be entered on the claim form.

See Section 212.000 for Child Health Services (EPSDT) screening terminology.

#### **NOTES**

- A. Arkansas Medicaid is no longer able to process both a sick visit and an EPSDT screening visit when performed on the same date of service without the appropriate modifier (Modifier 25). Modifier 25 must be indicated in the first position of the second billed service. This change surpasses the Medicaid policy to not bill modifiers on a sick visit when performed on the same date of service as an EPSDT screening.
- B. New born screenings can be performed by a Certified Nurse Midwife or Nurse Practitioner without a PCP referral.
- C. Procedure codes 99381-99385 and 99391-99395, used in conjunction with the EP and H9 modifiers, are to be used only for the required intake physical examination for Medicaid beneficiaries in the Arkansas foster care system. (See Section 214.300 for more information.)
- D. Claims for EPSDT medical screenings must be billed electronically or by using the CMS-1500 claim form. 99460, 99461, and 99463 mMay be billed on the CMS-1500 claim form, by paper or electronically. (View or print a CMS-1500 sample form.) 99460, 99461 and 99463 mMay also be billed as EPSDT in the electronic transaction format or on the CMS-1500 paper form.
- E. Laboratory/X-ray and immunizations associated with a Child Health Services (EPSDT) screen may be billed on the CMS-1500 claim form.
- F. Immunizations and laboratory tests may be billed separately from comprehensive screens.
- G. The verbal assessment of lead toxicity risk is part of the complete Child Health Services (EPSDT) screen. The cost for the administration of the risk assessment is included in the fee for the complete screen.
- H. T1502 mMay be used for billing in the office place of service (11) for the administration of subcutaneous or IM injections ONLY when the provider administers, but does not supply the drug.
  - 1. T1502 cCannot be billed when the medication is administered orally. No fee is billable for drugs administered orally.
  - 2. T1502 cCannot be billed to administer any medication given for family planning purposes.
  - 3. T1502 cCannot be billed when the drug administered is not FDA approved.
- I. Procedure code-99070 is payable to physicians for supplies and materials (except eyeglasses), provided by the physician over and above those usually included with the office visit or other services rendered. Procedure code-99070 must not be billed for the provision of drug supply samples and may not be billed on the same date of service as a surgery code. Claims require National Place of Service code "11". Procedure code-99070 is limited to beneficiaries under age twenty-one (21).

1<del>0-1-15</del>221

#### 242.110 Newborn Care

For routine newborn care following a vaginal delivery or C-section, procedure code 99460, 99461 or 99463 should be used one time to cover all newborn care visits by the attending physician. Payment of these codes is considered a global rate and subsequent visits may not be billed in addition to codes 99460, 99461 and 99463.

<u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

These procedure codes include the physical exam of the baby and the conference(s) with the newborn's parent(s), which is considered to be the initial newborn care/EPSDT screen in hospital. These procedure codes should not be used for illness care (e.g. neonatal jaundice). Providers may refer to the physician manual for necessary illness codes.

Note the descriptions, modifiers, and required diagnosis range. The newborn care procedure codes require a modifier or modifiers and a primary detail diagnosis for all providers (View ICD Codes.) Refer to the appropriate manual(s) for additional information about newborn screenings.

## 242.120 Billing Exceptions

10-1-<del>15</del>22<del>1</del>

<u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

All EPSDT procedure codes must be billed on the CMS-1500 claim form with the following exceptions.

## A. Dental Billing

- 1. Procedure code <del>D0120</del> must be billed on the American Dental Association (ADA) claim form. <u>View or print the ADA claim form.</u>
- 2. Prior authorization for procedure code <del>D0140</del> must be requested on the ADA claim form.
- 3. Procedure code D0140 for an interperiodic dental screen must be billed on the ADA claim form.
- B. When billing EPSDT screening codes, providers are not limited to the following diagnosis codes: (View ICD Codes.) The newborn care procedure codes require a modifier or modifiers and a primary detail diagnosis (View ICD Codes.)

## 242.140 Vaccines for Children Program

3-15-15<u>10-</u> 1-2<del>1</del>2

The Vaccines for Children (VFC) Program was established to generate awareness and access for childhood immunizations. To enroll in the VFC Program, contact the Arkansas Department of Health. Providers may also obtain the vaccines to administer from the Arkansas Department of Health. View or print Arkansas Department of Health contact information.

Vaccines available through the VFC program are covered for Medicaid-eligible children. Only the administrative fee is reimbursed. When filing claims for administering VFC vaccines, providers must use the CPT procedure code for the vaccine administered. Electronic and paper claims require modifiers **EP** and **TJ**.

All procedure codes under the VFC program must be billed electronically or on paper, using either the CMS-1500 claim form or the CMS-1450 claim form.

Medicaid policy regarding immunizations for adults remains unchanged by the VFC program.

Providers may consult the Physician's manual to view the list of vaccines that are non-VFC but are covered for beneficiaries who are 19 and 20 years of age. The following list contains the vaccines available through the VFC program.

242.141 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-22<del>1</del>

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.

<u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description, the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.

- Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
- 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
- 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
- 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

## 242.150 Limitation for Laboratory Procedures Performed as Part of EPSDT 3-1-1410-1-Screens 221

Child Health Services (EPSDT) screens do not include laboratory procedures unless the screen is performed by the beneficiary's primary care physician (PCP) or is conducted in accordance with a referral from the PCP.

The following tests are exempt from this limitation and may continue to be billed in conjunction with an EPSDT screen performed in accordance with existing Medicaid policy:

View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.

| Procedure | Description   |
|-----------|---|
| Code      |   |
| 81000     | Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, with microscopy    |
| 81001     | Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; automated, with microscopy        |
| 81002     | Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, without microscopy |
| 83020     | Hemoglobin, electrophoresis (e.g., AZ, S, C)  |
| 83655     | Lead  |
| 85013     | Blood count; spun microhematocrit   |
| 85014     | Blood count; other than spun hematocrit   |
| 85018     | Blood count, hemoglobin   |
| 86580     | Skin test; tuberculosis, intradermal  |

Claims for laboratory tests, other than those specified above, performed in conjunction with an EPSDT screen will be denied, unless the screen is performed by the PCP or in accordance with a referral from the PCP.

The following screens will be affected by this policy.

| Procedure<br>Code | Modifier 1    | Modifier 2    | Description  |
|-------------------|---------------|---------------|--|
| 99381-99385       | <del>EP</del> | <del>U1</del> | EPSDT Periodic Complete Medical Screen (New Patient)         |
| 99391-99395       | <del>EP</del> | <del>U2</del> | EPSDT Periodic Complete Medical Screen (Established Patient) |

#### 242.300 Billing Instructions – Paper Only

<del>11-1-17</del><u>10-</u> 1-221

To bill for a Child Health Services (EPSDT) screening service, use the CMS-1500 claim form. The numbered items correspond to numbered fields on the claim form. See Section 242.310 for paper billing instructions. View or print a sample CMS-1500 form.

Each screening should be billed separately, providing the appropriate information for each of the screening components.

<u>View or print the procedure codes and modifiers for Child Health Services/Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services.</u>

With the exception of codes 99201-99215 (office medical services), 99341-99353 (home medical services) and 99221-99223, 99431, 99231-99233 and 99238 (hospital inpatient medical services), specific procedures may be used at the provider's discretion as long as the federally-mandated components (refer to Section 215.000) have been included in the screening package.

Medical services such as immunizations and laboratory procedures may also be billed on the CMS-1500 when provided in conjunction with a Child Health Services (EPSDT) screening, as well as other treatment services provided.

Claims for Child Health Services (EPSDT) dental services are to be billed on the ADA claim form. For dental screening to be paid, the ADA claim form must be completed and the box marked "child" in Field 2 must be checked.

Claims for Child Health Services (EPSDT) visual services are to be billed on the CMS-1500 claim form. The numbered items correspond to numbered fields on the claim form. See Section 242.310 for paper billing instructions. View or print a sample CMS-1500 form.

Carefully follow these instructions to help the Arkansas Medicaid fiscal agent efficiently process claims. Accuracy, completeness and clarity are essential. Claims cannot be processed if applicable information is omitted. Claims should be typed whenever possible.

Forward completed claim forms to the Claims Department. View or print the Claims Department contact information.

NOTE: A provider delivering services without verifying beneficiary eligibility for each date of service does so at the risk of not being reimbursed for the services.

**TOC** not required

#### 262.110 FQHC Encounter Service

<del>11-1-17<u>10-</u></del> 1-22<del>1</del>

FQHCs bill Medicaid for a core services encounter (which includes all services and supplies incident to the encounter) with procedure code—T1015, "FQHC Encounter Service."

## View or print the procedure codes for Federally Qualified Health Center (FQHC) services.

Use type of service code 9 (paper claims only) with T1015. Medicaid pays the facility's current established rate for each encounter.

262.120 Telemedicine

<del>11-1-17<u>10-</u> 1-221</del>

Use procedure code T1014 and type of service code Y (paper claims only) to indicate telemedicine charges.

#### View or print the procedure codes for Federally Qualified Health Center (FQHC) services.

The charge associated with this procedure code should be an amount attributable to the telemedicine service, such as line (or wireless) charges. Medicaid will deny the charge and capture it in the same manner as with ancillary charges.

## 262.130 Obstetric and Gynecologic Encounters

10-13-03<u>-</u> 224

Bill for the following obstetric and gynecologic procedures with the CPT procedure codes indicated and type of service code 2 (paper claims only).

#### View or print the procedure codes for Federally Qualified Health Center (FQHC) services.

| <del>58120</del> | <del>59410</del> | <del>59515</del> | <del>59812</del> | <del>59820</del> |  |
|------------------|------------------|------------------|------------------|------------------|--|

For settlement purposes, each of these procedures is considered an encounter.

#### 262.140 Family Planning

10-13-03<sub>-</sub> 224

Bill Medicaid for family planning services with applicable procedure codes listed in Sections 262.141 through 262.152.

## 262.141 Family Planning and Post-Sterilization Visits

<del>11-1-17</del><u>10-</u> 1-22<u>1</u>

Bill for family planning visits and post-sterilization visits with type of service code A (paper billing only) and a family planning diagnosis.

### View or print the procedure codes for Federally Qualified Health Center (FQHC) services.

# 262.442 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-224

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.

View or print the procedure codes for Federally Qualified Health Center (FQHC) services.

- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description, the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.

4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

See Section 262.441 for additional information regarding National Drug Code (NDC) billing.

|-----------------------------------|--|
| <del>36415</del> <del>P9612</del> |  |

- A. Venipuncture (drawing blood to obtain a blood sample) and catheterization to collect urine specimens are excluded from the eligibility criteria for intermittent skilled nursing services under the home health benefit.
- B. When venipuncture to obtain a blood sample or catheterization to collect a urine specimen is the only skilled service that is needed by the patient, that individual does not qualify for skilled services.

#### 242.144 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-22<del>1</del>

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.

#### View or print the procedure codes for Home Health services.

- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description, the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - **3. Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - 4. Paper Billing: For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the DMS-664 "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

See Section 242.143 for additional information regarding National Drug Code (NDC) billing.

242.150 Home Health Medical Supplies

<del>7-1-16</del><u>10-1-</u> 221

The following Health Care Procedural Coding System (HCPCS) codes must be used when billing the Arkansas Medicaid Program for medical supplies. Providers must use the current HCPCS Book for code descriptions.

| View or p | View or print the procedure codes for Home Health services. |                  |                  |                  |       |                  |       |  |

Listed below are medical supplies that require special billing or need prior authorization. These items are listed with the HCPCS codes and require modifiers. The asterisk denotes these items and the required modifiers.

# A. \*Home Blood Glucose Supplies – Pregnant Women Only, All Ages

Codes A4253 and A4259 must be billed either electronically or on paper with modifier NU for beneficiaries of all ages. When a second modifier is listed, that modifier must be used in conjunction with the NU modifier.

# B. \*\*Gradient Compression Stocking (Jobst Stocking), All Ages

The gradient compression stocking (Jobst) is payable for beneficiaries of all ages. Before supplying the items, the Jobst stocking must be prior authorized by AFMC. <u>View or print form DMS-679A and instructions for completion</u>. Documentation accompanying form DMS-679A must indicate that the beneficiary has severe varicose with edema, or a venous stasis ulcer, unresponsive to conventional therapy such as wrappings, over-the-counter stocking and Unna boots. The documentation must include clinical medical records from a physician detailing the failure of conventional therapy.

| HCPCS |               |               |  |
|-------|---------------|---------------|--|
| Code  | <del>M1</del> | <del>M2</del> | <del>Description</del>                     |
| A6549 |               |               | Gradient compression stocking, NOS (JOBST) |

Code A6549 must be manually priced.

Code A6549 requires a prior authorization (PA). See Section 221.000.

Code **A4466**-requires prior authorization (PA); see Section 221.000. Code **A4466**-is manually priced and is covered for beneficiaries ages 0-20 years of age.

# C. \*\*\*Food Thickeners, All Ages

Food thickeners-(B4100), including "Thick-it", "Simple Thick", "Thick and Easy" and "Thick and Clear" are not subjected to the medical supply benefit limit.

The modifier **NU** must be used with the code found in this section and when food thickeners are administered enterally, the modifier "**BA**" must be used in conjunction with the code.

When food thickeners are billed, total units are to be calculated to the nearest full ounce. Partial units may be rounded up. When a date span is billed, the product cannot be billed until the end date of the span has elapsed.

The maximum number of units allowed for food thickeners is 16 units per date of service.

The following HCPCS codes usage must match the Arkansas Medicaid code description and use of modifier(s).

| HCPCS<br>Code | M1             | <del>M2</del> | Description  |

Reimbursement is based on a per unit basis with one unit equaling one item (diaper or underpad). When billing for these services that are benefit limited to a dollar amount per month, providers must bill according to the calendar month.

Providers must not span calendar months when billing for diapers and/or underpads. The date of delivery is the date of service. Provider may not bill "from" and "through" dates of services.

<sup>\*</sup>CPT code <del>58661</del> represents a procedure to treat medical conditions as well as for elective sterilizations.

Family planning laboratory codes are found in Section 216.550.

#### 216.550 Family Planning Lab Procedures

10-1-15221

Family planning services are covered for beneficiaries in full coverage for Aid Category 61 (PW-PI). For additional information on Family Planning Services, see Sections 216.100-216.110, 216.130-216.132, 216.515, and 216.540-216.550.

Collection fees for laboratory procedures are included in the reimbursement for the laboratory procedure.

The following procedure codes table lists payable family planning laboratory procedure codes that require a primary diagnosis of Family Planning on the claim form:

| Family P         | lanning Lal      | ooratory Co      | <del>des</del>   |                  |                  |                   |                  |
|------------------|------------------|------------------|------------------|------------------|------------------|-------------------|------------------|
| Q0111            | <del>81000</del> | <del>81001</del> | <del>81002</del> | <del>81003</del> | <del>81025</del> | <del>83020</del>  | <del>83520</del> |
| 84703            | <del>85014</del> | <del>85018</del> | <del>85660</del> | <del>86592</del> | 86593            | <del>86687</del>  | <del>86701</del> |
| 87075            | 87081            | 87088            | <del>87210</del> | 87390            | 87470            | <del>87490</del>  | 87491            |
| 87531            | <del>87536</del> | 87590            | 87591            | <del>87621</del> | 88142*           | <del>88143*</del> | 88147            |

| <del>88166</del> | <del>88167</del> | 88174            | <del>88175</del> | 88302            | 89300            | 89310             | 89320            |
| 87389            |                  |                  |                  |                  |                  |                   |                  |

\*Procedure codes 88142 and 88143 are limited to one unit per beneficiary per state fiscal year.

## 217.062 Corneal Transplants

<del>1-15-15<u>10-</u></del> 1-221

- A. Medicaid covers hospitalization related to corneal transplants from the date of the transplant procedure until the date of discharge, subject to the beneficiary's inpatient benefit utilization status if he or she is aged 21 or older and subject to MUMP precertification requirements.
- B. Coverage includes the preservation of the organ from a cadaver donor but not the harvesting of the organ.
- C. For processing, preserving and transporting corneal tissues, use procedure code V2785. V2785 rRequires paper billing and a manufacturer's invoice attached to the claim.

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

#### 217.090 Bilaminate Graft or Skin Substitute Coverage Restriction

10-1-15221

A. Indications and Documentation:

When the diagnosis is a burn injury (<u>View ICD Codes.</u>) (indicated on the claim form), no additional medical treatment documentation is required.

This modality/product will be covered for other restricted diagnoses (indicated below) when all of the following provisions are met and are documented in the beneficiary's medical record:

- 1. Partial or full-thickness skin ulcers due to venous insufficiency or full-thickness neuropathic diabetic foot ulcers,
- 2. Ulcers of more than three (3) months duration and
- 3. Ulcers that have failed to respond to documented conservative measures of more than two (2) months duration.
- 4. There must be measurements of the initial ulcer size, the size of the ulcer following cessation of conservative management, and the size at the beginning of skin substitute treatment.
- 5. For neuropathic diabetic foot ulcers, appropriate steps to off-load pressure during treatment must be taken and documented in the patient's medical record.
- 6. The ulcer must be free of infection and underlying osteomyelitis; treatment of the underlying disease (e.g., peripheral vascular disease) must be provided and documented in conjunction with skin substitute treatment.

#### B. Diagnosis Restrictions:

Coverage of the bilaminate skin product and its application is restricted to the diagnosis represented by the following ICD codes:

(View ICD Codes.)

#### C. Outpatient Billing:

The manufactured viable bilaminate graft or skin substitute product is manually priced. It must be billed to Medicaid by paper claim with procedure code J7340. The manufacturer's invoice, the wound size description and the operative report must be attached.

# <u>View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.</u>

Outpatient procedures to apply bilaminate skin substitute are payable using the appropriate procedure code(s). These codes must be listed separately when filing claims and may be billed electronically.

# 217.113 Gastrointestinal Tract Imaging with Endoscopy Capsule

10-1-15221

- A. Arkansas Medicaid covers wireless endoscopy capsule for diagnosis of occult gastrointestinal bleeding in the anemic patient under the conditions listed below.
  - 1. The site of the bleeding has not been identified by previous gastrointestinal endoscopy, colonoscopy, push endoscopy or other radiological procedures.
  - 2. An abnormal x-ray of the small intestine is documented without an identified site of bleeding by endoscopic means.
  - 3. Diagnosis of angiodysplasias of the GI tract is suspected, or
  - 4. Individuals with confirmed Crohn's disease to determine whether there is involvement of the small bowel.
- B. This procedure is covered for individuals of all ages based on medical necessity when performed with FDA-approved devices and by providers formally trained in upper and lower endoscopies.
- C. Documentation of medical necessity requires a primary diagnosis of one of the following ICD diagnosis codes: (View ICD Codes.)
- D. GI tract capsule endoscopy is not covered in the patient who has not undergone upper GI endoscopy and colonoscopy during the same period of illness in which a source of bleeding is not revealed.
- E. This test is covered only for those beneficiaries with documented continuing blood loss and anemia secondary to bleeding.
- F. See Section 272.405 for procedure code and billing instructions

# 217.141 Computed Tomographic Colonography (CT Colonography)

10-1-15221

A. The following procedure codes are covered for CT colonography for beneficiaries of all ages.

| <del>74261</del> | <del>74262</del> | <del>74263</del> |
|------------------|------------------|------------------|

- B. CT colonography policy and billing:
  - 1. Virtual colonoscopy, also known as CT colonography, utilizes helical computed tomography of the abdomen and pelvis to visualize the colon lumen, along with 2D and/or 3D reconstruction. The test requires colonic preparation similar to that required for standard colonoscopy (instrument/fiberoptic colonoscopy), and air insufflation to achieve colonic distention.

Indications: Virtual colonoscopy is only indicated in those patients in whom an instrument/fiberoptic colonoscopy of the entire colon is incomplete due to an inability to pass the colonoscopy proximately. Failure to advance the colonoscopy may be secondary to an obstruction neoplasm, spasm, redundant colon, diverticulitis extrinsic compression or aberrant anatomy/scarring from prior surgery. This is intended for use in pre-operative situations when knowledge of the unvisualized colon proximal to the obstruction would be of use to the surgeons in planning the operative approach to the patient.

#### 3. Limitations:

- a. Virtual colonography is not reimbursable when used for screening or in the absence of signs of symptoms of disease, regardless of family history or other risk factors for the development of colonic disease.
- b. Virtual colonography is not reimbursable when used as an alternative to instrument/fiberoptic colonoscopy, for screening or in the absence of signs or symptoms of disease.
- c. Since any colonography with abnormal or suspicious findings would require a subsequent instrument/fiberoptic colonoscopy for diagnosis (e.g., biopsy) or for treatment (e.g., polypectomy), virtual colonography is not reimbursable when used as an alternative to an instrument/fiberoptic colonoscopy, even though performed for signs or symptoms of disease.
- d. CT colonography procedure codes are counted against the beneficiary's annual lab and X- Ray benefit limit.
- e. "Reasonable and necessary" services should only be ordered or performed by qualified personnel.
- f. The CT colonography final report should address all structures of the abdomen afforded review in a regular CT of abdomen and pelvis.

# C. Documentation requirements and utilization guidelines:

- 1. Each claim must be submitted with ICD codes that reflect the condition of the patient, and indicate the reason(s) for which the service was performed. Claims submitted without ICD codes coded to the highest level of specificity will be denied.
- 2. The results of an instrument/fiberoptic colonoscopy performed before the virtual colonoscopy (CT colonography), which was incomplete, must be retained in the patient's record.
- 3. The patient's medical record must include the following and be available upon request:
  - a. The order/prescription from the referring physician
  - b. Description of polyps/lesion:
    - Lesion size, for lesions 6 mm or larger, the single largest dimension of the polyp (excluding stalk if present) on either multiplanar reconstruction or 3D views. The type of view employed for measurement should be stated.
    - ii. Location (standardized colonic segmental divisions: rectum, sigmoid colon, descending colon, transverse colon, ascending colon, and cecum)
    - iii. Morphology (sessile-broad-based lesion whose width is greater than its vertical height; pedunculated-polyp with separate stalk; or flat-polyp with vertical height less than 3 mm above surrounding normal colonic mucosa)
    - iv. Attenuation (soft-tissue attenuation or fat)
  - c. Global assessment of the colon (C-RADS categories of colorectal findings):
    - i. C0 Inadequate study

poor prep (can't exclude > 10 lesions)

- ii. C1 Normal colon or benign lesions no polyps or polyps ≥5 mm benign lesions (lipomas, inverted diverticulum)
- iii. C2 Intermediate polyp(s) or indeterminate lesion polyps 6-9 mm in size, <3 in number indeterminate findings
- iv. C3 Significant polyp(s), possibly advanced adenoma(s)
   Polyps ≥10 mm
   Polyps 6-9 mm in size, ≥3 in number
- v. C4 Colonic mass, likely malignant
- d. Extracolonic findings (integral to the interpretation of CT colonography results):
  - i. E0 Inadequate Study limited by artifact
  - ii. E1 Normal exam or anatomic variant
  - iii. E2 Clinically unimportant findings (no work-up needed)
  - iv. E3 Likely unimportant findings (may need work-up) incompletely characterized lesions
     (e.g.) hypodense renal or liver lesion
  - v. E4 Clinically important findings (work-up needed) (e.g.) solid renal or liver mass, aortic aneurysm, adenopathy
- e. CT colonography is reimbursable only when performed following an instrument/fiberoptic colonoscopy which was incomplete due to obstruction.

# 244.000 Procedures that Require Prior Authorization

<del>11-1-17</del><u>10-</u> 1-22<del>1</del>

A. The procedures represented by the CPT and HCPCS codes in the following table require prior authorization (PA). The performing physician or dentist (or the referring physician or dentist, when lab work is ordered or injections are given by non-physician staff) is responsible for obtaining required PA and forwarding the PA control number to appropriate hospital staff for documentation and billing purposes. A claim for any hospital services that involve a PA-required procedure must contain the assigned PA control number or Medicaid will deny it. (See Sections 241.000 through 244.000 of this manual for instructions for obtaining prior authorization.)

See Section 272.449 for billing instructions for Molecular Pathology codes\_

| 81372            | 81373            | 81374             | 81375            | <del>81376</del>  | 81377            | 81378            | 81379            |
| 81380            | <del>81381</del> | <del>81382</del>  | 81383            | 81400             | 81401            | <del>81402</del> | 81403            |
| 81404            | <del>81405</del> | <del>81406</del>  | <del>81407</del> | <del>81408</del>  | <del>92607</del> | 92608            | 93980            |

- B. For inpatient hospital facility abortion claims, the provider claim must use the following codes:
  - 1. 10A00ZZ Abortion of Products of Conception, Open Approach
  - 2. 10A03ZZ Abortion Products of Conception, Percutaneous Approach
  - 3. 10AO7Z6 Abortion of Products of Conception, Vacuum, Via Natural or Artificial Opening
  - 4. 10A07ZW Abortion of Products of Conception, Laminaria, Via Natural or Artificial Opening
  - 5. 10A07ZX Abortion of Products of Conception, Abortifacient, Via Natural or Artificial Opening
  - 6. 10A07ZZ Abortion of Products of Conception, Via Natural or Artificial Opening
- C. The following outpatient hospital abortion procedure codes will require PA:

| <del>59840</del> | <del>59841</del>   |
|------------------|--------------------|
| <del>00010</del> | <del>000 T T</del> |
|                  |                    |

# 245.031 Prior Authorization of Hyaluronon (Sodium Hyaluronate) Injection

<del>1-15-15<u>10-</u> 1-221</del>

Prior authorization is required for coverage of the Hyaluronon (sodium hyaluronate) injection. Providers must specify the brand name of Hyaluronon (sodium hyaluronate) or derivative when requesting prior authorization for the following procedure codes:

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

| <del>J7321</del> | <del>J7323</del> | <del>J7324</del> | <del>J7325</del> |
|------------------|------------------|------------------|------------------|

A written request must be submitted to Division of Medical Services Utilization Review Section. View or print the Division of Medical Services Utilization Review Section address.

The request must include the patient's name, Medicaid ID number, physician's name, physician's provider identification number, patient's age, and medical records that document the severity of osteoarthritis, previous treatments and site of injection. Hyaluronon is limited to one series of injections per knee, per beneficiary, per lifetime.

# 252.117 Reimbursement of Burn Dressing Changes in Outpatient Hospitals

10-13-03<sub>-</sub> 224

- A. The CPT procedure codes for burn dressing changes are in the range of surgical procedures, but the Arkansas Medicaid Program has deemed them therapy procedures for reimbursement purposes. They are not listed in the outpatient surgical groupings.
- B. Burn dressing changes are reimbursed at a global fee. The global fee includes:
  - 1. All medication, pre-medication, I.V. fluids, dressing solutions and topical applications,
  - 2. All dressings and necessary supplies and
  - 3. All room charges.
- C. Conform to the following procedure code definitions when billing for burn dressing changes:

| Procedure Code   | Percent of Body      |
|------------------|----------------------|
| 16020            | 5 to 20%             |
| <del>16025</del> | <del>21 to 40%</del> |
| <del>16030</del> | <del>41 to 70%</del> |

- D. Medicaid allows reimbursement for only one burn dressing change procedure per day.
- E. Physical therapy charges are not included in the global fee.
  - 1. Physical therapy requires a written prescription by the attending physician.
  - 2. Physical therapy requires a PCP referral.
  - 3. A copy of the attending physician's order reflecting the frequency of dressing changes and the mode(s) of therapy to be administered must be maintained in the patient's chart and must be available upon request by any authorized representative of Arkansas Division of Medical Services.

#### 272.115 Observation Bed Billing Information

<del>11-1-17</del><u>10-</u> 1-224

Use code 760\* to bill for Observation Bed. One unit of service on the CMS-1450 (UB-04) outpatient claim equals 1 hour of service. Medicaid will cover up to 8 hours of hospital observation per date of service.

When a physician admits a patient to observation subsequent to providing emergency or nonemergency services in the emergency department, the hospital may bill the observation bed code 760\* and the appropriate procedure code for emergency room 450\* (20646) or nonemergency room 459\*. Condition code 88 must be billed to indicate an emergency claim.

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

You may not bill 622\* or 250\*:

- A. Alone or in conjunction with only one another.
- B. With the non-emergency room procedure code 459\*.
- C. With an outpatient surgical procedure.
- D. Without code 450\*.

#### 272.131 Non-Emergency Charges

<del>1-15-15<u>10-</u></del> <u>1-221</u>

The following procedure codes may be billed in conjunction with procedure code 459\* ("Other non-emergency service", which includes room charge). See Section 272.510 for billing requirements.

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

| 94010-            | 94642 -  | 96913       | 99199  | <del>J1100-</del> |
|-------------------|----------|-------------|--------|-------------------|
| 94770             |          | <b>&gt;</b> |        | <del>J1200*</del> |
| <del>J1600*</del> | J2790* - | J2910*      | J3420* | <del></del>       |
|                   |          |             |        | <del>J9999*</del> |

<sup>\*</sup>Refer to Section 272.510 for additional criteria.

NOTE: Arkansas Medicaid reimburses for medically necessary vaccines, laboratory services, X-Rays and machine tests in addition to standalone revenue code 0459.

#### **272.132** Procedure Codes Requiring Modifiers

<del>12-5-05</del><u>10-</u> 1-224

| Procedure<br>Code | Modifier      | <del>Description</del>   |

## 272.404 Hyperbaric Oxygen Therapy (HBOT) Procedures

10-1-09224

- A. Facilities may bill for only one unit of service per day. The facility's charge for each service date must include all its hyperbaric oxygen therapy charges, regardless of how many treatment sessions per day are administered.
- B. Facilities may bill for laboratory, X-ray, machine tests and outpatient surgery in addition to procedure code-99183.
- C. Hospitals and ambulatory surgical centers may bill electronically or file paper claims for procedure code 99183 with the prior authorization number placed on the claim in the proper field. If multiple prior authorizations are required, enter the prior authorization number that corresponds to the date of service billed.

#### View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

| Procedure Code | Description  |
|----------------|--|
| 99183          | Hyperbaric oxygen pressurization, facility charge, one per day, outpatient |

272,440 **Factor VIIa** 10-1-15221 Arkansas Medicaid covers Factor VIIa (coagulation factor, recombinant) for treatment of bleeding episodes in hemophilia A or B patients with inhibitors to Factor VIII or Factor IX. Factor VIIa coverage is restricted to diagnosis codes: (View ICD Codes.).

Providers must bill Medicaid for Factor VIIa with HCPCS procedure code Q0187. One unit equals 1.2 milligrams.

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

272.441 Factor VIII

<del>11-1-17<u>10-</u></del> 1-224

HCPCS procedure code <del>J7190</del> must be used when billing for all anti-hemophiliac Factor VIII, including Monoclate.

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

Anti-hemophiliac Factor VIII is covered by the Arkansas Medicaid Program when administered in the outpatient hospital setting, physician's office or beneficiary's home. When billing for this procedure, enter the brand name and the dosage in the description area of the claim form. The provider must bill the cost per unit and the number of units administered. The number of units administered must be entered in the units column of the claim form.

272.442 Factor IX

<del>11-1-17</del><u>10-</u> 1-22<del>1</del>

HCPCS procedure code J7194 must be used when billing for Factor IX Complex (Human).

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

Factor IX Complex (Human) is covered by the Arkansas Medicaid Program when administered in the outpatient hospital setting, physician's office or beneficiary's home. When billing for this procedure, enter the brand name and the dosage in the description area of the claim form. The provider must bill the cost per unit and the number of units administered. The number of units administered must be entered in the units column of the claim form.

## 272.443 Factor VIII and Factor IX

<del>11-1-17</del><u>10-</u> 1-224

Anti-hemophiliac Factor VIII is covered by the Arkansas Medicaid Program when administered in the outpatient hospital, physician's office or in the patient's home. The following procedure codes must be used:

J7191 Factor VIII [antihemophilic factor (porcine)], per IU

J7192 Factor VIII [antihemophilic factor (recombinant)], per IU

#### View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

The provider must bill his/her cost per unit and the number of units administered.

HCPCS procedure code J7194-must be used when billing for Factor IX Complex (human). Factor IX Complex (human) is covered by Medicaid when administered in the physician's office or the patient's home (residence). The provider must bill his/her cost per unit and the number of units administered.

For the purposes of Factor VIII and Factor IX coverage, the patient's home is defined as where the patient resides. Institutions, such as a hospital or nursing facility, are not considered a patient's residence.

#### 272.447 Bone Stimulation

10-13-03<sub>-</sub> 221

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

Procedure codes 20974 and 20975 are payable when provided in the physician's office, ambulatory surgical center or outpatient hospital setting to Medicaid beneficiaries of all ages. Procedure codes 20974 and 20975 will require prior authorization and are payable only for non-union of bone. When provided in the outpatient setting, the provider must submit an invoice with the claim if providing the device.

#### 272.448 Vascular Injection Procedures

10-13-03<u>-</u> 221

Effective for claims with dates of service on or after December 1, 1993, in accordance with Medicare guidelines, the Arkansas Medicaid Program implemented the following policy regarding vascular injection procedures:

If a provider bills procedure code 93503 and one or all of the following procedure codes on the same date of service, the Medicaid Program will reimburse for procedure code 93503 and the other codes will be denied: 36010, 36488, 36489 and 36491.

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

# 272.450 Special Billing Requirements for Laboratory and X-Ray Services

<del>1-1-20</del><u>10-1-</u> 224

The following codes have special billing requirements for laboratory and X-Ray procedures.

A. CPT and HCPCS Lab Procedure Codes with Diagnosis Restrictions

The following CPT procedure codes will be payable with a primary diagnosis as is indicated below.

| Procedure<br>Code | Required Primary Diagnosis | Special Instructions  |
|-------------------|----------------------------|---|
| 81479             | None                       | Requires paper billing with attachments that describe and justify the service represented by this procedure.                    |
| 81500<br>81503    | ( <u>View ICD Codes</u> .) | 18y and up. This code is restricted to female beneficiaries. Requires paper billing that describes and justifies the procedure. |

| Procedure<br>Code | Required Primary Diagnosis      | Special Instructions  |
|-------------------|---------------------------------|---|
| <del>81508</del>  | Diagnosis must indicate a       | None  |
| <del>81509</del>  | current condition of pregnancy. |   |
| <del>81510</del>  |                                 |   |
| 81511             |                                 |   |
| <del>81512</del>  |                                 |   |
| <del>81599*</del> | None                            | For consideration of claims with unlisted procedure codes, such as 81599, see Section 252.111 for billing instructions on this unlisted procedure code. |
| 82777             | (View ICD Codes.)               | 18y and up  |
| 83951             | (View ICD Codes.)               | None  |
| 86386             | (View ICD Codes.)               | None  |
| 86828             | (View ICD Codes.)               | None  |
| 86829             |                                 |   |
| 86830             |                                 |   |
| <del>86831</del>  |                                 |   |
| <del>86832</del>  |                                 |   |
| 86833             |                                 |   |
| 86834             |                                 |   |
| 86835             |                                 |   |
| 87389             | (View ICD Codes.)               | None  |
| 87901             | None                            | A maximum of 12 units per 12-month period   |
| <del>87903</del>  | None                            | A maximum of 1 unit per year  |
| 87904             | Nene                            | This procedure code is an add-on code.  |
| 87906             | None                            | A maximum of 12 units per 12-month period   |
| 88720             | (View ICD Codes.)               | None  |
| 88740             | (View ICD Codes.)               | None  |
| 88741             | (View ICD Codes.)               | None  |

#### B. Genetic Testing

| Procedure Code    | Payment Method  |
|-------------------|---|
| <del>\$3831</del> | Manually priced with no age or diagnosis restrictions   |
| <del>\$3840</del> |   |
| <del>\$3844</del> |   |
| <del>\$3846</del> |   |
| <del>\$3849</del> |   |
| <del>\$3850</del> |   |
| <del>\$3853</del> |   |
| <del>\$3861</del> |   |
| \$3800            | Manually priced with no age or diagnosis restrictions; requires Prior Authorization. This procedure code requires prior authorization by AFMC based on the following criteria. (1) an ICD diagnosis code of: (View ICD Codes.) and symptoms of muscle weakness, (2) documentation of muscle testing must be provided and (3) a completed evaluation by a neurologist to rule out other causes of muscle weakness. |
|                   | (See Section 241.000 regarding procedures for obtaining prior authorization by AFMC.)   |

C.\_\_\_

| Procedure Code    | Description                       |
|-------------------|-----------------------------------|
| <del>\$3620</del> | Newborn Metabolic Screening Panel |

Arkansas Code §20-15-302 states that all newborn infants shall be tested for certain metabolic diseases. Arkansas Medicaid shall reimburse the enrolled Arkansas Medicaid hospital provider that performs the tests required for the cost of the tests. Newborn Metabolic Screenings performed inpatient are included in the interim per diem reimbursement rate and facility cost settlement. For Newborn Metabolic Screenings performed in the outpatient setting (due to retesting or as an initial screening), Arkansas Medicaid will reimburse the hospital directly. For the screenings performed in the outpatient hospital setting, the provider will submit a claim using procedure code—\$3620. All positive test results shall be sent immediately to the Arkansas Department of Health.

The list of metabolic diseases for which providers can bill under \$\frac{\$3620}{2}\$ can be found within the <a href="Arkansas Department of Health (ADH) rules pertaining to testing of newborn infants">Arkansas Department of Health (ADH) rules pertaining to testing of newborn infants</a>.

# 272.453 Hysterectomy for Cancer or Dysplasia

<del>11-1-17</del><u>10-</u> <u>1-221</u>

| National Code | National Code Description                         |
|---------------|---|
| 58150-UA      | Total hysterectomy for cancer or severe dysplasia |

Hospitals may use procedure code **58150-UA** when billing for a total hysterectomy procedure when the diagnosis is cancer or severe dysplasia.

Procedure code <del>58150-UA</del> does not require prior authorization (PA). All hysterectomies require paper billing using claim form CMS-1450. Form DMS-2606 must be properly signed and attached to the claim form.

Procedure code <del>59525</del>-is covered for emergency hysterectomy **immediately** following C-section. It requires no PA but does require form DMS-2606 and an operative report/discharge summary to confirm the emergency status.

## 272.461 Verteporfin (Visudyne)

10-1-15221

Verteporfin (Visudyne), HCPCS procedure code **J3396**, is payable to outpatient hospitals when furnished to Medicaid beneficiaries of any age when the requirements identified in Section 217.140 are met.

- A. Verteporfin administration may be billed separately from the related surgical procedure.
- B. Claims for Verteporfin administration must include one of the following ICD diagnosis codes: (View ICD Codes.)
- C. Use anatomical modifiers to identify the eye(s) being treated.
- D. J3396 mMay be billed electronically or on a paper claim

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

# 272.462 Billing Protocol for Computed Tomographic Colonography (CT)

<del>1-15-15</del><u>10-</u> 1-2<del>1</del>2

A. The following procedure codes are covered for CT colonography for beneficiaries of all ages.

<u>View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.</u>

| <del>74261</del> | 74262 | 74263 |
|------------------|-------|-------|
| _                |       |       |

- B. Billing protocol for CT colonography procedure codes 74261, 74262 and 74263:
  - 1. CT colonography is billable electronically or on paper claims.
  - 2. For coverage policy information, see Section 217.141 of this manual.

#### 272.500 Influenza Virus Vaccines

<del>12-18-15</del><u>10-</u> 1-221

- A. Procedure code-90655, influenza virus vaccine, split virus, preservative free, for children 6 to 35 months of age, is covered through the Vaccines for Children (VFC) program.
  - 1. Claims for Medicaid beneficiaries must be filed using modifiers **EP** and **TJ**.
  - 2. For ARKids First-B beneficiaries, use modifier **SL**.
  - 3. ARKids First-B beneficiaries are not eligible for the Vaccines for Children (VFC) Program; however, vaccines can be obtained to administer to ARKids First-B beneficiaries who are under the age of 19 by contacting the Arkansas Department of Health and indicating the need to order ARKids-B SCHIP vaccines. View or Print the Department of Health contact information.

- B. Effective for dates of service on and after October 1, 2005, Medicaid covers procedure code 90656, influenza virus vaccine, split virus, preservative free, for ages 3 years and older.
  - 1. For children under 19 years of age, claims must be filed using modifiers **EP** and **TJ**.
  - 2. For ARKids First-B participants, claims must be filed using modifier **SL**.
  - 3. For individuals aged 19 and older, no modifier is necessary.
- C. Effective for dates of service on and after October 1, 2005, procedure code-90660, influenza virus vaccine, live, for intranasal use, is covered. Coverage is limited to healthy individuals ages 5 through 49 who are not pregnant.
  - 1. When filing claims for children 5 through 18 years of age, use modifiers **EP** and **TJ**.
  - 2. For ARKids First-B participants, the procedure code must be billed using modifier SL.
  - 3. No modifier is required for filing claims for beneficiaries ages 19 through 49.
- D. Procedure code-90657, influenza virus vaccine, split virus, for children ages 6 through 35 months, is covered.
  - 1. Modifiers **EP** and **TJ** are required.
  - 2. For ARKids First-B beneficiaries, use modifier **SL**.
- E. Procedure code-90658, influenza virus vaccine, split virus, for use in individuals aged 3 years and older, will continue to be covered.
  - 1. When filing paper claims for Medicaid beneficiaries under age 19, use modifiers **EP** and **TJ**.
  - 2. For ARKids First-B participants, use modifier SL.
  - 3. No modifier is required for filing claims for beneficiaries aged 19 and older.

# 272.501 Medication Assisted Treatment and Opioid Use Disorder Treatment 9-1-2010-1-Drugs 221

Effective for dates of service on and after **September 1, 2020**, Medication Assisted Treatment for Opioid Use Disorders is available to all qualifying Medicaid beneficiaries when provided by providers who possess an X-DEA license on file with Arkansas Medicaid Provider Enrollment for billing purposes. All rules and regulations promulgated within the Physician's provider manual for provision of this service must be followed.

Effective for dates of services on and after **October 1, 2018**, the following Healthcare Common Procedure Coding System Level II (HCPCS) procedure codes are payable:

View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

- 1. J2315 Injection, naltrexone, depot form, 1 mg
- 2. J0570 Buprenorphine implant, 74.2 mg
- 3. Q9991 Injection, buprenorphine extended-release (Sublocade), less than or equal to 100 mg
- 4. Q9992 Injection, buprenorphine extended release (Sublocade), greater than 100 mg

To access prior approval of these HCPCS procedure codes when necessary, refer to the Pharmacy Memorandums, Criteria Documents and forms found at the <a href="DHS contracted">DHS contracted</a>
<a href="Pharmacy vendor website">Pharmacy vendor website</a>.

# 272.510 Injections, Radiopharmaceuticals and Therapeutic Agents

<del>11-1-17</del><u>10-</u> <u>1-221</u>

Intravenous administration of therapeutic agents is payable only if provided in an outpatient setting. Therapeutic injections should only be provided by facilities that have the capacity to treat patients who may experience adverse reactions. The capability to treat infusion reactions with appropriate life support techniques should be immediately available. Reimbursement for supplies is included in the administration fee.

# View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

Use procedure code **96365**-for IV infusion therapy. For additional hours, sequential and/or concurrent infusions, bill revenue code **0760** (for observation), up to 8 hours maximum per day. For monoclonal antibody intravenous infusion use procedure code **79403**.

Multiple units may be billed for drug procedure codes, if appropriate. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as take home drugs.

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

- A. Multiple units may be billed when applicable. Take home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.
- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description, the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

See Section 272.102 for additional information regarding National Drug Code (NDC) billing.

See Section 272.450 for special billing instructions and coverage of Radiopharmaceuticals.

For coverage information regarding any drug not listed, please contact the Medicaid Reimbursement Unit. View or print Medicaid Reimbursement Unit contact information.

The following is a list of injections with special instructions for coverage and billing:

#### View or print the procedure codes for Hospital/Critical Access Hospitals/ESRD services.

# **Tables of Payable Procedure Codes**

The tables of payable procedure codes are designed with eight columns of information.

- 1. The **first** column of the list contains the CPT or HCPCS procedure codes.
- 2. The **second** column indicates any modifiers that must be used in conjunction with the procedure code when billed, either electronically or on paper.
- 3. The **third** column indicates that the coverage of the procedure code is restricted based on the beneficiary's age in number of years(y) or months (m).
- 4. The **fourth** column indicates specific ICD-9-CM primary diagnosis restrictions.
- 5. The <u>fifth</u> column contains information about the "diagnosis list" for which a procedure code may be used. See the page header for the diagnosis list 003 detail.
- 6. The <u>sixth</u> column indicates whether a procedure is subject to medical review before payment.
- 7. The **seventh** column indicates a procedure code requires a prior authorization before the service is provided. (See Section 241.000 for prior authorization.)

\*Procedure code requires paper billing with applicable attachments and must follow NDC protocol. (See Section 272.102 for NDC protocol.)

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

<u>List 003/103 diagnosis codes include: (View ICD Codes) Diagnosis List 003/103 restrictions apply to ages 21y and above unless otherwise indicated in the age restriction column.</u>

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

List 003/103 diagnosis codes include: (View ICD Codes. This link is only active on page 148 of this document.) Diagnosis List 003/103 restrictions apply to ages 21y and above unless otherwise indicated in the age restriction column.

| Procedure<br>Code | Modifier | Age<br>Restriction      | <b>Diagnosis</b>     | <del>Diagnosis</del><br><del>List</del> | Review | PA |
|-------------------|----------|-------------------------|----------------------|---|--------|----|

NOTE: **Kcentra** is indicated for the urgent reversal of acquired coagulation factor deficiency induced by Vitamin K antagonist (VKZ, e.g. warfarin) therapy in adult patients with major bleeding. **Kcentra** is not indicated for urgent reversal of VKA anticoagulation in patients without acute major bleeding. Documentation of the major bleed should be included in a complete history and physical exam. All treatments needed for the major bleed prior to **Kcentra** should be documented. A hemoglobin and hematocrit should be documented in the record as well as the dose of warfarin.

NOTE: Injectafer is an iron replacement product indicated for the treatment of iron deficiency anemia, in adult patients who have intolerance to oral iron, have had an unsatisfactory response to oral iron or who have non-dialysis dependent chronic kidney disease. Patients must have a history and physical exam documenting kidney disease or iron deficiency anemia with intolerance to oral iron. Patients must have lab values showing no increase in iron studies or hemoglobin after administration of oral iron.

C9460 No 18y & up No No No No

NOTE: Kengreal is a P2Y12 platelet inhibitor indicated as an adjunct to percutaneous coronary intervention (PCI) for reducing the risk of periprocedure myocardial infarction (MI), repeat coronary revascularization, and stent thrombosis (ST) in patients who have not been treated with a P2Y12 platelet inhibitor and are not being given a glycoprotein IIB/IIIA inhibitor.

See Section 241,000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

NOTE: **Eylea** should only be administered by a retinal specialist or other physician trained in retinal care. Contraindicated in ocular or periocular infections, active intraocular inflammation and hypersensitivity. Intravitreal injections have been associated with endophthalmitis and retinal detachments. Patients should be instructed to report any symptoms as soon as possible. Patients should be monitored for 60 minutes after injection due to acute increases in intraocular pressure seen with **Eylea** injections. There is a potential risk of arterial thromboembolic events following use of this class of drugs. Patients should be screened for risk factors of stroke, myocardial infarction or vascular events. Submit screening history to the Medical Director for Clinical Affairs as well as OCT or fluorescein angiogram to evaluate lesion type, location and size and presence of subretinal fluid. The medical record must contain the actual dosage, site, lot number of the vial, date and time of administration and any unusual reactions. All of this must be submitted to the Medical Director for Clinical Affairs for a Prior Approval letter.

See Section 241,000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

NOTE: Evaluation by a physician with a specialty in clinical genetics documenting progress required annually.

J0221 No No No Yes Yes

NOTE: Payable for beneficiaries who have the primary detail diagnosis of late onset, not infantile, Pompe disease. The history and physical by a geneticist showing a diagnosis of late onset, not infantile, Pompe disease must be submitted with the request for the prior approval letter. The beneficiary, physician and infusion center should be enrolled in the Lumizyme ACE Program. The history and physical should document compliance with this program including discussion of the risks of anaphylaxis, severe allergic reactions and immunemediated reactions according to the Black Box Warning from the FDA. This drug should only be administered in a facility equipped to deal with anaphylaxis, including Advanced Life Support capability.

| <del>J0256</del> | No | Ne       | (View ICD Codes.)    | No | No | No |  |
|------------------|----|----------|----------------------|----|----|----|--|
| <del>J0257</del> | No | 18y & up | (View ICD<br>Codes.) | No | No | No |  |

NOTE: This drug or other drugs in this class are only approved for the diagnosis of alpha 1proteinase (antitrypsin) deficiency with clinically evident emphysema. Levels of alpha 1proteinase must be clearly documented in the chart. Alpha 1 antitrypsin concentrations should be less than 80 mg per deciliter (mg/dl). The medical record should contain a history and physical exam documenting this disease with clear clinical evidence of emphysema. Obstructive lung disease, emphysema, is defined by a forced expiratory volume in one second (FEV1) of 30-65% of predicted or a rapid decline in lung function as defined as a change in FEV1 of greater than 120 ml/year. The patient should be a nonsmoker. The dosage, frequency, site of administration and duration of the therapy should be reasonable, clinically appropriate and supported by evidence-based literature and adjusted based upon severity, alternative available treatments and previous response to alpha 1 proteinase Inhibitor (Human) therapy for the condition addressed. Coverage for deficiency-associated liver disease without emphysema, cystic fibrosis and diabetes mellitus is considered experimental and is not approved. Therapy should maintain alpha 1 antitrypsin levels above 80 mg/dl. Due to risk of anaphylaxis, this drug must be given in an infusion center with immediate access to a physician trained in the treatment of this reaction. The only other approved infusion would be by a specially trained nurse who has immediate access to treatment for anaphylaxis and is trained in this special situation.

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

NOTE: This drug is indicated for treatment of patients age 18 years and above with active, autoantibody positive, systemic lupus erythematosus who are receiving standard therapy, such as non-steroidal anti-inflammatory drugs, hydroxychloroquine, corticosteroids or immunosuppressive drugs. Use of this drug is not recommended for use in combination with other biologics or intravenous cyclophosphamide, or patients with severe active lupus nephritis, or severe active central nervous system lupus. This drug administration requires a prior approval letter which must include a history and physical exam documenting all prior treatment and documented failure of treatment. The patient should continue to receive the standard therapy. This drug should be administered by healthcare providers prepared to manage anaphylaxis and must be prescribed by a rheumatologist.

NOTE: Prior approval letter requests with clinical documentation are considered for certolizumab pegol (Cimzia) for adult beneficiaries 18 years of age and above with:

Moderately-to-severely active Crohn's disease as manifested by any of the following signs/symptoms:

- Diarrhea
- Internal fistulae
- Abdominal pain
- Intestinal obstruction
- Bleeding
- Extra-intestinal manifestations
- Weight loss
- Arthritis
- Perianal disease
- Spondylitis

#### ----AND

Crohn's disease has remained active despite treatment with corticosteroids or 6-mercaptopurine/azathioprine.

For the treatment of moderately to severely active rheumatoid arthritis (RA). Patient must have failed Enbrel and Humira.

NOTE: For all patients on dialysis, use the lowest dose that will gradually increase the Hgb concentration to the lowest level sufficient to avoid the need for a red blood cell transfusion.

When the beneficiary is not on dialysis, use the following ICD code. (View ICD Codes.)

In addition to the primary diagnosis, an ICD diagnosis code from each column below must be billed on the claim.

| Column I                           | Column II           |  |
|------------------------------------|---------------------|--|
|                                    | Code                | Description                                |
| Secondary Anemia (View ICD Codes.) | (View ICD<br>Codes) | Encounter for antineoplastic chemotherapy  |
|                                    | (View ICD<br>Codes) | Following chemotherapy                     |
|                                    | (View ICD Codes)    | Antineoplastic and immunosuppressive drugs |

Use ICD code (<u>View ICD Codes</u>.) (primary) with (<u>View ICD Codes</u>.) or (<u>View ICD Codes</u>.) (secondary) to represent patients with anemia due to hepatitis C (patients being treated with ribavirin and interferon alfa or ribavirin and peginterferon alfa), myelodysplastic syndrome or rheumatoid arthritis.

NOTE: The primary diagnosis should be (<u>View ICD Codes.</u>) with a secondary diagnosis of (<u>View ICD Codes.</u>). For patients with CKD on dialysis:

Initiate Mircera treatment when the hemoglobin level is less than 10 g/dL.

If the hemoglobin level approaches or exceeds 11 g/dL, reduce or interrupt the dose of Mircera.

The recommended starting dose of Mircera for the treatment of anemia in adult CKD patients who are not currently treated with an ESA is 0.6 mcg/kg body weight administered as a single IV or SC injection once every two weeks. The IV route is recommended for patients receiving hemodialysis because the IV route may be less immunogenic.

Once the hemoglobin has been stabilized, Mircera may be administered once monthly using a dose that is twice that of the every two week dose and subsequently titrated as necessary

NOTE: Prolia Policy: Covered for female, post menopausal beneficiaries with osteoporosis and inability to tolerate oral medications for osteoporosis (View ICD Codes.). Inability to tolerate oral medications must be documented in medical history and physical exam with reason for intolerance clearly documented and name of oral medications that patient was unable to tolerate. Inability to tolerate oral medication must include signs and symptoms of esophageal disease. Patient must be at high risk for osteoporotic fracture or have multiple risk factors for fracture. Physicians should document that they have informed the patient of the risks of therapy in accordance with the Food and Drug Administration (FDA) Risk Evaluation and Mitigation Strategy Program. Use this procedure code for Prolia. An additional indication approved by the FDA for use of Prolia is as treatment to increase bone mass in patients at high risk for fracture receiving androgen deprivation therapy for non-metastatic prostate cancer (View ICD Codes.) or adjuvant aromatase inhibitor therapy for breast cancer (View ICD Codes.). In men with non-metastatic prostate cancer, Denosumab also reduced the incidence of vertebral fracture. Medical records must include history and physical exam clearly documenting above indications and why Zometa cannot be used. The NDC for the drug requested must be listed on the request.

**Xgeva Policy**: Arkansas Medicaid requires that **Xgeva** be filed under J0897 on a paper claim with the drug name and dose. **Xgeva** is only approved for prevention of skeletal-related events in patients with bone metastases from breast and prostate cancer and solid tumors. **Xgeva** is not indicated for the prevention of skeletal-related events in patients with multiple myeloma. **Xgeva** requires documentation in the medical record of the rationale for why **Zometa** was not used. A complete history and physical exam documenting the type of cancer and what chemotherapy is prescribed is required to be in the medical record. The NDC for the drug requested must be listed on the request.

J1050 is covered for therapeutic and family planning services for females only. For therapeutic use, a diagnosis and clinical records must justify the treatment. When billed for family planning, a FP modifier and an ICD family planning diagnosis is required.

NOTE: Relative to post occlusion by placement of permanent implants; procedure codes J1050, 11976 and 58301 are payable family planning services for non-sterile females only. All visits related to post 58565 services during the six (6) months following the procedure are included in the allowable fee for the 58565 "procedure." All facility fees for J1050 are bundled under the surgical procedure code if performed on the same date of service.

NOTE: **Bivigam** is an immune globulin intravenous solution indicated for the treatment of primary humoral immunodeficiency. For patients at risk for renal dysfunction or thrombotic events, administer at the minimum infusion rate practical. Previous treatments with other agents should be documented. A complete history and physical exam documenting the severity of the illness and prior treatments should be submitted for approval.

NOTE: Simponi is a tumor necrosis factor (TNF) blocker indicated in the treatment of adults with:

- 1. Moderately to severely active rheumatoid arthritis in combination with methotrexate that has failed **Humira** and **Enbrel**.
- 2. Active psoriatic arthritis alone or in combination with methotrexate that has failed **Humira** and **Enbrel**.
- 3. Active ankylosing spondylitis that has failed Humira and Enbrel.
- 4. Moderate to severe ulcerative colitis that has failed Humira.

Medical documentation of physician history and physical exam with records showing failed trial of **Humira** and **Enbrel** as indicated should also be submitted.

NOTE: Arkansas Medicaid will reimburse providers for 17-Hydroxyprogesterone Caproate, 1 mg per day under J1725 at a maximum of 250 units per day. J1725 will be covered for females, ages 16 years and above, when a singleton pregnancy exists and a history of preterm labor is present. This drug may be administered every 7 days, with treatment initiated between 16 weeks, 0 days and 20 weeks, 6 days and continued until week 37 for delivery. J1725 may be billed electronically or on a paper claim (CMS-1500 or CMS-1450), with a primary ICD diagnosis code of (View ICD Codes.), "Pregnancy with history of pre-term labor." J1725 requires NDC billing protocol. The administration fee for 17-Hydroxyprogesterone Caproate is included in the reimbursement fee allowed for this drug.

NOTE: Procedure code J2505 is payable for beneficiaries of all ages with a detail diagnosis code (View ICD Codes.). Diagnosis codes (View ICD Codes.) are covered along with a diagnosis of AIDS or cancer (List 003/103). Diagnosis codes must be shown on the claim form.

J2507 No 18y & up No No Yes Yes

NOTE: The submitted medical documentation should include a history and physical exam that demonstrates that the beneficiary has failed all other treatments for gout due to progression of disease or intolerable side effects. This drug should only be administered in health care settings and by physicians prepared to manage anaphylaxis and infusion reactions. Premedication should be administered and the patient should be watched for any reaction after infusion. It is not recommended for the treatment of asymptomatic gout.

NOTE: Procedure code J2562 is covered for ages 21 years and above and requires prior authorization by the Arkansas Foundation for Medical Care (AFMC). Prior authorization will be provided by a telephone review. Approval is granted in conjunction with the use of granulocyte colony stimulating factor to mobilize hematopoietic stem cells for collection and subsequent autologous transplantation in patients with Non-Hodgkin's lymphoma and multiple myeloma. Applicants will only be considered for approval if a transplant has been approved by AFMC. There must be documentation of failure to mobilize cells with conventional therapy for consideration of this drug. The drug will only be approved for four doses; one daily, times four days. The total dosage for the four days must be indicated at the time of the request.

NOTE: The patient must have tried and failed therapy with documented progression of symptoms on **Humira** and **Enbrel** prior to the request for this drug. The physician medical record must document a history and physical examination that clearly shows failure of **Humira** and **Enbrel** with submission for a prior approval letter. Doses exceeding 800 mg per infusion will not be approved, as they are not recommended. The physician must follow all Food and Drug Administration (FDA) recommendations on monitoring of laboratory and serious infections.

NOTE: There must be clear documentation that the patient has failed **Humira** and **Enbrel**, with documentation of progression of the disease or documented inability to tolerate **Humira** and **Enbrel**. A physician history and physical must be submitted with a request for prior approval letter. Documentation of patient counseling of the adverse effects of the drug should also be included. This drug should only be administered to patients who will be closely monitored and have regular follow up visits by a physician.

NOTE: Requires a paper claim form with the name of the drug, dosage and the route of administration for consideration for eligible beneficiaries. Clinical documentation may be required. See Section 252.111 for additional billing information.

J3490 U9 <del>16y & up</del> (View ICD No No No Codes.)

NOTE: Arkansas Medicaid will reimburse providers for "Compounded 17-Hydroxyprogesterone Caproate, 250 mg" per day under J3490-U9. It will be covered for females, ages 16 years and above, when a singleton pregnancy exists and a history of pre-term labor is present. "Compounded 17-Hydroxyprogesterone Caproate 250 mg" may be administered every 7 days, with treatment initiated between 16 weeks, 0 days, and 20 weeks, 6 days, and continued until week 37 for delivery. J3490-U9 may be billed electronically or on a paper claim (CMS-1500 or CMS-1450), with a primary ICD diagnosis code of V23.41, "Pregnancy with history of pre-term labor." J3490-U9 is exempt from NDC billing protocol. The administration fee for "Compounded 17-Hydroxyprogesterone Caproate, 250 mg" is included in the reimbursement fee allowed for this drug. The U9 modifier must always accompany this procedure code when referring to "Compounded 17-

Hydroxyprogesterone Caproate 250 mg."

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

NOTE: Procedure code J7312 is covered for the allowable valid ICD diagnosis codes when the beneficiary has failed oral treatments and is untreatable by any other method. There should be documentation of vein occlusion and studies documenting macular edema. Visual acuity should be noted after the vein occlusion or after failed treatments for uveitis. The patients should be monitored after the injection for elevation in intraocular pressure and endophthalmitis. Counseling of side effects should be documented in the medical record. The history and physical exam including all tests should be sent with the request for prior approval letter.

| <del>J7316</del> | No | 18y & up                | No | Ne | Yes | No  |  |

NOTE: **Jetrea** is a proteolytic enzyme indicated for the treatment of symptomatic vitreomacular adhesion. Immediately following the injection the patient must be monitored for elevation in intraocular pressure. The dose, lot number and manufacturer must be documented. A complete history and physical with visual exam including visual acuity must be submitted with the request for a prior approval letter.

NOTE: Prior authorization is required for coverage of the **Hyaluronon** injection for outpatient hospital providers. Providers must specify the brand name of **Hyaluronon** (sodium hyaluronate) or derivative when requesting prior authorization for this procedure code. A written request must be submitted to the Division of Medical Services Utilization Review Section. The request must include the patient's name, Medicaid ID number, physician's name, physician's Arkansas Medicaid provider identification number, patient's date of birth and medical records that document the severity of osteoarthritis, previous treatments and site of injection. **Hyaluronon** is limited to one injection or series of injections per knee, per beneficiary, per lifetime.

A maximum of three injections per knee are allowed of **Hylan** polymers that are covered by Arkansas Medicaid. If additional injections are administered as part of the initial series, the cost of the additional injections is considered a component of the other approved unit(s) of these injection procedures. Refer to Section 245.031 for Prior Authorization.

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

NOTE: Adcetris — After failure of autologous stem cell transplant (ASCT) or after failure of at least two prior multi-agent chemotherapy regimens in patients who are not ASCT candidates. It is also indicated for patients with systemic anaplastic large cell lymphoma, ICD diagnosis: (View ICD Codes.) after failure of at least one prior multi-agent chemotherapy regimen. Documentation of above criteria must be submitted with current history and physical exam for Prior Approval letter from the Medicaid Director for Clinical Affairs. All previous chemotherapy regimens should be well documented in records submitted. Reasons why patient is not an ASCT candidate should be clearly documented. A treatment cycle maximum of 16 cycles will only be approved. Infusions should only be done in centers with knowledgeable physicians readily available to treat infusion reactions. Patients should be closely monitored for evidence of Progressive Multifocal Leukoencephalopathy (PML) and should be counseled on signs and symptoms. Discussion of risk of PML should be documented in medical records.

J9043 No 18y & up No No Yes Yes

NOTE: This drug is indicated to be used in combination with prednisone for treatment of patients with hormone-refractory metastatic prostate cancer previously treated with decetaxel-containing treatment regimen. This must be well documented in a history and physical exam submitted for prior approval letter. Failure of previous chemotherapy must be well documented. Physicians must be able to manage hypersensitivity reactions appropriately in the setting of the infusion.

See Section 241.000 for prior authorization procedures.

See Section 272.103 for instructions regarding obtaining a Prior Approval Letter.

List 003/103 diagnosis codes include: (View ICD Codes. This link is only active on page 148 of this document.) Diagnosis List 003/103 restrictions apply to ages 21y and above unless otherwise indicated in the age restriction column.

| Procedure<br>Code | Modifier | Age<br>Restriction | Diagnosis | Diagnosis<br>List | Review | PA  |

NOTE: **Kyprolis** is indicated for the treatment of adult patients with multiple myeloma, who have received at least two prior therapies including Velcade and an immunomodulary agent and have demonstrated disease progression on or within 60 days of completion of the last therapy. Approval is based upon response rate. A physical exam and history documenting the above requirements must be included. All monitoring and warnings and precautions from the Federal Drug Administration must be complied with for this drug to be approved. Females should avoid becoming pregnant. Consideration will be on a case-by-case basis.

NOTE: This procedure code is only approved for treatment of metastatic breast cancer in patients who have previously received at least two chemotherapy regimens for the treatment of metastatic disease. Prior therapy should have included an anthracycline and a taxane in either the adjuvant or metastatic setting. A complete history and physical exam is required documenting all prior treatments and the failure of therapy. This drug should only be given by physicians who are well versed in the use of chemotherapy and treatment of any side offects.

NOTE: Supprelin LA: Prior to initiation of treatment, a clinical diagnosis of CPP, ICD code of:

(View ICD Codes.), should be confirmed by measurement of blood concentrations of total sex steroids, luteinizing hormone (LH) and follicle stimulating hormone (FSH) following stimulation with a GnRH analog, and assessment of bone age versus chronological age. Baseline evaluations should include height and weight measurements, diagnostic imaging of the brain (to rule out intracranial tumor), pelvic/testicular/adrenal ultrasound (to rule out steroid secreting tumors), human chorionic gonadotropin levels (to rule out a chorionic gonadotropin secreting tumor) and adrenal steroids to exclude congenital adrenal hyperplasia. All tests and screenings must be documented by medical records and submitted with history and physical examination when requesting prior approval.

J9228 No No No Yes Yes

NOTE: Ipilimumab is indicated for the treatment of unresectable or metastatic melanoma. It should be given every 3 weeks for a total of four doses. Liver function tests, thyroid function tests, and clinical chemistries must be monitored before each dose. The genetic test for BRAF V600E mutation should be done on all patients to determine whether they are candidates for Zelboraf. If positive for the mutation, the patient should first be given a trial of Zelboraf. If the patient fails the trial or does not have the mutation, then they should be considered for Ipilimumab. Ipilimumab should only be prescribed by physicians who are prepared to treat immune mediated complications. Participation in the risk evaluation and mitigation program is essential. Use of Ipilimumab requires a detailed history and physical exam including all previous treatments and clear documentation that the melanoma is not treatable by surgery or has metastasized. Patients considered for treatment with Ipilimumab should be at least 18 years old and have a life expectancy of at least 4 months and have previously been treated with either dacarbazine, temozolomide, carboplatin or interleukin-2. If not treated first with one of these drugs, a detailed letter of medical necessity documenting the reasons for not treating the patient with one of these drugs first is required.

NOTE: **Kadcyla** is a Her2-targeted antibody and microtubule inhibitor conjugate indicated, as a single agent, for the treatment of adults with Her2-positive, metastatic breast cancer, who previously received **traztuzumab** and a **taxane**, separately or in combination. Patients should have either:

1. received prior therapy for metastatic disease,

OR

2. developed disease recurrence during or within six months of completing adjuvant therapy.

All of the above requirements should be documented in a history and physical exam included in the request. All prior treatments should be listed. Approval will be on a case-by-case basis.

NOTE: Marqibo is a vinca alkaloid indicated for the treatment of adult patients with Philadelphia chromosome negative (Ph-) acute lymphoblastic leukemia in second or greater relapse or whose disease has progressed following two or more anti-leukemic therapies. A complete history and physical exam documenting all previous therapies should be submitted. Approval will be on a case-by-case basis.

NOTE: This procedure code is indicated in adults with a diagnosis of metastatic colorectal cancer (mCRC), that is resistant to or has progressed following an oxaliplatin-containing regimen. A complete history and physical exam documenting stage of cancer and all regimens that the patient has been on should be sent.

NOTE: This drug is indicated for the treatment of asymptomatic or minimally symptomatic metastatic castrate resistant (hormone refractory) prostate cancer. Only three doses administered at two week intervals will be approved. There must be clear documentation of use of hormone treatment and documentation of no response by Prostate Specific Antigen levels, abnormal radiology studies showing spread or some other method of determining metastatic disease. Concomitant use of chemotherapy or immunosuppressive medication with this drug has not been studied. This drug will only be approved for centers that have the ability to perform leukapheresis. A detailed medical history and physical exam is required for approval.

## 242.110 Parenteral Hyperalimentation Services

1-1-17<u>10</u> 1-22

One unit of service equals a half-liter of fluid and includes fluids and the equipment and supplies necessary for the administration of the fluids in the beneficiary's place of residence.

# View or print the procedure codes for Hyperalimentation services.

#### 242.120 Enteral (Sole Source) Formulae

<del>12-1-20<u>10-</u> 1-221</del>

The following pages provide the enteral formula HCPCS procedure codes, any associated modifiers, code descriptions, and the formula covered for each HCPCS code. The code description lists the formula included in the category of nutrients.

Modifiers in this section are indicated by the headings M1, M2, and M3.

Enteral formulae are divided into several categories. Each unit of service equals one-hundred (100) calories of formula. All supplies and equipment necessary to administer the nutrients in the beneficiary's place of residence, except the infusion pump and pump supply kit, are included in the unit description.

For beneficiaries from birth through four (4) years of age, the use of modifier **U8**, as well as additional documentation, will be required when a non-WIC formula is prescribed or WIC guidelines are not followed when prescribing special formula.

An EPSDT screening, which documents the PCP's medical rationale for prescribing a formula, as well as medical records documenting the beneficiary's failed trials of WIC formula, must be submitted for review. Flavor preference for formulae will not be considered for medical necessity.

A separate prior authorization must be obtained for the enteral infusion pump and the pump supply kit. The enteral infusion pump and the pump supply kit may be billed separately.

## View or print the procedure codes for Hyperalimentation services.

## **Exceptions to Use of Formula**

The following exceptions must be followed in order to use formulae listed in this section.

- A. Nutramigen LIPIL Sensitivity or allergy to milk or soy protein; chronic diarrhea, food allergies, GI bleeds. Similac Advance must first have been tried.
- B. Nutramigen Enflora LGG Sensitivity or allergy to milk or soy protein; chronic diarrhea, food allergies, Gl bleeds. Similac Advance must first have been tried.
- C. Pregestimil Allergy to milk or soy protein; chronic diarrhea, short gut; cystic fibrosis, fat malabsorption due to GI, or liver disease.

D. Gerber Extensive HA – Allergy to milk or soy protein; severe malnutrition; chronic diarrhea; short bowel syndrome, known or suspected corn allergy. Similar Advance must first have been tried.

- E. Alfamino Junior Allergy to cow's milk, multiple food protein intolerance and food allergy associated conditions: short bowel syndrome, gastroesophageal reflux disease (GERD), eosinophilic esophagitis, malabsorption, and other GI disorders. Neocate Junior with Prebiotics is intended for children over the age of one (1) year.
- F. Alfamino Infant Allergy to cow's milk, multiple food protein intolerance and food allergy associated conditions: short bowel syndrome, gastroesophageal reflux disease (GERD), eosinophilic esophagitis, malabsorption, and other GI disorders. Similac Expert Care Alimentum, Nutramigen or Pregestimil must first have been tried.
- G. Portagen Pancreatic insufficiency, bile acid deficiency, or lymphatic anomalies; biliary atresia; liver disease; chylothorax.
- H. Similac PM 60/40 Renal, cardiac, or other condition that requires lowered minerals.
- I. Periflex Infant PKU; Hyperphenylalaninemia; for infants and toddlers.
- J. PKU Periflex Junior Plus Hyperphenylalaninemia; for children and adults.
- K. Gerber Good Start Premature 24 Preterm, low birth weight. Not intended for feeding low birth weight infants after they reach a weight of 3600 g (approximately eight (8) lbs.). Not approved for an infant previously on term formula or a term infant for increased calories.
- L. Enfamil EnfaCare Preterm infant transitional formula for use between premature formula and term formula. Not approved for an infant previously on term formula or a term infant for increased calories.

NOTE: The Women, Infant, and Children program (WIC) must be accessed before the Medicaid Program for children from birth to five (5) years of age.

The Arkansas Medicaid program mirrors coverage of approved WIC nutritional formulae. As stated in current policy, the WIC Program must be accessed first for Arkansas Medicaid beneficiaries aged zero (0) to five (5) years, prior to requesting supplemental amounts of WIC-approved nutritional formula. The Medicaid nutritional formula list will be updated accordingly to continue compliance with the WIC program in Arkansas. Changes will be reflected in the appropriate Medicaid provider manual.

#### 242.130 Pedia-Pop

**224** 

The following procedure code must be utilized when billing for Pedia-Pop.

# View or print the procedure codes for Hyperalimentation services.

Reimbursement for this product is the provider's cost plus ten percent (10%). Pedia-Pop is covered for eligible Medicaid beneficiaries of all ages. Pedia-Pop is only for oral consumption in frozen form and may not be appropriate for a hyperalimentation diet.

| National<br>Procedure<br>Code | M1 | <del>M2</del> | Description                     | Maximum Units               | Deleted Local<br>Code |

#### 242.142 **Equipment and Supplies for Enteral (Sole Source) Nutrition Therapy** <del>7-1-07</del>10-1-

Equipment and supplies necessary for the administration of enteral (sole source) nutrition therapy in the beneficiary's place of residence are included in the unit reimbursement price. Prior authorization is required for the enteral infusion pump and the pump supply kit and may be billed separately. The prior authorization request for the pump must contain supporting documentation to establish medical necessity (e.g., gravity feeding is not satisfactory due to aspiration, diarrhea, dumping syndrome, etc.).

Prior authorization is indicated by the heading PA. If prior authorization is required, that information is indicated with a "Y" in the column; if not, an "N" is shown.

Hyperalimentation Section II

# 242.143 Reimbursement for the Enteral (Sole Source) Nutrition Infusion Pump

<del>9-1-05<u>10-1-</u> 221</del>

Reimbursement for the enteral (sole source) nutrition infusion pump is based on a rent-to-purchase methodology. Each unit reimbursed by Medicaid will apply towards the purchase price established by Medicaid. Reimbursement will only be approved for new equipment. Used equipment will not be prior authorized.

# View or print the procedure codes for Hyperalimentation services.

Procedure codes **B9000** and **B9002** each represent a new piece of equipment being reimbursed by Medicaid on the rent-to-purchase plan. Both codes are reimbursed on a per unit basis with 1 day equaling 1 unit of service.

The provider may bill for the infusion pump at a maximum of one (1) unit of service per day. Medicaid will reimburse on the rent-to-purchase plan for a total of 304 units of service. After reimbursement has been made for 304 units, the equipment will become the property of the Medicaid beneficiary.

Prior authorization is required for procedure codes **B9000** and **B9002**. The prior authorization request must include the serial number of the infusion pump being provided to the beneficiary.

# 242.145 Equipment Repairs for the Enteral Nutrition Infusion Pump

<del>1-15-11<u>10-</u></del> <u>1-221</u>

Reimbursement for repairs of the enteral nutrition infusion pump requires prior authorization. Repairs will be approved only on equipment purchased by Medicaid. Therefore, no repairs are covered before the equipment becomes the property of the Medicaid beneficiary.

Requests for prior authorization for enteral pump repairs must be mailed to the Utilization Review Section, Division of Medical Services as detailed in Section 220.000 of this manual. The repair invoice and the serial number of the equipment must accompany the prior authorization request form. Total repair costs to an infusion pump may not exceed \$290.93.

Medicaid will not reimburse for additional repairs of an infusion pump after the provider has billed repair invoices totaling \$290.93. If, after billing the Medicaid maximum allowed for repairs, the equipment is still not in proper working order, the provider must supply the beneficiary with a new infusion pump and may bill either procedure code **B9000** or **B9002** after receiving prior authorization for the new piece of equipment.

To bill the Medicaid Program for repairs made to the enteral infusion pump, use the following procedure code.

# View or print the procedure codes for Hyperalimentation services.

\*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the Arkansas Medicaid description.

| Procedure<br>Code | Modifier      | <del>Description</del>  | Prior Authorization Required? |
|-------------------|---------------|---|-------------------------------|
| <del>K0739</del>  | <del>U9</del> | **(Repair or non-routine services for enteral nutrition infusion pump requiring the skill of a technician, parts or labor.) | Yes                           |

Hyperalimentation Section II

# 242.402 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-22<del>1</del>

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges <u>96365 through 96379</u>.

# View or print the procedure codes for Hyperalimentation services.

- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

**TOC** not required

# 214.500 Laboratory and X-Ray Services Referral Requirements

<del>1-15-16<u>10-</u></del> 1-22<del>1</del>

A nurse practitioner referring a Medicaid beneficiary for laboratory, radiology or machine testing services must specify an ICD diagnosis code for each test ordered, *and include in the order*, pertinent supplemental diagnosis supporting the need for the test(s).

- A. Diagnostic facilities, hospital labs and outpatient departments performing reference diagnostics rely on the referring nurse practitioner to establish medical necessity.
- B. The diagnoses provide documentation of medical necessity to the reference diagnostic facilities performing the tests.
- C. Nurse practitioners must follow the Centers for Medicare and Medicaid Services (CMS) requirements for medical claim diagnosis coding when submitting diagnosis coding with their orders for diagnostic tests.
- D. The Medicaid agency will enforce the CMS requirements for diagnosis coding, as those requirements are set forth in the ICD volume concurrent with the referral dates and the claim dates of service.
- E. The following ICD diagnosis codes may not be utilized (View ICD Codes.).

Medicaid regulations regarding collection, handling and/or conveyance of specimens are as follows:

- A. Reimbursement will not be made for specimen handling fees.
- B. A specimen collection fee may be allowed only in circumstances including: (1) drawing a blood sample through venipuncture (e.g., inserting into a vein a needle with syringe or vacutainer to draw the specimen); or, (2) collecting a urine sample by catheterization.

The following procedure codes should be used when billing for specimen collection:

View or print the procedure codes for Nurse Practitioner services.

|  | P9612 | P9615 | <del>36415</del> |  |
|--|-------|-------|------------------|--|
|--|-------|-------|------------------|--|

# NOTE: The P codes listed are the Urinary Collection Codes.

Reimbursement for laboratory procedures requiring a venous blood specimen includes the collection fee when performed by the same provider. If laboratory procedures requiring a venous blood specimen are performed in the office and other laboratory procedures are sent to a reference laboratory on the same date of service, no collection fee may be billed.

Independent laboratories must meet the requirements to participate in Medicare. Independent laboratories may only be paid for laboratory tests they are certified to perform. Laboratory services rendered in a specialty for which an independent laboratory is not certified are not covered and claims for payment of benefits for these services will be denied.

214.620 Risk Management Services for High Risk Pregnancy

<del>7-1-05</del>10-1-224

A nurse practitioner may provide risk management services if he or she employs the professional staff indicated in service descriptions below. If a nurse practitioner does not choose to provide

high-risk pregnancy services but believes the patient would benefit from such services, he or she may refer the patient to a clinic that offers the services.

Covered risk management services described in parts A through E below are considered as one service with a benefit limit of 32 cumulative units. The early discharge home visit described in part F is considered as a separate service.

# A. Risk Assessment

Risk assessment is defined as a medical, nutritional and psychosocial assessment by a nurse practitioner or a registered nurse on the nurse practitioner's staff, to designate patients as high or low risk.

- 1. Medical assessment using the Hollister Maternal and/or Newborn Record System or equivalent form includes:
  - a. Medical history
  - b. Menstrual history
  - c. Pregnancy history
- 2. Nutritional assessment includes:
  - a. 24 hour diet recall
  - b. Screening for anemia
  - c. Weight history
- 3. Psychosocial assessment includes criteria for an identification of psychosocial problems that may adversely affect the patient's health status.

Maximum: 2 units per pregnancy

# B. Case Management Services

Case management services are provided by a nurse practitioner, a licensed social worker or registered nurse to assist pregnant women eligible under Medicaid in gaining access to needed medical, social, educational and other services (e.g., locating a source of services, making an appointment for services, arranging transportation, arranging hospital admission, locating a physician to deliver a newborn, following up to verify that the patient kept her appointment, rescheduling the appointment).

Maximum: 1 unit per month. A minimum of two contacts per month must be provided. A case management contact may be with the patient, other professionals, family and/or other caregivers.

# C. Perinatal Education

Educational classes provided by a health professional (physician, public health nurse, nutritionist or health educator) include:

- Pregnancy
- 2. Labor and delivery
- 3. Reproductive health
- 4. Postpartum care
- 5. Nutrition in pregnancy
- 6. Maximum: 6 classes (units) per pregnancy

# D. Nutrition Consultation — Individual

Nutrition consultation services provided for high-risk pregnant women by a registered dietitian or a nutritionist eligible for registration by the Commission on Dietetic Registration must include at least one of the following:

- 1. An evaluation to determine health risks due to nutritional factors with development of a nutritional care plan
- 2. Nutritional care plan follow-up and reassessment as indicated

Maximum: 9 units per pregnancy

# E. Social Work Consultation

Services provided for high-risk pregnant women by a licensed social worker must include at least one of the following:

- 1. An evaluation to determine health risks due to psychosocial factors with development of a social work care plan
- 2. Social work plan follow-up, appropriate intervention and referrals

Maximum: 6 units per pregnancy

# F. Early Discharge Home Visit

If a physician or certified nurse-midwife chooses to discharge a low-risk mother and newborn from the hospital early (less than 24 hours after delivery), the physician or certified nurse-midwife may provide a home visit to the mother and baby within 72 hours of the hospital discharge. The physician or certified nurse-midwife may request an early discharge home visit from any clinic that provides perinatal services. Visits will be done by the physician or certified nurse-midwife's order (includes a hospital discharge order).

A home visit may be ordered for the mother and/or infant discharged later than 24 hours if there is specific medical reason for home follow-up.

Billing instructions and procedure codes may be found in **Section 252.450**.

# 214.630 Fetal Non-Stress Test

<del>1-15-16<u>10-</u></del> <u>1-221</u>

The fetal non-stress test is *limited to 2 per pregnancy per beneficiary*. If it is necessary to exceed this limit, the nurse practitioner must request an extension of benefits and submit documentation that establishes medical necessity. Refer to Section 214.900 of this manual for procedures to request extension of benefits. Refer to <u>Section 252.451</u> of this manual for billing instructions and the procedure code.

The post-procedural visits are covered within the 10-day period following the fetal non-stress test.

# 215.000 Fluoride Varnish Treatment

8-1-14<u>10-1-</u> 22<del>1</del>

Arkansas Medicaid covers fluoride varnish application, ADA code D1206, performed by physicians who have completed the online training program approved by the Arkansas Department of Health, Office of Oral Health.

# View or print the procedure codes for Nurse Practitioner services.

Eligible physicians may delegate the application to a nurse or other licensed health care professional under his or her supervision that has also completed the online training. The online training course can be accessed at <a href="http://ar.train.org">http://ar.train.org</a>. Each provider must maintain

documentation to establish his or her successful completion of the training and submit a copy of the certificate of completion to Provider Enrollment.

# 252.110 Billing Protocol for Computed Tomographic Colonography (CT) 4-15-1610-1-221

A. The following procedure codes are covered for CT colonography for beneficiaries of all ages.

**View or print the procedure codes for Nurse Practitioner services.** 

| <del>74261</del> <del>74262</del> | 74263 |
|-----------------------------------|-------|
|-----------------------------------|-------|

- B. Billing protocol for CT colonography procedure codes-74261, 74262 and 74263:
  - 1. CT colonography is billable electronically or on paper claims.
  - 2. For the Nurse Practitioner, the above listed procedure codes are only payable for the technical component.

See Section 252.442 for additional information about the technical component.

# 252.130 Special Billing Instructions

<del>1-15-16<u>10-</u></del> <u>1-242</u>

A. Use the following procedure codes for billing.

View or print the procedure codes for Nurse Practitioner services.

| National<br>Code | Procedure Code Description  |
|------------------|---|
| 36430            | Blood or blood components used for transfusions. This includes administration and all supplies used to perform the transfusion.   |
| 40899            | Consideration of any claims with the unlisted procedure codes requires submission on a paper claim. The claim form must include a description of the service being represented by the unlisted code. Documentation that further describes the service provided must be attached and must support medical necessity. |
| T1015            | Procedure code T1015 should be billed for a non-<br>emergency nurse practitioner visit.   |

B. For consideration of any claims with payable CPT or HCPCS unlisted procedure codes, the provider must submit a paper claim that includes a description of the service that is being represented by that unlisted code on the claim form. Documentation that further describes the service provided must be attached and must include justification for medical necessity.

All other billing requirements must be met in order for payment to be approved.

252.131 Molecular Pathology 8-1-21<u>10-1</u>

The following Molecular Pathology codes require prior authorization from the Arkansas Foundation for Medical Care. See Sections 221.000 through 221.300 for prior authorization procedures.

# View or print the procedure codes for Nurse Practitioner services.

# 252.132 Special Billing Requirements for Lab and X-Ray Services

<del>1-15-16<u>10-</u></del> 1-22<del>1</del>

For consideration of payable unlisted CPT/HCPCS drug procedure codes:

- A. The provider must submit a paper claim that includes a description of the drug being represented by the unlisted procedure code on the claim form.
- B. Documentation that further describes the drug provided must be attached and must include justification for medical necessity.
- C. All other billing requirements must be met in order for payment to be approved.

# 252.410 Clinic or Group Billing

4<del>-1-07</del>10-1-224

Providers who wish to have payment made to a group practice or clinic must enroll as a group practice. When billing, enter the Clinic/Group pay-to Provider Identification Number in Field 33 after "GRP#." Enter the performing provider identification number in Field 24K. If more than one nurse practitioner in a group practice provides services for a beneficiary, the clinic may bill for all their services on the same claim limited only by the size of the claim format.

Procedure code 99360 is payable when provided in the inpatient hospital setting by a nurse practitioner.

View or print the procedure codes for Nurse Practitioner services.

# 252.422 **Detention Time (Standby Service)**

10-13-03-

# View or print the procedure codes for Nurse Practitioner services.

Procedure code 99360-must be used by nurse practitioners when billing for detention time.

One unit equals 30 minutes. A maximum of 1 unit per date of service may be billed.

Procedure code <del>99360</del>-is payable when provided in the inpatient hospital setting by a nurse practitioner.

# 252.424 Hospital Discharge Day Management

<del>10-13-03</del>-

<u>224</u>

Procedure code 99238, hospital discharge day management, may not be billed by providers on the same date of service as an initial or subsequent hospital care code, procedures 99221 through 99233. Initial hospital care codes and subsequent hospital care codes may not be billed on the day of discharge.

# 252.426 Specimen Collections

<del>1-15-16<u>10-</u></del> 1-22<del>1</del>

The policy in regard to collection, handling and/or conveyance of specimens is:

- A. Reimbursement will not be made for specimen handling fees.
- B. A specimen collection fee may be allowed only in circumstances including: (1) drawing a blood sample through venipuncture (e.g., inserting into a vein a needle with syringe or vacutainer to draw the specimen); or (2) collecting a urine sample by catheterization.

The following codes should be used when billing for specimen collection:

View or print the procedure codes for Nurse Practitioner services.

| P9612 | <del>P9615</del> |  |  |  |
|-------|------------------|--|--|--|

# 252.428 Services Not Considered a Separate Service from an Office Visit

10-13-03<sub>-</sub> 221

Some services (e.g., pelvic examinations, prostatic massages, removal of sutures, etc.) are not considered a separate service from an office visit. The charge for such services should be included in the office visit charge. Billing should be under the office visit procedure code that reflects the appropriate level of care. Procedure code 57410 should never be used for billing routine pelvic examinations, but should be used only when a pelvic examination is done under general anesthesia.

View or print the procedure codes for Nurse Practitioner services.

# 252.430 Family Planning Services Program Procedure Codes

<del>5-1-17</del>10-1-221

- A. Family planning services are covered for beneficiaries in full coverage aid categories or Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. All procedure codes in these tables require a primary diagnosis code of family planning in each claim detail. Please note: See the tables below within this section to determine restrictions applicable to some procedures. Laboratory procedure codes covered for family planning are listed in Section 252.431.
- B. Sterilization

A copy of the properly completed Sterilization Consent Form (DMS-615), with all items legible, must be attached to each sterilization claim submitted from each provider before payment may be approved. Providers include hospitals, physicians, anesthesiologists and assistant surgeons. It is the responsibility of the physician performing the sterilization procedure to distribute correct legible copies of the signed consent form (DMS-615) to the hospital, anesthesiologist and assistant surgeon.

Though prior authorization is not required, an improperly completed Sterilization Consent Form (DMS-615) results in the delay or denial of payment for the sterilization procedures. The checklist lists the items on the consent form that are reviewed before payment is made for any sterilization procedure. Use this checklist before submitting any consent form and

claim for payment to be sure that all criteria have been met. <u>View or print form DMS-615</u> (English) and the checklist. View or print form DMS-615 (Spanish) and the checklist.

C. The following procedure code table explains the family planning visit services payable to nurse practitioners.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

View or print the procedure codes for Nurse Practitioner services.

| Procedure<br>Code | Modifier(s)  | Description                    |

NOTE: The procedure code with the modifiers indicated below denotes the Arkansas Medicaid description.

| Procedure<br>Code | Modifier(s)       | Description   |
|-------------------|-------------------|---|
| 88302             | <del>FP, U1</del> | Surgical Pathology, Elective Sterilization, Outpatient Professional Service |

Family planning laboratory codes are found in **Section 252.431**.

252.431 Family Planning Laboratory Procedure Codes

<del>5-1-17</del><u>10-1-</u> <u>224</u>

Family planning services are covered for beneficiaries in full coverage aid categories and Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. For eligible beneficiaries, these codes are payable when used for purposes other than family planning. Claims require modifier FP when the service diagnosis indicates family planning.

<sup>\*\*</sup>Reimbursement for laboratory procedures requiring a venous blood specimen includes the collection fee when performed by the same provider. Use modifier FP for family planning services.

A. The following procedure code table contains family planning laboratory procedure codes.

View or print the procedure codes for Nurse Practitioner services.

<sup>\*</sup>Procedure codes <del>88142 and 88143</del> are limited to one unit per beneficiary per state fiscal year.

¤See points B and C below for information regarding this procedure code.

B. Laboratory codes payable to **non-hospital-based nurse practitioners.** 

The following procedure code table contains laboratory services payable to non-hospital-based nurse practitioners.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Procedure<br>Code | Required<br>Modifier(s) | Description   |
|-------------------|-------------------------|---|
| 88302             | EP                      | Surgical Pathology, Complete Procedure, Elective Sterilization  |
| <del>88302</del>  | <del>FP, U3</del>       | Surgical Pathology, Technical Component, Elective Sterilization |

C. Laboratory codes payable to hospital-based nurse practitioners.

The following procedure code table describes the laboratory services payable to hospital-based nurse practitioners.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Procedure<br>Code | Modifier(s)       | Description  |
|-------------------|-------------------|--|
| 88302             | <del>FP, U1</del> | Surgical Pathology, Elective Sterilization, Outpatient Professional Service. |

<sup>\*\*</sup>Payable only to pathologists and independent labs.

<sup>\*\*\*</sup>Requires FP modifier only.

# 252.439 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-22<del>1</del>

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges <u>96365 through 96379</u>.

# View or print the procedure codes for Nurse Practitioner services.

- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

# 252.441 Family/Group Psychotherapy

<del>1-15-16<u>10-</u></del> 1-22<del>1</del>

The following psychotherapy procedure codes are payable by the Arkansas Medicaid Program for family/group psychotherapy:

# View or print the procedure codes for Nurse Practitioner services.

| National Codes |       |       |
|----------------|-------|-------|
| 90847          | 90849 | 90853 |

Procedure codes 90847 and 90849 are payable when the place of service is the beneficiary's home, the physician's office, a hospital or a nursing home. Procedure code 90847 is payable only when the patient is present during the treatment. Procedure codes 90849 and 90853 are payable when the patient is not present; however, the patient may be present during the session, when appropriate.

# 252.443 Other Covered Injections

<del>7-1-07</del>10-1-221

Nurse practitioners billing the Arkansas Medicaid Program for injections for treatment or immunization purposes should bill the appropriate CPT or HCPCS procedure code for the specific injection provided. The immunization procedure codes and descriptions may be found in the CPT coding book and in this section of this manual.

Providers may bill the immunization procedure codes on either the Child Health Services (EPSDT) DMS-694 claim form or the CMS-1500 form.

If the patient is scheduled for immunization only, the provider will <u>not</u> be permitted to bill for an office visit, but for the immunization only.

The following is an alphabetized list of injections with special instructions for coverage and billing.

| Procedure Code   | Procedure Description   |
|------------------|---|
| J0170            | Adrenaline, Epinephrine, Injection, up to 1 ml ampule. (Payable if performed on an emergency basis and is provided in the physician's office.)  |
| <del>J2996</del> | Alteplase recombinant, Injection, 10 mg (Payable for eligible Medicaid beneficiaries of all ages.)  |
| 90581*           | Anthrax vaccine, for subcutaneous use. Requires paper billing.  |
| <del>J2910</del> | Aurothioglucose, Injection, up to 50 mg. (Payable for patients with a diagnosis of rheumatoid arthritis.)   |
| J0702            | Betamethasone acetate and Betamethasone sodium phosphate, injection, per 3 mg (Payable for beneficiaries of all ages. However, if the beneficiary is aged 21 or older the injection is covered only for malignant neoplasm, diagnosis code range 140–208.9 or complications related to pregnancy, diagnosis code range 640-648.9) |
| J0585*           | Botulinum toxin type A, per unit. (Payable for eligible Medicaid beneficiaries of all ages when medically necessary.) Requires paper billing.   |
| J0636            | Calcitriol, Injection, 1 mcg ampule (This code is payable for eligible Medicaid beneficiaries of all ages receiving dialysis due to acute renal failure, diagnosis codes 584-586.)  |
| J1100            | Dexamethasone sodium phosphate, injection, 1 mg (Payable for beneficiaries of all ages. However, if the beneficiary is aged 21 or older the injection is covered only for diagnoses of malignant neoplasm, code range 140–208.9 or for complications relating to pregnancy, code range 640–648.9)                                 |
| Q0187            | Factor VIIa (coagulation factor, recombinant) for treatment of bleeding episodes in hemophilia A or B patients with inhibitors to Factor VIII or Factor IX. Arkansas Medicaid will approve payment for Factor VIIa only when the primary diagnosis is 286.0, 286.1, 286.2 or 286.4.   |
| J1460            | Gamma globulin injections, intramuscular, 1 cc (covered for all ages with no diagnosis restrictions)  |

| Procedure Code    | Procedure Description   |
|-------------------|---|
| J1470             | Gamma globulin injections, intramuscular, 2 cc (covered for all ages with no diagnosis restrictions)  |

| 90660*            | Influenza virus vaccine, live, for intranasal use   |
| 90659             | Influenza virus vaccine, whole virus, for intramuscular or jet injection use. (Payable for eligible Medicaid beneficiaries age 12 and older.)   |
| <del>J1750</del>  | Iron dextran, injection, 50 mg (Payable for eligible Medicaid beneficiaries of all ages receiving dialysis due to acute renal failure.)   |
| 90735             | Japanese encephalitis virus vaccine, for subcutaneous use (payable for under age 21.)   |
| <del>J9219</del>  | Leuprolide acetate implant, 65 mg (Effective for dates of service on or after July 1, 2003. This procedure code is covered for males of all ages with ICD-9-CM diagnosis codes 185, 198.82 or V10.46. Benefit limit is one procedure every 12 months. |
| J2260             | Milrinone Lactate (Primacor), per 5 ml (payable for eligible Medicaid beneficiaries of all ages with congestive heart failure (diagnosis codes 428-428.9) with places of service "2", "X", "3" or "4."  |

| Procedure Code   | Procedure Description  |  |
|------------------|--|--|
| 90732            | Pneumococcal polysaccharide vaccine 23-valent, adult dosage, for subcutaneous or intramuscular use. (This code is payable for eligible Medicaid beneficiaries age 12 and over. Patients age 21 and older who receive the injection should be considered by the provider as high risk. All beneficiaries over age 65 may be considered high risk.)                                |  |
| <del>J2790</del> | Rho D immune globulin, injection, human, one dose package 300 mcg, (RhoGAM). (Limited to one injection per pregnancy.)   |  |
| <del>J2916</del> | Sodium ferric gluconate complex in sucrose injection, 62.5 mg (Covered for Medicaid eligible beneficiaries of all ages who are allergic to iron dextran. However, if the patient is aged 21 and over there must be a diagnosis of malignant neoplasm (diagnosis code range 140.0-208.91, HIV disease (diagnosis code 042), or acute renal failure (diagnosis code range 584-586) |  |
| 90703            | Tetanus toxoid, absorbed, for intramuscular or jet injection use. (Payable for eligible Medicaid beneficiaries of all ages.)   |  |
| <del>J3420</del> | Vitamin B-12 cyanocobalamin, Injection, up to 1000 mcg. (Payable for patients with a diagnosis of pernicious anemia. Code includes the B-12, administration and supplies and may not be billed by units.)  |  |

<sup>\*</sup> Procedure code requires paper billing.

|                | Required       |                  |   |
|----------------|----------------|------------------|---|
| National Code  | Modifier       | Local Code       | Local Code Description  |
| 90371          |                | <del>Z1757</del> | Hepatitis B Immune Serum Globulin (ISG) (One unit equals 1/2 cc with a maximum of 10 units billable per day.) (Payable for eligible Medicaid beneficiaries of all ages in the physician's office, nurse practitioner's office, outpatient hospital or dialysis facility.)           |
| 90385<br>J2788 |                | <del>Z2501</del> | Rho (D) immune globulin, injection, human, one pre-filled single dose syringe, 50 mcg, MICRhoGAM. (Limited to one per pregnancy.)   |
| 90707          | <del>U</del> 1 | <del>Z2633</del> | Maternal Measles/Mumps/Rubella (MMR) (Payable when provided to women of childbearing age, ages 21 through 44, who may be at risk of exposure to these illnesses. Coverage is limited to two (2) injections per lifetime.)   |
| 90669          | _              | <del>Z2691</del> | Prevnar™ vaccine (pneumoccal 7-valent), pediatric (This vaccine should be given in four doses at 2, 4, 6 and 12 to 15 months of age. Older children ages 24 to 59 months may receive the vaccine if they have special health conditions. Reimbursement is for administration only.) |

NOTE: Where both a national code and a local code ("Z code") are available, the local code can be used only for dates of service through October 15, 2003; the national code must be used for both electronic and paper claims for dates of service after October 15, 2003. Where only a local code is available, it can be used indefinitely, but it can be billed only on a paper claim. Where only a national code is available, it can be used indefinitely for both electronic and paper claims.

252.444 Billing Procedures for Rabies Immune Globulin and Rabies Vaccine

10-13-03<sub>-</sub> 221

The following CPT procedure codes are covered for all ages without diagnosis restrictions.

View or print the procedure codes for Nurse Practitioner services.

| 90375 | 90376 | 90675 | 90676 |  |  |  |
|-------|-------|-------|-------|--|--|--|
|-------|-------|-------|-------|--|--|--|

These procedure codes require billing on a paper claim with the dosage entered in the units column of the claim form for each date of service. The manufacturer's invoice must be attached to each claim. Reimbursement for each of these procedure codes includes an administrations fee. Medical policy and billing procedures have <u>not</u> changed for these procedure codes.

# 252.448 Medication Assisted Treatment and Opioid Use Disorder Treatment 9-1-2010-1-Drugs

Effective for dates of service on and after **September 1**, **2020**, Medication Assisted Treatment for Opioid Use Disorders is available to all qualifying Medicaid beneficiaries when provided by providers who possess an X-DEA license on file with Arkansas Medicaid Provider Enrollment for billing purposes. All rules and regulations promulgated within the Physician's provider manual for provision of this service must be followed.

Effective for dates of services on and after **October 1, 2018**, the following Healthcare Common Procedure Coding System Level II (HCPCS) procedure codes are payable:

# View or print the procedure codes for Nurse Practitioner services.

- 1. J2315 Injection, naltrexone, depot form, 1 mg
- 2. J0570 Buprenorphine implant, 74.2 mg
- 3. Q9991 Injection, buprenorphine extended release (Sublocade), less than or equal to 100 mg
- 4. Q9992 Injection, buprenorphine extended release (Sublocade), greater than 100 mg

To access prior approval of these HCPCS procedure codes when necessary, refer to the Pharmacy Memorandums, Criteria Documents and forms found at the <a href="DHS contracted">DHS contracted</a> <a href="Pharmacy vendor website">Pharmacy vendor website</a>.

# 252.449 Influenza Virus Vaccine

<del>7-1-07<u>10-1</u> 22</del>2

# View or print the procedure codes for Nurse Practitioner services.

A. Procedure code-90655, influenza virus vaccine, split virus, preservative free, for children 6 to 35 months, is currently covered through the VFC program. Claims for Medicaid beneficiaries must be filed using modifiers EP and TJ.

For ARKids First-B beneficiaries, use modifier **TJ**.

B. Effective for dates of service on and after October 1, 2005, Medicaid will cover procedure code-90656, influenza virus vaccine, split virus, preservative free, for ages 3 years and older.

- 1. For individuals under 19 years of age, claims must be filed using modifiers **EP** and **TJ**.
- 2. For ARKids First-B beneficiaries, use modifier **TJ**.
- 3. For individuals ages 19 and older, no modifier is necessary.
- C. Effective for dates of service on and after October 1, 2005, procedure code 90660, influenza virus vaccine, live, for intranasal use, is covered. Coverage is limited to healthy individuals ages 5 through 49 who are not pregnant.
  - 1. When filing claims for children 5 through 18 years of age, use modifiers **EP** and **TJ**.
  - 2. For ARKids First-B beneficiaries, the procedure code must be billed using modifier **TJ**.
  - 3. No modifier is required for filing claims for beneficiaries ages 19 through 49.
- D. Procedure code-90657, influenza virus vaccine, split virus, for children ages 6 through 35 months, is covered. Modifiers **EP** and **TJ** are required.

For ARKids First-B beneficiaries, use modifier **TJ**.

- E. Procedure code-90658, influenza virus vaccine, split virus, for use in individuals ages 3 years and older, will continue to be covered.
  - 1. When filing paper claims for individuals under age 19, use modifiers **EP** and **TJ**.
  - 2. For ARKids First-B beneficiaries, use modifier **TJ**.
  - 3. No modifier is required for filing claims for beneficiaries aged 19 and older.

# 252.450 Obstetrical Care and Risk Management Services for Pregnancy

<del>12-5-05<u>10-</u></del> <u>1-22</u>4

Covered nurse practitioner obstetrical services are limited to antepartum and postpartum care only. Claims for antepartum and postpartum services are filed using the appropriate office visit CPT procedure code.

A nurse practitioner may provide risk management services listed below if he or she receives a referral from the patient's physician or certified nurse-midwife and if the nurse practitioner employs the professional staff required. Complete service descriptions and coverage information may be found in Section 214.620 of this manual. The services in the list below are considered to be one service and are limited to 32 cumulative units.

| National<br>Code | Required Modifiers    | Description                              |
|------------------|-----------------------|--|
| 99402            | <del>SA, U1, UA</del> | Risk Assessment                          |
| 99402            | <del>SA, U4, UA</del> | Case Management Services, low-risk case  |
| 99402            | <del>SA, U5, UA</del> | Case Management Services, high risk case |
| 99402            | <del>SA, UA</del>     | Perinatal Education                      |
| 99402            | <del>SA, U3, UA</del> | Social Work Consultation                 |
| 99402            | <del>SA, U2, UA</del> | Nutrition Consultation Individual        |
|                  |                       |  |

For an early discharge home visit, use one of the applicable CPT procedure codes: 99341, 99347, 99348 and 99349.

# 252.451 Fetal Non-Stress Test

10-13-03<sub>-</sub> 224

The Fetal Non-Stress Test (procedure code-59025) is limited to 2 per pregnancy. If it is necessary to exceed this limit, the nurse practitioner must request an extension of benefits and submit documentation that establishes medical necessity.

View or print the procedure codes for Nurse Practitioner services.

# 252.452 Newborn Care

4<del>-23-10<u>10-</u> 1-221</del>

All newborn services must be billed under the newborn's own Medicaid identification number.

The parent(s) of the newborn will be responsible for applying for and meeting eligibility requirements for a newborn to be certified eligible. If the newborn is not certified as Medicaid eligible, the parent(s) will be responsible for the charges incurred by the newborn.

# View or print the procedure codes for Nurse Practitioner services.

For routine newborn care following a vaginal delivery or C-section, procedure codes 99460, 99461 or 99463 must be used one time to cover all newborn care visits by the attending physician, certified nurse-midwife or, if applicable, a nurse practitioner.

The newborn care procedure codes **99460**, **99461** and **99463** represent the initial Child Health Services (EPSDT) newborn care/screen. This screening includes the physical exam of the baby and the conference(s) with the newborn's parent(s). Payment of these codes is considered a global rate, and subsequent visits may not be billed in addition to these codes.

Procedure codes 99460, 99461 and 99463 may be billed on the EPSDT screening paper form DMS-694 or on the electronic claim transaction format. These codes may also be filed on the CMS-1500; paper or electronically. For information on the Child Health Service (EPSDT) Program, call the Provider Assistance Center. View or print Provider Assistance Center contact information.

For illness care (e.g., neonatal jaundice), use procedure codes 99221 through 99233. Do not use procedure codes 99460, 99461 and 99463 in addition to these codes.

Note the descriptions, modifiers and required diagnosis range. The newborn care procedure codes require a modifier and a primary detail diagnosis of V30.00-V37.21 for all providers. Refer to the appropriate manual(s) for additional information about newborn screenings.

ARKids A (EPSDT) requires an EPSDT claim form or CMS-1500 claim form and may be billed electronically or on paper.

| Procedure<br>Code | Modifier | Description   |
|-------------------|----------|---|
| 99460             | UA       | Initial hospital/birthing center care, normal newborn (global)  |
| 99461             | UA       | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463             | UA       | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

ARKids First B requires a CMS-1500 claim form and may be billed electronically or on paper.

| Procedure |                 |   |
|-----------|-----------------|---|
| Code      | <b>Modifier</b> | Description   |
| 99460     | UA              | Initial hospital/birthing center care, normal newborn (global)  |
| 99461     | UA              | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463     | UA              | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

252.453 Fluoride Varnish Treatment

8<del>-1-21</del>10-1-221

# View or print the procedure codes for Nurse Practitioner services.

The American Dental Association (ADA) procedure code D1206 is covered by the Arkansas Medicaid Program. This code is payable for beneficiaries under the age of twenty-one (21). Topical fluoride varnish application benefit is covered every six (6) months plus one (1) day for beneficiaries under age twenty-one (21).

A new specialty code, FC-Fluoride Certification will be tied to provider types 01, 03, 58 and 69. These providers must send proof of their fluoride varnish certification to DHS or its designated vendor before the specialty code will be added to their file in the MMIS. <u>View or print contact information to obtain the DHS or designated vendor step-by-step process for provider enrollment</u>. After the specialty code, FC-Fluoride Certification, is added to the provider's file, the provider will be able to bill for procedure code <u>D1206</u>, Topical Application of Fluoride Varnish.

Providers must check the Supplemental Eligibility Screen to verify that topical fluoride varnish benefit of two (2) per State Fiscal Year (SFY) has not been exhausted. If further treatment is needed due to severe periodontal disease, then the beneficiary must be referred to a Medicaid dental provider.

NOTE: This service is billed on form CMS-1500 with ADA procedure code D1206 (Topical application of fluoride varnish (prophylaxis not included) – child (ages 0-20)).

View a form CMS-1500 sample form.

# 252.454 Tobacco Cessation Products and Counseling Services

<del>2-1-20<u>10-1-</u></del> 224

A. Tobacco cessation counseling and products are covered services to eligible Medicaid beneficiaries. Tobacco cessation products either prescribed or initiated through statewide pharmacist protocol are available without prior authorization (PA) to eligible Medicaid beneficiaries. Additional information can be found on the <a href="DHS Contracted Pharmacy">DHS Contracted Pharmacy</a> Vendor website or in the Prescription Drug Program Prior Authorization Criteria.

| Current<br>Procedure<br>Code | Current<br>Modifier | Arkansas Medicaid Description                          |
|------------------------------|---------------------|--|
| <del>99406*</del>            | SE                  | **(Smoking and tobacco use cessation counseling visit; |

| Current<br>Procedure<br>Code | Current<br>Modifier | Arkansas Medicaid Description  |
|------------------------------|---------------------|--|
|                              |                     | intermediate, 15-minutes)  |
| <del>99406*</del>            | <del>CG</del>       | ** (Smoking and tobacco use cessation counseling visit, intermediate, 15-minutes provided to parents of children birth through twenty (20) years of age) |
| 99407*                       | SE                  | **(Smoking and tobacco use cessation counseling visit; intensive, 30-minutes)  |
| 99407*                       | CG                  | ** (Smoking and tobacco use cessation counseling visit, intensive, 30-minutes provided to parents of children birth through twenty (20) years of age)    |

<sup>\*</sup>Exempt from PCP referral requirements.

- \*(...)This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.
- B. Two (2) Counseling visits per state fiscal year.
- C. Health education can include but is not limited to tobacco cessation counseling services to the parent/legal guardian of the child.
- Can be billed in addition to an office visit or EPSDT.
- E. Sessions do not require a PCP referral.
- F. If the beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counselling sessions limit described in section C above.

The provider must complete the counseling checklist and place in the patient records for audit. A copy of the checklist is available at **View or Print Be Well Arkansas Referral Form**.

# 252.455 Physical Therapy Services Billing

<del>1-15-16<u>10-</u></del> <u>1-221</u>

Occupational therapy evaluations and services are payable only to a qualified occupational therapist. Physical therapy evaluations are payable to the nurse practitioner. Physical therapy may be payable to the physician when directly provided in accordance with the Occupational, Physical, Speech Therapy Services Manual. The following procedure codes must be used when filing claims for physician provided therapy services. See Glossary - Section IV - for definitions of "group" and "individual" as they relate to therapy services.

| Physical Therapy  |             |                             |   |
|-------------------|-------------|-----------------------------|---|
| Procedure<br>Code | Modifier(s) | <del>Description</del>      | Benefit Limit                               |
| 97110             |             | Individual Physical Therapy | 15-minute unit. Maximum of 4 units per day. |

| Physical Therapy  |             |  |   |
|-------------------|-------------|--|---|
| Procedure<br>Code | Modifier(s) | <del>Description</del>                                       | Benefit Limit   |
| 97110             | UB          | Individual Physical Therapy by<br>Physical Therapy Assistant | 15-minute unit. Maximum of 4 units per day.                                 |
| 97150             |             | Group Physical Therapy                                       | 15-minute unit. Maximum of 4 units per day; Maximum of 4 clients per group. |
| 97150             | UB          | Group Physical Therapy by<br>Physical Therapy Assistant      | 15-minute unit. Maximum of 4 units per day; Maximum of 4 clients per group. |

A provider must furnish a full unit of service to bill Medicaid for a unit of service. Partial units are not reimbursable. Extended therapy services may be requested for physical and speech therapy, if medically necessary, for eligible Medicaid beneficiaries of all ages.

252.456 Laboratory Procedures for Highly Active Antiretroviral Therapy (HAART)

10-1-22<del>1</del>1-15-16

The following CPT procedure codes are covered for Medicaid beneficiaries.

View or print the procedure codes for Nurse Practitioner services.

| Procedure<br>Code | Limitations                                |
|-------------------|--|
| 87901             | A maximum of 12 units per 12 month period. |
| 87903             | A maximum of 1 unit per year.              |
| 87904             | This procedure code is an add-on code.     |
| 87906             | 1 unit per day.                            |

# 252.457 Procedures That Require Prior Authorization

<del>1-15-16</del><u>10-</u> 1-22<del>1</del>

A. The following procedure code requires prior authorization by the Arkansas Foundation for Medical Care (AFMC). (See Section 220.000 of this manual for prior authorization instructions.)

20974

B. The following Molecular Pathology codes require prior authorization from AFMC.

| 81161 | 81200            | 81201            | 81202 | 81203            | 81205            | <del>81206</del> | 81207            |

# 252.462 Non-Emergency Services

<del>1-15-16<u>10-</u> 1-221</del>

Procedure code T1015-should be billed for a non-emergency nurse practitioner visit.

View or print the procedure codes for Nurse Practitioner services.

# 252.484 Injections, Therapeutic and/or Diagnostic Agents

8-10-1-221

Nurse practitioners shall administer injections, therapeutic and diagnostic agents in accordance with the rules set forth in the Arkansas Medicaid Physician's policy manual and within the scope of their practice guidelines.

**TOC** not required

# 213.000 Outpatient Behavioral Health Services Program Entry

<del>10-1-22<u>1</u>3</del> 1-19

Prior to continuing provision of Counseling Level Services, the provider must document medical necessity of Outpatient Behavioral Health Counseling Services. The documentation of medical necessity is a written intake assessment that evaluates the beneficiary's mental condition and, based on the beneficiary's diagnosis, determines whether treatment in the Outpatient Behavioral Health Services Program is appropriate. This documentation must be made part of the beneficiary's medical record.

The intake assessment, either the Mental Health Diagnosis (CPT Code 90791), Substance Abuse Assessment (CPT Code H0001), or Psychiatric Assessment (CPT Code 90792), must be completed prior to the provision of Counseling Level Services in the Outpatient Behavioral Health Services program. This intake will assist providers in determining services needed and desired outcomes for the beneficiary. The intake must be completed by a mental health professional qualified by licensure and experienced in the diagnosis and treatment of behavioral health and/or substance use disorders.

# View or print the procedure codes for OBHS services.

# 231.100 Prior Authorization

10-1-22<del>1</del>3-

Prior Authorization is required for certain Outpatient Behavioral Health Services provided to Medicaid-eligible beneficiaries.

Prior Authorization requests must be sent to the DMS contracted entity to perform prior authorizations for beneficiaries under the age of 21 and for beneficiaries age 21 and over for services that require a Prior Authorization. View or print current contractor contact information. Information related to clinical management guidelines and authorization request processes is available at current contractor's website.

| H0001          | ₩4                | Substance Abuse<br>Assessment   |

Beneficiaries being treated by an Outpatient Behavioral Health Service provider for a mental health disorder who also have a co-occurring substance use disorder(s), this (these) substance use disorder(s) is (are) listed as a secondary diagnosis. Outpatient Behavioral Health Service Agency providers that are certified to provide Substance Abuse services may also provider substance abuse treatment to their behavioral health clients. In the provision of Outpatient Behavioral Health mental health services, the substance use disorder is appropriately focused on with the client in terms of its impact on and relationship to the primary mental health disorder.

A Behavioral Health Agency and Independently Licensed Practitioner may provide substance abuse treatment services to beneficiaries who they are also providing mental health/behavioral health services to. In this situation, the substance abuse disorder must be listed as the secondary diagnosis on the claim with the mental health/behavioral health diagnosis as the primary diagnosis.

| 90853, U4, U5 — Substance Abuse   |  |
| SERVICE DESCRIPTION   | MINIMUM DOCUMENTATION REQUIREMENTS   |
| Group Behavioral Health Counseling is a face-to-face treatment provided to a group of beneficiaries. Services leverage the emotional interactions of the group's members to assist in each beneficiary's treatment process, support his/her rehabilitation effort, and to minimize relapse. Services pertain to a beneficiary's (a) Mental Health and/or (b) Substance Abuse condition. Additionally, tobacco cessation counseling is a component of this service.  Services must be congruent with the age and abilities of the beneficiary, client-centered and strength-based; with emphasis on needs as identified by the beneficiary and provided with cultural competence.  | <ul> <li>Date of Service</li> <li>Start and stop times of actual group encounter that includes identified beneficiary</li> <li>Place of service</li> <li>Number of participants</li> <li>Diagnosis</li> <li>Focus of group</li> <li>Brief mental status and observations</li> <li>Rationale for group counseling must coincide with Mental Health Assessment</li> <li>Beneficiary's response to the group counseling that includes current progress or regression and prognosis</li> <li>Any changes indicated for diagnosis, or medication concerns</li> <li>Plan for next group session, including any homework assignments and/ or crisis plans</li> <li>Staff signature/credentials/date of signature</li> </ul> |
| NOTES   | UNIT BENEFIT LIMITS  |
| This does NOT include psychosocial groups. Beneficiaries eligible for Group Behavioral Health Counseling must demonstrate the ability to benefit from experiences shared by others, the ability to participate in a group dynamic process while respecting the others' rights to confidentiality, and must be able to integrate feedback received from other group members. For groups of beneficiaries aged 18 and over, the minimum number that must be served in a specified group is 2. The maximum that may be served in a specified group is 12. For groups of beneficiaries under 18 years of age, the minimum number that must be served in a specified group is 2. The maximum that may be served in a specified group is 10. A beneficiary must be 4 years of age to receive group therapy. Group treatment must be age and developmentally appropriate, (i.e., 16 year olds and 4 year olds must not be treated in the same group). Providers may bill for services only at times during which beneficiaries participate in group activities | Encounter  DAILY MAXIMUM OF ENCOUNTERS THAT MAY BE BILLED: 1  YEARLY MAXIMUM OF ENCOUNTERS THAT MAY BE BILLED (extension of benefits can be requested):  Counseling Level Beneficiary: 12 encounters   |

NOTES

parent/caregiver & child for dyadic treatment of children age 0 through 47 months & parent/caregiver. Dyadic treatment must be prior authorized and is only available for beneficiaries in Tier 1. Dyadic Infant/Caregiver Psychotherapy is a behaviorally based therapy that involves improving the parent-child relationship by transforming the interaction between the two parties. The primary goal of Dyadic Infant/Parent Psychotherapy is to strengthen the relationship between a child and his or her parent (or caregiver) as a vehicle for restoring the child's sense of safety, attachment, and appropriate affect and improving the child's cognitive, behavioral, and social functioning. This service uses child directed interaction to promote interaction between the parent and the child in a playful manner. Providers must utilize a national recognized evidence based practice. Practices include, but are not limited to, Child-Parent Psychotherapy (CPP) and Parent Child Interaction Therapy (PCIT).

| SERVICE DESCRIPTION  | MINIMUM DOCUMENTATION REQUIREMENTS   |  |  |
| Multi-Family Behavioral Health Counseling is a group therapeutic intervention using face-to-face verbal interaction between two (2) to a maximum of nine (9) beneficiaries and their family members or significant others. Services are a more cost-effective alternative to Marital/Family Behavioral Health Counseling, designed to enhance members' insight into family interactions, facilitate inter-family emotional or practical support and to develop alternative strategies to address familial issues, problems and needs. Services may pertain to a beneficiary's (a) Mental Health or (b) Substance Abuse condition. Additionally, tobacco cessation counseling is a component of this service. Services must be congruent with the age and abilities of the beneficiary, client-centered and strength-based; with emphasis on needs as identified by the beneficiary and family and provided with cultural competence. | <ul> <li>Date of Service</li> <li>Start and stop times of actual encounter with beneficiary and/or spouse/family</li> <li>Place of service</li> <li>Participants present</li> <li>Nature of relationship with beneficiary</li> <li>Rationale for excluding the identified beneficiary</li> <li>Diagnosis and pertinent interval history</li> <li>Rationale for and objective used to improve the impact the beneficiary's condition has on the spouse/family and/or improve marital/family interactions between the beneficiary and the spouse/family.</li> <li>Spouse/Family response to treatment that includes current progress or regression and prognosis</li> <li>Any changes indicated for the master treatment plan, diagnosis, or medication(s)</li> <li>Plan for next session, including any homework assignments and/or crisis plans</li> <li>HIPAA compliant Release of Information forms, completed, signed and dated</li> <li>Staff signature/credentials/date of signature</li> </ul> |  |  |

| CPT®/HCPCS PROCEDURE CODE  | PROCEDURE CODE DESCRIPTION   |  |
|--|--|--|
| View or print the procedure codes for OBHS services. H0001, U4   | Alcohol and/or drug assessment   |  |
| SERVICE DESCRIPTION  | MINIMUM DOCUMENTATION REQUIREMENTS   |  |
| Substance Abuse Assessment is a service that identifies and evaluates the nature and extent of a beneficiary's substance abuse condition using the Addiction Severity Index (ASI) or an assessment instrument approved by DAABHS and DMS. The assessment must screen for and identify any existing co-morbid conditions. The assessment should assign a diagnostic impression to the beneficiary, resulting in a treatment recommendation and referral appropriate to effectively treat the condition(s) identified.  Services must be congruent with the age and abilities of the beneficiary, client-centered and strength-based; with emphasis on needs as identified by the beneficiary and provided with cultural competence. | <ul> <li>Date of Service</li> <li>Start and stop times of the face-to-face encounter with the beneficiary and the interpretation time for diagnostic formulation</li> <li>Place of service</li> <li>Identifying information</li> <li>Referral reason</li> <li>Presenting problem(s), history of presenting problem(s), including duration, intensity, and response(s) to prior treatment</li> <li>Culturally and age-appropriate psychosocial history and assessment</li> <li>Mental status/Clinical observations and impressions</li> <li>Current functioning and strengths in specified life domains</li> <li>DSM diagnostic impressions</li> <li>Treatment recommendations and prognosis for treatment</li> </ul> |  |
|  | Staff signature/credentials/date of signature  |  |
| NOTES  | UNIT BENEFIT LIMITS  |  |
| The assessment process results in the assignment of a diagnostic impression, beneficiary recommendation for treatment regimen appropriate to the condition and situation presented by the beneficiary, initial plan (provisional) of care and referral to a service appropriate to effectively treat the condition(s) identified. If indicated, the assessment process must refer the beneficiary for a psychiatric consultation   | Encounter  DAILY MAXIMUM OF ENCOUNTERS THAT MAY BE BILLED: 1  YEARLY MAXIMUM OF ENCOUNTERS THAT MAY BE BILLED (extension of benefits can be requested): 1  |  |

## **SERVICE DESCRIPTION**

Pharmacologic Management is a service tailored to reduce, stabilize or eliminate psychiatric symptoms with the goal of improving functioning, including management and reduction of symptoms. This service includes evaluation of the medication prescription, administration, monitoring, and supervision and informing beneficiaries regarding medication(s) and its potential effects and side effects in order to make informed decisions regarding the prescribed medications. Services must be congruent with the age, strengths, and accommodations necessary for disability and cultural framework.

Services must be congruent with the age and abilities of the beneficiary, client-centered and strength-based; with emphasis on needs as identified by the beneficiary and provided with cultural competence.

## MINIMUM DOCUMENTATION REQUIREMENTS

- Date of Service
- Start and stop times of actual encounter with beneficiary
- Place of service (When 99 is used for telemedicine, specific locations of the beneficiary and the physician must be included)
- Diagnosis and pertinent interval history
- Brief mental status and observations
- Rationale for and treatment used that must coincide with the Psychiatric Assessment
- Beneficiary's response to treatment that includes current progress or regression and prognosis
- Revisions indicated for the diagnosis, or medication(s)
- Plan for follow-up services, including any crisis plans
- If provided by physician that is not a psychiatrist, then any off label uses of medications should include documented consult with the overseeing psychiatrist within 24 hours of the prescription being written
- Staff signature/credentials/date of signature

#### SERVICE DESCRIPTION

Crisis Intervention is unscheduled, immediate, short-term treatment activities provided to a Medicaid-eligible beneficiary who is experiencing a psychiatric or behavioral crisis. Services are to be congruent with the age, strengths, needed accommodation for any disability, and cultural framework of the beneficiary and his/her family. These services are designed to stabilize the person in crisis, prevent further deterioration and provide immediate indicated treatment in the least restrictive setting. (These activities include evaluating a Medicaid-eligible beneficiary to determine if the need for crisis services is present.)

Services are to be congruent with the age, strengths, needed accommodation for any disability, and cultural framework of the beneficiary and his/her family.

stabilized, this must be noted in the

#### MINIMUM DOCUMENTATION REQUIREMENTS

- Date of service
- Start and stop time of actual encounter with beneficiary and possible collateral contacts with caregivers or informed persons
- Place of service
- Specific persons providing pertinent information in relationship to beneficiary
- Diagnosis and synopsis of events leading up to crisis situation
- Brief mental status and observations
- Utilization of previously established psychiatric advance directive or crisis plan as pertinent to current situation OR rationale for crisis intervention activities utilized
- Beneficiary's response to the intervention that includes current progress or regression and prognosis
- Clear resolution of the current crisis and/or plans for further services
- Development of a clearly defined crisis plan or revision to existing plan
- Staff signature/credentials/date of signature(s)

#### UNIT **NOTES BENEFIT LIMITS** A psychiatric or behavioral crisis is defined as 15 minutes DAILY MAXIMUM OF an acute situation in which an individual is UNITS THAT MAY BE experiencing a serious mental illness or BILLED: 12 emotional disturbance to the point that the beneficiary or others are at risk for imminent harm or in which to prevent significant YEARLY MAXIMUM deterioration of the beneficiary's functioning. | SERVICE DESCRIPTION  | MINIMUM DOCUMENTATION REQUIREMENTS  |  |  |
| Substance Abuse Detoxification is a set of interventions aimed at managing acute intoxication and withdrawal from alcohol or other drugs. Services help stabilize beneficiaries by clearing toxins from the beneficiary's body. Services are short-term and may be provided in a crisis unit, inpatient, or outpatient setting, and may include evaluation, observation, medical monitoring, and addiction treatment. Detoxification seeks to minimize the physical harm caused by the abuse of substances and prepares the beneficiary for ongoing treatment. |   |  |  |

#### 242.110 Private Duty Nursing Services Procedure Codes

<del>-1-09<u>10-1-</u> 22</del>1

The following procedure codes are applicable when billing the Arkansas Medicaid Program for private duty nursing services.

### View or print the procedure codes for Private Duty Nursing (PDN) services.

| Procedure Code   | Modifier      | Description                |
|------------------|---------------|----------------------------|
| <del>S9123</del> |               | Private Duty Nurse, R.N.   |
| <del>S9124</del> |               | Private Duty Nurse, L.P.N. |
| S9123*           | <del>U1</del> | Supervisory Visit ;R.N     |

\*Effective for dates of service on and after April 4, 2008 procedure code \$9123 U1 can be billed for a RN supervisory visit. The maximum time allowed for reimbursement per visit is 3 hours, with a maximum of 18 visits per state fiscal year. Supervisory visits (as defined by the Arkansas Department of Health Rules and Regulations for Home Health Agencies) must be face-to-face and provided in a setting approved for private duty nursing services (see Section 242.200). Beneficiaries receiving extended care will require no less frequency than every two weeks of supervision. For beneficiaries classified as stable or chronic (beyond the first 3 months of extended care), RN supervisory visits will be no less than every 30 days.

## 242.120 Simultaneous Care of Two Patients

10-1-22<del>1</del>4-

When a private duty nurse is caring for two patients simultaneously in the same location, the following procedure codes are to be used for the care provided to the second patient:

Procedure codes shown below contain a modifier and an Arkansas Medicaid procedure code description.

## View or print the procedure codes for Private Duty Nursing (PDN) services.

| Procedure<br>Code | M1             | Description   |
|-------------------|----------------|---|
| A4253             | UB             | Blood Glucose test or reagent strip for home blood glucose monitor, per 25 strips |
| A4351             | U1             | Intermittent urinary catheter, disposable; straight tip                           |
| A4352             | <del>U1</del>  | Intermittent urinary catheter, disposable; curve tip                              |
| A4450             | <del>U1</del>  | Tape, all types, all sizes  |
| A6197             | <del>UB</del>  | Alginate dressing, each (more than 16, but less than 48 sq. in.)                  |
| A6234             | <del>U</del> 1 | Absorptive dressing (e.g. hydrocolloid), without adhesive                         |
| A6237             | <del>U1</del>  | Absorptive dressing (e.g. hydrocolloid), with adhesive                            |
| A6242             | <del>U1</del>  | NON-Absorptive dressing (e.g. hydrogel), adhesive, or non-adhesive                |
| A6248             | <del>U1</del>  | Hydrogel dressing, wound cover, pad size 16 sq. in. or less w/o adhesive          |

Private duty nursing services (PDN) are billed on a per unit basis. One unit equals one hour. Arkansas Medicaid will reimburse for the actual amount of cumulative PDN time on a monthly basis. Service time of less than one hour will not be rounded up to a full hour. Attach supervisory visit billing information with supporting documentation and assessment with the monthly private duty nursing billing. No supervisory visits will be covered without first providing prior authorized private duty nursing services within the same month. Billing units are cumulative up to one hour for the duration of one month. Supervisory visits of less than an hour can be billed cumulatively on a monthly basis but any visit less than a unit (hour) cannot be rounded up. Providers must file separate claims indicating the number of hours for each patient.

Type of service code "1" must be used when filing paper claims. Public schools must use type of service code "S" when filing paper claims for beneficiaries under age 21.

Refer to Sections <u>242.110</u> and <u>242.120</u> for PDN procedure codes for single patient care and multiple patient care.

## 242.421 Simultaneous Care of Two Patients in the Beneficiaries' Home or a DDS Facility 1-08

When a private duty nurse is caring for two patients simultaneously in a location other than a public school, Arkansas Medicaid reimburses 100% of the maximum allowable rate for the first patient and 50% of the maximum allowable rate for the second patient.

Providers must file separate claims indicating the number of hours of care for each patient.

Providers must request prior authorization for procedure codes \$9123 and \$9124.

View or print the procedure codes for Private Duty Nursing (PDN) services.

## 242.430 Private Duty Nursing Medical Supplies

<u>10-1-221</u>10-

Procedure code A6549, with types of service "S" and "1", must be manually priced. Procedure code A6549 with a type of service of "1" requires a prior authorization (PA).

View or print the procedure codes for Private Duty Nursing (PDN) services.

Form DMS-679 may be used to request prior authorization. View or print form DMS 679.

**TOC** required

#### 222.000 Fetal Non-Stress Test and Ultrasound Benefit Limits

<del>10-1-22<u>1</u>10</del> 13-03

The Arkansas Medicaid Program covers the Fetal Non-Stress Test and the Ultrasound when performed in conjunction with maternity care. Refer to <u>Section 292.673</u> of this manual for procedure codes.

- A. The Ultrasound and Fetal Non-Stress Test have a benefit limit of two (2) per pregnancy.
- B. Post-procedural visits are covered within the 10-day period following a fetal non-stress test.

If it is necessary to exceed the Medicaid established benefit limits, the physician must request extension of the benefit with documentation that justifies the need for additional tests and establishes medical necessity.

223.000 Injections

<del>2-15-15</del><u>10-</u> 1-224

- The Arkansas Medicaid Program applies benefit limits to some covered injections.
- B. For information on coverage of injections, special billing instructions and procedure codes, refer to Sections 292.595 and 292.950 of this manual.

225.200 Computed Tomographic Colonography (CT Colonography)

<del>12-15-14</del><u>10-</u> 1-22<del>1</del>

A. The following procedure codes are covered for CT colonography for beneficiaries of all ages.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

<del>74261</del> <del>74262</del> <del>74263</del>

## B. CT colonography policy and billing

- 1. Virtual colonoscopy, also known as CT colonography, utilizes helical computed tomography of the abdomen and pelvis to visualize the colon lumen, along with 2D and/or 3D reconstruction. The test requires colonic preparation similar to that required for standard colonoscopy (instrument/fiberoptic colonoscopy) and air insufflation to achieve colonic distention.
- Indications: Virtual colonoscopy is only indicated in those patients in whom an instrument/fiberoptic colonoscopy of the entire colon is incomplete due to an inability to pass the colonoscopy proximately. Failure to advance the colonoscopy may be secondary to an obstruction neoplasm, spasm, redundant colon, diverticulitis extrinsic compression or aberrant anatomy/scarring from prior surgery. This is intended for use in pre-operative situations when knowledge of the unvisualized colon proximal to the obstruction would be of use to the surgeons in planning the operative approach to the patient.

## 3. Limitations:

- a. Virtual colonography is not reimbursable when used for screening or in the absence of signs or symptoms of disease, regardless of family history or other risk factors for the development of colonic disease.
- b. Virtual colonography is not reimbursable when used as an alternative to

- instrument/fiberoptic colonoscopy, for screening or in the absence of signs or symptoms of disease.
- c. Since any colonography with abnormal or suspicious findings would require a subsequent instrument/fiberoptic colonoscopy for diagnosis (e.g. biopsy) or for treatment (e.g. polypectomy), virtual colonography is not reimbursable when used as an alternative to an instrument/fiberoptic colonoscopy, even though performed for signs or symptoms of disease.
- d. CT colonography procedure codes are counted against the beneficiary's annual lab and X- ray benefit limit.
- e. "Reasonable and necessary" services should only be ordered or performed by qualified personnel.
- f. The CT colonography final report should address all structures of the abdomen afforded review in a regular CT of the abdomen and pelvis.

## C. Documentation requirements and utilization guidelines

- Each claim must be submitted with ICD codes that reflect the condition of the patient and indicate the reason(s) for which the service was performed. Claims submitted without ICD codes coded to the highest level of specificity will be denied.
- 2. The results of an instrument/fiberoptic colonoscopy performed before the virtual colonoscopy (CT colonography) which was incomplete must be retained in the patient's record.
- 3. The patient's medical record must include the following and be available upon request:
  - a. The order/prescription from the referring physician
  - b. Description of polyps/lesion:
    - i. Lesion size [for lesions 6 mm or larger, the single largest dimension of the polyp (excluding stalk if present) on either multiplanar reconstruction or 3D views. The type of view employed for measurement should be stated];
    - ii. Location (standardized colonic segmental divisions: rectum, sigmoid colon, descending colon, transverse colon, ascending colon and cecum);
    - iii. Morphology (sessile-broad-based lesion whose width is greater than its vertical height; pedunculated-polyp with separate stalk; or flat-polyp with vertical height less than 3 mm above surrounding normal colonic mucosa); and
    - iv. Attenuation (soft-tissue attenuation or fat).
  - c. Global assessment of the colon (C-RADS categories of colorectal findings):
    - i. C0 Inadequate study poor prep (can't exclude > 10 lesions)
    - ii. C1 Normal colon or benign lesions no polyps or polyps ≥5 mm benign lesions (lipomas, inverted diverticulum)
    - iii. C2 Intermediate polyp(s) or indeterminate lesion polyps 6 - 9 mm in size, <3 in number indeterminate findings
    - iv. C3 Significant polyp(s), possibly advanced adenoma(s)
       Polyps ≥10 mm
       Polyps 6-9 mm in size, ≥3 in number
    - v. C4 Colonic mass, likely malignant.
  - d. Extracolonic findings (integral to the interpretation of CT colonography results):
    - i. E0 Inadequate study limited by artifact

- ii. E1 Normal exam or anatomic variant
- iii. E2 Clinically unimportant findings (no work-up needed)
- iv. E3 Likely unimportant findings (may need work-up) incompletely characterized lesions
  - e.g., hypodense renal or liver lesion
- v. E4 Clinically important findings (work-up needed)
  - e.g., solid renal or liver mass, aortic aneurysm, adenopathy
- D. CT colonography is reimbursable only when performed following an instrument/fiberoptic colonoscopy which was incomplete due to obstruction.
- E. See Section 292.603 for billing protocol.

#### 241.000 Fluoride Varnish Treatment

8-1-14<u>10-1-</u> <u>221</u>

Arkansas Medicaid will expand coverage for fluoride varnish application, ADA code D1206, to physicians and nurse practitioners who have completed the online training program approved by the Arkansas Department of Health, Office of Oral Health.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

The online training course can be accessed at <a href="http://ar.train.org">http://ar.train.org</a>. The provider will need to maintain a copy of the certificate of completion in their files and submit a copy to the Arkansas Medicaid provider enrollment unit.

## 242.000 Dermatology

<del>7-1-07</del><u>10-1-</u> <u>221</u>

The Arkansas Medicaid Program covers CPT procedure code 96900—Actinotherapy (ultraviolet light). The physician must submit documentation with claim to establish medical necessity.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

## 247.200 Risk Management Services for Pregnancy

<del>3-15-05<u>10-</u></del> <u>1-22<del>1</del></u>

A physician may provide risk management services for pregnant women if he or she employs the professional staff indicated in the service descriptions below. If a physician does not choose to provide risk management services but believes the patient would benefit from them, he or she may refer the patient to a clinic that offers risk management services for pregnancy.

Each of the covered risk management services described in parts A through E has a limited number of units of service that may be furnished. Coverage of these risk management services is limited to a maximum of 32 cumulative units.

### A. Risk Assessment

A medical, nutritional and psychosocial assessment is completed by the physician or registered nurse to designate patients as high or low risk.

- 1. Medical assessment using the Hollister Maternal/Newborn Record System or equivalent form to include:
  - a. Medical history
  - b. Menstrual history
  - c. Pregnancy history

- 2. Nutritional assessment to include:
  - a. Medical history
  - b. Menstrual history
  - c. Pregnancy history
- 3. Psychosocial assessment to include criteria for an identification of psychosocial problems that may adversely affect the patient's health status

Maximum: 2 units per pregnancy

## B. Case Management Services

Services by a physician, licensed social worker or registered nurse that will assist pregnant women eligible under Medicaid gain access to needed medical, social, educational and other services (examples: locating a source of services, making an appointment for services, arranging transportation, arranging hospital admission, locating a physician to deliver the newborn, follow-up to verify the patient kept an appointment, rescheduling appointments). Services may be provided for low-risk or high-risk cases as determined by the risk assessment.

Maximum: 1 unit per month. A minimum of two contacts per month must be provided. A case management contact may be with the patient, other professionals, family and/or other caregivers.

#### C. Perinatal Education

Educational classes provided by a health professional (Physician, Public Health Nurse, Nutritionist, or Health Educator) to include:

- 1. Pregnancy
- 2. Labor and delivery
- 3. Reproductive health
- 4. Postpartum care
- 5. Nutrition in pregnancy

Maximum: 6 classes (units) per pregnancy

## D. Nutrition Consultation – Individual

Services provided for high-risk pregnant women by a registered dietitian or a nutritionist eligible for registration by the Commission on Dietetic Registration, to include at least one of the following:

- 1. An evaluation to determine health risks due to nutritional factors with development of a nutritional care plan
- 2. Nutritional care plan follow-up and reassessment as indicated

Maximum: 9 units per pregnancy

#### E. Social Work Consultation

Services provided for high-risk pregnant women by a licensed social worker to include at least one of the following:

- 1. An evaluation to determine health risks due to psychosocial factors with development of a social work care plan
- 2. Social work plan follow-up, appropriate intervention and referrals

Maximum: 6 units per pregnancy

F. Early Discharge Home Visit

If a physician chooses to discharge a low-risk mother and newborn from the hospital early (less than 24 hours), the physician or registered nurse employee may provide a home visit to the mother and baby within 72 hours of the hospital discharge or the physician may request an early discharge home visit from any clinic which provides perinatal services. Visits will be done by physician order (including hospital discharge order).

A home visit may be ordered for the mother and/or infant discharged later than 24 hours if there is a specific medical reason for home follow-up.

Billing instructions and procedure codes may be found in Section 292.676 of this manual.

## 250.200 Physician Assessment in the Hospital Emergency Department

10-13-03<sub>-</sub> 224

To reimburse emergency department physicians for determining emergent or non-emergent patient status, Medicaid has a physician assessment fee. (See <u>Section 292.682</u> for procedure code and billing instructions.) The procedure code does not count against the beneficiary's benefit limits, but the beneficiary must be enrolled with a primary care physician. It is for use when the beneficiary is not admitted for inpatient or outpatient treatment.

#### 251.220 Elective Abortions

810-1-224

Only medically necessary abortions are covered by Arkansas Medicaid. Federal regulations prohibit expenditures for abortions except when the life of the mother would be endangered if the fetus were carried to term or for victims of rape or incest, defined under Ark. § Code Ann. 5-14-103 and § 5-22-202, as certified in writing by the woman's attending physician.

- A. All abortions require prior authorization. A Certification Statement for Abortion (DMS-2698) must be completed prior to performing the procedure and is required for requesting prior authorization and billing. View or print form DMS-2698.
- B. Other required documentation includes patient history and physical exam records. The physician performing the abortion is responsible for providing the required documentation to other providers (hospitals, anesthetist, etc.) for billing purposes. Refer to Section 292.410 for other billing instructions.
- C. For abortions when the life of the mother would be endangered if the fetus were carried to term, prior authorization (PA) requests must be made to DHS or its designated vendor.

  <u>View or print contact information to obtain the DHS or designated vendor step-by-step process for requesting a review.</u>
- D. Abortions for pregnancy resulting from rape or incest must be prior authorized by the Division of Medical Services Utilization Review Section. View or print the Utilization Review contact information. Refer to Section 261.260 for instructions on requesting PA.
- E. Payable Abortion Procedure Codes
  - 1. For Professional or Outpatient Abortion Claims, the following codes are required:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| 01966            | <del>59840</del> | <del>59841</del> | <del>59850</del> |
|------------------|------------------|------------------|------------------|
| <del>59851</del> | <del>59852</del> | <del>59855</del> | <del>59856</del> |

#### 59857

- 2. For inpatient hospital facility Abortion Claims, the provider must use the following codes:
  - a. 10A00ZZ Abortion of Products of Conception, Open Approach
  - b. 10A03ZZ Abortion of Products of Conception, Percutaneous Approach
  - c. 10A07Z6 Abortion of Products of Conception, Vacuum, Via Natural or Artificial Opening
  - d. 10A07ZW Abortion of Products of Conception, Laminaria, Via Natural or Artificial Opening
  - e. 10A07ZX Abortion of Products of Conception, Abortifacient, Via Natural or Artificial Opening
  - f. 10A07ZZ Abortion of Products of Conception, Via Natural or Artificial Opening

## 251.230 Cochlear Implant and External Sound Processor Coverage Policy

8<u>10</u>-1-2<u>2</u>1

The Arkansas Medicaid Program provides coverage for cochlear implantation and the external sound processor for beneficiaries under age twenty-one (21) in the Child Health Services (EPSDT) Program. (See Section 261.120 for prior authorization requirements and Section 292.801 for billing protocol.)

#### A. Cochlear Implants

Cochlear Implants are covered through the Arkansas Medicaid Physician or Prosthetics Program for eligible Medicaid beneficiaries under the age of twenty-one (21) years through the Child Health Services (EPSDT) Program when prescribed by a physician.

The cochlear implant device, implantation procedure, the sound processor and other necessary devices for use with the cochlear implant device require *prior authorization* from DHS or its designated vendor. View or print contact information to obtain the DHS or designated vendor step-by-step process for requesting prior authorization.

The replacements of lost, stolen or damaged external components (not covered under the manufacturer's warranty) are covered when prior authorized by Arkansas Medicaid.

Reimbursements for manufacturer's upgrades will not be made. An upgrade of a speech processor to achieve aesthetic improvement, such as smaller profile components or a switch from a body worn, external sound processor to a behind-the-ear (BTE) model or technological advances in hardware, are considered not medically necessary and will not be approved.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| 2010<br>Codes       | Modifier | Age<br>Restriction | Manually Priced | Review | PA  |
|---------------------|----------|--------------------|-----------------|--------|-----|
| <del>L8627*</del>   | EP       | 0-20               | <del>Yes</del>  | No     | Yes |
| <del>L8628</del> ⁻∗ | EP       | 0-20               | <del>Yes</del>  | No     | Yes |
| L8629*              | EP       | 0-20               | Yes             | No     | Yes |

<sup>\*</sup>Denotes paper claim required

## B. Speech Processor

Arkansas Medicaid will not cover new generation speech processors if the existing one is still functional. Consideration of the replacement of the external speech processor will be made **only** in the following instances:

- 1. The beneficiary loses the speech processor.
- 2. The speech processor is stolen.
- 3. The speech processor is irreparably damaged.

Additional medical documentation supporting medical necessity for replacement of external components should be attached to any requests for prior authorization.

### C. Personal FM Systems

Arkansas Medicaid will reimburse for a personal FM system for use by a cochlear implant beneficiary when prior authorized and not available by any other source (i.e., educational services). The federal Individuals with Disabilities Education Act (IDEA) requires public school systems to provide FM systems for educational purposes for students starting at age three (3). Arkansas Medicaid does not cover FM systems for children who are eligible for this service through IDEA.

A Request for Prior Authorization may be submitted for medically necessary FM systems (procedure code V5273 for use with cochlear implant) that are not covered through IDEA; each request must be submitted with documentation of medical necessity. These requests will be reviewed on an individual basis.

## D. Replacement, Repair, Supplies

The repair and/or replacement of the cochlear implant external speech processor and other supplies (including batteries, cords, battery charger and headsets) will be covered in accordance with the Arkansas Medicaid policy for the Physician and Prosthetics programs. The covered services must be billed by an Arkansas Medicaid Physician or Prosthetics provider. The supplier is required to request prior authorization for repairs or replacements of external implant parts.

#### 254.000 Enterra Therapy for Treatment of Gastroparesis

8<u>10</u>-1-2<u>2</u>4

- A. Arkansas Medicaid covers Enterra, implantable neurostimulator therapy.
- B. Coverage of Enterra therapy is limited to individuals ages eighteen (18) through sixty-nine (69) with diabetic and idiopathic gastroparesis (View ICD Codes.).
  - 1. Service includes the implantable neurostimulator electrode(s) and the neurostimulator pulse generator.
  - 2. Implantation procedures for neurostimulator pulse generator and the neurostimulator electrodes are covered as inpatient surgical procedures.
    - The surgical procedures require prior authorization (PA) by DHS or its designated vendor.
      - <u>View or print contact information to obtain the DHS or designated vendor step-by-step process for requesting prior authorization.</u>
    - b. An approval letter from the Institutional Review Board is required. Patient's record must include documentation that further total parental nutrition (TPN) therapy is not an option.
  - 3. Procedure for revision or removal of the peripheral neurostimulator electrodes does not require PA, but claim will be manually reviewed prior to reimbursement.

C. See <u>Section 292.880</u> of this manual for procedure codes and billing instructions.

#### 256.000 Gastrointestinal Tract Imaging with Endoscopy Capsule

10-1-15221

- A. Arkansas Medicaid covers wireless endoscopy capsule for diagnosis of occult gastrointestinal bleeding in the anemic patient under the conditions listed below.
  - 1. The site of the bleeding has not been identified by previous gastrointestinal endoscopy, colonoscopy, push endoscopy or other radiological procedures.
  - 2. An abnormal x-ray of the small intestine is documented without an identified site of bleeding by endoscopic means.
  - 3. Diagnosis of angiodysplasias of the GI tract is suspected, or
  - 4. Individuals with confirmed Crohn's disease to determine whether there is involvement of the small bowel.
- B. This procedure is covered for individuals of all ages based on medical necessity when performed with FDA-approved devices and by providers formally trained in upper and lower endoscopies.
- C. Documentation of medical necessity requires a primary detail diagnosis of one of the following ICD diagnosis codes (<u>View ICD Codes</u>.).
- D. GI tract capsule endoscopy is not covered in the patient who has not undergone upper GI endoscopy and colonoscopy during the same period of illness in which a source of bleeding is not revealed.
- E. This test is covered only for those beneficiaries with documented continuing blood loss and anemia secondary to bleeding.
- F. See **Section 292.890** for procedure code and billing instructions.

## 257.000 Tobacco Cessation Products and Counseling Services

8<u>10</u>-1-2<u>2</u>4

Tobacco cessation products either prescribed or initiated through statewide pharmacist protocol are available without prior authorization (PA) to eligible Medicaid beneficiaries. Additional information can be found on the <u>designated Pharmacy Vendor website</u> or in the <u>Prescription</u> <u>Drug Program Prior Authorization Criteria</u>.

- A. Physician providers may participate by prescribing covered tobacco cessation products. Reimbursement for tobacco cessation products is available for all prescription and over the counter (OTC) products and subject to be within U.S. Food and Drug Administration prescribing guidelines.
- B. Counseling by the prescriber is required to obtain initial prior authorization (PA) coverage of the products. Counseling consists of reviewing the Public Health Service (PHS) guideline-based checklist with the patient. The prescriber must retain the counseling checklist in the patient records for audit. View or Print the Arkansas Be Well Referral Form.
- C. Counseling procedures do not count against the twelve (12) visits per state fiscal year (SFY), but they are limited to no more than two (2) 15-minute units and two (2) 30-minute units for a maximum allowable of four (4) units per SFY.
- D. Counseling sessions can be billed in addition to an office visit or EPSDT. These sessions do not require a PCP referral.
- E. If beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid

number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count towards the four (4) counseling sessions limit described in section C above.

- F. Additional prescription benefits will be allowed per month for tobacco cessation products and will not be counted against the monthly prescription benefit limit. Tobacco cessation products are not subject to co-pay.
- G. Arkansas Medicaid will provide coverage of prescription and over the counter (OTC) smoking/tobacco cessation covered outpatient drugs for pregnant women as recommended in "Treating Tobacco Use and Dependence 2008 Update: A Clinical Practice Guideline" published by the Public Health Service in May 2008 or any subsequent modification of such guideline.
- H. Refer to <u>Section 292.900</u> for procedure codes and billing instructions.

# 261.120 Prior Authorization of Cochlear Implant, External Sound Processor 9-15-1210-1and Repair/Replacement Supplies 221

- A. Arkansas Medicaid provides coverage for cochlear implantation and for the external sound processor for beneficiaries under age 21 in the Child Health Services (EPSDT) Program. Prior authorization by AFMC is required.
- B. A written request signed by the physician performing the procedure is required. The request must be accompanied by medical documentation to support medical necessity. See Section 261.100 for prior authorization instructions.
- C. <u>Prior Authorization for Repair and/or Replacement of Cochlear Implant External</u>
  Components and Supplies

A request for prior authorization of a medically necessary FM system (V5273 for use with cochlear implant) and replacement cochlear implant parts requires a paper submission to the Arkansas Foundation for Medical Care (AFMC) using **DMS-679-A**. (View or print form DMS-679-A.) All documentation supporting medical necessity should be attached to the form. The provider will be notified in writing of the approval or denial of the request for prior authorization.

Prior authorization does not guarantee payment for services or the amount of payment for services. Eligibility for and payment of services are subject to all terms, conditions and limitations of the Arkansas Medicaid Program. Documentation must support medical necessity. The provider must retain all documentation supporting medical necessity in the beneficiary's medical record. See Section 261.100 of this manual for prior authorization procedures. Refer to Section 292.801 for further billing instructions.

## 261.250 Laboratory Procedures for Highly Active Antiretroviral Therapy (HAART)

9-15-12<u>10-</u> 1-221

The following CPT procedure codes are covered for Medicaid beneficiaries.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| Procedure<br>Code | Limitations                                |
|-------------------|--|
| 87901             | A maximum of 12 units per 12 month period. |
| 87903             | A maximum of 1 unit per year.              |
| 87904             | This procedure code is an add-on code.     |
| 87906             | 1 unit per day.                            |

# 261.260 Prior Authorization of Elective Abortion of Pregnancy Resulting from Rape or Incest

8-1-04<u>10-1-</u> 221

The following procedures must be followed to obtain prior authorization for elective abortion when pregnancy is the result of rape or incest:

- A. The woman's physician must complete the Certification Statement for Abortion, form DMS-2698 (Rev. 8/04) certifying that the pregnancy resulted from forcibly compelled sexual intercourse or incest as defined under Ark. § Code Ann. 5-14-103 and § 5-22-202. View or print form DMS-2698.
  - 1. The completed form DMS-2698 must include the name and address of the patient and be dated before the date of surgery.

- 2. The patient may sign the Certification Statement for Abortion (form DMS-2698) for herself at eighteen (18) years of age or older.
- 3. If the patient is under 18 years of age, then a parent or guardian must sign the Certification Statement for Abortion (form DMS-2698). The guardian must furnish a copy of the order appointing him or her guardian, or furnish the letters of guardianship issued by the court clerk.
- B. Effective for dates of service on and after August 1, 2004, the physician must fax a completed form DMS-2698, patient history and medical exam records to the Department of Human Services (DHS), Division of Medical Services (DMS), Administrator, Utilization Review Section, for prior authorization of the abortion procedure. View or print the Division of Medical Services Utilization Review contact information.
- C. DMS Utilization Review Section will convey its decision to the physician within 24 hours; or, if necessary, will request more information for the DMS physician's review. A DMS physician's review is required when UR reviewers deny authorization or need a physician's expertise.
- D. The provider must submit the claim and required documentation for payment to the Department of Human Services, Division of Medical Services, Attention: Administrator, Utilization Review. The physician is responsible for providing the required documentation to other providers (hospitals, anesthetist, etc.) for billing purposes. <a href="View or print the Division of Medical Services Utilization Review contact information">View or print the Division of Medical Services Utilization Review contact information</a>.

If the patient needs the Certification Statement for Abortion form (DMS-2698) in an alternative format, such as large print, please contact our Americans with Disabilities Act Coordinator. View or print the Americans with Disabilities Act Coordinator contact information.

Refer to Section 292.410 for special billing instructions and procedure codes.

## 262.000 Procedures That Require Prior Authorization

4<del>-1-14</del>10-1-221

 The following procedure codes require prior authorization by the Arkansas Foundation for Medical Care (AFMC). (See Section 261.100 of this manual for prior authorization instructions.)

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

## 263.000 Prescription Drug Prior Authorization

<del>9-1-20<u>10-1-</u> 221</del>

Prescription drugs are available for reimbursement under the Arkansas Medicaid Program when prescribed by a provider with prescriptive authority. Certain prescription drugs may require prior authorization. It is the responsibility of the prescriber to request and obtain the prior authorization. Refer to the <a href="DHS contracted Pharmacy vendor's website">DHS contracted Pharmacy vendor's website</a> for the following information:

- A. Prescription drugs requiring prior authorization.
- B. Criteria for drugs requiring prior authorization.
- C. Forms to be completed for prior authorization.
- D. Procedures required of the prescriber to request and obtain prior authorization.
- E. Effective for dates of services on and after **October 1, 2018**, the following Healthcare Common Procedure Coding System Level II (HCPCS) procedure codes are payable:

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

- 1. J2315 Injection, naltrexone, depot form, 1 mg
- 2. J0570 Buprenorphine implant, 74.2 mg
- Q9991 Injection, buprenorphine extended release (Sublocade), less than or equal to 100 mg
- 4. **Q9992** Injection, buprenorphine extended-release (Sublocade), greater than 100 mg

To access prior approval of these HCPCS procedure codes when necessary, reference the Pharmacy Memorandums, Criteria Documents and forms found at the <a href="DHS contracted">DHS contracted</a>
<a href="Pharmacy vendor's website">Pharmacy vendor's website</a>.

#### 292.410 Abortion Procedure Codes

8<u>10</u>-1-2<u>2</u>4

Abortion procedures performed when the life of the mother would be endangered if the fetus were carried to term require prior authorization from DHS or its designated vendor.

Abortion for pregnancy resulting from rape or incest must be prior authorized by the Division of Medical Services, Administrator, and Utilization Review.

The physician must request prior authorization for the abortion procedures and for anesthesia. Refer to Section 260.000 of this manual for prior authorization procedures. The physician is responsible for providing the required documentation to other providers (hospitals, anesthetist, etc.) for billing purposes.

All claims must be made on paper with attached documentation. A completed Certification Statement for Abortion (form DMS-2698 Rev. 8/04), patient history and physical are required for processing of claims.

Use the following procedure codes when billing for abortions.

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> <u>Therapy Center services.</u>

| 01966            | <del>59840</del> | <del>59841</del> | 59850 | 59851 | <del>59852</del> |
|------------------|------------------|------------------|-------|-------|------------------|
| <del>59855</del> | <del>59856</del> | <del>59857</del> |       |       |                  |

Refer to Section 251.220 of this manual for policies and procedures regarding coverage of abortions and Sections 261.000, 261.100, 261.200, 261.260 for prior authorization instructions.

## 292.420 Allergy and Clinical Immunology

<del>7-1-07</del>10-1-224

Allergy testing is available for all eligible Medicaid beneficiaries regardless of age, but allergy immunotherapy is payable only for eligible children under the Child Health Services (EPSDT) Program.

When charges for children under the Child Health Services (EPSDT) Program are billed to the Medicaid Program for the above services, the health care provider should check "Yes" in the child screening referral section of the claim, Field 24H, on the CMS-1500 claim form only if the service is a direct referral resulting from a Child Health Services (EPSDT) screen (examination). View a CMS-1500 sample form.

Appropriate CPT procedure codes should be used when billing for procedures listed in the allergy and clinical immunology section of the CPT book.

Reimbursement of allergy testing will be paid on a "per test" basis. Enter the exact number of tests performed in the "Units" field. Procedure codes **95070** and **95071** must be billed.

Procedure code 95078 is not a payable code.

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> <u>Therapy Center services.</u>

All laboratory tests done in conjunction with allergy testing or immunotherapy must also be billed by the provider who actually performs the test. Refer to Section 292.600 of this manual for information on specimen collection.

### 292.430 Ambulatory Infusion Device

9<del>-15-12<u>10-</u></del> 1-22<del>1</del>

Procedure code **E0779**, modifier **RR**, **Ambulatory Infusion Device**, is payable only when services are provided to patients receiving chemotherapy, pain management or antibiotic treatment in the home.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

One unit of service equals one day. A reimbursement rate has been established and represents a daily rental amount. See Section 261.210 of this manual for Prior Authorization information.

#### 292.440 Anesthesia Services

1<del>0</del>-1-2<u>2</u>1

Anesthesia procedure codes (**00100** through **01999**) must be billed in anesthesia time. Anesthesia modifiers **P1** through **P5** listed under Anesthesia Guidelines in the CPT must be used. When appropriate, anesthesia procedure codes that have a base of four (4) or fewer are eligible to be billed with a second modifier, "**22**," referencing surgical field avoidance.

Reimbursement for use and administration of local or topical anesthesia is included in the primary surgeon's reimbursement for the surgery that requires such anesthesia. No modifiers or time may be billed with these procedures.

#### A. Electronic Claims

For electronic claims for Anesthesia services (procedure codes 00100 through 01999), total minutes should be billed in the units field.

#### B. Paper Claims

If paper billing is required, enter the procedure code, time, and units as shown in Section 292.447. Enter again the number of units (each fifteen (15) minutes of anesthesia equals one (1) time unit) in Field 24G. (See cutaway section of a completed claim in Section 292.447.)

C. The following CPT procedure codes require attachments or documentation.

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

| Procedure<br>Code | Description  | Documentation Required   |
|-------------------|--|--|
| 00800             | Anesthesia for procedures on lower anterior abdominal wall; not otherwise specified                        | Operative Report   |
| 00840             | Anesthesia for intraperitoneal procedures in lower abdomen, including laparoscopy; not otherwise specified | Operative Report   |

|-------------------|--|--|
| 01966             | Anesthesia for induced abortions. Use for billing anesthesia services for all elective, induced abortions, including abortions performed for rape or incest. | Operative Report  Certification Statement for Abortion (DMS-2698). (See Sections 251.220, 261.000, 261.100, 261.200, and 261.260 of this manual.) View or print form DMS-2698 and instructions for completion. |
| 01999             | Unlisted anesthesia procedure(s)   | Procedure Report   |

<sup>\*\*\*</sup>Other documentation may be requested upon review.

- D. Anesthesiologist/anesthetists may bill procedure code **00170** for any inpatient or outpatient dental surgery using place of service code **"11**," **"21**," **"22**", or **"24**," as appropriate. This code does not require Prior Approval for anesthesia claims.
- E. A maximum of seventeen (17) units of anesthesia are allowed for a vaginal delivery or Cesarean Section. Refer to Anesthesia Guidelines of the CPT book for procedure codes related to vaginal or Cesarean Section deliveries. Only one (1) anesthesia service is billable for Arkansas Medicaid as the anesthesia for a delivery. The anesthesia service ultimately provided should contain all charges for the anesthesia. No add-on codes are payable.

## 292.442 Epidural Therapy

<del>7-1-07</del>10-1-

Procedure code 62319-should be billed with one (1) unit of service at the time of insertion only. Providers are to bill for daily pain management utilizing procedure code-01996, with one time unit of 15 minutes, with no additional payment to the anesthetist for hospital visits. In cases where the method of anesthesia for surgery is an epidural anesthetic, providers are not allowed to re-bill for the insertion of a catheter for pain management unless there is documentation attached to verify two separate insertions were done. CPT procedure codes describing catheter and/or reservoir/pump implantation are to be used for long-term therapy.

Procedure code 93503 must be billed when performed by an anesthesiologist/CRNA.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

# 292.443 Medicaid Coverage for Therapeutic Infusions (Excludes Chemotherapy)

1<del>0-1-06</del>224

Effective for dates of service on and after March 1, 2006, procedure codes 90780 and 90781 are non-payable. These codes have been replaced with procedure codes 99143 through 99150.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

## **292.446** Time Units

910-1-221

Time units will be added to the Base Value and the Anesthesia Modifier for all cases at the rate of 1.0 Unit for each 15 minutes or any fraction thereof. Anesthesia time begins when the anesthesiologist begins to prepare the patient for the induction of anesthesia in the operating room or in an equivalent area and ends when the anesthesiologist is no longer in personal attendance, that is, when the patient may be safely placed under post-operative supervision.

Enter the time units in Field 24G for paper claims. If filing electronically, the value submitted in this field should be the total anesthesia in minutes.

Anesthesia stand-by should be billed as detention time using procedure code-**99360**. One unit equals 30 minutes. A maximum of one unit per date of service may be billed.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

#### 292.470 Fluoride Varnish Treatment

810-1-224

The American Dental Association (ADA) procedure code D1206 is covered by the Arkansas Medicaid Program. This code is payable for beneficiaries under the age of twenty-one (21). Topical fluoride varnish application benefit is covered every six (6) months plus (1) day for beneficiaries under age twenty-one (21).

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

A new specialty code, FC-Fluoride Certification will be tied to provider types 01, 03, 58 and 69. These providers must send proof of their fluoride varnish certification to Provider Enrollment before the specialty code will be added to their file in the MMIS. After the specialty code, FC-Fluoride Certification, is added to the provider's file, the provider will be able to bill for procedure code D1206, Topical Application of Fluoride Varnish.

Providers must check the Supplemental Eligibility Screen to verify that topical fluoride varnish benefit of two (2) per State Fiscal Year (SFY) has not been exhausted. If further treatment is needed due to severe periodontal disease, then the beneficiary must be referred to a Medicaid dental provider.

NOTE: This service is billed on form CMS-1500 with ADA procedure code D1206 (Topical application of fluoride varnish (prophylaxis not included) – child (ages 0-20). View a CMS-1500 sample form.

#### 292.480 Cataract Surgery

<del>7-1-07</del>10-1-

**Post-cataract lens implant** must be billed using procedure code V2630. This procedure code may be billed electronically or on paper. The lens implant code is billed in conjunction with the cataract surgery and is covered for eligible Medicaid beneficiaries of all ages in the outpatient setting.

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

#### 292.490 Clinical Brachytherapy

10-13-03<sub>-</sub> 224

The following is clarification regarding Medicaid's policy for hospital admissions, daily visits and discharges in conjunction with clinical brachytherapy. CPT currently states, "Services **77750** through **77799** include admission to the hospital and daily visits." The Medicaid Program does not cover separate payment for hospital admissions or inpatient physician visits when procedure codes **77750** through **77799** are billed.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

292.510 Dialysis 1<mark>0</mark>-1-<u>15221</u>

A. Hemodialysis

The following procedure codes must be used by the <u>nephrologist</u> when billing for acute <u>hemodialysis</u> on hospitalized patients. Class I and Class II must have a secondary diagnosis listed to justify the level of care billed.

### <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| Procedure<br>Code | Required<br>Modifier | <del>Description</del>  |
|-------------------|----------------------|---|
| 90937             |                      | Class I – Acute renal failure complicated by illness or failure of other organ systems  |
| 90935             |                      | Class II – Acute renal failure without failure of other organ systems but with other dysfunction in other areas requiring attention |
| 99221<br>99231    | U1<br>U1             | Class III — Acute renal failure with minor or no other complicating medical problems  |

These are global codes. Hospital visits are included and must not be billed separately.

## B. Peritoneal Dialysis

The following procedure codes must be used when billing for physician inpatient management of peritoneal dialysis. Class I and Class II must have a secondary diagnosis code listed to justify the level of care billed.

| Procedure<br>Code | Required<br>Modifier(s) | Description  |
|-------------------|-------------------------|--|
| 90947             |                         | Class I – Acute renal failure complicated by illness or failure of other organ systems (peritoneal dialysis)   |
| 90945             |                         | Class II — Acute renal failure, without failure of other organ systems but with dysfunction in other areas receiving attention (peritoneal dialysis) |
| 99221<br>99231    | UB<br>UB                | Class III — Acute renal failure with minor or no other complicating medical problems   |

These are global codes. Hospital visits are included and must not be billed separately.

## C. Outpatient Management of Dialysis

The Arkansas Medicaid Program will reimburse for outpatient management of dialysis under procedure codes 90967, 90968, 90969 and 90970.

One day of dialysis management equals one unit of service. A provider may bill one day of outpatient management for each day of the month unless the beneficiary is hospitalized. When billing for an entire month of management, be sure to include the dates of management in the "Date of Service" column. Only one month of management must be reflected per claim line with a maximum of 31 units per month. If a patient is hospitalized, these days must not be included in the monthly charge. These days must be split billed. An example is:

| Date of Service         | Procedures, Services or Supplies CPT/HCPCS | Days<br>or<br>Units |
|-------------------------|--|---------------------|
| 6-1-10 through 6-14-10  | <del>90967</del>                           | 44                  |
| 6-21-10 through 6-30-10 | <del>90967</del>                           | 11                  |

Arkansas Medicaid also covers Iron Dextran for beneficiaries of all ages who receive dialysis due to acute renal failure. Use procedure code J1750 when administering in a physician's office.

Procedure codes J0636 and Q0139 are payable for eligible Medicaid beneficiaries of all ages who receive dialysis due to acute renal failure (View ICD Codes.).

#### 292.521 Consultations

<del>7-1-07<u>10-1-</u> 221</del>

When billing for office consultations when the place of service is the provider's office (POS: **11**) or inpatient hospital (POS: **21**), use the appropriate CPT procedure codes according to the description of each level of service.

The consultation procedure codes listed below must be used when the place of service is outpatient hospital or emergency room-hospital (POS: **22** or **23**, respectively) or ambulatory surgical center (POS **24**).

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| Procedure<br>Code | Required<br>Modifier(s) | Description   |
|-------------------|-------------------------|---|
| 99241             | <del>UA, U</del> B      | Other Outpatient Consultation for a new or established patient, which requires these three key components:                |
|                   |                         | A problem focused history, A problem focused examination and Straightforward medical decision making.                     |
| 99242             | UA, UB                  | Other Outpatient Consultation for a new or established patient, which requires these three key components:                |
|                   |                         | An expanded problem focused history, An expanded problem focused examination and Straightforward medical decision making. |
| 99243             | <del>UA, UB</del>       | Other Outpatient Consultation for a new or established patient, which requires these three key components:                |
|                   | <b>&gt;</b>             | A detailed history; A detailed examination and Medical decision making of low complexity.                                 |
| 99244             | <del>U1, UA</del>       | Other Outpatient Consultation for a new or established patient, which requires these three key components:                |
|                   |                         | A comprehensive history, A comprehensive examination and Medical decision making of moderate complexity.                  |

| Procedure<br>Code | Required<br>Modifier(s) | Description  |
|-------------------|-------------------------|--|
| 99245             | <del>U1, UA</del>       | Other Outpatient Consultation for a new or established patient, which requires these three key components:       |
|                   |                         | A comprehensive history, An expanded problem-focused examination and Medical decision making of high complexity. |

Medicaid does not cover follow-up consultations. A consulting physician assuming care of a patient is providing a primary evaluation and management service and bills Medicaid accordingly within CPT standards.

For information on benefit limits for all consultation (inpatient and outpatient) refer to Section 226.100 of this manual.

#### 292.523 Detention Time

10-13-03-

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

Procedure code 99360 must be used by physicians when billing for detention time.

One unit equals 30 minutes. A maximum of 1 unit per date of service may be billed.

Procedure code 99360 is payable when provided in the inpatient hospital setting by a physician.

### 292.525 Hospital Discharge Day Management

<del>7-1-07</del><u>10-1-</u> 224

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

Procedure code 99238, hospital discharge day management, may not be billed by providers in conjunction with an initial or subsequent hospital care code, procedures 99221 through 99233. Initial hospital care codes and subsequent hospital care codes may not be billed on the day of discharge.

## 292.530 Extracorporeal Shock Wave Lithotripsy (E.S.W.L.)

10-13-03<sub>-</sub> 224

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

Payment for E.S.W.L. is available through the Medicaid Program for the "physician operator" and the "aftercare physician." The physician operating the lithotripter must use CPT procedure code **50590**. If a bilateral procedure is done, enter a "2" in the units column. The physician who did not perform the surgery but who referred the patient to the facility for the lithotripsy procedure and will provide "aftercare" services, should bill for the actual services rendered. The anesthesiologist should follow normal billing procedures. Refer to Sections 251.260 and 272.400 of this manual for coverage and reimbursement information.

#### 292.540 Factor VIII, Factor IX and Cryoprecipitate

<del>7-1-07</del>10-1-224

Anti-hemophiliac Factor VIII is covered by the Arkansas Medicaid Program when administered in the outpatient hospital, physician's office or in the patient's home. The following procedure codes must be used:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

J7190-Factor VIII [antihemophilic factor (human)], per IU

J7191 Factor VIII [antihemophilic factor (porcine)], per IU

J7192 Factor VIII [antihemophilic factor (recombinant)], per IU

The provider must bill his/her cost per unit and the number of units administered.

HCPCS procedure code J7194-must be used when billing for Factor IX Complex (human). Factor IX Complex (Human) is covered by Medicaid when administered in the physician's office or the patient's home (residence). The provider must bill his/her cost per unit and the number of units administered.

The Arkansas Medicaid Program covers procedure code P9012—Cryoprecipitate. This procedure is covered when provided to eligible Medicaid beneficiaries of all ages in the physician's office, outpatient hospital setting or patient's home.

Providers must attach a copy of the manufacturer's invoice to the claim form when billing for Cryoprecipitate.

For the purposes of Factor VIII, Factor IX and Cryoprecipitate coverage, the patient's home is defined as where the patient resides. Institutions, such as a hospital or nursing facility, are not considered a patient's residence.

## 292.551 Family Planning Services For Beneficiaries

<del>5-1-17</del><u>1-1-</u> <u>22</u>

Family planning services are covered for beneficiaries in full coverage Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. All procedure codes in these tables require a primary diagnosis code of family planning in each claim detail. Please note: See the tables below within this section to determine restrictions applicable to some procedures. Laboratory procedure codes covered for family planning are listed in Section 292.552.

#### A. Sterilization

A copy of the properly completed Sterilization Consent Form (DMS-615), with all items legible, must be attached to each sterilization claim submitted from each provider before payment may be approved. Providers include hospitals, physicians, anesthesiologists and assistant surgeons. It is the responsibility of the physician performing the sterilization procedure to distribute correct legible copies of the signed consent form (DMS-615) to the hospital, anesthesiologist and assistant surgeon.

Though prior authorization is not required, an improperly completed Sterilization Consent Form (DMS-615) results in the delay or denial of payment for the sterilization procedures. The checklist lists the items on the consent form that are reviewed before payment is made for any sterilization procedure. Use this checklist before submitting any consent form and claim for payment to be sure that all criteria have been met. View or print form DMS-615 (English) and the checklist. View or print form DMS-615 (Spanish) and the checklist.

B. The following procedure table explains family planning procedure codes payable to physicians. These codes require modifier FP except for hospital-based physicians. (See Sections D, E and F below for codes payable to hospital-based physicians.)

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| 00851¤             | <del>11976</del>   | 11981              | <del>55250</del>   | <del>55450</del> | 58300            | <del>58301</del>   | <del>58340**</del> |
|--------------------|--------------------|--------------------|--------------------|------------------|------------------|--------------------|--------------------|
| <del>58345**</del> | <del>58565**</del> | <del>58600</del>   | <del>58605</del>   | <del>58611</del> | <del>58615</del> | <del>58661*</del>  | <del>58670</del>   |

| <del>J1050</del>   | <del>J7297</del>   | <del>J7298</del>   | <del>J7300</del>   | <del>J7301</del> | <del>J7302</del> | <del>J7303</del>   | <del>J7307</del>   |

<sup>\*</sup>CPT codes <del>58661 and 58700</del> represent procedures to treat medical conditions as well as for elective sterilizations.

¤This procedure code is not to be billed with an FP modifier but should follow the anesthesia billing protocol as seen in Sections 272.100, 292.440 through 292.442 and 292.444 through 292.447.

C. The following procedure code table explains the family planning visit services payable to physicians.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Modifier(s)           | Description   |
|-----------------------|---|
|                       |   |
| FP, UA, U1            | Family Planning Periodic Arkansas Department of Health    |
|                       | <del>visit</del>  |
| <del>FP, UA</del>     | Family Planning Basic Arkansas Department of Health visit |
| <del>FP, UA, UB</del> | Family Planning Periodic Physician visit                  |
| FP, UA ,UB            | Family Planning Basic Physician visit                     |
|                       | FP, UA, U1 FP, UA, UB                                     |

D. The following procedure code table explains the codes that are payable to hospital-based physicians.

| 11976              | 11981            | <del>55250</del> | <del>55450</del>  | 58300            | 58301            | 58340**           | 58345**            |
|--------------------|------------------|------------------|-------------------|------------------|------------------|-------------------|--------------------|
| <del>58565**</del> | <del>58600</del> | <del>58615</del> | <del>58661*</del> | <del>58670</del> | <del>58671</del> | <del>58700*</del> | <del>72190**</del> |
| 74740**            | 74742**          | 99144**          | 99145**           |                  |                  |                   | _                  |

<sup>\*</sup>CPT codes 58661 and 58700 represent procedures to treat medical conditions as well as for elective sterilizations; however, these procedure codes are not allowable for Aid Category 69.

E. The following procedure code table explains the family planning visit services payable to the hospital-based physicians.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

<sup>\*\*</sup>This procedure requires special billing instructions. Refer to Section 292.553.

<sup>\*\*\*</sup>Reimbursement for laboratory procedures requiring a venous blood specimen includes the collection fee when performed by the same provider.

<sup>\*\*</sup>This procedure requires special billing instructions. Refer to Section 292.553.

| Procedure<br>Code | Modifier(s)   | Description                                     |
|-------------------|---------------|---|
| 99401             | <del>U6</del> | Family Planning Periodic Clinic-Physician visit |
| 99402             | <del>U6</del> | Family Planning Basic Clinic Physician visit    |

F. The following procedure code table explains the pathology procedure code payable to hospital-based physicians.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Procedure<br>Code | Modifier(s)   | Description  |
|-------------------|---------------|--|
| 88302             | <del>U1</del> | Surgical Pathology, Elective Sterilization, Outpatient Professional Service. |

Family planning laboratory codes are found in **Section 292.552**.

### 292.552 Family Planning Laboratory Procedure Codes

<del>12-18-15</del><u>10-</u> 1-224

Family planning services are covered for beneficiaries in full coverage aid categories and the limited coverage Aid Category 61 (PW-PL). For information regarding additional aid categories, see Section 124.000. For eligible beneficiaries, these codes are payable when used for purposes other than family planning. Claims require modifier FP when the service diagnosis indicates family planning, as listed in Section A below. Laboratory codes payable to hospital-based physicians are listed in Section 292.552 (C) below.

A. The following procedure code table explains family planning laboratory procedure codes.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| Family P         | Family Planning Laboratory Codes |                    |                  |                  |                   |                    |                   |
|------------------|----------------------------------|--------------------|------------------|------------------|-------------------|--------------------|-------------------|
| Q0111            | <del>81000</del>                 | 81001              | <del>81002</del> | <del>81003</del> | <del>81025</del>  | 83020              | 83520             |
| 84703            | <del>85014</del>                 | <del>85018</del>   | <del>85660</del> | <del>86592</del> | <del>86593</del>  | <del>86687</del>   | <del>86701</del>  |

| 87491            | <del>87531</del>                 | <del>87536</del>   | <del>87590</del> | <del>87591</del> | 87621**           | <del>88142*</del>  | <del>88143*</del> |
| 88147            | <del>88148</del>                 | <del>88150**</del> | <del>88152</del> | <del>88153</del> | <del>88154</del>  | <del>88155**</del> | <del>88164</del>  |
| <del>88165</del> | <del>88166</del>                 | <del>88167</del>   | 88174            | <del>88175</del> | <del>88302¤</del> | 89300              | 89310             |
| 89320            |                                  |                    |                  |                  |                   |                    |                   |

<sup>\*</sup>Procedure codes <del>88142 and 88143</del> are limited to one unit per beneficiary per state fiscal year.

"See points B and C below for information regarding this procedure code.

xxWhen **not** billing for family planning, see Section 292.602.

<sup>\*\*</sup>Payable only to pathologists and independent labs.

B. Laboratory codes payable to non-hospital-based physicians

The following procedure code table explains laboratory services payable to non-hospital-based physicians.

## NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

| Procedure<br>Code | Required<br>Modifier(s) | Description  |
|-------------------|-------------------------|--|
| 88302             | <del>FP</del>           | Surgical Pathology, Complete Procedure, Elective Sterilization     |
| 88302             | <del>FP, U2</del>       | Surgical Pathology, Professional Component, Elective Sterilization |
| 88302             | <del>FP, U3</del>       | Surgical Pathology, Technical Component, Elective Sterilization    |

## C. Laboratory codes payable to hospital-based physicians

The following procedure code table describes the laboratory services payable to hospital-based physicians.

NOTE: The procedure codes with the modifiers indicated below denote the Arkansas Medicaid description.

#### 292.560 Genetic Services

<del>11-1-17</del><u>10-</u> 1-224

The Arkansas Medicaid Program covers the following procedure codes regarding genetic services.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| National Code | Revenue Code Description  |
|---------------|---|
| 84702         | Prenatal screening for fetal anomalies using maternal serum HCG and AFP |

#### A. Documentation

In addition to the medical records physicians are required to keep as detailed in Section 202.200 of this manual, the beneficiary's medical record must verify the physician providing genetic services is a board-certified maternal fetal medicine physician as required by Arkansas Medicaid genetic policy.

### B. Prenatal Diagnosis Counseling

Prenatal Diagnosis Counseling must be performed by a maternal fetal medicine physician or a staff member under his or her direct supervision. This service includes, but is not limited to:

- 1. Family, medical, pregnancy history
- 2. Psychosocial assessment and counseling of couple regarding genetic testing and disorder

- 3. Diagnosis, prognosis, available options, pregnancy management are explained to the couple.
- C. Services Not Performed by a Physician

When procedure code 84702 (must be billed on paper) is provided and the services are not performed by a physician, the provider must have written policies with a physician who assumes the responsibility for the provision of the services rendered and agrees:

- 1. To be immediately available for consultation to the staff performing the services,
- 2. To ensure that the clinic staff has appropriate training and adequate skills for performing the procedures for which they are responsible and
- 3. To periodically review the staff's level of performance in administering these procedures.

The physician must be physically present (under the same roof) at all times during the service delivery.

292.561 Hysteroscopy for Foreign Body Removal

4<del>-1-14</del>10-1-221

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

Procedure code <del>58562</del> requires paper billing and clinical documentation for justification.

292.580 Hysterectomies

<del>11-1-17</del><u>10-</u> 1-224

View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.

Physicians may use nationally recognized procedure code <del>58150-UA</del>-when billing for a total hysterectomy procedure when the diagnosis is malignant neoplasm or severe dysplasia. See Section 251,280 for additional coverage requirement.

Procedure code **58150-UA** does not require prior authorization (PA). All hysterectomies require paper billing using claim form CMS-1500. Form DMS-2606 must be properly signed and attached to the claim form.

Procedure code <del>59525</del> is covered for emergency hysterectomy **immediately** following C-section. It requires no PA but does require form DMS-2606 and an operative report/discharge summary to confirm the emergency status.

292.591 Molecular Pathology

**810-1-224** 

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

Molecular Pathology procedure codes, including Healthcare Common Procedural Coding System Level II (HCPCS) procedure code G0452 requires prior authorization (PA). Providers must receive prior authorization before a claim for molecular pathology is filed for payment. Providers may request the PA from DHS or its designated vendor before or after the procedure is performed as long as it is acquired in time to receive approval and file a clean claim within the 365-day filing deadline. View or print contact information to obtain the DHS or designated vendor step-by-step process for prior authorization requests.

Molecular Pathology PA requests must be submitted by the performing provider with submission of a completed Arkansas Medicaid Request for Molecular Pathology Laboratory services (**Form DMS-841**) and all pertinent clinical documentation needed to justify the procedure.

Reconsideration of a denied request is allowed if new or additional information is received within thirty (30) days of the initial denial. A copy of the **DMS-841** is located in Section V of this provider manual. View or print form DMS-841. Do not complete DMS-841 unless you are submitting a Molecular Pathology Prior Authorization request. Molecular Pathology procedure codes must be submitted on a red line CMS-1500 claim form with the Prior Authorization number listed on the claim form and the itemized invoice attached which supports the charges for the test billed.

Use Healthcare Common Procedural Coding System Level II (HCPCS) procedure code G0452 for coding the Interpretation and Report of 2013 Molecular Pathology codes that allow separate Interpretation and Report. The prior authorization request for G0452 must be submitted with the Arkansas Medicaid Request for Molecular Pathology Laboratory Services (Form DMS-841). Prior authorization for G0452 must be obtained at the same time as the prior authorization for the CPT Molecular Pathology code. The prior authorization request for G0452 must include the CPT Molecular Pathology procedure code for which the Interpretation and Report is to be provided. G0452 must be billed on a red line CMS-1500 paper claim form with CPT Molecular Pathology code(s) specified for which the Interpretation and Report was performed. The claim form should list the prior authorization number. The invoice must be attached that reflects the cost to the provider for performing the interpretation and report of the test.

See Section 262.000 for additional information on Molecular Pathology procedure codes.

292.600 Laboratory and X-Ray Services

4<del>-1-14</del>10-1-221

Only laboratory and X-ray services carried out in the physician's office or under his/her direct supervision may be billed by the physician to the Medicaid Program. Laboratory and X-ray services ordered by the physician but carried out in an outside facility must be billed directly to Medicaid by the outside facility. Physician will be reimbursed for collection fee only.

Medicaid regulations regarding collection, handling and/or conveyance of specimens are:

- A. Reimbursement will not be made for specimen handling fees.
- B. A specimen collection fee may be allowed only in circumstances including: (1) drawing a blood sample through venipuncture (e.g., inserting into a vein a needle with syringe or vacutainer to draw the specimen); or, (2) collecting a urine sample by catheterization.

The following procedure codes should be used when billing for specimen collection:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

NOTE: The P codes listed are the Urinary Collection Codes.

| DOCAO            | DOC4E            | 26445            |  |
|------------------|------------------|------------------|--|
|                  |                  | <del>36415</del> |  |
| <del>P9012</del> | <del>29013</del> | <del>50710</del> |  |
|                  |                  |                  |  |

Reimbursement for laboratory procedures requiring a venous blood specimen includes the collection fee when performed by the same provider. If laboratory procedures requiring a venous blood specimen are performed in the office and other laboratory procedures are sent to a reference laboratory on the same date of service, no collection fee may be billed.

Independent laboratories must meet the requirements to participate in Medicare. Independent laboratories may only be paid for laboratory tests they are certified to perform. Laboratory services rendered in a specialty for which an independent laboratory is not certified are not covered and claims for payment of benefits for these services will be denied.

## 292.603 Billing Protocol for Computed Tomographic Colonography (CT) 10-1-15221

A. The following procedure codes are covered for CT colonography for beneficiaries of all ages.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

B. <u>Billing protocol for CT colonography procedure codes 74261, 74262 and 74263</u>:

- CT colonography codes are covered with a primary ICD diagnosis of (<u>View ICD</u> codes.)
- 2. CT colonography is billable electronically or on paper claims.

See Section 225.200 for coverage protocol

#### 292.620 Office Medical Supplies - Beneficiaries Under Age 21

<del>11-01-09<u>10-</u></del> <u>1-224</u>

For beneficiaries under age 21, procedure code 99070-is payable to physicians for supplies and materials (except eyeglasses), provided by the physician over and above those usually included with the office visit or other services rendered. Procedure code 99070-must not be billed for the provision of drug supply samples and may not be billed on the same date of service as a surgery code. Procedure code 99070-is limited to beneficiaries under age 21. Use the EP modifier for ARKids A.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

### 292.650 NeuroCybernetic Prosthesis

10-13-03<sub>-</sub> 224

Arkansas Medicaid requires prior authorization for the following procedures related to the implantation, revision and removal of the NeuroCybernetic Prosthesis (NCP®), a vagus nerve stimulator (VNS):

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| National Codes |       |    |                                 |  |
|----------------|-------|----|---------------------------------|--|
| 63685          | 63688 | 64 | <del>573</del> <del>64585</del> |  |

### 292.660 Newborn Care

10-1-15221

All newborn services must be billed under the newborn's own Medicaid identification number.

The parent(s) of the newborn will be responsible for applying for and meeting eligibility requirements for a newborn to be certified eligible. The hospital/physician can refer interested individuals to the Department of Human Services through the Hospital/Physician Referral Program. If the newborn is not certified as Medicaid eligible, the parent(s) will be responsible for the charges incurred by the newborn.

Newborn Care Services (Initial Screening)

These procedure codes represent the initial newborn screening. This screening includes the physical exam of the baby and the conference(s) with newborn's parent(s) and is considered to be the initial newborn care/screen. Payment of these codes is considered a global rate and subsequent visits may not be billed in addition to codes 99460, 99461 and 99463.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

Note the descriptions, modifiers and required diagnosis range. For all providers, the newborn care procedure codes require a modifier or modifiers and a primary detail diagnosis of (<u>View ICD Codes.</u>).

### A. Physician Billing Instructions for Newborn Care

For ARKids First-A (EPSDT): Requires a CMS-1500 claim form; may be billed electronically or on paper.

| Procedure<br>Code | Modifier 1    | Modifier 2    | Description   |
|-------------------|---------------|---------------|---|
| 99460             | EP            | UA            | Initial hospital/birthing center care,<br>normal newborn (global)                                       |
| 99461             | <del>EP</del> | UA            | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463             | <del>EP</del> | <del>UA</del> | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

See Sections 241.000 – 242.400 of the EPSDT manual for specific EPSDT billing instructions.

For ARKids First-B: Requires a CMS-1500 claim form; may be billed electronically or on paper.

| Procedure<br>Code | Modifier | Description   |
|-------------------|----------|---|
| 99460             | UA       | Initial hospital/birthing center care, normal newborn (global)  |
| 99461             | UA       | Initial care normal newborn other than hospital/birthing center (global)                                |
| 99463             | UA       | Initial hospital/birthing center care, normal newborn admitted/discharged same date of service (global) |

## View or print Child Health Services contact information.

For illness care, e.g., neonatal jaundice, use procedure codes 99221 through 99233. Do not bill 99431, 99432 or 99435-in addition to these codes.

When billing for critical care services, refer to the CPT book for procedure codes and billing information.

For newborn resuscitation, use procedure code 99465.

#### 292.671 Method 1 - "Global" or "All-Inclusive" Rate

6-1-20<u>10-1-</u> 221

The global method of billing should be used when one (1) or more physicians in a group see the patient for a prenatal visit and one (1) of the physicians in the group does the delivery. The physician that delivers the baby should be listed as the attending physician on the claim that reflects the global method.

No benefits are counted against the beneficiary's physician visit benefit limit if the global method is billed.

A. One (1) charge for total obstetrical care is billed. The single charge includes the following:

- Antepartum care which includes initial and subsequent history, physical
  examinations, recording of weight, blood pressure, and fetal heart tones, routine
  chemical urinalyses, maternity counseling, and other office or clinic visits directly
  related to the pregnancy.
- 2. Admissions and subsequent hospital visits for the treatment of false labor, in addition to admission for delivery.
- 3. Vaginal delivery (with or without episiotomy, with or without pudendal block, with or without forceps, or breech delivery), or cesarean section and resuscitation of newborn infant when necessary.
- 4. Routine postpartum care (sixty (60) days), which includes routine hospital and office visits following vaginal or cesarean section delivery.
- B. The global method must be used when the following conditions exist:
  - 1. At least two (2) months of antepartum care were provided culminating in delivery. The global billing beginning date of service is the date of the first visit that a Medicaid beneficiary is seen with a documented possible pregnancy or a confirmed pregnancy diagnosis. This beginning date of service must be billed in the "initial treatment date" field on the claim when billing for global obstetric care.
  - 2. The patient was continuously Medicaid eligible for two (2) months or more months before delivery and on the delivery date.

If either of the two (2) conditions is not met, the services will be denied, stating either "monthly billing required" or "beneficiary ineligible for service dates".

C. The correct codes for billing Medicaid for global obstetric care are as follows.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u>
<u>Therapy Center services.</u>

| <b>National Codes</b> |                  |                  |                  |  |
|-----------------------|------------------|------------------|------------------|--|
| 59400                 | <del>59510</del> | <del>59610</del> | <del>59618</del> |  |

When billing these procedure codes, both the first date of antepartum care after Medicaid eligibility has been established and the date of delivery must be indicated on the claim. The delivery date is the date that is to be in the From and To Date of Service billed on the line with the above codes. The first date of antepartum care is to be billed in the "Initial Treatment Date" field.

For the CMS 1500 claim form, this is field 15 – Other Date Field. Qualifier 454 is required.

For the Provider Portal, the Date Type is "Initial Treatment Date" and the Date of Current is the first date of antepartum care.

If these two (2) dates are not entered and are not at least two (2) months apart, payment will be denied. The 12-month filing deadline is calculated based on the date of delivery.

#### 292.672 Method 2 - "Itemized Billing"

810-1-221

Use this method only when either of the following conditions exists:

- A. Less than two months of antepartum care was provided
- B. The patient was NOT Medicaid eligible for at least the last two (2) months of the pregnancy.

Bill Medicaid for the antepartum care in accordance with the special billing procedures set forth in Section 292.675. The visits for antepartum care will not be counted against the patient's annual physician benefit limit. Date-of-service spans shall not include any dates for which the patient was ineligible for Medicaid.

Bill Medicaid for the delivery and postpartum care with the applicable procedure code from the following table:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| National Codes   |                  |       |                  |  |
|------------------|------------------|-------|------------------|--|
| <del>59410</del> | <del>59515</del> | 59614 | <del>59622</del> |  |

Non-emergency hysterectomy after C-section requires prior authorization from DHS or its designated vendor. View or print contact information to obtain the DHS or designated vendor step-by-step process for prior authorization requests. Refer to Section 292.580 for billing instructions for emergency and non-emergency hysterectomy after C-section.

If Method 2 is used to bill for OB services, providers must ensure that the services are billed within the 365-day filing deadline.

If only the delivery is performed and neither antepartum nor postpartum services are rendered, procedure codes 59409 or 59612 must be billed for vaginal delivery and procedure codes 59514 or 59620 must be billed for cesarean section. Procedure codes 59400, 59410, 59510 and 59515 shall not be billed in addition to procedure codes 59409, 59612, 59514 or 59620. These procedures will be reviewed on a post-payment basis to ensure that these procedures are not billed in addition to antepartum or postpartum care.

Laboratory and X-ray services may be billed separately using the appropriate CPT codes, if this is the physician's standard office practice for billing OB patients. If lab tests or X-rays are pregnancy related, the referring physician must code correctly when these services are sent to the lab or X-ray facility. The diagnostic facilities are totally dependent on the referring physician for diagnosis information necessary for Medicaid reimbursement.

The obstetrical laboratory profile procedure code **80055**-consists of four components: Complete Blood Count, VDRL, Rubella and blood typing and RH. If the ASO titer (procedure code **86060**) is performed, the test must be billed separately using the individual code.

Only a collection may be filled for laboratory procedures, if a blood specimen is sent to an outside laboratory, only a collection fee may be billed. No additional fees shall be billed for other types of specimens that are sent for testing to an outside laboratory. The outside laboratory may then bill Medicaid for the laboratory procedure. Refer to Section 292.600 of this manual.

NOTE: Payment will not be made for emergency room physician charges on an OB patient admitted directly from the emergency room into the hospital for delivery.

The Arkansas Medicaid Program covers the fetal non-stress test (procedure code 59025) and the ultrasound (procedure codes 76801 - 76828) when performed in conjunction with maternity care.

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

Arkansas Medicaid imposes a benefit limit of two medically necessary fetal non-stress test procedures per pregnancy. Fetal ultrasound is limited to two per pregnancy. If it is necessary to exceed these limits, the physician must request benefit extensions, when applicable, in accordance with benefit extension request instructions in this provider manual.

## 292.674 External Fetal Monitoring

<del>7-1-07</del>10-1--

Procedure code 59050-must be used exclusively for external fetal monitoring when performed in a physician's office or clinic with National Place of Service code "11. Physicians may bill for one unit per day of external fetal monitoring. Physicians may bill for external fetal monitoring in addition to a global obstetric fee. When itemizing obstetric visits, physicians may bill for medically necessary fetal monitoring in addition to obstetric office visits.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

## 292.675 Obstetrical Care Without Delivery

<del>7-1-07</del>10-1-221

A. Obstetrical care without delivery may be billed using procedure code 59425, modifier **UA**, when 1 – 3 visits are provided and 59425 with no modifiers when 4 – 6 six visits are provided. Procedure code 59426 with no modifiers is payable for 7 or more visits.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

- B. These procedure codes enable physicians rendering care to the patient during the pregnancy, but not delivering the baby, to receive reimbursement for these services. Units of service billed with these procedure codes are not counted against the patient's annual physician visit benefit limit. Reimbursement for each visit includes routine sugar and protein analysis. Other lab tests may be billed separately within 12 months of the date of service.
- C. Providers must enter the dates of service in the CMS-1500 claim format and the number of units being billed. One visit equals one unit of service. Providers must submit the claim within 12 months of the first date of service.

### View a CMS-1500 sample form.

**For example:** An OB patient is seen by Dr. Smith on 1-10-05, 2-10-05, 3-10-05, 4-10-05, 5-10-05 and 6-10-05. The patient then moves and begins seeing another physician prior to the delivery. Dr. Smith may submit a claim with dates of service shown as 1-10-05 through 6-10-05 and 6 units of service entered in the appropriate field. The Arkansas Medicaid fiscal agent must receive the claim within the 12 months from the first date of service. Dr. Smith must have on file the patient's medical record that reflects each date of service being billed. Dr. Smith must bill the appropriate code:  $\frac{59425}{9426}$  with modifier **UA** when 1 – 3 visits are provided,  $\frac{59425}{9426}$  with no modifiers when 4 – 6 visits are provided and procedure code  $\frac{59426}{9426}$  when 7 or more visits are provided.

A physician may provide risk management services for pregnant women if he or she employs the professional staff indicated in service descriptions found in Section 247.200 of this manual. These services may be billed separately from obstetrical fees. The services in the list below are considered to be one service and are limited to 32 cumulative units. Use the modifiers when filing claims to identify the service provided.

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| Procedure |                   |                                     |
|-----------|-------------------|-------------------------------------|
| Code      | Modifier(s)       | Description                         |
| 99402     | <del>U1, UA</del> | Risk Assessment                     |
| 99402     | <del>U4, UA</del> | Case Management Services, low-risk  |
| 99402     | <del>U5, UA</del> | Case Management Services, high-risk |
| 99402     | <del>UA</del>     | Perinatal Education                 |
| 99402     | <del>U3, UA</del> | Social Work Consultation            |
| 99402     | <del>U2, UA</del> | Nutrition Consultation Individual   |

For early discharge home visits, use one of the applicable CPT procedure codes: 99341, 99343, 99347, 99348, and 99349.

## 292.682 Non-Emergency Services

<del>7-1-07</del><u>10-1-</u> 224

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

Procedure code <u>T1015</u>, modifier **U1**, should be billed for a non-emergency physician visit in the emergency department. Procedure code <u>T1015</u>, modifier **U1**, requires PCP referral. This procedure code is subject to the non-emergency outpatient hospital benefit limit of 12 visits per state fiscal year (SFY).

Physicians must use procedure code <u>T1015</u>, modifier **U2**, **Physician Outpatient Clinic Services** for outpatient hospital visits. This service requires a PCP referral. Procedure codes <u>T1015</u>, modifier **U1**, and <u>T1015</u>, modifier **U2**, are subject to the benefit limit of 12 visits per SFY for non-emergency professional visits to an outpatient hospital for patients age 21 and over.

To reimburse emergency department physicians for determining emergent or non-emergent patient status, Medicaid established a physician assessment fee. Procedure code T1015, Physician Assessment in Outpatient Hospital is payable for beneficiaries enrolled with a PCP. The procedure code does not require PCP referral. The procedure code does not count against the beneficiary's benefit limits, but the beneficiary must be enrolled with a PCP. It is for use when the beneficiary is not admitted for inpatient or outpatient treatment.

#### 292.684 Outpatient Hospital Surgical Procedures

10-13-03<sub>-</sub> 224

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

The CPT surgical codes (10040 - 69979) for the covered procedure should be used for billing. Reimbursement for the procedure will be based on the Medicaid Physician Fee Schedule. When billing a miscellaneous surgical code, attach an operative report.

### 292.690 Pelvic Examinations, Prostatic Massages, Removal of Sutures, Etc.

10-13-03<sub>-</sub> 224

These services are not considered a separate service from an office visit. The charge for such services should be included in the office visit charge. Billing should be under the office visit procedure code that reflects the appropriate level of care. Procedure code 57410 should never be used for billing routine pelvic examinations, but should be used only when a pelvic examination is done under general anesthesia.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

#### 292.730 Professional and Technical Components

9-15-12<u>10-</u> 1-221

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

Covered laboratory and radiology procedure codes in code range **70010** through **89399** as well as covered services listed in the Medicine section of CPT and HCPCS procedure codes manuals that require the use of a machine may be billed electronically or on paper. Codes in this range without an applicable modifier signify a complete procedure.

Applicable modifiers are required in Field 24D in addition to the procedure code. Modifier **TC** must be used for the technical component and modifier **26** must be used for the professional component.

## 292.742 Family/Group Psychotherapy

4<del>-1-14</del><u>10-1-</u> 221

The following psychotherapy procedure codes are payable by the Arkansas Medicaid Program for family/group psychotherapy:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| National Codes |       |       |
|----------------|-------|-------|
| 90847          | 90849 | 90853 |

Procedure codes 90847 and 90849 are payable when the place of service is the beneficiary's home, the physician's office, a hospital or a nursing home. Procedure code 90847 is payable only when the patient is present during the treatment. Procedure codes 90849 and 90853 are payable when the patient is not present; however, the patient may be present during the session, when appropriate.

#### 292.760 Rural Health Clinic (RHC) Non-Core Services

<del>9-15-12<u>10-</u></del> <u>1-221</u>

Physician groups whose individual practitioners are contracting with a rural health clinic are limited to billing Medicaid for Rural Health Clinic (RHC) non-core services. These providers may bill the following procedure codes:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

#### **RHC NON-CORE SERVICES**

| Outpatient Hospital Visits  | Inpatient Hospital Visits  |  |  |
|---|--|--|--|
| Non-emergency: T1015 modifier U1  | 99217 through 99223<br>99231 through 99238   |  |  |
| Emergency: 99281 through 99285  | 99251 through 99255<br>99291, 99295, 99296, 99297  |  |  |
| Electrocardiograms and Echocardiography Technical component only Modifier TC              | Radiology<br>Technical component only Modifier TC  |  |  |
| 93005, 93041, 93225, 93226, 93270, 93271, 93307, 93308, 93312, 93320, 93321, 93325, 93350 | 70010 through 76946<br>76950 through 76977<br>76999 through 78813<br>78990 through 79999 |  |  |
| Surgery, Outpatient and Inpatient   |  |  |  |
| All payable CPT procedure codes within range 10040 through 69990                          |  |  |  |

NOTE: Inpatient and outpatient hospital services are RHC non-core services only if the physician's contract with the RHC does not state that the physician will be compensated by the RHC for those services. Interpretation of X-rays and diagnostic machine tests in the inpatient or outpatient hospital is a non-core service when the visit itself is a non-core service. Home visits, nursing facility visits or other off-site visits are RHC encounters if the physician's agreement with the RHC requires that he or she provide the services and seek compensation from the RHC. Any of these off-site services is payable separately (through the Physician Program) from the RHC encounter fee if it is not a part of the physician's contract with the RHC.

See Sections 201.120 and 246.000 of this manual for additional information.

#### 292.770 Sexual Abuse Examination for Beneficiaries 0 - 20 Years

10-1-15221

The procedure code **for Sexual Abuse Examination** listed in the table below is payable to physicians when provided in the physician's office or in a hospital outpatient department, emergency or non-emergency, with National Place of Service: **code "11", "23" or "22"**. This procedure is exempt from the PCP referral requirement and is covered for beneficiaries 0 - 20 years.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

## 292.801 Cochlear Implant and External Sound Processor Billing Protocol

4<del>-1-14</del>10-1-221

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u>
<u>Therapy Center services.</u>

Procedure code 69930 - Cochlear device implantation, with or without mastoidectomy - may be billed only by the physician performing the surgical procedure. When the cochlear device is provided by the physician, the physician may bill procedure code L8614 for the cochlear device using EP modifier. Paper claims require a modifier EP for the device. Procedure code 69930 and L8614-require prior authorization. The physician must attach a copy of the invoice to the CMS-1500 claim form. If the cochlear device is provided by the hospital, the physician may not bill for the device. Refer to Section 251.230 of this manual for coverage information.

Procedures are covered for beneficiaries under age 21 and must be billed with modifier EP.

The following procedure codes must be prior authorized. (See Section 261.120 for Prior Authorization requirements and Section 251.230 for coverage policy). Providers should use the following procedure codes when requesting prior authorization for replacement parts for cochlear implant devices. Applicable manufacturer warranty options must be exhausted before coverage is considered. Most warranties include one replacement for a stolen, lost or damaged piece of equipment free-of-charge by the manufacturer.

Some cochlear implant parts have previously been covered services under an unlisted procedure code.

The table below contains new and existing HCPCS procedure codes of FM system for use with a cochlear implant and replacement cochlear implant parts.

Please note: Coverage and billing requirements to the physician provider for cochlear device implantation is unchanged. (See Section 251.230 for coverage requirements.)

Billing and Reimbursement Protocol for FM system and replacement cochlear implant parts:

Procedure codes L8615, L8616, L8617, L8618, L8619, L8623, L8627, L8628, L8629 and V5273 will be billable electronically or on paper. Claims with procedures codes requiring paper billing must be submitted with a manufacturer's invoice attached that demonstrates the specific cost per item. The invoice must clearly indicate the specific item(s) supplied to the beneficiary for whom the claim is billed. V5273 mMay be submitted electronically or on a paper claim form. Provider charges for an FM system that is meant to be used with a cochlear implant (V5273) should reflect the retail price. Reimbursement of an FM system to be used with a cochlear implant (V5273) will be at 68 percent of the retail price.

## 292.821 Billing for Corneal Transplants

<del>9-15-12</del><u>10-</u> 1-221

The following CPT procedure codes are payable for corneal transplants with prior approval: 65710, 65730, 65750, 65755 and 65756.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

Medicaid will reimburse the physician for the acquisition and preservation of the cornea. Medicaid will not reimburse for the transportation of the cornea. HCPCS procedure code V2785 must be used when billing for the acquisition and preservation of the cornea. This code must be billed in conjunction with the transplant surgery. An itemized statement for the acquisition and preservation of the cornea must accompany the CMS-1500 claim form. View a CMS-1500 sample form.

#### 292.822 Billing for Renal (Kidney) Transplants

10-1-15221

A. The following CPT procedure codes are payable for renal transplants with prior approval: 50320, 50340, 50360, 50365, 50370 and 50380.

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

#### CPT procedure code 50300 is non-payable.

- 1. A separate claim must be filed for the donor. If the donor is not Medicaid eligible, the claim should be filed under the Medicaid beneficiary's name and Medicaid ID number. Diagnosis code (<u>View ICD Codes.</u>) (Donors, kidney) must be used for the renal donor and diagnosis code (<u>View ICD Codes.</u>) (Other specified general medical examination examination of potential donor of organ or tissue) must be used for the tissue typing of the donor.
- 2. If the donor is a Medicaid beneficiary, the claim must be filed utilizing the donor's Medicaid ID number. However, the diagnosis codes listed above must be used.

B. HCPCS procedure code A0434, modifier **UA**, must be used by providers billing for the transportation and preservation of the cadaver kidney. The physician must bill HCPCS procedure code A0434, modifier **UA**, on the claim in conjunction with the transplant surgery. An itemized statement for the transportation and preservation of the kidney must accompany form CMS-1500. View a CMS-1500 sample form.

## 292.823 Billing for Pancreas/Kidney Transplants - Under Age 21

3-15-05<u>10-</u> 1-221

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

The appropriate CPT procedure code should be used when billing for pancreas/kidney transplantation for individuals under age 21 in the Child Health Services (EPSDT) Program. These procedure codes include 48160, 48550 and 48554 through 48556. Procedure codes for allograft preparation are 48550 through 48552.

Pancreas/kidney transplantation procedure codes require prior approval. The appropriate code(s) may be billed in conjunction when performing the pancreas/kidney transplant procedure. This surgery will be treated as a multiple surgery and will be reimbursed accordingly.

### 292.824 Billing for Bone Marrow Transplants

<del>10-1-15221</del>

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

- A. CPT procedure codes 38240, 38241 and 38243 are payable, with prior approval, for a bone marrow transplant. See Section 261.220 of this manual for prior approval information.
- B. Harvesting procedure codes 38230 and 38231 do not require prior approval and must be used when billing for the donor.
- C. All claims associated with a bone marrow transplant must be filed for payment within 60 calendar days from the discharge date of the inpatient stay for the transplant procedure.
- D. CPT procedure code 38232 requires an ICD diagnosis code of (View ICD Codes.).
  - 1. No claims will be considered for payment after the 60 calendar days have elapsed.
  - 2. If an HIPAA Explanation of Benefits (HEOB) is received from a third-party payer after the 60 calendar days have elapsed, you must forward a copy of the HEOB to the UR Transplant Coordinator.

## 292.825 **Billing for Heart Transplants**

3-15-05<u>10-</u> <u>1-2</u>42

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u>
<u>Therapy Center services.</u>

CPT procedure code 33945-is payable for a heart transplant. This code requires prior approval.

292.826 Billing for Liver Transplants

3-15-05<u>10-</u> 1-22<u>1</u>

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

CPT procedure code 47135 is payable for a liver transplant. This code requires prior approval.

#### 292.827 Billing for Liver/Bowel Transplants

10-1-06221

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> <u>Therapy Center services.</u>

- A. Liver/bowel transplant procedure codes require prior approval.
- B. Procedure code 47135 is to be used for the liver.
- C. Procedure codes 44135, 44136, 44132 and 44133 are to be used for the intestine, as applicable.

#### 292.828 Billing for Lung Transplants

3-15-05<u>10-</u> 1-22<u>1</u>

Arkansas Medicaid covers lung transplants (single or double) for beneficiaries of all ages, if deemed medically necessary and prior approved. Use the following procedure codes:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

<del>32851</del> <del>32852</del> <del>32853</del> <del>32854</del>

#### 292.831 Billing for Tissue Typing

3-15-05<u>10-</u> 1-221

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

- A. CPT procedure codes 86805, 86806, 86807, 86808, 86812, 86813, 86816, 86817, 86821 and 86822 are payable for the tissue typing for both the donor and the receiver.
- B. The tissue typing is subject to the \$500 annual lab and X-ray benefit limit.
  - 1. Extensions will be considered for individuals who exceed the \$500.00 annual lab and X-ray benefit limit.
  - Providers must request an extension.
- C. Medicaid will authorize up to 10 tissue typing procedures to determine a match for an unrelated donor for a bone marrow transplant.
- A separate claim must be filed for the tissue typing.
- E. Claims for the donor must be forwarded to the Transplant Coordinator.

## 292.840 Vascular Embolization and Occlusion

<del>2-15-15</del><u>10-</u> 1-22<del>1</del>

The following procedure codes require paper billing and documentation attached that describes the procedure code and supports medical necessity:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

| <del>37241</del> | <del>37242</del> | <del>37243</del> | <del>37244</del> |
|------------------|------------------|------------------|------------------|

#### 292.850 Blood or Blood Components for Transfusions

7-1-07<u>10-1-</u> 221

The Arkansas Medicaid Program will reimburse for blood or blood components used for transfusions in the physician's office. CPT procedure code **36430**-should be used for the administration fee. This includes all supplies used to perform the transfusion. The blood or blood components supplied by the physician may be billed using CPT procedure code **86999**.

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

A copy of the invoice must be attached to the claim form with the amount that was charged for the blood product circled. The number of units provided to the Medicaid eligible patient must be indicated on the invoice. Any laboratory procedures performed may be billed using the appropriate CPT procedure codes.

### 292.860 Hyperbaric Oxygen Therapy (HBOT) Procedures

<del>10-1-09</del><u>224</u>

Physicians may be reimbursed for attendance and supervision of hyperbaric oxygen therapy (HBOT). Physicians billing for the physician component of "Physician attendance and supervision of hyperbaric oxygen therapy" **may bill for only one unit of service per day.** The physician's charge for each service date must include all his or her hyperbaric oxygen therapy charges, regardless of how many treatment sessions per day are administered.

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

- A. Physicians may bill for surgery and professional components of anatomical lab procedures, X-rays and machine tests in addition to 99183.
- B. Physicians may file paper or electronic claims for 99183 with the prior authorization number placed on the claim in the proper field. If multiple prior authorizations are required, enter the prior authorization number that corresponds to the date of service billed.

NOTE: Refer to Section 258.000 of this manual for coverage policy, diagnosis requirements and treatment schedules.

### 292.880 Enterra Therapy for Gastroparesis

9-15-12<u>10-</u>

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

When filing claims for Enterra therapy for treatment of gastroparesis, use procedure code 64590 for implantation of gastric electrical stimulation and 64555 for implantation of peripheral neurostimulator electrodes. A prior authorization number is required on the claim.

Procedure code 64595 must be used when filing claims for revision or removal of the peripheral neurostimulator. This procedure does not require prior authorization but the claim must be filed on paper with operative report attached.

### 292.890 Gastrointestinal Tract Imaging with Endoscopy Capsule

<del>10-1-15221</del>

# <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation Therapy Center services.</u>

Gastrointestinal Tract Imaging with Endoscopy Capsule, billed as 91110, is payable for all ages and must be billed with the primary detail diagnosis of (View ICD Codes.).

This procedure code should be billed with no modifiers when performed in the physician's office place of service.

Modifier 26 must additionally be used to indicate billing for the professional component when performed in the inpatient, outpatient hospital, or ambulatory surgical center place of service.

CPT code 91110 is payable on electronic and paper claims. For coverage policy, see Section 256,000.

#### 292.900 Tobacco Cessation Counseling Services

810-1-224

- A. Tobacco cessation counseling and products are covered services to eligible Medicaid beneficiaries. Tobacco cessation products either prescribed or initiated through statewide pharmacist protocol are available without prior authorization (PA) to eligible Medicaid beneficiaries. Additional information can be found on the <a href="designated Pharmacy Vendorwebsite">designated Pharmacy Vendorwebsite</a> or in the <a href="Prescription Drug Program Prior Authorization Criteria">Program Prior Authorization Criteria</a>
- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the service. When using a procedure code with this symbol, the service must meet the indicated Arkansas Medicaid description.

## <u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| Current<br>Procedure<br>Code | Current<br>Modifier | Arkansas Medicaid Description  |
|------------------------------|---------------------|--|
| <del>99406*</del>            | SE                  | ★(Smoking and tobacco use cessation counseling visit; intermediate, 15 minutes)  |
| <del>99406*</del>            | CG                  | ** (Smoking and tobacco use cessation counseling visit, intermediate, 15-minutes provided to parents of children birth through twenty (20) years of age) |
| 99407*                       | SE                  | ★(Smoking and tobacco use cessation counseling visit; intensive, 30-minutes)   |

- \* Exempt from PCP referral.
- B. Two (2) Counseling visits per state fiscal year.
- C. Health education can include but is not limited to tobacco cessation counseling services to the parent/legal guardian of the child.
- D. Can be billed in addition to an office visit or EPSDT.
- E. Sessions do not require a PCP referral.
- F. If the beneficiary is under the age of eighteen (18), and the parent/legal guardian smokes, he or she can be counseled as well, and the visit billed under the minor's beneficiary Medicaid number. The provider cannot prescribe meds for the parent under the child's Medicaid number. A parent/legal guardian session will count toward the four (4) counseling session limit described in section C above.
- G. The provider must complete the counseling checklist and place in the patient records for audit. View or Print the Arkansas Be Well Referral Form

Oral surgeons must use procedure code <del>D9920</del>-for one 15-minute unit and procedure code <del>D1320</del>-for one 30-minute unit when filing claims on the American Dental Association (ADA).

See Section 257.000 of this manual for coverage and benefit limit information.

### 292.920 Medication Assisted Treatment (MAT) for Opioid Use Disorder

<del>9-1-20</del>10-1-224

There are two (2) methods of billing for MAT.

- 1. Method 1- Inclusive Rate
  - a. The inclusive method of billing shall be used when all SAMHSA guideline services as set forth at a minimum in Section 230.000 are provided on the same date of service by the same billing group who has at least one (1) performing provider with an X-DEA number on file with Arkansas Medicaid.
    - i. For new patients, the provider group shall use HCPCS code H0001, modifier X2 and list an Opioid Use Disorder ICD-10 code as primary. The performing provider must be enrolled as a MAT provider and the claim will pay a single rate for all services (Office Visit, counseling, case management, medication induction/maintenance, etc). Drug and lab testing/screening will continue to be billed separately, using an X2 modifier with the proper code for the test or screen.
    - ii. For established patients requiring continuing follow-up MAT treatment, the provider group shall use HCPCS code H0001, modifiers U8, X2, and list an Opioid Use Disorder ICD-10 code as primary. The performing provider must be enrolled as a MAT provider and the claim will pay a single rate for all follow-up services as indicated on the treatment plan and set forth at a minimum in Section 230.000 (Office Visit, counseling and medication induction/maintenance, etc). Drug and lab testing/screening will continue to be billed separately, using an X2 modifier with the proper code for the test or screen.
    - iii. For established patients requiring maintenance follow-up MAT treatment, the provider group shall use HCPCS code-H0001, modifiers U8, X4, and list an Opioid Use Disorder ICD-10 code as primary. The performing provider must be enrolled as a MAT provider and the claim will pay a single rate for all follow-up services as indicated on the treatment plan and set forth at a minimum in Section 230.000 (Office Visit, counseling and medication induction/maintenance, etc). Drug and lab testing/screening will continue to be billed separately, using an X4 modifier with the proper code for the test or screen.
    - iv. The specific HCPCS code and modifiers found in the following link are required for billing the inclusive rate. <u>View or print the procedure codes and modifiers for MAT services</u>.
- 2. Method 2 Regular Fee-for-Service Rates
  - a. The regular Fee-for-Service method of billing shall be used when all SAMHSA guideline services as set forth at a minimum in Section 230.000 cannot be provided on the same date of service, or cannot be provided by the same billing group who has the MAT specialized performing provider; therefore, causing some SAMHSA guideline services to be referred elsewhere.
    - i. For new patients, the MAT provider shall use the appropriate E & M (office visit) code, add modifier X2, and list an Opioid Use Disorder ICD-10 code as primary. The provider shall use the proper Lab and Urine Screening codes plus the additional X2 modifier for the screenings required.
    - ii. For established patients requiring continuing treatment, the MAT provider shall

use the appropriate E & M (office visit) code, add modifier X2, and list an Opioid Use Disorder ICD-10 code as primary. The provider shall use the proper Lab and Urine Screening codes plus the additional X2 modifier for the screenings required.

iii. For established patients requiring maintenance treatment, the MAT provider shall use the appropriate E & M (office visit) code, add modifier X4, and list an Opioid Use Disorder ICD-10 code as primary. The provider shall use the proper Lab and Urine Screening codes plus the additional X4 modifier for the screenings required.

Allowable ICD-10 codes for Opioid Use Disorder may be found here: (View ICD OUD Codes.)

Allowable lab and screening codes may be found here: (View Lab and Screening Codes.)

Providers utilizing telemedicine, regardless of Method, shall adhere to telemedicine rules listed in Sections 105.190 and 305.000 in addition to those above. The provider at the distance site shall use both the GT modifier and the X2 or X4 modifier on the service claim.

## 292.940 Radiopharmaceutical Services

10-1-15221

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u>
<u>Therapy Center services.</u>

Prior Approval is required before services associated with the use of procedure codes A9542, A9543, A9544 and A9545 may be provided. To obtain a Prior Approval Letter from the Division of Medical Services Medical Director for Clinical Affairs, the provider must furnish the following documentation (See Section 244.100 and 292.595.):

- 1. The FDA approved diagnosis clearly stated
- 2. Treatment failures that the patient has previously experienced
- 3 The patient's history and physical report

Prior Approval is required before services associated with the use of procedure code A9547 may be provided. To obtain Prior Approval, the provider must submit the following documentation:

- 1. The patient's history and physical
- 2. A report of the ultrasound or computerized axial tomography (CAT) that was not diagnostic

Prior Approval is required for the service associated with the use of procedure code A9555. To obtain Prior Approval, the provider must submit:

- 1. A history and physical
- A report on what other profusion scans have been tried and are non-diagnostic

Some HCPCS laboratory and radiology services are payable only with diagnosis restrictions. For payment, these diagnoses must be entered on the claim.

| Procedure Code | Age Restriction | <del>Diagnosis</del> | <del>Special</del><br><del>Criteria</del> |
|----------------|-----------------|----------------------|---|
| A9557          | No              | View ICD Codes.      | No  |
| A9559          | No              | View ICD Codes.      | No  |

|----------------|-------------------------|----------------------|---|
| A9580*         | No                      | View ICD Codes.      | Manufacturer's<br>Invoice                 |
| A9581          | <del>21y &amp; up</del> | No                   | No  |
| A9582*         | No                      | No                   | Manufacturer's<br>Invoice                 |
| A9604          | <del>21y &amp; up</del> | List 003*            | Manufacturer's<br>Invoice                 |

\*List 003 diagnosis codes include (<u>View ICD Codes.</u>). Diagnosis List 003 restrictions apply to ages 21y and above unless otherwise indicated in the age restriction column.

Radiopharmaceutical therapy is covered with prior approval from the Medical Director for Clinical Affairs of the Division of Medical Services. Claims must be filed using procedure code—79403.

- 1. Claims must be submitted to the Arkansas Medicaid fiscal agent on paper.
- 2. A copy of the Medical Director for Clinical Affair's approval letter and a copy of the invoice for the monoclonal antibody used must be attached to the claim form.

Refer to Section 244.200 for coverage information and instructions for requesting prior approval.

For coverage information regarding any drug not listed in Section 292.950, please contact the Medicaid Reimbursement Unit. View or print Medicaid Reimbursement Unit contact information.

## 292.950 Injections, Therapeutic and/or Diagnostic Agents

<del>5-1-17</del><u>10-1-</u> <u>224</u>

A. Providers billing the Arkansas Medicaid Program for covered injections should bill the appropriate CPT or HCPCS procedure code for the specific injection administered. The procedure codes and their descriptions may be found in the Current Procedure Terminology (CPT) and in the Healthcare Common Procedural Coding System Level II (HCPCS) coding books.

Injection administration code, T1502 is payable for beneficiaries of all ages. T1502 mM ay be used for billing the administration of subcutaneous and/or intramuscular injections only. This procedure code cannot be billed when the medication is administered "ORALLY." No fee is billable for drugs administered orally.

T1502 cCannot be billed separately for Influenza Virus vaccines or Vaccines for Children (VFC) vaccines.

T1502 cCannot be billed to administer any medication given for family planning purposes. No other fee is billable when the provider decides not to supply family planning injectable medications.

T1502 cCannot be billed when the drug administered is not FDA approved.

See the table below when billing T1502:

<u>View or print the procedure codes for Physician/Independent Lab/CRNA/Radiation</u> Therapy Center services.

| <b>Procedure</b> | <b>Modifier</b> | Eligibility Category |
|------------------|-----------------|----------------------|

| <del>T1502</del> |    | Ages 19 and above    |

Most of the covered drugs can be billed electronically. However, any covered drug marked with an asterisk (\*) must be billed on paper with the name of the drug and dosage listed in the "Procedures, Services, or Supplies" column, Field 24D, of the CMS-1500 claim form. View a CMS-1500 sample form. If requested, additional documentation may be required to justify medical necessity. Reimbursement for manually priced drugs is based on a percentage of the average wholesale price.

See Section 292.940 for coverage information of radiopharmaceutical procedure codes.

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs. See Section 292.910 for further information.

Administration of therapeutic agents is payable only if provided in a physician's office, place of service code "11." These procedures are not payable to the physician if performed in any other setting. Therapeutic injections should only be provided by physicians experienced in the provision of these medications and who have the facilities to treat patients who may experience adverse reactions. The capability to treat infusion reactions with appropriate life support techniques should be immediately available. Only one administration fee is allowed per date of service unless "multiple sites" are indicated in the "Procedures, Services, or Supplies" field in the CMS-1500 claim form. Reimbursement for supplies is included in the administration fee. An administration fee is not allowed when drugs are given orally.

Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379 and 96401 through 96549 for therapeutic and chemotherapy administration procedure codes.

### See Section 292.940 for radiopharmaceutical drugs.

- B. For consideration of payable unlisted CPT/HCPCS drug procedure codes:
  - The provider must submit a paper claim that includes a description of the drug being represented by the unlisted procedure code on the claim form.
  - 2. Documentation that further describes the drug provided must be attached and must include justification for medical necessity.
  - 3. All other billing requirements must be met in order for payment to be approved.

### C. Immunizations

Physicians may bill for immunization procedures on the CMS-1500 claim form. <u>View a</u> <u>CMS-1500 sample form</u>. See Section 292.950 for covered vaccines and billing protocols.

Coverage criteria for all immunizations and vaccines are listed in Part F of this section.

Influenza virus vaccine through the Vaccines for Children (VFC) program is determined by the age of the beneficiary and obviously which vaccine is used.

The administration fee for all vaccines is included in the reimbursement fee for the vaccine CPT procedure code.

### D. Vaccines for Children (VFC)

The Vaccines for Children (VFC) Program was established to generate awareness and access for childhood immunizations. Arkansas Medicaid established new procedure codes for billing the administration of VFC immunizations for children under the age of 19 years of age. To enroll in the VFC Program, contact the Arkansas Division of Health. Providers may also obtain the vaccines to administer from the Arkansas Division of Health. View or print Arkansas Division of Health contact information.

Medicaid policy regarding immunizations for adults remains unchanged by the VFC Program.

Vaccines available through the VFC Program are covered for Medicaid-eligible children. Administration fee only is reimbursed. When filing claims for administering VFC vaccines, providers must use the CPT procedure code for the vaccine administered. Electronic and paper claims require modifiers **EP** and **TJ**. ARKids First-B beneficiaries are not eligible for the Vaccines for Children (VFC) Program; however, vaccines can be obtained to administer to ARKids First-B beneficiaries who are under the age of 19 by contacting the Arkansas Department of Health and indicating the need to order ARKids-B SCHIP vaccines. View or print the Department of Health contact information.

When vaccines are administered to beneficiaries of ARKids First-B services, only modifier **SL** must be used for billing. Any additional billing and coverage protocols are listed under the specific procedure code in the tables section of this manual. See Part F of this section.

### E. Billing of Multi-Use and Single-Use Vials

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

- Multiple units may be billed when applicable. Take-home drugs are not covered.
   Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.
- When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - a. **Single-Use Vials:** If the provider must discard the remainder of a **single-use vial** or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - b. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - c. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - d. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e. for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

# See Section 292.910 for additional information regarding National Drug Code (NDC) billing.

## F. Tables of Payable Procedure Codes

The tables of payable procedure codes are designed with eight columns of information.

- 1. The **first** column of the list contains the CPT or HCPCS procedure codes.
- 2. The **second** column indicates any modifiers that must be used in conjunction with the procedure code when billed, either electronically or on paper.
- 3. The **third** column indicates that the coverage of the procedure code is restricted based on the beneficiary's age in number of years(y) or months (m).
- 4. The **fourth** column indicates specific ICD primary diagnosis restrictions.
- 5. The <u>fifth</u> column contains information about the "diagnosis list" for which a procedure code may be used. See the page header for the diagnosis list 003 detail.
- 6. The <u>sixth</u> column indicates whether a procedure is subject to medical review before payment.
- 7. The **seventh** column indicates a procedure code requires a prior authorization before the service is provided. (See Section 261.100 for Prior Authorization instructions.)
- G. Process for Obtaining a Prior Authorization Number from Arkansas Foundation for Medical Care (AFMC)

In collaboration with AFMC, DMS has changed the process for acquiring prior approval for drug procedure codes from a prior approval letter to a Prior Authorization number (PA). Instead of attaching a prior approval letter to a paper claim, providers will now list the Prior Authorization number on the claim. Drug procedure codes requiring Prior Authorization should be billed with the PA number listed on the claim form. These drugs may be billed electronically or on a paper claim.

As part of the transition, AFMC will send a letter to all providers who have approval letters spanning timeframes within the last 365 days at the time of the effective date of this policy. The letter will contain a Prior Authorization number and the total remaining number of the approved units that can be billed. Any providers who have questions regarding Prior Authorization numbers and/or the transition process outlined above can contact AFMC at the following:

Toll Free: 1-877-350-2362, ext. 8741 or (501) 212-8741

A Prior Authorization number (PA) must be requested before treatment is initiated for any drug, therapeutic agent or treatment that indicates a Prior Authorization is required in a provider manual or an official Division of Medical Services correspondence.

The Prior Authorization requests should be completed using the approved AFMC Prior Authorization request form and must be submitted by mail, fax or <a href="https://afmc.org.reviewpoint/">https://afmc.org.reviewpoint/</a> (View or print PA form.)

A decision letter will be returned to the provider by fax or e within five (5) business days.

If approved, the Prior Authorization number must be appended to all applicable claims, within the scope of the approval and may be billed electronically or on a paper claim with additional documentation when necessary.

Denials will be subject to reconsideration if received by AFMC with additional documentation within fifteen (15) business days of date of denial letter.

A reconsideration decision will be returned within five (5) business days of receipt of the reconsideration request.

H. Contact Information for Obtaining Prior Authorization

When obtaining a Prior Authorization from the Arkansas Foundation for Medical Care, please send your request to the following:

When obtaining a Prior Authorization from the Arkansas Foundation for Medical Care, please send your request to the following:

NOTE: Kcentra is indicated for the urgent reversal of acquired coagulation factor deficiency induced by Vitamin K antagonist (VKZ, e.g. warfarin) therapy in adult patients with major bleeding. Kcentra is not indicated for urgent reversal of VKA anticoagulation in patients without acute major bleeding. Documentation of the major bleed should be included in a complete history and physical exam. All treatments needed for the major bleed prior to Kcentra should be documented. A hemoglobin and hematocrit should be documented in the record as well as the dose of warfarin.

This drug or other drugs in this class are only approved for the diagnosis of alpha 1proteinase (antitrypsin) deficiency with clinically evident emphysema. Levels of alpha 1proteinase must be clearly documented in the chart. Alpha 1 antitrypsin concentrations should be less than 80 mg per deciliter (mg/dl). The medical record should contain a history and physical exam documenting this disease with clear clinical evidence of emphysema. Obstructive lung disease, emphysema, is defined by a forced expiratory volume in one second (FEV1) of 30 - 65% of predicted or a rapid decline in lung function as defined as a change in FEV1 of greater than 120 ml/year. The patient should be a nonsmoker. The dosage, frequency, site of administration and duration of the therapy should be reasonable, clinically appropriate and supported by evidence based literature and adjusted based upon severity, alternative available treatments and previous response to Alpha 1 Proteinase Inhibitor (Human) therapy for the condition addressed. Coverage for deficiency-associated liver disease without emphysema, cystic fibrosis and diabetes mellitus is considered experimental and is not approved. Therapy should maintain alpha 1 antitrypsin levels above 80 mg/dl. Due to risk of anaphylaxis, this drug must be given in an infusion center with immediate access to a physician trained in the treatment of this reaction. The only other approved infusion would be by a specially trained nurse who has immediate access to treatment for anaphylaxis and is trained in this special situation.

NOTE: Prior approval letter requests with clinical documentation are considered for certolizumab pegol (Cimzia) for adult beneficiaries 18 years of age and above with:

1. Moderately-to-severely active Crohn's disease as manifested by any of the following signs/symptoms:

**Diarrhea** 

Internal fistulae

Abdominal pain

Intestinal obstruction

**Bleeding** 

Extra-intestinal manifestations

Weight loss

**Arthritis** 

Perianal disease

**Spondylitis** 

<del>and</del>

— Crohn's disease has remained active despite treatment with corticosteroids or 6-mercaptopurine/azathioprine.

or

2. For the treatment of moderately to severely active rheumatoid arthritis (RA). Patient must have failed **Enbrel** and **Humira**.

| J0887                 | No            | 21y &<br>up            | Yes;<br>see<br>below                | No                                       | No              | Yes |

NOTE: The primary diagnosis should be (<u>View ICD Codes.</u>) with a secondary diagnosis of (<u>View ICD Codes.</u>). For patients with CKD on dialysis:

Initiate Mircera treatment when the hemoglobin level is less than 10 g/dL.

If the hemoglobin level approaches or exceeds 11 g/dL, reduce or interrupt the dose of Mircera.

The recommended starting dose of Mircera for the treatment of anemia in adult CKD patients who are not currently treated with an ESA is 0.6 mcg/kg body weight administered as a single IV or SC injection once every two weeks. The IV route is recommended for patients receiving hemodialysis because the IV route may be less immunogenic.

Once the hemoglobin has been stabilized, Mircera may be administered once monthly using a dose that is twice that of the every two week dose and subsequently titrated as necessary

| <del>J0888</del> No | <del>21y &amp;</del> | <del>View</del> | No | <del>No</del> | No |
|---------------------|----------------------|-----------------|----|---------------|----|
|                     | <del>up</del>        | <u>ICD</u>      |    |               |    |
|                     |                      | <u>Codes</u>    |    |               |    |

NOTE: For patients with CKD not on dialysis:

Consider initiating Mircera treatment only when the hemoglobin level is less than 10 g/dL and the following considerations apply:

The rate of hemoglobin decline indicates the likelihood of requiring an RBC transfusion, and

Reducing the risk of alloimmunization and/or other RBC transfusion-related risks is a goal.

If the hemoglobin level exceeds 10 g/dL, reduce or interrupt the dose of Mircera and use the lowest dose of Mircera sufficient to reduce the need for RBC transfusions.

See Sections 261.000 - 261.220 for prior authorization procedures.

See Section 244.100 for instructions regarding obtaining a Prior Approval Letter.

Prolia Policy: Covered for female, post-menopausal beneficiaries with osteoporosis and inability to tolerate oral medications for osteoporosis (View ICD Codes.). Inability to tolerate oral medications must be documented in medical history and physical exam with reason for intolerance clearly documented and name of oral medications that patient was unable to tolerate. Inability to tolerate oral medication must include signs and symptoms of esophageal disease. Patient must be at high risk for osteoporotic fracture or have multiple risk factors for fracture. Physicians should document that they have informed the patient of the risks of therapy in accordance with the Food and Drug Administration (FDA) Risk Evaluation and Mitigation Strategy Program. Use this procedure code for Prolia. An additional indication approved by the FDA for use of Prolia is as treatment to increase bone mass in patients at high-risk for fracture receiving androgen deprivation therapy for non-metastatic prostate cancer (View ICD Codes.) or adjuvant aromatase inhibitor therapy for breast cancer (View ICD Codes.). In men with non-metastatic prostate cancer, Denosumab also reduced the incidence of vertebral fracture. Medical records must include history and physical exam clearly documenting above indications and why Zometa cannot be used. The NDC for the drug requested must be listed on the request.

Xgeva Policy: Arkansas Medicaid requires that Xgeva be filed under J0897 on a paper claim with the drug name and dose. Xgeva is only approved for prevention of skeletal-related events in patients with bone metastases from breast and prostate cancer and solid tumors. Xgeva is not indicated for the prevention of skeletal related events in patients with multiple myeloma. Xgeva requires documentation in the medical record of the rationale for why Zometa was not used. A complete history and physical exam documenting the type of cancer and what chemotherapy is prescribed is required to be in the medical record. The NDC for the drug requested must be listed on the request.

^ J1050 is covered for therapeutic and family planning services for females only. For therapeutic use, a diagnosis and clinical records must justify the treatment. When billed for family planning, a FP modifier and an ICD family planning diagnosis is required.

NOTE: Relative to post occlusion by placement of permanent implants; procedure codes J1050, 11976 and 58301 are payable family planning services for non-sterile females only. All visits related to post 58565 services during the six months following the procedure are included in the allowable fee for the 58565 "procedure." All facility fees for J1050 are bundled under the surgical procedure code if performed on the same date of service.

NOTE: Arkansas Medicaid will reimburse providers for 17 Hydroxyprogesterone Caproate, 1 mg per day under J1725 at a maximum of 250 units per day. J1725 will be covered for females, ages 16 years and above, when a singleton pregnancy exists and a history of preterm labor is present. This drug may be administered every 7 days, with treatment initiated between 16 weeks, 0 days, and 20 weeks, 6 days and continued until week 37 for delivery. J1725 may be billed electronically or on a paper claim (CMS-1500 or CMS-1450), with a primary ICD diagnosis code of (View ICD Codes.), "Pregnancy with history of pre-term labor." J1725 requires NDC billing protocol. The administration fee for 17 Hydroxyprogesterone Caproate is included in the reimbursement fee allowed for this drug.

NOTE: The submitted medical documentation should include a history and physical exam that demonstrates that the beneficiary has failed all other treatments for gout due to progression of disease or intolerable side effects. This drug should only be administered in health care settings and by physicians prepared to manage anaphylaxis and infusion reactions. Premedication should be administered and the patient should be watched for any reaction after infusion. It is not recommended for the treatment of asymptomatic gout.

NOTE: Procedure code J2562 is covered for ages 21 years and above and requires prior authorization by the Arkansas Foundation for Medical Care (AFMC). Prior authorization will be provided by a telephone review. Approval is granted in conjunction with the use of granulocyte-colony stimulating factor to mobilize hematopoietic stem cells for collection and subsequent autologous transplantation in patients with Non-Hodgkin's lymphoma and multiple myeloma. Applicants will only be considered for approval if a transplant has been approved by AFMC. There must be documentation of failure to mobilize cells with conventional therapy for consideration of this drug. The drug will only be approved for four doses; one daily, times four days. The total dosage for the four days must be indicated at the time of the request.

NOTE: The patient must have tried and failed therapy with documented progression of symptoms on **Humira** and **Enbrel** prior to the request for this drug. The physician medical record must document a history and physical examination that clearly shows failure of **Humira** and **Enbrel** with submission for a prior approval letter. Doses exceeding 800 mg per infusion will not be approved, as they are not recommended. The physician must follow all Food and Drug Administration (FDA) recommendations on monitoring of laboratory and serious infections.

NOTE: There must be clear documentation that the patient has failed **Humira** and **Enbrel**, with documentation of progression of the disease or documented inability to tolerate **Humira** and **Enbrel**. A physician history and physical must be submitted with a request for prior approval letter. Documentation of patient counseling of the adverse effects of the drug should also be included. This drug should only be administered to patients who will be closely monitored and have regular follow-up visits by a physician.

NOTE: Arkansas Medicaid will reimburse providers for "Compounded 17-Hydroxy-progesterone Caproate, 250 mg" per day under J3490-U9. It will be covered for females, ages 16 years and above, when a singleton pregnancy exists and a history of pre-term labor is present. "Compounded 17-Hydroxyprogesterone Caproate 250 mg" may be administered every 7 days, with treatment initiated between 16 weeks, 0 days, and 20 weeks, 6 days, and continued until week 37 for delivery. J3490-U9 may be billed electronically or on a paper claim (CMS-1500 or CMS-1450), with a primary ICD diagnosis code of (View ICD Codes.), "Pregnancy with history of pre-term labor." J3490-U9 is exempt from NDC billing protocol. The administration fee for "Compounded 17-Hydroxyprogesterone Caproate, 250 mg" is included in the reimbursement fee allowed for this drug. The U9 modifier must always accompany this procedure code when referring to "Compounded 17-Hydroxyprogesterone Caproate 250 mg."

| Code          |          | <del>on</del>    |                                     |  |        |    |

NOTE: Prior authorization is required for coverage of the **Hyaluronon** injection in the physician's office for procedure codes J7321, J7323, J7324 and J7325. Providers must specify the brand name of **Hyaluronon** (sodium hyaluronate) or derivative when requesting prior authorization for this procedure code. A written request must be submitted to the Division of Medical Services Utilization Review Section. Refer to Section 261.200 for Utilization Review prior authorization information. The request must include the patient's name, Medicaid ID number, physician's name, physician's Arkansas Medicaid provider identification number, patient's date of birth and medical records that document the severity of osteoarthritis, previous treatments and site of injection. **Hyaluronon** is limited to one injection or series of injections per knee, per beneficiary, per lifetime.

A maximum of three injections per knee are allowed of **Hylan** polymers that are covered by Arkansas Medicaid. If additional injections are administered as part of the initial series, the cost of the additional injections is considered a component of the other approved unit(s) of these injection procedures. Refer to Section 261.200 for Prior Authorization.

NOTE: Adcetris — After failure of autologous stem cell transplant (ASCT) or after failure of at least two prior multi-agent chemotherapy regimens in patients who are not ASCT candidates. It is also indicated for patients with systemic anaplastic large cell lymphoma diagnosis (View ICD Codes.) after failure of at least one prior multi-agent chemotherapy regimen. Documentation of above criteria must be submitted with current history and physical exam for Prior Approval letter from the Medicaid Director for Clinical Affairs. All previous chemotherapy regimens should be well documented in records submitted. Reasons why patient is not an ASCT candidate should be clearly documented. A treatment cycle maximum of 16 cycles will only be approved. Infusions should only be done in centers with knowledgeable physicians readily available to treat infusion reactions. Patients should be closely monitored for evidence of Progressive Multifocal Leukoencephalopathy (PML) and should be counseled on signs and symptoms. Discussion of risk of PML should be documented in medical records.

NOTE: This drug is indicated to be used in combination with prednisone for treatment of patients with hormone refractory metastatic prostate cancer previously treated with decetaxel-containing treatment regimen. This must be well documented in a history and physical exam submitted for prior approval letter. Failure of previous chemotherapy must be well documented. Physicians must be able to manage hypersensitivity reactions appropriately in the setting of the infusion.

NOTE: **Kyprolis** is indicated for the treatment of adult patients with multiple myeloma, who have received at least two prior therapies including Velcade and an immunomodulary agent and have demonstrated disease progression on or within 60 days of completion of the last therapy. Approval is based upon response rate. A physical exam and history documenting the above requirements must be included. All monitoring and warnings and precautions from the Federal Drug Administration must be complied with for this drug to be approved. Females should avoid becoming pregnant. Consideration will be on a case by case basis.

NOTE: Supprelin LA: Prior to initiation of treatment, a clinical diagnosis of CPP (View ICD Codes.) should be confirmed by measurement of blood concentrations of total sex steroids, luteinizing hormone (LH) and follicle stimulating hormone (FSH) following stimulation with a GnRH analog, and assessment of bone age versus chronological age. Baseline evaluations should include height and weight measurements, diagnostic imaging of the brain (to rule out intracranial tumor), pelvic/testicular/adrenal ultrasound (to rule out steroid secreting tumors), human chorionic gonadotropin levels (to rule out a chorionic gonadotropin secreting tumor) and adrenal steroids to exclude congenital adrenal hyperplasia. All tests and screenings must be documented by medical records and submitted with history and physical examination when requesting prior approval.

J9228\* No 18y & View No Yes No Up ICD Codes.

NOTE: Ipilmumab is indicated for the treatment of unresectable or metastatic melanoma. It should be given every 3 weeks for a total of four doses. Liver function tests, thyroid function tests, and clinical chemistries must be monitored before each dose. The genetic test for BRAF V600E mutation should be done on all patients to determine whether they are candidates for Zelboraf. If positive for the mutation, the patient should first be given a trial of Zelboraf. If the patient fails the trial or does not have the mutation, then they should be considered for Ipilmumab. Ipilmumab should only be prescribed by physicians who are prepared to treat immune mediated complications. Participation in the risk evaluation and mitigation program is essential. Use of Ipilmumab requires a detailed history and physical exam including all previous treatments and clear documentation that the melanoma is not treatable by surgery or has metastasized. Patients considered for treatment with Ipilmumab should be at least 18 years old and have a life expectancy of at least 4 months and have previously been treated with either dacarbazine, temozolomide, carboplatin or interleukin-2. If not treated first with one of these drugs, a detailed letter of medical necessity documenting the reasons for not treating the patient with one of these drugs first is required.

List 003/103 diagnosis codes include: (View ICD Codes. This link is only active on page 143 of this document.)

Diagnosis List 003/103 restrictions apply to ages 21y and above unless otherwise indicated in the age restriction column.

NOTE: Kadeyla is a Her2-targeted antibody and microtubule inhibitor conjugate indicated, as a single agent, for the treatment of adults with Her2-positive, metastatic breast cancer, who previously received trastuzumab and a taxane, separately or in combination. Patients should have either:

1. received prior therapy for metastatic disease,

---or

2. developed disease recurrence during or within six months of completing adjuvant therapy.

All of the above requirements should be documented in a history and physical exam included in the request. All prior treatments should be listed. Approval will be on a case by case basis.

NOTE: This drug is indicated for the treatment of asymptomatic or minimally symptomatic metastatic castrate resistant (hormone refractory) prostate cancer. Only three doses administered at two-week intervals will be approved. There must be clear documentation of use of hormone treatment and documentation of no response by Prostate Specific Antigen levels, abnormal radiology studies showing spread or some other method of determining metastatic disease. Concomitant use of chemotherapy or immunosuppressive medication with this drug has not been studied. This drug will only be approved for centers that have the ability to perform leukapheresis. A detailed medical history and physical exam is required for approval.

### **TOC** not required

212.000 Scope 1<del>0</del>-1-<del>08</del>224

A. The Arkansas Medicaid Program covers podiatrist services through 42 Code of Federal Regulations, Section 440.60.

- B. Arkansas Medicaid covers podiatrist services for eligible Medicaid beneficiaries of all ages.
- C. Podiatrist services require a primary care physician (PCP) referral.
- D. Podiatrist services include, but are not limited to, office and outpatient services, home visits, office and inpatient consultations, laboratory and X-ray services, physical therapy and surgical services. <u>Section 242.100</u> contains the full list of procedure codes applicable to podiatry services.
- Many podiatrist services covered by the Arkansas Medicaid Program are restricted or limited.
  - 1. Section 214.000 describes the benefit limits on the quantity of covered services clients may receive.
  - 2. Section 220.000 describes prior-authorization requirements for certain services.

## 220.000 PRIOR AUTHORIZATION

There are certain surgical procedures and medical services and procedures that are not reimbursable without prior authorization, either because of federal requirements or because of the nature of the service.

DHS or its designated vendor performs prior authorizations for several medical or surgical procedures. Certain procedures are restricted to the outpatient setting unless prior authorized for inpatient services. Other services may only be billed when performed in a nursing home or skilled nursing facility setting. View or print contact information to obtain the DHS or designated vendor step-by-step process for requesting prior authorization.

Section 242.120 contains the list of all procedure codes that require prior authorization.

### 242.100 Procedure Codes

<del>9-1-14</del><u>10-1-221</u>

Sections 242.100 through 242.120 list the procedure codes payable to podiatrists. Any special billing or other requirements are described in parts A through F of this section and in Sections 242.110 and 242.120.

### View or print the procedure codes for Podiatrist services.

- A. Procedure codes for podiatry services provided in a nursing home or skilled nursing facility are listed in Section 242.110.
- B. Procedure codes <del>20974</del> and <del>20975</del> for podiatry services require prior authorization. To request prior authorization, providers must contact the Arkansas Foundation for Medical Care, Inc. (AFMC) (see Section 221.000 221.100).
- C. Procedure codes payable to podiatrists for laboratory and X-ray services are located in Section 242.130.
- D. Procedure code-99238, Hospital Discharge Day Management, may not be billed by providers in conjunction with an initial or subsequent hospital care code (procedure codes 99221 through 99233). Initial hospital care codes and subsequent hospital care codes may not be billed on the day of discharge.

E. In addition to the CPT codes shown below, Q4101, Q4102, Q4103, Q4104, Q4105, Q4106, Q4107, Q4108, Q4121, Q4141, Q4145 and T1015 are HCPCS codes and are payable to podiatrists. HCPCS code Q4121 requires a paper claim. HCPCS codes Q4141 and Q4145 must be billed with the manufacturer's invoice.

F. Procedure code 99353 must be billed for a service provided in a beneficiary's home.

The listed procedure codes and their descriptions are located in the *Physician's Current Procedural Terminology (CPT)* book. Section III of the Podiatrist Manual contains information on how to purchase a copy of the CPT publication.

|     |  | 091 Report End (Relinquished Care Date)   |
|     |  | 444 First Visit or Consultation   |
| 16. | DATES PATIENT UNABLE TO<br>WORK IN CURRENT<br>OCCUPATION | Not required.   |
| 17. | NAME OF REFERRING<br>PROVIDER OR OTHER<br>SOURCE         | Primary Care Physician (PCP) referral is required for Podiatrist Services. If services are the result of a Child Health Services (EPSDT) screening/ referral, enter the referral source, including name and title.    |
| 17a | ı. (blank)   | Not required.   |
| 17b | . NPI  | Enter NPI of the referring physician.   |
| 18. | HOSPITALIZATION DATES<br>RELATED TO CURRENT<br>SERVICES  | When the serving/billing provider's services charged on this claim are related to a beneficiary's or participant's inpatient hospitalization, enter the individual's admission and discharge dates. Format: MM/DD/YY. |
| 19. | ADDITIONAL CLAIM<br>INFORMATION                          | Identifies additional information about the beneficiary's condition or the claim. Enter the appropriate qualifiers describing the identifier. See <a href="https://www.nucc.org">www.nucc.org</a> for qualifiers.     |
| 20. | OUTSIDE LAB?   | Not required.   |
|     | \$ CHARGES   | Not required.   |

| Field Name and Number                        | Instructions for Completion  |
|--|--|
| 21. DIAGNOSIS OR NATURE OF ILLNESS OR INJURY | Enter the applicable ICD indicator to identify which version of ICD codes is being reported.   |
|  | Use "9" for ICD-9-CM.  |
|  | Use "0" for ICD-10-CM.   |
|  | Enter indicator between the vertical, dotted lines in the upper right-hand portion of the field.   |
|  | Diagnosis code for the primary medical condition for which services are being billed. Use the appropriate International Classification of Diseases (ICD). List no more than 12 diagnosis codes. Relate lines A-L to the lines of service in 24E by the letter of the line. Use the highest level of specificity. |
| 22. RESUBMISSION CODE                        | Reserved for future use.   |
|  |  |
| ORIGINAL REF. NO.                            | Any data or other information listed in this field does not/will not adjust, void or otherwise modify any previous payment or denial of a claim. Claim payment adjustments, voids and refunds must follow previously established processes in policy.  |
| 23. PRIOR AUTHORIZATION NUMBER               | The prior authorization or benefit extension control number if applicable.   |
| 24A. DATE(S) OF SERVICE                      | The "from" and "to" dates of service for each billed service. Format: MM/DD/YY.  |
|  | <ol> <li>On a single claim detail (one charge on one line),<br/>bill only for services provided within a single<br/>calendar month.</li> </ol>   |
|  | 2. Providers may bill on the same claim detail for two or more sequential dates of service within the same calendar month when the provider furnished equal amounts of the service on each day of the date sequence.   |
| B. PLACE OF SERVICE                          | Two-digit national standard place of service code.<br>See Section 242.200 for codes.   |
| C. EMG  D. PROCEDURES, SERVICES, OR SUPPLIES | Enter "Y" for "Yes" or leave blank if "No." EMG identifies if the service was an emergency.  |
| CPT/HCPCS                                    | Enter the correct CPT or HCPCS procedure code from Sections 242.100 through 242.130.   |
| MODIFIER                                     | Not applicable to Podiatrist Services claims.  |

| Fiel | d Na | me and Number           | Instructions for Completion  |
|------|------|-------------------------|--|
|      | E.   | DIAGNOSIS POINTER       | Enter the diagnosis code reference letter (pointer) as shown in Item Number 21 to relate to the date of service and the procedures performed to the primary diagnosis. When multiple services are performed, the primary reference letter for each service should be listed first; other applicable services should follow. The reference letter(s) should be A-L or multiple letters as applicable. The "Diagnosis Pointer" is the line letter from Item Number 21 that relates to the reason the service(s) was performed. |
|      | F.   | \$ CHARGES              | The full charge for the service(s) totaled in the detail. This charge must be the usual charge to any client, patient, or other beneficiary of the provider's services.  |
|      | G.   | DAYS OR UNITS           | The units (in whole numbers) of service(s) provided during the period indicated in Field 24A of the detail.  |
|      | Н.   | EPSDT/Family Plan       | Enter E if the services resulted from a Child Health Services (EPSDT) screening/referral.  |
|      | I.   | ID QUAL                 | Not required.  |
|      | J.   | RENDERING PROVIDER ID # | Enter the 9-digit Arkansas Medicaid provider ID number of the individual who furnished the services billed for in the detail or  |
|      |      | NPI                     | Enter NPI of the individual who furnished the services billed for in the detail.   |
| 25.  | FE   | DERAL TAX I.D. NUMBER   | Not required. This information is carried in the provider's Medicaid file. If it changes, please contact Provider Enrollment.  |
| 26.  | PA   | FIENT'S ACCOUNT NO.     | Optional entry that may be used for accounting purposes; use up to 16 numeric or alphabetic characters. This number appears on the Remittance Advice as "MRN."   |
| 27.  | AC   | CEPT ASSIGNMENT?        | Not required. Assignment is automatically accepted by the provider when billing Medicaid.  |
| 28.  | TO   | TAL CHARGE              | Total of Column 24F—the sum all charges on the claim.  |
| 29.  | AM   | OUNT PAID               | Enter the total of payments previously received on this claim. Do not include amounts previously paid by Medicaid. *Do <b>not</b> include in this total the automatically deducted Medicaid or ARKids First-B co-payments.   |
| 30.  | RES  | SERVED                  | Reserved for NUCC use.   |
|      |      |                         |  |

| Fiel | d Name and Number  | Instructions for Completion  |

242.110 Transportation of Portable X-Ray Services

10-13-03<sub>-</sub> 224

Procedure
Code
Description

R0070
Transportation of portable X-ray equipment and personnel to home or nursing home, per trip to facility or location, one patient seen, with the Medicaid maximum per trip.

View or print the procedure codes for Portable X-ray services.

Procedure code R0070 represents the mileage and setup. If more than one Medicaid patient is seen at a place of service, the Medicaid maximum must be divided by the number of Medicaid patients seen.

## 242.310 Completion of CMS-1500 Claim Form

9-1-14<u>10-1-</u> <u>221</u>

| Fiel | d Name and Number  | Instructions for Completion   |  |
|------|--|---|--|
| 1.   | (type of coverage)   | Not required.   |  |
| 1a.  | INSURED'S I.D. NUMBER (For Program in Item 1)                      | Beneficiary's or participant's 10-digit Medicaid or ARKids First-A or ARKids First-B identification number.   |  |
| 2.   | PATIENT'S NAME (Last<br>Name, First Name, Middle<br>Initial)       | Beneficiary's or participant's last name and first name.  |  |
| 3.   | PATIENT'S BIRTH DATE   | Beneficiary's or participant's date of birth as given on<br>the individual's Medicaid or ARKids First-A or ARKids<br>First-B identification card. Format: MM/DD/YY. |  |
|      | SEX  | Check M for male or F for female.   |  |
| 4.   | INSURED'S NAME (Last<br>Name, First Name, Middle<br>Initial)       | Required if insurance affects this claim. Insured's las name, first name, and middle initial.   |  |
| 5.   | PATIENT'S ADDRESS (No., Street)                                    | Optional. Beneficiary's or participant's complete mailing address (street address or post office box).  |  |
|      | CITY   | Name of the city in which the beneficiary or participant resides.   |  |
|      | STATE  | Two-letter postal code for the state in which the beneficiary or participant resides.   |  |
|      | ZIP CODE   | Five-digit zip code; nine digits for post office box.   |  |
|      | TELEPHONE (Include Area Code)                                      | The beneficiary's or participant's telephone number or the number of a reliable message/contact/ emergency telephone.   |  |
| 6.   | PATIENT RELATIONSHIP TO INSURED                                    | If insurance affects this claim, check the box indicating the patient's relationship to the insured.  |  |
| 7.   | INSURED'S ADDRESS (No., Street)                                    | Required if insured's address is different from the patient's address.  |  |
|      | CITY   |   |  |
|      | STATE  |   |  |

Prosthetics Section II

### **TOC** not required

### 212.203 Cochlear Implants for Beneficiaries Under Age 21

810-1-224

Cochlear implants are covered through the Arkansas Medicaid Physician or Prosthetics Programs for eligible Medicaid beneficiaries under the age of 21 years through the Child Health Services (EPSDT) program when prescribed by a physician.

The replacements of lost, stolen or damaged external components (not covered under the manufacturer's warranty) are covered when prior authorized by Arkansas Medicaid.

Reimbursements for manufacturer's upgrades will not be made. An upgrade of a speech processor to achieve aesthetic improvement, such as smaller profile components, or a switch from a body-worn, external sound processor to a behind-the-ear (BTE) model or technological advances in hardware are not considered medically necessary and will not be approved.

### A. Speech Processor

Arkansas Medicaid will not cover new generation speech processors if the existing one is still functional. Consideration of the replacement of the external speech processors will be made **only** in the following instances:

- 1. The beneficiary loses the speech processor.
- 2. The speech processor is stolen.
- 3. The speech processor is irreparably damaged.

Additional medical documentation supporting medical necessity for replacement of external components should be attached to any requests for prior authorization.

## B. Personal FM (Frequency Modulation) Systems

Arkansas Medicaid will reimburse for a personal FM system for use by a cochlear implant beneficiary when prior authorized and not available from any other source (i.e., educational services). The federal Individuals with Disabilities Education Act (IDEA) requires public school systems to provide FM systems for educational purposes for students starting at age three (3). Arkansas Medicaid does not cover FM systems for children who are eligible for this service through IDEA.

A request for prior authorization may be submitted for medically necessary FM systems (procedure code V5273 for use with cochlear implant) that are not covered through IDEA; each request must be submitted with documentation of medical necessity. These requests will be reviewed on an individual basis.

## C. Replacement, Repair, Supplies

The repair or replacement of the cochlear implant external speech processor and other supplies (including batteries, cords, battery charger and headsets) will be covered in accordance with the Arkansas Medicaid policy for the Physician and Prosthetics Programs. The covered services must be billed by an Arkansas Medicaid Physician or Prosthetics provider. The supplier is required to request prior authorization for repairs or replacements of external implant parts.

#### D. Prior Authorization

A request for prior authorization of a medically necessary FM system (V5273 for use with cochlear implant) and replacement cochlear implant parts requires a paper submission to the Arkansas Foundation for Medical Care (AFMC) using form DMS-679A. All documentation supporting medical necessity should be attached to the form. The provider will be notified in writing of the approval or denial of the request for prior authorization. View or print form DMS-679A and instructions for completion.

Prosthetics Section II

Prior authorization does not guarantee payment for services or the amount of payment for services. Eligibility for, and payment of, services are subject to all terms, conditions and limitations of the Arkansas Medicaid Program. Documentation must support medical necessity. The provider must retain all documentation supporting medical necessity in the beneficiary's medical record.

The following procedure codes must be prior authorized. Providers should use the following procedure codes when requesting prior authorization for replacement parts for cochlear implant devices. Applicable manufacturer warranty options must be exhausted before coverage is considered. Most warranties include one replacement for a stolen, lost or damaged piece of equipment free-of-charge by the manufacturer.

The table below contains new and existing HCPCS procedure codes for FM systems for use with cochlear implant and replacement cochlear implant parts.

NOTE: Coverage and billing requirements for the physician provider for cochlear device implantation are unchanged.

Prosthetics Section II

Reimbursement for **repairs** of specialized wheelchairs will be the manufacturer's list price for parts listed less 40% manual equipment (dealer discount), 30% power equipment (dealer discount), plus 35% (profit margin), plus labor billed by the unit (15 min. = 1 unit). A maximum of twenty (20) units (20 units = 5 hours of labor) per date of service is allowable. Any applicable pages from the manufacturer's catalog and the manufacturer's invoice for parts must be attached to the claim form.

Reimbursement for specialized wheelchair equipment, seating and rehab items <u>requiring manual pricing</u> is calculated using the manufacturer's current published suggested retail price less 15%. Any applicable pages from the manufacturer's catalog that reflect a description and the manufacturer's current published suggested retail price must be attached to the claim.

Kaye Products will be reimbursed at a set rate; therefore, the Kaye Products (procedure codes **E1031**, modifiers **EP**, **U1**; **E1031**, modifiers **EP**, **U3**; and **E1031**, modifiers **EP**, **U4**) may be billed electronically.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

### 233.000 Orthotic and Prosthetic Reimbursement for Repairs

<del>11-1-17</del><u>10-</u> <u>1-22<del>1</del></u>

Providers must bill for the repair of orthotic appliances and prosthetic devices utilizing the procedure codes listed in the table below. One unit of service equals 15 minutes. A maximum of 20 units of service is allowed per date of service. Any applicable pages from the manufacturer's catalog and the manufacturer's invoice for parts must be attached to all repair claims.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

| National<br>Procedure<br>Code    | Required<br>Modifier | Description  |
|----------------------------------|----------------------|--|
| L4205<br>L4210<br>L7510<br>L7520 | =                    | Repair of orthotic appliances and prosthetic devices (non-EPSDT) |
| L4205<br>L4210<br>L7510<br>L7520 | EP<br>EP<br>EP, UB   | Repair of orthotic appliances and prosthetic devices (EPSDT)     |

Reimbursement for orthotic appliances and prosthetic devices requiring **manual pricing** will be calculated using the manufacturer's invoice price plus 10%. <u>The manufacturer invoice must be attached to all repair claims</u>.

#### 236.000 Reimbursement for Repair of the Enteral Nutrition Pump

8<del>-1-21</del>10-1-

Reimbursement for repairs to the enteral nutrition infusion pump requires prior authorization. Repairs will be approved only on equipment purchased by Medicaid. Therefore, no repairs will be reimbursable prior to the equipment becoming the property of the Medicaid beneficiary.

Requests for prior authorization for enteral pump repairs must be submitted to DHS or its designated vendor. View or print contact information for how to submit the request.

Requests must be made on form DMS-679A titled *Prescription & Prior Authorization Request for Medical Equipment Excluding Wheelchairs & Wheelchair Components.* (View or print form DMS-679A and instructions for completion.)

The repair invoice and the serial number of the equipment must accompany the prior authorization request form. Total repair costs to an infusion pump may not exceed \$290.93. Medicaid will not reimburse for additional repairs to an infusion pump after the provider has billed repair invoices totaling \$290.93. If the equipment is still not in working order after the provider has billed the Medicaid maximum allowed for repairs, the provider must supply the beneficiary with a new infusion pump and may bill either procedure code **B9000** or **B9002** after receiving prior authorization for the new piece of equipment.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

#### 242.110 Respiratory and Diabetic Equipment, All Ages

<del>11-1-17</del><u>10-</u> <u>1-224</u>

When billed either electronically or on paper, procedure codes found in this section must be billed with certain modifiers. Modifiers in the section are indicated by the headings M1 and M2. When only the **NU** modifier is shown in the M1 column, the procedure code may be billed for beneficiaries of all ages. When **NU** and **EP** are listed together in the M1 column, the NU modifier must be used when billing for beneficiaries age 21 and over, and the EP modifier must be used when billing for beneficiaries under age 21. When a modifier is listed in the M2 heading, that modifier must be used in conjunction with either **NU** or **EP**.

Prior authorization requirements are shown under the heading PA. If prior authorization is needed, the information is indicated with a "Y" in the column; if not, an "N" is shown.

- ♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

### 242.111 Initial Rental of a DME Item for Individuals of All Ages

<del>11-1-17<u>10-</u></del> 1-224

Procedure codes found in this section may be billed either electronically or on paper.

Some procedure codes have been assigned a modifier that affects the billing process. Required modifiers are indicated in the M1 column in the list below. When a modifier is shown in the M1 column, it must be listed along with the procedure code when requesting payment by Arkansas Medicaid.

Procedure codes shown in the list below are either covered for all ages (AA), only for individuals under age 21 (U21) or only for individuals age 21 and over (21+). A column in the list below defines the differences.

- ♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

Providers will be reimbursed for a minimum of 30 days of rental when the equipment is used less than 30 days. Initial rental codes must be billed when equipment is used less than 30 days during the first month of rental.

Arkansas Medicaid will only reimburse for one initial minimum 30 days of rental per state fiscal year period per beneficiary per procedure code. The provider will not be reimbursed for the same procedure code utilizing another modifier for the same time period.

# 242.112 Home Blood Glucose Monitor and Supplies – Pregnant Women Only, All Ages 1-1-17101-221

Procedure codes found in this section must be billed either electronically or on paper with modifier **NU** for individuals of all ages. When a second modifier is listed, that modifier must be used in conjunction with the **NU** modifier.

Modifiers in the section are indicated by the headings M1 and M2. Prior authorization is indicated by the heading PA.

### 242.121 Food Thickeners, All Ages

<del>11-1-17</del><u>10-</u> 1-22<del>1</del>

Food thickeners, including "Thick-It," "Thick-It II," "Simply Thick," "Thick and Easy" and "Thick and Clear" are not subject to the \$250 medical supply benefit limit.

The modifier **NU** must be used with the procedure code found in this section and when food thickeners are to be administered enterally, the modifier "**BA**" must be used in conjunction with the procedure code.

When food thickeners are billed, total units are to be calculated to the nearest full ounce. Partial units may not be rounded up. When a date span is billed, the product cannot be billed until the end date has elapsed.

The maximum number of units allowed for food thickeners is 16 units per date of service.

#### 242.122 Jobst Stocking for Beneficiaries of All Ages

8<u>10</u>-1-2<u>2</u>4

The gradient compression stocking (Jobst) is payable for beneficiaries of all ages. However, before supplying the item, the Jobst stocking must be prior authorized by DHS or its designated vendor. View or print contact information for how to submit the request. Documentation accompanying form DMS-679A must indicate that the beneficiary has severe varicose veins with edema, or a venous stasis ulcer, unresponsive to conventional therapy such as wrappings, overthe-counter stockings and Unna boots. The documentation must include clinical medical records from a physician detailing the failure of conventional therapy. View or print form DMS-679A and instructions for completion.

# 242.130 Diapers and Underpads for Beneficiaries Ages 3 Years and Older

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and over. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

<del>11-1-17<u>10-</u></del> 1-22<del>1</del>

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization is indicated by the heading PA. If prior authorization is required, that information is indicated with a "Y" in the column, or if not, an "N" is shown.

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

Reimbursement is based on a per unit basis with one unit equaling one item (diaper, underpad). When billing for these services that are benefit limited to a dollar amount per month, providers must bill according to the calendar month.

Providers must not span calendar months when billing for diapers and/or underpads. The date of delivery is the date of service. Providers should not bill "from" and "through" dates of service.

Refer to Section 212.100 of this manual for coverage information on diapers and underpads.

### 242.140 Electronic Blood Pressure Monitor and Cuff, All Ages

<del>11-1-17</del><u>10-</u> 1-224

The procedure code found in this section must be billed either electronically or on paper using modifier **NU** for individuals of all ages.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

| National<br>Procedure<br>Code | <del>M1</del> | <del>M2</del> | Description                      | PA       | Payment<br>Method |
|-------------------------------|---------------|---------------|----------------------------------|----------|-------------------|
| A4670                         | NU            |               | Automatic blood pressure monitor | <u> </u> | Rental Only       |

Included with the rental of this monitor, the provider will need to supply one (1) disposable blood pressure cuff each month.

The following list provides the enteral formula HCPCS procedure codes, any associated modifiers, code descriptions, and the formula covered for each HCPCS code. The code description lists the formula included in the category of nutrients.

The coverage listed is payable only if the service is prescribed as a result of a Child Health Services (EPSDT) screening/referral.

No prior authorization is required for nutritional formulae for EPSDT beneficiaries from age five (5) years through twenty (20) years.

Prior authorization is required for beneficiaries from birth through four (4) years. Use of modifier **U7** in the following list will be necessary, as indicated.

To request prior authorization, providers should complete the *Prescription & Prior Authorization Request for Medical Equipment Excluding Wheelchairs & Wheelchair Components* (DMS-679A), attaching a copy of the EPSDT screening/referral as well as a prescription signed by the beneficiary's PCP. <u>View or print form DMS-679A</u>. <u>View or print contact information for how to submit the request.</u>

NOTE: The Women, Infant, and Children program (WIC) must be accessed before the Medicaid program for children from birth to five (5) years of age.

The Arkansas Medicaid program mirrors coverage of approved WIC nutritional formulae. As stated in current policy, the WIC Program must be accessed first for Arkansas Medicaid beneficiaries aged zero (0) to five (5) years, prior to requesting supplemental amounts of WIC-approved nutritional formula. The Medicaid nutritional formula list will be updated accordingly to continue compliance with the WIC Program in Arkansas. Changes will be reflected in the appropriate Medicaid provider manual.

For beneficiaries from birth through four (4) years of age, the use of modifier **U8**, as well as additional documentation, will be required when a non-WIC formula is prescribed, or WIC guidelines are not followed when prescribing special formula.

An EPSDT screening, which documents the PCP's medical rationale for prescribing a formula, as well as medical records documenting the beneficiary's failed trials of WIC formula, must be submitted for review. Flavor preferences for formulae will not be considered for medical necessity.

### **Exceptions to Use of Formulae**

The following exceptions must be followed in order to use formulae listed in this section.

- A. Nutramigen LIPIL Sensitivity or allergy to milk or soy protein; chronic diarrhea, food allergies, GI bleeds. Similac Advance must first have been tried.
- B. Nutramigen Enflora LGG Sensitivity or allergy to milk or soy protein; chronic diarrhea, food allergies, Gl bleeds. Similac Advance must first have been tried.
- C. Pregestimil Allergy to milk or soy protein; chronic diarrhea, short gut; cystic fibrosis; fat malabsorption due to GI or liver disease.
- D. Gerber Extensive HA Allergy to milk or soy protein; severe malnutrition; chronic diarrhea; short bowel syndrome; known or suspected corn allergy. Similac Advance must first have been tried.
- E. Alfamino Junior Allergy to cow's milk, multiple food protein intolerance, and food allergy associated conditions: short bowel syndrome, gastroesophageal reflux disease (GERD), eosinophilic esophagitis, malabsorption, and other GI disorders. Neocate Junior with Prebiotics is intended for children over the age of one (1) year.

F. Alfamino Infant – Allergy to cow's milk, multiple food protein intolerance, and food allergy associated conditions: short bowel syndrome, gastroesophageal reflux disease (GERD), eosinophilic esophagitis, malabsorption, and other GI disorders. Similac Expert Care Alimentum, Nutramigen, or Pregestimil must first have been tried.

- G. Portagen Pancreatic insufficiency, bile acid deficiency, or lymphatic anomalies; biliary atresia; liver disease; chylothorax.
- H. Similac PM 60/40 Renal, cardiac, or other condition that requires lowered minerals.
- I. Periflex Infant PKU; Hyperphenylalaninemia; for infants and toddlers.
- J. PKU Periflex Junior Plus Hyperphenylalaninemia; for children and adults.
- K. Gerber Good Start Premature 24– Preterm, low birth weight. Not intended for feeding low birth weight infants after they reach a weight of 3600 g (approximately eight (8) lbs.). Not approved for an infant previously on term formula or a term infant for increased calories.
- L. Enfamil EnfaCare Preterm infant transitional formula for use between premature formula and term formula. Not approved for an infant previously on term formula or a term infant for increased calories.

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under twenty-one (21) years of age. Modifier **BO** is used to bill for oral usage. When a second or third modifier is listed, that modifier must be used in conjunction with **EP**.

For beneficiaries from birth through four (4) years of age, the use of modifier **U7**, as well as additional documentation will be required when a non-WIC formula is prescribed, or WIC guidelines are not followed when prescribing special formula.

Modifiers in this section are indicated by the headings M1, M2, M3 and M4.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

One (1) unit of service equals one-hundred (100) calories with a reimbursable maximum of thirty (30) units per day. Supplies furnished by prosthetics providers in conjunction with the nutritional formula must be billed to Medicaid with the prosthetics medical supply codes. These formulae are covered as nutritional supplements rather than as the sole source of nutrition.

NOTE: Beneficiaries who require enteral nutrition as the sole source of nutrition with the formulae being administered through a nasogastric, jejunostomy or gastrostomy tube should be referred to a hyperalimentation provider enrolled in the Medicaid Program.

Each claim should reflect a "from" and "through" date of service. The claims must not be filed until after the "through" date has elapsed. Claims may be submitted on either a weekly or a monthly basis.

242.151 Pedia-Pop 11-17-10-1-10-

The procedure code found in this section must be billed with modifier **EP**. Pedia-Pop is only for oral consumption, and is only in frozen form.

Modifiers in this section are indicated by the headings M1 and M2.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

# 242.152 Enteral Nutrition Infusion Pump and Enteral Feeding Pump Supply 8<u>10</u>-1-2<u>2</u>4 Kit

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under twenty-one (21) years of age. When a second modifier is listed, that modifier must be used in conjunction with **EP**.

The procedure codes require prior authorization from DHS or its designated vendor. <u>View or print contact information for how to submit the request</u>.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

\*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product.

### **Enteral Nutrition Infusion Pump**

Reimbursement for the enteral nutrition infusion pump is based on a rent-to-purchase methodology. Each unit reimbursed by Medicaid will apply towards the purchase price established by Medicaid.

Reimbursement will only be approved for new equipment. Used equipment will not be prior authorized. Procedure codes **B9000** and **B9002** represent a new piece of equipment being reimbursed by Medicaid on the rent-to-purchase plan.

Codes **B9000** and **B9002** are reimbursed on a per unit basis with 1 day equaling 1 unit of service per day.

Medicaid will reimburse on the rent-to-purchase plan for a total of 304 units of service. After reimbursement has been made for 304 units, the equipment will become the property of the Medicaid beneficiary.

Prior authorization is required for codes **B9000** and **B9002**. The prior authorization request must include the serial number of the infusion pump being provided to the beneficiary.

See Section 236.000 for reimbursement when the Medicaid Program is billed for repairs made to the enteral infusion pump.

242.153 Low-Profile Skin Level Gastrostomy Tube (Low-Profile Button) and Low-Profile Percutaneous Cecostomy Tube and Supplies for Beneficiaries of All Ages

NOTE: When billing for the Low-Profile Percutaneous Cecostomy Tube or supplies, an additional third modifier UA will be required.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA.

# 242.155 Billing and Reimbursement Protocol for FM (Frequency Modulation) System and Replacement Cochlear Implant Parts

Procedure codes L8621, L8622 and L8624 in the table below require paper claim submission with a manufacturer's invoice attached that demonstrates the specific cost per item. The invoice must clearly indicate the specific item(s) supplied to the beneficiary for whom the claim is billed. Procedure codes L8615, L8616, L8617, L8618, L8619, L8623, L8627, L8628 and L8629 may be submitted electronically or on a paper claim form. Procedure code V5273 may be submitted electronically or on a paper claim form. For provider charges for an FM system that is meant to be used with a cochlear implant, V5273 should reflect the retail price. For reimbursement of an FM system to be used with a cochlear implant, V5273 will be at 68 percent of the retail price.

#### 242.160 Durable Medical Equipment, All Ages

11-1-17<u>10-</u> 1-221

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and older. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**. Modifier **UE** is required when billing for used equipment.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

The purchase of wheelchairs for individuals age 21 and older is limited to one per fiveyear period.

<sup>\*</sup>Denotes paper claim

- \*\*\* This procedure code may not be billed for used equipment.
- Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.
- This item is a capped rental for 90 days only, and requires PA and a review.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

Procedure codes **E0250**♦, **E0255**♦ and **E0260**♦ must be billed when hospital beds are purchased for Medicaid beneficiaries of all ages. Providers must only provide these purchase-only services to beneficiaries who are expected to require the bed for a long period of time. **Each procedure code for hospital beds listed above may only be billed once every 10 years.** 

Procedure codes **E0250**♠, **E0255**♠ and **E0260**♠ must also be used to bill for equipment that does not meet the purchase-only criteria. They are reimbursed on a capped rental basis. The capped rental items must be used until the equipment is no longer repairable or until it is no longer appropriate for the beneficiary as verified by the physician.

#### 242.170 Apnea Monitors for Beneficiaries Under 1 Year of Age

<del>5-22-19<u>10-</u></del> 1-22<del>1</del>

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age. Modifier **UE** must be used to bill for used equipment.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

Sections 212.300 and 222.200 contain information regarding specific coverage and restrictions.

- Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

#### 242.180 Orthotic Appliances for Beneficiaries of All Ages

8-15-18<u>10-1-</u>

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and older. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed for individuals age 21 and older, that information is indicated with a "Y" in the column; if not, an "N" is shown. When prior authorization is not applicable (for U21) that information is shown with an "N/A" in the column.

When codes are payable for all ages, "All" is indicated in the column, "U21" is shown when the code is payable only for individuals under age 21 and "21+" is shown when the code is payable only for those individuals age 21 and older.

\*\* This item is not a covered service for the diagnosis of Carpal Tunnel Syndrome prior to surgery.

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

- This procedure code does not require prior authorization; however, the beneficiary's medical condition must fall within the following diagnosis codes. (View ICD codes.)
- + This item is limited to one every twelve months for beneficiaries age 21 and over.

#### 242.190 Prosthetic Devices for Beneficiaries of All Ages

<del>-11-1-17</del><u>10</u> 1-22<u>1</u>

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and older. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed for beneficiaries age 21 and older, that information is indicated with a "Y" in the column; if not, an "N" is shown.

When codes are payable for all ages, "All" is indicated in the column, "U21" is shown when the code is payable only for beneficiaries under age 21 and "21+" is shown when the code is payable only for those beneficiaries age 21 and older.

- The purchase of this component is limited to one per five-year period for beneficiaries age 21 and over.
- \* Replacement only
- \*\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

NOTE: Procedure codes for prosthetic eyes and information regarding prosthetic eye care is located in the Arkansas Medicaid Visual Care Program Manual.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

### 242.191 Specialized Wheelchairs and Wheelchair Seating Systems for Individuals Age Two Through Adult

5<mark>-22-19</mark>10-1-221

Arkansas Medicaid covers wheelchairs and wheelchair seating systems for individuals ages two through adult.

For any item to be covered by Arkansas Medicaid, the beneficiary must be eligible for a defined Medicaid Aid Category. Coverage is subject to the requirement that the equipment must be medically necessary for the diagnosis or treatment of an illness or injury to improve the functioning of an affected body part, and must meet all other Medicaid statutory and regulatory requirements and established criteria.

The beneficiary's diagnosis must warrant the type of equipment being purchased. Items may not be covered in every instance.

Providers are cautioned that an approved prior authorization does not guarantee payment. Reimbursement is contingent upon eligibility of both the beneficiary and the provider at the time service is provided and submission of an accurate and complete request. The DME provider is responsible for verifying the eligibility of the beneficiary at the time service is provided.

Specialized wheelchairs and wheelchair seating systems must be ordered by a physician.

For those services that are not included in the Arkansas Medicaid State Plan, (e.g., highly technological wheelchairs and rehab equipment), the PCP must complete form DMS-693, titled Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Prescription/Referral for Medically Necessary Services/Items Not Specifically Included in the Medicaid State Plan. View or print form DMS-679 and instructions for completion.

NOTE: If the service or item(s) are specifically included in the Arkansas Medicaid State Plan, the completion of form DMS-693 is not required.

When a request is submitted for a power wheelchair, Power-Operated Vehicle (POV) or specialized manual wheelchair, the following Medicaid requirements must be met:

- A. A Prescription & Prior Authorization Request for Medical Equipment form (DMS-679) must be completed and submitted. This form must not be altered by the provider. <u>View or print form DMS-679 and instructions for completion.</u>
- B. The DMS-679 must be signed and dated by the beneficiary's PCP, APRN or the ordering physician. The signature must be original. Stamp signatures are not acceptable. Medicaid will accept electronic signatures provided the electronic signatures comply with Arkansas Code § 25-31-103 et seq.
- C. Correct Medicaid procedure codes and modifiers must be utilized. Requested items will be denied if correct procedures codes and modifiers are not used.
- D. All requests for prior authorization must be legible (felt pens must not be used).
- E. Medicaid requires the submission of the original request.
- F. Medical documentation from the beneficiary's PCP, APRN or ordering physician which included a detailed face-to-face medical examination must be submitted to establish medical necessity.
- G. An Evaluation for Wheelchair and Wheelchair Seating form (DMS-0843) must be submitted. This evaluation will be completed in three parts:
  - 1. Part A—to be completed by the DME provider.
  - 2. Part B—to be completed by the assistive technology practitioner or can be completed by a physical therapist or occupational therapist or seating specialist for Group 1 (one) and Group 2 (two) power wheelchairs with no power options.
  - 3. Part C—to be completed by the beneficiary's PCP, APRN or the ordering physician.
  - An Evaluation for Wheelchair and Wheelchair Seating form (DMS-0843) must be completed for all specialized wheelchairs except for rental wheelchairs. <u>View or</u> <u>print form DMS-0843 and instructions for completion.</u>
- H. A manufacturer's order form documenting the suggested retail price for the brand and model wheelchair and accessories and a manufacturer's quote must be submitted with the DMS 679.
- I. A DMS-693, Early and Periodic Screening, Diagnosis and Treatment (EPSDT) form, must be submitted for all pediatric wheelchairs and include detailed PCP or APRN medical documentation that clearly demonstrates medical necessity and clearly identifies the medical condition and the specific equipment that will meet the beneficiary's medical needs. Form DMS-693 and the supporting documentation must be submitted as an attachment to the request for prior authorization. It will then be reviewed for medical necessity. View or print form DMS-693.
- J. If requirements A through I are not completed correctly, the request could be denied.
- K. Arkansas Medicaid requires a Durable Medical Equipment (DME) provider to employ a RESNA (Rehabilitation Engineering and Assistive Technology Society of North America) certified ATP (Assistive Technology Practitioner) who specializes in wheelchair seating. The ATP will provide direct in-person recommendations for evaluation of the beneficiary's wheelchair selection, and is employed by the supplier. This applies for specialized manual wheelchair and power wheelchair in the category of Group 2 (single power option) and above.

The ATP's involvement in the wheelchair selection must be documented. Documentation of the ATP's involvement does not qualify as a face-to-face examination and may not be cosigned by a physician.

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and older. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

Other coding information found in the chart:

- The purchase of this component for beneficiaries age 21 and older is limited to one per five-year period.
- The purchase of this wheelchair component for beneficiaries under age 21 is limited to one per two-year period.
- \* The purchase of wheelchairs for beneficiaries age 21 and older is limited to one per five-year period.
- \*\* Bill only for beneficiaries under age 21.
- \* This procedure code is payable for beneficiaries ages 2 through 20. Prior authorization is required through Utilization Review.
- \*\*\*\* Items listed require prior authorization (PA) when used in combination with other items listed and the total combined value exceeds the \$1,000.00 Medicaid maximum allowable reimbursement limit.
- ♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.

Note: W/C or w/c indicates wheelchair.

\*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

#### **Required Documentation**

#### Face-to-Face Examination

In order for Medicaid to provide reimbursement for a Power/motorized Wheelchair (PWC), Power Operated Vehicle (POV) (scooter) or specialized manual wheelchair, the following requirements must be met.

- A. A face-to-face physician examination must be performed.
- B. The physician must perform a medical examination for the specific purpose of assessing the beneficiary's mobility limitation and needs. The results of this exam must be recorded in the patient's medical record.
- C. The prescription must be written only **after** the face-to-face physician examination and assessment of mobility limitations have occurred and the medical history and physical examination is completed.
- D. The prescription and the medical records documenting the in-person visit and examination report must be sent to the equipment supplier within forty-five (45) days of completion of the examination.
- E. The physician may refer the beneficiary to a licensed/certified professional, a Physical Therapist (PT) or Occupational Therapist (OT) to perform a wheelchair assessment.

If the beneficiary is referred to a physical/occupational therapist before the physician completes the face-to-face examination, the physician must review the physical/occupational therapist's written report and perform the final examination. The forty-five (45)-day period begins on the date of the physician's final face-to-face examination and must be submitted with the prior authorization request.

The face-to-face examination must include:

- A. History of the present condition(s) and past medical history that is relevant to mobility needs:
  - 1. Symptoms that limit ambulation.
  - 2. Diagnoses that are responsible for these symptoms.
  - 3. Medications or other treatment for these symptoms.
  - 4. Progression of ambulation difficulty over time.
  - 5. Other diagnoses that may relate to ambulatory problems.
  - 6. How far the patient can walk without stopping.
  - 7. What ambulatory assistance (cane, walker, wheelchair, caregiver) is currently being used.
  - 8. What has changed to now require use of a power mobility device.
  - 9. Ability to stand up from a seated position without assistance.

- B. Physical examination that is relevant to mobility needs:
  - 1. Beneficiary's weight and height.
  - 2. Cardiopulmonary examination.
  - 3. Musculoskeletal examination, arm and leg strength and range of motion.
  - 4. Neurological examination, gait, balance and coordination.

The examination should be tailored to the individual patient's condition. The history should clearly establish the patient's functional abilities and limitations related to mobility and ambulation.

In addition to all other requirements, a power mobility device is covered by Medicaid **only** if the beneficiary has a mobility limitation that significantly impairs his/her ability to perform activities of daily living within the home.

Provider-created forms and letters are not a substitute for other required forms and will not be considered.

#### Additional Wheelchair Documentation

- A. The purchase of a wheelchair for individuals twenty-one (21) years of age and over is limited to one wheelchair per five (5)-year period if medically necessary. A wheelchair is a dependable mobility base with positioning components. It has complex positioning capabilities and is designed to grow in width, depth and height to accommodate physical changes of its users, it is of use to people with certain medical conditions and serves a specific medical purpose related to the condition of the patient.
- B. The purchase of a wheelchair for an individual twenty (20) years of age and under is limited to one per two (2)-year period, if medically necessary.
- C. Payment is made for one wheelchair only as stipulated in A. and B. Backup and loaner D. wheelchairs are not covered by Arkansas Medicaid.
- D. Requests for a wheelchair that is beneficial primarily in allowing the beneficiary to perform leisure or recreational activities only will be denied. It is not medical in nature. Wheelchairs are authorized for medical use only.
- E. Strollers and stroller-like chairs of any kind are not covered by Arkansas Medicaid. A stroller is a four-wheeled, often collapsible, chair-like carriage. They are helpful to caregivers and are typically used for transportation. Although stroller and stroller-like chairs may be used to transport individuals with medical conditions, such items do not serve a medical purpose. Strollers and stroller-like chairs have no positioning components for medical use, cannot be modified for growth and accommodate changes in medical or physical condition, and cannot be self-propelled by the individual.
- F. Prior authorization is required even when insurance pays primary to Medicaid. Explanation of benefits (EOB) of the other insurance must be submitted with the request.
- G. All wheelchair requests require a manufacturer's brand and the model name of the base.
- H. In the event a wheelchair is stolen, damaged in the home, or by vehicle or fire, a police/fire report, copy of the home owners/auto insurance coverage and detailed documentation of events leading to the loss/damage are required.
- I. Mobility bases for car seats are not covered by Medicaid.
- J. Options, accessories, and replacement parts that are medically necessary for wheelchairs that do not have specific HCPCS codes should be coded K0108 (other accessories). The manufacturer's suggested retail price (MSRP) must be listed for each item coded K0108,

- and the MSRP quote to the DME provider must be included. The MSRP quote must not be altered by the DME provider. If the MSRP is altered in any way, the request will be denied.
- K. In the event a beneficiary wishes to change services from one DME provider to another DME provider, an affidavit signed and dated by the beneficiary must be submitted with the request from the new DME provider.
- L. The existence of a procedure code does not necessarily indicate coverage by Arkansas Medicaid.
- M. The allowed amount of a POV includes all options and accessories that are provided at the time of initial issue. This includes but is not limited to batteries, battery chargers, seating systems, etc. All options and accessories provided at the initial issue of a Power-Operated Vehicle (POV) are included and should not be billed separately.
- N. If coverage criteria is not met for a specific item requested, and Arkansas Medicaid determines that another item is more appropriate and meets medical necessity, that item will be authorized.
- O. The wheelchair will significantly improve the beneficiary's ability to participate in Mobility Related Activities of Daily Living (MRADL) and the individual will use the wheelchair on a regular basis in the home.
- P. The individual's home will provide adequate access between rooms, maneuvering space and surface for use of the requested wheelchair.

#### Non-Covered Items for Specialized Wheelchairs and Wheelchair Systems

- A. Items that are deluxe in nature. Deluxe items are items of convenience that are not medically necessary. Deluxe items are often used for social purposes or convenience. Deluxe items include deluxe accessories which increase the cost of purchase or operation. Deluxe items and deluxe accessories are not covered by Arkansas Medicaid.
- B. Items for use in hospitals, nursing home or other institutions.
- C. Items for the beneficiary's comfort or the caregiver's convenience.
- D. Two pieces of equipment that serve the same purpose.
- E. Backup and loaner wheelchairs.
- F. Wheelchairs that primarily allow the beneficiary to perform leisure or recreational activities.
- G. Mobility bases for car seats.
- H. Items that are not primarily used in the treatment of a disease, injury or illness.
- I. Any items or item upgrades that add cost without improving the beneficiary's ability to perform Mobility Related Activities of Daily Living.

### Warranty, Maintenance and Replacement of Specialized Wheelchairs and Wheelchair Systems

All standard durable medical equipment must have a manufacturer's warranty. If a DME provider supplies equipment that is not covered under a warranty, the provider is responsible for repairs, adjustments, replacements and maintenance. The warranty begins on the date of delivery (date of service) to the beneficiary. The DME provider must keep a copy of the warranty for audit review by Medicaid. Medicaid may request a copy of the warranty.

DME suppliers must furnish at least a minimum of six (6) months warranty for any adjustments to new wheelchairs at no charge.

Labor will not be covered for the initial chair and for parts and services that are under warranty.

#### 242.192 Specialized Rehabilitative Equipment for Beneficiaries of All Ages

810-1-221

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and over. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

- \*\* Indicates that providers may bill only for beneficiaries under age 21.
- ♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

<u>View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.</u>

#### 242.193 Speech Generating Device for Beneficiaries of All Ages

4<u>10</u>-1-2<u>2</u>4

The speech generating device must be billed using the procedure code assigned to each component. The specific components will be reimbursed, as needed, for the procedure codes listed below and will count toward the lifetime limit of \$7,500 per beneficiary.

Procedure codes found in this section must be billed either electronically or on paper with modifier **EP** for beneficiaries under 21 years of age or modifier **NU** for beneficiaries age 21 and over. When a second modifier is listed, that modifier must be used in conjunction with either **EP** or **NU**.

Modifiers in this section are indicated by the headings M1 and M2. Prior authorization requirements are shown under the heading PA. If prior authorization is needed, that information is indicated with a "Y" in the column; if not, an "N" is shown.

- NOTE: Attach a manufacturer's invoice to the claim and indicate the item or parts billed on the invoice. A description and the amount billed for each item must be attached to the claim. If more than one item is billed under a procedure code, the description and billed amount of each item must be listed separately under each procedure code and attached to the claim. The total billed for each procedure code should be reflected in field 24F.
- ♦ Prior authorization is not required when other insurance pays at least 50% of the Medicaid maximum allowable reimbursement amount.
- \*(...) This symbol, along with text in parentheses, indicates the Arkansas Medicaid description of the product. When using a procedure code with this symbol, the product must meet the indicated Arkansas Medicaid description.

View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.

|-------------------|---------------|---------------|----|--|--------------------|
| Procedure<br>Code | <del>M1</del> | <del>M2</del> | PA | <del>Description</del>   | Payment<br>Method  |
| E2599             | NU<br>EP      |               | ¥◆ | **(Switches - used with training aids and speech generating devices as a means of access) Accessory for speech generating device, not otherwise classified | Manually<br>Priced |
| V5336             | NU<br>EP      | RP<br>RP      | ¥  | **(Speech Generating Device Repair - parts only) Repair/modification of speech generating system or device (excludes adaptive hearing aid)                 | Manually<br>Priced |
| <del>√5336</del>  | NU<br>EP      |               | ¥  | **(Speech Generating Device Repair - labor only) Repair/modification of speech generating system or device (excludes adaptive hearing aid)                 | Manually<br>Priced |

Note: When repair charges for both parts and labor of the SGD is provided and/or billed on the same date of service, only one detail (parts only or labor only) of procedure code V5336-may be billed per beneficiary per date of service. Information must be specified on the paper claim to clarify the charges billed by the provider. Parts and labor charges must be itemized by narrative and documentation.

- A. The charge for parts must be clearly documented. A manufacturer's invoice for the parts must be attached.
- B. The labor charge and the time represented by the labor charge must be clearly documented.

#### 242.195 Repairs of Specialized Wheelchairs and Wheelchair Systems

8<u>10</u>-1-2<u>2</u>4

- A. Arkansas Medicaid will cover repairs for wheelchairs and wheelchair seating.
- B. Repair services must receive prior authorization from DHS or its designated vendor. <u>View or print contact information for how to submit the request</u>.
- C. Detailed documentation from the technician that supports the equipment or services being requested must be submitted. Documentation must include the following:
  - 1. Date and place of purchase of the current chair.
  - 2. Brand and model name of the base.
  - 3. Brand and model name of parts and accessories needed for repairs.
- D. Correct procedure codes per the current Medicaid policy must be used. <u>See Section</u> <u>242.191.</u>
- E. Requests for repairs must be submitted on form DMS-679 (Prescription & Prior Authorization Request for Medical Equipment) and must be signed and dated by the beneficiary's PCP or ordering physician. View or print form DMS-679 and instructions for completion.
- F. Repairs for previously authorized wheelchairs that the beneficiary has outgrown will not be covered if a new chair has been authorized.
- G. In the event a request is submitted for repairs for a wheelchair authorized by another state agency, documentation or a delivery ticket showing that the wheelchair was authorized by another state agency must be submitted with the request.

- H. Arkansas Medicaid will not cover repairs/damage due to the following:
  - Neglect.
  - 2. Misuse.
  - 3. Abuse.
  - 4. Improper installation or repair by the DME provider.
  - 5. Use of parts or changes by the DME provider or the beneficiary not authorized by Arkansas Medicaid.
- I. When a request is submitted for a new wheelchair with a statement that the previous wheelchair cannot be repaired, documentation from the manufacturer of the previous chair stating the reason why the previous wheelchair cannot be repaired must be included.
- J. If the previous wheelchair cannot be repaired, several color photographs taken at different angles must be included with the new request.

#### Miscellaneous

- A. Only a physician can order a wheelchair.
- B. A physician's evaluation is valid for a period of six (6) months. After six (6) months, the beneficiary must be re-evaluated by the physician to determine medical necessity for continued need based upon changes in conditions and measurements.
  - A DME request is considered outdated by Medicaid when it is first presented to Medicaid more than ninety (90) days from the date it was written, signed and dated by the physician.

#### 242.402 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u> 1-221</del>

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

- A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges 96365 through 96379.
  - View or print the procedure codes and modifiers for Durable Medical Equipment (DME), oxygen equipment and supplies, orthotic appliances, prosthetic devices and medical supplies, procedures and services.
- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.

4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

#### 252.101 Billing Instructions for Family Planning Visits

<del>6-15-10<u>10-</u></del> <u>1-22<del>1</del></u>

Effective on and after April 30, 2010, all claims submitted from RHC providers for family planning visits are to use the following billing protocol, regardless of the date of service. No RHC family planning visits should be billed under the physician's provider number. The revised billing protocol will allow correct payment according to the benefit limit for eligible Arkansas Medicaid beneficiaries.

Rural Health Clinic providers are to bill revenue codes **0524** (for Independent RHCs) and **0525** (for Provider-Based RHCs), as well as an applicable procedure code and modifier. Procedure code **99402**-with modifier **U9** will be used for the basic family planning visit, and **99401**-with modifier **U9** will be used for the periodic family planning visit. This is shown in the following table. RHC basic and periodic family planning visits are billable electronically and on paper claim forms. All family planning services require a primary diagnosis of family planning on the claim.

| Revenue<br>Code | Description  | Procedure<br>Code | Description                       | Modifier       |
|-----------------|--|-------------------|-----------------------------------|----------------|
| 0524            | Basic or Periodic Family Planning Visit Independent RHC    | 99401             | Periodic Family<br>Planning Visit | <del>U9</del>  |

252.102 Billing Instructions for EPSDT and ARKids First-B Medical Screenings

<del>9-1-14</del><u>10-1-</u> <u>221</u>

Effective on or after April 30, 2010, all claims submitted by RHC providers for EPSDT and ARKids First-B medical screens performed by RHC personnel are to use the following billing protocol, regardless of the date of service. No screens should be billed under the physician's provider number. However, if the screens were billed earlier under the physician's provider number, do not re-bill. RHC providers are to bill the appropriate screen codes and modifiers. Each RHC's individual encounter rate will now be reimbursed when the RHC bills one of these medical screen procedure codes with the correct modifier(s). However, the encounter rate will only be reimbursed if the charge for the service submitted on the claim is greater than or equal to the RHC's encounter rate. The RHC will be reimbursed the lesser of the billed amount or their encounter rate.

Example – If an RHC's encounter rate is \$75 and the RHC submits a screen claim with a billed amount of \$85, the RHC will be reimbursed the lesser \$75 encounter rate. If the same RHC submits a screen claim with a billed amount of \$70, the RHC will be

### reimbursed the \$70 lesser amount and not the encounter rate. Screens are billable electronically and on paper claims.

For ARKids First-A (EPSDT) electronic billing, medical screens will require the electronic 837P with the special program indicator "01" in the header, along with the appropriate certification condition indicator and code. At the detail level, the procedure code will be billed with the EP modifier and the second modifier. For ARKids First-A (EPSDT) paper billing, providers will bill on the CMS-1500 claim form using the EP modifier and the second modifier. See the Physician provider manual for more information.

For ARKids First-B (ARKids First) electronic billing, medical screens will require the 837P without the special program indicator (professional electronic claim) with no modifier except for newborn care procedures, which require a UA modifier. For ARKids First-B (ARKids First) paper billing, providers will bill on the CMS-1500 claim form with no modifier except for newborn care procedure codes, which require a UA modifier. See the ARKids First provider manual for more information.

This billing protocol is shown in the following table.

252.103 Billing of Multi-Use and Single-Use Vials

<del>11-1-15<u>10-</u></del> 1-224

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges <u>96365 through 96379</u>.

#### View or print the procedure codes for Rural Health Clinic (RHC) services.

B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.

 Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.

- 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
- 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
- 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

#### 252.401 Upper Respiratory Infection – Acute Pharyngitis

<del>9-1-20<u>10-1-</u></del> 221

A Rural Health Center (RHC) must submit a claim that includes CPT code 87430, 87650, 87651, 87802, or 87880 in the Upper Respiratory Infection (URI)-Acute Pharyngitis episode if a strep test is performed when prescribing an antibiotic for beneficiaries. This allows DMS to determine if the Principle Accountable Provider (PAP) met or exceeded the quality threshold in order to qualify for a full positive supplemental payment for the URI-Pharyngitis episode.

| SERVICE DESCRIPTION  | MINIMUM DOCUMENTATION REQUIREMENTS                                 |

Marital/Family Behavioral Health Counseling with Beneficiary Present is a face-to-face treatment provided to one or more family members in the presence of a beneficiary. Services must be congruent with the age and abilities of the beneficiary, client-centered and strength-based, with emphasis on needs as identified by the beneficiary and provided with cultural competence. Services are designed to enhance insight into family interactions, facilitate interfamily emotional or practical support and to develop alternative strategies to address familial issues, problems and needs. Services pertain to a beneficiary's (a) Mental Health and/or (b) Substance Abuse condition. Additionally, tobacco cessation counseling is a component of this service.

- · Date of Service
- Start and stop times of actual encounter with beneficiary and spouse/family
- · Place of service
- Participants present and relationship to beneficiary
- Diagnosis and pertinent interval history
- Brief mental status of beneficiary and observations of beneficiary with spouse/family
- Rationale for, and description of treatment used, that must coincide with the master treatment plan and improve the impact the beneficiary's condition has on the spouse/family and/or improve marital/family interactions between the beneficiary and the spouse/family.
- Beneficiary and spouse/family's response to treatment that includes current progress or regression and prognosis
- Any changes indicated for the master treatment plan, diagnosis, or medication(s)
- Plan for next session, including any homework assignments and/or crisis plans
- Staff signature/credentials/date of signature
- HIPAA compliant release of Information, completed, signed and dated

### 272.150 Crisis Intervention

4<del>-1-18</del>10-1-224

| CPT®/HCPCS PROCEDURE CODE   | PROCEDURE CODE DESCRIPTION  |  |
|---|---|--|
| View or print the procedure codes for SBMH services. H2011, U4, HA  | Crisis intervention service, per 15 minutes   |  |
| SERVICE DESCRIPTION   | MINIMUM DOCUMENTATION REQUIREMENTS  |  |
| Crisis Intervention is unscheduled, immediate, short-term treatment activities provided to a Medicaid-eligible beneficiary who is experiencing a psychiatric or behavioral crisis. Services are to be congruent with the age, strengths, needed accommodation for any disability, and cultural framework of the beneficiary and his/her family. These services are designed to stabilize the person in crisis, prevent further deterioration and provide immediate indicated treatment in the least restrictive setting. (These activities include evaluating a Medicaid-eligible beneficiary to determine if the need for crisis services is present.) | <ul> <li>Date of service</li> <li>Start and stop time of actual encounter with beneficiary and possible collateral contacts with caregivers or informed persons</li> <li>Place of service</li> <li>Specific persons providing pertinent information in relationship to beneficiary</li> <li>Diagnosis and synopsis of events leading up to crisis situation</li> <li>Brief mental status and observations</li> <li>Utilization of previously established psychiatric advance directive or crisis plan as pertinent to current situation OR rationale for crisis intervention activities utilized</li> <li>Beneficiary's response to the intervention that includes current progress or regression and prognosis</li> <li>Clear resolution of the current crisis and/or plans for further services</li> <li>Development of a clearly defined crisis plan or revision to existing plan</li> <li>Staff signature/credentials/date of signature(s)</li> </ul> |  |
| NOTES   | UNIT BENEFIT LIMITS   |  |
| A psychiatric or behavioral crisis is defined as an acute situation in which an individual is experiencing a serious mental illness or emotional disturbance to the point that the beneficiary or others are at risk for imminent harm or in which to prevent significant deterioration of the beneficiary's functioning.  This service can be provided to beneficiaries that have not been previously assessed or have not previously received behavioral health services.  The provider of this service MUST complete a   | DAILY MAXIMUM OF UNITS THAT MAY BE BILLED: 12  YEARLY MAXIMUM OF UNITS THAT MAY BE BILLED (extension of benefits can be requested): 72  |  |

| Mental Health Diagnosis (90791) within 7 days of provision of this service. If the beneficiary needs more time to be stabilized, this must be noted in the beneficiary's medical record and the Division of Medical Services Quality Improvement Organization (QIO) must be notified. |                              |

### **TOC** not required

### 215.000 Covered Air Ambulance Services

10-13-03<u>-</u> 221

Please refer to Section 241.100 for reimbursement information. Please refer to <u>Section 252.100</u> for covered air ambulance services and the payable procedure codes.

#### 241.100 Air Ambulance

10-13-03<sub>-</sub> 224

Arkansas Medicaid reimburses turboprop, piston propelled and jet aircraft air ambulance services per hour of services (medical services) and per mileage (aircraft operating costs). The hourly rate will only be reimbursed for time while the aircraft is in the air, on the runway for takeoff and landing, boarding and disembarking patient and crew, and taxiing.

Arkansas Medicaid will reimburse ground transport salary and fringe expenses for the aircraft medical crew up to a maximum of \$1,000 per total roundtrip flight for air nursing crew and air paramedic crew procedure codes. (See <u>Section 252.100</u> for procedure codes.) This reimbursement can only be made for medical crew assistance time while:

- A. The crew travels to the hospital to pick up the patients;
- B. The patient is being transported from the original hospital to the aircraft;
- C. The patient is being transported from the aircraft to the receiving hospital and
- D. The crew is traveling back to the aircraft after delivering the patient to the receiving hospital.

The ground transport medical crew time is reimbursable whether or not the crew actually accompanies the patient in the ground transport ambulance. The crew may travel in a separate vehicle, if necessary.

Arkansas Medicaid will reimburse air transport ventilator and respiratory therapist services. This service will only be reimbursed, when necessary, for patient care during transportation.

### 252.100 Ambulance Procedure Codes

8-3-20<u>10-1-</u> 224

The covered ambulance procedure codes are listed below.

### View or print the procedure codes for Transportation (Ambulance) services.

Drug procedure codes require National Drug Codes (NDC) billing protocol. See Section 252.110 below.

| A0382             | A0398             | A0422             | A0425             | A0426             | A0427             | A0428             | A0429             |

<sup>\*</sup>Procedure code can be billed <u>only</u> in conjunction with procedure code<del>A0426 and **A0427**</del> (please keep all documentation supporting the medical necessity of all codes billed for retrospective review of claims).

Arkansas Medicaid follows the billing protocol per the Federal Deficit Reduction Act of 2005 for drugs.

Transportation Section II

A. Multiple units may be billed when applicable. Take-home drugs are not covered. Drugs loaded into an infusion pump are not classified as "take-home drugs." Refer to payable CPT code ranges <u>96365 through 96379</u>.

- B. When submitting Arkansas Medicaid drug claims, drug units should be reported in multiples of the dosage included in the HCPCS procedure code description. If the dosage given is not a multiple of the number provided in the HCPCS code description the provider shall round up to the nearest whole number in order to express the HCPCS description number as a multiple.
  - Single-Use Vials: If the provider must discard the remainder of a single-use vial or other package after administering the prescribed dosage of any given drug, Arkansas Medicaid will cover the amount of the drug discarded along with the amount administered.
  - 2. **Multi-Use Vials**: Multi-use vials are not subject to payment for any discarded amounts of the drug. The units billed must correspond with the units administered to the beneficiary.
  - 3. **Documentation:** The provider must clearly document in the patient's medical record the actual dose administered in addition to the exact amount wasted and the total amount the vial is labeled to contain.
  - 4. **Paper Billing:** For drug HCPCS/CPT codes requiring paper billing (i.e., for manual review), complete every field of the **DMS-664** "Procedure Code/NDC Detail Attachment Form." Attach this form and any other required documents to your claim when submitting it for processing.

Remember to verify the milligrams given to the patient and then convert to the proper units for billing.

Follow the Centers for Disease Control (CDC) requirements for safe practices regarding expiration and sterility of multi-use vials.

| Procedure<br>Code | Required<br>Modifier                           | Description   |

|-------|-------|---|--|
|       | C.    | EMG                                     | Enter "Y" for "Yes" or leave blank if "No." EMG identifies if the service was an emergency.  |
|       | D.    | PROCEDURES,<br>SERVICES, OR<br>SUPPLIES |  |
|       |       | CPT/HCPCS                               | Enter the correct CPT or HCPCS procedure code from Section 242.100.  |
|       |       | MODIFIER                                | Modifier(s) if applicable.   |
|       | E.    | DIAGNOSIS POINTER                       | Enter the diagnosis code reference letter (pointer) as shown in Item Number 21 to relate to the date of service and the procedures performed to the primary diagnosis. When multiple services are performed, the primary reference letter for each service should be listed first; other applicable services should follow. The reference letter(s) should be A-L or multiple letters as applicable. The "Diagnosis Pointer" is the line letter from Item Number 21 that relates to the reason the service(s) was performed. |
|       | F.    | \$ CHARGES                              | The full charge for the service(s) totaled in the detail. This charge must be the usual charge to any client, patient, or other recipient of the provider's services.  |
|       | G.    | DAYS OR UNITS                           | The units (in whole numbers) of service(s) provided during the period indicated in Field 24A of the detail.  |
|       | H.    | EPSDT/Family Plan                       | Enter E if the services resulted from a Child Health Services (EPSDT) screening/referral.  |
|       | I.    | ID QUAL                                 | Not required.  |
|       | J.    | RENDERING PROVIDER ID #                 | Enter the 9-digit Arkansas Medicaid provider ID number of the individual who furnished the services billed for in the detail or  |
|       |       | NPI                                     | Enter NPI of the individual who furnished the services billed for in the detail.   |
| 25.   | FEC   | DERAL TAX I.D. NUMBER                   | Not required. This information is carried in the provider's Medicaid file. If it changes, please contact Provider Enrollment.  |
| 26.   | PAT   | TIENT'S ACCOUNT N O.                    | Optional entry that may be used for accounting purposes; use up to 16 numeric or alphabetic characters. This number appears on the Remittance Advice as "MRN."   |
| 27.   | ACC   | CEPT ASSIGNMENT?                        | Not required. Assignment is automatically accepted by the provider when billing Medicaid.  |
| 28.   | ТОТ   | AL CHARGE                               | Total of Column 24F—the sum all charges on the claim.  |
| 29.   | AMO   | DUNT PAID                               | Enter the total of payments previously received on this claim. Do not include amounts previously paid by Medicaid. *Do <b>not</b> include in this total the automatically deducted Medicaid co-payments.   |
|       |       |   | <u> </u>   |

| Fiel | d Name and Number  | Instructions for Completion  |
|------|--|--|
| 31.  | SIGNATURE OF PHYSICIAN<br>OR SUPPLIER INCLUDING<br>DEGREES OR<br>CREDENTIALS | The provider or designated authorized individual must sign and date the claim certifying that the services were personally rendered by the provider or under the provider's direction. "Provider's signature" is defined as the provider's actual signature, a rubber stamp of the provider's signature, an automated signature, a typewritten signature, or the signature of an individual authorized by the provider rendering the service. The name of a clinic or group is not acceptable. |
| 32.  | SERVICE FACILITY<br>LOCATION INFORMATION                                     | If other than home or office, enter the name and street, city, state, and zip code of the facility where services were performed.  |
|      | a. (blank)   | Not required.  |
|      | b. (blank)   | Not required.  |
| 33.  | BILLING PROVIDER INFO & PH#  | Billing provider's name and complete address. Telephone number is requested but not required.  |
|      | a. (blank)   | Enter NPI of the billing provider or   |
|      | b. (blank)   | Enter the 9-digit Arkansas Medicaid provider ID number of the billing provider.  |

### **TOC** not required

### 214.200 Coverage and Limitations of the Under Age 21 Program

<del>7-1-17</del><u>10-1-</u> <u>224</u>

- A. One examination and one pair of glasses are available to eligible Medicaid beneficiaries every twelve (12) months.
  - 1. If repairs are needed, the eyeglasses must have been originally purchased through the Arkansas Medicaid Program in order for repairs to be made.
  - 2. If the glasses are lost or broken beyond repair within the twelve (12)-month benefit limit period, one additional pair will be available through the optical laboratory. After the first replacement pair, any additional pair will require prior authorization. There will be no co-payment assessed for replacement glasses requiring prior authorization.
  - 3. All replacements will be made by the optical laboratory and the doctor's office may make repairs only when necessary.
  - 4. EPSDT beneficiaries will have no co-pays. ARKids First-B beneficiaries will be assessed a \$10.00 co-pay. All co-pays will be applied to examination codes rather than to tests or procedures.
- B. Prescriptive and acuity minimums must be met before glasses will be furnished. Glasses should be prescribed only if the following conditions apply:
  - 1. The strength of the prescribed lens (for the poorer eye) should be a minimum of -.75D + 1.00D spherical or a minimum of .75 cylindrical or the unaided visual acuity of the poorer eye should be worse than 20/30 at a distance.
  - 2. Reading glasses may be furnished based on the merits of the individual case. The doctor should indicate why such corrections are necessary. All such requests will be reviewed on a prior approval basis.
- C. Plastic or polycarbonate lenses only are covered under the Arkansas Medicaid Program.
- D. When the prescription has met the prescriptive and acuity minimum qualifications, Medicaid will purchase eyeglasses through a negotiated contract with an optical laboratory.
- E. The eyeglasses will be forwarded to the doctor's office where he or she will be required to verify the prescription and fit or adjust them to the patient's needs.
- F. Eye prosthesis and polishing services require a prior authorization.
- G. Contact lenses are covered if medically necessary with a prior authorization. Please refer to Section 212.000 for contact lens guidelines.
- H. Eyeglasses for children diagnosed as having the following diagnoses must have a surgical evaluation in conjunction with supplying eyeglasses.
  - 1. Ptosis (droopy lid)
  - 2. Congenital cataracts
  - 3. Exotropia or vertical tropia
  - 4. Children between the ages of twelve (12) and twenty-one (21) exhibiting exotropia
- I. Prior authorized orthoptic and/or pleoptic training (procedure code 92065) may be performed only in the office of a licensed optometrist or ophthalmologist for Medicaid eligible children ages twenty (20) and under and for CHIP eligible children ages eighteen (18) and under.

1. The initial prior authorization request must include objective and subjective measurements and tests used to indicate diagnosis.

- 2. The initial prior authorization approved for this treatment will consist of sixteen (16) treatments in a twelve (12)-month period with no more than one treatment per seven (7) calendar days.
- 3. An extension of benefits may be requested for medical necessity.
- 4. Requests for extension of benefits must include the initial objective and subjective measures with diagnosis along with subjective and objective measures after the initial sixteen (16) treatments are completed to show progress and the need for, or benefit of, further treatment.
- 5. For a list of diagnoses that are covered for orthoptic and/or pleoptic training (View ICD Codes.).
- J. Prior authorized sensorimotor examination (procedure code 92060) may be performed only in the office of a licensed optometrist or ophthalmologist for Medicaid eligible children ages twenty (20) and under and for CHIP eligible children ages eighteen (18) and under who have received a covered diagnosis based on specific observed and documented symptoms.
  - 1. Benefit limit of one (1) sensorimotor examination in a twelve (12) month period.
  - 2. An extension of benefits may be requested for medical necessity.
  - 3. For a list of diagnoses that are covered for sensorimotor examination (View ICD Codes.).
- K. Prior authorized developmental testing (procedure code 96111) may be performed only in the office of a licensed optometrist or ophthalmologist for Medicaid eligible children ages twenty (20) and under and for CHIP eligible children ages eighteen (18) and under who have received a covered diagnosis based on specific observed and documented symptoms.
  - 1. Benefit limit of one (1) developmental testing in a twelve (12) month period.
  - 2. An extension of benefits may be requested for medical necessity.
  - 3. For a list of diagnoses that are covered for developmental testing (View ICD Codes).

<sup>\*</sup>Procedure codes with one asterisk require prior authorization when the place of service is an inpatient hospital.

Gross visual field testing is a part of general ophthalmologic services and is not billed separately. See the CPT manual for definitions, examples of levels of service and complete procedure code descriptions.

<sup>\*\*</sup>Procedure code 96111 requires prior authorization and is limited to beneficiaries under age 21 years.

<sup>\*\*\*</sup>Procedure code 92326 is manually priced and requires prior authorization.

### 243.130 Hospital Discharge Day Management

10-13-03<u>-</u> 221

Procedure code-99238, hospital discharge day management, may not be billed by providers on the same date of service as initial or subsequent hospital care, procedure codes 99221 through 99233. Initial hospital care and subsequent hospital care may not be billed on the day of discharge.

View or print the procedure codes for Vision services.

### 243.140 Billing Instructions for Balanced Lens for Aphakia

4<del>-15-05<u>10-</u> 1-221</del>

Visual Care providers must bill procedure code \( \frac{\supersquare}{2799} \) (unspecified procedure) when providing balanced lenses to aphakia patients who are eligible for both Medicare and Medicaid. Medicaid providers must bill for this procedure using the CMS-1500 claim form. A copy of the lab invoice and the Medicare EOMB that reflects the denial must be attached to the claim.

View or print the procedure codes for Vision services.

#### 243.150 Office Medical Services

<del>12-1-06<u>10-</u></del> <u>1-22<del>1</del></u>

The office medical services provided by an optometrist are limited to twelve (12) visits per state fiscal year (July 1 through June 30) for beneficiaries age 21 and older. The benefit limit will be used in conjunction with four other programs: physicians' services, medical services provided by dentists, rural health clinic services and certified nurse-midwife services. Beneficiaries will be allowed twelve visits per state fiscal year for office medical services furnished by an optometrist, medical services furnished by a dentist, physicians' services, rural health clinic services and certified nurse-midwife services or a combination of the five. Extensions beyond the twelve-visit limit may be provided if medically necessary. Office medical services for beneficiaries under age 21 in the Child Health Services (EPSDT) Program are not benefit limited.

Office medical services covered in the Visual Care Program are limited to the following procedure codes:
