The Registrar shall report cases of violation of any of the provisions of the laws and rules to the prosecuting attorney of the proper county, with a statement of facts and circumstances.

1	(B) "Chemical abortion" includes the off-label use of
2	drugs known to have abortion-inducing properties, which are prescribed
3	specifically with the intent of causing an abortion, such as misoprostol and
4	methotrexate.
5	(C) "Chemical abortion" does not apply to drugs that may
6	be known to cause an abortion but which are prescribed for other medical
7	indication; and
8	(2) "Medical emergency" means a condition that, on the basis of
9	the physician's good-faith clinical judgment, complicates the medical
10	condition of a pregnant woman and necessitates the immediate termination of
11	her pregnancy to avert her death or for which a delay will create serious
12	risk of substantial and irreversible impairment of a major bodily function.
13	
14	20-16-2403. Informed consent for chemical abortions.
15	(a) A chemical abortion shall not be performed or induced without the
16	voluntary and informed consent of the pregnant woman upon whom the chemical

18	(b) Except in the case of a medical emergency, consent to a chemical
19	abortion is voluntary and informational only if at least seventy-two (72)
20	hours before the abortion, the healthcare provider who is to perform the
21	chemical abortion or the referring healthcare provider has informed the
22	pregnant woman, orally and in person, of the following:
23	(1) The probable gestational age of the unborn child as
24	determined by patient history and ultrasound results used to confirm the
25	gestational age;
26	(2) A detailed description of the chemical abortion regimen to
27	be used;
28	(3) A detailed list of the risks and complications related to

32	possible continuation of pregnancy, and death;
33	(4) Information about Rh incompatibility, including that if the
34	pregnant woman has an Rh negative blood type, she should receive an injection
35	of Rh immunoglobulin at the time of the chemical abortion to prevent Rh
36	incompatibility in future pregnancies, which can lead to complications and

2

1	<u>miscarriage;</u>	
2	(5) The risks of complications from a chemical abortion increase	
3	with advancing gestational age;	
4	(6) Information on reversing the effects of the chemical	
5	abortion if the pregnant woman changes her mind, but that time is of the

14	or care, and assess bleeding or other potential complications.	
15	(c)(l) Except in the case of a medical emergency, before a chemical	
16	abortion, a pregnant woman shall certify on a written checklist form provided	
17	or approved by the Department of Health that the information described in

21	described in subdivision (c)(l) of this section before performing a chemical	
22	abortion.	
23	(B) The healthcare provider shall retain a copy of the	
24	written certification form in the pregnant woman's medical record.
