Department of Finance and Administration Office of the Arkansas Lottery – Internal Audit Arkansas Legislative Council – Lottery Oversight Subcommittee Monthly Report

During the reporting period, the Office of the Arkansas Lottery (OAL) Internal Audit Department (IA) issued the following reports to the Director of the Department of Finance and Administration (DFA Director):

Office Vehicles

The audit centered on controls and procedures related to the management of OAL's office vehicles. The audit also calculated the difference between the current mileage reimbursement of Marketing Sales Representatives (MSRs) and Regional Sales Managers (RSMs). The following observations and recommendations were reported:

- IA calculated that the OAL spent \$212,366.44 last year in mileage reimbursements to its Marketing Sales Representatives (MSR) and Regional Sales Manager (RSM). IA compared the cost of paying mileage reimbursement against the cost of purchasing and utilizing state vehicles. IA determined that OAL could save \$43,904.12 annually, if they purchased their own vehicles and those vehicles had a service life of 7 years, or 128,000 miles. OAL Management disputed this recommendation and their response is provided.
- IA contacted Marketing and Reutilization (M&R) and discovered that four vehicles turned into M&R were sold for a total of \$11,656.97. The proceeds from those sales were deposited into the State's Motor Vehicle Fund (MMV) fund, even though OAL is not authorized to utilize MMV funds. Melanie Hazeslip, DFA Office of Administrative Services' Administrator explained that OAL is not authorized to utilize MMV funds to procure state vehicles, because they are self-funded. M&R has since added OAL to the MMV exempt list and created a warrant to return the \$11,656.97 of proceeds back to OAL. OAL Management concurs with this recommendation.
- IA observed two transactions on WEX statements for fuel, but these transactions were not reflected on the vehicle logs. On June 1, 2018, \$23.31 of fuel was purchased for the 2010 Jeep Liberty, but this transaction is not documented on the vehicle's drivers log. The transaction is documented on the WEX statement for June 2018. On September 21, 2018, \$24.03 was purchased for the 2017 Ford Fusion, but this transaction is not documented on the vehicle's drivers log. The transaction is documented on the WEX statement for October 2018. According to State of Arkansas: Vehicle Use and Management Handbook, vehicle logs must record the cost and amount of fuel purchased. OAL Management concurs with this recommendation.

OAL Management stated the following on response to the mileage reimbursement savings recommendation made by Internal Audit.

• OAL Management's Response: The OAL has periodically evaluated the efficiency of paying mileage reimbursements to MSRs and the RSMs versus purchasing state vehicles for their use. Most recently, in preparation for the FY 2020 budget submission, a cost analysis was performed relating to the two RSMs, as they are consistently among the higher mileage reimbursement submissions. Also, the MSRs can be re-assigned to new territories, which can change their routes and the amounts they are reimbursed, significantly. The analysis related to the RSM mileage indicated that the total operating costs of providing a vehicle to use versus the cost of their annual mileage reimbursements, was approximately the same. Since there was no significant cost savings identified, it was decided to continue using mileage reimbursements for the use of their personal vehicle use by the RSMs and

Department of Finance and Administration Office of the Arkansas Lottery – Internal Audit Arkansas Legislative Council – Lottery Oversight Subcommittee Monthly Report

consequently, the MSRs, for FY 2020. Since the IA schedule in **Appendix A** provides no detail as to how the Annual Cost of Procured Vehicle was calculated, we could find no basis for comparison as to why the OAL's calculated cost and IA calculated cost differ?

An additional factor to be considered in this evaluation is if vehicles are purchased and added to the OAL vehicle fleet, it will require additional administrative support to meet the administrative requirements related to a vehicle fleet, such as the required monthly reporting in the SAVA system. In addition regular vehicle support duties such as the proper purchase of vehicles; the proper disposal of vehicles; the review of maintenance and proper reporting of the vehicle mileage logs; review to assure that all personal use of state vehicles is properly reported and that IRS regulations are met; review of the adequacy of insurance coverages; monitoring of proper accident reporting, if any occur; monitoring fuel card use and reporting; scheduling and payment of required vehicle maintenance and repairs; assuring proper tire replacement; assuring annual vehicle licensing and all other functions required for vehicle ownership and operations, would all require much more time and effort. As the OAL vehicle fleet is currently only three vehicles, most of these duties are currently being handled by the OAL Chief Fiscal Officer, as part of his duties. However, any significant additions to the OAL vehicle fleet would result in the CFO no longer being able to handle the vehicle administration, due to the additional volume of work required. And there are no other OAL employees that could handle these additional requirements, as all OAL administrative support positions and extra accountant positions were eliminated when the OAL became part of DFA.
