Subject: RE: Sustainability Plan

Senator Sanders,

The two tables below detail our current projection for both expenditures and revenues for the current rolling 5-year period. Table 1 details the information which includes Arkansas Works - ESI. For comparative purposes I have also included Table 2, which does NOT include any costs or revenues for AW-ESI. AHIM's sustainability is not dependent upon AW- ESI. Additionally, please note that this model is built upon the following assumptions:

- Annual Premium Increase of 9%
- Annual Population Increase of 5%
- Baseline assessment of 3.5% beginning in PY2018
- FFM IT fee remains constant at 1.5%

In addition, you may recall that we were required to update our Marketplace Blueprint in order to meet the deadline for transitioning to a SBE-FP model. Section 8.0 of the Blueprint specifically detailed the data on sustainability. A material component of that forecast contained a scope of work associated with Arkansas Works-ESI that DHS had requested AHIM to perform. In June, as the Arkansas Works waiver was still under development, we posted what we speculated would be the cost of performing the work for DHS. The initial cost estimates were based upon a larger expectation of deliverables. That information has since been significantly refined and the current cost estimates in the tables below reflect the new scope.

The Blueprint is scheduled to be updated within a week following the AHIM Board meeting on September 23, 2016.

Please let me know if you have any questions or if we may be of additional assistance.

Best,
Cheryl

Table 2: AHIM SHOP & SBE-FP Baseline Five Year Budget

Operating Expenses	2016	2017	2018	2019	2020
Salary and Fringe	\$2,428,400	\$2,525,536	\$2,626,560	\$2,877,851	\$2,992,968
