Commitment to Automation

In recent years, our judicial system has made great use of modern equipment and our technical systems are incomplete and incompatible with other systems utilized in the courts and the government. Obviously, uniform and effective automation of the courts of this state will increase the cost effectiveness and the efficiency of our courts, as well as improve the quality of justice available to our citizens.

It is our intention, ultimately, to develop a comprehensive plan that would provide compatible equipment throughout the judicial system.

SUPREME COURT OF ARKANSAS
NOVEMBER 19, 1990

ADMINISTRATIVE OFFICE OF THE COURTS COURT INFORMATION SYSTEMS DIVISION

1

Provide technological support to the state's courts

2

Manage the Arkansas Court Automation Programs

3

Support more than 6,000 application users
