PATHWAYS TO POSSIBILITIES

Executive Summary

In FY2015, the Division of Youth Services (DYS) identified the need for a strategic approach to helping the state's Juvenile Detention Center (JDC) network improve the quality of care offered to Arkansas youth. To this end, the Division's Quality Assurance monitors began auditing all fourteen JDCs in partnership with the Juvenile Detention Facilities Review Committee and required deficient JDCs to implement Corrective Action Plans (CAP). DYS has also developed and implemented a voluntary Program Rehabilitation model for JDCs through its System Reform unit and has begun planning for a statewide DYS Academy that will support Arkansas juvenile justice workers and leaders in their work to meet standards and institute best practices and reform.

Years of planning and coordination culminated with a unique public-private partnership between the Division and Shorter College, for the first time providing on-campus college-level instruction to youth in residential care at the Arkansas Juvenile Assessment and Treatment Center (AJATC). This program provides college credit to system-involved youth as a bridge back to the community and to future success, and may well serve as a model for replication at other sites.

The State of Arkansas is required by the federal government to have three targeted counties addressing Disproportionate Minority Contact (DMC) and is in compliance with the Office of Juvenile Justice and Delinquency Prevention's (OJJDP) mandate to address DMC. DYS currently coordinates with local DMC coalitions in Jefferson, Pulaski, and Crittenden counties and is working with Garland and Sebastian Counties to establish coalitions there as well.

DYS is working with the Division of Behavioral Health to implement several diversion pilot programs that will link juvenile judges to local treatment options for court-involved youth who have been diagnosed with a disability. Likewise, the Division is partnering with the Annie E. Casey Foundation to continue support for Juvenile Detention Alternatives Initiative (JDAI) sites currently in the state.

In FY2015, DYS and the Arkansas Juvenile Justice Coalition (ACJJ) awarded over half a million dollars in federal monies via Title II and Juvenile Accountability Block Grants (JABG) to fund prevention and intervention programming. These encompass mental health services, gender-specific services, deinstitutionalization of status offenders, disproportionate minority contact, juvenile justice system improvement, law enforcement training, graduated sanctions, drug courts, interagency information-sharing, needs and risk assessments, restorative justice, recidivism reduction, and others. Over 30 programs received funding. The Division will provide grantees training and technical assistance into FY2016 to ensure program compliance and success.

Planning continues for the 2016 DYS-ACJJ Statewide Juvenile Justice Conference, a semi-annual event. The Division is coordinating with system partners to produce a conference of regional significance, and inviting juvenile justice professionals from both Arkansas and her surrounding states. The conference will take place in Little Rock from March 15-17 of 2016.

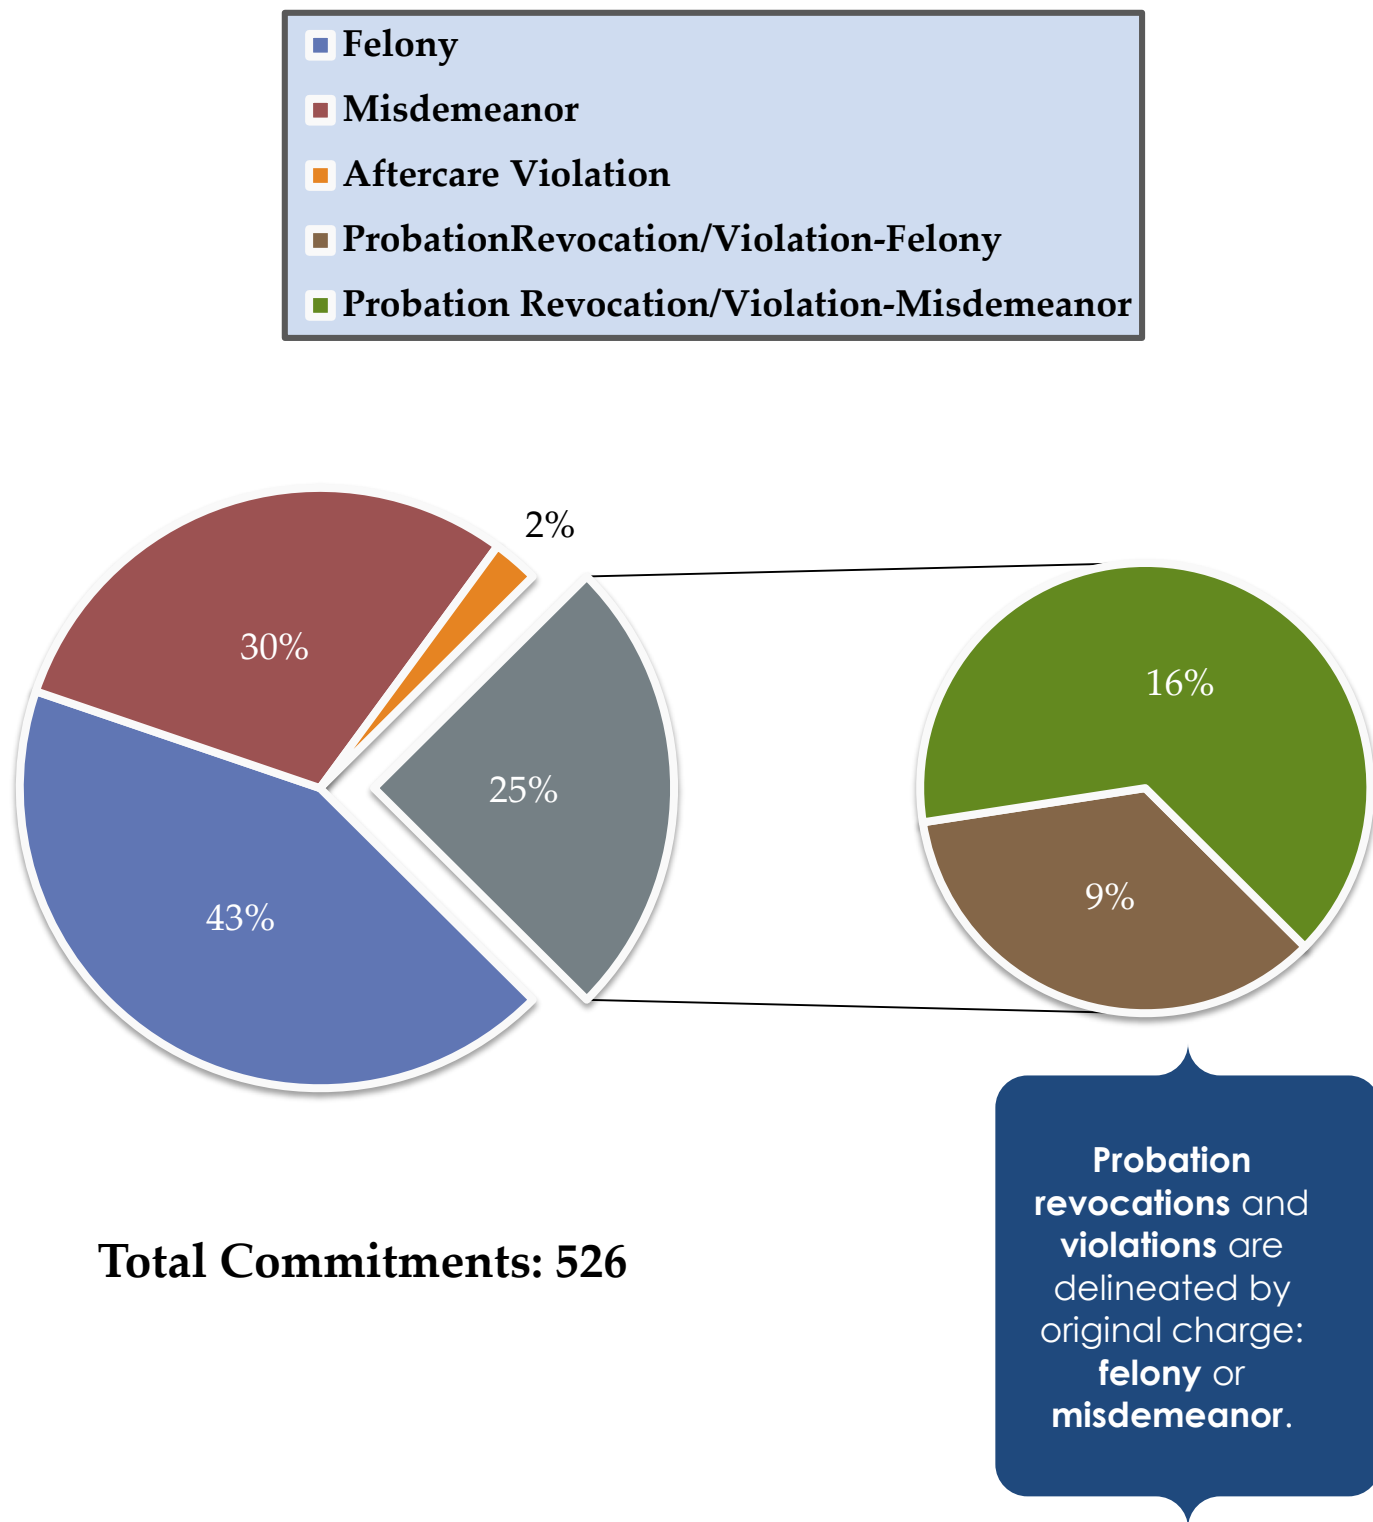

DYS Vision

Arkansas' juvenile justice system is a leader in reform and collaboration across the state, working to prevent most youth from ever needing legal intervention and providing those that do with effective rehabilitation and reintegration; youth that become involved with the juvenile justice system are treated, educated, and equipped with the tools they need to find success as productive and responsible members of collective society.

DYS Mission

The Division of Youth Services' mission is to provide effective community-based prevention, diversion, appropriate correction and rehabilitation, improved education and thorough aftercare in order to enhance the comprehensive well-being of the youth of Arkansas involved in the juvenile justice system.
