2021 CPAE Clinic

24 Patients to date 10.19.21

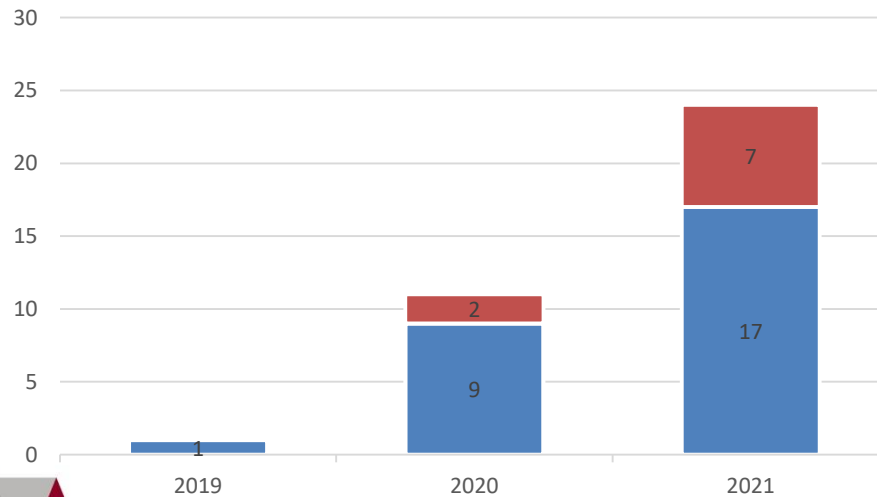

Arkansas 18 patients assessed
Outside AR 6 patients assessed

CPAE Volume & Outcome

Interventions for PANS are only given for patients with an active flare. Our # of PANS patients is too small to be able to share the # of interventions without potential breach of patient information. We are also reviewing our patient experience data on a monthly basis and discussing with CPAE leadership for Quality and Performance Improvement opportunities.

CPAE Clinic Volume

- Non- PANS
- PANS
