

Information Network of Arkansas
Summary of Contracts expiring after July, 2017

About INA

The Information Network of Arkansas is a public-private partnership formed by legislation in 1995. Arkansas code §25-27-101 establishes INA's mission to expand access to government services and information for citizens and businesses in Arkansas.

Since 1997, INA has developed and supports the ongoing operation of over 700 websites and online services on behalf of 116 Arkansas state government agencies, boards and commissions as well as 103 city and county government entities. Thousands of citizens use its services each year to process over 7 million secure online transactions.

Although INA is primarily funded through fees paid by citizens and businesses who choose to use its value added services, over 60% of services developed and supported by INA do not involve transaction fees.

The contract for management of these services was awarded to the Arkansas Information Consortium, LLC., a subsidiary of NIC, Inc., through a competitive bid process in 1997 and again in 2011. INA's twelve-member board, whose members are appointed by the Governor, is comprised of both public and private sector representatives of key government and business interests and approves all fees charged for these services.

The INA board is represented by the following agencies and user associations:

State Agencies

Arkansas Department of Finance and Administration
Arkansas Secretary of State
Arkansas Department of Information Systems
Arkansas Science and Technology Authority
Arkansas Public Library Association
Arkansas Department of Health
Arkansas Economic Development Commission

User Associations

Independent Insurance Agents
Baldwin Shell Construction
North Little Rock Chamber of Commerce
Arkansas Bar Association
Arkansas Banker's Association

More information about INA, including a full list of services, can be found online at ina.arkansas.gov. More information about NIC can be found at www.egov.com.

Summary of Contracts

INA manages 356 contracts with State and local government entities for a variety of online services. Contracts fall into 6 different types, and are all subject to INA's master contract (SP-11-0143) with the State of Arkansas. A complete list of contracts is included in Appendix A.

Contract type	Comments	#
No-cost, self-funded online services	These services are provided at no cost to the state and are funded by users who opt to use the service and pay a convenience fee.	245
Application hosting and support	INA has developed custom software applications for multiple agencies, who pay annual fees for maintenance and hosting of the software.	30
Website CMS hosting and maintenance	Agencies making use of INA's Content Management System (CMS) for websites pay an annual fee based on the size of the site.	44
Dedicated resource	Some agencies pay a monthly retainer for expedited or dedicated resources.	3
Email Marketing services	INA provides an email marketing system for agencies to distribute and track email messages and campaigns.	8
Domain Name Server Maintenance	INA provides Domain Name Service (DNS) through a provider for custom domains requested by agencies.	26

Fully subsidized, no-cost services

Fully subsidized, no-cost services	INA provides many online services at no cost to citizens or to the state. These services do not involve a transaction fee and are paid for under INA's self-funded model.	~350
