Summary of Proposed Rule Regarding Investment Policy

APERS Rule 501 - Investments

PURPOSE: The Arkansas Public Employees' Retirement System (APERS) seeks to repeal APERS Rule 501 – Investments, in its entirety.

Ark. Code Ann. § 24-2-601 et seq. grants the APERS Board authority to invest and manage the funds for APERS for the benefit of the members in accordance with the "prudent investor rule" set forth in §§ 24-2-610–24-2-619. The Board annually and periodically updates its portfolio of investments, adopted under Board policy, with the advice and expertise of investment consultants hired for such purpose and reacts to dynamic market changes as the needs arise by using market strategies available for those investments. Thus, APERS Rule 501 Investment Policy has become outdated, obsolete, and not applicable to board investment actions which are already taken under applicable law. The repeal of this Rule is non-controversial and assists in expediency in government by eliminating an obsolete and unnecessary APERS Board Rule.

SUBSTANTIVE CHANGES: Repeal.

NON-SUBSTANTIVE CHANGES: None.

| 7. | With respect to the agency's answers to Questions #5 and #6 above, is there a new or increased cost or obligation of at least one hundred thousand dollars (\$100,000) per year to a private individual, private entity, private business, state government, county government, municipal government, or to two (2) or more of those entities combined? Yes No |
|----|---|
| | Yes □ No ☑ |

If YES, the agency is required by Ark. Code Ann. § 25-15-204(e)(4) to file written findings at the time of filing the financial impact statement. The written findings shall be filed simultaneously with the financial impact statement and shall include, without limitation, the following:

- (1) a statement of the rule's basis and purpose;
- (2) the problem the agency seeks to address with the proposed rule, including a statement of whether a rule is required by statute;
- (3) a description of the factual evidence that:
 - (a) justifies the agency's need for the proposed rule; and
 - (b) describes how the benefits of the rule meet the relevant statutory objectives and justify the rule's costs;
- (4) a list of less costly alternatives to the proposed rule and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
- (5) a list of alternatives to the proposed rule that were suggested as a result of public comment and the reasons why the alternatives do not adequately address the problem to be solved by the proposed rule;
- (6) a statement of whether existing rules have created or contributed to the problem the agency seeks to address with the proposed rule and, if existing rules have created or contributed to the problem, an explanation of why amendment or repeal of the rule creating or contributing to the problem is not a sufficient response; and
- (7) an agency plan for review of the rule no less than every ten (10) years to determine whether, based upon the evidence, there remains a need for the rule including, without limitation, whether:
 - (a) the rule is achieving the statutory objectives;
 - (b) the benefits of the rule continue to justify its costs; and
- (c) the rule can be amended or repealed to reduce costs while continuing to achieve the statutory objectives.

Investments

501 - 1985 (12) - Investment Policy (as amended May 2010, August 2014)

Arkansas Public Employees Retirement System Investment Policy

I. Statement of Purpose

The assets of the Arkansas Public Employees Retirement System (APERS) shall be invested asdetermined from time to time by the APERS Board. This statement sets forth the investment objectives of APERS and the investment policies to be followed in carrying out those objectives.

Investment of the APERS' funds shall be made for the exclusive benefit of the participants andbeneficiaries of the System. The purposes of investing APERS' funds are to provide benefits

to participants and their beneficiaries and to defray the necessary expenses associated withinvesting APERS' funds and administering the System.

II. Background (history)

The Arkansas Public Employees Retirement System was established by the General Assemblyin 1957 and is governed by a nine member Board of Trustees. From its inception until 1985, the investment of the trust fund was governed by Arkansas Statutes that provided for a permissible list of investments. However, Act 412 of 1985 repealed the permissible investmentlist and enacted the prudent investor rule. Act 412 of 1985 also allows the establishment of

a custodial bank relationship. Act 412 of 1985 states that the System shall seek to invest at least five percent, but not more than ten percent of the System's portfolio in Arkansas related investments, but only when consistent with the fiduciary requirements of the trustees. Act 302of 1989 allows the System to employ Multiple Discretionary Money Managers as appropriate. Act 1194 of 1997 revises and updates the investment policies and rules, including the prudent investor rule.

III. Statutory Authority

The primary statutory authority for the investment activities of APERS is found in Sections 24-2-601 through 24-2-619 of the Arkansas Code, as amended. Trustees shall invest and managetrust assets as a prudent investor would, by considering the purposes, terms, distribution requirements, and other circumstances of the trust. Trustees who have special skills or expertise, have a duty to use those special skills or expertise (24-2-611). The prudent investorrule shall be applied by each party serving in a fiduciary capacity for APERS.

IV. Investment Objectives

The investment objectives shall be: (1) the protection of the APERS' Fund so that such assets are preserved for providing benefits to participants and their beneficiaries; and (2) to maximizetotal return - either in the form of income or capital appreciation or both - consistent with prudent risk taking on the amounts available to provide such benefits. For this purpose, short- term fluctuations in value shall be considered secondary to long-term investment results.

The long-term return objective for the APERS' Fund shall be to achieve a real-rate of return of 4.0%. This is the return over the rate of inflation (as measured by the Consumer Price Index). This objective is not to be a goal from year to year, but is intended as a long-term guideline tothose involved in investing the Trust's assets. The investments of the APERS' Fund shall be so diversified as to minimize the risk of large losses, unless under particular circumstances it is clearly prudent not to do so. Investments will be further diversified by hiring an appropriate number of managers whose investment styles are varied enough to provide a balance to the overall risk of the Fund.

V. Asset Allocation (by major categories)

To avoid extreme exposure to investment risk, the following percentages represent the minimum and maximum portion at market of the portfolio that may be invested by types:

| Market \ | مبيلد/ | EVPOSURA |
|----------|--------|----------|
| | | |

| | Market value Exposure | | |
|-------------------------------|-----------------------|----------------------|--|
| Asset Class | Target | Range | |
| Domestic Equity | 37% | 32% - 42% | |
| International Equity | 24% | 19% - 29% | |
| Domestic Fixed Income | 18% | 13% - 23% | |
| Diversified Strategies | 5% | 0% - 10% | |
| Real Assets | 16% | 11% -21% | |

The Board of Trustees shall review its asset allocation at least annually to determine if the assetallocation is consistent with the level of risk and volatility acceptable to the Fund.

Should actual asset class percentages fall outside the target ranges, the Fund will rebalance to the target percentages. The re-balancing will necessitate the movement of funds from style to style. This re-balancing will occur at least annually unless circumstances dictate that it be donemore frequently. Within these broader asset classes, the Trustees shall establish commitment levels to various investment styles, as the dynamics of the Plan's financial needs dictate.

VI. Portfolio Guidelines

Through selecting, timing and weighting investments, the Fund's objective is to maximize the total return of the account assets, through price appreciation and/or

yield, consistent with thelevel of risk taken. In determining the appropriate risk posture for the Fund, consideration should be given to the overall risk characteristics of the Fund, and the extent to which components of the Fund are diversified. Additionally, the Board of Trustees establishes the following specific guidelines:

- 1. Securities may not be purchased on margin.
- The System may establish a Securities Lending Program subject to restrictionsestablished by the Board.
- 3. Each investment manager will be required to invest within the specific guidelines and parameters set by the Board of Trustees.
- 4. APERS recognizes a legal responsibility to seek to invest in the Arkansas economy, while realizing its primary, legal, and fiduciary commitment is to beneficiaries of the retirementsystem, under the prudent investor rule.
- 5. It is the intent of APERS to include qualified minority (African-American, Hispanic- American, American Indian, Asian-American, or Pacific Islander-American), female, and disabled owned business enterprises in the Fund's investment manager selection process. The inclusion of the above managers in the selection process will be recorded and periodically reviewed by APERS staff and presented to the Board as requested. This process is intended to ensure all investment managers are given equitable consideration in the manager selection process in keeping with the fiduciary obligations of the APERS Board for the beneficiaries and annuitants of the System.

VII. Custodianship of Securities

Securities may be held by the State Treasurer or, under the authority granted by Arkansas Code24-2-606, APERS may establish an arrangement with a financial institution, as specified by this Code, for the custodianship of its securities subject to the approval of the Board of a Request for Proposal as well as a proposed contract.

VIII. Roles and Responsibilities

Custodian Bank

The custodian bank shall, by nominee agreement, hold any and all securities for the beneficialinterest of the APERS fund. Custodial activities will include, but are not limited to, the purchase, registration, and sale of stocks, bonds, notes, and other securities, as well as the collection of any income. In order to maximize the Fund's return, no money should be allowed to remain idle. Dividends, interest, proceeds from sales, new contributions and all other moneys are to be invested or reinvested promptly.

Administrative Staff

The Administrative Staff, at the direction of the, Board of Trustees, executes all

investment transactions for any assets managed in-house. In addition, they are responsible for communicating with the investment professionals the information necessary to fulfill contractual obligations. The Administrative Staff also communicates decisions of the Board of Trustees to investment managers, custodian bank, actuary, and consultant.

Board of Trustees

The Board of Trustees shall review the total investment program. The Board shall approve theinvestment policy and provide overall direction to the administrative staff in the execution

of the investment policy. The Board of Trustees shall review and approve or disapprove investment recommendations not governed by Investment Policy prior to their execution. The Board shall also review and approve investment policy changes, deletions, or additions. The Board shall review and approve or disapprove any contracts of a financial nature, when performed by other than APERS' staff persons, such as, although not limited to, those for investment counselors, custodial arrangements, option programs, and security lending.

IX. Total Fund Performance Measurement Standards

- The Fund's overall annualized total return (price change plus income) should exceed thereturn available from a policy of "rolling over" 90-day Treasury Bills (as a proxy for the inflation rate) by at least 4.0% percentage points per year measured over a period of 10 years.
- 2. The Total Fund should rank in the upper 50th percentile compared to the results of othersimilarly managed public fund portfolios measured over a five-year period.
- 3. The Fund's annualized total return over rolling five year periods should, after manager'sfees, exceed the return of the following Target Indices as established by the Board.

X. Proxy Voting

The Board has directed that the individual investment managers will be responsible for voting proxies in the best interest of APERS. Each investment counselor is responsible for maintainingrecords of how each proxy is voted. A written report of proxy voting will be provided to the Board within 30 days from the end of each quarter. In general, each investment counselor is expected to vote for improvements in corporate governance, for the alignment interests of corporate management with shareholder interests, and for equal access to the management proxy card. A detailed explanation will be given for each instance where the proxy is voted against these concepts or against management.

XI. Review of Investment Process

1. On a timely basis, but not less than twice a year, the Board will review actual investment results achieved by each manager (with a perspective toward a three

to five-year time horizon or a peak-to-peak or trough-to-trough market cycle) to determine whether

- 2. The investment managers performed in adherence to the investment philosophyand policy guidelines set forth herein.
- b. The investment managers performed satisfactorily when compared with
 - i. The objectives set.
 - ii. Other similarly managed funds.
- 2. In addition to reviewing each investment manager's results, the Board will reevaluate, from time to time, its progress in achieving the total fund, equity, fixed-income, and international equity segments objectives previously outlined.
- 3. The periodic re-evaluation also will involve an evaluation of the continuedappropriateness of
 - a The manager structure;
 - b. The allocation of assets among the managers; and
 - c. The investment objectives for the Fund's assets.

The Board may appoint investment consultants to assist in the ongoing evaluation process. The consultants selected by the Board are expected to be familiar with theinvestment practices of other similar retirement plans and will be responsible for suggesting appropriate changes in the Fund's investment program over time.
