Reports of Child Maltreatment

Quick Facts

Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports

Maltreatment Reports Received During
4th Quarter SFY 2022

Of the 7,954 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during the fourth quarter, 79 percent were assigned to DCFS and 21 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 83 percent were assigned for an investigation and 17 percent were handled through differential response (DR).

DR allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

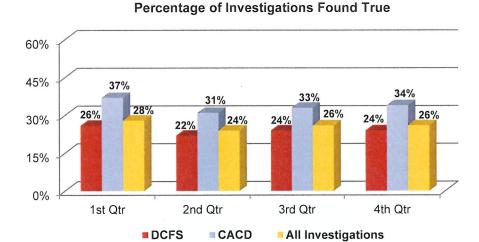

The following types of allegations can qualify for DR:

- Inadequate supervision if children are at least five
- Environmental neglect if children are at least three
- Medical neglect if children are at least thirteen
- Lock out if children are at least ten
- Inadequate food, inadequate shelter, inadequate clothing, or educational neglect with no age restrictions
- Certain allegations of abuse where the incident occurred at least one year prior to the report date

Findings of Child Maltreatment Investigations

Twenty-four percent of the investigations assigned to DCFS during the fourth quarter were found true, compared to 34 percent for CACD. The overall substantiation rate stood at 26 percent, similar to the rate observed for recent quarters.

Appendix A provides further detail on the number of referrals accepted for investigation and those found true in the most recent quarter.

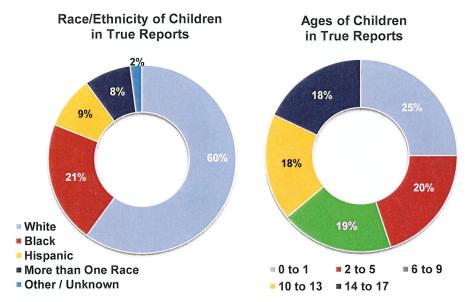

Characteristics of Children Involved in True Investigations

There were 2,359 victim children involved in substantiated maltreatment investigations during the quarter.

Of those children, 60 percent were white and 21 percent were black. Close to half (45 percent) were under six years of age.

The majority of victim children (54 percent) were female.

Types of Allegations in True Investigations

Neglect was the most commonly reported allegation for the 2,359 victim children, followed by allegations of physical abuse and sexual abuse.

Percentage of Children in True Allegations of Maltreatment						
	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation				
Neglect	1,662	70%				
Physical Abuse	480	20%				
Sexual Abuse	434	18%				
Sexual Exploitation	41	2%				
Abandonment	19	1%				

A child may have more than one allegation.

Reports Involving Fatalities or Near Fatalities

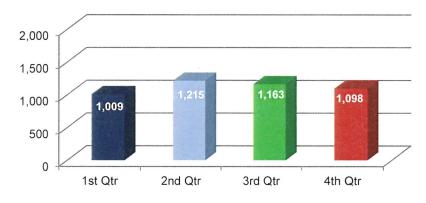

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities					
Finding	Child Fatality	Child Near Fatality			
True	4	0			
Unsubstantiated	0	0			
Pending	9	0			

During the fourth quarter, there were 13 maltreatment investigations of child fatalities. Of those, four were found true and nine were still pending.

There were not any investigations of near fatalities during the quarter.

Reports Assigned for Differential Response (DR)

Number of Reports Assigned for Differential Response

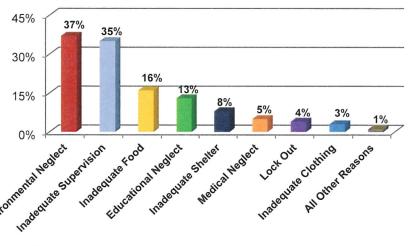

The number of reports assigned for DR during the quarter (1,098) decreased by six percent from the previous quarter.

Allegations Cited in DR Reports

Environmental neglect and inadequate supervision were the most common allegations cited in reports assigned for DR during the quarter, followed by inadequate food and educational neglect.

Meeting Agency Policies

Timeliness of Initiating Investigations

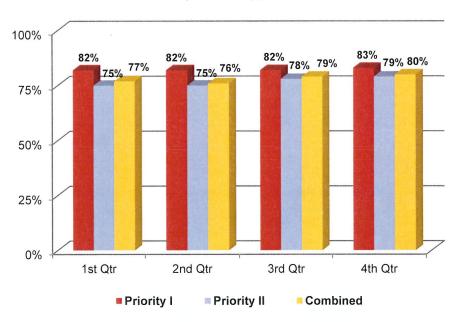

The law requires reports of maltreatment to be initiated within 24 hours of receipt of a Priority I report or within 72 hours for a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 80 percent of its investigations on time during the fourth quarter, an improvement over its performance during the previous quarter.

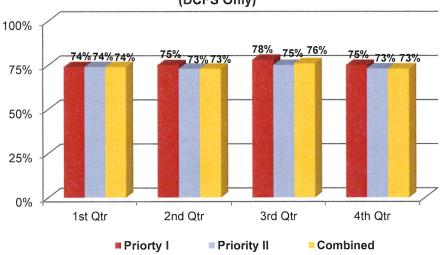

Timely Initiation of Child Maltreatment Assessments (DCFS Only)

Timeliness of Completing Investigations

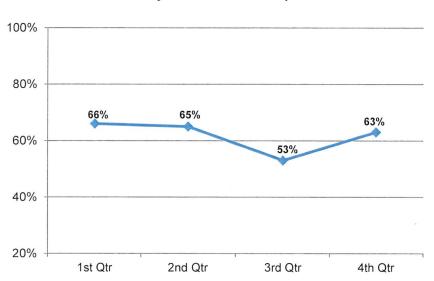

DCFS completed 73 percent of its investigations on time (within 45 days of receipt of the report) during the quarter, lower than its performance during the previous quarter (76 percent).

Timely Completion of Child Maltreatment Assessments (DCFS Only)

Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

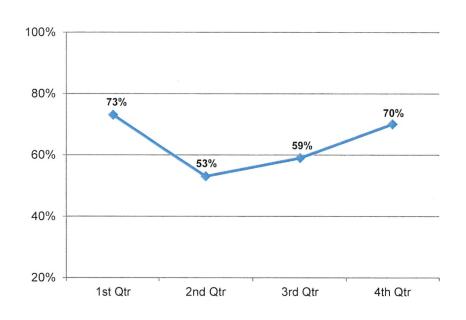

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 63 percent of its DR reports on time during the fourth quarter, an improvement over the previous quarter.

Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

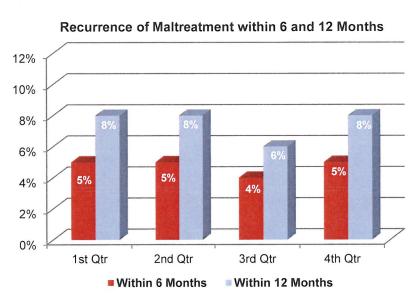

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances where the family's needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The Division closed 70 percent of DR reports on time during the quarter, taking into account reports in which extensions were granted.

Benefits to Children and Families

Preventing the Recurrence of Maltreatment

Eight percent of the victim children involved in true investigations during the fourth quarter of SFY 2021 experienced a recurrence of maltreatment within 12 months. Five percent experienced a recurrence of maltreatment within six months.

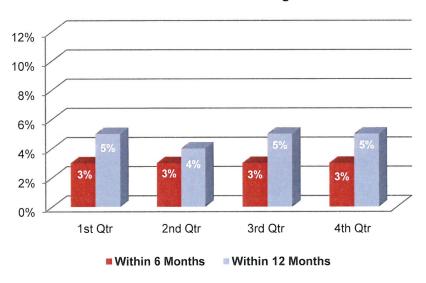

The National Standard for recurrence within 12 months is 9.1 percent or less

Recurrence of Maltreatment Among Families Who Received DR Services

Five percent of the children who began receiving DR services during the fourth quarter of SFY 2021 were involved in a true investigation of child maltreatment within 12 months, and three percent were involved within six months.

Involvement in True Maltreatment Reports within 6 and 12 Months of Receiving DR Services

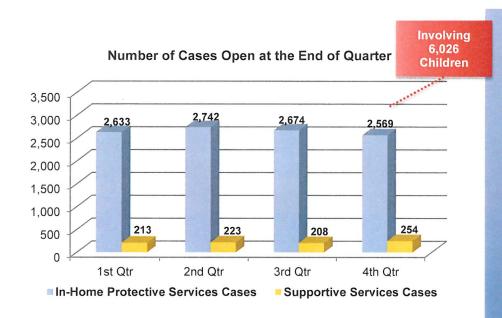

In-Home Services

Quick Facts

Volume and Description of Cases

Volume of Cases

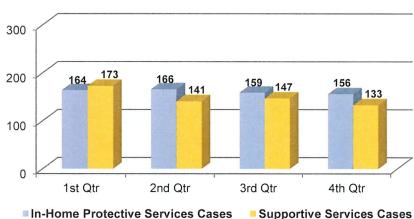

In most instances, DCFS offers inhome services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases decreased during the quarter. There were 2,569 protective services cases, involving 6,026 children, open across the state at the end of the quarter.

The Division also offers in-home supportive services to families on a voluntary basis. DCFS was responsible for 254 supportive services cases at the end of the quarter.

Length of Time Cases Have Been Open

Average Number of Days Cases Have Been Open as of the End of Quarter

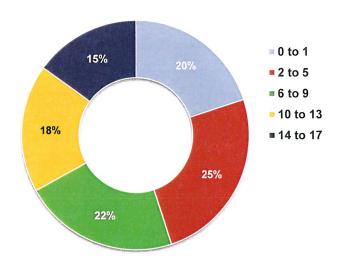

In-home protective services cases that were active as of the end of the quarter had been open, on average, for five months.

Supportive services cases had been open, on average, for just over four months.

Ages of Children in In-Home Protective Services Cases

Nearly half (47 percent) of the children involved in in-home protective services cases at the end of the quarter were ages five or younger.

Ages of Children in In-Home Cases

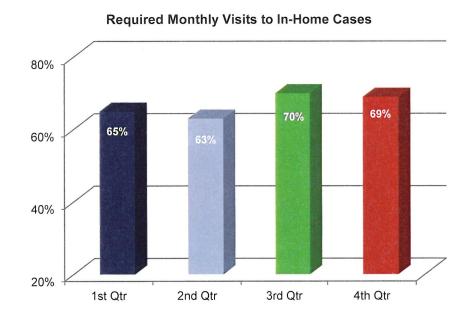

Meeting Agency Policies

Monthly Visits to In-Home Protective Services Cases

Families with an open in-home protective services case must receive a face-to-face visit from a caseworker each month.

Caseworkers made 69 percent of these required visits during the fourth quarter.

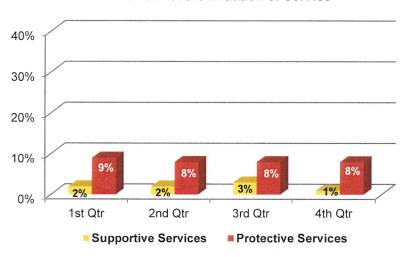

This is similar to the in-home visitation rate observed for the previous quarter. The Division's goal is 85 percent.

Benefits to Children and Families

Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected within One Year of the Initiation of Service

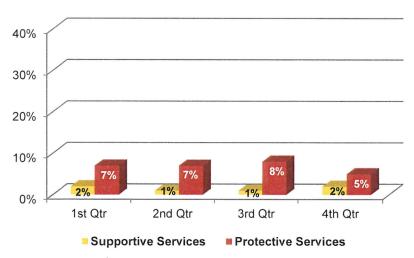

The percentage of children involved in a protective services case who were maltreated within one year of service initiation has hovered around eight percent for the last three quarters.

The rate of maltreatment for children involved through a supportive services case was one percent for the most recent quarter.

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Of the children who began receiving protective services during the fourth quarter one year ago, five percent entered foster care within one year of the initiation of those services.

Two percent of the children who began receiving supportive services during the same timeframe entered care within one year.

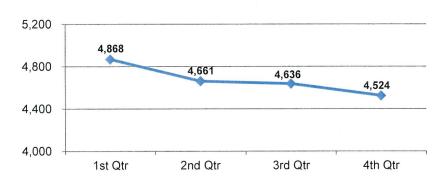

In-home services prevent the vast majority of children from being revictimized or entering foster care within one year.

Volume and Description of Cases

Number of Children in Foster Care

There were 4,524 children in foster care at the end of the fourth quarter of SFY 2022, a decrease from the previous quarter (4,636).

Number of Children in Foster Care

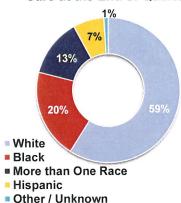

Characteristics of Children in Foster Care

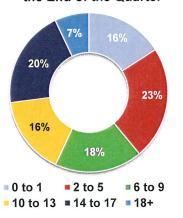

At the end of the quarter, children ages five years or younger made up 39 percent of all children in foster care. Fiftynine percent of those in care were white and 20 percent were black.

Of the children in foster care at the end of the quarter, 50 percent were male and 50 percent were female.

Race/Ethnicity of Children in Care at the End of Quarter

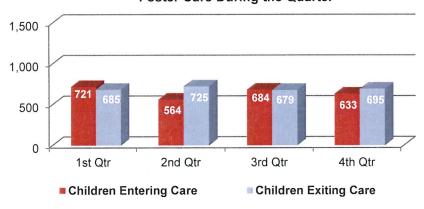

Ages of Children in Care at the End of the Quarter

Admissions Into and Discharges From Foster Care

More children exited foster care during the fourth quarter than had entered.

Number of Admissions into and Discharges from Foster Care During the Quarter

Reasons for Children's Entry Into Foster Care

Reasons for Children's Entry Into Foster Care 4th Quarter SFY 2022

Placement Reason	Number of Entries	Total
Neglect	311	49%
Substance Abuse	265 ¹	42%
Parent Incarceration	134	21%
Physical Abuse	118	19%
Inadequate Housing	58	9%
Sexual Abuse	48	8%
Abandonment	28	4%
Caretaker Illness	26	4%
Child's Behavior	21	3%
Court Ordered Foster Care in FINS Case	17	3%
Child's Disability	5	1%
All Other Reasons	7	1%

Neglect and substance abuse were the most common reasons for children entering foster care during the fourth quarter, similar to the previous quarter.

A child may have more than one reason for entry.

Reasons for Children's Discharge from Foster Care

Reasons for Children's Discharge from Foster Care 4th Quarter SFY 2022

Discharge Reason	Number of Discharges	Total
Reunification	312	45%
Adoption	175	25%
Relative Custody	104	15%
Guardianship	42	6%
Child Aged Out	37	5%
Non-Custodial Parent Custody	18	3%
Custody Transfer to Another Agency	4	1%
Non-Relative Custody	3	<1%

National data² indicate that the three most prevalent reasons children leave care are reunification (48%), adoption (25%), and guardianship (10%).

Forty-five percent of the children who left foster care during the quarter were reunified with their own family, 25 percent were adopted, and 15 percent were discharged to relative custody.

Overall, 94 percent of the children exiting care in Arkansas achieved permanency either by returning home or via discharge to relatives, an adoptive home, or another permanent living arrangement.

¹ These 300 cases of substance abuse include 275 instances of parental drug abuse, 14 instances of parental alcohol abuse, and 11 instances of drug abuse by children.

² National data from the Children's Bureau (November 2021).

Length of Stay in Foster Care

Of the children in foster care at the end of the fourth quarter, over half (55 percent) had been in care for 12 months or longer.

Placements of Children in Foster Care

Overall, 82 percent of the children in foster care at the end of the quarter resided in a family-like setting (i.e., relative placement, foster family home, therapeutic foster home, trial home visit, pre-adoptive home).

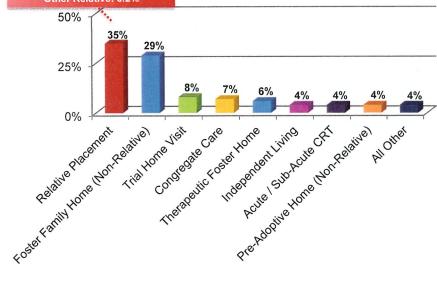

Seven percent resided in congregate care, which represents placement in a qualified residential treatment program (QRTP), residential treatment care or residential care only program, or emergency shelter.

Length of Stay in Foster Care for Children in Care 4th Quarter SFY 2022

Length of Stay	Number	Percentage	National	
Less than 30 days	193	4%	5%

Provisional (Rel/Fic): 13%
ICPC (Out of State): 2%
Pre-Adoptive (Relative): 0.7%
Other Relative: 0.2%

Placement of Children in Foster Care at the End of the Quarter

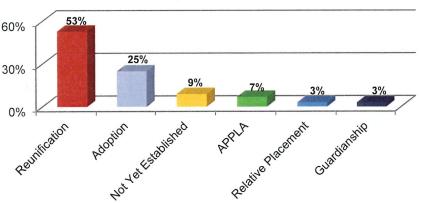

Permanency Goals of Children in Foster Care

Fifty-three percent of the children in care at the end of the quarter had a permanency goal of reunification (return home) and 25 percent had a goal of adoption.

These figures are similar to national data from the Children's Bureau as of November 2021, with averages of 54 percent for reunification and 28 percent for adoption.

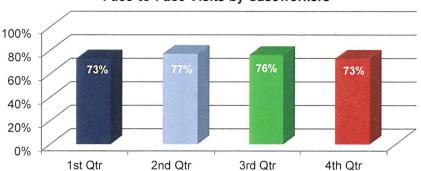

Permanency Goals of Children in Foster Care at the End of the Quarter

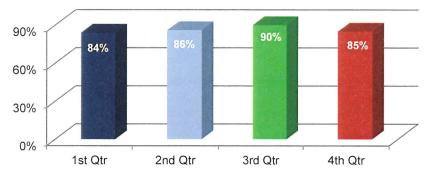

Meeting Agency Policies

Monthly Visits to Children in Foster Care

Children in Care who Received Monthly Face-to-Face Visits by Caseworkers

Children in Care who Received Monthly Face-to-Face Visits from Any DCFS Staff

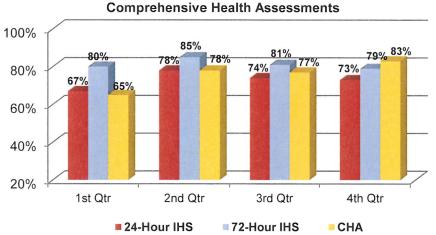

To ensure their safety and wellbeing, best practice requires children in care to be visited in their placement by a caseworker monthly (measured in this chart). The Division's goal is 95 percent.

DCFS caseworkers made 73 percent of their required monthly face-to-face visits with children in care during the fourth quarter. This was slightly less than the visitation rate observed for the previous quarter.

Eighty-five percent of the foster children received a monthly face-to-face contact from any DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

Initial Health Screenings and Comprehensive Health Assessments

24-Hour and 72-Hour Initial Health Screenings and Comprehensive Health Assessments

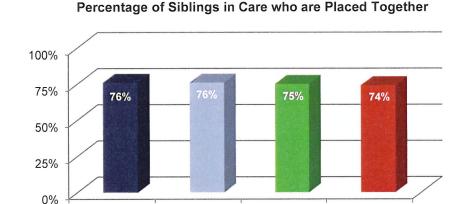

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require an initial screening within 72 hours.

Children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

Siblings in Care Who Are Placed Together

At the end of the quarter, 74 percent of the children with siblings in foster care were placed with at least one of their siblings, while 54 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

2nd Qtr

Placement Stability of Children in Foster Care

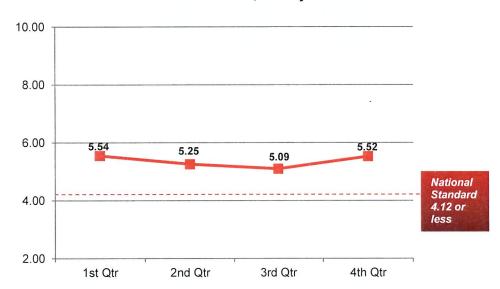

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For the fourth quarter, the placement stability rate was 5.52, higher than the previous quarter. The national standard is 4.12.

Rate of Placement Moves Per 1,000 Days in Foster Care

3rd Qtr

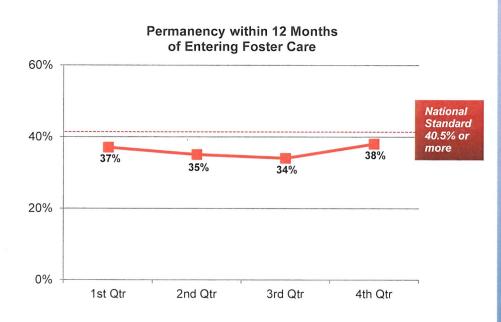

4th Qtr

1st Qtr

Benefits to Children and Families

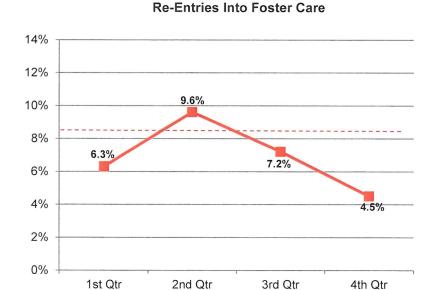

Achieving Permanency Within Twelve Months

The national standard is for 40.5 percent of all children entering foster care to achieve permanency (i.e., exiting foster care to a permanent living situation) within 12 months of removal. Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

For the fourth quarter of SFY 2022, 38 percent of the children entering care in Arkansas achieved permanency within 12 months. This was an improvement over recent quarters.

Preventing Children's Re-Entry Into Foster Care

Less than five percent of children who had reunited with their families re-entered foster care within 12 months of discharge for the fourth quarter of SFY 2022, lower than the previous quarter and less than the national standard (8.3 percent).

Adoption

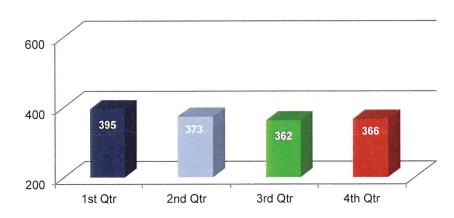

Volume and Description of Cases

Children Available for Adoption ³

At the end of the fourth quarter, 366 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

Number of Children Available for Adoption at the End of the Quarter

Characteristics of Children Available for Adoption

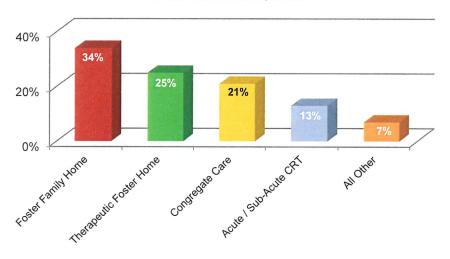

Of the available children, 60 percent were white, 17 percent were multiracial, and 16 percent were black. Children ages 10 and older made up over two-thirds (68 percent) of the children available for adoption.

Race/Ethnicity of Children Ages of Children **Available for Adoption Available for Adoption** 12% 17% 41% 7% 17% 16% 27% White Black Hispanic ■ 0 to 1 ■ 2 to 5 ■ 6 to 9 ■ More than One Race ■ 10 to 13 ■ 14 to 17

³ Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

Placement of Children Available for Adoption

Placement of Children Available for Adoption at the End of the Quarter

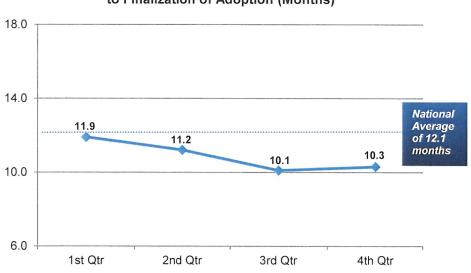

Fifty-nine percent of the children available for adoption resided in either a foster family home or therapeutic foster home at the end of the quarter.

Meeting Agency Policies

Length of Time to Adoption

Arkansas' average length of time from termination of parental rights (TPR) until adoption finalization was 10.3 months during the quarter, similar to the previous quarter and two months sooner than the national average of 12.1 months.

Length of Time From TPR to Finalization of Adoption (Months)

Benefits to Children and Families

Finalized Adoptions

One-hundred and seventy-five adoptions were finalized during the fourth quarter of SFY 2022.

Of those adoptions, 43 percent were finalized by relatives.

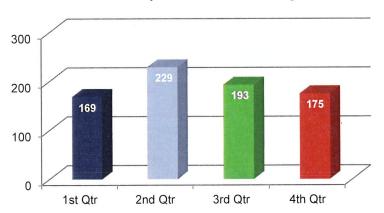

Children ages two to five made up the largest group (37 percent) among those adopted during the quarter, followed by those ages six to nine (21 percent).

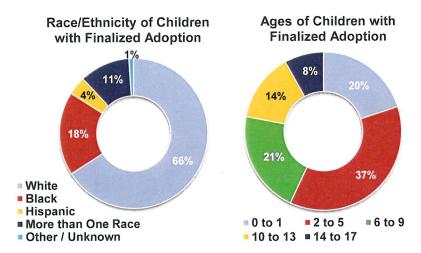

Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- Healthy child of color and at least two years of age
- Member of any sibling group placed together, sharing at least one biological parent, who develop a bond
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional

Number of Adoptions Finalized During the Quarter

During the fourth quarter, 165 children began receiving adoption subsidies. Of those, 161 were federally funded subsidies and 4 were state funded subsidies.

During the quarter, a total of 7,915 children received adoption subsidies.

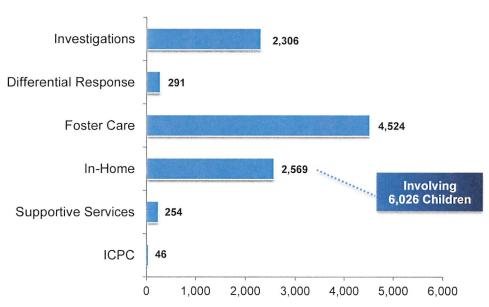

Resources

Quick Facts

Caseworkers and Caseloads

Caseloads at the End of the Quarter

Types of Cases at the End of the Quarter

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

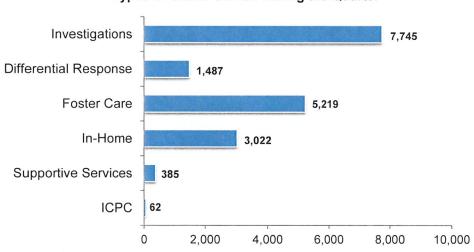

At the end of the fourth quarter, the Division was responsible for:

- 2,306 investigations of child maltreatment and 291 DR cases;
- 4,524 foster care cases;
- 2,569 in-home protective services cases, involving 6,026 children;
- 254 supportive services cases and 46 interstate compact for the placement of children (ICPC) cases.

This is while the Division was staffed with 434 family service workers, who were responsible for handling these cases.

Caseloads Handled *During* the Quarter

Types of Cases Served During the Quarter

This figure illustrates the number of cases that cycled through the system anytime during the quarter (as opposed to those open at the end of the quarter, described above).

The Division oversaw 7,745 investigations, 1,487 DR cases, 5,219 children in foster care, 3,022 in-home protective services cases, 385 supportive services cases, and 62 ICPC cases.

Average Caseload

The average caseload statewide was just over 22 cases per worker at the end of the quarter. The Division's goal is 20 or fewer cases per worker.

The average caseload for each county as of June 2022 is presented in Appendix B.

Foster Homes

Foster Homes and Beds

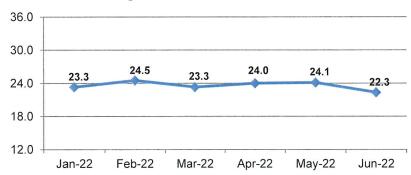

There were 1,699 licensed foster family homes open statewide at the end of the fourth quarter, providing a total of 3,382 available beds.

The number of available beds decreased from the previous quarter.

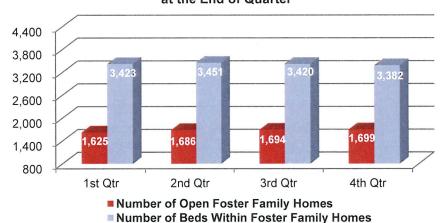

During the most recent quarter, 297 new foster homes were opened and 268 were closed, resulting in a net gain of 29 homes.

Appendix C displays the closure reasons for the foster homes that closed during the quarter.

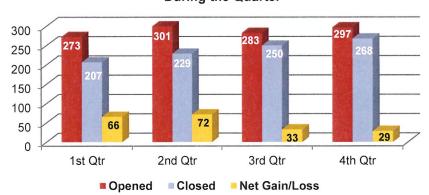

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of Quarter

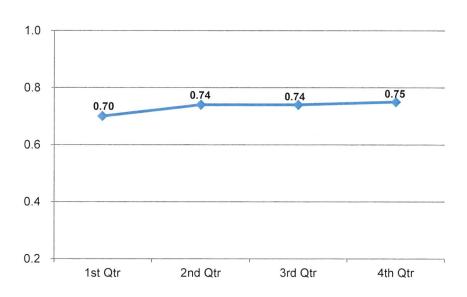

Number of Foster Homes Opened and Closed During the Quarter

Ratio of Foster Home Beds to Foster Children

Foster Home Bed to Foster Child Ratio

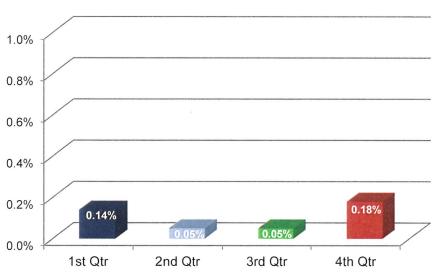

The ratio of licensed foster home beds to children in foster care stood at 0.75 at the end of the fourth quarter, similar to the previous quarter.

The Division's goal is to have at least one foster home bed available for each child in foster care.

Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Four reports in which a foster parent was identified as an alleged offender were determined to be true during the quarter. Based on the 2,229 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.18 percent.

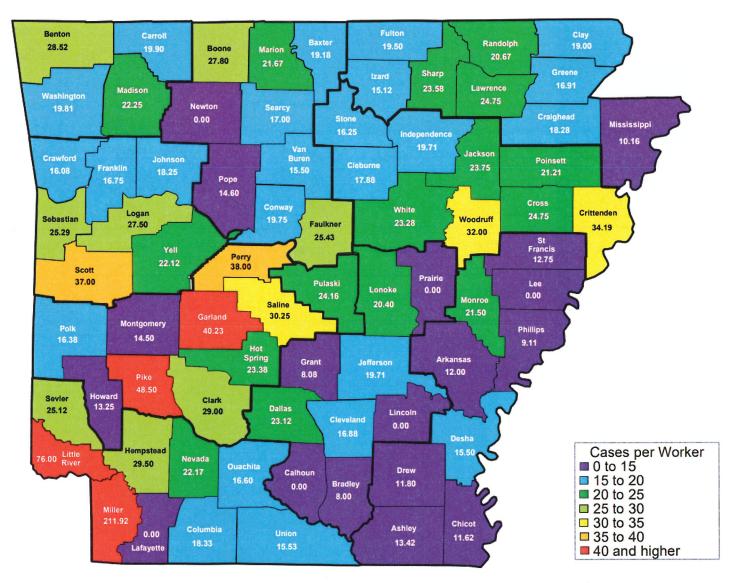

Appendix D provides more detail on maltreatment reports concerning foster homes.

Appendix A: Breakdown of Child Maltreatment Reports Received During the Quarter and Substantiation Rates of Maltreatment Investigations⁴

	DCFS					CACD		
	Total Assessments Assigned for DR	Total Assessments Assigned for Investigation	True Investigations	Percent True	Total Assessments Assigned for Investigation	True Investigations	Percent True	
First Quarter 2022	948	5,161 5,045 Closed	1,291	26%	1,454 1,394 Closed	524	38%	
Second Quarter 2022	1,199	5,804 5,605 Closed	1,260	22%	1,641 1,538 Closed	481	31%	
Third Quarter 2022	1,170	5,029 4 ,889 Closed	1,186	24%	1,524 1,428 Closed	476	33%	
Fourth Quarter 2022	1,190	5,404 5,159 Closed	1,233	24%	1,638 1,539 Closed	522	34%	

⁴ The data cited in this appendix run two months behind the referenced quarter (e.g., the fourth quarter refers to 2/1/2022 through 4/30/2022); as a result, the numbers cited in this appendix differ from those cited throughout the report, which considers the actual quarter. This is because investigations have a 45-day completion timeframe and this allows enough time to pass to measure the disposition of the investigations. An investigation is excluded from the calculation of the substantiation rate in the event that it has not yet been closed (and thus a disposition has not yet been rendered).

Appendix B: Average Caseload as of June 30, 2022, by County

Calhoun, Lafayette, Lee, Lincoln, Newton, and Prairie counties did not have any family service workers at the end of the quarter; their cases were assigned to workers from other counties.

Appendix C: Foster Home Closure Reasons

Appendix D: Summary of Foster Care Maltreatment Reports

Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, 4th Quarter SFY 2022

One-hundred and forty-nine reports of alleged maltreatment, involving 157 children in foster care, were received by the hotline during the fourth quarter of SFY 2022.

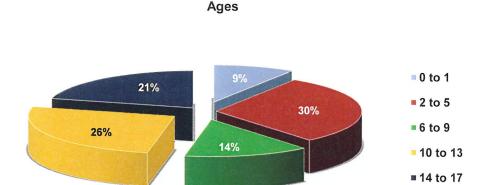

In 35 reports involving 43 children, foster parents⁵ were identified as the alleged offenders. As shown in the following chart, four of those reports were found to be true. Of the four foster homes identified in those true reports, three were subsequently closed while the fourth remained open—though no children were placed there—as it has appealed the finding.

Foster Home Maltreatment Reports 4th Quarter SFY 2022

True	Unsubstantiated	Pending
4	31	0

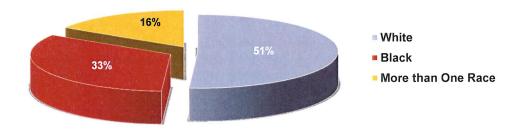

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 43 children in foster care who were involved in allegations of maltreatment with foster parents identified as the alleged offenders.

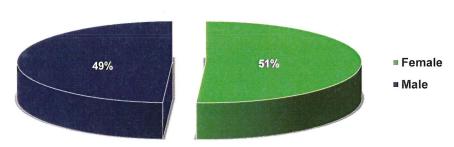

⁵ This includes foster family homes and therapeutic foster homes.

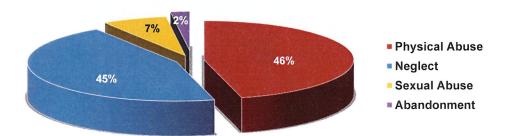

Race / Ethnicity

Gender

Allegations

28

Location of Foster Homes in Which Alleged Maltreatment Occurred
