# Reports of Child Maltreatment

## Quick Facts

### Volume and Description of Child Maltreatment Reports

#### Volume of Incoming Reports

Maltreatment Reports Received During  
SFY 2018

Of the 35,867 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during State Fiscal Year (SFY) 2018, 84 percent were assigned to DCFS and 16 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 79 percent were assigned for an investigation and 21 percent were handled through Differential Response (DR).

DR, which was implemented statewide in August 2013, allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate Supervision if children are at least five
- Environmental Neglect if children are at least three
- Medical Neglect if children are at least thirteen
- Lock Out if children are at least ten
- Inadequate Food, Inadequate Shelter, Inadequate Clothing, and Educational Neglect with no age restrictions.
- Certain allegations of abuse where the incident occurred at least one year prior to the report date.

# Quick Facts

## Findings of Child Maltreatment Investigations

Twenty percent of the investigations assigned to DCFS during SFY 2018 were found true, compared to 34 percent for CACD. The overall substantiation rate stood at 23 percent.

Percentage Of Investigations Found True

## Characteristics of Children Involved in True Investigations

There were 9,120 victim children involved in the maltreatment investigations that were found true.

Of those children, 67 percent were white and 17 percent were black. Children ages five and younger accounted for nearly half of the victim children.

A little over half of the victim children during SFY 2018 (53 percent) were female.

Race/Ethnicity of Children in True Reports

Ages of Children in True Reports

## Types of Allegations in True Investigations

The majority of the 9,120 victim children in true investigations were involved in allegations of neglect, followed by allegations of physical abuse and sexual abuse.

Percentage of Children in True Allegations of Maltreatment

	Number of Children Cited in True Allegation	Percentage of Children Cited in True Allegation
Neglect	5,821	64%
Physical Abuse	2,468	27%
Sexual Abuse	1,698	19%
Abandonment	40	<1%
Sexual Exploitation	27	<1%

A child may have more than one allegation.

# Quick Facts

## Reports Involving Fatalities or Near Fatalities

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities		
Finding	Child Fatality	Near Child Fatality
True	34	0
Unsubstantiated	8	0
Pending	4	0
Unable to Locate	1	0

During SFY 2018, there were 47 maltreatment investigations involving a child fatality. While some investigations were still pending, the majority of those reports in which a disposition had been rendered were found true. There were no investigations of near child fatalities during the year.

Appendix G includes more details regarding the fatality cases that are disclosable at the time of this report's release.

## Reports Assigned for Differential Response (DR)

The number of reports assigned to DR during SFY 2018 (6,265) increased by nearly 24 percent from SFY 2017.

## Allegations Cited in DR Reports

Educational Neglect was the most commonly cited allegation in reports assigned to DR during the year, followed by Environmental Neglect and Inadequate Supervision.

# Quick Facts

## Meeting Agency Policies

### Timeliness of Initiating Investigations

The law requires reports of maltreatment to be initiated within 24 hours of a Priority I report or within 72 hours of a Priority II report.

Priority I reports cite more severe allegations while Priority II reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 84 percent of its investigations on time during SFY 2018, performing better in its Priority I investigations than Priority II.

Timely Initiation of Child Maltreatment Assessments (DCFS Only)

### Timeliness of Completing Investigations

DCFS completed 88 percent of its investigations on time (within 45 days of receipt of the report) during SFY 2018, an improvement over the previous year (69 percent).

Timely Completion of Child Maltreatment Assessments (DCFS Only)

# Quick Facts

## Timeliness of Initiating Reports Assigned to DR

Timely Initiation of DR Reports

DR referrals must be initiated within 72 hours of receipt of the report.

DCFS initiated 65 percent of its DR reports on time during the year.

## Timeliness of Completing Reports Assigned to DR

Timely Closure of DR Reports

Reports assigned to DR are to close within 30 days of receipt of the report. In certain instances when the families' needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The agency closed 88 percent of its DR reports on time during SFY 2018, taking into account reports in which extensions were granted.

# Quick Facts

## Benefits to Children and Families

### Preventing the Recurrence of Maltreatment

Seven percent of the victim children involved in true investigations experienced a recurrence of maltreatment within 12 months. Four percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment within 6 and 12 Months

*The National Standard for recurrence within 12 months is 9.1 percent or less*

### Recurrence of Maltreatment Among Families who Received DR

Only two percent of the children who began receiving DR services were involved in a true investigation of child maltreatment within six months and only four percent were involved within 12 months.

Percentage of Children Involved in True Maltreatment Reports Within 6 and 12 Months of Receiving DR

*The National Standard for recurrence within 12 months is 9.1 percent or less*

# In-Home Services

## Quick Facts

### Volume and Description of Cases

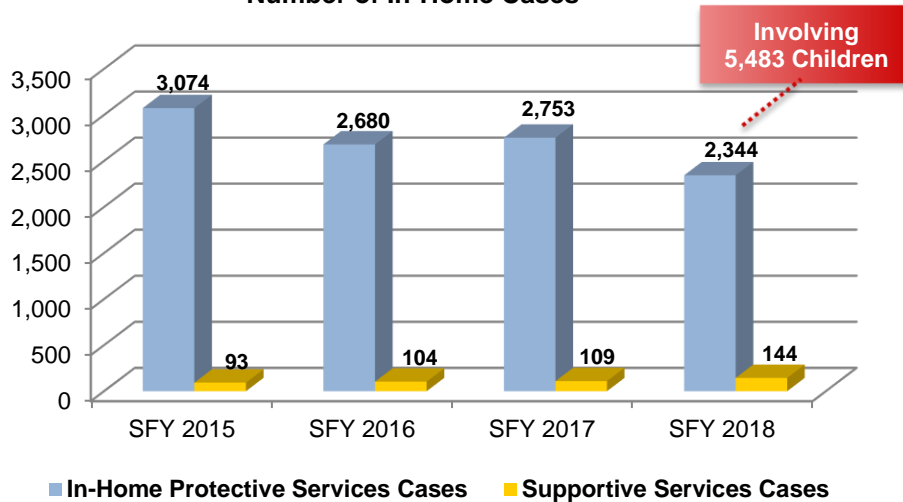

#### Volume of Cases

In most instances DCFS offers in-home services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS' involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases open at the end of SFY 2018 decreased by 15 percent compared to one year ago. At the end of the year, there were 2,344 in-home cases open across the state, involving 5,483 children.

The Division also offers some in-home supportive services to families on a voluntary basis. DCFS was responsible for 144 supportive services cases at the end of the year.

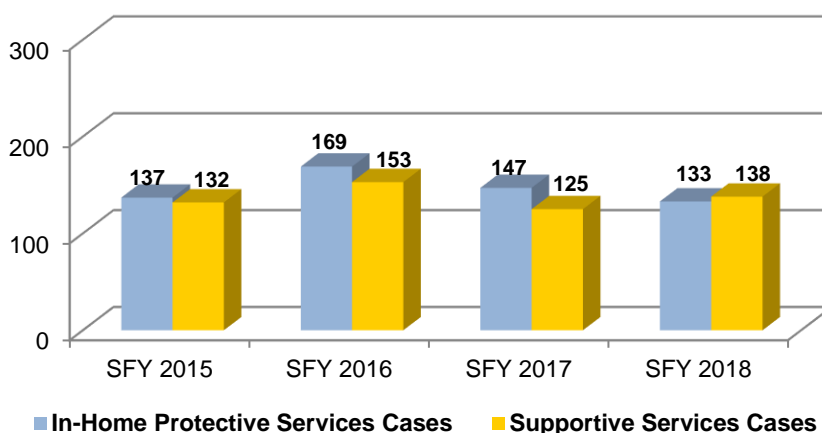

Number of In-Home Cases

#### Length of Time Cases Have Been Open

The average length of time in-home cases were open as of the end of the year was over four months (133 days). Supportive services cases were open, on average, for a similar length of time (138 days).

Average Number of Days Cases Have Been Open

# Quick Facts

## Ages of Children in In-Home Protective Services Cases

Children ages two to five made up the largest group of children involved in in-home protective services cases at the end of SFY 2018, followed by children ages six to nine.

Ages of Children in In-Home Cases

## Meeting Agency Policies

## Monthly Visits to In-Home Protective Services Cases

On average, 67 percent of the in-home cases received a face-to-face monthly visit from a caseworker during SFY 2018, higher than the visitation rate observed during the previous year (57 percent).

Required Monthly Visits to In-Home Cases

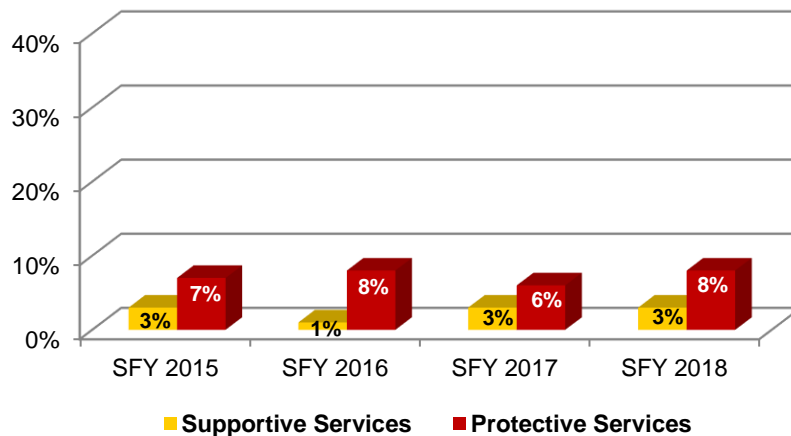

# Quick Facts

## Benefits to Children and Families

### Victimization Rate Among Children Who Received Protective and Supportive Services

**Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected within One Year of the Initiation of Service**

Of the children who began receiving supportive services one year prior to SFY 2018, three percent experienced a true report of maltreatment within one year. Of the children who began receiving in-home protective services one year prior to SFY 2018, eight percent were involved in a true report within one year.

### Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

**Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service**

Of the children who began receiving supportive services one year prior to SFY 2018, three percent entered foster care within one year of the initiation of those services. Meanwhile, seven percent of the children who began receiving protective services during the same timeframe entered care within one year.

In-home services prevented the vast majority of the children from being re-victimized or entering foster care within one year of initiation.

# Quick Facts

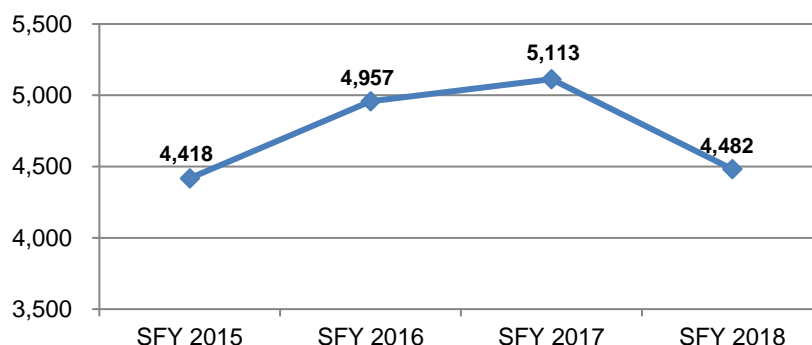

## Foster Care

### Volume and Description of Cases

#### Number of Children in Foster Care

There were 4,482 children in foster care at the end of SFY 2018. This signified a 12 percent decrease from SFY 2017 (5,113).

Number of Children in Foster Care

#### Characteristics of Children in Foster Care

Children two to five years of age (23 percent) represent the largest group of children in foster care. Sixty-four percent were white and 17 percent were black.

Of the children in foster care at the end of SFY 2018, 51 percent were male and 49 percent were female.

Race/Ethnicity of Children in Foster Care

Ages of Children in Foster Care

#### Admissions Into and Discharges From Foster Care

During SFY 2018, more children discharged foster care than entered. Compared to the previous year, entries into care decreased by more than 20 percent.

Number of Admissions Into and Discharges From Foster Care

# Quick Facts

## Reasons for Children's Entry Into Foster Care

### Reasons for Children's Entry Into Foster Care SFY 2018

Placement Reason	Number of Entries	Total
<b>Neglect</b>	1,647	50%
<b>Substance Abuse</b>	1,635 <sup>1</sup>	50%
<b>Parent Incarceration</b>	774	24%
<b>Physical Abuse</b>	445	14%
<b>Inadequate Housing</b>	340	10%
<b>Sexual Abuse</b>	177	5%
<b>Caretaker Illness</b>	123	4%
<b>Child's Behavior</b>	113	3%
<b>Abandonment</b>	108	3%
<b>Truancy</b>	72	2%
<b>Court Ordered Foster Care in FINS Case</b>	42	1%
<b>Other</b>	60	2%

*A child may have more than one reason for entry.*

Neglect and substance abuse were the most prevalent reasons for children entering foster care during the year.

## Reasons for Children's Discharge From Foster Care

### Reasons for Children's Discharge From Foster Care SFY 2018

Discharge Reason	Number of Discharges	Total
<b>Reunification</b>	1,552	40%
<b>Adoption</b>	979	25%
<b>Relative Custody</b>	938	24%
<b>Child Aged Out</b>	235	6%
<b>Non-Relative Custody</b>	70	2%
<b>Non-Custodial Parent Custody</b>	55	1%
<b>Guardianship</b>	29	1%
<b>Other</b>	18	<1%

*National data<sup>2</sup> indicate that the three most prevalent reasons children leave care are reunification (51%), adoption (23%), and guardianship (10%).*

Sixty-six percent of the children who left foster care during SFY 2018 either returned home or were discharged to relatives.

Arkansas (91 percent) exceeds the national average of 81 percent of children who either return home or are discharged to relatives or an adoptive home.

<sup>1</sup> These 1,635 cases of substance abuse include 1,389 instances of parental drug abuse, 182 instances of parental alcohol abuse, 54 cases of drug abuse by children, and 10 cases of alcohol abuse by children.

<sup>2</sup> National data from the Children's Bureau (October 2017).

# Quick Facts

## Length of Stay in Foster Care

Of the children in foster care at the end of SFY 2018, 51 percent had been in care for 12 months or longer.

Length of Stay in Foster Care for Children in Care  
SFY 2018

	Number	Percentage	National <sup>3</sup>
Less than 30 days	227	5%	6%
30-90 Days	362	8%	22%
3-6 Months	533	12%	
6-12 Months	1,055	24%	20%
12-24 Months	1,219	27%	25%
24-36 Months	476	11%	13%
36+ Months	610	14%	15%
Total	4,482	100%	100%

## Placement of Children in Foster Care

Seventy-seven percent of the children in foster care at the end of SFY 2018 resided in a family-like setting (foster family home, relative placement, trial home visit, therapeutic foster home, pre-adoptive home).

Twelve percent resided in congregate care—which represents placement in an emergency shelter, residential treatment, or residential care only program—at the end of the year.

Placement of Children  
at the End of SFY 2018

## Permanency Goal of Children in Foster Care

Fifty-two percent of the children in care at the end of SFY 2018 had a permanency goal of reunification (return home) and 29 percent had a goal of adoption.

This is similar to national data from the Children's Bureau as of October 2017, with averages of 55 percent for reunification and 26 percent for adoption.

Permanency Goals of Children in Foster Care at the End  
of SFY 2018

<sup>3</sup> National data from the Children's Bureau (October 2017).

# Quick Facts

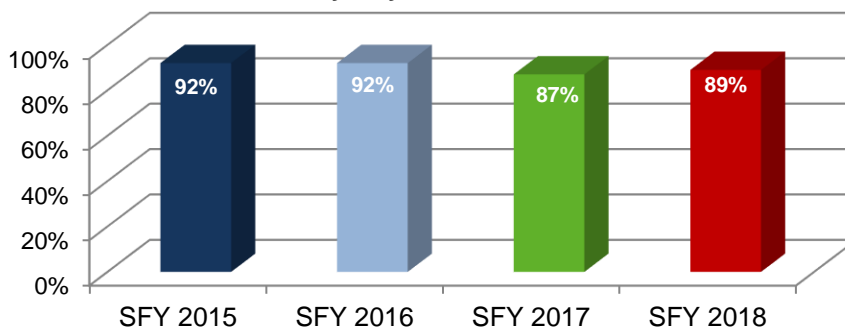

## Meeting Agency Policies

### Monthly Visits to Foster Children

**Foster Children who Received Monthly Face-to-Face Visits by Caseworkers**

**Foster Children who Received Monthly Face-to-Face Visits by Any DCFS Staff**

To ensure safety and well-being, best practice requires foster children to be visited at their placements by their caseworkers monthly. The Division's goal is 85 percent.

Seventy-eight percent of the foster children statewide received a face-to-face monthly visit from a DCFS caseworker, on average, during SFY 2018.

On average, 89 percent of the foster children received a face-to-face monthly contact from *any* DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

### Initial Health Screenings and Comprehensive Health Assessments

**24-hour and 72-Hour Initial Health Screening and Comprehensive Health Assessments**

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require health screenings within 72 hours. These children must also receive a Comprehensive Health Assessment (CHA) within 60 days of entering foster care.

DCFS completed 81 percent of its required 24-hour IHSs, 87 percent of its 72-hour IHSs, and 91 percent of its CHAs on time.

# Quick Facts

## Percentage of Siblings in Placement Who Are Placed Together

At the end of SFY 2018, 82 percent of the children with siblings in foster care were placed with at least one of their siblings, while 62 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

Siblings in Care who are Placed Together

## Placement Stability of Children in Foster Care

Placement stability is measured by the rate of placement moves per 1,000 days in foster care for children who enter care over a 12-month period.

For SFY 2018, the placement stability rate was 6.23, an improvement from the previous year. The national standard is a rate 4.12.

Rate of Placement Moves Per 1,000 Days in Foster Care

# Quick Facts

## Benefits to Children and Families

### Achieving Permanency Within Twelve Months

Arkansas continues to exceed the national standard of 40.5 percent or more for achieving permanency (i.e., exiting foster care to a permanent living situation) for children within 12 months of removal.

Discharges from foster care due to reunification, relative custody, non-custodial parent custody, guardianship, adoption, and non-relative custody are considered to be permanent living situations.

### Preventing Children's Re-Entry Into Foster Care

Just over seven percent of the children who were discharged to their families re-entered foster care within 12 months. The Division meets the national standard of 8.3 percent or less.

# Quick Facts

## Adoption

### Volume and Description of Cases

#### Children Available for Adoption <sup>4</sup>

DCFS modified its definition of children available for adoption for SFY 2018 to more accurately identify the number of children who are truly in need of an adoptive family.

At the end of SFY 2018, 492 children were available for adoption.

DCFS estimates that it has identified a possible pre-adoptive placement for approximately 20 percent of the children available for adoption.

Number of Children Available for Adoption

#### Characteristics of Children Available for Adoption

Of the available children, 62 percent were white and 16 percent were black. Over half of the children available for adoption were between the ages of six and 13 years old.

Race/Ethnicity of Children Available for Adoption

Ages of Children Available for Adoption

<sup>4</sup> Children available for adoption are defined as those who (1) have a termination of parental rights on both parents, (2) have a permanency goal of adoption, and (3) are not placed with relatives, fictive kin, or a pre-adoptive family.

# Quick Facts

## Placement of Children Available for Adoption

The majority of the children available for adoption at the end of SFY 2018 resided in either a foster family home or a therapeutic foster home.

## Meeting Agency Policies

### Length of Time to Adoption

The average length of time from termination of parental rights (TPR) until adoption finalization was ten months during SFY 2018, nearly two months sooner than the national average (11.8 months).

# Quick Facts

## Benefits to Children and Families

### Finalized Adoptions

One-thousand and eight adoptions were finalized during SFY 2018.

Thirty-five percent of the adoptions finalized during the year were by relatives.

Children ages two to five were the largest group of children who were adopted during SFY 2018.

Number of Adoptions Finalized

Race/Ethnicity of Children with Finalized Adoption

Ages of Children with Finalized Adoption

### Subsidized Adoptions

Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- African-American and at least two
- At least two members of a sibling group
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental, or emotional conditions documented by a medical professional.

During SFY 2018, **932** children began receiving adoption subsidies. Of those, 914 were federally-funded and 18 were state funded subsidies.

During SFY 2018, a total of **6,862** children received adoption subsidies.

## Resources

## Quick Facts

### Caseworkers and Caseloads

#### Caseloads at the End of SFY 2018

As of the end of SFY 2018, the Division was responsible for:

- 1,928 investigations of child maltreatment and 115 DR cases,
- 4,482 foster care cases (4,059 excluding adoption cases),
- 2,344 in-home cases, involving 5,483 children,
- 144 supportive services cases and 59 ICPC cases.

This is while the Division was staffed with 433 family service workers, who were responsible for handling these cases.

Types of Cases at the End of SFY 2018

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

#### Caseloads Handled *During* the Year

This graph shows the number of cases that cycled through the system during SFY 2018, i.e., the number of families or children served during the year (as opposed to those active at the end of the year, described above).

The Division oversaw 25,781 investigations; 8,358 children in foster care; 6,639 DR cases; 5,475 in-home protective services cases; 502 supportive services cases; and 137 interstate compact for the placement of children (ICPC) cases.

Types of Cases Served During SFY 2018

# Quick Facts

## Average Caseload

The average caseload statewide stood at 19.9 cases per worker at the end of SFY 2018. The Division's goal is 20 or fewer cases per worker.

The average caseload for each county as of June 30, 2018 is presented in Appendix J.

## Foster Homes

### Foster Homes and Beds

There were 1,670 licensed foster family homes open statewide at the end of SFY 2018 statewide, lower than the previous year.

During SFY 2018, 915 new foster homes were opened and 1,025 were closed for a net loss of 110 homes.

Appendix K displays the closure reasons for the 1,025 foster homes that closed during SFY 2018.

Average Caseload During SFY 2018

Number of Foster Homes and Beds

Number of Foster Family Homes Opened and Closed

# Quick Facts

## Ratio of Foster Home Beds to Foster Children

Foster Bed to Foster Child Ratio

The ratio of licensed foster home beds to children in foster care was less than one (0.83) at the end of the year, an improvement from the previous year.

The Division's goal is to have at least one foster home bed available for each child in foster care.

## Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Ten reports in which foster parents were identified as alleged offenders were determined to be true during the year. Based on the 2,721 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.37 percent.

Appendix L provides more detail on maltreatment reports concerning foster homes.

## Appendix G: Summary of Reports Involving Child Fatality

Per Ark. Code Ann. § 12-18-1104(c), any information regarding a child fatality cannot be released by the Department of Human Services if release of such information would jeopardize a criminal investigation. Of the 47 child fatalities that were reported for SFY 2018, case-specific information could be disclosed for nine of those incidents at the time of this report's release (see below).

The website <https://ardhs.sharepointsite.net/CFN/default.aspx> displays up-to-date documentation concerning all child fatalities and near fatalities reported in Arkansas once that information can be disclosed.

### True Fatality Reports

Child	County	Age	Race	Gender	Date of Death	Allegations or Preliminary Cause of Death	Placement at the Time of Incident	Relationship of Alleged Offender to the Child	Agency Conducting the Investigation	Action(s) Taken by Agency	Prior DCFS Involvement
Brinly Gordon	Hot Spring	1	White	Female	7/2/2017	Poison/ Noxious Substances	In-Home	Relative	CACD	None	None
Anderson Smith	Craighead	<1	White	Male	10/3/2017	Physical Abuse	In-Home	Relative	CACD	None	None
Francesca Tigue	Pike	<1	White	Female	11/7/2017	Neglect & Physical Abuse	In-Home	Relative	CACD	None	Prior History
Kayden Price	Greene	<1	White	Male	12/15/2017	Inadequate Supervision	In-Home	Relative	CACD	72-Hour Hold	Prior History

## Unsubstantiated Fatality Reports

Child	County	Age	Race	Gender	Date of Death	Allegations or Preliminary Cause of Death	Placement at the Time of Incident	Relationship of Alleged Offender to the Child	Agency Conducting the Investigation	Action(s) Taken by Agency	Prior DCFS Involvement
<b>Maisyu Rucks</b>	Crittenden	12	Black	Female	8/15/2017	Failure to Protect	In-Home	Relative	CACD	None	Prior History
<b>Gannon Cline</b>	Lonoke	1	White	Male	9/24/2017	Physical Abuse	In-Home	Unknown	CACD	None	Prior History
<b>Desmond Williet</b>	Pulaski	<1	Black	Male	11/1/2017	Failure to Protect	In-Home	Relative	CACD	None	None
<b>Alexander Swanson</b>	Pulaski	7	Black	Male	2/19/2018	Inadequate Supervision	In-Home	Relative	CACD	None	Prior History
<b>Kagun Carter</b>	Sevier	5	White	Male	5/19/2018	Physical Abuse	In-Home	Relative	CACD	None	Prior History

## **Appendix H: Summary of Reports Involving Near Child Fatality**

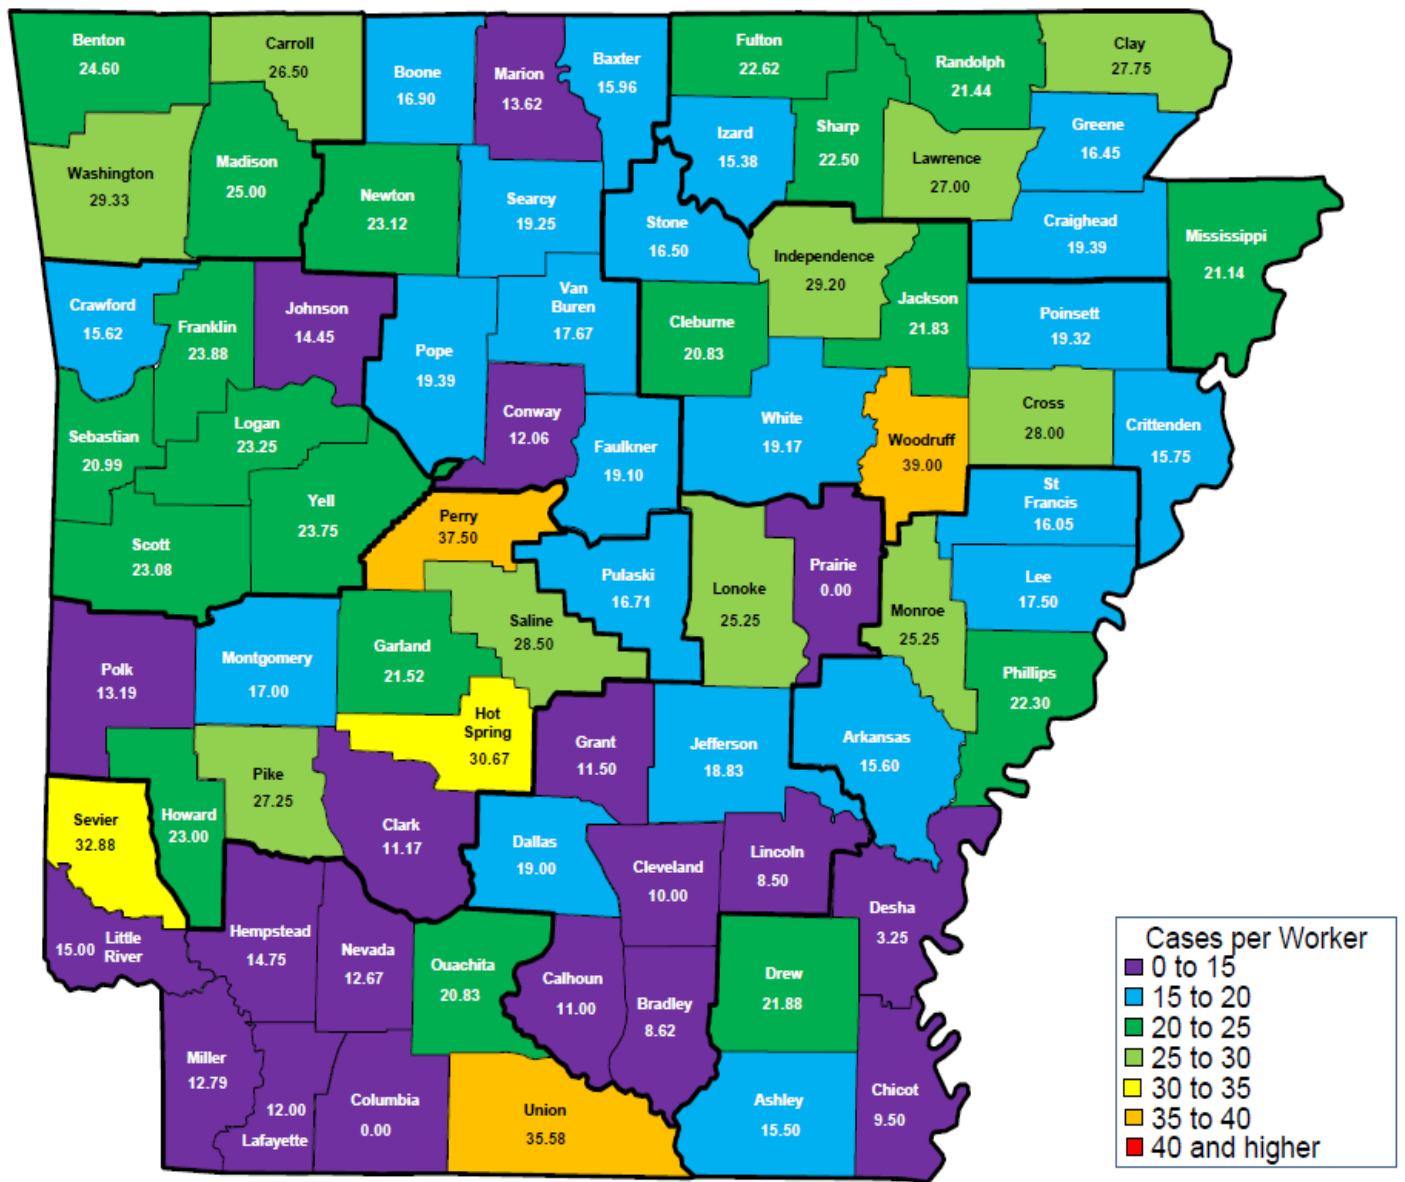

Per Ark. Code Ann. § 12-18-1108(c), any information regarding the near fatality of a child cannot be released by the Department of Human Services if release of such information would jeopardize a criminal investigation. There were not any confirmed near fatalities for SFY 2018.

The website <https://ardhs.sharepointsite.net/CFN/default.aspx> displays up-to-date documentation concerning all child fatalities and near fatalities reported in Arkansas once that information can be disclosed.

## Appendix I: Fatalities of Children in Foster Care Who Did Not Receive a Maltreatment Investigation

Child	County	Age	Race	Gender	Date of Death	Preliminary Cause of Death	Placement at the Time of Incident	Legal Action By the Department	Services Provided Prior to the Incident
Child #1	Crittenden	17	Black	Male	7/25/2017	Gun Shot	Foster Care	None	Foster Care
Child #2	Newton	15	White	Male	11/5/2017	Suicide	Foster Care	None	Foster Care
Child #3	Pulaski	16	Black	Male	5/15/2018	Drowning	Foster Care	None	Foster Care

## Appendix J: Average Caseload as of the End of SFY 2018, by County

*Due to the fact that Columbia and Prairie counties did not have any family service workers at the end of the year, their cases were assigned to workers from other counties.*

## Appendix K: Foster Home Closure Reasons

## Appendix L: Summary of Foster Care Maltreatment Reports

### Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, SFY 2018

Six-hundred and eleven reports of alleged maltreatment, involving 645 children in foster care, were received by the hotline during SFY 2018.

In 139 reports involving 175 children, foster parents<sup>5</sup> were identified as the alleged offenders. As shown by the following chart, 15 of those reports were found to be true<sup>6</sup> and all of the homes have been closed.

**Foster Home Maltreatment Reports  
SFY 2018**

True	Unsubstantiated	Pending
10	128	1

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts display the characteristics of the 175 foster children involved in allegations of maltreatment, with foster parents as the alleged offenders.

<sup>5</sup> This includes foster family homes and therapeutic foster homes

<sup>6</sup> The number of true investigations involving foster families reported in this report may differ from what was reported in individual quarterly reports for the same time period. This is due to the fact that some true findings were later overturned to unsubstantiated and some pending findings now have a final disposition.

**Race/Ethnicity**

**Gender**

**Allegation**

### County of Foster Homes in Which Alleged Maltreatment Occurred

County	Number of Children Involved in Maltreatment Report	County	Number of Children Involved in Maltreatment Report
