

INTERIM STUDY PROPOSAL 2015-184

1
2
3 REQUESTING THAT HOUSE COMMITTEE ON PUBLIC HEALTH, WELFARE, AND
4 LABOR STUDY ALTERNATIVE APPROACHES BY OTHER STATES TOWARDS THE
5 FULL PRACTICE MODEL AND THE COLLABORATIVE PRACTICE AGREEMENTS OF
6 ADVANCED PRACTICE REGISTERED NURSES AND PHYSICIANS.
7

8 WHEREAS, the Institute of Medicine and the National Council of State
9 Boards of Nursing recommend that states adopt a full practice model for
10 advanced practice registered nurses; and
11

12 WHEREAS, a full practice model includes state practice and licensure
13 laws that allow all advanced practice registered nurses to evaluate and
14 diagnose patients, order and interpret diagnostic tests, and initiate and
15 manage treatments, including the prescription of medications; and
16

17 WHEREAS, approximately twenty-one (21) states and the District of
18 Columbia allow advanced practice registered nurses to practice and prescribe
19 independently, or under the full practice model; and
20

21 WHEREAS, some states allow advanced practice registered nurses to have
22 full prescriptive authority immediately upon passage of national or state
23 examinations, while other states have a tiered, or stepped, approach; and
24

25 WHEREAS, as states move to a full practice model, states are creating
26 formal advanced practice registered nurse residency programs similar to
27 physician residency programs; and
28

29 WHEREAS, the first residency program for advanced practice registered
30 nurses was started in 2007 at the Weitzman Center of the Community Health
31 Center, Inc., of Connecticut, and since 2007, many states have implemented
32 advanced practice registered nurse residency programs; and
33

34 WHEREAS, advanced practice registered nurses in the State of Arkansas
35 must obtain a collaborative practice agreement with a physician to have
36 prescriptive authority under Arkansas Code § 17-87-310; and

1
2 WHEREAS, a collaborative practice agreement is a written plan that
3 identifies a physician who agrees to collaborate with an advanced practice
4 registered nurse in the joint management of the health care of the advanced
5 practice registered nurse's patients and that outlines procedures for
6 consultation with or referral to the collaborating physician or other
7 healthcare professional as indicated by a patient's healthcare needs; and
8

9 WHEREAS, in the 2014-2015 annual report published by the Arkansas State
10 Board of Nursing, Arkansas has two thousand three hundred eighty-two (2,382)
11 advanced practice registered nurses; and
12

13 WHEREAS, only one thousand six hundred ninety-nine (1,699) advanced
14 practice registered nurses have prescriptive authority; and
15

16 WHEREAS, if advanced practice registered nurses performed within a full
17 practice model and were allowed to have full prescriptive authority,
18 approximately six hundred eighty-three (683) individuals could enter into the
19 healthcare system in Arkansas without additional training or fiscal impact
20 upon the state; and
21

22 WHEREAS, according to a 2015 research report issued by the RAND
23 Corporation, additional advanced practice registered nurses with full
24 prescriptive authority could help increase healthcare access, reduce
25 healthcare costs, and promote efficient and timely health care across the
26 state, particularly in medically underserved areas; and
27

28 WHEREAS, since the 1960s, studies have found no difference in health
29 outcomes, including patient health status, number of prescriptions written,
30 return visits requested, or referral to other providers, of care delivered by
31 an advanced practice registered nurse or physician, according to a 2010
32 report by the Center to Champion Nursing in America; and
33

34 WHEREAS, a residency program for advanced practice registered nurses
35 could begin to close the gap between being a student and being a primary care
36 provider by allowing advanced practice registered nurses to gain more

1 experience prior to practicing without supervision under a full practice
2 model; and

3
4 WHEREAS, the General Assembly should pursue efforts to improve
5 healthcare access by utilizing existing healthcare professionals, such as
6 advanced practice registered nurses, to the fullest extent possible,

7
8 NOW THEREFORE,

9 BE IT PROPOSED BY THE HOUSE COMMITTEE ON PUBLIC HEALTH, WELFARE, AND LABOR OF
10 THE NINETIETH GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

11
12 THAT the House Committee on Public Health, Welfare, and Labor study
13 alternative approaches by other states towards the full practice model and
14 the collaborative practice agreements of advanced practice registered nurses
15 and physicians or other healthcare professionals.

16
17 BE IT FURTHER PROPOSED THAT, upon request, the Arkansas Nurses
18 Association and the Arkansas State Board of Nursing shall provide assistance
19 to the House Committee on Public Health, Welfare, and Labor to perform this
20 study.

21
22 Respectfully submitted,

23
24
25
26 Representative Dan Sullivan
27 District 53

28
29
30
31 Representative Justin Gonzales
32 District 19
