October 21, 2015

The Honorable George B. McGill, Chair House Committee on Aging, Children, and Youth, Legislative and Military Affairs
Arkansas Legislative Council 315 State Capitol Building Little Rock, Arkansas 72201

The Honorable Stephanie Flowers, Chair Senate Committee on Children and Youth
Arkansas Legislative Council
315 State Capitol Building
Little Rock, Arkansas 72201

Dear Representative McGill and Senator Flowers:
Act 1222 of 1995 mandates an annual evaluation of the performance of the Division of Children and Family Services. Attached is the Annual Report Card (ARC) produced in compliance with that mandate. The report covers the State Fiscal Year (SFY) 2015.

Forty copies of the report and an electronic copy are attached for your convenience.
Should you have questions regarding this material, please feel free to contact me.

Sincerely,

Cecile Blucker
Director

Arkansas Division of Children and Family Services

## Reports of Child Maltreatment

## Quick Facts

## Volume and Description of Child Maltreatment Reports

Volume of Incoming Reports
Maltreatment Reports Received During SFY 2015

Of the 33,683 reports of child maltreatment accepted by the Arkansas Child Abuse Hotline during State Fiscal Year (SFY) 2015, 82 percent were assigned to DCFS and 18 percent were assigned to the Crimes Against Children Division (CACD) of the Arkansas State Police, which is responsible for investigating the most serious allegations of maltreatment.

Of the reports assigned to DCFS, 87 percent were assigned for an investigation and 13 percent were handled through Differential Response (DR).

DR, which was implemented statewide in August 2013, allows the Division to respond to specific, low-risk maltreatment reports through a family assessment and provision of services rather than a traditional investigation.

The following types of allegations can qualify for DR:

- Inadequate Supervision if children are at least five
- Environmental Neglect if children are at least three
- Medical Neglect if children are at least thirteen
- Lock Out if children are at least ten
- Inadequate Food, Inadequate Shelter, Inadequate Clothing, and Educational Neglect with no age restrictions.
- Certain allegations of abuse where the incident occurred at least one year prior to the report date.

## Quick Facts

## Findings of Child Maltreatment Investigations

Twenty-one percent of the investigations assigned to DCFS during SFY 2015 were found true, compared to 37 percent for CACD. The overall substantiation rate stood at 24 percent.

Percentage Of Investigations Found True

Characteristics of Children Involved in True Investigations

There were 9,543 victim children involved in the maltreatment investigations that were found true.

Of those children, 69 percent were white and 16 percent were black. Children ages two to five represented the largest group involved in true maltreatment investigations.

A majority of the victim children during SFY 2015 (55 percent) were female.

Types of Allegations in True Investigations

The majority of the 9,543 victim children in true investigations were involved in allegations of neglect, followed by allegations of physical abuse and sexual abuse.

Percentage of Children in True Allegations of Maltreatment

|  | Number of Children <br> Cited in True Allegation | Percentage of Children <br> Cited in True Allegation |
| :--- | :---: | :---: |
| Neglect | 6,356 | $67 \%$ |
| Physical Abuse | 2,084 | $22 \%$ |
| Sexual Abuse | 1,913 | $20 \%$ |

A child may have more than one allegation.

## Quick Facts

Reports Involving Fatalities or Near Fatalities

Findings of Maltreatment Reports Involving Fatalities or Near Fatalities

| Finding | Child Fatality | Near Child Fatality |
| :--- | :---: | :---: |
| True | 38 | 0 |
| Unsubstantiated | 8 | 3 |
| Pending | 5 | 0 |

During SFY 2015, there were 51 maltreatment investigations of a child fatality and three investigations concerning a near child fatality. Of the 51 child fatality investigations, 38 were found true, eight were unsubstantiated, and five were still pending. Of the three near child fatality investigations, all three were unsubstantiated.

Appendices G and H include more details regarding these fatality and near fatality cases.

Reports Assigned for Differential Response (DR)

Number of Reports Assigned to Differential Response

The number of reports assigned to DR $(3,604)$ during SFY 2015 decreased by six percent compared to SFY 2014.

Allegations Cited in DR Reports
Types of Allegations Cited in Reports Assigned for DR

Inadequate Supervision and
Environmental Neglect were the most commonly cited allegations in reports assigned to DR.

## Quick Facts

## Meeting Agency Policies

## Timeliness of Initiating Investigations

The law requires reports of maltreatment to be initiated within 24 hours of a Priority 1 report or within 72 hours of a Priority II report.

Priority I reports cite more severe allegations while Priority Il reports cite comparatively less serious allegations.

Initiation occurs when all victim children are interviewed or observed (if too young for an interview) within the designated timeframes.

DCFS initiated 84 percent of its investigations on time during SFY 2015, performing slightly better in its Priority I
investigations than Priority II.

Timely Initiations of Child Maltreatment Assessments (DCFS Only)

## Timeliness of Completing Investigations

DCFS completed 69 percent of its investigations on time (within 45 days of receipt of the report) during SFY 2015.

The law was changed in August of 2013, extending the timeframe required to complete
investigations from 30 days to 45 days.

Timely Completion of DCFS Assessments (DCFS Only)

## Quick Facts

Timeliness of Initiating Reports Assigned to DR

Timeliness of DR Closures (Within 30 Days)

Reports assigned to DR must be closed within 30 days of receipt of the report. In certain instances when the families' needs necessitate longer involvement, two 15-day extensions can be granted, for a total of 60 days.

The agency closed 81 percent of its DR reports on time, taking into account reports in which extensions were granted.

## Quick Facts

## Benefits to Children and Families

## Preventing the Recurrence of Maltreatment

Eight percent of the victim children involved in true investigations experienced a recurrence of maltreatment within 12 months. Five percent experienced a recurrence of maltreatment within six months.

Recurrence of Maltreatment within 6 and 12 Months

The National Standard for absence of recurrence within six months is 5.4 percent or less

## Absence of Recurrence Among Families who Received DR

Only two percent of the children who began receiving DR services were involved in a true investigation of child maltreatment within six months and only three percent within 12 months.

## Percentage of Children Involved in True Maltreatment Reports Within 6 and 12 Months of Receiving DR

## In-Home Services

## Volume and Description of Cases

## Volume of Cases

- In-Home Protective Services Cases Supportive Services Cases

In most instances DCFS offers inhome services through a protective services case, which is opened when a true maltreatment report or court order necessitates DCFS'
involvement with a family but there is not an immediate threat to any child's safety in the home.

The number of in-home protective services cases open at the end of SFY 2015 increased by 11 percent compared to one year ago. At the end of the year, there were 3,074 inhome cases open across the state, involving 7,151 children.

The Division also offers some inhome supportive services to families on a voluntary basis. DCFS was responsible for 93 supportive services cases at the end of the year.

## Length of Time Cases Have Been Open

Average Number of Days Cases Have Been Open as of the End of Year

The average length of time inhome cases were open as of the end of the year was about four and a half months (137 days). Supportive services cases were open for just over four months on average (132 days).

## Quick Facts

## Ages of Children in In-Home Cases

Children ages two to five make up the largest group of children involved in in-home cases at the end of SFY 2015, followed closely by children in the six to nine age group.

## Ages of Children in In-Home Cases

## Meeting Agency Policies

## Monthly Visits to In-Home Cases

On average, 62 percent of the inhome cases received a face-toface monthly visit from a caseworker during SFY 2015.

Required Monthly Visits to In-Home Cases

## Quick Facts

## Benefits to Children and Families

## Victimization Rate Among Children Who Received Protective and Supportive Services

Percentage of Children Receiving Supportive and Protective Services who were Abused or Neglected within One Year of the Initiation of Service

Of the children who began
receiving supportive services one year prior to SFY 2015, three percent experienced a true report of maltreatment within one year. Of the children who began receiving in-home protective services one year prior to SFY 2015, seven percent were involved in a true report within one year (93 percent were not).

Rate of Entry Into Foster Care Among Children Who Received Protective and Supportive Services

## Percentage of Children Receiving Supportive or Protective Services who Entered Foster Care within One Year of the Initiation of Service

Of the children who began
receiving supportive services one year prior to SFY 2015, one percent entered foster care within one year of the initiation of those services. Meanwhile, seven percent of the children who began receiving protective services during the same timeframe entered care within one year.

In-home services prevented the vast majority of the children from being re-victimized or entering foster care within one year of initiation.

## Foster Care

## Volume and Description of Cases

## Number of Children in Foster Care

There were 4,418 children in
Number of Children in Foster Care at End of SFY 2015
2015. This signified an eight
percent increase from SFY 2014
$(4,106)$.

## Characteristics of Children in Foster Care

Children two to five years of age ( 25 percent) represent the largest group of children in foster care. Sixty-three percent were white and 20 percent were black.

Of the children in foster care at the end of SFY 2015, 52 percent were male and 48 percent were female.

Race/Ethnicity of Children in Care at the End of SFY 2015

- More Than 1 Race

Hispanic

Ages of Children in Foster Care at the End of SFY 2015

Admissions Into and Discharges From Foster Care

During SFY 2015, more children entered foster care than were discharged.

Number of Admissions Into and Discharges From Foster Care During SFY 2015

■ Children Entered Into Foster Care ■ Children Discharged From Foster Care

## Reasons for Children's Entry Into Foster Care

## Reasons for Children's Entry Into Foster Care

 SFY 2015| Placement Reason | Number of Entries | Total |
| :--- | :---: | :---: |
| Neglect | 1,962 | $52 \%$ |
| Substance Abuse | $1,953^{1}$ | $51 \%$ |
| Parent Incarceration | 741 | $20 \%$ |
| Physical Abuse | 431 | $11 \%$ |
| Inadequate Housing | 355 | $9 \%$ |
| Sexual Abuse | 271 | $7 \%$ |
| Caretaker Illness | 173 | $5 \%$ |
| Child's Behavior | 105 | $3 \%$ |
| Abandonment | 105 | $3 \%$ |
| Truancy | 66 | $2 \%$ |
| Death of Parent(s) | 16 | $<1 \%$ |
| Other | 41 | $1 \%$ |
| A |  |  |

A child may have more than one reason for entry.

## Reasons for Children's Discharge From Foster Care

Reasons for Children's Discharge From Foster Care
SFY 2015

| Placement Reason | Number of Discharges | Total |
| :--- | ---: | ---: |
| Reunification | 1,384 | $40 \%$ |
| Relative Custody | 1,070 | $31 \%$ |
| Adoption | 693 | $20 \%$ |
| Child Aged Out | 204 | $6 \%$ |
| Non-Relative Custody | 76 | $2 \%$ |
| Custody Transfer | 13 | $<1 \%$ |
| Guardianship | 11 | $<1 \%$ |
| Death of Child | 4 | $<1 \%$ |
| Other | 4 | $<1 \%$ |

National data indicate that the three most prevalent reasons children leave care are reunification (52\%), adoption (20\%) and relative care (8\%).

[^0]Seventy-one percent of the children who left foster care during SFY 2015 were reunified either with their own family or that of a relative. Arkansas (91 percent) exceeds the national average of 80 percent of children either going home, to a relative, or to an adoptive home.

## Quick Facts

## Length of Stay in Foster Care

Of the children in foster care at the end of SFY 2015, 45 percent had been in care longer than 12 months.

Length of Stay in Foster Care for Children in Care
SFY 2015

|  | Number | Percentage | National $^{2}$ |
| :--- | ---: | ---: | :---: |
| Less than 30 days | 288 | $7 \%$ | $11 \%$ |
| 30-90 Days | 631 | $14 \%$ | $15 \%$ |
| 3-6 Months | 702 | $16 \%$ |  |
| 6-12 Months | 825 | $19 \%$ | $20 \%$ |
| 12-24 Months | 1,018 | $23 \%$ | $27 \%$ |
| 24-36 Months | 379 | $9 \%$ | $13 \%$ |
| 36+ Months | 575 | $13 \%$ | $14 \%$ |
| Total | 4,418 | $100 \%$ | $100 \%$ |

## Placement of Children in Care

Forty-five percent of the children in foster care at the end of SFY 2015 resided in foster family homes.

Overall, 69 percent of the children resided in a family-like setting (foster family home, therapeutic foster home, relative care, pre-adoptive home, trial home visit) at the end of SFY 2015.

Permanency Goal of Children in Care

The majority of the children in care at the end of SFY 2015 had a permanency goal of reunification (return home) and almost a quarter had a goal of adoption.

## Permanency Goals of Children in Foster Care at the End of SFY 2015

${ }^{2}$ Adoption and Foster Care Analysis and Reporting System (AFCARS) preliminary data submitted for children in foster care between 10/1/2012 and 9/30/2013 as of July 2014.

## Quick Facts

## Meeting Agency Policies

## Monthly Visits to Foster Children

Foster Children who Received Monthly Face-to-Face Visits by Caseworkers

Foster Children who Received Monthly Face-to-Face Visits by Any DCFS Staff

Seventy-four percent of the foster children statewide received a face-to-face monthly visit from a DCFS caseworker, on average, during SFY 2015. To ensure safety and wellbeing, best practice requires foster children to be visited at their placements by their caseworkers monthly.

On average, 92 percent of the
foster children received a face-to-face monthly contact from any DCFS staff member, regardless of the staff member's position, location of the visit, or the purpose.

Initial Health Screenings and Comprehensive Health Assessments

When a child enters foster care due to an allegation of severe maltreatment, DCFS must conduct an Initial Health Screening (IHS) within 24 hours. All other incoming foster children require health screenings within 72 hours.
These children must also receive a Comprehensive
Health Assessment (CHA) within 60 days of entering foster care.

DCFS completed 85 percent of its required 24 -hour IHSs, 89 percent of its 72 -hour IHSs, and 76 percent of its CHAs on time.

## Quick Facts

Percentage of Siblings in Placement Who Are Placed Together
At the end of SFY 2015, 71
Siblings in Care who are placed Together
percent of the children with siblings in foster care were placed with at least one of their siblings. Of those, 50 percent were placed with all of their siblings.

These figures do not exclude children who were placed separately for valid reasons such as safety issues or court orders.

## Placement Stability of Children in Foster Care

Placement stability is measured by the percentage of children with two or fewer placements who are in care for varying lengths of time.

Of children in care for less than
12 months, 75 percent
experienced two or fewer
placements; the national standard is 86 percent. Of the children in foster care between 12 and 24 months, 45 percent had two or fewer placements; the national standard for this group is 65.4 percent. Finally, of the children in care for over two years, only 17 percent experienced two or fewer placements, with the national standard being 41.8 percent.

Children six to 11 represent the largest group of children who experienced three or more placements during their stay in foster care.

Children in Foster Care who have Experienced Two or Fewer Placements

- Children in FC at least 8 days but less than $\mathbf{1 2}$ Mos.
- Children in FC at least 12 Mos. But less than $\mathbf{2 4}$ Mos.

Children in FC more than $\mathbf{2 4}$ Mos.

Ages of Children who Experienced Three or More Placements

## Quick Facts

## Benefits to Children and Families

## Children in Foster Care Who Return Home Within Twelve Months

Children in Foster Care who Return Home within Twelve Months

Fifty-eight percent of the children who had entered foster care during the year prior to SFY 2015 returned to their families within 12 months, exceeding the national standard of 48.4 percent.

Preventing Children's Re-entry Into Foster Care

Re-entries Into Foster Care

Less than eight percent of the children who were discharged to their families re-entered foster care within 12 months. The Division meets the national standard of 9.9 percent or less.

## Adoption

## Volume and Description of Cases

Children Available for Adoption

At the end of SFY 2015, 586 children were available for adoption.

Number of Children Available for Adoption at the End of SFY 2015

## Characteristics of Children Available for Adoption

Of the available children, 56 percent were white and 22 percent were black. The largest group ranged in age from ten to thirteen years old.

${ }^{3}$ Children available for adoption are defined as those who have a termination of parental rights on both parents and a goal of adoption.

## Quick Facts

## Placement of Children Available for Adoption

Placement of Children Available for Adoption at the End of SFY 2015

The majority of the children
available for adoption at the end of SFY 2015 resided in ether a
foster family home or a
therapeutic foster home.

Meeting Agency Policies

## Length of Time to Adoption

Length of Time From Entry into Foster Care
to Finalization of Adoption (Months)

The median length of time from entry into foster care until finalization of adoption for children whose adoptions were finalized during SFY 2015 was 23.6 months, three months sooner than the national
standard of 27.3 months.

## Quick Facts

## Benefits to Children and Families

## Finalized Adoptions

Seven hundred and eleven adoptions were finalized during SFY 2015.

Children ages 2 to 5 were the largest group of children who were adopted during SFY 2015.

Subsidized Adoptions
Subsidies are given to children with special needs, defined as:

- Caucasian and over nine
- African-American and at least two
- At least two members of a sibling group
- Children who have severe medical or psychological needs that require ongoing treatment
- Children at high risk for the development of serious physical, mental or emotional conditions documented by a medical professional.

Number of Adoptions Finalized During SFY 2015

Race/Ethnicity of Children with Finalized Adoptions

Ages of Children with Finalized Adoption

During SFY 2015, 653 children began receiving adoption subsidies. Of those, 565 were federally-funded subsidies and 88 were state-funded.

During SFY 2015, a total of 5,429 children received adoption subsidies.

## Resources

## Caseworkers and Caseloads

## Caseloads at the End of SFY 2015

Types of Cases at the End of SFY 2015

One foster care case is equal to one child in care; one in-home or supportive services case constitutes an entire family, many of which have multiple children.

As of the end of SFY 2015, the
Division was responsible for:

- 3,112 investigations of child maltreatment and 119 DR cases,
- 4,418 foster care cases (4,195 excluding adoption cases),
- 3,074 in-home cases, involving 7,151 children,
- 93 supportive services cases and 77 ICPC cases.

This is while the Division was equipped with 399 family service workers, which on average includes 90 staff dedicated to investigations full time and another 34 staff who conduct investigations while also carrying other cases.

Caseloads Handled During the Year

Types of Cases Served During the Year

This graph shows the number of cases that cycled through the system anytime during SFY 2015 (as opposed to those open at the end of the year, described above).

The Division oversaw 27,704 investigations; 7,877 children in foster care; 5,956 in-home protective services cases; 3,893 DR cases; 352 supportive services cases; and 138 interstate compact for the placement of children (ICPC) cases.

## Quick Facts

## Average Caseload

The average caseload statewide stood at just below 27 cases per worker at the end of the year. This exceeds the standard of about 15 cases per worker set by the Child Welfare League of America. The average caseload for each county as of June 30, 2015 is presented in Appendix $\mathbf{J}$.

## Foster Homes

## Foster Homes and Beds

There were 1,306 licensed foster family homes open at the end of SFY 2015 statewide, slightly higher than the previous year.

Due to recent changes in the designation of certain types of foster family homes in the Division's automated child welfare system, the data for SFYs 2012, 2013, and 2014 were reproduced to provide an accurate comparison to SFY 2015. Therefore the numbers cited in this report for the previous three SFYs are slightly different than those reported in previous Annual Report Cards for the respective periods.

During SFY 2015, 630 new
foster homes were opened and 612 were closed.

Appendix K displays the closure reasons for the 612 foster homes that closed during SFY 2015.

Average Caseload at the End of Month

Number of Foster Homes and Beds at the End of SFY 2015

## Quick Facts

Ratio of Foster Home Beds to Foster Children

Foster Bed to Foster Child Ratio

The ratio of licensed foster home beds to children in foster care was less than one (0.67) at the end of the year, giving workers few choices of where to place children.

Percentage of Foster Families with True Reports of Maltreatment

Percentage of Foster Families with True Reports of Maltreatment

Seventeen reports in which
foster parents were identified as alleged offenders were determined to be true during the year. Based on the 1,922 foster homes active during that period, the percentage of foster families with a true report of maltreatment was 0.88 percent.

Appendix L provides more detail on maltreatment reports
concerning foster homes.

## Appendix J: Average Caseload as of the End of SFY 2015, by County

Due to the fact that Prairie and Newton counties did not have any family service workers at the end of SFY 2015, their cases were assigned to workers from other counties.

## Appendix L: Summary of Foster Care Maltreatment Reports

## Characteristics of Children in Foster Care Involved in Allegations of Maltreatment, SFY 2015

Four hundred and sixteen reports of alleged maltreatment, involving 516 children in foster care, were received by the hotline during SFY 2015.

In 141 reports involving 178 children, foster parents ${ }^{4}$ were identified as the alleged offenders. As shown by the following chart, 17 of those reports were found to be true and nearly all of the homes were subsequently closed or made unavailable pending due process. One home was approved to remain open for the sole purpose of serving only one child who has been residing in the home for four years (a protection plan was also put in place).

## Foster Home Maltreatment Reports <br> SFY 2015

All allegations of maltreatment concerning foster homes are investigated by the Crimes Against Children Division (CACD) of the Arkansas State Police. DCFS staff do not actively participate in the investigation of these reports. Allegations of maltreatment regarding foster homes require the agency to assess the safety of all children residing in the home.

The following charts describe the characteristics of the 178 foster children involved in allegations of maltreatment, with foster parents as the alleged offenders.

Ages

[^1]
## Race/Ethnicity

Gender

## Allegation

- Abuse
- Neglect

Sexual Abuse

County of Foster Homes in Which Alleged Maltreatment Occurred

| County | Number of Children Involved <br> in Maltreatment Report | County | Number of Children Invoived <br> in Maltreatment Report |
| :--- | :---: | :--- | :---: |
| Pulaski | 27 | Franklin | 2 |
| Benton | 19 | Boone | 2 |
| Washington | 13 | Randolph | 2 |
