## ANNUAL REPORT REGARDING THE FIRE LOSS REPORTING ACT (Act 1345 of 2003)

Act 1345 of 2003 (Ark. Code Ann. § 23-88-401 et seq.) made the following determination:

It is found and determined by the General Assembly of the State of Arkansas that fire is the leading cause of insurance loss in the state; that the number of deaths due to fire are a major economic burden to the citizens and counties of this state; and that specific county by county fire loss data will help the counties better evaluate the preparedness and effectiveness of their fire fighting capabilities.

Attached hereto and incorporated herein by reference is the annual data compilation for calendar year 2012, required by the Act (Exhibit A).

Fire loss is one of many different kinds of losses a homeowner or business owner could suffer that would be covered by one of a variety of property coverages offered by insurers in our State. Results for 2012 vary by county and by insurer, but overall pure loss ratios from fire were approximately 26.91% for homeowner related coverages and 56.07% for commercial coverages. There are many other types of losses NOT included in this report that may be covered by the various property policies and include:

	1	Debris Removal	16	Riot or Civil Commotion
2	2	Reasonable Repairs	17	Aircraft
	3	Trees, Shrubs and Other Plants	18	Vehicles
	4	Fire Department Service Charge	19	Smoke
	5	Property Removed	20	Vandalism or Malicious Mischief
•	6	Credit Care, Electronic Fund Transfer, Forgery	21	Theft
,	7	Loss Assessment	22	Falling Objects
:	8	Collapse	23	Weight of Ice, Snow or Sleet
9	9	Glass or Safety Glazing Material	24	Accidental Discharge or Overflow of Water or Steam
	10	Landlord's Furnishings	25	Sudden and Accidental Tearing Apart, Cracking, Burning or Bulging
	11	Ordinance or Law	26	Freezing
	12	Grave Markers	27	Sudden and Accidental Damage from Artificially Generated Electrical Current
	13	Lightning	28	Volcanic Eruption
	14	Windstorm or Hail	29	Liability
	15	Explosion		

The data in the aggregate <sup>1</sup> indicates that there is no apparent significant connection between fire losses and either the number of residences (policies written) or the number of businesses (policies written) contained in the county.

<sup>&</sup>lt;sup>1</sup> Act 1345 requires that the data submitted by the insurers be reported by the Commissioner in the aggregate, Ark. Code Ann. § 23-88-402(b) and that the individual reports of the insurers be held confidential by the Commissioner, Ark. Code Ann. § 23-88-403.

## **Explanation of Column Headings:**

County: The political subdivision of the State of Arkansas for which the relative information required by Act 1345 of 2003 was furnished by the reporting insurance companies

Personal Policies: Policies of insurance covering only risks commonly associated with owning or renting a family residence such as those from fire, vandalism, theft, liability and other sudden and accidental events

Personal Premiums: Premiums for personal policy risks

Personal Losses: Losses for personal policy risks that derive only from the risk of fire. A typical loss ratio including all losses for an insurance policy along with the cost to investigate the loss, settle the claim and otherwise administer the policy usually exceed 100% with the excess being offset by investment and marketing considerations. Fire is typically a small portion of that total amount as reflected in the report. Therefore, for purposes of the Act, the following risks typically covered by a personal policy are NOT included in the column "Personal Losses":

1	Debris Removal	16	Riot or Civil Commotion
2	Reasonable Repairs	17	Aircraft
3	Trees, Shrubs and other plants	18	Vehicles
4	Fire Department Service Charge	19	Smoke
5	Property Removed	20	Vandalism or Malicious Mischief
6	Credit Care, Electronic Fund Transfer, Forgery	21	Theft
7	Loss Assessment	22	Falling Objects
8	Collapse	23	Weight of Ice, Snow or Sleet
9	Glass or Safety Glazing Material	24	Accidental Discharge or Overflow of Water or Steam
10	Landlord's Furnishings	25	Sudden and Accidental Tearing apart, Cracking, Burning or Bulging
11	Ordinance or Law	26	Freezing
12	Grave Markers	27	Sudden and Accidental Damage from Artificially Generated Electrical Current
13	Lightning	28	Volcanic Eruption
14	Windstorm or Hail	29	Liability
15	Explosion		

Fire Pure Loss Ratio: For the Personal portion of the report, this ratio is determined by dividing the "Personal Losses" by "Personal Premiums". For the Commercial portion of the report, this ratio is determined by dividing "Commercial Losses" by "Commercial Premium."

Average Pure Loss Per Policy: For the Personal portion of the report, this ratio is determined by dividing "Personal Losses" by "Personal Policies". For the Commercial portion of the report, this ratio is determined by dividing "Commercial Losses" by "Commercial Policies."

Commercial Policies: Policies of insurance covering only risks commonly associated with the ownership or leasing of property in which a business produces, distributes or sells tangible goods to, or provides a service to its customers

Commercial Premiums: Premiums for commercial policy risks

Commercial Losses: Losses for commercial policy risks that derive only from the risk of fire. A typical loss ratio including all losses for an insurance policy, along with the cost to investigate the loss, settle the claim and otherwise administer the policy, usually exceed 100% with the excess being offset by investment and marketing considerations.

Fire is typically a small portion of that total amount as reflected in the report. Therefore, for purposes of the Act, the following risks typically covered by a commercial policy are NOT included in the column "Commercial Losses":

3	Trees, Shrubs and other plants	18	Vehicles
