

Electronic Recording Commission
Report on Electronic Recording by County
Updated March 2016

EXHIBIT G

County	% of E-Recording	E-Recording Comments	Portal Address for E-Recording
Benton County	65-70%	Electronic Recording has helped the efficiency at the Benton County Recorder's Office and allows for instant verification of documents.	
Boone County	35%	Original documents are not stamped. Therefore, someone could alter the documents. It also cuts down on customer service.	
Craighead County	16%	We are working hard to build our e-recording customers. It has already increased our monthly average for this year compared to January 2015.	
Crawford County	20%	No additional comments	
Cross County		E-recording 1 -2 documents daily	
Garland County	20-25%	We are not set up to file notices of default (non-judicial foreclosures) by e-recording at this time. All other real estate documents are accepted provided they meet their basic recording criteria.	Parties wishing to e-record documents in Crawford County should contact property information at 888-608-1808 for information on how to get started.
Hot Springs County	65%	No additional Comments	
Independence County	20%	No additional Comments	
Lafayette County		Started e-recording March 2016	
Little River County	4%	Very happy with e-recording	
Madison County	29%	No additional comments	Simplifile.com; erecording.com (CSC); Efileanytime.com (BIS); Indecomm.net
Miller County	10%	No additional comments	Partners Network, CSC/Ingeo and Simplifile
Pulaski County	29%	No additional comments	Pulaski County does not use a website or portal address for e-recording at this time. They have four e-recording vendors that customers go through.
Saline County	21%	Started e-recording October 2015	salinerecords.org; salinecounty.org
Sebastian County	31%	No additional comments	
Union County	20%	E-recording reduces work load and increases productivity in the office.	
Washington County	80-82%	No additional comments
