

State of Arkansas

77th General Assembly

Regular Session, 1989

A Bill

HOUSE BILL

1916

By: Joint Budget Committee

For An Act To Be Entitled

"AN ACT TO AMEND VARIOUS SECTIONS OF SUBCHAPTER 2 OF CHAPTER 5 OF TITLE 21 OF THE ARKANSAS CODE OF 1987 ANNOTATED, THE UNIFORM CLASSIFICATION AND COMPENSATION ACT, TO PROVIDE FOR A NEW COMPENSATION PLAN FOR STATE EMPLOYEES AND FOR THE PLANS IMPLEMENTATION; TO PROVIDE FOR NEW JOB CLASSIFICATION TITLES AND GRADE LEVELS; TO INCORPORATE THE JOB CLASSIFICATIONS OF THE INSTITUTIONS OF HIGHER EDUCATION AND THE ADMINISTRATION OF HIGHER EDUCATION EMPLOYEE COMPENSATION INTO THE PROVISIONS OF THE LAW; AND TO REPEAL SUBCHAPTER 2 OF CHAPTER 63 OF TITLE 6 OF THE ARKANSAS CODE OF 1987 ANNOTATED, THE HIGHER EDUCATION EMPLOYEE CLASSIFICATION AND COMPENSATION ACT; TO DECLARE AN EMERGENCY; AND FOR OTHER PURPOSES."

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

SECTION 1. Arkansas Code 21-5-202 is hereby amended to read as follows:

"21-5-202. Legislative intent.

(a) It is the purpose and intent of this subchapter to establish uniform classifications for all affected state employees of agencies, boards, commissions and institutions of higher education covered by the provisions of this subchapter and to establish a uniform compensation plan to be followed by the agencies, boards, commissions and institutions of higher education, with respect to the authorized positions of their employees.

(b) It is the purpose of this subchapter to implement the administration and enforcement of the uniform position classification and compensation plan provided for affected agencies and institutions in accordance with sound business management practices."

SECTION 2. Arkansas Code 21-5-203 is hereby amended to read as follows:

"21-5-203. Definitions. As used in this subchapter, unless the context otherwise requires:

(1) 'Office of Personnel Management' means the Office of Personnel Management of the Department of Finance and Administration acting under the authority granted in this subchapter and subject to the direction of the Director of the Department of Finance and Administration;

(2) 'State agencies' means all agencies, authorities, departments, boards, commissions, bureaus, councils, or other agencies of the state supported by appropriation of state or federal funds, except those agencies excluded pursuant to 21-5-204;

(3) 'Agency head' or 'agency director' means the executive head of all agencies, authorities, departments, boards, commissions, bureaus, councils, or other agencies of the state;

(4) 'Institution of higher education' or 'institution' means all public institutions of higher education supported in whole or in part by appropriation of state funds;

(5) 'Head of institution' means the executive head of all institutions of higher education;

(6) 'Employee' means a person regularly appointed or employed in a position of state service by a state agency or institution of higher education, as defined in this section, for which he is compensated on a full-time basis, and for which a class title and pay grade is established in the appropriation act for such agency or institution in accordance with the classification and compensation plan enacted in this subchapter;

(7) 'Class' means a group of positions sufficiently similar as to duties performed, scope of discretion and responsibility, minimum requirements of training and experience or skill, and other characteristics that the same title, the same test of fitness, and the same scale of compensation have been or may be applied to each position in the group;

(8) 'Class specification' means a written document which identifies a group of positions that have the same type of work and responsibility and states the general components by providing a class title, class code, distinguishing features and example of work, knowledge, skills, and abilities, and the necessary minimum education and experience requirements to perform the assigned duties;

(9) 'Grade' means a pay range having an entrance salary rate,

intermediate rates, and a maximum rate of pay as provided in this subchapter;

(10) 'Position' means an office or employment in an agency or institution of higher education, occupied or vacant, involving duties requiring the services of one (1) person;

(11) 'Step' means any single rate of pay in a grade including the entrance, intermediate rates, and the maximum rate of pay;

(12) 'Occupational group' is defined as a collection of classes having similar features of job components and sharing a primary function. In determining the occupational group to which a class will be assigned, consideration will be given to the type of work to be performed, the type of education or experience required, job elements or tasks, and the purpose of the job;

(13) 'Job family' is defined as a group of jobs that are closely related as to specific types of duties to be performed and areas of education and experience required and that differ mainly in the level or complexity of the specific job to be performed;

(14) 'Working title' is defined as a descriptive title given a position within a class for ready identification of the job being performed. A working title consists of a procedural description of the duties and responsibilities of a position;

(15) 'Reclassification' is defined as a change in the assignment of a position from one (1) classification title to another classification title of either a higher or lower salary grade when material and permanent changes in the duties and responsibilities of the position being recommended for reclassification have occurred or when it is necessary to establish a new classification title to meet federal standards as a prerequisite for federal programs. Positions eligible for reclassification within an agency or institution of higher education shall be only those positions assigned a specific classification title and salary grade. Positions having a line item maximum salary shall be considered exempt from the provisions in this section and may not be reclassified from line item status to a classified designation bearing a salary grade. Positions within the agency allocated to a specific classification title and salary grade may not be reclassified to a classification title having a maximum annual line item salary amount;

(16) 'Promotion' is defined as the change in duty assignment of an employee from a position in one classification to a position in another

classification of a higher salary grade requiring higher qualifications, such as greater skill and longer experience, and involving a higher level of responsibility. A promotion, for purposes of salary determination, shall be classified as 'minor' if the change in duty assignment is to a classification of one (1) grade higher or 'major' if to a classification of two (2) or more grades higher than the employee's grade at the time of promotion;

(17) 'Demotion' is defined as the change in duty assignment of an employee from a position in one classification to a position in another classification of a lower salary grade requiring fewer qualifications such as lower skill requirements, less job-related experience, and a lower level of responsibility;

(18) 'Legislatively enacted salary grade change' is defined as the enactment of legislation which has the effect of lowering the salary grade level assigned to a specific classification title, referred to as a class downgrade, or raising the salary grade level assigned to a specific classification title, referred to as a class upgrade, from a level other than that assigned to the class title on June 30 of the previous fiscal year."

SECTION 3. Arkansas Code 21-5-204 is hereby amended to read as follows:
"21-5-204. Exceptions.

(a) The provisions of this subchapter shall not apply to the following agencies:

(1) The elected constitutional officers of this state and their employees;

(2) The General Assembly and its employees, including employees of the Bureau of Legislative Research of the Arkansas Legislative Council and the Division of Legislative Audit;

(3) Members and employees of the Arkansas Supreme Court, the Court of Appeals, circuit and chancery courts and prosecuting attorneys, and the Arkansas Judicial Department;

(4) The State Highway and Transportation Department;

(5) Federal military technicians, military training support personnel, federally funded personnel of the Arkansas National Guard, and other military personnel who are paid directly by the federal government.

(b) Salaries for agency head, agency director or head of institution positions shall be exempt from the classification and compensation plan, and

the maximum annual salary rate shall be authorized in the respective appropriation act."

SECTION 4. Arkansas Code 21-5-205 is hereby amended to read as follows:

"21-5-205. Effect on appropriation acts.

(a) All appropriation acts of all agencies and institutions of higher education subject to the provisions of this subchapter shall be governed by it with respect to grades, class titles, salary increases, salary increase eligibility, and other provisions unless special language in the appropriation act of the agency or institution specifically allows the agency or institution to provide salary increases, grade assignments, class title assignments, salary increase eligibility, and other provisions different from those provided by this subchapter.

(b) Where the intent of the General Assembly, by amendment to appropriation bills, is to allow a higher grade for a classification than that listed in this subchapter, the grade assigned to the classification in the appropriation act for the classification, as designated with the higher grade level, shall be the grade level for the classification in the agency or institution of higher education during the biennium.

(c) When a higher salary grade level is authorized in this subchapter for classifications which are not reflected in the appropriation act of an agency or institution of higher education, this subchapter shall set the salary grade levels to be authorized in an agency's or institution's appropriation act for the biennium unless special language in the appropriation act of an agency or institution allows the agency or institution to provide salary increases other than that provided in this subchapter.

(d) It is the intent of this subsection that the respective agencies and institutions governed by the provisions of this subchapter be authorized to allow salary grade levels as provided in the appropriation acts of the agencies and institutions, provided that the rules which apply to salary increases under the provisions of this subchapter shall not be waived unless special language in the appropriation act of the agency or institution authorizes the agency or institution to provide increases other than those authorized under the provisions of this subchapter."

SECTION 5. Arkansas Code 21-5-206 is hereby amended to read as follows:

"21-5-206. Arkansas Legislative Council - Duties. The Arkansas Legislative Council, in order to assist the General Assembly in more efficiently performing its constitutional duty, that being that '. . . the number and salaries of the clerks and employees of the different departments of the state shall be fixed by law . . .' shall:

(1) Review the establishment and implementation of any new classification titles proposed between legislative sessions due to program changes;

(2) Review the staffing levels of all agencies and institutions covered by the provisions of this subchapter and submit to the General Assembly, when in regular or special session, recommendations for revisions, modifications, or additions thereto;

(3) Conduct, when necessary, salary surveys of the private and public sector of jobs comparable to those contained in 21-5-211 for purposes of establishing equitable and competitive rates of compensation for employees occupying positions affected by this subchapter;

(4) Periodically review and recommend any changes found necessary in the job evaluation system used to set salary grade levels for all classifications affected by the provisions of this section and forward the recommendations to the Office of Personnel Management; and

(5) Prepare and submit recommendations for revisions in this subchapter to the General Assembly when in session."

SECTION 6. Arkansas Code 21-5-207 is hereby amended to read as follows:

"21-5-207. Office of Personnel Management - Duties.

(a) It shall be the duty of the Division of Personnel Management to perform the following administrative responsibilities with respect to the state classification and compensation plan, subject to the provisions of this subchapter:

(1) To determine that each position of a state agency or institution of higher education affected by this subchapter is allocated to a class having a written class specification based on the duties and responsibilities assigned to the position and the requirements necessary to satisfactorily perform the duties. A class specification may include several individual working titles provided the Office of Personnel Management records the working titles on the class specification;

(2) To assist the various state agencies or institutions of higher education in the allocation of positions to classes established in this subchapter, and in the appropriation act covering each of the several state agencies or institutions affected by this subchapter, and to disallow the allocation of a position to a class that is not in conformance with the provisions of this subchapter;

(3) To cooperate with any other state agency, department, board, commission, or institution that is not covered by this subchapter which may wish to voluntarily establish its positions into classifications in a like manner as provided in this subchapter for state agencies or institutions of higher education covered by it;

(4) (A) To authorize the reclassification of positions in a state agency or institution of higher education affected by the provisions of this subchapter in cases where it has been determined by the Office of Personnel Management of the Department of Finance and Administration that there are material changes in the duties and responsibilities assigned to the position when there is no available vacant position having the proper classification and where it is impracticable to restructure the duties of the position to the proper classification.

(B) The reclassification of positions may also be authorized where it is necessary to establish a new classification to meet federal standards as a prerequisite for federal programs, provided that no position may be reclassified to a class with a higher salary grade than that approved by the General Assembly, and the reclassified positions shall not be placed in a class and receive pay at a salary rate in excess of the maximum salary rate authorized for the position, which was reclassified as provided in the appropriation act of the agency or institution.

(C) Reclassifications of positions authorized may be approved by the Office of Personnel Management, but shall be reported monthly to the Arkansas Legislative Council;

(5) (A) To review all class specifications and all classes and grades and the compensation plan affecting all state agencies and institutions of higher education covered by the provisions of this subchapter and to submit to the Arkansas Legislative Council and the Governor in advance of the regular session of the General Assembly recommendations for revisions, modifications, or additions thereto.

(B) The Office of Personnel Management shall, when necessary, confer with the staff of the Arkansas Legislative Council on the development of and revisions to uniform classification and compensation systems.

(C) Time periods for the development of recommendations and time periods for the review by the Arkansas Legislative Council of those recommendations will be as established by the Personnel Committee of the Arkansas Legislative Council.

(D) The time period shall be sufficiently in advance of budget hearings for the regular session to allow for the thorough review by the Personnel Committee of the Arkansas Legislative Council;

(6) To develop and implement rules and regulations to accomplish the purposes of this subchapter;

(7) To revise, as necessary, upon review by the Arkansas Legislative Council, the minimum education and experience requirements for all class specifications in order to maintain a valid relationship between the requirements and the duties and responsibilities of the jobs;

(8) (A) To establish a procedure to allow for the review of the qualifications of applicants whose education and experience do not meet or exceed that required by the class specification, but who have other job related qualifications which might be validly substituted for the class requirements.

(B) This procedure is intended specifically to allow agencies or institutions to substitute job-related education and experience for the specific requirements stated on the class specification without the necessity for the revision of the class requirements.

(C) The procedure will require the final approval of the personnel administrator, with the review of the Arkansas Legislative Council;

(9) (A) To monitor agency and institution personnel transactions to ensure that unqualified appointments, including new hires, promotions, and reductions in grade are identified.

(B) Questionable appointments shall be forwarded to the personnel administrator for further review.

(C) Payroll vouchers containing unqualified appointments will not be processed until the unqualified appointment is removed from the payroll or placed into a position for which the individual meets the minimum qualifications of the classification.

(D) It is the specific responsibility of the director of each agency or the head of each institution covered by the provisions of this subchapter to certify that the qualifications of persons appointed to positions within the agency or institution do meet or exceed the minimum education and experience requirements as stated on the class specification;

(10) To establish during the biennium, upon the review of the Arkansas Legislative Council, new classifications at an appropriate grade level in order to meet new or changed conditions and to report, at the end of each fiscal year, all class titles contained in § 21-5-208 for which a class specification has not been written. Any classification established within the biennium under the provisions of this subdivision shall remain in effect for the remainder of the biennium during which they were established unless specifically authorized to continue by the Arkansas General Assembly as an addition to this subchapter;

(11) To revise, as necessary, with the review of the Arkansas Legislative Council, the class specification of a classification in order to ensure the accuracy of the description of the assigned duties and the minimum requirements necessary to perform these duties;

(12) To administer and maintain a system for the evaluation of employee performance effectiveness;

(13) To provide assistance to state agencies or institutions covered by the merit system in the areas of recruitment, testing, and merit placement of applicants under the rules and regulations established for the merit system;

(14) To provide assistance to state agencies and institutions in identifying, developing, and maintaining training and resource programs;

(15) To develop and implement, as needed, upon the review of the Arkansas Legislative Council, rules and regulations to ensure a uniform system of personnel administration within state government.

(b) In order to ensure and provide for the accuracy and efficiency of the Uniform Classification and Compensation Plan of the State of Arkansas and to provide for an efficient and equitable system of personnel management, the Office of Personnel Management of the Department of Finance and Administration, with the review of the Arkansas Legislative Council, is directed to:

(1) Study on a continuing basis and modify and revise when and

where necessary the current classifications, the class specifications, and minimum requirements;

(2) Create where necessary new classifications at an appropriate grade level which will accurately describe those positions for which no appropriate classification exists;

(3) Determine those positions which are improperly classified and reclassify those positions to the appropriate classification subject to the provisions of this subchapter;

(4) Develop and implement the policies, rules, regulations, and procedures necessary for the establishment and maintenance of the Uniform Classification and Compensation Act."

SECTION 7. Arkansas Code 21-5-208 is hereby amended to read as follows:

"21-5-208. Classification of positions.

(a) There is established for state agencies and institutions of higher education covered by the provisions of this subchapter, the following classification titles and grades. No payment of salaries may be made except in conformity with the maximum annual salary rates assigned to these grades for each year of the fiscal biennium as provided in the appropriation act of the agency or the institution and in this subchapter.

(b) The following classification titles with grades indicated are approved for the state classification plan, subject to the appropriation acts for the various state agencies and various institutions of higher education affected by this subchapter:

ITEM	TITLE	CLASS	GRADE
(1)	ELEVATOR OPERATOR	G041	01
(2)	VOCATIONAL TRAINEE	E087	01

SECTION 8. Arkansas Code 21-5-209 is hereby amended to read as follows:

"21-5-209. Compensation plan.

(a) There is established for state agencies and institutions covered by the provisions of this subchapter a compensation plan for the setting of salaries and salary increases, where deserved, of all employees serving in positions covered by this subchapter.

(b) No employee shall be paid at a rate of pay higher than the appropriate rate in the grade assigned to his class, and no employee shall be paid more than the maximum for his grade, provided that employees presently employed in a position who are being paid at a rate in excess of the maximum

for their assigned grade may continue to receive their rate of pay.

(c) It is the specific intent of the General Assembly to authorize, in the enactment of this compensation plan, maximum rates of pay for each of the appropriate grades assigned to a class, but it is not the intent that any pay increases shall be automatic or that any employee shall have a claim or a right thereto unless the department head of the agency or the institution shall determine that the employee, by experience, ability, and work performance, has earned the increase in pay authorized for the appropriate rate.

(d) The required time in each pay level for an employee to be eligible for a salary increase is twelve (12) months.

(e) The following grades and pay levels shall be the authorized compensation plan, effective July 1, 1989, for the state service for all positions of agencies and institutions covered by this subchapter to which a classification title and salary grade has been assigned, in accordance with this subchapter and the appropriation act of the agency or institution:

PAY LEVELS

Grade	<u> I </u>	<u> II </u>	<u> III </u>	<u> IV </u>
1	6,968	9,282	11,544	14,404
2	8,814	10,296	12,298	14,664
3	8,944	10,478	12,506	14,898

26	30,368	35,256	41,678	49,270

(f) All salary increases for the employees occupying positions covered under the provisions of this subchapter shall be based solely upon the results of a Performance Based Employee Evaluation System which has been implemented by the Office of Personnel Management of the Department of Finance and Administration or a similar system approved by the Office of Personnel Management with the review of the Arkansas Legislative Council for use in a limited number of agencies, in accordance with the provisions and standards as may be set by law for the systems. However, the Office of Personnel Management shall first seek the review of the Arkansas Legislative Council before implementing the provisions of any Performance Based Employee Evaluation System.

(g) It is the intent of the General Assembly that the compensation plan provided for in subsections (a) through (e) of this section shall be implemented and function in compliance with the Regular Salary Procedures and Restrictions Act, other provisions in Act 199 of 1969, as amended, the same being the Uniform Classification and Compensation Act, 21-5-201 et seq., and other fiscal control laws of this state, where applicable."

SECTION 9. Arkansas Code 21-5-210 is hereby amended to read as follows:
 "21-5-210. Implementation of plan - Changes in class specifications.

(a) For the purposes of implementing the uniform employee classification and compensation plan for the respective agencies or institutions of higher education covered by the provisions of this subchapter, the General Assembly determines that the class specifications prepared by the Office of Personnel Management in classifying the various positions authorized in the respective

appropriation acts shall be the class specifications to be followed in implementing the respective appropriations for all part-time and full-time employees of the respective agencies and institutions covered by the provisions of this subchapter.

(b) Changes in class specifications may be made in whole or in part by regulation of the Office of Personnel Management with the review of the Legislative Council, so long as the changes do not substantially change or alter the original class specifications adopted in this subchapter."

SECTION 10. Arkansas Code 21-5-211 is hereby amended to read as follows:

"21-5-211. Implementation procedure for grade changes.

(a) The Office of Personnel Management shall have administrative responsibility for enforcing compliance by state agencies and institutions affected by this subchapter in implementing classification grade changes.

(b) Subject to funds and appropriations being provided, the following implementation procedures shall apply to state agencies and institutions covered by the provisions of this subchapter, commencing on July 1 of each fiscal year:

(1) The maximum annual salary rate for which an employee covered by the provisions of this subchapter shall be eligible for each year of the biennium shall be determined as follows:

(A) (i) The maximum rate of compensation for which an employee shall be eligible on July 1, 1989, shall be determined by increasing the employee's June 30th salary by seven percent (7%). Employees whose salary falls below pay level "I" for the grade assigned to their classification may be adjusted to the entry level. All other employees shall be adjusted to the appropriate pay range for the grade assigned to their classification but may not exceed the maximum rate provided for that grade unless otherwise provided for by this section. Salary adjustments provided for in this section shall be made for all employees covered by the provisions of this subchapter prior to all other salary adjustments.

(ii) Effective with the fiscal year beginning July 1, 1990, all employees covered by the compensation plan set forth in this subchapter shall be eligible for an additional three percent (3%) increase in their maximum annual salary rate. If the employee's maximum annual salary resulting from the three percent (3%) increase is within two percent (2%) of

the maximum salary for the grade assigned to his position, the employee's maximum annual authorized salary may be the maximum for the grade.

(B) An employee, who due to legislative enactment is to be compensated at a higher grade (upgrade) than that which was in effect on June 30 of the previous fiscal year, shall be eligible for an additional two percent (2%) increase in his maximum annual salary in the new grade. Employees, who due to legislative enactment are to be compensated at a lower grade (downgrade) than that which was in effect on June 30 of the previous fiscal year, shall not have their maximum salary rate reduced due to the grade reduction.

(2) (A) Employees promoted on or after July 1, 1989, shall have the maximum annual salary for which they are eligible established as follows:

(i) Minor promotion: the employee's maximum rate of pay shall be increased by six percent (6%);

(ii) Major promotion: the employee's maximum rate of pay shall be increased by eight percent (8%).

(B) An employee who upon promotion is receiving a rate of pay below pay level "I" for the new grade may be adjusted to the entry level for that grade. In no event, however, may an employee's rate of pay upon promotion exceed the amount provided for by level "IV" of the grade assigned to the classification. An employee's anniversary date shall not change due to promotion.

(3) (A) An employee, upon demotion, shall retain his rate of pay the time of demotion with the following exceptions:

(i) Any employee who is assigned to a position in a classification he formerly occupied within a twelve (12) month period after promotion from the classification shall be eligible for a rate of pay no greater than that for which he would have been eligible had he remained in the lower graded classification;

(ii) Any employee who is placed in a lower graded position because his original position has expired, due to lack of funding, program changes, or withdrawal of federal grant funds, may continue to be paid at the same rate as he was being paid in the higher graded position upon approval of the Office of Personnel Management after seeking the review of the Arkansas Legislative Council.

(B) When an employee's position has been approved for

reclassification to a classification title of a higher salary grade, the employee shall be eligible for compensation at a rate of pay in the new grade which is equal to the employee's maximum annual salary at the time of reclassification. An employee, upon reclassification, who is receiving a rate of pay that is less than the entrance rate for the new grade may be adjusted to the new entrance rate.

(C) When an employee's position has been approved for reclassification to a classification title of a lower salary grade, the employee's pay shall be fixed at a rate in the lower grade which does not exceed the employee's rate of pay in the higher graded position at the time of reclassification;

(4) It is the specific intent of the General Assembly that a performance evaluation instrument for use in evaluating the eligibility of employees covered under the provisions of this subchapter for salary increases be implemented for statewide use;

(5) (A) Employees who are rated under the approved evaluation system as either "satisfactory" or "exceptional" shall be eligible for additional salary increases over and above their rate of pay at the time of evaluation.

(i) "Satisfactory," as used in this section, shall mean an overall rating which demonstrates performance of the duties and responsibilities expected of the employee in the position at or above job requirements.

(ii) "Exceptional," as used in this section, shall mean an overall rating which demonstrates performance of the duties and responsibilities expected of the employee in the position at a level significantly exceeding that of a "satisfactory" rating.

(B) Employees shall be eligible for additional salary increases based on a "satisfactory" or "exceptional" rating as follows:

(i) Satisfactory: a two-and-one-half percent (2 and 1/2%) increase over the employee's maximum annual salary within his assigned grade at the time of evaluation;

(ii) Exceptional: an additional three percent (3%) over the amount for which the employee would have been eligible if rated as "satisfactory."

(C) In no event, however, shall the total percentage increase awarded to an employee achieving an "exceptional" rating exceed

five-and-one-half percent (5 and 1/2%) of the employee's maximum annual salary within his assigned grade at the time of evaluation.

(D) It is further intended by the General Assembly that:

(i) Agencies or institutions which have an operational performance evaluation system in place on June 28, 1985 may, after receiving the approval of the Office of Personnel Management, continue to use that system for purposes of complying with the provisions of this section;

(ii) No employee shall receive more than one (1) performance-based salary increase within any twelve (12) month period;

(iii) Employees being compensated at the maximum of their assigned grade shall not be eligible for performance-based salary adjustments;

(iv) Part-time, seasonal, or extra-help employees shall be excluded from the provisions of this section;

(v) Management or supervisory personnel who fail to achieve an annual rating of all employees under their administrative control at least once in a twelve (12) month period shall be reported to the Office of Personnel Management of the Department of Finance and Administration and the Arkansas Legislative Council by the agency director or institution head at the conclusion of each fiscal year.

(E) Any proposed changes to the Performance Based Employee Evaluation System referenced in this section may be approved by the Office of Personnel Management of the Department of Finance and Administration after their seeking the review of the Arkansas Legislative Council.

(c) In the event that the Chief Fiscal Officer of the State determines that general revenue funds are insufficient to implement the salary increases authorized in this subchapter or any other law which affects salary increases for state employees, the Chief Fiscal Officer may, upon approval of the Governor, reduce the percentage of all authorized salary increases for all state employees covered by this subchapter without regard to whether the employees are compensated from general or special revenues, federal funds, or trust funds. Provided that if sufficient general revenues should then become available at any time during the biennium to provide the maximum additional salary increases for all state employees without regard to the source of revenues, salary increases for state employees provided for in this subchapter or any other law may then be fully implemented by the Chief Fiscal Officer of the State.

(d) All percentage calculations stipulated in this subchapter or any other law affecting salaries of state employees may be rounded to the nearest even dollar amount by the Office of Personnel Management when making the percentage changes to state employee salaries."

SECTION 11. Arkansas Code 21-5-212 is hereby amended to read as follows:

"21-5-212. Rehired or transferred employees. When an employee who has been terminated for more than two (2) pay periods returns to state service, the rate of pay of the rehired employee shall be fixed from the last position occupied and shall be calculated as follows:

(1) (A) If returning to the same classification, the employee may return at the same rate of pay.

(B) If the grade of the classification has changed, the employee's salary will be determined by adjusting the salary of the former grade into the current pay plan as was done for other employees at the time the grade change was implemented and adjusting that salary to the new grade.

(C) If that salary falls below pay level "I", the salary may be adjusted to pay level "I."

(2) (A) If the employee returns to a different classification of a different grade, the employee's salary will be determined by adjusting the salary of the former grade to the grade of the new classification on the current authorized pay plan.

(B) If the rate of pay falls below pay level "I", the salary may be adjusted to pay level "I".

(3) If a former or transferred employee was previously employed in a nonclassified position according to this subchapter, the rate of pay of the employee may be fixed at a rate within the grade for the classification to which he is returning or transferring which does not exceed the salary he previously earned.

(4) A former state employee may return as a new employee should the provisions of this section provide a lower salary than he could otherwise receive upon entering state service."

SECTION 12. Arkansas Code 21-5-213 is hereby amended to read as follows:

"21-5-213. Employees working late shifts.

(a) Subject to the approval of the Chief Fiscal Officer, employees whose

working hours do not conform to normal state business hours shall be eligible for additional compensation not to exceed five-and-one-half percent (5 and 1/2%) above that for which they are eligible under this subchapter, provided:

- (1) The agency or institution or any sections thereof routinely schedules more than one (1) work shift per day;
- (2) The shift to which the employee is assigned is a full work shift beginning not earlier than 2:30 p.m. and ending not later than 8:00 a.m. the next day; and
- (3) An employee is regularly assigned to the late shift or is assigned to the shift on a regularly scheduled rotating basis.

(b) Employees at or near the maximum authorized salary level for the grade assigned to their classification may be compensated at an additional rate not to exceed five-and-one-half percent (5 and 1/2%) of their eligible salary under the provisions of this subchapter. In those instances where the granting of such additional compensation would have the effect of temporarily exceeding the maximum annual rate for the grade assigned to the employee's classification, the additional compensation shall not be considered as exceeding the maximum allowable rate for that grade.

(c) An employee who is receiving additional compensation under the provisions of this section and then is reassigned to a normal shift shall, on the day of the reassignment, revert to the rate of pay for which he is eligible under the provisions of this subchapter."

SECTION 13. Arkansas Code 21-5-214 is hereby amended to read as follows:

"21-5-214. New appointments. All new appointments to positions in a state agency or institution of higher education covered by this subchapter shall not be greater than at pay level "I" unless a special rate is requested and approved as follows:

(1) (A) State agencies or institutions of higher education may request special rates of compensation for either current or prospective employees within the agency or institution under the following conditions:

(i) Where prevailing market rates of compensation for a specific classification title are such that the agency or institution is unable to competitively recruit at the entry level for the salary grade assigned to that classification;

(ii) Where an acute shortage of qualified applicants for a

specific classification exists;

(iii) Where the agency or institution desires to obtain the services of an exceptionally well-qualified applicant for a specific classification; or

(iv) To meet any requirements of the federal Fair Labor Standards Act.

(B) State agencies or institutions of higher education may hire a new employee up to pay level "II" of the appropriate grade with the written approval of the Chief Fiscal Officer of the State, or above pay level "II" with the approval of the Chief Fiscal Officer of the State, after he has solicited the review of the Arkansas Legislative Council, for new appointments where qualified applicants cannot be obtained at pay level "I" of the assigned grade. No special rates of compensation shall be approved under the provisions of this section unless the classification is properly reviewed and approved as a "market rate classification" and listed on a register of such classifications to be maintained by the Office of Personnel Management. The Office of Personnel Management shall file a report of all such classifications with the Legislative Council within the month following such approval.

(C) In all instances where a special rate of compensation has been approved for a specific classification due to prevailing market rates of compensation or an acute shortage of qualified applicants, current employees within the state agency or institution allocated the affected classification shall not be adjusted to that new rate by the agency or institution until it has received approval to do so, where justified, by the Office of Personnel Management after seeking the review of the Arkansas Legislative Council. Agency or institution requests for special rates of compensation due to prevailing market rates or an acute shortage of qualified applicants for a specific classification may be approved up to the maximum annual rate authorized for the grade assigned to a classification;

(2) (A) State agencies or institutions may hire a new employee at pay level "II" of the appropriate grade with the written approval of the Chief Fiscal Officer and up to pay level "III" with the approval of the Chief Fiscal Officer after he has solicited the review of the Arkansas Legislative Council, provided that this provision is intended to be used exclusively for the hiring of the exceptionally well-qualified employee whose background and experience qualifies him to perform the job with very little or substantially less

orientation and training than would be the case for a qualified applicant.

(B) Requests by state agencies or institutions for special rates of compensation based on an exceptional level of qualifications held by a prospective employee may be approved only after the agency or institution has met the following conditions:

(i) That it has documented to the satisfaction of the Chief Fiscal Officer that no current employee of the affected agency or institution could have been considered for promotion as an equivalent alternative to the exceptionally well-qualified applicant. The Chief Fiscal Officer shall upon request supply any documentation to the Arkansas Legislative Council;

(ii) That the prospective employee possesses a level of experience or educational credentials that would permit him to perform the duties and responsibilities of the position for which the special rate is being requested with significantly less training and orientation than all other qualified applicants.

(C) The hiring of a new employee under subdivision (2) of this section shall not affect the salary level or salary eligibility of any existing employee within the agency or institution.

(D) The provisions of this section shall apply to both current and prospective state employees;

(3) In all instances where approval has been granted to a requesting agency or institution for special rates of compensation at or below pay level "II" in accordance with the provisions of this section, the Chief Fiscal Officer shall report all approvals monthly to the Arkansas Legislative Council;

(4) (A) There shall be established a pool of fifty-five (55) positions at grade 26 assigned to the Office of Personnel Management to be used to reclassify positions in state agencies and institutions, when justified, to the proper classification and grade when the agency or institution does not have a vacant position available with the proper classification and grade.

(B) To obtain a position from the pool, an agency or institution must surrender to the pool the position being reclassified.

(C) The Office of Personnel Management shall review all requests and may grant approval of the reclassification after seeking the review of the Arkansas Legislative Council;

(5) An employee's anniversary date may be changed on approval of the

Office of Personnel Management with the review of the Arkansas Legislative Council in the event that an inequity is created due to the implementation procedures of this subchapter."

SECTION 14. Arkansas Code 21-5-215 is hereby amended to read as follows:

"21-5-215. Certified public school employees. A certified public school employee entering state employment shall be eligible for a rate of pay equal to that rate of pay to which the employee would be entitled if the employee were transferring from an unclassified state agency."

SECTION 15. Arkansas Code 21-5-216 is hereby amended to read as follows:

"21-5-216. In the event that any agency, board, commission, department or institution of higher education is authorized to utilize special rates of pay to recruit at competitive market rates or to attract exceptionally well-qualified applicants and the term 'step' is used to limit the special rates of pay, the following shall be used in lieu thereof: Pay level 'II' shall be the limit in lieu of 'step 4'; Pay level 'III' shall be the limit in lieu of 'step 5', 'step 6', 'step 7' or 'step 8'; Pay level 'IV' shall be the limit in lieu of 'step 9' or 'step 10'.

In the event that any agency, board, commission, department or institution of higher education is authorized in their appropriation act to utilize special rates of pay due to special or hazardous conditions and the term 'step' is used to determine the additional amount for which the employee is eligible, the amount of increase is to be five-and-one-half percent (5 and 1/2%) for each 'step' so authorized in additional compensation."

SECTION 16. Arkansas Code 21-5-217 is hereby amended to read as follows:

"21-5-217. Employment of Public Information Officers. No agency, board, commission, or institution may employ more Public Information Officer I's or Public Information Officer II's than those specifically authorized by line item in their regular salary schedule approved by the General Assembly."

SECTION 17. All provisions of this act of general and permanent nature are amendatory to the Arkansas Code of 1987 Annotated and the Arkansas Code Revision Commission shall incorporate the same in the Code.

SECTION 18. (a) Subchapter 2 of Chapter 63 of Title 6 of the Arkansas Code of 1987 Annotated, Sections 6-63-201 through 6-63-216, the Higher Education Employee Classification and Compensation Act, is hereby repealed.

(b) All other laws and parts of laws in conflict with this act are hereby repealed.

SECTION 19. Emergency. It is hereby found and determined by the Seventy-Seventh General Assembly of the State of Arkansas that the current Uniform Compensation Plan is inadequate to pay the employees of the various state agencies and institutions of higher education; that the current Uniform Personnel Classification plan describing the job titles and grade levels of state employees is no longer descriptive of the jobs being performed and the levels of pay needed to compensate them; and therefore that it is essential for the State of Arkansas to adopt a more competitive salary structure and to adopt more descriptive job titles and appropriate grade levels to provide for the essential functioning of state agencies and state supported institutions of higher education. Therefore, in order to keep the government services of the State of Arkansas functioning properly, an emergency is hereby declared to exist, and this act being necessary for the immediate preservation of the public peace, health, and safety, shall be in full force and effect from and after its passage and approval.
