9 105, ARKANSAS CODE 8-7-226 AND ARKANSAS CODE 8-9-404 TO  
10 ALLOW FOR CHANGES IN THE FEE STRUCTURES OF THE DEPARTMENT  
11 OF POLLUTION CONTROL AND ECOLOGY; AND FOR OTHER PURPOSES."

## Subtitle

14 "TO AMEND VARIOUS FEE STRUCTURES OF THE DEPARTMENT OF  
15 POLLUTION CONTROL AND ECOLOGY."

17 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

19 SECTION 1. Arkansas Code 8-1-103 is amended to read as follows:  
20 "8-1-103. Permit Fees.

21 The department and commission shall have the following powers and  
22 duties, respectively:

23 (1) Following a public hearing and based upon a record calculating the  
24 reasonable administrative costs of evaluating and taking action on permit  
25 applications and of implementing and enforcing the terms and conditions of  
26 permits and variances, the commission shall establish, by regulation,  
27 reasonable fees for initial issuance, annual review, and modification of  
28 water, air, or solid waste permits required by §§ 8-4-101 - 8-4-106, 8-4-201 -  
29 8-4-229, 8-4-301 - 8-4-313, and 8-6-201 - 8-6-217. These fees shall consist of  
30 initial fees, annual review fees, and modification fees, as defined in §  
31 8-1-102. *All fees will be capped at no more than the appropriation.*  
32 *Provided, however, in setting reasonable permit fees, the Commission shall not*  
33 *set water permit fees calculated to generate revenues in any fiscal year that*  
34 *exceed 3.25 times the total amount collected from water permit fees in fiscal*  
35 *year 1992-93, nor set fees for solid waste permit fees calculated to generate*

1 revenues in any fiscal year that exceed 4.25 times the total amount collected  
2 from solid waste permit fees in fiscal year 1992-93. Should the amount of  
3 permit fees levied on and/or received from permit holders exceed the amounts  
4 specified above in a fiscal year, the over-collections may be retained by the  
5 department to be used to reduce permit fees in subsequent years by relative  
6 amounts. With the exception of major underground injection control wells,  
7 fees for no-discharge state permits will be capped at five hundred dollars  
8 (\$500).

9 (2) (A) The regulations shall provide that the fees shall be assessed on  
10 a per-facility basis for the following categories of permits:

- 11 (i) Air;
- 12 (ii) Water; and
- 13 (iii) Solid waste.

14 (B) All annual fees for air permits issued under the state  
15 implementation plan or the regulations promulgated pursuant to the Federal  
16 Clean Air Act shall be assessed in accordance with the Federal Clean Air Act.

17 (C) The regulations may include a provision for appropriate adjustments  
18 in the fees to reflect carryover fee collections in excess of the  
19 administrative costs of issuance, renewal, inspection, modification, and  
20 monitoring associated with these permits.

21 (3) The department shall collect the permit fees as established by the  
22 commission and shall deny the issuance of an initial permit, a renewal permit,  
23 or a modification permit if and when any facility subject to control by the  
24 department fails or refuses to pay the fees after reasonable notice as  
25 established by the regulations promulgated under this chapter.

26 (4) The department shall require that any fee defined in this chapter  
27 shall be paid prior to the issuance of any permit."  
28

29 SECTION 2. Arkansas Code 8-1-105 is amended to read as follows:

32 established on the books of the State Treasurer, State Auditor, and Chief  
33 Fiscal Officer.

34 (b) All fees collected under the provisions of all laws administered by

8 permit renewal proceedings, on-site inspections and monitoring, the  
9 certification of personnel to operate hazardous waste treatment, storage, or  
10 disposal facilities, and other activities of department personnel which are  
11 reasonably necessary to assure that generators and transporters of hazardous  
12 waste and hazardous waste management facilities are complying with the  
13 provisions of this subchapter, and which reasonably should be borne by the  
14 transporter, generator, or owner or operator of the hazardous waste management  
15 facility.

16 (b) All fees collected pursuant to this section shall be dedicated to  
17 enabling the department to receive authorization to administer a hazardous  
18 waste management program in Arkansas pursuant to the federal Resource  
19 Conservation and Recovery Act of 1979, as amended by the Hazardous and Solid  
20 Waste Amendments of 1984.

21 (c) The Hazardous Waste Permit Fund is established on the books of the
