A Bill

HOUSE BILL 1585

For An Act To Be Entitled

"AN ACT PROVIDING THAT ALL COMMERCIAL MEDICAL WASTE INCINERATION FACILITIES BEGINNING OPERATION AFTER THE EFFECTIVE DATE OF THIS ACT MUST COMPLY WITH LAWS PASSED SINCE ISSUANCE OF A PERMIT; PERMITS FOR THE CONSTRUCTION AND OPERATION OF COMMERCIAL MEDICAL WASTE INCINERATORS SHALL NOT BE TRANSFERRABLE; REQUIRING THE OWNERS OR OPERATORS OF COMMERCIAL MEDICAL WASTE FACILITIES TO PROVIDE FINANCIAL ASSURANCE TO GUARANTEE SAFE OPERATION AND CLOSURE; DIRECTING THE DEPARTMENT OF POLLUTION CONTROL AND ECOLOGY AND THE HEALTH DEPARTMENT TO PREPARE A REPORT TO THE GENERAL ASSEMBLY CONCERNING MEDICAL WASTE DISPOSAL ISSUES; TO DECLARE AN EMERGENCY; AND FOR OTHER PURPOSES"

Subtitle

"THE MEDICAL WASTE DISPOSAL ACT OF 1995"

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

SECTION 1. Legislative Intent. As scientific understanding of the potential public health and environmental impacts from large-scale medical waste incineration evolves, the General Assembly finds that continued caution regarding the development of commercial-scale medical waste incineration facilities is necessary in order to protect the public health, safety and welfare. Even though medical waste incinerators constitute major sources of potentially harmful emissions into the air, the federal Environmental Protection Agency has yet to promulgate technology standards necessary to assure safe operation. In the meantime, highly speculative ventures seek to profit from the regulatory uncertainty by promoting undercapitalized

1 incineration facilities handling volumes of waste far in excess of that from
2 the largest hospital. This act seeks to protect the public welfare by
3 assuring that

4 (1) commercial-scale medical waste incinerators beginning
5 operation after the effective date of this Act will be in compliance with the
6 most recent operating standards and regulations;

7 (2) the owner or operator of any commercial-scale medical waste
8 incinerator beginning operation after the effective date of this Act shall
9 demonstrate financial assurances necessary to insure the proper operation,
10 maintenance and closure of such facilities;

11 (3) a transfer of ownership or control of any commercial-scale
12 medical waste will prompt regulatory officials to apply permitting standards
13 and procedures as stringent as those applicable for the issuance of a new
14 permit;

15 (4) generators of medical waste are encouraged to follow the
16 hierarchy of waste management goals set out in the Arkansas Pollution
17 Prevention Act, A.C.A. §8-10-201 et seq.; and

18 (5) both generators of medical waste and regulatory officials
19 will give proper consideration to alternative technologies for treating
20 medical waste other than incineration.

21 This act shall be liberally construed so as to achieve remedial intent.

22

23 SECTION 2. A.C.A. §8-6-1304(a) is amended to read as follows:

24 "(a) This subchapter shall not apply to medical waste incineration
25 facilities constructed and operating before March 20, 1992, or to medical
26 waste incineration facilities operated by health care facilities for the
27 purpose of disposing of medical waste."

28

29 SECTION 3. A.C.A. §8-6-1304 is amended by adding the following
30 subsection (c):

31 "(c) The requirements of this Act shall apply to any commercial medical
32 waste incineration facility that has not initiated operation prior to the
33 effective date of this Act. For the purposes of construing this subsection
34 and the application of this Act, initiation of operations has not occurred
35 until the Department has approved the installation of all permitted pollution

1 control equipment and the facility is receiving medical waste for
2 incineration."

3 SECTION 4. A.C.A. §8-6-1305(a) is amended to read as follows:

4 "(a) The department shall not accept any applications or issue any
5 permits for the construction or operation of any commercial medical waste
6 incineration facilities until the federal regulations promulgated pursuant to
7 42 U.S.C. § 7429(a)(1)(C) become effective, or the federal Environmental
8 Protection Agency's dioxin reassessment is finalized, whichever is later."

9

10 SECTION 5. A.C.A. §8-6-1305 is amended inserting additional
11 subsections at the end thereof to read as follows:

12 "(e)(1) Notwithstanding the general provisions of other laws, permits
13 for the construction or operation of medical waste incineration facilities
14 shall not be transferrable upon a change in ownership or control of a
15 facility. Prior to any change in ownership or control of a medical waste
16 incineration facility, the proposed new owner must apply for a new permit and
17 abide by the requirements of A.C.A. §8-1-106. The Department shall process
18 the application as one for a new permit and apply the most current statutes,
19 regulations, technological standards, and operational controls as conditions
20 precedent for granting a permit or operational authority.

21 (2) Any agreement or contract, written or oral, for a future
22 transfer of operational control or ownership of a permitted commercial
23 medical waste incineration facility, or such an agreement or contract
24 contingent upon the department's approval, shall be subject to immediate
25 disclosure to the department pursuant to A.C.A. §8-1-106. Upon such
26 disclosure, the department shall cause the intent to transfer ownership or
27 control to be publicly noticed and produce the disclosure documentation
28 required by A.C.A. §8-1-106 for public inspection. After a reasonable period
29 for public review, the department shall issue a written determination as to
30 whether the intended transfer of ownership or control should be approved,
31 subject to the right of appeal provided by A.C.A. §8-1-106(e). During the
32 pendency of the department's and the public's review of the disclosure
33 materials required by this Section, any actions taken by the permittee or
34 proposed transferee are at their own risk, and shall not be construed by the
35 department or commission as accruing equities in their favor.

1 (3) For the purposes of this subsection, corporate ownership shall be
2 defined as a controlling or majority interest in a commercial medical waste
3 incineration facility, either through outright ownership of stock or other
4 indicia of title, or any equitable right to such title as construed from the
5 totality of the circumstances. Control shall be presumed to reside with
6 the owner as defined herein, unless circumstances indicate that a person or
7 entity other than an employee or agent of the owner is exercising ultimate
8 decision-making authority regarding the construction or operation of a
9 commercial medical waste incineration facility.

10 (4) Any violation of this subsection shall constitute grounds for
11 permit revocation and imposition of the civil and criminal penalties
12 authorized by A.C.A. §8-4-103.

13 (f) If the original permit was issued more than one year prior to the
14 initiation of incineration activities at a commercial medical waste
15 incineration facility, the Department may review the conditions of the permit
16 to determine whether good cause exists for modifying operating parameters to
17 assure the maximum feasible control efficiency of emissions. Any
18 modifications proposed by the Department must be supported by appropriate
19 references to the scientific and engineering literature or documented studies
20 conducted by the Department."

21

22 SECTION 6. Subchapter 13 of Chapter 6 of Title 8 of the Arkansas code
23 is amended to add the following section:

24 "8-6-1307. (a) Prior to initiating operations at a commercial medical
25 waste incineration facility, the owner or operator must demonstrate:

26 (1) Evidence of liability insurance in such amount as the
27 department may determine to be necessary for the protection of public health
28 and safety and protection of the environment; and

29 (2) Evidence of financial responsibility in such form and amount
30 as the department may determine to be necessary to insure that, upon
31 abandonment, cessation, or interruption of the operation of the facility, all
32 appropriate measures can be taken to prevent present and future damage to the
33 public health and safety and to the environment. In determining the adequacy
34 of the evidence submitted, the department may consider credible evidence
35 indicating that the permittee is undercapitalized, insolvent, or otherwise

1 financially incapable of assuring environmentally sound operations at the
2 permitted facility.

3 (b) In determining the nature of financial assurance guarantees
4 required by subsection(a), the department and the permittee shall follow, to
5 the extent applicable, the federal regulations governing financial assurance
6 of facilities governed by Subtitle D of the Resource Conservation and
7 Recovery Act of 1976 as amended 42 U.S.C. §6901 et seq."

8

9 SECTION 7. A.C.A. 8-6-1302(2) is amended to read as follows:

10 "(2) 'Department' means the Arkansas Department of Pollution Control &
11 Ecology and 'Director' means the director of the Arkansas Department of
12 Pollution Control & Ecology."

13

14 SECTION 8. Report to the General Assembly. By December 30, 1996, the
15 Department of Pollution Control & Ecology and the Department of Health shall
16 prepare a report for review by the Joint Interim Public Health, Welfare, and
17 Labor Committee. In general, the report shall address the public health and
18 environmental concerns raised by the generation and disposal of medical
19 waste. At a minimum, the report shall advise the Committee of the latest
20 regulations developed by the Environmental Protection Agency governing
21 medical waste incineration, the latest findings of the dioxin reassessment
22 task force, and the feasibility of alternative technologies for efficiently
23 treating medical waste.

24

25 SECTION 9. CODE. All provisions of this act of a general and
26 permanent nature are amendatory to the Arkansas Code of 1987 Annotated and
27 the Arkansas Code Revision Commission shall incorporate the same in the Code.

28

29 SECTION 10. SEVERABILITY. If any provisions of this act or the
30 application thereof to any person or circumstance is held invalid, such
31 invalidity shall not affect other provisions or applications of the act which
32 can be given effect without the invalid provision or application, and to this
33 end the provisions of this act are declared to be severable.

34

35 SECTION 11. GENERAL REPEALER. All laws and parts of laws in conflict

1 with this act are hereby repealed.

2

3 SECTION 12. EMERGENCY CLAUSE. The General Assembly finds that both
4 scientific understanding of the effects of medical waste incineration and the
5 regulatory mechanisms for assuring safe operations are in a state of flux.
6 The General Assembly deems this Act necessary to assure that commercial
7 medical waste incineration facilities are sited and operated in accordance
8 with the latest applicable laws and regulations, and that the operators of
9 such facilities have the financial means necessary to maintain safe
10 operations. Therefore, an emergency is hereby declared to exist and this
11 act, being necessary for the immediate preservation of the public peace,
12 health and safety, shall be in full force and effect from and after its
13 passage and approval.
