Subtitle

16 URGING A STUDY OF THE FINANCIAL IMPACT OF INADEQUATE
17 FUNDING OF CERTAIN DEFINED BENEFIT PENSION PLANS

18

19 WHEREAS, reports from the federal Pension Benefit Guaranty Corporation
20 have identified many private defined benefit pension plans which are, either,
21 inadequately funded to pay full benefits for beneficiaries or are underfunded
22 to the extent they will be unable to meet the full extent of their future
23 financial obligations; and

24

25 WHEREAS, during the 1980s, many public and private pension funds had
26 excessive overall rates of returns on their investments due, in large part,
27 to huge investment returns from gains in the stock and securities markets;
28 and

29

30 WHEREAS, during the 1980s, many of the private and public pension funds
31 who now find themselves inadequately funded, skimmed these excess profits
32 from their pension funds for corporate profits or to pursue
33 non-pension-related investments and used the excessive overall rates of
34 return of the pension funds as excuses to reduce their investment in these
35 pension funds; and

WHEREAS, many private and public pension funds have reduced or will have to reduce in the future the benefits that will be paid to plan beneficiaries and have switched from "defined-benefit" plans to "defined-contribution" plans to reduce their obligations to future beneficiaries of their pension funds,

NOW THEREFORE,
BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE EIGHTIETH GENERAL ASSEMBLY OF THE STATE OF ARKANSAS, THE SENATE CONCURRING THEREIN:

THAT the House of Representatives of the Eightieth General Assembly of the State of Arkansas urges the Joint Interim Committee on Aging and Legislative Affairs to study the issue of underfunding of private and public defined benefit pension funds to determine the financial impact on older Arkansans and to examine this issue, in light of state-federal preemption, and determine whether state government needs to and should take some action to prevent similar circumstances from overtaking private and public pension funds in the future.
