13 ACT"
14

15

16 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

17

18 SECTION 1. This act shall be entitled the "State Health Data Clearing
19 House Act."

20

21 SECTION 2. Collection and dissemination of health data.

22 (a) The General Assembly finds that as a result of rising health care
23 costs, the shortage of health professionals and health care services in many
24 areas of the state, and the concerns expressed by care providers, consumers,
25 third-party payers, and others involved with planning for the provision of
26 health care, there is an urgent need to understand patterns and trends in the
27 availability, use, and costs of these services. Therefore, in order to
28 establish an information base for patients, health professionals and
29 hospitals, to improve the appropriate and efficient usage of health care
30 services, and to provide for appropriate protection for confidentiality and
31 privacy, the Department of Health shall act as a state health data clearing
32 house for the acquisition and dissemination of data from state agencies and
33 other appropriate sources to carry out the purposes of this section.

34 (b) The Department of Health, in consultation with advisory groups
35 appointed by the Director with representation from hospitals, outpatient

1 surgery centers, health profession licensing boards and other state agencies,
2 should:

3 (1) Identify the most practical methods to collect, transmit,
4 and share required health data *as described in subsection (g)*;

5 (2) Utilize, wherever practical, existing administrative data
6 bases and modalities of data collection to provide the required data;

8 efficiency for the provision of the data;

9 (4) Ensure confidentiality of data by enforcing appropriate
10 rules and regulations.

11 (c) In order to maximize limited resources and prevent duplication of
12 effort, the Department of Health may, when appropriate, consider contracting
13 with private entities for the collection of data set forth in this section
14 subject to the provisions of this act.

15 (d) All state agencies, including health profession licensing,
16 certification or registration boards and commissions, which collect, maintain
17 or distribute health data, including data relating to the Medicaid program,
18 shall make available to the Department of Health such data as are necessary
19 for the Department of Health to carry out its responsibilities as prescribed
20 by this section or such rules and regulations as may be adopted as provided
21 in subsection (h).

22 (e) *If health data are already reported to another organization or*
23 *governmental agency in the same manner, form, and content or in a manner,*
24 *form, and content acceptable to the Department, the Director may obtain a*
25 *copy of such data from said organization or agency; and no duplicative report*
26 *need be submitted by the organization.*

27 (f) All hospitals and outpatient surgery centers licensed by the state
28 shall submit information in a form and manner as prescribed by rules and
29 regulations by the Arkansas State Board of Health pursuant to subsection (h);
30 however, if the same information is being collected by another state agency,
31 the Department of Health shall obtain such data from the other state agency.

32 (g) The Director of the Department of Health shall be empowered to
33 release data collected pursuant to this section except that data released
34 shall not include any information which identifies or could be used to
35 identify any individual patient, provider, institution or health plan except

1 as provided in subsection (h).

2 (h) The Arkansas State Board of Health shall prescribe and enforce
3 such rules and regulations as may be necessary to carry out the purpose of
4 this section including the manner in which data are collected, maintained,
5 compiled and disseminated and including such rules as may be necessary to
6 promote and protect the confidentiality of data reported under this act;
7 provided further that data collected under this section, which identifies or
8 could be used to identify any individual patient, provider, institution or
9 *health plan*, shall not be subject to discovery pursuant to Arkansas Rules of
10 Civil Procedure or Ark. Code Ann. § 25-19-101, et seq.

11 (i)(1) The Director of the Department of Health shall, with the
12 approval of the Arkansas State Board of Health, compile and disseminate
13 health data collected by the Department of Health.

14 (2)(A) The Director of the Department of Health shall prepare
15 and submit a biennial report to the Governor and the Joint Interim Committee
