19

20 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
21

22 SECTION 1. Arkansas Code Title 17 is amended to add an additional
23 chapter to read as follows:

24 17-107-101. Title.

25 This chapter shall be known and may be cited as the "Healthcare Freedom
26 Act".
27

28 17-107-102. Findings and purpose.

29 (a) The General Assembly finds that:

30 (1) A significant number of consumers in this state are
31 contracting for healthcare services from unlicensed noninvasive, natural,
32 alternative, or complementary healthcare providers;

33 (2) The use of noninvasive, natural, alternative, or
34 complementary healthcare modalities by an unlicensed provider of such
35 modalities does not pose a known risk to the health and safety of consumers;
36 and

1 (3) A consumer has the right to contract for healthcare
2 services of his or her choice.

3 (b) This chapter is intended to:

4 (1) Protect the consumer by establishing standards of
5 service for an unlicensed noninvasive, natural, alternative, or complementary
6 healthcare provider;

7 (2) Provide the consumer with legal remedies that will
8 insure accountability of an unlicensed noninvasive, natural, alternative, or
9 complementary healthcare provider;

10 (3) Allow a consumer the right to choose the provider and
11 modality of healthcare he or she will receive;

12 (4) Extend healthcare options to consumers;

13 (5) Allow a consumer to contract with an unlicensed
14 noninvasive, natural, alternative, or complementary healthcare provider;

15 (6) Allow an unlicensed noninvasive, natural, alternative,
16 or complementary healthcare provider to render noninvasive healthcare
17 services to consumers; and

18 (7) Afford a licensed healthcare practitioner the right to
19 use noninvasive natural, alternative, or complementary healthcare modalities
20 without reprisal.

21
22 17-107-103. Definitions.

23 As used in this chapter:

24 (1) "Allopathic" means conventional western medicine as
25 practiced by a medical doctor who is licensed by the Arkansas State Medical
26 Board;

27 (2) "Healthcare consumer" means a person who contracts with a
28 licensed healthcare practitioner or with an unlicensed noninvasive, natural,
29 alternative, or complementary healthcare provider for healthcare services;

30 (3) "Homeostatic process" means the body's own self-
31 healing mechanisms;

32 (4) "Licensed healthcare practitioner" means a person licensed
33 by a board of the healing arts;

34 (5) "Natural, alternative, or complementary healthcare
35 practices" means the broad domain of healing modalities that are nonmedical
36 and noninvasive in nature that attempt to restore health through balancing,

1 harmonizing, or promoting the body's own homeostatic process;

2 (6) "Noninvasive" means not breaking the skin;

3 (7) "Traditional naturopathy" means an alternative form of
4 nondiagnostic, noninvasive, nonpharmaceutical healthcare that attempts to
5 restore the entire body to a healthful state through counseling and natural
6 healthcare by using such modalities as detoxification, purification,
7 balancing, and strengthening of the entire body in an attempt to enhance the
8 body's own natural healing ability; and

9 (8) "Unlicensed noninvasive, natural, alternative, or
10 complementary healthcare provider" means a person who:

11 (A) Uses modalities to restore health that are not medical
12 in nature, that do not break the skin, and that are not substantially harmful
13 to the body; and

14 (B) Is not licensed by a board of the healing arts.

15
16 17-107-104. Applicability.

17 (a) This chapter applies to licensed healthcare practitioners and to
18 unlicensed noninvasive, natural, alternative, or complementary healthcare
19 providers who use noninvasive, natural, alternative, or complementary
20 healthcare modalities that are not a part of allopathic medicine and include,
21 but are not limited to, the following:

22 (1) Alternative services such as traditional naturopathy,
23 culturally traditional healing practices, folk practices, homeopathy,
24 Oriental practices, and Ayurveda;

25 (2) Mind-body interventions that include a variety of techniques
26 and practices relating to meditation, prayer, mental healing, art, music, and
27 dance that enhance the mind's capacity to affect bodily function and
28 symptoms;

29 (3) Biologically-based therapies that use substances found in
30 nature such as herbs, foods, and vitamins including dietary supplements and
31 herbal products;

32 (4) Body-based methods that include movement of one (1) or more
33 parts of the body;

34 (5) Energy therapies that manipulate biofields by placing the
35 hands in or through these fields; and

36 (6) Bioelectromagnetic-based therapies that include pulsed

1 fields, magnetic fields, alternating current fields, or direct current
2 fields.

3 (b) Services provided under this chapter by an unlicensed, noninvasive
4 natural, alternative, or complementary healthcare provider do not constitute
5 the practice of medicine.

6 (c) The provisions of Arkansas Code §§ 17-80-109 and 17-95-202 do not
7 apply to unlicensed noninvasive, natural, alternative, or complementary
8 healthcare providers who render services under this chapter.

9 (d) Except as provided in this chapter, an unlicensed noninvasive,
10 natural, alternative, or complementary healthcare provider is not in
11 violation of any law of this state for providing noninvasive natural,
12 alternative, or complementary healthcare service.

13 (e) An unlicensed noninvasive, natural, alternative, or complementary
14 healthcare provider practicing under this chapter is not eligible for
15 licensure by any board of the healing arts merely by the fact of practice
16 under this chapter.

17 (f) An unlicensed noninvasive, natural, alternative, or complementary
18 healthcare provider is not subject to the regulatory authority of any board
19 of the healing arts.

20 (g) If a minor child does not respond to an alternative treatment
21 methodology, the use of the methodology by a parent of the minor child does
22 not preclude reporting and investigation of an allegation of child
23 maltreatment.

24
25 17-107-105. Consumer rights.

26 A consumer seeking healthcare under this chapter shall have the
27 following rights:

10 (c) The fund shall be used by the Department of Health to inform
11 healthcare consumers about the benefits of noninvasive, natural, alternative,

13
14 SECTION 2. EMERGENCY CLAUSE. It is found and determined by the
15 General Assembly of the State of Arkansas that based upon a comprehensive
16 report by the National Institute of Medicine and other studies, including a
17 study published by the New England Journal of Medicine, it is evident that
18 millions of consumers are presently receiving a substantial volume of
19 healthcare services from unlicensed noninvasive, natural, alternative, or
20 complementary healthcare providers. Those studies further indicate that
21 consumers using services provided by unlicensed noninvasive, natural,
22 alternative, and complementary healthcare providers represent a wide range of
23 age, ethnic, socioeconomic, educational, and other demographic categories.
24 Notwithstanding the widespread consumer use of services provided by
25 unlicensed noninvasive natural, alternative, and complementary healthcare
26 providers, the provision of many of these services may be in technical
27 violation of the Arkansas Medical Practices Act and other healing arts
28 licensure acts. Unlicensed noninvasive, natural, alternative, and
29 complementary healthcare providers could therefore be subject to fines,
30 penalties, and the restriction of their services under the Arkansas Medical
31 Practices Act and other healing arts licensure acts even though there is no
32 demonstration that their services are substantially harmful to the consumer.
33 The General Assembly intends, by enactment of this act, to allow access by
34 consumers to unlicensed noninvasive, natural, alternative, and complementary
35 healthcare providers who are not providing services that require medical
36 training and credentials. The General Assembly further finds that these

1 unlicensed nonmedical and noninvasive, natural, alternative, and
2 complementary healthcare services do not pose a known risk to the health and
3 safety of Arkansas consumers, and that restricting access to those services
4 due to technical violations of the Arkansas Medical Practices Act and other
5 healing arts licensure acts is not warranted. Therefore, an emergency is
6 declared to exist and this act being immediately necessary for the
7 preservation of the public peace, health, and safety shall become effective
8 on:

9 (1) The date of its approval by the Governor;

10 (2) If the bill is neither approved nor vetoed by the Governor,
11 it shall become effective on the expiration of the period of time during
12 which the Governor may veto the bill; or

13 (3) If the bill is vetoed by the Governor and the veto is
14 overridden, it shall become effective on the date the last house overrides
15 the veto.
