32 (1) A statewide performance and results based system of
33 leadership development to ensure high levels of collaborative leadership and
34 continuous improvement must have all educators work collaboratively with
35 community stakeholders to apply effective, evidence-based strategies and
36 practices that increase student and adult learning and close the achievement
gap;

1 (2) High quality classroom teaching and administrative
2 leadership are strong predictors of student success, all educators in the
3 state must possess the skills and knowledge to increase student and adult
4 learning and close the achievement gap;

5 (3) High quality leadership capacity building and training is
6 required to align the public education system from kindergarten through
7 postsecondary and workforce readiness, with an objective of universal
8 proficiency for all students.

9 (4) High quality learning experiences focus on both individual
10 and organizational improvement and provide educational leaders with a variety
11 of support systems as they progress on the career continuum from aspiring to
12 retiring; and

13 (5) An effective statewide leadership development system will
14 result in increased graduation rates, reduced remediation rates, closing of
15 achievement gaps, increased student and adult performance, increased
16 recruitment of effective leaders, and increased capacity for instructional
17 leaders, thus will increase the number of Arkansas citizens with bachelors
