January 13, 2009

*****

Mr. President, Mr. Speaker, Ladies and Gentlemen of the House and Senate, Constitutional Officers, Mr. Chief Justice, Members of the Court, Distinguished Guests, Friends, and Fellow Arkansans:

On behalf of our State, I begin by saying thank you. Thank you to all Arkansans who have served and continue to serve so honorably throughout the world, especially in Iraq and Afghanistan. We are proud of our men and women in uniform and humbled by their devotion to duty. On a very personal note, I want to thank all my fellow citizens for the extraordinary kindness and support they have shown to Ginger and me these past two years. We are forever grateful for their friendship. And all of us who sit in this Chamber know how important our people back home are to our continued success.

I stood here before you two years ago and laid out my administration's commitments, commitments we have honored: responsible stewardship of taxpayer dollars, restoring faith in state government, investing in education and economic development, improving health care and generally improving the quality of life of our people.

Despite our nation's struggle with an economic slide unmatched since the Great Depression, Arkansas continues to make advancements in education and attract new businesses. Still, the impact of the global recession has reached within our borders, and it's not yet over. The fallout from the national economic downturn will be our biggest challenge this year and in this legislative session, but our charge and our responsibility remain unchanged. We must remain firm in providing not only the services our people depend on from their State, but also in striving to make them even better, even in tough economic times. We must prepare Arkansas and her children today for whatever the world may bring tomorrow.

Together, we've begun that preparation. Presented with a one billion dollar surplus in the 2007 legislative session, we took the responsible step of dedicating roughly half of that money for school facilities. This investment helped end the prolonged legal battles of the Lake View case and put us on the right path toward excellence in education for all our children. Arkansas is today building new, state-of-the art schools and enhancing existing facilities, even in the face of this international economic crisis.

A common thread runs through our fiscal policies and sets Arkansas apart from other states, a thread spun from the wisdom of careful budgeting. By holding to our traditions of budget stabilization and conservative forecasting, we now find ourselves in an enviable position. Other state governments are convening this month. They must decide how deeply to cut state programs, what services to terminate, which teachers to lay off, which scholarships to cut, and which nursing homes to close. We don't face these precarious decisions in Arkansas, but we still face serious challenges.
There are only two areas in my balanced budget where I have proposed real increases in funding. Those are for public education and for the Division of Children and Family Services.

It is no surprise that public education remains my first, and my highest, priority for Arkansas. It remains our constitutional obligation and it is our moral imperative to provide the best education possible for our children. In my proposed budget, we have again reached beyond the legal definition of “adequacy” that you all determined and toward excellence by providing school districts with additional per-student funds. If approved annually by the Legislature, we will add 234 dollars of additional per-student funding over the next two years, and will give school districts additional one-time enhancement money of 35 dollars per student.

Providing excellence in grades K through 12 is only one piece of our education commitment. We have made quality pre-kindergarten education available to all at-risk children, and this will pay dividends for decades to come. We will stand fast on that commitment. Quality pre-k instruction has a positive ripple effect throughout our education system as a whole and the academic life of any single student. It creates a richer learning environment that better prepares our children to succeed throughout elementary and secondary grades, reducing the need for remediation, and allowing entire classes to learn at a faster pace.

As our schools improve and better prepare our students for college, so, too, must our higher-education system better prepare our workforce for the competition of a global job market. Arkansas holds its own nationally when it comes to enrolling college students. Where we fall to the bottom is in our inability to graduate those students, to get degrees in their hands, and put them on stronger footing to begin their careers.

Two primary factors keep us at the bottom of that list. Some students are not adequately prepared when they enter college; others run out of money before they can graduate. We’re addressing preparation through increased overall funding, through pre-k, through Smart Core and stronger college prep programs, and now through pilot programs for after-school and summer learning. These will all be beneficial.

But, even our best-prepared students sometimes struggle to afford the pursuit of a college degree. We need to improve our scholarship programs so that scholarships reach more students, and so that the amount of assistance they receive is greater.

In 2007, we initiated a need-based financial-aid program in Arkansas, the GO Opportunities Grant, to make college more attainable for students who show potential for success in professional and technical careers, even though they may have been late bloomers academically. It’s a good start, but this program must be broadened to include more non-traditional students, to help additional students in two-year programs, and to expand the total financial support available.

A growing number of students also qualify for state merit scholarships. However, many of these scholarships never reach students who qualify for them, and even when they do, there’s often not enough money to sustain enrollment in the face of rising tuition costs. I want to rectify that troubling dilemma, as well.
The lottery, approved by our voters, can help. Our first step is to structure the lottery to be as efficient and as transparent as possible. We must then open up the doors of higher education to students who qualify for both need-based and merit-based aid, while increasing scholarship amounts. We have a unique opportunity to address both of those problems, that is the amount of the scholarship and the number of people who are entitled to the scholarships. Reducing the financial burden of our college students can help them focus on their studies, rather than on how they will pay for school next semester. Our work to ease that burden must be approached responsibly. When we promise scholarships, the money must remain available if the students remain qualified. What that really means is making sure that the funding is there for expanded scholarships before we make them that promise. Some of you were here in 2000, when we had to take back money or reduce scholarships because we didn’t have the money to complete the promises. That's not going to happen with this General Assembly, and it's not going to happen with this administration.

Scholarships are only beneficial, however, when students can access them. We need simpler paperwork. I'll go further and say we need less paperwork, with the State stepping up to provide a single application listing the college assistance available, rather than students and their families struggling to seek out their best match for financial aid. Just as all of you, just as the Lieutenant Governor, just as the Speaker, I want every Arkansan who has earned it and wants to go, to have the chance to get a college degree. That's what Arkansas is all about, that's what America is all about.

We will also adjust the higher-education funding formula to stress graduation rates, rather than the number of students that happen to be on campus. For too long, that formula has emphasized enrollment numbers over degrees. Shifting some of the funding formula's weight from the beginning of the school term to its successful conclusion of that term will provide a financial incentive for our colleges and universities to increase graduation rates.

Along with the expanded funding for public education, I also want to significantly increase resources for the Division of Children and Family Services. Every state struggles to serve children who, through no fault of their own, find themselves wards of the State. However, the strain upon DCFS and its subsequent inefficiency have recently emerged in stark relief. After working closely with DHS officials on a top-to-bottom review of this division, I am confident that they are taking dramatic steps that will improve the service for, and protection of, the vulnerable children in our care. Our next step is to increase skilled personnel, provide additional money to reduce caseloads, and stem the turnover of qualified, caring people who too often burn out in an overworked and understaffed system. We will also increase the visibility and accountability of the system by sharing more information with the public.

I was disappointed when voters passed an initiated act last November limiting the number of Arkansans who may qualify to become foster and adoptive parents. Before Act 1, we already had three times more foster children than we had qualified homes available. Now our ability to place these children is further impeded. It is imperative for those who supported shrinking the pool of potential foster parents to realize that the number of young and vulnerable Arkansans needing foster care will only continue to grow, and action must now follow their words. More than ever, we need Arkansas families to open their hearts and their homes to give these children the chance to grow up in safety and security, with devoted families who can raise them with care and compassion.
While my budget does call for increased funding for education and for DCFS, we're holding the line everywhere else and recommending that we set aside funds in case dire budget forecasts become reality. We've saved enough money to cover gaps in key areas, especially in Medicaid and in our prison system. I would authorize the use of these "rainy-day" funds with the consensus and oversight of this Legislature.

This is a departure from my philosophy of not using one-time surplus money for ongoing revenue needs. However, a recession is, by its nature, a temporary phenomenon. As the national economy recovers and Arkansas's economy continues to grow, we anticipate that these will be one-time expenditures. Even if we spend some savings shoring up state services, funds remain available for general improvement. And this brings me to the second cornerstone of my administration: economic development. This may be the longest gap in any speech I've given between the first mention of education and the first discussion of economic development. The two are indeed intertwined and inseparable, and I stand by my assertion that one cannot fully succeed without the other.

I am proud to say that, through the tireless work of the Arkansas Economic Development Commission and the Legislature's willingness to provide the tools we need to be competitive, Arkansas continues to attract new jobs and industry from throughout the United States and, indeed, from around the world. Just last week, we announced the arrival of Caterpillar in North Little Rock with plans to create 600 jobs and invest $140 million. Last month, Cooper Tire decided that not only would they keep their 1500 employees in Texarkana, but would add as many as 250 more in the coming year. Last summer, Hewlett-Packard announced 1200 technology jobs in Conway. All this economic expansion and more in Little Rock, West Memphis, Rogers, Jonesboro, Booneville and throughout Arkansas, adds up to $2.7 billion of new investment and 19,000 new jobs for Arkansas.

Now let's give credit where credit is due. This success would not have been possible without the Governor's Quick Action Closing Fund, which you created as a tool in the last session. You made these tools available for the State of Arkansas to be competitive; you trusted me; I asked you to do that, and you did it. And I ask you to replenish it this time with $50 million over the next two years, so that we can continue to be competitive and continue this progress. Through our strategic plan for economic development, we will position Arkansas to be at full speed when the recession lifts - and it will lift - and we will continue working to defy the global economic downturn today.

As we put more Arkansans to work, the struggling economy means that more Arkansans now must get back to work. As we celebrate the arrival of new jobs, we also empathize with friends and neighbors who have lost their jobs to closures and outsourcing. This makes our ability to educate, train, and re-train our workforce that much more valuable. Our Workforce Cabinet agencies continue working together to provide efficient and effective programs that prepare Arkansans for employment.
I have spoken repeatedly about restoring our people’s faith in their government and the individuals they elect to lead it. Last year showed us a presidential campaign with strong words and accusations on all sides. It showed us scandal and corruption in respected seats of power. It reinforced the cynicism of those who already doubted their leaders. Restoring confidence is a commitment we owe to our citizens and our democracy. To Arkansas’s leaders assembled before me, I say we must seek every opportunity to cooperate when addressing our State’s challenges. When we cannot agree, we must debate with respect and dignity. Above all, we must be reasonable and realistic in the promises we make. There was a line in a speech that John F. Kennedy was to deliver on the day he died. It said “Leadership and learning are indispensable to each other.” Listen to your constituents; be willing to learn from one another, and from history. While being guided by our hearts, we must lead with our minds to navigate our State through good times and bad, together.

When I ran for governor, I made a promise to attack Arkansas’s regressive grocery tax. Attempts to remove or reduce this tax had failed for decades, because the revenue it generated proved too precious to give up. But, together with the General Assembly, we passed the largest package of tax cuts in Arkansas history, including reducing that grocery tax by half. Today’s economic climate will not allow us to completely eliminate the tax this year, but even under pessimistic forecasts, we can afford an additional one-penny decrease. This easing of the grocery tax will provide our citizens with additional relief for basic necessities. But even more important than the relief it provides, even more important than the revenue that is lost, even more important than the sheer numbers - it shows our continued dedication to eradicate this onerous tax and restore our people’s faith in their government and their leaders, by doing what we said we were going to do. It’s more important to keep your word than anything else, and that’s what we need to do in this session. I know it’s going to be tough for some of you, but I ask you to join me - we can do this, we can afford to do this, and I ask for your help.

This faith has been tested enough of late. Oil prices skyrocketed in 2008, and we shook our heads and sometimes our fists at the record prices we paid for gasoline and diesel over the summer. Six months later, we are shaking our heads again as those same prices plummet to levels we thought would never return. However, we know that gas prices won’t stay low, because oil-producing countries won’t let them. OPEC has already reduced supply in an effort to bring back higher prices and increase profits. In our nation, this activity would be prosecuted as an anti-trust violation. When a collection of foreign nations is involved, it amounts to international blackmail.

We can’t change OPEC, but as Arkansans and Americans, we can change the game. By continuing to develop alternative energies, we lessen our dependence on fossil fuels and shrug off the grip of foreign powers. That money can go into the pockets of farmers, timber growers, and innovators in Arkansas and throughout America, creating jobs while we become better stewards of our environment, our resources, and our national security.

Alternative fuels are only part of the solution. We must conserve energy and operate more efficiently to preserve our natural resources and to lower costs. Arkansas recently formed a partnership with the Clinton Climate Initiative, a joint effort that gives us the guidance and purchasing power to construct and retrofit buildings for energy efficiency without additional cost to taxpayers. State government will lead by example, conserving both our natural resources and our tax dollars.
Arkansas sits amidst the Fayetteville Shale, a rich source of natural gas and a welcome boost to our economy. This year, we will see new revenue from the severance of this natural resource, money destined to improve our highways. The amount of revenue is tied to the price of natural gas, which has swung just as wildly as oil prices. Still, we will see tens of millions of dollars in new money for state and local roads. Additionally, this money will fund new resources for the Arkansas Department of Environmental Quality to regulate and monitor these drilling operations and safeguard our Natural State.

We have the opportunity, in this session, to take our next big step forward as a State. We've started the climb from the bottom of national rankings in both education and economic development. You might have seen this week we were ranked 10th in that overall report card on education - who ever thought Arkansas would be 10th? Now it is time to do the same for the health of our citizens. Education lasts a lifetime and new jobs can take lives to new and prosperous heights. But by improving the health of our citizens, we can free them from ailments that threaten their well-being and help prevent chronic illnesses that are so devastating and so costly. Providing new and better health-care programs that offer more options is an investment that we cannot afford to ignore.

Our State is becoming a shining example for attacking the problem of uninsured children. Ten years ago, nearly one in four Arkansas children had no health insurance. Through the ARKids First program, we have provided care to tens of thousands of Arkansas children. New statistics show that a decade later, the percentage of uninsured Arkansas children has fallen into single digits. Still, nearly 70,000 children in our State remain without health insurance, and we can continue chipping away at that number by increasing the maximum eligible income to 250 percent of the federal poverty level.

Arkansans must have more home-health programs. More options for outpatient treatment will keep our loved ones in familiar surroundings and out of institutions, whenever possible. Our community health centers, which are best suited to provide basic health services directly to Arkansans, need more resources to help more people.

I am excited about a UAMS residency program taking shape in Northwest Arkansas. It will prepare new doctors and other health professionals by providing the experience they need to finish their medical education and care for patients throughout Arkansas. The State will keep its promise to match the enthusiastic private fundraising efforts already undertaken to initiate the satellite program. But ongoing funding must be provided to keep it operational.

We can expand our statewide coordinated school-health system to provide new resources and equipment for our school nurses and in-school mental-health services for our children. We can explore new outlets of care for autistic children. We can step up our fights against breast, cervical, prostate, and other cancers. Our health-education centers, the AHECs, can expand preventive-care programs that keep our people healthy and reduce state Medicaid costs. We can give thousands of Arkansans, who can’t afford regular dental care, relief from persistent pain and infections that cause other health problems. We can fight hunger, a daily drain on the health and wellness of so many Arkansans. We can make annual flu vaccines available to every man, woman, and child who wants one, again reducing the toll of lives lost and taxpayer money spent.

And, we can save lives through the establishment of a statewide trauma system.
When traumatic accidents occur on our roads, on our farms, at our businesses, and in our homes, the first hour of response can determine the difference between life and death.

Trauma is the leading cause of death among Americans ages 1 through 34. With a fully functional trauma system in place, first responders can more easily ascertain where to deliver a critically injured patient to receive the best treatment.

We can pay for this entire health-care package, everything I've just outlined, with a 56 cent increase to Arkansas's cigarette tax and a reform of the smokeless tobacco tax.

By their nature, tobacco taxes are a dwindling revenue stream as higher prices, prevention, and cessation reduce the number of tobacco users. However, the savings that decreased smoking will bring to our health-care system will be a welcome offset to any revenue lost from decreased tobacco sales. Caring for tobacco users costs an estimated $620 million a year in Arkansas. By simultaneously reforming our tax on smokeless tobacco, we will prevent driving young people away from increased cigarette prices and directly to another harmful form of tobacco.

Improving our health-care system will increase productivity at our businesses and decrease the need for remediation in the classroom. It will make our citizens, and our bottom line, healthier.

These are the times that display our mettle as citizens and our capabilities as leaders. Arkansas's unique position in this economic climate means we can still push forward toward excellence in education. We can still attract new jobs and have an able workforce ready to succeed. We can continue to attack the most regressive tax on our people. We can better protect the health of our citizens. Arkansans, who are the victims of traumatic accidents or who have conditions that hamper their everyday lives, deserve a more accessible health-delivery system to help them lead better lives. We can foster research and development to bring alternative energies and fuels to power our economic engine and conserve our resources. We can graduate more college students while securing the jobs that will keep them home to prosper in Arkansas. We can reform protective services for children in the State's care. We can support and nourish the faith of those who have given us the task of responding to their needs through responsible leadership.

We can accomplish all of these goals, even while facing the toughest economic time in two generations. Finding success among prosperity is admirable, but if we can capture success and continue moving Arkansas forward during a national recession, it will be a landmark of true achievement. Join me, and we will show our people in Arkansas, that you can receive a better education, you can find a better job, and you can lead a healthier, better life. And most importantly, we can restore in their minds and in their hearts the understanding and the idea that the institutions which have held this country together for over 200 years - the republic form of government which elects people to look out for their interests and to exercise their will; the democratic process that says we never lose faith with the people that we represent, and that we do what we tell them we're going to do - can restore the faith in our leaders and in our government, and reduce that cynicism that is such a cancer and which must be combated. Together, the men and women of the Senate and the House of Representatives can chart the course that will impact so many future generations - so that you can put your head on your pillow, and you can say you did your duty, you made Arkansas a better place. God bless you all. Thank you.

AND

Page 2, delete SECTION 2 in its entirety and substitute the following:
"SECTION 2.  EMERGENCY CLAUSE.  It is found and determined by the General Assembly of the State of Arkansas that the country is in a recession, that the state retirement systems have suffered from the failing economy, that increasing the time period that a member must be terminated from employment in order not to rescind his or her retirement benefits will benefit the Arkansas Public Employees' Retirement System, and that it is considered sound public policy to increase this time period. Therefore, an emergency is declared to exist and this act being necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2009."

(ii) The annual license fees for vehicles classified as either farm or natural resources vehicles shall be as follows:

(a) For a vehicle with two (2) axles, including mini-trucks, a fee of three dollars and ninety cents ($3.90) per one thousand pounds (1,000 lbs.) of gross loaded weight of the vehicle, with a minimum fee of thirty-two dollars and fifty cents ($32.50) and a maximum fee of sixty-five dollars ($65.00) for each vehicle;

(c) For a vehicle with four (4) axles, a fee of one hundred thirty dollars ($130);

(d) For a vehicle with five (5) axles, a fee of one hundred sixty-two dollars and fifty cents ($162.50);

(e) For a vehicle with five (5) axles used exclusively by the owner of livestock or poultry in hauling animal feed for consumption in this state by the owner's livestock or poultry, a fee of six hundred fifty dollars ($650); and

(f) Notwithstanding any of the provisions of this subdivision (a)(3)(H) to the contrary, for a vehicle to be operated separately or in combination with other vehicles, which vehicle or combination has a total outside width in excess of one hundred two inches (102") but not exceeding one hundred eight inches (108") and is utilized or intended to be utilized to transport compacted seed cotton, the annual license fee shall be six hundred fifty dollars ($650). Provided, any full trailer or semitrailer used in combination with such registered vehicle shall also be registered in accordance with and pursuant to the applicable fees set out in subdivision (a)(3)(I) of this section. That portion of the annual license fee established by this subdivision (a)(3)(H)(ii)(f) which equals four hundred eighty-seven dollars and fifty cents ($487.50) is declared to be a permit fee for the use of the public roads and streets of this state by such vehicles while operated separately or in combination with other vehicles due to the unusual design and size of such vehicles or combinations of vehicles.

(iii)(a) The foregoing vehicles shall not exceed the maximum axle load permitted by law.

(b) Five-axle vehicles may haul maximum gross loaded weights of up to eighty thousand pounds (80,000 lbs.) without the purchase of any additional or different type license.

(iv) The Director of the Department of Finance and Administration shall cause to be issued special and distinctive license plates for vehicles in this classification, with separate farm license plates to be established for those vehicles used in the noncommercial hauling of farm products produced in this state, and for hauling feed, seed, fertilizer, poultry litter, and other products commonly produced or used in agricultural operations or compacted seed cotton and separate natural resources license plates to be established for those vehicles hauling timber products, clay minerals, or ores.

(v)(a) Before any license may be issued for a vehicle
designated as either a farm vehicle or a natural resources vehicle, the applicant shall, by affidavit, state that he or she is familiar with the purposes for which such licenses may be used as authorized under this classification and that he or she will not use such vehicle for which application for license is made for any purpose not authorized under this classification. The applicant shall indicate on his or her affidavit whether the vehicle is to be used for the hauling of farm products, animal feed, compacted seed, or cotton, or for the hauling of forest products, clay minerals, or ores.

(b) If the applicant is the owner of a mini-truck, then the affidavit shall state that the vehicle is being used exclusively for farm purposes and that the mini-truck meets the other requirements of § 27-14-726.

(vi)(a) Upon submitting an affidavit, any person entitled to obtain a natural resources farm license for a motor vehicle used for hauling farm products as authorized under this classification, if the vehicle is required for only seasonal or occasional use, may be issued a natural resources farm license for the vehicle for the first six (6) months of the annual licensing period, at a rate equal to one-half (½) of the annual fee but in no event less than sixty-five dollars ($65.00) or for the last month of the current annual licensing period and the first six (6) months of the subsequent annual licensing period at a rate equal to seven-twelfths (7/12) of the annual fee but in no event less than seventy-five dollars ($75.00).

(b) The director shall issue special distinctive license plates or license plate validation decals for the vehicles, including the indication thereon of the expiration date, so as to identify them from annual natural resources plates.

(vii) The owner of any motor vehicle who is entitled to obtain a natural resources farm license for such motor vehicle for use in hauling farm products as authorized in this subdivision (a)(3)(H) may use such motor vehicle for the hauling of baled cotton from the cotton gin to a cotton compress without the necessity of the payment of additional license fees or the obtaining of additional license plates for such motor vehicle.

(viii) The director shall promulgate such rules and regulations as may be necessary to carry out the intent of this classification and prevent abuse thereof. However, before any such rules or regulations shall be effective, they shall be approved by majority action of the members of the State Highway Commission acting for and in behalf of the Arkansas Highway Police Division of the Arkansas State Highway and Transportation Department, which is the agency charged with the principal responsibility of enforcing the motor vehicle license laws of this state.

(ix) Vehicles licensed under this classification for the hauling of farm products only shall be permitted, without payment of additional fees, to transport return loads to the farm or domicile of the owner of such vehicles where such return load contents are the property of, and to be used or consumed by, the owner of the vehicle or his family.

(x) If a violation of the natural resources classification, as authorized in this subdivision (a)(3)(H) is discovered, a license must immediately be purchased for such vehicle in accordance with the rate of license that should lawfully be required for such vehicle for so moving on the roads and highways of this state. No credit shall be given on the purchase price of such license for any amount or amounts paid for license hitherto purchased for use on such vehicle. This requirement of license purchase shall not be in lieu of any criminal prosecution.

(xi) All affidavits required under the provisions of this subdivision (a)(3)(H) shall be acknowledged by the director, his or her authorized agent, or some other person authorized by the laws of this state to administer oaths;

(xii) The owner of a mini-truck under § 27-14-726 may license and register the mini-truck as a Class Eight farm vehicle if the vehicle is used for farm purposes.
SECTION 2. Arkansas Code § 27-14-705(b)(2)(B), regarding the application for registration and certificate of title, is amended to read as follows:

(B)(i) The certificate of origin shall be furnished to the dealer by the manufacturer and shall accompany the application for license and title.

Arkansas Senate
Eighty-Seventh General Assembly
Regular Session
Amendment No. 1 to Senate Bill No. 194

Amend Senate Bill No. 194 as originally introduced:
Delete Section 23 in its entirety and substitute the following:

"SECTION 23. SPECIAL LANGUAGE. NOT TO BE INCORPORATED INTO THE ARKANSAS CODE NOR PUBLISHED SEPARATELY AS SPECIAL, LOCAL AND TEMPORARY LAW. TRANSFER PROVISION - INDUSTRY TRAINING. If during either year of the 2007-2009 fiscal biennium year, the Industry Training Division effects savings in Item (05) (08), Industry Training Program State Operations Section of this Act, such savings may be transferred to Item (02), Extra Help or Item (04), Maintenance and General Operations, of the Industry Training State Operations Section of this Act, after obtaining approval of the Chief Fiscal Officer of the State and after prior review by the Legislative Council or Joint Budget Committee. In addition, if any savings are effected in either year of the 2007-2009 fiscal biennium year in item (04), Maintenance and General Operations, of the Industry Training State Operations Section of this Act, such savings may be transferred to item (05) (08), Industry Training Program, of the Industry Training State Operations Section of this Act, after obtaining approval of the Chief Fiscal Officer of the State and after prior approval by the Legislative Council or Joint Budget Committee."
Determining the maximum number of employees and the maximum amount of appropriation and general revenue funding for a state agency each fiscal year is the prerogative of the General Assembly. This is usually accomplished by delineating such maximums in the appropriation act(s) for a state agency and the general revenue allocations authorized for each fund and fund account by amendment to the Revenue Stabilization law. Further, the General Assembly has determined that the Department of Economic Development may operate more efficiently if some flexibility is provided to the Department of Economic Development authorizing broad powers under this Section. Therefore, it is both necessary and appropriate that the General Assembly maintain oversight by requiring prior approval of the Legislative Council or Joint Budget Committee as provided by this section. The requirement of approval by the Legislative Council or Joint Budget Committee is not a severable part of this section. If the requirement of approval by the Legislative Council or Joint Budget Committee is ruled unconstitutional by a court of competent jurisdiction, this entire section is void.

The provisions of this section shall be in effect only from July 1, 2007 through June 30, 2010."

(b) The notice of election shall state that the election is to be held for the purpose of submitting to the people the following proposition, in substantially the form set forth herein:

"Authorizing the State Highway Commission to issue State of Arkansas Federal Highway Grant Anticipation and Tax Revenue Bonds (the "Bonds") from time to time provided that the total principal amount outstanding from the issuance of such bonds, together with the total principal amount outstanding from the issuance of bonds pursuant to Arkansas Highway Financing Act of 1999, § 27-64-201 et seq., shall not, at any time, exceed five hundred seventy-five million dollars ($575,000,000). If approved, the bonds will be issued in one or more series of various principal amounts, with the last series being issued no later than December 31, 2015. The bonds shall be issued for the purpose of paying the cost of constructing and renovating improvements to interstate highways and related facilities in the State of Arkansas.

The bonds shall be general obligations of the State of Arkansas, payable from certain designated revenues and also secured by the full faith and credit of the State of Arkansas, including its general revenues. Pursuant to the Arkansas Interstate Highway Financing Act of 2007 (the "Bond Act"), the bonds will be repaid first from: (1) revenues derived from federal highway assistance funding allocated to the State of Arkansas designated as federal highway interstate maintenance funds, and (2) revenue derived from the increase in the excise tax levied on distillate special fuels (diesel) pursuant to section 2 of the "Arkansas Distillate Special Fuel Excise Tax Act of 1999" and the "Motor Fuel Excise Tax Act of 1999" and transferred to the State Highway and Transportation Department Fund pursuant to § 27-70-207(c) in accordance with section 4(a) of the "Arkansas Distillate Special Fuel Excise Tax Act of 1999" and the "Motor Fuel Excise Tax Act of 1999." To the extent that designated revenues are insufficient to make timely payment of debt service on the bonds, such payment shall be made from the general revenues of the State of Arkansas. The bonds shall be issued pursuant to the authority of and the terms set forth in the Bond Act.

Pursuant to the Bond Act, the highway improvements to be financed are limited to the restoration and improvements to all of the interstate highway system within the state, including roadways, bridges, or rights-of-way under jurisdiction of the State Highway Commission, which shall also include the acquisition, construction, reconstruction, and renovation of such interstate highway system and facilities appurtenant or pertaining thereto.
Pursuant to the Bond Act, “designated revenues” are defined as: (1) that portion designated by the commission of all funds received or to be received from the federal government as federal highway interstate maintenance funds, and (2) revenues derived from the increase in taxes levied on distillate special fuels pursuant to section 2 of the “Arkansas Distillate Special Fuel Excise Tax Act of 1999” and the “Motor Fuel Excise Tax Act of 1999” and transferred to the State Highway and Transportation Department Fund pursuant to Arkansas Code § 27-70-207(c) in accordance with section 4(a) of the “Arkansas Distillate Special Fuel Excise Tax Act of 1999” and the “Motor Fuel Excise Tax Act of 1999.” Designated revenues shall not include the revenues derived from the increase in tax on motor fuel (gasoline) resulting from the “Arkansas Distillate Special Fuel Excise Tax Act of 1999” and the “Motor Fuel Excise Tax Act of 1999”. The bonds are further secured by the full faith and credit of the State of Arkansas, and to the extent “designated revenues” are insufficient to make timely payment of debt service on the bonds, the general revenues of the state shall be used to pay debt service on the bonds.”

(c) The ballot title shall be “Issuance of State of Arkansas Federal Highway Grant Anticipation and Tax Revenue Bonds and pledge of full faith and credit of the State of Arkansas.” On each ballot there shall be printed the title, the proposition set forth in § 27-64-406 and the following:

“FOR authorizing the State Highway Commission to issue State of Arkansas Federal Highway Grant Anticipation and Tax Revenue Bonds from time to time provided that the total principal amount outstanding from the issuance of such bonds, together with the total principal amount outstanding from the issuance of bonds pursuant to the Arkansas Highway Financing Act of 1999, Arkansas Code § 27-64-201 et seq., shall not, at any time, exceed five hundred seventy-five million dollars ($575,000,000); such bonds to be issued in one or more series of various principal amounts, with the last series being issued no later than December 31, 2015, and to be secured by the full faith and credit of the State of Arkansas . . . . .[ ]”

“AGAINST authorizing the State Highway Commission to issue State of Arkansas Federal Highway Grant Anticipation and Tax Revenue Bonds from time to time provided that the total principal amount outstanding from the issuance of such bonds, together with the total principal amount outstanding from the issuance of bonds pursuant to the Arkansas Highway Financing Act of 1999, Arkansas Code § 27-64-201 et seq., shall not, at any time, exceed five hundred seventy-five million dollars ($575,000,000); such bonds to be issued in one or more series of various principal amounts, with the last series being issued no later than December 31, 2015, and to be secured by the full faith and credit of the State of Arkansas . . . . .[ ]”

(b) The railroad is entitled to rely on a contract carrier's certification that it is operating in compliance with this subchapter without further inquiry.

SECTION 2. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that safety issues have arisen where the contract carrier that transports railroad employees have operated under less than ideal circumstances; that by establishing standards in state law that are consistent with federal law, railroad employees will be provided transportation that complies with recognized safety standards; and that this act is immediately necessary to ensure the safe transportation of railroad employees by contract carriers. Therefore, an emergency is declared to exist and this act being immediately necessary for the preservation of the public peace, health, and safety shall become effective on:
(1) The date of its approval by the Governor;
(2) If the bill is neither approved nor vetoed by the Governor, the expiration of the period of time during which the Governor may veto the bill; or
(3) If the bill is vetoed by the Governor and the veto is overridden, the date the last house overrides the veto."

SECTION 3. Arkansas Code § 24-10-602(a)(2)(A) and (B), concerning annuities in the Local Police and Fire Retirement System, is amended to read as follows:

(A) For each year of paid service rendered on or after the election date of the Benefit Program 2 and before the election is rescinded:

(i) In a position also covered by social security, two and six-tenths percent (2.6%) of the
member's final average salary; and
(ii) In a position not covered by social security, three and
ten-thousand percent (3.1%) three and twenty-eight hundredths percent (3.28%) of the
member's final average salary.

(B)(i) For each year of paid service rendered before the election
date of the Benefit Program 2 or after the election is rescinded:
(a) In a position also covered by social security,
one and seven-tenths percent (1.7%) one and ninety-four hundredths percent
(1.94%) of the member's final average salary; and
(b) In a position not covered by social security,
two and seven-tenths percent (2.7%) two and ninety-four hundredths percent
(2.94%) of the member's final average salary.

(ii) A member who has paid service rendered before the
election date of Benefit Program 2 or after the election is rescinded and
subsequently readopted may have the paid service rendered on or after July 28,
1995, treated as though the paid service had been rendered after the election date
of Benefit Program 2 by paying to the system the actuarial cost of the increased
benefit by a single contribution or by an agreement to pay an increased rate of
contributions if approved by the board.

(iii) As used in subdivision (a)(2)(B)(ii) of this section,
"actuarial cost" means an amount that is the actuarial equivalent of the value of the
credited service to be purchased at the time of the purchase, as determined by the
system's actuary.

SECTION 4. Arkansas Code § 24-10-602(a)(4), concerning annuities in the
Local Police and Fire Retirement System, is amended to read as follows:
(4)(A) The total benefit amount computed under subdivision subdivisions
(a)(1) and (2) of this section shall not exceed at the time of retirement
eighty-five percent (85%) one hundred percent (100%) of the final average pay plus
the amounts provided in subdivision (a)(5) of this section for volunteer service; and
(B) If the member accrued a benefit at any time under Benefit
Program 2 described in subdivision (a)(2) of this section, then the total of the
amounts computed pursuant to subdivisions (a)(1) and (2) of this section shall not
exceed at the time of retirement eighty-five percent (85%) of the final average pay
plus the amounts provided in subdivision (a)(5) of this section for volunteer service;
and

SECTION 5. EMERGENCY CLAUSE. It is found and determined by the
General Assembly of the State of Arkansas that economic conditions have resulted
in the need to increase retirement benefits; that it is sound public policy to increase
the retirement benefit multiplier; and that the increase should be funded by an
increase in the member's contribution. Therefore, an emergency is declared to exist
and this act being necessary for the preservation of the public peace, health, and
safety shall become effective on July 1, 2009:"

(B) If the application is based on a presumed duty disability under subdivision (c)(1)(A)(ii) of this section, then a written application shall be made to the board not later than five (5) years after the termination of active membership.

(2)(3) A written application to the board by the member or former member or on behalf of the member shall be filed with the board not later than one (1) year after the termination of active membership.

(8) “Skilled nursing facility” means a nursing home or a distinct part of a retirement housing facility, which home or distinct part is licensed by the Office of Long-Term Care of the Department of Human Services, or any similar successor agency, as meeting the skilled nursing facility licensure regulations and which provides skilled nursing care and supportive care on a twenty-four-hour basis to residents whose primary need is for availability of skilled nursing care on an extended basis; and

(9) “System” means the Arkansas Teacher Retirement System as established by § 24-7-201 et seq.

24-7-1404. Authority—Responsibility.
(a) Authorization. In addition to all of the other powers and authorities previously granted to the Arkansas Teacher Retirement System along with the other Arkansas retirement systems and specifically in addition to those powers set forth in § 24-3-410 [repealed], the system is authorized to construct, acquire by purchase, gift, or otherwise, and to own and operate facilities;

(b) Additional Authority. In furtherance of the authority granted in subsection (a) of this section and for the other purposes set forth in this subsection, the system, either directly or indirectly through a wholly owned subsidiary, is authorized and empowered to:

(1) Investigate and obtain information concerning members’ present and projected needs for services such as those offered by the facilities;

(2) Construct and equip facilities or acquire by gift or purchase existing buildings and the sites upon which they are situated for use as or to be converted to facilities and held as investments of the system while providing additional benefits to members;

(9) Cooperate with the Arkansas Development Finance Authority for the issuance of bonds pursuant to the Arkansas Development Finance Authority Act, § 15-5-101 et seq., to finance the acquisition, construction, leasing or equipping, or purchase of the facilities authorized by this subchapter;

(10) Take such other action, not inconsistent with law, as may be necessary or desirable to carry out the powers, purposes, and authorities set forth in this subchapter and to carry out the intent of this chapter;

(11) To enter into lease-purchase agreements, as lessee or lessor, to obtain the facilities;

(12) Create wholly owned subsidiary corporations, limited liability companies, and other legal entities to facilitate the financing of facilities and to own or operate facilities. Such subsidiary corporations or other legal entities may be a venture in a joint venture, a general or limited partner in a partnership, a member of a limited liability company, and may have such status in other legal entities composed of governmental agencies (federal or state), private individuals, partnerships, corporations, or other entities, as might be necessary or desirable to accomplish the purposes of this subchapter; and

(iii) In addition to the limitations set forth in subdivision (b)(13)(A)(ii) of this section, the system shall not be authorized to enter into any kind of guaranty or credit enhancement arrangement if the amount of debt guaranteed or credit enhanced when added to all previous guaranty or enhancement arrangements still in effect would exceed three percent (3%) of the total assets of the system as reflected on its most recent balance sheet.
(B) If the system should enter into any guaranty or other credit enhancement arrangement for any subsidiary corporation or other owned entity, it shall be entitled to charge such subsidiary or other entity a fee for providing the credit enhancement. Such fee is not to exceed one percent (1%) of the principal amount of the credit enhanced, unless the board, with the advice of counsel, finds that the charging of such a fee could adversely affect the credit being enhanced by adversely affecting the availability or the cost of the credit or have any other adverse effect on such credit.

24-7-1405. Trust assets.
When investing and managing trust assets as a prudent investor, the Board of Trustees of the Arkansas Teacher Retirement System may consider the benefits members may obtain from investments which return more than a return on principal but also provide other benefits to the members, such as health care, housing, and entertainment, including, but not limited to, investment in the ownership or operation of facilities for the use and benefit of qualified occupants.

24-7-1406. Facilities.
The Board of Trustees of the Arkansas Teacher Retirement System shall make the final determination regarding the location, design, purpose, construction, and operation of the facilities. 24-7-1408. Appropriate investment of funds.
If made in compliance with the requirements and limitations of this subchapter and in compliance with the prudent investor rule set forth in §§ 24-3-417 — 24-3-426, investments made by the Arkansas Teacher Retirement System in facilities are hereby declared by the General Assembly to be an appropriate investment for funds of the system.

24-7-1409. Permit of approval.
Nothing in this subchapter exempts the Arkansas Teacher Retirement System, its subsidiaries, corporations, or other related legal entities from the requirement to acquire a permit of approval, as set forth in § 20-8-101 et seq., or any Office of Long-Term Care licensure or certification requirement to own, operate, or manage a long-term care facility.

SECTION 28. EMERGENCY CLAUSE. It is found and determined by the General Assembly of the State of Arkansas that certain provisions of the Arkansas Teacher Retirement System Act are in dire need of technical correction to bring them into conformance with the current public pension policy; that such technical correction is of great importance to members of the Arkansas Teacher Retirement System and to other citizens of the State of Arkansas; and that this act is immediately necessary in order to maintain an orderly system of benefits for the members of the Arkansas Teacher Retirement System. Therefore, an emergency is declared to exist and this act being necessary for the preservation of the public peace, health, and safety shall become effective on July 1, 2009.
