31 2019".  
32

33 SECTION 2. DO NOT CODIFY. Legislative findings and intent.

34 (a) The General Assembly finds that:

35 (1) The State of Arkansas recognizes that maintaining the  
36 public's safety is a sacred trust of the government;

1           (2) The citizens of Arkansas depend on state government to  
2 provide for public welfare and safety; and

3           (3) To ensure public welfare and safety, it is important and  
4 worthy to achieve the following public safety priorities:

5                   (A) Developing a next generation 911 system;

6                   (B) Replacing the Arkansas Emergency Telephone Services  
7 Board with the Arkansas 911 Board; and

8                   (C) Providing upgrades and maintenance funding for the  
9 Arkansas Wireless Information Network.

10           (b) It is the intent of the General Assembly to simplify and update  
11 charges paid by telecommunication subscribers to provide the best public  
12 safety communications and services possible to all Arkansas and first  
13 responders by:

14                   (1) Developing a next generation 911 system;

15                   (2) Replacing the Arkansas Emergency Telephone Services Board  
16 with the Arkansas 911 Board; and

24 Safety Communications and Next Generation 911 Act of ~~1985~~ 2019”.

25  
26           12-10-302. Legislative findings, policy, and purpose.

27           (a) It has been determined to be in the public interest to shorten the  
28 time and simplify the method required for a citizen to request and receive  
29 emergency aid.

30           (b) The provision of a single, primary three-digit emergency number  
31 through which fire suppression, rescue, disaster and major emergency,  
32 emergency medical, and law enforcement services may be quickly and  
33 efficiently obtained will provide a significant contribution to response by  
34 simplifying notification of these emergency service responders. A simplified  
35 means of procuring these emergency services will result in saving of life, a  
36 reduction in the destruction of property, quicker apprehension of criminals,

1 and ultimately the saving of moneys.

2 (c) Establishment of a uniform emergency telephone number is a matter  
3 of concern to all citizens.

4 (d) The emergency number 911 has been made available at the national  
5 level for implementation throughout the United States and Canada.

6 (e) It is found and declared necessary to:

7 (1) Establish the National Emergency Number 911 (nine, one, one)  
8 as the primary emergency telephone number for use in participating political  
9 subdivisions of the State of Arkansas;

10 (2) Authorize each chief executive to direct establishment and  
11 operation of ~~911 public safety communications centers~~ answering points in  
12 their political subdivisions and to designate the location of a ~~911 public~~  
13 safety ~~communications center~~ answering point and agency which is to operate  
14 the center. As both are elected positions, a county judge must obtain  
15 concurrence of the county sheriff;

16 (3) Encourage the political subdivisions to implement ~~911 public~~  
17 safety ~~communications centers~~ answering points; and

18 (4) Provide a method of funding for the political subdivisions,  
19 subject to the jurisdiction of the Arkansas 911 Board, which will allow them  
20 to implement, operate, and maintain a ~~911 public safety communications center~~  
21 answering point.
